Henry Rouse, last Saturday morning, concluded it would be a good time to burn a little pile of brush, which had been in his way for some time, and he thought it was surely dry enough; so he got his kindling, placed it in position and struck a match to it, and it burned nicely, and he was rejoicing that he had it out of his way. He then went to dinner thinking the thing was ended, but in a short while after reaching the house, he happened to look in the direction of his brush-pile, and saw considerable smoke, and concluded to go and see about it. On reaching the spot he found that nearly everything was on fire, and the question with him was what to do, but, fortunately quite a number of the neighbors saw the smoke and went to his assistance, and, after several hours hard work, they succeeded in extinguishing the fire. Fortunately there was no very great loss, only a few panels of fence, but it came very near reaching a barn. Henry thanked the men that came to his rescue and said he did not care what they said about it.

FRANCESVILLE.—A number of our people are still hauling water and wishing for rain.

Mrs. Johnnie Beall is visiting her mother in Delhi, Ohio.

Sorry to hear that William Hedges lost a valuable horse, last week.

Please say in your next issue that it was Emmet and not Harry Kilgour, who shot the dead rabbit.

Mrs. Charles McFee and daughter were guests of Mr. and Mrs. Wash Tanner, a day or two last week.

A photographer visited the school near here, last Friday, and photographed the teacher, Mr. Keene Souther, and the pupils.

Weudel Miller, of Taylorsport says that he owes no taxes, and the placing of his name in the delinquent list was a mistake of somebody's.

Mrs. Emily Rucker, of Petersburg, and Mrs. Jane Conner, of the Hebron neighborhood, were guests of Mr. and Mrs. Joe Graves on Tuesday.

Mrs. Zeke Aylor entertained her parents, Mr. J. A. Riddell and wife, and Mr. Will Riddell and wife, of Lexington, and others, a few days since.

Wednesday Mr. and Mrs. Jas. Casey entertained Mrs. Emily Rucker, of Petersburg, and Miss Emma Conner and Mrs. Amanda Graves and daughter.

Stepped Into Live Coals.

"When a child I burned my foot frightfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by W. F. McKim, Burlington; Union Drug Store, Union; J. G. Oelsner, Florence; H. L. Eskew, Walton; O. N. Grant, Bellevue.

Persons have been learning how to economize in the use of water, this summer. The season started in with a supply considerably in excess of the demand, but quite the contrary is the condition now, and the indications are good for a continuation of the drouth.

A Fiendish Attack.

An attack was lately made on C. F. Collier, of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oelsner's, Florence; H. L. Eskew's, Walton; O. N. Grant's, Bellevue.

On Tuesday of last week, Attilla Kirby, who was at work for Elijah Scott, in East Bend, shot and badly mangled a hog belonging to Murray Ryle. To avoid prosecution Kirby went to Rising Sun and remained until Thursday morning, when he took passage on the Workum for his home in Carrollton. By some means Mr. Ryle obtained information of what he intended to do, and securing a writ for Kirby's arrest he went to Hamilton, Thursday morning, to which place he called Deputy Sheriff Aliphin by 'phone, and when the boat landed there that morning the officer went on board, and arrested Kirby, whose meeting with the officer was very unexpected. Kirby was taken before Esq. Moses Scott, and after some parleying the matter was settled without a trial, it costing Kirby about $5.

COMMISSIONER'S NOTICE.

Boone Circuit Court, Ky.

Adam Bauer and Katharine Bauer's Adm'rs., Plff.

vs. } Notice.

Joseph Bauer, &c., Deft.

Notice is hereby given that all persons having claims against the estate of Adam Bauer, deceased, must present them to the undersigned properly proven according to law. He will begin his sittings to hear proof of claims Oct. 7th, 1901, in the Circuit Clerk's office and continue from day to day (Sundays excepted) until Nov. 23, 1901.

ALL WOMEN

Wine of Cardui is the guardian of a woman's health and happiness from youth to old age. It helps her safely into womanhood. It sustains her during the trials of pregnancy, childbirth and motherhood, making labor easy and preventing flooding and miscarriage. It gently leads her through the dangerous period known as the change of life.

WINE OF CARDUI

cures leucorrhœa, falling of the womb, and menstrual irregularity in every form. It is valuable in every trying period of a woman's life. It reinforces the nervous system, acts directly on the genital organs and is the finest tonic for women known. Ask your druggist for a $1.00 bottle of Wine of Cardui.

Batesville, Ala., July 11, 1900.
I am using Wine of Cardui and Thedford's Black-Draught and I feel like a different woman already. Several ladies here keep the medicines in their homes all the time. I have three girls and they are using it with me.
Mrs. KATE BROWDER.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

We are teaching the People What FAIR PRICES Really Are.

Our store is a good place for Economical people and not a bad place for Extravagant people.

To demonstrate this lesson we quote as follows:

Perfumeries that others sell for				60c oz. we sell at	40c
Ayer's Hair Vigor	"	"	"	1.00 we sell at.....	75c
Peruna that	"	"	"	1.00 we sell at.....	71c
Pinkham's Comp.	"	"	"	1.00 we sell at.....	71c
Syrup of Figs	"	"	"	50 we sell at.....	38c
Hair Brushes that others sell for 70c and $1 we sell at 50c and 75c					

Can you **Afford to go out of your way** for drugs if you can save from **25 to 40 per cent.** by purchasing from us? **Stop and consider this Question.**

Local News.

Do not forget to go to the election next Tuesday and vote.

Next Tuesday is the election. Go to the polls early and vote.

This has been a splendid fall for getting out stone for repairing roads.

Legrand Gaines, living near town, has a good fresh cow and calf for sale.

The pavement in front of the Presbyterian church is being renovated.

Four houses in Lawrenceburg are quarantined on account of small-pox.

This is an off year in Kentucky, politically, but you should go to the polls and vote.

The nominee on each ticket is worthy the vote of ever member of his party in this county.

Cards with, "positively no hunting allowed," printed in large, black letters, for sale at this office.

Mrs. Martha Delph denies vehemently and emphatically the statement of our Flickertown correspondent that she said she was an anarchist.

The young people of Burlington and vicinity have inaugurated the party season, and have set a lively clip, there being three or four parties every week.

In the death of Miss Kate Kirtley, East Bend neighborhood loses one of its oldest and most esteemed citizens. She was a sister of the late Milton and Homer Kirtley.

The entertainment for the benefit of the Sunday school will be given Saturday night, November 9, at the Petersburg Christian church instead of on Friday night as stated last week.

For sale—I will offer for sale at public auction in Burlington, Ky., County Court day, Nov. 4th, three 14-months old Jersey bulls. They are high-grade animals. JOE SCOTT, Florence.

The Teachers' Association which is to meet at the Bullittsburg schoolhouse will meet on the 3d Saturday instead of the 2d, as that conflicts with pay day. L. H. VOSHELL.

"Bud" Conner, of Hebron, came over last Saturday afternoon, and engaged Dr. Rouse and O. P. Conner at checkers. Score—Rouse, 5 games, "Bud" Conner, 1. O. P. Conner, 3, "Bud" Conner, 1.

We desire to extend our thanks to our friends in Burlington and vicinity to us in the great affliction in the death of our father and uncle.

Fannie G. Rice,
Kirtley Rice,
W. J. Rice.

One day last week the horse driven by Mrs. A. P. Collins, of Richwood, backed the buggy over a steep bank near where the railroad crosses the pike at Erlanger. The buggy was badly wrecked and Mrs. Collins bruised considerably. Fortunately the horse did not attempt to run.

Notice.—I take this method of informing my friends that I am able to resume my work in the shop again. I quote prices—new shoes, plain, $1 per set; toed, $1 20; for resetting, 40c per set, and all other work done in proportion. Thankful for past favors, I still solicit your patronage in the future.
—ROBERT COX, Waterloo.

Several persons were hauling water from a well belonging to the Lexington Turnpike Company at the old toll-gate site, near R. K. Dulaney's below Erlanger, and for fear some accident might happen to some one and involve the turnpike in trouble, the Company had the well filled up a few days ago, an act of almost unparalleled benevolence (?).

As Johnnie Duncan was coming down the hill to Limaburg, on his way home from Erlanger, one day last week, with a load of coal, the break on his wagon refused to work, and he came near going over the bank. In which event there would have been an ugly wreck, and probably one or both of the horses killed or badly hurt. A pile of broken rock on the side of the road was all that averted the disaster.

A letter received of Samuel Adams, son of Jailer Adams, locates him at Medical Lake, Washington. That he says, is a mountainous country, with fir and pine timber abundant. A great deal of wheat, oats and barley is produced there, the wheat, when green, being cut for hay. Cattle, hogs and sheep are raised. As fine vegetables as are produced anywhere are found in that country, for which Seattle furnishes a very good market. Mr. Adams writes as if he is well pleased with the country.

Stricken With Paralysis.

Henderson Grimett, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—Geo. R. McDonald, Man. Logan county, W. Va. Several other very remarkable cures of partial paralysis have been affected by the use of this liniment. It is most widly known, however, as a cure for rheumatism, sprains and bruises. Sold by all druggists.

Evangelist Wm. P. Buell, of Richmond, Indiana, born in the beautiful Kingdom of Siam, will lecture in the Court House at Burlington, this Wednesday evening, Oct. 30th, 1901, on "Siam, its Manners and Customs." He will show old and interesting curiosities—Idols, money, maps, flags, pictures, books, one 25 ft. long when opened up and other things of interest. All persons over 12 years of age will be charged 10 cents admission, and 12 yrs. and under, 5c. Half of the net proceeds will be given to the public school to buy good books for the scholars to read. Mr. Buell comes well recommended. Lecture will begin at 7:30 o'clock.

Personal Mentions.

Robert Allen, of Big Bone, was in town Friday.

James Castleman, of Verona, was in town Monday.

R. S. Cowen has been quite ill of flux for several days.

Deputy Sheriff Allphin was collecting taxes at Rabbit Hash, last Saturday.

Mrs. John Taliaferro, of Union, was a guest at Geo. Blyth's, one day last week.

A. B Rouse returned home Friday evening after a week's absence on business.

David Beall, of Hebron, was exchanging jokes with friends in Burlington, Monday.

A. B. Rouse sent to market, Sunday, several nice cattle he grazed through the summer.

Misses Pinkie Cowen and Birdie Martin, spent the day in Rising Sun, last Saturday.

Judge Roberts and J. C. Revill were transacting business in Cincinnati, one day last week.

Gordon McKim came out from the city, last Friday, and remained over until Monday.

J. C Clore, of Cincinnati, spent Sunday with his father, Mr. Harrison Clore, of Bullittsville.

Simeon E. House, of Gunpowder neighborhood, was in town a few hours last Saturday afternoon.

Mrs. B. W. Adams returned home, last Friday, from a visit of several days in the Big Bone neighborhood.

James H. Aylor, from down on Gunpowder, was in town Friday. He is gradually regaining his health.

Mrs. John Garrison, of Union, was visiting Mesdames Hunter and Roy Clutterbuck, one day last week.

James H. Hastings and Mrs. Dr. Cowen, leave this week for a visit of a few weeks with Mrs. McKay, in Virginia.

Misses Fannie Willis and Annie Gaines, of Bullittsburg neighborhood, were guests of Mrs. V. W. Gaines, yesterday.

Mrs. Geo. Piper came out from Dayton, last Friday. Her husband came on Saturday, and they returned home Sunday afternoon.

Ben Rue and wife and James K. Seebree, were in town yesterday, closing up the land deal mentioned by our Hathaway correspondent.

Mr. and Mrs. Thos. Rouse gave the young folks a social, last Saturday, night. Quite a number was present and had a most enjoyable time.

Miss Dollie Moore, of Central Covington, and Miss Ella Losekamp, of Bellevue, Ky., were visiting at B. B' Allphin's, Saturday and Sunday.

Messrs. Oscar Gaines and E. L. Riley, and wife, passed through town Saturday morning, enroute to Union to attend a meetiug of the County Grange.

W. N. Holder orders his RECORDER sent to Walton again, having moved back there from Covington. Dr. Cowen has his changed to Rising Sun, his new home.

Rev. J. A. Kirtley preached for the Baptist congregation here last Sunday morning, Rev. Sproles, the pastor, being engaged in a protracted meeting at Bullittsburg.

Miss Annie Cowen arrived home, last Saturday, after a pleasant visit of six weeks with relatives and friends in Gallatin county, Lakeland, Carrollton, Ghent and Rising Sun.

We are glad to report that Mr. William Clore, of Bullittsville, who was stricken with paralysis several days ago, has been growing better gradually. He is now able to sit up on the side of his bed, and talks some better than he did.

Mrs. Sebern Berkshire, of Bellevue, was in town Monday. She drove a horse that was, originally, a bay, but in the last few months it has begun changing color, and has a great many white spots on it, some as large as the palm of a person's hand.

J. H. Craig, of Missouri, has been in Burlington for several days. Mr. Craig was one of the heirs to a large tract of land sold in the mountains, a few years ago, under a decree of the Boone Circuit Court, and became associated with Atty. G. G. Hughes in the purchase of the land.

Misses Sallie Huey, of Boone county, has gone to Carrollton to spend the winter with her son, Rev. O. M. Huey, the popular pastor of the Baptist church there.—James Huey, of Union, Boone County, one of the best and most popular citizens of our sister county, was here Wednesday on business.—Warsaw Independent.

Mr. B. N. Tanner, of Booneboro, Mo., made us a pleasant call last Friday. He is a son of the late Simeon Tanner, of the Gunpowder neighborhood. He left here thirty-three years ago. Mr. Tanner is a portly gentleman, and a most pleasant person to meet. He prospered in his new home, and is a breeder of fine stock. He expects to be here about ten days longer and will be busy calling on his numerous relatives in the county.

County Clerk Adams received, Monday, a letter from his old confederate comrade, Wash C. Platt, who is living in Chicago, and manufacturing and selling a salve, which he claims is from a recipe that an Indian, who came home with his father from the war of 1812, gave him (his father), and which was accidently discovered in an old trunk after his father's death. He calls his salve Mac-a Cheek.

The well at the toll gate out on the Petersburg pike has been furnishing water for about a dozen families right along, and considerable of the water that has been hauled from it has been used for stock. That is considered the best well, by odds, in this part of the county. It appears to be inexhaustable.

The laying of a submarine telephone cable across the river at Petersburg was completed yesterday afternoon, and last evening connection was made with the Boone County Telephone Company's line at Petersburg, and Aurora, Indiana, and Beaver, this county, were in conversation, the service being excellent. Boone is now in connection with an extensive local telephone system in the counties across the river.

[From Cincinnati Times-Star, Oct. 24.]

The disposition of a considerable tract of land in Boone county and another tract in bonny Scotland was the result of a grand reunion of Father William H. Grant, one of the pioneers and esteemed citizens of Northern Kentucky, and a dozen sons, daughters and grandchildren at the Gibson House Friday morning. The elder Grant is 81 years of age, hale, and a native of Petersburg, Ky. Descendants who joined him at the hotel are Dr. R. L. Grant and wife of Taxarkana, Texas; Miss Nettie P. Boisseau, Texarkana; Dentist W. E. Grant, of Louisville; Dr. J. M. Grant, Petersburg, Ky., Thomas F. and James T. Grant of Bullittsville, Ky.; Ben. B. Grant, Bellevue, Ky., and H. H. and A. E. Grant of Petersburg, Ky. Dr. Grant, of Texas, accompanied by his wife and her sister, Miss Boisseau, are on their way to Europe, and while there will make a visit to Scotland, where the chances of securing possession of the land will be investigated fully.

The trotting race announced in these columns last week to take place at Oakley last Saturday, was transferred to Lawrenceburg, very much to the chagrin of the thousands who expected to witness the contest at Oakley, and as a result only about 200 persons were present when the bell tapped. Instead of six or more entries for the race there were but four, towit: Trixy, iron gray mare; owned and driven by H. D. Gaines; Burlington Girl, bay mare, owned and driven by Edwin Gaines; Walker, bay gelding, owned and driven by H. G. Blanton, Erlanger; Jim Crow, black gelding, owned and driven by Allen Conner, Florence. The race was three best in five, half mile heats, and was won in three straight heats, by Trixy, her best time being 1:25. Considerable interest was taken in the event by the local talent, with whom Trixy was the favorite. Below is the positions each heat:

Trixy	1	1	1
Burlington Girl	2	2	2
Walker	3	3	3
Jim Crow	4	4	4

Time—1:27½, 1:25½, 1:25.

Chas. Westbay got into a tight place at Erlanger, Monday, with a 80 bushel load of coal. Just as he drove out of J. O. Huey's coal yard he noticed the fast train coming out from the city. Knowing it did not stop at Erlanger he stopped his team near the track, and the passing of the train excited one of his horses considerably. The train having passed he pulled his load onto the pike, and was starting to cross the railroad, when the yard engine began to move and make considerable noise. This excited the horse again, and it refused to pull, and the load being too heavy for the other horse to hold, it ran backwards over a steep bank, striking a tree which prevented it from upsetting. With the assistance of three or four additional horses and all the available men about Erlanger, the wagon was finally pulled back on the pike. The point at which this accident happened is noted for such occurrences, and it is only a question of time when the Turnpike Company will be called upon to account in damages for injuries to person or team and may be both.

A Typical South African Store.

O. R. Larson, of Bay Vlis, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about twenty-five miles from the nearest town of any store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by all druggists.

Nearly everybody in the country is now provided with an outfit for hauling water, and springs that have been in seclusion for years, are very popular resorts at this time.

CURRENT TOPICS.

Holland has 10,100 windmills, each of which drains, on an average, 310 acres of land.

The "newsboy" on the Sante Fe's Lawrence-Ottawa (Kan.) branch is an urchin of 72 years.

Two hundred and fifty thousand millions of locusts were killed in Cyprus in two years.

Cairo is much the biggest town in Africa, with 490,000 people, of whom 25,000 are Europeans.

Kangaroos can jump eleven feet in height, against a deer's best record of nine feet six inches.

Wilmington, Del., has already completed eight steamers this year and nine more are on the way.

There are more newspapers published in Iowa in proportion to the population than in any other state of the union.

Bats measuring nearly five feet from tip to tip of their wings have been found in a cave near Tanga in east Africa.

Bret Harte has a great dislike for the interviewing reporter, and will not knowingly express an opinion in his presence.

Baltimore has just finished two Atlantic passengers liners to ply between London and New York, each being 650 feet long.

A sheep owned by an Addison county (N. Y.) farmer has yielded two fleeces this year—one white as snow, the other black as ink.

The old Paul Revere house at Watertown, where the first paper money used in this country was engraved and printed, is about to be demolished.

Inventor of the diamond drill, a device which has added millions to the mineral wealth of the world, Ashel J. Severance, died in poverty in Denver recently.

The King of Greece delights in taking recreation in the fields. He can plow, cut and bind corn, milk cows, and, in short, could, at a pinch, keep a farm going single-handed.

Taking into consideration the number of ships that are on the seas and navigable waters of the world, it is estimated that about 1,700,000 of the world's population are constantly afloat.

Percy R. Burnet, of Chicago, has been engaged as head of the department of French and Spanish in Butler college, Indianapolis, to take the place of Edgar W. Abbott, who died last summer.

In a speed trial between New York and Boston the other day the Russian battleship Retvizan, built by the Cramps, of Philadelphia, averaged nearly nineteen knots an hour for 12 consecutive hours.

The crown prince of Germany is going to England to learn English ways and customs. It is thought by the emperor that he will gain valuable knowledge about commercial and manufacturing affairs.

The lead pencil industry in Germany is at present suffering from American competition. It is alleged that our success in this branch of industry is mostly due to the perfection of the machinery.

Frank H. Buhl, ex-president of the Sharon Steel Co., has promised to give $200,000 for a public building at Sharon, Pa. The town must provide for its maintenance, and it must be kept open seven days a week.

According to the London Daily Mail the chief claim of the parish church at Avening lies in the fact that it is probably the only church within the British Isles where a highwayman has been honored with a monument.

That a corpse has value and that damages can be claimed for its injury is a new point in law just established by the appellate court in a decision handed down from an appealed case in the Illinois county circuit court.

The advance on manila rope, which at present is selling at 12½ cents a pound, has been advanced 4 cents within the past two months, and dealers are of the opinion that the price on the better quality will continue to climb.

Twenty-five hundred pure white animals about the size of ordinary sheep gentle of disposition and mild of face have begun the tasks of devouring a jungle covering 1,500 acres, in Prince George's county, Maryland. So dense is the tangled mass of small trees undergrowth, vine and weeds of a hundred varieties that man can not penetrate it without wielding ax and scythe.

There is something intensely amusing in the new wrinkle taught by De Davilliers to the Lingue des Patriotes composed principally of those damn-bloodless duelists of France. He teaches the believers in the code how to shoot at each other with real pistols in a businesslike way, using tallow bullets and a small charge of powder. This is to accustom the students of dueling to gaze with equanimity down the cold barrel of a revolver.

Rev George Link, of Laporte, Ind., who enjoys the distinction of being one of the five active ministers of the Lutheran denomination in the United States who have served 50 years, celebrated his golden anniversary the other day.

American stamps have been known to sell from $1,000 to $4,200, and one Alabama stamp sold for $800. One of the most remarkable English stamps is the straw-colored queen's head, issued in 1862. It is worth $150. An English penny black, the first stamp ever issued, now brings $75, and some Canadian stamps have sold for $350.

SECOND TRIAL ENDED.

Caleb Powers Again Receives a Life Sentence.

Attorneys For Defense Made a Motion For Another Trial, But it Was Overruled—May Go to the Appellate Court.

Georgetown, Ky., Oct. 28.—For the second time a jury of 12 men Saturday gave Caleb Powers a life sentence in the penitentiary for conspiracy to murder William Goebel. The jury was given the indictment and instructions, and retired at 2:20 Saturday afternoon to make a verdict. Very few of the immense crowd present left the courtroom, but waited and anxiously watched the door of the jury room.

At 3:04, just 44 minutes after retiring a juror opened the door and notified a deputy sheriff that a verdict had been reached. They filed into their accustomed seats, and a death-like hush pervaded the audience.

"Gentlemen, have you made a verdict?" asked Judge Cantrill.

"We have," answered Juror B. S. Calvert, a schoolmate of Powers, who had been made foreman. The slip of paper containing the verdict was handed to the clerk, who read: "We, the jury, find the defendant guilty, and fix his punishment at confinement in the penitentiary for life. B. S. Calvert, foreman."

At 4:30 Judge Sims filed the grounds and motion for a new trial, which were overruled. The grounds were that the jurymen were all democrats; that Judge Cantrill should have vacated the bench, and should have granted a continuance. Judge Cantrill then sentenced Powers, and when asked if he had any reason for not being sentenced, said he had reasons, but would not give them now. His attorneys prayed an appeal to the court of appeals, and were given till February 1 to file a bill of exceptions. Powers was remanded to the Frankfort jail for safe-keeping, and was taken there Saturday night.

THE ASSASSIN'S BODY.

After the Electrocution It Is the Intention to Bury the Remains in Quicklime.

Auburn, N. Y., Oct. 28.—The time that Leon F. Czolgosz, assassin of President McKinley, has to live, is reckoned by hours now, but there has been no relaxation of the stringent rule under which the prisoner has been secluded since his confinement. Auburn prison was closed Sunday to any one who sought the assassin and so it will remain until the prisoner has paid the penalty which the law exacts.

Immediately after the execution the clothing of the murderer, with the vast accumulation of mail that came to the prison for him will be burned and if possible the request of the parents of the dead man for his remains will be evaded. The body of the assassin will be buried in quicklime. It is feared that the removal of his body to Cleveland would lead to scenes of an unfortunate nature, and the prison officials are very anxious to avoid anything of the kind. The plan of burning the clothing and letters of the murderer will prevent the exhibition of relics by those who pander to the morbid.

The hour of 7 on Tuesday morning is the time set by Warden J. Warren Mead for the execution.

The chair in which Czolgosz will sit to receive the deadly electrical shock was examined Sunday and tested by State Electrician E. F. Davis, and is ready for the part that it is to play in the final scene of the great national tragedy.

When his death is accomplished, Warden Mead will give out a brief statement of the prisoner's last hours, including any confession he may make. The result of the autopsy will also be given out by the warden.

It is possible one of the Polish priests will visit Czolgosz, but there is still a question about the final reconciliation of the prisoner with the church in which he was baptized. He maintains the stolidity and indifference which have marked his conduct since his arrest.

Customs Receipts in Cuba.

Washington Oct. 28.—A comparative statement issued Sunday by the division of insular affairs of the war department shows that the total receipts from customs sources in Cuba for the first nine months of 1901 were $13,584,837, for the same period of 1900 $11,828,742, and for 1899 $10,707,407.

Gen. Castro Defeated.

San Juan, Porto Rico, Oct. 28.—Munoz Tebar, a Venezuelan revolutionary aspirant for the presidency, received a cable dispatch reporting the complete routing of Gen. Castro's forces at Maturin, state of Bermadez, after a six hours' fight.

Relations Strained.

London, Oct. 28.—Rumors are current in ministerial circles that the relations between King Edward and Prime Minister Salisbury are strained. It is asserted that Salisbury tendered his resignation and that the king refused to accept it.

The Marriage Is Invalid.

Charleston, S. C., Oct. 28.—The court of common pleas in Florence county, this state, has decided that a marriage contracted in this state between a white man and a Negro woman in 1867 was invalid.

THE M'KINLEY ARCH.

The William McKinley National Association Issues a Statement to the Public.

Washington, Oct. 28.—The William McKinley National Memorial Arch association Sunday night issued this statement to the public:

"President McKinley's memory is enshrined in the hearts of his countrymen. But the unexampled affection demands expression in a material memorial, national in character, to be erected at the national capital, the scene of his greatest labors and achievements. The William McKinley National Memorial Arch association has been incorporated under the laws of the District of Columbia to meet this desire by the erection of a national memorial arch in honor of President McKinley in the city of Washington by national popular subscription.

"President Roosevelt has accepted honorary membership in the association.

"It is proposed to place the memorial arch preferably at the Washington approach to the memorial bridge across the Potomac connecting Washington with Arlington, which President McKinley earnestly desired and recommended to congress as 'a monument to American patriotism.'

"Contributors to its fund will be made members of the William McKinley National Memorial Arch association. The treasurer, Hon. Lyman J. Gage, secretary of the treasury of the United States, Washington, D. C., will receive all contributions and will forward certificates of membership to all contributors. Contributions of money may be handed to postmasters, managers of telegraph, telephone and express offices, and deposited with banks or other financial institutions and newspapers. They are hereby authorized and requested to receive and transmit contributions to the treasurer. The association heartily invites and confidently expects the cooperation of governors of states and territories, the mayors of cities, and all other public officials, of the press of the country, of the churches, colleges and schools, and of all organized cities, and requests that they will take immediate action to promote its objects by making and securing subscriptions. All communications except remittances should be addressed to Thomas F. Walsh, secretary, Washington, D. C.

"The association is in entire sympathy with the proposition to erect a suitable memorial to the late president at his grave in Canton, O."

FILLER TOBACCO.

An Attempt Will Be Made to Raise It Within the Boundaries of the United States.

Washington, Oct. 28.—Secretary Wilson announced Sunday that experts of the agricultural department will hunt all over the United States and its new possessions for conditions favorable to the cultivation of the filler tobacco, such as is now raised in Cuba, so that if possible all the filler tobacco used in this country eventually may be raised within the boundaries of the United States.

"The United States," he says, "is now paying $8,000,000 for wrapper tobacco. We have succeeded in finding in this country the conditions under which all the wrapper tobacco we need can be raised here, and experts of the department of agriculture for the first time are seeking soils adaptable to the cultivation of the fine filler product. We have parts of Pennsylvania, Ohio and Texas selected for the investigations of our experts, and land for similar purposes will be selected in our new island possessions, with a view to ascertaining how and under what conditions the filler product can be built up here."

KING EDWARD'S DISEASE.

A London Paper Announces That His Majesty Is Suffering From Cancer of the Throat.

London, Oct. 28.—Reynolds' weekly newspaper is the first British paper to assert that King Edward is suffering from cancer of the throat. In Sunday's issue it declares that since his majesty's accession three operations have been performed for the removal of papilloma on the left vocal chord, and that one was removed from the right vocal chord last week.

"Assistance was hastily summoned," says the journal, "as his majesty was breathing with difficulty and an immediate operation was performed. But it was regarded as only a temporary relief, the injured epithelium now having become a cancerous growth, and serious developments are expected."

An Heir to the Duke of Manchester.

London, Oct. 28.—The duchess of Manchester (who was Miss Helena Zimmerman, of Cincinnati), was accouched of a daughter Sunday. Both the mother and the child are doing well. The infant will receive the names Mary Alva Montagu.

Forest Fire Raging.

Colorado Springs, Col., Oct. 28.—A big forest fire is raging on the mountain range in the vicinity of Garfield mountain, directly south of Pike's peak. The fire started from an unknown cause and, driven by a high wind, spread over a big area.

Jockey "Cash" Sloan Injured.

St. Petersburg, Oct. 28.—"Cash" Sloan, the American jockey, fell Sunday afternoon while riding on the race course at Warsaw. He was picked up unconscious, but revived before he was taken to his residence.

A BATTLE NEAR PASSI.

Twenty-Five Insurgents Killed and Three Captured.

Stringent and Energetic Measures Are Being Taken By Americans to Suppress the Insurrection on the Island of Samar.

Manila, Oct. 28.—The constabulary report a fight with insurgents near Passi, province of Iloilo, island of Panay, in which 25 insurgents were killed and three captured, together with a quantity of arms and ammunition.

The news from Gen. Hughes regarding conditions in the island of Cebu is encouraging. Lorega has surrendered with his entire force and one cannon and seven rifles, while Gen. Hughes is negotiating for the surrender of Maxilot, who styles himself "governor politico-militar." His surrender will mean the pacification of the province.

Lack of food and the harrassing effects of the aggressive tactics now pursued by the American forces are having their influence upon the natives. In many places where rice is doled out by the government only enough is given for one meal, so that it is hardly possibly for any large quantity to find its way to the insurgents.

It is believed that the recent manifestations in the Island of Samar were chiefly due to the lack of food, the insurgents finding it necessary to make outlets to the coast in order to obtain this.

The first labor problem growing out of the new tariff has arisen. A hat and umbrella factory, employing 600 hands, has found it necessary to close. The lawyers are making a protest to the commission urging protection, as the same goods from Germany can be sold at half the price it takes to manufacture them here.

A dispatch from Catbalogan, Samar, says that stringent and energetic measures are being taken to suppress the insurrection in that island. Gen. Smith has notified all the presidentes and head men of the Pueblos that, in order to avoid trouble they must surrender all arms and turn over the persons implicated in the Balangiga massacre before November 6, threatening that otherwise the presidentes will be sent to the island of Gumm, the villages destroyed and the property confiscated. Marines under Maj. Littleton W. T. Waller has been stationed at Balangiga and Basey and ten gunboats are vigilantly patrolling the Samar coast. Most of the towns in the southern part of the island have been destroyed.

Naval Cadet Loveman Noa, commanding the gunboat Mariveles, who had gone ashore at Nipa-Nipa, South Samar, to prevent smuggling, was attacked by the insurgents. He lost his revolver and was shot and boloed.

THE PENSION OFFICE.

Brig. Gen. Frederick C. Ainsworth, Chief of the Record, Makes His Annual Report.

Washington, Oct. 28.—Brig. Gen. Frederick C. Ainsworth, chief of record of the pension office, in his annual report to the secretary of war, shows that 151,982 cases were received and disposed of during the fiscal year. His office relates mainly to records of officers and soldiers kept for the army and the pension officers. It also deals with medals of honor, as the record of soldiers receiving medals are furnished the proper officers through Gen. Ainsworth's bureau. He reviews at some length the subject of medals of honor, and the laws under which they are granted. Gen. Ainsworth says that the fiscal year has witnessed the practical completion of the work, so many years in progress, of the publication of official records of the union and confederate armies during the civil war. They make a total of 125,730 pages of text.

NO FORMAL CELEBRATION.

Sunday Was the Forty-Third Anniversary of the Birth of President Theodore Roosevelt.

Washington, Oct. 28.—Sunday was the 43 anniversary of the birth of President Roosevelt. Occurring on Sunday, there was no formal celebration, and the day was spent very quietly. Dr. Nichols, a friend from Baltimore, was at the white house a portion of the day, and Sunday night Commander Cowles was a guest at dinner. The president attended religious services at Grace Reformed church as usual.

Killed By a Policeman.

Birmingham, Ala., Oct. 28.—An unknown white boy, about 15 years of age, was shot and instantly killed by Policeman James Richardson Sunday night. The officer claims the boy and two companions were attempting to burglarize a store. Richardson is under arrest charged with manslaughter.

Too Much Cash.

Philadelphia, Oct. 28.—A Washington dispatch states that Secretary of the Treasury Gage will soon issue another call for bonds, to reduce the national debt, and at the same time dispose of some of the surplus cash on hand.

In Fiance's Presence.

Camden, N. J., Oct. 28.—Thos. Smith, aged 24 years, who was to have married Miss Sadie Lee, of Gloucester City, killed himself Sunday night in the presence of the young lady. She had discovered that he was married.

MONKEY SLEW THE SNAKE.

Strategy of the Bold Simian Was Too Much for the Cobra and the Former Won.

At Bangalore, India, not long ago a battle between a monkey and a snake was witnessed by a party of Europeans. The reptile, a cobra, was enjoying a sun bath near the highway, far from the beaten track of jungle travel, when the monkey espied him and deliberately put an end to his siesta by hurling at him every missile he could find. The snake wriggled awhile under the punishment, and then in a fury gave chase to the monkey. The little simian was far too agile for the reptile, however, and kept him at a safe distance until a pile of rocks was reached. On this the monkey calmly perched, with his back against a bowlder, and awaited the onslaught.

The snake came up in blind rage, and again and again struck at the monkey, who dodged every blow, allowing the venomous head to strike the rock at his back. The cobra became more and more infuriated as he battered himself against the bowlder, and at last, bleeding and exhausted, lay at full length with every fighting instinct subdued. This was the monkey's opportunity. Seizing the snake by the neck he quickly rubbed the head off against a sharp point of rock, and then climbed a tree and chattered gleefully at the admiring human spectators, who showed their appreciation of the spectacle he had afforded by leaving a banquet of Indian corn and sugar cane for the victor.

CHOICE "SMOKES" RECOVERED

How the Duke of Cornwall's Cigars Fared in the Wreck Beneath the Waves.

Private advices to a London tobacco dealer give the information that some 7,000 of the costly cigars shipped for the use of the duke of Cornwall and his suite while in Canada have been recovered from the hull of the wrecked liner Lusitania, on the east coast of Newfoundland. In all 10,000 of the highest class cigars, intended for royal use, were on the Lusitania, packed in hermetically sealed cases. They were consigned to the citadel at Quebec to await the arrival of the Ophir. Each cigar was valued at three shillings.

So choice were the costly "smokes" that, in case the crew might break open the cases, they were packed in the extreme stern of the ship and bolted behind heavy planking. When it became known to the islanders that the duke's cigars were part of the Lusitania's cargo, a patrol was established to search for boxes on the beach.

All the smokers on the island reveled in dreams of three-shilling cigars without stint. Speculators wanted them also. But their dreams came to nothing. Divers, after ten weeks' work, have now got at the cigars, and, according to the cable, have saved 7,000 in good condition. The other 3,000 were washed out of the wreck. Meanwhile, however, the duke's cigar order has been duplicated in London.

An Enterprising Yankee.

An American once went to Windsor castle and insisted upon seeing Queen Victoria. He was told that it was quite impossible, as an audience with the queen could be had only by appointment. Still he persisted, and then they told him flat-footed that before seeing the queen he must state the object of his visit. He said he wanted to show her a new piece of furniture—a throne bed, a perfect throne by day and a perfect bed at night.

Mrs. Ellen Ripley, Chaplain Ladies Aid, Grand Army of the Republic, No. 7, 222 10th Ave., N. E., Minneapolis, Minn., Strongly Endorses Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Your Vegetable Compound cured me of ulceration of the womb, and getting such a complete cure I felt that the medicine had genuine merit and was well worth recommending to other sick women.

"For fifteen years I have been your friend. I have never written you before, but I have advised hundreds of women to take your medicine, in fact it is the only real reliable remedy I know of for a sick woman.

"I have not yet found a case of ovarian or womb trouble which has not been relieved or cured by the faithful use of **Lydia E. Pinkham's Vegetable Compound.**

"You have brought health to hundreds of women in Minneapolis as you have no doubt to others over the country."—MRS. ELLEN RIPLEY.

$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.

When women are troubled with irregular or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion, and nervous prostration, they should remember there is one tried and true remedy. **Lydia E. Pinkham's Vegetable Compound** at once removes such troubles.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine.

An Incomplete House.

We run wild over the furnishings of a house; its furniture, carpets, hangings, pictures and music, and always forget or neglect the most important requisite. Something there should be always on the shelf to provide against sudden casualties or attacks of pain. Such come like a thief in the night; a sprain, strain, sudden backache, toothache or neuralgic attack. There is nothing easier to get than a bottle of St. Jacobs Oil, and nothing surer to cure quickly any form of pain. The house is incomplete without it. Complete it with a good supply.

The Last Word.

Mrs. Jigsby (the discussion having become somewhat personal)—You may talk till doomsday, George Jigsby, but you'll never get me to admit that a wife is bound to do as her husband tells her.

Mr. Jigsby—By gravy, madam, if I outlive you I'll have it engraved on your tombstone that you were a good and obedient wife!—Chicago Tribune.

Paradise for Sportsmen.

To him who knows not where to go, there can be no better place suggested than the Pocono mountains, lying in the northeastern part of Pennsylvania, along the beautiful Delaware river. Whether you go for health, or sport, you can hardly experience the latter without acquiring the former. The elevation of the mountains varies from 1,600 to 2,000 feet, and are one dense growth of pine and fir trees. Deer, bear and other large game are plentiful, and though the region is visited by thousands of sportsmen every year, there seems to be no noticeable decrease in the attractions offered. The Pocono mountain hotels, camps and game preserves are readily accessible by the Lackawanna Railroad, the great trunk line between New York and the Great Lakes.

Her Choice.

Doctor—My dear young lady, you are drinking unfiltered water, which swarms with animal organisms. You should have it boiled; that will kill them.

Patient—Well, doctor, I think I'd sooner be an aquarium than a cemetery.—What to Eat.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a grripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

Knowledge and Speech.

"One great trouble," said Uncle Eben, "is dat when a man is smart enough to say anything wuf hearin' he is also smart enough not to talk much."—Washington Post.

Care of the Complexion.

Many persons with delicate skin suffer greatly in winter from chapping. Frequently the trouble arises from the use of impure soap and cheap salves. The face and hands should be washed only in clear, hot water with ivory soap. A little mutton tallow or almond oil may be used after the bath to soften the skin. ELIZA R. PARKER.

His First Hour in the Country.

Mother—Why, baby, what's the matter? Baby (who has been stung by a bumblebee)—The automobile-ing bit me.—Judge.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

Mabel's Haste.—"Mabel doesn't believe in long engagements." "Yes; I understood Mabel's young man had a good deal of money."—Cleveland Plain Dealer.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. Thos Robbins, Maple Street, Norwich, N. Y. Feb. 17, 1900.

People who get the hardest knocks have the best idea of life.—Atchison Globe.

SCHLEY ON THE STAND

The Admiral Testifies as to the Part He Took in the Battle of Santiago.

NARRATION OF A HISTORICAL EVENT.

Interesting Account of the Engagement From the Time of Its Beginning Until the End.

Scenes Before Clenfuegos Depicted and the Situation on His Arrival Off Santiago Narrated by the Distinguished Witness.

Washington, Oct. 25.—Adm. Schley Thursday took the stand in his own behalf at the court of inquiry, which is investigating the conduct of the commander-in-chief of the flying squadron during the Santiago campaign. He was summoned a few minutes after the opening of the session at 2 o'clock for the afternoon session, and when the court adjourned at 4 o'clock, he apparently had gotten well under way in his testimony.

The admiral then in answer to his counsel proceeded to give a circumstantial and detailed narrative of all the events of the campaign up to the battle of Santiago. He had with him a memorandum of his testimony where he will tell of the battle, when the court adjourned for the day.

When the court adjourned the crowd of many of the spectators pressed forward and shook the admiral's hand.

"I was commended," the admiral began in response to Mr. Rayner's request for a narrative of the campaign, "and was ordered to command the flying squadron on the 28th of March, 1898, and served until the 20th day of June, of the same year, in that capacity.

He had taken command of the squadron at Hampton Roads, Va., hoisting his flag on the cruiser Brooklyn. After instituting the organization of the squadron at the Virginia port, he said that he had called the commanding officers of the vessels constituting that squadron together and then added:

"The plan of the campaign was threshed out. I put the squadron immediately upon a war footing, established pickets and patrols and had the vessels darkened at nights."

"During this time I explained to all the commanding officers that it would be impossible to contrive a plan of battle that would meet with successful contingencies, the general plan of the squadron would be to cruise in line of battle and its general principle was to keep the block the head and leading vessels, concentrating the fire upon them in order, first, to obtain the moral effect of victory, and to throw them into confusion, making a victory over them probably very much more successful and complete than it would be for the reason that the older plans of battle had all been to attack centers and rear, resulting in a mere melee, in the fighting of each squadron. I felt that the attack of the head of a squadron, which was to some extent new, would result in the destruction of the whole fleet, and that was the general plan of action as explained to them on those occasions."

On May 12 or 13 he received orders from the secretary of the navy to proceed to Charleston, S. C., which he reached there on the 16th and found orders from the secretary directing him to proceed to Key West and report to Commodore Remey for further instructions. He went to the Florida port at a 12 knot speed, that being the highest all the vessels of the squadron could make. The squadron at the time consisted of the Brooklyn, Massachusetts, Texas, Scorpion and Iowa, the latter being a collier. The admiral said the Sterling was lost sight of the first night out and he never saw her again until he met her off the south side of Cuba. The flying squadron arrived at Key West on the 19th, the admiral thought, and on the next day he went ashore to pay his respects to Commodore Remey, after having saluted his flag. Continuing his narrative, the admiral said:

"Whilst there the commodore showed me a telegraphic order from the honorable secretary of the navy directing me to proceed with all dispatch to the blockade of Havana. He also showed me a number of other orders relative to the circumstances I was to remain with my command, and I asked him which of the two stations he would take, and he said he proposed to hold the Havana or north one. He told me that whichever side I went on to remember that the Spanish were very heavily fortified and that his confidence in the vessels which he delivered to me verbally, were that I would not to risk our battleships against the fortified positions, but that I thought the Spanish squadron had been disposed of. My recollection now is that he told me that it was hazarded, but my impression left on my mind was that it was somewhere in the Venezuelan gulf and that it was expected to make connection and was destined to Havana, and that was undoubtedly the point it was to reach. He said that information was to be sent me of the Spanish fleet to reach Havana or some point in railroad communication with it, supposing that the Spanish squadron believed and thought that Cienfuegos would be the point, as that came under the acceptation of a point more convenient as I looked over maps, and I must say I I agreed with him.

"I told him I had been ordered to report for duty to Adm. Remey and that I imagined necessarily meant himself, and that I would proceed to obey the order. I set that I should be loyal, absolutely and unreservedly, to the cause we were both representing, should or should not he be present—I do not remember whether all the time or not—said: 'Of course, commodore, any one who has known my style character, would know that it would be impossible for you to be otherwise than loyal.' I asked the admiral if there had been established any means of communication with the insurgents, whether there were any pilots or whether any liability was known where they were to be found. He told me that he did not know, but that when he got the situation better in hand he would communicate with me, but that he thought it would be better for me to start as early as we could get away and blockade Cienfuegos. I then went aboard my own flagship in order to hasten the operations of coaling. Whilst there, the Algonquin came out, bearing an order from the secretary of the navy, through Commodore Remey, directing me to go off Havana. I signalled to the commodore whether or not he understood my orders were to go off Havana. He replied by signal that he understood that his coming to Key West modified my orders and that I should be prepared to carry out the orders we had received when I met him soon. I do not remember whether that was on that afternoon or in the morning, but it was before I left for Cienfuegos."

The next move of the present squadron was from Key West to Cienfuegos, and the admiral told how, as the commander-in-chief of that squadron, he had the whole coaling, and that at 8 o'clock on the morning of May 19 all the ships of the fleet turned their backs upon American soil. This was done under the order of the commander-in-chief, Adm. Sampson. At this point the witness quoted Adm. Sampson's order No. 5, not failing to point out as he went along, that in this order the admiral had said: "I have the situation well in hand and I will write you and give you any information that suggests itself." The first event of note on the voyage toward Cienfuegos occurred, Adm. Schley said, after he had been out from Key West three or four hours. It was then that he had met Capt. McCalla in charge of the auxiliary squadron with the Marblehead at its head, which had been doing duty on the Cuba coast near Cienfuegos, whither the commodore with his flying squadron was bound. McCalla had met the latter to communicate with the flying squadron. Adm. Schley also mentioned that the Scorpion had been ordered to proceed to the Eagle for the purpose of securing whatever information she might bring. "After a little," he said, "the Eagle returned and reported through the megaphone, I think, identically as is reported in his log, which was all the information I gave us. The Eagle afterward passed close enough to the Brooklyn to hail her by the megaphone and reported that there was no news. I was on the quarter deck at the time, and it seemed to be almost burned into my mind, but I suppose I may have heard. I begin to think that may be it was mistaken."

Adm. Schley placed his arrival off Cienfuegos at near midnight of May 21. He told of hearing guns early that evening while still 30 or 40 miles distant from the Cuban port. "The fact of hearing these guns was undoubted, so much so that the officer of the deck spoke of it. I happened to be there at the time.

He said that the fleet stopped for the night ten or twelve miles off shore off Cienfuegos and that he had sent the Scorpion ahead to close in at dark and that toward daylight on the following morning, May 27, all the ships had steamed in to within 3 miles of Cienfuegos.

"My recollection now is," he said, "that we went within a mile and looked at the harbor. Under the peculiar and special instructions it was impossible to see into the harbor. I never saw any smoke in attack and I was constantly on deck, generally from 8 o'clock in the morning until 12 or 1 o'clock at night. There was a scarcely a circumstance of any kind that escaped me."

The admiral said that after this inspection of the harbor he had ordered the torpedo boat Dupont arrived with advices from Adm. Sampson. The dispatch referred to was the "Dear Schley" letter. Referring to this dispatch the witness said:

"I did not remember the fact until within the past few months because there was a duplicate of the letter, which I was recall from the fact that I sent the Scorpion to the eastward in obedience to the injunction contained in the letter to communicate with the scouts about whose presence off Santiago I was very uncertain, as I think the admiral was on account of orders having been sent directing them to proceed in the direction of the Spanish main to look for the Spanish fleet. The admiral was not certain whether they had got back, nor was I. There was sent Lieut. Scott Scorpion, and the fact fixed the receipt of that letter. Coming to the blockade off Cienfuegos the admiral explained the formation of his fleet there, saying that the steaming which had been mentioned in the logs was for the purpose of obtaining the best effect of a current which set directly into the bight. He said the ships were constantly settling into the current and were obliged almost every hour to steer for a mile or two. And that, he said, 'accounts for a good deal of what is stated in the logs about steaming. We were closer at night.' He said emphatically, "Was the rule of the squadron always; we were closer at night at both twenty-five and ten miles." The rules of keeping the squadron in formation regarding the night or in line of battle really need any comment, they are self-explained."

At this point Adm. Schley digressed for a moment to refer to the conversation he had had on the 20th of May off Cienfuegos before leaving Key West, which he said had reduced the belief that the Spanish squadron was destined for Havana.

The admiral then related the particulars of the visit of Lieut. Wood, of the Dupont, to the flagship Brooklyn, which when the Dupont arrived off Cienfuegos. He said that Lieut. Wood was in a pilot boat with a crew of Spanish prisoners and his arduous duties on a torpedo boat. The admiral related how Lieut. Wood had handed him the dispatch and had said:

"I think he did me injustice when he spoke of my speaking disrespectfully of Capt. Sampson as Capt. Sampson made no such term. There was no reason why I should have done so."

The admiral said that the Hawk arrived about 8 o'clock on the morning of May 25. This vessel, he said, had brought the dispatch from Adm. Sampson which is designated as No. 8. This is the dispatch in which the commander-in-chief notified the commander of the flying squadron that the Spanish fleet probably was at Santiago and directed him, "If satisfied that they are there the Cienfuegos to proceed with all dispatch to Santiago." The witness said that he had received duplicate copies of dispatch No. 8, but said he identified the copy brought by the Hawk as the first he received. Marginal notes which had been made on the dispatch.

The admiral referred to a memorandum from the commander-in-chief to Adm. Sampson, which is reported at the close of the appendix to the report of the chief of the bureau of navigation as follows:

"The Hawk has just returned from Cienfuegos with dispatches from Schley. Hood says a good number of the officers and men with the Spanish are there at all, although they can only surmise.

"That," remarked the admiral, "would go to indicate that Mr. Hood was not very certain in his own mind, or if he had brought any verbal instructions to me, that he failed to report to me as the commander-in-chief. Mr. Hood got into the anchorage I think some time that night (25th), and I went in until I got into the anchorage at Cienfuegos before 10 or 11 o'clock. Lieut. Hood did not board the ship in my presence. He had already been boarded. If he boarded the Adula and got this news and failed to deliver it to me, I think it was through indiscretion, for I was the senior officer and he did not know what I was going to do with her, and I suppose he was very glad to have had his information."

Then Schley said that on the night of the 25th he had seen three lights standing to the eastward and to the westward of the harbor of Cienfuegos. "The one to the eastward," he said, "was in the mountains and I should say ten miles from the shore, apparently well up. The others to the westward were about five or six miles in on the beach but back of it on the high land."

He said that while the squadron lay off Cienfuegos the winds were fresh and there was quite a heavy sea, which made it in this connection Adm. Schley referred to the fact that he had not been informed in advance as to the method of the Spanish communicating with the insurgents and he said that he did not know that there was any method to communicate with Cienfuegos. Continuing on the subject of coaling Adm. Schley adds:

"The ships of the flying squadron were very much better fitted to resist shock as well as to deliver this coal rapidly. Perhaps, with the exception of vessels of war, I might have coaled on days with worse weather. We had a good many days of smooth sea which my attention has been made because they came after the period of time. One of the colliers had to put to New York absolutely smashed in.

Adm. Schley testified that he heard for the first time the code of signals arranged for communicating with the Cubans on the morning of May 24. He sent Capt. McCalla ashore on the 24th, he came back and reported that he thought the enemy was not at Cienfuegos. An hour or two had then, the witness said, been consumed in the preparation of dispatches including a dispatch to be sent to the secretary of the navy, and about 6 o'clock the squadron steamed to the south, and I think," he said, "that was nearly out under way between 7 and 8 o'clock on a course of about southeast." Speaking of the weather conditions on the night of the 24th, after the squadron had got under way, the admiral said that he remembered that it was very dark one and the sky lowering. It was rainy squalls, he said.

Speaking of the weather on the 25th as rough for the smaller ships.

Coming to the 26th, Adm. Schley said that the weather was still rough and recounted the incident of sending Commander Southerland away with the Eagle. "It did not," the admiral said, "occur upon coaling his ship because it would have been absurd, impossible."

"We continued on an easterly course, as my orders contemplated, approaching cautiously, and as they also conveyed to me the information that probably that when I left Cienfuegos the enemy would leave Santiago, I laid such a course as I thought would give me a wide horizon, and if he did leave I could not imagine he would try to pass inside of me. I estimated, of course, he would pass to the southward. My course as I expected would have of course gone to China if there had been no islands in the way."

The admiral then told how upon reaching a point southward from Santiago about 4 or 5 o'clock in the afternoon of May 26, he had encountered the scout boats.

At this point the admiral entered upon another defense of his course by saying:

"I was on the south side of Cuba, of course, inverted, I thought, with entire responsibility. I was not in communication by telegraph. I did not know that we had secret agents in Havana. I did not know that there were any means of communication with the insurgents. All that were known I would have known also, because I was acting in an entirely independent capacity. I may almost say I could not be reached by telegraph, and a good deal I did had to be left to guessing. Some times I guessed right and some times I guessed wrong, and I suppose, in the light of recent events, we are liable to do that."

The admiral then referred to the incident of Capt. Sigsby coming aboard the Brooklyn from the scoutboat St. Paul. He said:

"I do not believe that he is capable of stating what is not true. In this instance his recollection is at fault and not his veracity. I said to him: 'Captain, have you got the dons here?' He said to me: 'No, sir, they are not here, but have been in very close.' I do not know but what he may have said, 'They are not here,' he certainly said, 'They are not here, they are only reported here.' I said to him, 'Have any of the Spanish vessels been in, the Cristobal or the Minneapolis?' He said, 'No, they have not. They have assured me so.'

Adm. Schley explained the "upgrade movement" so-called to the westward, saying that he had not considered the economical question at all, but that the economical features could never be taken into consideration in military movements. It was a matter of careful inquiry as to the coal supply of the various ships and had turned over in his mind like a flash the endurance in battle. "I was," he said, "thinking over in my mind that a squadron in its coaling formation, and in its speeding endurance, was equal only to its weakest member, just as the speed of a fleet depends upon the slowest ship. 'Dear Schley' letter. Referring to this dispatch the witness said:

"I did not remember the fact until within the past few months because there was a duplicate of the letter, which I was recall from the fact that I sent the Scorpion to the eastward in obedience to the injunction contained in the letter to communicate with the scouts about whose presence off Santiago I was very uncertain, as I think the admiral was on account of orders having been sent directing them to proceed in the direction of the Spanish main to look for the Spanish fleet. The admiral was not certain whether they had got back, nor was I. There was sent Lieut. Scott Scorpion, and the fact fixed the receipt of that letter. Coming to the blockade off Cienfuegos the admiral explained the formation of his fleet there, saying that the steaming which had been mentioned in the logs was for the purpose of obtaining the best effect of a current which set directly into the bight. He said the ships were constantly settling into the current and were obliged almost every hour to steer for a mile or two. And that," he said, "accounts for a good deal of what is stated in the logs about steaming. We were closer at night.' He said emphatically, "Was the rule of the squadron always; we were closer at night at both twenty-five and ten miles." The rules of keeping the squadron in formation regarding the night or in line of battle really need any comment, they are self-explained."

At this point Adm. Schley digressed for a moment to refer to the conversation he had had on the 20th of May off Cienfuegos before leaving Key West, which he said had reduced the belief that the Spanish squadron was destined for Havana.

The admiral then related the particulars of the visit of Lieut. Wood, of the Dupont, to the flagship Brooklyn, which when the Dupont arrived off Cienfuegos. He said that Lieut. Wood was in a pilot boat with a crew of Spanish prisoners and his arduous duties on a torpedo boat. The admiral related how Lieut. Wood had handed him the dispatch and had said:

"I think he did me injustice when he spoke of my speaking disrespectfully of Capt. Sampson as Capt. Sampson made no such term. There was no reason why I should have done so."

The admiral said that the Hawk arrived about 8 o'clock on the morning of May 25. This vessel, he said, had brought the dispatch from Adm. Sampson which is designated as No. 8. This is the dispatch in which the commander-in-chief notified the commander of the flying squadron that the Spanish fleet probably was at Santiago and directed him, "If satisfied that they are there the Cienfuegos to proceed with all dispatch to Santiago." The witness said that he had received duplicate copies of dispatch No. 8, but said he identified the copy brought by the Hawk as the first he received. Marginal notes which had been made on the dispatch.

The admiral referred to a memorandum from the commander-in-chief to Adm. Sampson, which is reported at the close of the appendix to the report of the chief of the bureau of navigation as follows:

"The Hawk has just returned from Cienfuegos with dispatches from Schley. Hood says a good number of the officers and men with the Spanish are there at all, although they can only surmise.

"That," remarked the admiral, "would go to indicate that Mr. Hood was not very certain in his own mind, or if he had brought any verbal instructions to me, that he failed to report to me as the commander-in-chief. Mr. Hood got into the anchorage I think some time that night (25th), and I went in until I got into the anchorage at Cienfuegos before 10 or 11 o'clock. Lieut. C. C. BOBERTS, Ex-Sheriff,
Boone, County, Kentucky.

Commissioner's Sale.

Boone Circuit Court, Ky.

J. M. Lassing, Pltf.
vs } Equity.
T. N. Grimsley, &c., Defts.

By virtue of a Judgment and order of Sale of the Boone Circuit Court, rendered at the August term thereof, 1901, in the above cause, I shall proceed to offer for sale at the Court House door in Burlington, Boone County, Ky., to the highest bidder, at Public Sale on Monday the 4th day of Nov., 1901, at one o'clock p. m. or thereabout, being County Court day, on a credit of 6 months, the following described property to wit:

Lylug and being in Boone County, Kentucky, and bounded as follows, to wit: Bounded on the North by the lands of George L. Miller and William Clore; on the East and South by George L. Miller and on the West by Landing Creek, and containing 18½ acres more or less, and being same conveyed to Defendants by W. H. Baker.

For the purchase price the purchaser with approved security or securities must execute bonds, bearing legal interest from the day of sale until paid, and having the force and effect of a judgment, with a lien retained therein until all the purchase money is paid. Bidders will be prepared to comply promptly with these terms. Amount to be made by sale, $104 83.

J. W. DUNCAN, M.C. B. C. C.

Winded Horses.

Horses and mules are frequently afflicted with broken wind, due, in the majority of cases, to being worked on a stomach filled with bulky food. If the trouble is cared for early it may be overcome. No coarse food should be fed winded horses during the day, but be given at night after the grain be eaten. Everything should be done to keep the animal comfortable; the stable should be well cleaned and ventilated and bedding dry and abundant. A lump of rock salt should be kept in the manger at all times. After the horse is brought in from work he should be sponged all over with cold water, in which a little aqua ammonia has been placed. Then rub the animal until dry. Do everything possible to prevent the horse becoming overheated, and if the bowels are constipated mix a tablespoonful of glauber salts in the drinking water three times a day, increasing the amount if necessary to cause the bowels to move freely. This treatment will usually effect a cure.

When oyster shells are provided for the fowls they should be broken into pieces the size of grains of corn and not be ground into a powder.

It will pay you to investigate the prices at
ESKEW'S, Pharmacy,
Walton, Ky.

Commissioner's Sale.

Boone Circuit Court, Ky.

J. M. Lassing, Guardian, Pltf.
against } Equity.
Sallie Cleveland Riley, &c. Defts.

By virtue of a judgment and order of sale of the Boone Circuit Court, rendered at the Aug., term thereof, 1901, in the above cause, I shall proceed to offer for sale at the court-douse door in Burlington, Boone County, Ky., to the highest bidder at public auction, on

Monday, November 4th, 1901,

at 1 o'clock p. m., or thereabont, being county court day, upon a credit of 6, 12, 18 and 24 months, the following described property, to-wit:

GUESS :: AGAIN!

The RECORDER will give a prize of

$10.00

for the first correct, or first nearest correct guess as to the number of votes polled in this county at the next November Election, and for the next three correct or nearest correct guesses it will give One Years Subscription to the RECORDER. If two or more persons make the first correct or nearest correct guesses on the same day the $10 will be divided equally between them.

No person will be allowed a guess unless his or her subscription is paid up to or beyond

☞ JANUARY 1st, 1902.

No payment on subscription of less than $1.50 will entitle a person to a guess. For each $1.50 paid on subscription one guess will be allowed.

Fill up the following coupon, sign it and hand or send it to this office, where it will be dated as of day of its reception.

I guess.....votes will be polled in Boone County at the election held Nov. 5th, 1901.

Farm for Sale.

Farm of 28 acres on East Bend road, 3 miles from Burlington. On this farm are a good brick dwelling, good out-buildings, good orchard, 2 cisterns and a well. Fencing good. Terms easy. Apply to Mrs. R. S. COWEN,
Burlington, Ky.

For Sale or Lease.

My ferry known as the Kotmeyer or Anderson ferry. There are 9 acres of land, three dwellings houses, good barns, scales and other out buildings on the Kentucky side and 7 acres, more or less on the Ohio side of the river. This is one of the best equipped ferries between Cincinnati and Louisville. This property is appraised at $23,000 for taxation, but I will sell for less money.

CHAS. KOTTMEYER.
Constance, Ky.

NOTICE.

Notice is hereby given that we will move the Boone Circuit Court on the third day of its December term, 1901, to release us as surelies on the ferry bond of Horace Goodin, who operates the ferry on the Ohio river between the towns of Taylorsport, Boone county, Ky., and Delhi, Hamilton county, Ohio. COLLEGE AND PREPARATORY DEPARTMENTS.

Oxford, Ohio, 40 miles north of Cincinnati; 78th year opens September 21; 26 men in the faculty. Both sexes received on equal terms. TUITION FREE. $200 covers all necessary expenses; $148 for board, room rent, books, laboratory and incidental fees for school year. Excellent gymnasium equipment. This school, supported by the State, in a small town, in a mild and genial climate, having commodious buildings and campus of rare beauty, is an ideal place for study and mental and physical training.

DAVID STANTON TAFFAN, D. D., LL. D., President.

BOONE COUNTY RECORDER.

VOL. XXVII. BURLINGTON, KENTUCKY, WEDNESDAY, NOVEMBER 6, 1901. NO. 33

LOCAL NEWS.

Born, to D. E. Castleman and wife, on the 30th ult., a son.

Several persons imported cabbage out of which to make kraut this fall.

The sheriff is now ready to collect the school tax to pay for the new house in the Woolper district.

If you need a good cook stove or good Air Tight heater, call on Hunter, Harris Co., Rising Sun, Ind., and buy a Garland,

Herbert Kirkpatrick had the contract for delivering the ballot boxes for the sheriff, last week. It took him several days.

The vote of both parties in this county, yesterday, was smallar than that polled at the last Democratic primary election.

Jerry Delph and wife had a crowd of merry-makers with them last Friday night, and a crowd of young people never had a nicer time.

In the matter of mail Burlington and Bellevue are 50 miles apart, while eight miles will more than cover the distance between them.

Aurora had considerable experience with ugly fires, last week. Her efficient volunteer fire company was kept busy, for two or three days.

The daily papers that come to the Burlington office, failed to get here at all last Wednesday, and a great many persons missed them consideranly.

As Geo. Blyth was going to the city early last Wednesday morning with his wagon, he ran over and killed a strange dog out on the pike near William Houston's toll gate.

John Taneous, of Hebron, has advertised a sale of a large lot of household furniture and other articles for the 14th inst. A large quantity of the household goods is as good as new.

Johnnie Bachelor bought of W. S. Underhill 48¼ acres of his farm, including the improvements. Consideration, $1,000. Mr. Underhill will move to Walton and take charge of the Phoenix hotel.

Chas. Hemfling has purchased of the Coney Island Co., its property near Taylorsport, this county, and known as Parlor Grove. Consideration, $2,600. Realestate agent, W. E. Vest, made the deal.

Mr. Buell delivered his lecture on Siam, its people and their customs, at the court house here last Wednesday evening. The lecture was interesting and instructive, and should have been listened to by a large audience. Those who heard the lecture got several times the value of the admission charged.

J. P. Hemphill, the druggist, of Rising Sun, will remove his stock of drugs, &c., into the Clark Building, one door above the National Bank, in about two weeks, and asks his friends of Boone, to remember the place and call and see him, and at this time thanks them for their liberal patronage for the past year.

This is going to be a very profitable season for swine growers. They ought to take extra care to see that they have pure water and everything done to prevent hog cholera. We have lately frequently alluded to these things, and wish again to urge extra care for cleanliness, some succulent food and pure water, wood ashes and a little charcoal will help also, if put where they can get it.

It is seldom that as gay a crowd of young people get together as that which assembled at Mr. and Mrs. Richard Utz's on Tuesday night of last week. They were entertained in a royal manner, by the host and hostess, and parlor games were indulged in until the approach of gray dawn, when all took their departure for home, pronouncing the occasion one of the most delightful of the season.

The rainfall for Cincinnati and vicinity so far for the year has been less than for any year since the United States Weather Bureau has been keeping the records—30 years. So far this year there has been but 14.48 inches, as against an average for the same period of the previous years of 33.3 inches. But two months remain to make up the deficiency, and it is expected that the year will establish a record for short rainfall. Last year was the lowest hitherto known, being 27.78 inches.

The Throbbing Headache

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25 cents. Money back if not cured. Sold by W. F. McKim, Burlington; Union Drug Store, Union; H. L. Eskew, Walton; O. N. Grant, Bellevue.

Dr. J. N. McCormack of Bowling Green, Secretary of the State Board of Health, says the smallpox so prevalent in Kentucky last winter has been stamped out completely and that not a single case remains. He says that the members in the last general assembly are to be congratulated on the prompt action taken in increasing the annual appropriation for the state board, as otherwise that body would not have been able to do such effective work.

The kraut makers held a convention here one day last week. Judge Roberts was chairman and J. C. Revill, secretary. The object of the meeting was to devise plans for securing the necessary material for making a winter's supply of kraut. It was decided to send to the city and buy the cabbage. Elmer Beall and Judge Roberts accepted the appointed as purchasing committee, and entered upon the discharge of their duties as soon as the convention adjourned.

With the kindliest of feeling for some of the boys here in town, who are in the habit of disturbing entertainments with unnecessary yelling and running up and down the steps at the court house, the RECORDER desires to suggest to them that some of the people are getting very tired of such unbecoming behavior, and endurance will soon cease to be a virtue, and the law, which is severe on those who disturb lawful assemblages, will be invoked. Those who do not desire to hear a lecture or a speech should not disturb those who do.

GRANT COUNTY.

From Williamstown Courier.

The tax levies in Grant county for 1901, are as follows.

Free Turnpike Road Fund, twenty five cents on the $100 of taxable property and $1.50 on each poll in the county.

Turnpike Sinking fund, fifteen cents on $100 dollars.

Bridge Sinking Fund, five cents on each $100 of taxable property in Grant county.

Pauper Fund, five cents on each one hundred dollars of taxable property in Grant county.

General Expense Fund, fifteen cents on each $100 of taxable property.

Great Luck of an Editor.

"For two years all efforts to cure Eczema in the palms of my hands failed," writes editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Eruptions, Sores and all skin diseases. Only 25 cents at W. F. McKim's, Burlington; Union Drug Store, Union; H. L. Eskew's, Walton; O. N. Grant's, Bellevue.

In many sections there is a strong prejudice against the fall top dressing of meadows the claim being that the effect of the dressing is lost before growth begins in the spring. This is an assumption that is scarcely warranted in most cases, for even if stable manure is used as a dressing it is fair to assume that the grass roots will get the benefit of at least a portion of it, enough to make it pay for the application. A mixture composed of one-third muriate of potash, one-third fine bone and one-third nitrate of soda is an ideal one for top-dressing meadows. An application of 500 pounds of this mixture to the acre seems expensive, but when it means better hay and more of it, is it not profitable even though it figures up at the rate of about $3 for each ton of hay?

Jumped on a Ten Penny Nail.

The little daughter of J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all Druggists.

The Election.

The election in this county passed off very quietly, and a small vote was cast, not more than 1,800 being cast by both parties. When we went to press nothing had been heard from Rabbit Hash, Bellevue and Constance, they having no telephone connection with the county seat. With these three precincts out the Democrats polled, for Representative, 1,175, and the Republicans, 328. The candidates on each ticket ran close together, very little scratching having been done.

Seth Low was elected mayor of New York, defeating Tammany's candidate.

Nash was reelected Governor of Ohio.

The Democrats carried Louisville and the next General Assembly will elect a Democratic U. S. Senator.

Special by 'Phone from Petersburg:

Nov. 2.—People of Petersburg and those of the neighborhood immediately opposite here in Indiana, have been laboring under considerable excitement for the last week, occasioned by the discovery of a mysterious excavation on the bank of Tanner's creek, about 200 yards from where that stream empties into the Ohio river.

The excavation was discovered by Irvin Thteege and Chas. McCool, of this place, who were over on Tanner's creek one day last week. When they came home and reported what they had discovered, giving a particular description of the surroundings, some of our people remembered that years ago there was a story to the effect that a large amount of money had been buried at some time in the past on Tanner's creek by a band of robbers who had been particularly annoying in this then frontier country.

The revival of this old story increased interest in the discovery our boys had made, and large crowds of people began to flock to the place described, where they found a hole that the fresh mound of earth gave evidence of having been dug but a few days. This hole was about 6 feet across and 18 feet deep, and some distance from the top had been left a bench of earth from which the dirt from the bottom of the pit had been thrown before it could be pitched out at the top. At the bottom of the hole was plainly to be seen an impression 12x18 inches made by a chest which had but recently been taken out, while there were numerous tracks, evidently made by three or more persons. Near by were tracks of a wagon. All the surroundings gave evidence of something of value having been taken from the hole, but of what amount and by whom will probably never be known. Not long ago some one dug a hole not far from the one discovered last week, but there was no evidence of anything having been obtained, and it is supposed that the same parties did the recent work and met with success.

Special by 'Phone from Aurora, Nov. 4.—

A fire brokeout in Taylor's livery stable here this afternoon, and before it was under control the livery-stable, the White Hotel, Small's feed store and some other buildings were destroyed. How the fire got a start is not known. The loss on White's hotel, $2,500 with $500 insurance; Small's loss was about half covered by insurance. There was no insurance on the other buildings. Last night the large dairy barn of Derry King, near town, was burned to the ground. This fire was incendiary. No livestock was lost.

Geo. R. White loss $200 worth of turniture he had stored in the hotel.

That cattle without horns are a great improvement over cattle with horns is now a well settled fact. For this reason, everything else being equal, natural born mulleys will, in future, be in great favor. Everybody can't, at least for the present, have mulleys, but those who desire it and begin in time can have hornless cattle. Those who are prepared to feed and properly care for their cattle in winter should by all means dehorn them. Hornless cattle feed better, are more docile. Losing their horns seems to change the habits of the animal. It pays to remove the horns and it pays still better to breed hornless cattle.—Farm and Ranch.

Fresh Quinine Pills
15c per 100
at ESKEW'S
Walton, Kentucky.

Color, burn, and texture are the three things which the grower has chiefly to consider. At present the trade calls for a very light, cinnamon-brown shade, which must be uniform, not mottled. The leaf, when rolled on a cigar and smoked, must leave a white or light gray hard ash, which does not flake off and fall into one's bosom or over his waistcoat, and it must not "coal"—i. e., have a black, charred ring just behind the ash on the burning cigar. This is sure to give a bad flavor and taste. The leaf must also burn freely, and when lighted hold firm for a reasonable time. It must have a soft, silvery texture, glossy surface, and the elasticity of a piece of kid, so that it may be drawn smoothly and closely about the cigar.

Flavor is not wanted in Connecticut tobacco, for if there be much of it it is sure to be bad. Perfect burn, color and texture can be gotten in the Northern climate, but a delicate and agreeable flavor has not yet been obtained. Flavor is conditioned largely by climate, the other qualities by soil and fertilizers. It is desirable, therefore, that the leaf be neutral, without taste, as far as may be. We get the flavor wholly in the Cuban filler. To obtain these qualities of leaf is the problem of the grower—a much more complicated one than meets the ordinary farmer.—Harper's Weekly.

There were two great events at the Pan-American that will go into its history as worthy of special mention. New York State day, Wednesday, with nearly, 130,000 on the grounds, will probably be known as the record-breaker, although Buffalo day, which comes this week, may put it in second place.

Thursday the National Grange was the leading feature of the program, and the day seemed to be endowed with the two important things which go to make a success of special exposition events.

These two things are large attendance and favorable weather.

It was the original intention to have the address of welcome and response in the forenoon, and the address of State Masters and others in the afternoon. This program had to be changed to an afternoon session only, in order to give the big delegation from Dunkirk a chance to be seen and heard at the Temple of Music in the morning. That enterprising little city had closed its big factories and its schools and sent 7,000 old and young to the Pan-American to show the world that its people are as up to date and progressive as the big locomotives for which it is noted.

A belated western Granger who arrived on the grounds after 10 o'clock, went direct to the Temple of Music, and was surprised to find it packed with an immense audience. He went in with the crowd and inquired of the man next to him if these people were Grangers. The reply was that a great many of them were.

Some one advocated the plan of letting cattle run loose in the stable, not long ago. It saves a little labor in one way, as he described, but makes more in another way. No intelligent up-to-date farmer will adopt this method. The idea of hauling dung from other portions of the barn into the cow stable! It makes too much bad odor. It is a good way to make manure fast, or good manure as he claimed. Clean out the stable every day and put it in a pile and wet the pile down every two or three days. It will make more and better manure than to leave it in the stable five or six months. (If it don't leach out and run away.—Eds.)

We can't feed cattle without a good deal of labor. The more labor and attention the greater the profits. Many turn hogs in with fattening cattle. I never had much faith in this practice. Keep the pigs out and keep the stable well bedded so that cattle are invited to lie down and grow fat. Hogs interfere with the comfort and contentment of cattle. We fed 30 head of dehorned steers several years ago. In 100 days each steer gained 300 lbs.—a gain of 3 lbs. every day. They were all turned loose in two stables. We cleaned the stables twice to four times a week and kept them well bedded; also kept up the dung pile, carried water and poured on it, and hauled the manure on the corn ground. We got an extra crop of corn. You can see the place today where that manure was put. We have fed cattle every year since my recollection and find this to be the best way we have tried.—Ohio Farmer.

ON THE WING.

To the Editor of the Recorder:

Notwithstanding the very dry time experienced in the various localities in which I have been in Ohio, Indiana and Kentucky, it is remarkable to see so much of the wheat sown sprouting and growing with apparently so little moisture. The good weather farmers have taken advantage of to do their seeding, gather in the products of their labor and prepare for winter, and the good housewife now looks with pride into the well-filled store room, at the luscious peaches canned, the product of the pumpkin vine and other good things for Thanksgiving and the cold, bleak days of winter.

In every direction can be seen the beauties of the autumnal tinge, and as I am making a number of lecture appointments in educational and missionary extension work in the "Blue Grass" Commonwealth and the "Hoosier" State, I see as I go down the Ohio river beautiful scenery, and as I go out and mingle with the people, I see much that reminds me of other days, and while all is not smooth sailing, and I get into communities where a proper appreciation of my work is not shown, because of ignorant prejudice, I always find some that are loyal to meritorious work, and do not measure a man's capacity by fine clothes and costly equipage.

The knights of the quill and teachers are always of that class, and wherever I find them, with few exceptions, I am the recipient of their kindness. In Petersburg, where I lectured, my effort was well received, and I was royally entertained in the home of J. W. Berksbire, and substantial evidence was given by the people of their appreciation of my work. Pleasant and lasting friendships were made there with Rev. Edgar Jones, S. C. Buchanan, Everett Helms and others. At Bellevue I spoke to an appreciative people, and partook of the unbounded hospitality of Mr. Wingate and wife, Dr. H. H. Williamson and wife, and C. H. Acra and wife, and from Rev. Hays and others I received a kindly greeting. At the county seat of Boone, it was a pleasure to meet the efficient teachers of the public school and their scholars; the whole-hearted B. B. Allphin, dear, generous Uncle Tommie Adams, the kind-hearted members of the press, together with the hospitable greeting at the home of Mrs. Cowen, and the complimentary words of others given in appreciation of my work.

When I shall think of the hours I visited in your county, bearing its historic name, and the nice fried chicken, good, enjoyable corn bread, and fine hot biscuits and butter that I have eaten, together with the cooling draught from "the old oaken bucket, the iron-bound bucket, the moss covered bucket that hangs in the well," I will exclaim in the language of the poet—

"Other days now pass before me,
Forms and scenes of long ago,
Like a dream they hover o'er me,
Calm and bright as evening's glow."

I will, also, when thinking of my friends, feel like making a wish such as the young man made when he went to the museum with his best girl, and saw the Octopod with its eight legs, he exclaimed, "Jane, I wish I had as many arms as that thing. I would use them all in embracing you." She replied promptly, "John, you ought to be ashamed of yourself to wish for impossibilities, just make good use of what you have;" so all that I can do is to make use of your paper and embrace my Boone county friends in the arms of my affections through its valuable columns.

WILLIAM P. BEWELL.

Kirby L. Crisler, of the Union precinct, was in town, Monday, and related a possum story that will jar you. He said they had been missing large quantities of milk, and hearing a noise in the cellar, one night last week, he took a light, and went down to investigate, and to his surprise there was one old and 27 young possums feasting on the milk. They had devoured several gallons. He at once began a war of extermination, and grabbed one of the young animals by the tail, when it caught him by the hand, and in his efforts to get loose, he let the whole outfit of possums escape. Mr. Crisler is thoroughly reliable, and that his cellar was full of possums on that occasion cannot be doubted.

Astounding Discover.

From Coopersville, Michigan, comes word of the discovery of a pleasant tasting liquid that when used before retiring by anyone troubled with a bad cough always ensues a good night's rest. "It will soon cure the cough, too," writes Mrs. S. Himelsburger, "for three generations of our family have used Dr. King's New Discovery for Consumption, and never found its equal for Coughs and Colds." It is an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles for 50 cents and $1 at W. F. McKim's, Burlington; Union Drug Store, Union; H. L. Eskew's, Walton; O. N. Grant's, Bellevue. Trial bottles free.

The following Wills were probated by the county court, Monday: Will of Joseph M. Wilson—Mrs. Rachel Rice, executrix; Will of Polley Wilson—William H. Wilson, executor; Will of Susan House—S. A. House, executor.

Rev. A. M. Vardiman, at one time pastor of Burlington and Bellevue Baptist churches, died at his home in Sedalia, Mo., to which place he moved not long since. We failed to learn the cause of his death.

The property here in Burlington owned and occupied by the late Jasse Kirpatrickrick, was bought by W. E. Vest at commissioner's sale, last Monday, for $550.

This is fine weather for the wheat.

Not much stock water, yet.

The Poultry Yard.

Fowls that get no milk need meat.

The best breed will be profitless with-out good management.

Reduce the winter stock as much as possible to layers.

Whenever a hen is not laying she becomes expensive.

There is no remedy for roup that equals warmth.

Store up a good supply of dry dust for use next winter.

When you sell dressed fowls see that they are in the best condition.

Better market the cockerels than allow them to bother the hens and pullets.

When fattening, fowls should always be closely confined.

Houdans and Dorkings have fine unfeathered shanks and the distinguishing five-toed feet.

Nearly or quite all of the white breed are easier dressed than the dark ones.

The market wants fowls plump, young, fresh and not bruised or discolored in any way.

Well-fed fowls will not become over-fat if compelled to scratch among litter for their grain.

A sufficient number of poultry should be kept on every farm to pick up what would otherwise go to waste.

Do not try to stimulate egg production with irritating condiments, they do more harm than good.

If you are building a new poultry house have all of the internal arrangements movable.

Hardiness, vitality and vigor of constitution are of more importance with poultry than all other qualities combined.

Fowls are good judges of the character and amount of exercise they require to keep the vital forces on the move.

In very many cases it is the pampering which pure bred fowls get that causes lack of eggs and infertility.

The food of fowls is usually concentrated and the droppings contain both the liquid and solid and hence is stronger than any other animal.

"Blind Tom," the negro pianist, who had so dropped out of notice that many have supposed him dead, has now reappeared in concert, says the St. Joseph, Mo., Herald. Tom is now fifty-two years old, and is still mentally the child he was when his extraordinary imitative faculty was first manifested. Since 1882 he has been under the most punctilious care in asylums and sanitariums and his custody has been a shuttlecock between one and another attorney. The present guardian is Albert Larche. Of course Blind Tom is a musical freak that was not made, for his gift is something born with him and apparently it continues despite his long sickness. He can still play three airs at once, play with his back to the piano and repeat any new tune that is sung or whistled or played to him. "Blind Tom" remains a riddle, with no rival. His "original" compositions are of no value, but his reproductions of notable works at a moments hearing is marvelous. To see this lolling negro, with closed eyes and heavy jaws, delight himself in the music he produces, is to witness one of the puzzles of human life.

These things will happen, and, of course, we have to dish them out to the public. Yesterday Sidney Hendren, of near Dugansville, was on his way to Harrodsburg, and observing a large spreading viper lying in the dust in the middle of the pike, thought he would capture it, bring it in and present it to George Robards, hitched, cut a forked stick, and with much trouble placed it over the snake's head. During this time the much enraged reptile kept up a subliant sound and flattened its head to the width of a man's hand, and finally, getting loose, turned and bit itself, and died in a few moments.—Harrodsburg Democrat.

The British Government has obtained possession of a farm of large size near Lathrop, Mo., where in the future from 300 to 500 horses will regularly be kept so that they may be vaccinated before being shipped abroad. The actual process has not yet been disclosed but it is thought that the vaccination is to be with serum which will immunise the horses against the famous "horse sickness" prevalent in South Africa at most seasons of the year. The horses are to be vaccinated some fourteen days before being placed on ship at New Orleans and are expected to be well again before reaching Capetown.

CURRENT TOPICS.

Sitka is the oldest settlement of importance in Alaska.

Columbian half dollars of 1893 are quoted at 60 to 75 cents.

Australia is exporting pickled sheepskins to the United States.

Japanese are now producing about 40,000,000 pounds of tea annually.

A solid cubic foot of anthracite weighs in round numbers 100 pounds.

A chestnut tree has been known to live for 860 years, oak 1,000 and yew 2,500 years.

The little German university town of Jena has no fewer than seven free reading rooms.

The United States continues at the head of the list of the world's exporting nations.

Edmond Potter has just published the second volume of his catalogue of the vases in the Paris Louvre, one of the finest collections in the world.

The tobacco trade war has already commenced, the American trust having notified its retailers of a large reduction in the price of cigarettes.

The naval department will introduce on the new German battleships 28 German centimeter rapid firing guns, the largest heretofore being 24 centimeter.

The people of St. Louis have adopted at the polls charter amendments to enable the authorities to put the city in first-class condition for the world's fair.

A tour of the agricultural districts of England and Wales reveals the fact that scores of farms are absolutely abandoned, that hundreds more are in a semiderelict condition.

Mrs. Roosevelt was discussing the momentous question of the toilet with a friend, and she remarked that any woman who displayed common sense could be well dressed on $300.

In ten Irish counties there are advertised 667,000 acres of shootings, and the rental asked is £7,385, or a trifle over 2¾d per acre. In most cases, too, there are mansions attached.

The British acreage under wheat this season was about 1,800,000—a fall of 144,000 acres from last year, following a decline of nearly 156,000 acres in 1900 and of 161,000 acres in 1899.

To date the prosecution of Roland B. Molineux has cost the State of New York upwards of $200,000, not including the cost of boarding the accused at Sing Sing for a year and a half.

Count Esterhazy, of Dreyfus case notoriety, is now a money lender in London, and has laid himself open to prosecution under a recent law for acting in that capacity without being registered.

The Austrian supreme court of appeal has decided that if a wife saves money from the amount allowed her by her husband for household expenses and appropriates the savings for herself this proceeding amounts to theft.

The value of pepper was known of old. We read that when Rome had to be ransomed from its barbarian conqueror, in the 409, Alaric demanded 3,000 pounds of pepper among the payments, and that Hippocrates used it in medicine, applying it to the skin.

Census Director Merriam estimates that the population of the United States, including the Philippines, will reach the enormous figures of 100,000,000 in 1910, and the phenomenal increase during the past decade furnishes a warrant for the estimate.

At Reading, Pa., in the habeas corpus hearing of the 70 street car men arrested for running cars on Sunday before Judge Endlich, the court declared that under the existing law of 3794 the running of street cars was a necessity. The costs were put on the prosecutors, the street car strikers.

A London cablegram saying that the last trip of the White Star steamship Oceanic, the longest ship that ever rode the seas from Liverpool to New York, broke all records at profit making, suggests the interesting and complicated question of the expense and financiering of the big ship. The cost of running the vessel was $35,000, while from passengers alone was received $125,650. The subtraction shows a remainder of profit of $90,650.

There is a perfect rage in Paris for homespun. It is the textile of the day, and hids fair to be quite as fashionable as cloth this season. It is employed for everything—suits, garments, and even hats.

The gigantic lumber combine, with a capital stock of $10,000,000, which was a few months ago granted a charter under the laws of Texas, its corporation name being the John H. Kirby Lumber Company, with headquarters in Houston, is rapidly obtaining control of the yellow pine [illegible] business of the

POST OFFICE AFFAIRS.

Re-Establishment of the Pneumatic Tube Service Recommended.

The Star Mail Service—There Were 825 Casualties in the Railway Mail Service During the Past Year.

Washington, Nov. 4.—The annual report of the second assistant postmaster general, William S. Shallenberg, made public Sunday, urges regular direct fast mail service between the Pacific coast and the Orient, the re-establishment of pneumatic tube service generally, and the closer separation of city mail by postal clerks on railway trains rather than by clerks of the mailing division after its arrival in the general post office. Under the last-named proposition the entire force engaged in distributing the mail ready for the carriers would be under one management, and congestion in a post office could be overcome by the temporary detail of railway mail clerks off duty. The city distribution in postal cars has been assumed entirely by the railway mail service, supplanting the former practice of having clerks from the city post office go out some distance on the road to meet incoming trains. Constant demands are now being made for still closer separation by having the railway mail clerks or superintendent in charge take the outgoing mail from the public and see that it is expeditiously dispatched and also deliver the incoming mail properly made up for the carriers. Mr. Shallenberg suggests for the present a test of the practical operation of this proposition at post offices whose gross receipts are a half million dollars or more a year.

Contracts for star mail service beginning next July shall provide for delivering mail into boxes along nearly all of the routes. The practice of granting to contractors general permission to sub-let their star route service has been discontinued. There were 823 casualties in the railway mail service during the year.

GOV. DURBIN REFUSES.

Will Not Grant Requisition For Extradition of Wm. S. Taylor and Charles W. Finley.

Indianapolis, Ind., Nov. 4.—Gov. W. T. Durbin, in a lengthy communication addressed to Gov. J. C. Beckham, of Kentucky, refuses to grant the requisition for the extradition of ex-Gov. William S. Taylor and Charles W. Finley, who have been indicted by Kentucky courts for complicity in the murder of Gov. William Goebel.

The governor declares in his letter that there is persecution, and that a "mass of self-evident perjury reflects poisoned passion of the court and jury."

FIERCE FOREST FIRES.

The Woods South of Poplar Bluff Has Been Burning For Three Days—Stock in Danger.

Poplar Bluff, Mo., Nov. 4.—The fiercest forest fires since 1835 are raging a few miles south of this city. The woods have been in flames for three days, and thousands of cattle and horses are in danger. Farmers and stockmen have turned out en masse to fight the flames, but they have made very little progress. The fire will cause a famine for feed for cattle this winter on account of the drought this summer cutting crop short.

Adm. Villamil's Remains.

New York, Nov. 4.—The Spanish steamship Montserrat, on her way from Havana, came into port Sunday with her flags at half-mast. In a mortuary apartment aboard the liner is the body of Adm. Villamil, who lost his life during the encounter with the American ships at Santiago. The body is on the way to Spain. Before the Montserrat leaves, the Spanish consul and many of the Spanish residents of this city will attend memorial services aboard the steamer.

Buffalo Exposition Ended.

Buffalo, N. Y., Nov. 4.—At midnight Saturday night President Milburn pressed a button, and the electric current in every light connected with the general illumination of the Pan-American exposition was turned off, leaving the grounds in almost total darkness. Sunday morning the circuit connecting the grounds with the Niagara falls power house was cut off.

Detroit Baseball Club Sold.

Detroit, Nov. 4.—It became known Sunday that the control of the Detroit Baseball club Saturday passed from Messrs. Burns and Stallings to S. F. Angus, a local capitalist, when the Peninsular Savings bank accepted a check for $13,600 for the stock that institution held as collateral for a loan made Burns and Stallings early in the past season.

Attacked the Dowager Empress.

Peking, Nov. 4.—While the dowager empress was embarking to cross the river before entering Ho-Nan, an assassin attempted to murder her, and killed an attendant with a spear before he was cut down. The court has left Ho-Nan en route for Peking.

Edward S. Stokes Dead.

New York, Nov. 4.—Edward S. Stokes, for a quarter of a century a noted figure in New York life, and the slayer of James Fisk, jr., died at the home of his sister, Mrs. Mary McNutt.

DESPERATE DEED.

Colored Man Fired Into a Crowd at a Meeting—Two Men Killed and Others Wounded.

Roanoke, Va., Nov. 4.—Meager details were received here Sunday from the little town of Ferrum, Va., about 30 miles from Roanoke, on the Roanoke & Southern railroad, of a tragedy at that place Saturday night. A Negro named William Hale took exception to some remarks made by a white man at a political meeting, and leaving the hall went to his home where he armed himself with a double-barreled shotgun, loaded with buckshot. He returned to the place where the speaking was being held and fired both barrels into the crowd. A white man named Robinett, who was the village blacksmith, was killed instantly, and John Thomas, colored, received wounds from which he died shortly afterward. Two other men, both white, but names thus far not learned here, were seriously and probably fatally wounded.

Hale made his escape and thus far has not been captured, though the country is being scoured for miles around by indignant citizens. Bloodhounds were sent to the scene Sunday morning. There are no trains on the Roanoke and Southern road on Sunday, and the telegraph office is closed. Hale is said to be a desperate character.

ISLAND OF LYTE.

The Conditions There Are Annoying to Gen. Smith—Smuggling Supplies.

Manila, Nov. 4.—Advices from Catbalogan, Samar, says it is well known that, in spite of the fact that all ports of Samar are closed, supplies still reach the insurgents. Most of this work is done during dark nights by small boats from the island of Lyte. Every available gunboat is now endeavoring to prevent this.

The capture of Lukban's commissary has proved a great blow to the insurrection, as it renders future supplies very precarious.

Conditions in the Island of Lyte are annoying to Gen. Smith. A large number of junks are used with the express object of aiding the insurgents in Samar, covering the movements of fugitives and landing provisions and clothing.

SENATOR CLARK.

Rated By a Mining Paper as the Richest Man in the World—Two and a Half Billions.

Phoenix, Ariz., Nov. 4.—The American Mining News contains the following article about the great United Verde mine, the property of Senator W. H. Clark, which, if correct, would indicate that it is probably the richest mine and he the richest man in the world:

"It has only lately come to light that the average value of the ore taken from the United Verde is $75 per ton in all values—gold, silver and copper. This mine, so far as has been developed, including explorations and diamond drilling below the present workings, shows an immense ore chimney, 400 by 600 feet across, that has been explored by shafts, tunnels and drill holes to a depth of 1,400 feet.

FLOUR DESTROYED.

Ninety-Six Carloads at Manitowoc, Wis., Burned—Loss $125,000—Firemen Overcome.

Manitowoc, Wis., Nov. 4.—Seventy-three carloads of flour on track and 23 carloads in the warehouse of the Wisconsin Central Railroad Co. were destroyed by fire Sunday night, together with the warehouse and dock property of the road. The loss will reach $125,000, fully covered by insurance. The origin of the fire is not known. Gust. Boeder and Louis Wilkowski, firemen, were overcome by the intense heat, and were rescued with difficulty. Wilkowski's condition is serious.

Gave Birth to a Son.

Brussels, Nov. 4.—Princess Elizabeth, who was married October 2, 1900, to Prince Albert, heir presumptive to the throne of Belgium, Sunday gave birth to a son, who will be christened Leopold. In the course of the afternoon the king visited Prince Albert to congratulate him upon the event. He expressed his joy and promised to act as godfather.

Luke E. Wright's Appointment.

Washington, Nov. 4.—Hon. Luke E. Wright, the senior member of the Philippine commission, after Gov. Taft, has been appointed vice governor of the islands in order to meet such an emergency as has arisen through the present indisposition of the civil governor.

Thanksgiving Day Proclamation.

Washington, Nov. 4.—President Roosevelt issued a proclamation fixing Thursday, November 28, as a day of national thanksgiving and prayer.

Wants an Answer.

Copenhagen, Nov. 4.—The United States has asked Denmark for a decisive answer to the United States offer to purchase the Danish West Indies. The Danish government will not make a reply before November 30.

A Big Disaster.

London, Nov. 4.—It is announced in a dispatch to a news agency from St. Petersburg that scores of fishing boats were wrecked, and that 170 men were drowned during a recent storm on Lake Baikel.

FRANCE THREATENS.

War Vessels Are on the Way to Turkish Waters.

Turkey Has Ordered the Completion With All Haste of the Defenses at Salonikh, Smyrna, and Dardanelles Entrance.

Paris, Nov. 1.—The officials of the French foreign office confirm the report that a division of the French Mediterranean fleet, composed of three battleships and two cruisers, under the command of Adm. Caillard, has proceeded from Toulon to the Levant to make a naval demonstration against Turkey. A foreign office official in communicating the foregoing to a Paris correspondent here, said: "The squadron sailed with sealed orders, and proceeds first to a Greek port, the island of Syra, I think, where the admiral will receive definite instructions as to carrying out his sealed orders. I am not at liberty to say what the sealed orders are, but the seizure of customs at Smyrna would probably be a very effective way of convincing the sultan that France's patience is exhausted, and that we have decided to enforce an immediate execution of the Turkish government's engagements.'

Adm. Caillard's squadron consists of the armored cruisers, Admiral Pothuau, Chanzy and Latouche-Treville, the second-class cruisers Dupetit Thouars and Cassard, and the third class cruiser Galilee. The crews aggregate 2,286 men, but the vessels will also carry landing parties.

A Constantinople telegram received by way of Philippopolis asserts that the sultan has resolved to defy the French government.

Paris, Nov. 4.—Sunday morning M. Delcasse, minister of foreign affairs, telegraphed M. Bapst, councillor of the French embassy in Constantinople, directing him to present Sunday Tewfik Pasha, Ottoman minister of foreign affairs, a note, asking how the Turkish government proposes to pay the Lorando claim and demanding the execution of the sultan's irade dealing with that matter.

The note will also request satisfaction regarding the rights of France which are defined in the various capitulations and treaties, and which in some cases have not been respected and in others have been encroached upon by Turkey.

It is expected that Adm. Caillard will be joined en route by the torpedo cruiser Condor, which is stationed in Cretan waters, and may be met by the torpedo dispatch boat Vautour, which is stationed at Constantinople.

It is also probable that the armored cruiser Admiral Charner, which arrived at Port Said, October 31, from the far east, is being held there in order to join Adm. Caillard if needed. It is further reported that three other warships are held in readiness at Toulon to reinforce him should their presence be necessary.

Dispatches from Rome assert that the second division of the Italian Mediterranean squadron, which, as announced Saturday, left for Turkish waters with the supposed object of counterbalancing the French naval demonstration, will join the first division, which has been cruising in the eastern Mediterranean for some time.

It appears also that the Greek warships, Psara, Hydra, Spetsai and Eurotas, are now at Smyrna, where is also the Russian Mediterranean squadron.

According to dispatches from Toulon all the officers and men of the garrison now on leave of absence have been ordered to rejoin their respective commands immediately. Three transports are preparing to receive troops.

THE MISS STONE CASE.

Smakamov Missionaries Fear She Will Be Murdered By Abductors After Ransom Is Paid.

Constantinople, Nov. 1.—The Turkish government is already preparing to resist the anticipated demand of the United States for repayment of the ransom necessary to secure the release of Miss Ellen M. Stone, the abducted American missionary. The porte repudiates all responsibility for the kidnaping of Miss Stone, and maintains that the United States has no claim against Turkey, and that, therefore, the latter is justified in refusing to recoup the United States for the money expended in her rescue.

Sofia, Nov. 2.—The best method of transmitting the ransom demanded by the brigands for the release of Miss Ellen M. Stone, the abducted American missionary, and of assuring the safety of the captives, are the matters now engaging the attention of the Smakamov missionaries who are negotiating with the kidnapers. It is felt that unusual precautions are necessary in order to safeguard Miss Stone and the others, as there is undoubtedly danger that the captives will be murdered after the ransom is paid.

Publicly Humiliated.

Chicago, Nov. 4.—There was an intensely dramatic scene in Holy Name cathedral Sunday when, in the presence of fully 1,000 parishioners, Jeremiah J. Crowley, the excommunicated Roman Catholic priest, was publicly humiliated by order of the authorities of the church.

Youngest Grandma.

Des Moines, Ia., Nov. 4.—Mrs. Jas. P. Carleton, of Iowa Falls, aged 29, became a grandmother Sunday, and claims to be the youngest grandmother in the northwest.

Meanest Man in Kansas.

Not long ago the wife of a western Kansas politician asked him to lay aside politics long enough one day to dig the potatoes in the garden. He agreed to do it. After digging for a few minutes he went into the house and said he had found a coin. He washed it off and it proved to be a silver quarter. He put it in his jeans and went back to work. Presently he went to the house again and said he had found another coin. He washed the dirt off it. It was a silver half dollar. He put it in his jeans. "I have worked pretty hard," said he to his wife. "I guess I'll take a short nap." When he awoke he found that his wife had dug all the rest of the potatoes. But she found no coins. It then dawned upon her that she had been "worked."—Kansas City Journal.

Board of Public "Imps."

"The abbreviation fiend is a nuisance and ought to be suppressed by law," said a man in the office of the board of public improvements, "but the limit was reached the other day when a letter came in here addressed: 'Mr. So-and-So, Board of Public Imps.'"

"Maybe that was neither a joke nor the result of carelessness," returned one of his associates. "Perhaps the man meant it, 'on the level.'"—N. Y. Times.

What's in a Name.

"Ah!" he sighed, after she had blushingly whispered. "Yes" in his bosom, "my own Mehitabel! O! that name's so formal. Surely your friends use some shorter one; some pet name."

"Well," she murmured, "the girls at boarding school used to call me 'Pickles.'"—Philadelphia Press.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

A Queer Fraternity.

I asked an old colored man to tell me something of his history. He said that he had been born in Virginia, and sold into Alabama in 1845. I asked him how many were sold at the same time. He replied: "There were five of us, myself and brother and three mules."—From Booker T. Washington's "Up from Slavery."

You Can Get Allen's Foot-Ease FREE.

Write to-day to Allen S. Olmsted, Le Roy, N. Y., for a FREE sample of Allen's Foot-Ease, a powder. It cures sweating, damp, swollen, aching feet. Makes new or tight shoes easy. Always use it to Break in New Shoes. At all druggists and shoe stores; 25c.

An Evolution.

"Do come home with me to dinner. I want you to meet my eccentric old uncle, John."

"Eccentric! It was only a year ago that you said he was an old boor."

"I know, but that was before his brother left him a fortune."—St. Louis Republic.

HE PAID THE PENALTY.

Murderer of President McKinley Was Electrocuted in Auburn Prison Tuesday Morning.

DIED UNCONFESSED AND UNREPENTANT

The Assassin Suffered a Slight Nervous Attack Monday Evening, But Remained Stoical and Sullen.

The Family Relinquished All Claim on the Body and It Will Be Buried in the Cemetery Attached to the Prison.

Auburn, N. Y., Oct. 29.—Leon F. Czolgosz paid tribute with his life to the law as the murderer of President William McKinley at 7:15 o'clock Tuesday morning. He went to the electric chair unconfessed and unrepentant.

Czolgosz was dressed in a very simple manner for the execution, a pair of black trousers, a loose gray shirt, and a pair of gray socks completing the outfit. He wore no undergarments and no shoes. The left leg of the trousers was slit at the bottom to permit the free adjustment of the electrode, and the shirt was opened at the neck.

Seated in the chair, with the fatal current about to be applied, Czolgosz, facing the witnesses said: "I shot the president because I thought it would benefit the good working people. I am not sorry for the crime."

During this the attendants were busy strapping him to the chair. His last words were:

"I am awfully sorry I did not see my father."

This was said after the strap had been drawn across his face, yet his words were heard distinctly by all the witnesses in the room. For the first time in the history of the prison a condemned man marched to the fatal chair unaccompanied by a spiritual adviser.

The current was applied three times. Death was instantaneous. A current of 1,700 volts was used, and a first application of it undoubtedly caused the man's death. There was the usual straining of the body during the passage of the current, and then, after its cessation, the usual limp sinking back. The current was turned off a few seconds while the physicians listened at the heart and felt for the pulse of the unhappy man. There was no pulse, and Czolgosz was apparently dead. To make sure, however, a reduced current of 1,200 volts was sent through the body, and when this had been turned off and a second examination made, the assassin was officially pronounced dead. The straps were unloosed and the body removed at once to the operating table, where the autopsy was immediately begun by Drs. MacDonald and Gervin, the prison physician.

He suffered a slight nervous attack Monday evening, but remained sullen and stoical until the prison closed at 10 o'clock. He refused to heed the words of the priests who came to urge spiritual preparation for death, and declined either to re-embrace Roman Catholicism or renounce anarchy. Czolgosz showed no strength of love for kin, nor did he turn to any of those higher considerations which ordinarily claim the thoughts of men occupying his position.

The prisoner suffered no loss of appetite, and during the day ate the usual allowance of food given to prisoners. Throughout his entire confinement he had a good appetite and his physical condition was excellent. He weighed about 155 pounds, which was thought to represent a slight gain since his arrest.

Under orders from the warden a coffin was also prepared. The latter is of plain pine, stained black.

The body of Leon Czolgosz, the murderer of President McKinley, will not be removed from Auburn. Superintendent of State Prisons Cornelius V. Collins and Warden J. Warren Mead, after hours of controversy with Czolgosz's brother, succeeded in obtaining from him a relinquishment of the family claims to the remains when the executioner shall have finished his work.

The resolution of Superintendent Collins to prevent sensation in the transportation and burial or cremation of the body of Czolgosz took new zest from two offers that were submitted Monday by men of questionable enterprise. A museum keeper in one of the larger eastern cities telegraphed him an offer of $5,000 spot cash for either the body or the garments of the murderer and the owner of a kinetoscope wired Warden Mead that he would pay $2,000 for permission to take a moving picture of Czolgosz entering the death chamber.

Monday night Superintendent Collins received a telephone message from the chief of police at Cleveland announcing that the father of the convicted man had signed an agreement similar to the one signed by the brother here Monday evening, giving the prison authorities the disposal of the body.

Czolgosz held his last two interviews Monday night, the first with Superintendent Collins and the second with his brother and brother-in-law. Both of the interviews were brief, and the interviewers did most of the talking until the question of religion was mentioned, when Czolgosz broke from his seeming lethargy and violently denounced the church and the clergy and made his relatives promise that these should be no services for him, living or dead. At 5 o'clock the brother and brother-in-law arrived and Superintendent Collins took them down to the condemned man's cell. There was no demonstration when they met. Czolgosz merely stepped to the front of his steel cage and said: "Hello."

The brother ventured the remark: "I wish you would tell us, Leon, who got you into this scrape."

The assassin answered in a slow, hesitating manner: "No one. Nobody had anything to do with it but me."

"That is not how you were brought up," said the brother, "and you ought to tell us everything now."

"I haven't got anything to tell," he answered in a surly manner.

"Do you want to see the priests again?" asked his brother, and he answered with more vehemence than he had previously shown: "No, d—m them; don't send them here again; I don't want them."

The brother-in-law interjected here: "That's right, Leon."

The brother looked rather disturbed by the answer. Then stepping up close to the bars the condemned man said: "And don't you have any prayers over me when I'm dead. I don't want it. I don't want any of the'r d—m religion."

There was a painful pause of a few minutes, and then the relatives resumed casual conversation with him, to which he replied in monosyllables until the brother-in-law suggested, much to Superintendent Collin's surprise, that he and the brother be permitted to see the execution. Before the superintendent could reply, Leon Czolgosz said: "Yes, Mr. Superintendent, let them see me killed."

Superintendent Collins told the trio in emphatic terms that no such thing could be allowed and ordered them to say good-bye.

Czolgosz walked to the back of his cell, sat down on the edge of his cot and did not answer the last farewell.

Auburn, N. Y., Oct. 30.—The autopsy, which was conducted by a number of physicians, showed Czolgosz's brain to be in a perfectly normal condition. It was above the average in weight and formation, and showed not the slightest lesion. The doctors say every organ in the body was in a normal condition at the time of his death.

The lengthy report prepared Tuesday afternoon by the autopsy surgeons related entirely to the brain, and was of a highly technical character. After scientifically describing to the minutest detail the brain of the dead murderer, the report concludes as follows:

"No anomalies found. The brain in general is well developed, sufficiently marked with fissures, and the lobes are in normal proportion."

The surgeons have not yet drawn a report on what the autopsy disclosed as to the other organs.

The remains of Czolgosz have been interred in the prison plot, and before 10 o'clock Tuesday night prison authorities say they were entirely consumed. No mound marks the place of the body, and there is nothing to indicate that Czolgosz ever lived. Great secrecy was observed in the disposition of the body. It was put under ground so quickly and so quietly, that few aside from the officials, knew it had left the prison.

During the noon hour, wagons, trucks, etc., leave the prison yard daily. The warden planned to get the body away at this time, so that those who were watching the prison gate would be disarmed of suspicion. The body, wrapped only in a sheet, was placed in a rough wooden box, and loaded on a truck, which is used for hauling freight to the station. A dry goods box was placed on top of the improvised coffin, and the truck was piled high with various articles of merchandise.

At 1:10 the truck drove out of the State street gate of the prison. A guard in citizen's clothes was on the seat, with a convict beside him. Two other officers were mounted on the rear. The wagon drove in the direction of the Lehigh Valley depot, as if to deposit its freight there. Instead it proceeded to the cemetery at Fort Hill. Warden Mead was informed that there was no one at the cemetery at that time. A grave had been prepared, and it was buried in quick lime and vitrol. A guard will be placed in the vicinity, and a sharp watch will be maintained to prevent grave robbers from tampering with the grave until every vestige of the body has been consumed.

A RECORD UNPARALLELED.

Ex-Consul Henry C. Hall, Who Served Under Eight Presidents, Dead, Aged 81.

Worcester, Mass., Oct. 30.—Hon. Henry Cay Hall, for 30 consecutive years consul in Cuba and minister to Central America, died at his home in Milbury, aged 81 years. He retired from the government service in 1892 on account of his health. He was long known as the don of the government diplomatic corps on account of his long service. He served under eight presidents, from Buchanan to Cleveland, a record believed to be unparalleled. He was known as the father of the Nicaraguan canal, and drafted the first treaty for the building of it.

Mother and Babe Dead.

Cheyenne, Wyo., Oct. 30.—Mrs. Julia Wagstaff and her 10-months-old babe were found dead Tuesday in their home at Sun Dance, Wyo. The woman had committed suicide by taking blue vitrol and the child, it is supposed, continued to nurse from the lifeless body until it perished from poisoning or colic.

CROSS-EXAMINATION.

Adm. Schley Was on the Stand for Three Days.

Original Report of the Battle Written by Schley July 6, 1898, Was Not Allowed to Go Into the Records.

Washington, Oct. 29.—The cross-examination of Adm. Schley began Monday before the court of inquiry and hardly more than a third of the ground was covered when the court adjourned at 4 o'clock. After Adm. Schley concludes Tuesday two other witnesses will be called in his behalf, Adm. Barker and Capt. Thomas Borden. The latter was an officer of the marine corps aboard the Brooklyn. The judge advocate then will call his witnesses in rebuttal, of whom there are understood to be more than 15, and it is probable that Adm. Schley's counsel will call witnesses in subrebuttal.

Adm. Schley concluded his direct examination, which continued only about ten minutes after the court convened Monday morning, with a statement as to the effect of the fire of the respective fleets at Santiago, showing that 36 per cent. of the hits suffered by the enemy were scored by the Brooklyn's 5-inch guns, while his ship received 70 per cent. of the hits from the Spanish ships.

Washington, Oct. 30.—The cross-examination of Adm. Schley was continued throughout the session of the court of inquiry Tuesday. Practically the whole day was consumed in questioning the admiral about the cruise from Cienfuegos to Santiago and the motives and influences that governed him in turning back after his squadron had arrived in the vicinity of the latter port. This latter branch of the cross-examination had not been concluded when the court adjourned. The judge advocate, in conducting the cross-examination, used a carefully prepared typewritten list of questions. They called for comparison of statements Adm. Schley has made either in his direct testimony, in his communication to the senate, or in his dispatches to Adm. Sampson or the navy department, with the testimony of witnesses who have preceded him, and the logs and signal books of the other vessels of the fleet.

Throughout the strain to which the witness naturally was subjected while under examination, the admiral retained his customary composure. Only once or twice did he display impatience or weariness. At one point, when asked a question, he replied that he had been asked the same question Monday, at the same time telling what his reply had been then.

On another occasion, when he was being searchingly interrogated as to his distances from shore at Cienfuegos as to whether the distances were a matter of record, he responded rather tartly: "Oh! No. I did not know they ever would be come a matter of such great importance, or I should have plotted them and made a memorandum, as I should of many other things."

The main points to which the cross-examination was directed Tuesday were the ability of the ships to coal off Cienfuegos and the reasons for what is known as the "retrograde movement."

The latter point was dwelt upon with much emphasis and detail, and had not been disposed of fully when the court adjourned. The admiral gave three reasons for turning back; first, the statement of Capt. Sigsbee, who commanded the scout ship St. Paul, that the enemy was not in Santiago; second, the opinion of Nunez, the pilot, that the entrunce was too narrow and shallow for the Spanish ships to enter, and third, the ambiguity of the department's telegram.

In the course of the cross-examination the admiral said he regarded the department's dispatch rather as a suggestion than as an explicit order, a suggestion which he carried out after the sea had abated and the coal supply of the ships had been replenished.

Washington, Oct. 31.—The long ordeal to which Adm. Schley has been subjected since Monday morning ended Wednesday afternoon when his cross-examination was concluded and he was allowed to leave the witness stand. When the judge advocate finished the cross-examination shortly after 3 o'clock the court propounded to the admiral 34 questions prepared by the members of the court. These questions touched many points of the campaign of the flying squadron, but mainly centered about the difficulties encountered in coaling and the reasons for the retrograde movement. Not one of them related to the battle of Santiago. The judge advocate's cross-examination Wednesday covered the retrograde movement, the reconnaissance of May 31, the loop of the Brooklyn, and the alleged colloquy with Lieut. Hodgson about the Texas.

One of the most interesting features of the day was the development of the fact that the report of the battle written by Adm. Schley July 6, 1898, was not the original report. The original report never has been published, and in accordance with a previous decision the court Wednesday declined it to go into the records.

Adm. Schley was allowed to explain, however, that Adm. Sampson declined to receive the first report because it did not mention the presence of the New York. "I felt that the victory at that time," said Adm. Schley in explaining the matter, "was big enough for all, and I made this change out of generosity and because I knew if the New York had been present she would have done as good work as anybody else."

Capt. Thomas Borden, of the marine corps, who was aboard the Brooklyn, will be the last witness called for Adm. Schley. After he testifies Thursday the judge advocate will put on the stand the witnesses in rebuttal, of whom there are understood to be about 15, and it is probable that Adm. Schley's counsel will call several witnesses in surrebuttal.

Washington, Nov. 1.—In the Schley court of inquiry Thursday a number of witnesses were introduced by Judge Advocate Lemly to testify in rebuttal of the evidence given in Adm. Schley's behalf. The court decided early in the day that no witnesses could be introduced at this stage of the proceedings to give testimony on immaterial points. This announcement was made in connection with an effort to prove a conversation on board the Massachusetts, in which Lieut. Sears, who was Adm. Schley's flag, lieutenant, was reported to have said: "For God's sake don't discourage him (Commodore Schley), it is all that we have been able to do to work him up to this."

It has the effect of relieving Lieut. Commander Grant, Lieut. Commander Potts and other officers of the Massachusetts, who had been called to testify concerning this conversation with Mr. Sears, which is said to have occurred on the Massachusetts just before the reconnaissance of May 31.

On the other hand, the court held that witnesses might be called or recalled any time for the purpose of making additions to former statements, but that none of them could reiterate testimony previously given. This decision was rendered on an objection raised by Mr. Rayner to allowing Capt. Sigsbee to give new testimony when called as a witness for the rebuttal purposes.

The witnesses called in rebuttal were: Capt. Charles D. Sigsbee, Capt. Francis E. Chadwick, Capt. Joseph G. Eaton, Lieut. John H. Roys and Chief Quartermaster Neil Anderson, all of whom testified to incidents called with the campaign of 1898.

Capt. Chadwick, in his statement, said that the precautionary dispatches from the navy department in regard to attacking the Spanish shore batteries had not been communicated to Commodore Schley. This statement is regarded as of great importance by Adm. Schley's opponents, as it distinctly contradicts the admiral's own statements.

Capt. Sigsbee testified concerning his interview on the Brooklyn with Commodore Schley. Capt. Eaton was the commander of the dispatch boat Resolute during the war, and his testimony related largely to events which occurred just before and just after the battle on July 3. Lieut. Roys served on board the Eagle, and his statement bore upon the Eagle's meeting with the Brooklyn when the latter was en route to Cienfuegos and again while the flagship lay off that port. He stated that Lieut. Commander Southerland had asked not to be sent to Port Antonio for coal, and had asked to be allowed to coal from the Merrimac.

Mr. Anderson was chief quartermaster of the Brooklyn during the Spanish war, and was at the wheel during the battle of July 3. He said that Commodore Schley had given the order of "Hard aport," but that when the order was given the vessel was then hard aport.

Before these witnesses were introduced for the department, the court heard Capt. T. S. Borden, of the marine corps, who served on the Brooklyn, in Adm. Schley's behalf. He was the last of the admiral's witnesses, and he testified that the admiral had borne himself honorably during the battle of July 3.

Washington, Nov. 2.—At noon Friday Judge Advocate Lemly announced that he had no more witnesses to call, and Mr. Rayner, following him, said that no witnesses would be summoned on behalf of Adm. Schley in sur-rebuttal. For a moment it appeared as if the now famous case was about to reach a sudden conclusion. But this disillusion was soon dissipated by the announcement on the part of Capt. Lemly that he might be allowed to bring in one more witness on Monday and also a statement from Mr. Rayner that Adm. Schley himself would also return to the stand on Monday to correct errors in his testimony as officially reported.

It is probable that the admiral will consume considerable time in going over what he said, and there is also an understanding that he will make some additions to former statements, but it is not believed beyond what has to say there will be much more testimony taken in the case. The only witness that the judge advocate still has in mind is Lieut. Strauss. The court adjourned until Monday.

THE TREATY SIGNED.

The Ft. Totten Reservation Indians, North Dakota, Agree to Sell 104,000 Acres For $350,000.

Devil's Land, N. D., Nov. 2.—Maj. McLaughlin, special agent of the interior department, has concluded a treaty with the Fort Totten reservation Indians and the government, and it was signed Saturday. The Indians agree to sell 104,000 acres for $350,000, the sum of $145,000 to be paid after ratification and $20,000 a year for 20 years. They also agree to relinquish all rights to recognized claim against the government of $90,000. Senator Hasbrough believes the reservation will be ready for settlement next spring.

INTERESTING STATE NEWS.

MURDER AT CORBIN, KY.

A Saloonkeeper Shot a Drayman While Lying Prostrate, Then Beat Out His Brains.

Corbin, Ky., Oct. 31.—W. G. Holland, a saloon man, was standing in his door when E. Bingham, a drayman, passed on his dray. Holland stepped out with a double-barreled shotgun and, without a word, fired the contents of both barrels into Bingham's back. Then he dropped the gun, and, drawing a 45-caliber Colts pistol from his belt, he emptied six shots into the fleeing form. When Bingham lay dead on the ground Holland went up to him and placed the muzzle of the pistol against his head and fired again, after which he beat the dead man's brains out with the pistol. The affair was witnessed by over 100 persons. Great indignation prevails, and a mob of Bingham's friends are forming.

Holland was arrested by Marshal Dave Chadwell. Many men refuse to serve as guards for the prisoner, the feeling being so high against him.

NEGRO LYNCHED.

A Small Mob Hanged Silas Easters at Hodgenville, Ky., for a Revolting Crime.

Hodgenville, Ky. Oct. 31.—A mob of 50 or 75 determined citizens about 2 o'clock Thursday morning took from the jail Silas Easters, a Negro, charged with a revolting crime, and strung him to the courthouse steps. The mob was headed by young Ward, the victim of the Negro, and his father, Thomas Ward. So quietly and systematically did the mob go about its work that the citizens of the town were in ignorance of the existence of a mob until the Negro was in its clutches.

The mob was formed in the neighborhood of the crime, and as it hurriedly marched toward town volunteers joined in from different sections. Arriving in town, the mob was swelled by citizens, who had been informed of its coming and who gave it hearty support.

A DOUBLE TRAGEDY.

Kentucky Farmer Mortally Wounded His Little Boy and Killed Himself After Losing a Fortune.

Paris, Ky., Nov. 1.—John C. Talbott, a well known farmer, aged 45, living near North Middletown, this county, at noon Thursday shot and mortally wounded his 2-year-old son, Scott, and then killed himself. Talbott had at one time possessed a fortune, which he lost through speculations, and this so preyed on his mind that he became temporarily insane. Talbott's father mysteriously disappeared while in St. Louis some years ago.

BADLY USED UP.

A Louisville Salvation Army Soldier Became a Fighting Man With His Two Fists.

Louisville, Ky., Nov. 2.—A Salvation army soldier used up M. Ohlendorf so badly Friday that the latter was not able to appear in the city court. Ohlendorf went into the Salvation Army hotel drunk, and was ejected by C. Bruce, a Salvation army worker. They fought on the sidewalk, and were both arrested. In the city court cage Ohlendorf renewed the difficulty and was so badly beaten up that he had to be removed for medical treatment.

Can Beat 2:00.

Lexington, Ky., Oct. 31.—Jack Curry, driver of Prince Alert, 2:00¾, shipped the great pacer to New York Wednesday night. He said: "The horse could have beat 2:00 at Memphis, but I decided to wait until next year to lower Star Pointer's record. I intend to pace him without the straps next year."

Charged With Killing Her Child.

Mt. Sterling, Ky., Nov. 2.—Mrs. Effie Craig, a resident of Bath county, near this city, has been placed under arrest on the charge of murdering her 3-year-old baby. She is being held awaiting the verdict of the county coroner. A sensation has been caused by the woman's arrest. There is much indignation manifested.

Received a Check.

Mayfield, Ky., Nov. 2.—Charles Broadway Rouss Stovall, aged 5, just received a check for $500 from the blind millionaire merchant of New York, after whom he is named. Mr. Rouss had said that if the child would write him a letter when it was 5 years old he would send it a present. This was done, and the check followed.

Extracted a Bullet With a Fork.

Paris, Ky., Nov. 2.—Gus Thomas, keeper of a Negro dive in Claysville, shot and seriously wounded "Judge" Durbin, colored, in the breast. Durbin extracted the bullet with a table fork before summoning a physician. Thomas was arrested.

Prominent Louisville Man Dead.

Louisville, Ky., Nov. 1.—John Hoskins, aged 76, one of the oldest paint contractors in Louisville, and a musician and poet of considerable ability, died from injuries suffered in being thrown from a wagon.

ELOPERS IN TROUBLE.

The Father's Name Signed to An Order Declared a Forgery After the Wedding Occurred.

Lebanon, Ky., Nov. 1.—Henry J. Mattingly appeared at the clerk's office Thursday for a license to marry Miss cona Mattingly. The young lady being but 16, he was told that a written order from her father must first be had. He returned shortly afterward with the order and a witness who made affidavit that he had seen the girl's father sign the paper. Scarcely had the ceremony been concluded when a telephone message came from the bride's father, saying that the couple had eloped, and not to issue the license. He was greatly enraged when told the ceremony had just been performed, and the manner in which the license was obtained, and said he would certainly prosecute all the parties.

BOY CONVICT PARDONED.

The Foreman of the Jury Which Convicted Him Offered to Raise the Child.

Frankfort, Ky., Nov. 2.—Gov. Beckham Friday afternoon pardoned immediately after conviction Geo. Patton, a diminutive Irish lad but 12 years old, who, after being in America less than six weeks, had received a term of two years in the state penitentiary for housebreaking.

The pardon was recommended by Circuit Judge Thomas J. Nunn, of Caldwell county, from which Patton was sent, and the members of the jury, the foreman of which, John E. Nichols, wrote the executive that he would adopt and raise the child.

EDUCATIONAL.

The Establishment of a University For the Higher Education of Girls Recommended.

Lexington, Ky., Nov. 2.—Committees appointed by the Northern and Southern Presbyterian synods of Kentucky met here and adopted resolutions recommending that a university for the higher education of girls to rank with the first colleges of the country be established in the state. A location will be considered at a meeting September 16, 1902, when bids will be opened.

Sayre institute, in this city, valued at $150,000, has already been offered to the committee as an inducement to locate the institution here.

MILAM BUYS YOUNGSTERS.

The Well Known Trainer Bought Four Good Ones of Col. Young, of McGrathiana.

Lexington, Ky., Nov. 2.—"Prof." J. C. Milam, the well known trainer, who had out Harry Beck, Henry Zeit and other good winners, bought four good ones from Col. Young, of McGrathiana, Friday. They were the following:

Brown filly, by Troubador, dam Imp. Pretzel.

Bay colt, by Imp. Pirate of Penzance, dam Pacific.

Bay colt, by Imp. Pirate of Penzance, dam Lady Modred.

Chestnut colt, by Onondago, dam Magnificent.

Name Must Go on Official Ballot.

Frankfort, Ky., Nov. 2.—Justice George Durelle, of the appellate court, overruled a motion to dismiss an injunction granted against the county clerk of Clay county, requiring him to place the name of Wm. Marcum on the official ballot as republican nominee for county clerk. Marcum was declared the nominee by the republican committee, but the clerk refused to place his name on the ballot.

Young Wife Shot Dead in Her Room.

Somerset, Ky., Nov. 1.—Mrs. Ola Newell, wife of Dr. John B. Newell, a prominent dentist of this city, was shot in the head and almost instantly killed in her own room in Crab Orchard street Thursday morning about 7 o'clock. The only other person present at the time was her husband, who was still in bed. Mrs. Newell had been dependent from ill-health for some time.

Racing at Douglass Park.

Louisville, Ky., Nov. 2.—A race meeting to continue 30 days began Saturday at Douglass park. Every indication points to a successful meeting.

Kentucky W. C. T. U.

Paris, Ky., Nov. 2.—The 21st annual convention of the Kentucky Woman's Christian Temperance union met in Paris Friday night. Several hundred delegates were in attendance.

Awarded a New Trial.

Frankfort, Ky., Nov. 1.—Judge White handed down an opinion reversing a judgment of the Green circuit court in the murder case of Thos. Calhoun against the commonwealth and ordering that appellant be awarded a new trial.

Wounded By Accident.

Richmond, Ky., Nov. 1.—At Paint Lick, William Gofney, who was carelessly handling a rifle, accidentally shot Mike Noe, the ball taking effect in his side. The bullet's small caliber was all that saved Noe.

BOONE CO., RECORDER
Wednesday, - - Nov. 6, 1901.
W. L. RIDDELL, - - Publisher.

Neighborhood News,

PLATTSBURG.—Chas. Beemon entertained several friends Sunday.

Mrs. W. S. Acra is visiting her sister in Aurora.

James Gaines and Ed Botts are champion rabbit hunters.

Frank Voshell and wife were visiting over in Indiana, Sunday.

C. L. Voshell passed here last week on the way to Union to visit his uncle Lon.

G. T. Rue and wife, of Bellevue, visited their daughter, Mrs. Henry Smith, Sunday.

FRANCESVILLE.—W. B. Graves has rented a house in Hebron and will move after butchering his hogs.

We miss the Mound Field Farm and Bullittsville correspondents.

Jordan Beall and family were guests of Holland Goodridge, Sunday.

We are glad to hear that Mr. William Clore, of Bullittsville, is improving.

Holland Goodridge is agent for the Hurschart Marble Works, of Lawrenceburg, Indiana.

Mrs. Harry Roberts, of near Burlington, was the guest of her parents near here, Friday and Saturday.

We have concluded that the hazy atmosphere of the past few days was due to the smoke of distant forest fires.

LIMABURG.— Gangers met at the school house last Saturday afternoon.

Miss Hallie Loring, of Rising Sun, is visiting Mrs. Everett Dixon.

William Boge, of Illinois, is the guest of his sister, Mrs. John Conrad.

Sunday the thermometer registered 76, but Monday morning the mercury was down to 23.

A large crowd of young people enjoyed themselves tripping the light fantastic toe at Robert Brown's on the 30th ult.

Dr. Adams, of Erlanger, was in this neighborhood, last week, inspecting the numerous deposits of iron ore. It is believed that paying ore exists here.

About 65 young people were present at the cotillion party given by W. N. Utz and wife on the night of the 1st inst. The festivities did not conclude until 4 a. m.

A sulphur spring that was known to exist near the residence of Mrs. Bettie Aylor at a very early day, has made its appearance in the bed of the creek since the water dried up. It is said that deer and other wild animals frequented this spring over 100 years ago.

CRESCENT.—Elbert Glacken, of Richwood, who has been quite low with typhoid fever, is reported better.

Ben Carpenter, of Richwood, who has been very sick is convalescing.

It is reported that Ed Rice has a new buggy. Who is the fortunate girl, Ed?

William Ficke has purchased about ten tons of hay from Otis Richards, of Gunpowder.

Boru, to Clarence Rector and wife, on October 23, a bouncing boy. This explains the cause of Clarence's smiles.

"Dan" Carpenter, who is studying telegraphy at this place, inteuds to go to Lexington to take the examination in the near future.

The barn belonging to Effie Hogriffle, which was destroyed by fire a few weeks ago, is being replaced by a new one. Contractor Morris is doing the work.

Miss Blanche Northcutt, who is teaching near Walton, is spending Saturday and Sunday with her cousin, Mrs. Hattie Groger.

The Singing class at new Bank Lick church meets every Wednesday evening. It is under the supervision of Willie Bagby and sister, Miss Stella. Quite a number from here attended last Wednesday's meeting.

Rev. Slater is conducting a series of meetings at Ebenezer. There have been several additions the past week. Meeting will close Sunday. The attendance has been quite large and much interest manifested during the meeting, and all recognize in Rev. Slater a fine thinker an able minister and a polished, Christian gentleman.

HATHAWAY.—Joe Huey has moved on J. Q. Elston's place.

W. H. Moore took a nice bunch of fat hogs to market, last week.

B. W. Adams, of the hub, attended church at Big Bone, one night last week.

Robert Clements is pushing the work on his new house to completion before cold weather.

Ben Rue and wife went to Cleves, Ohio, the latter part of last week to look for a home.

Jno. L. Presser was visiting relatives in Williamstown, Grant, county several days last week.

James Pope, our road supervisor, was giving some of his roads the finishing touches last week.

Mrs. Madison Ryle and Mrs. Fannie McNeely, spent several days last week visiting in Gallatin county.

Mr. and Mrs. John Conley, of Gallatin county, was visiting Mrs. Caroline Ryle and other relatives in this neighborhood, last week.

Edward Everetts, who has been in the Soldiers' Home in Ohio, is back here, and will take up his trade of blacksmithing. He has located and will work in the shop with Jas. Rice.

Rev. W. S. Taylor closed the series of meetings at Big Bone last Wednesday night, with 25 additions, 20 by baptism and 5 by letter. The baptising took place at Hamilton on the river last Wednesday at 1:30 o'clock. Those that united with the church are Robert Sullivau and wife, Faunie Taylor, Otis Rouse, Faunie Smith, Charlie Smith, John Horten and wife, Miss Coe Shinkle, James Stephens and wife, Clara Hamilton, Omer Dudgeon, Albert Sullivan, Robert McNeely, Ben Ryle, Sallie Rich, John Setters and two Misses Abdem; by letter, Addiston Huey and wife, Tom Huey, Robert Howiet and wife.

JACOB'S WELL.—Jacob's Well is located half way between Gunpowder and Florence. While we don't have the pleasure of the Savior visiting our well, we have some of the luxuries of the country. We have plenty of water, sauer kraut and turnips. Our nearest neighbors are E. H. Blankenbeker, who is out unrolling business from Monday morning until Saturday night; Joe Scott, proprietor of Sugar Grove Dairy, from which butter milk by the wagon load is delivered in the city. Mr. Scott is the owner of one of the finest herds of Jersey cattle in the State; N. P. Utz and Loonie Tanner, who are neat and industrious farmers; and Mr. Drinkenberg, who is hard to beat. He can make 800 pounds on the off-fall of a cracker house. and sell them at 7 cents a pound.

Miss Emma Welsh was visiting friends at Limaburg, last Saturday and and Sunday.

Mrs. Dordey, of Cumminsville, is spending several days with her brother, Joseph Scott.

Mrs. Sallie Tanner and Mrs. Mamie Tanner, spent the day with Mrs. L. P. Aylor, last Thursday.

Mrs. W. P. Utz handsomely entertained Rev. Slater and wife, and several friends, last Thursday.

Miss Olive Orem and sister have returned home after a pleasant stay with friends in this neighborhood.

S. B. Douglas and family, of Mt. Auburn, were visiting J. S. Houston and family, last Saturday and Sunday.

Miss Emma Scott has returned home after a pleasant visit of several days with relatives and friends in Burlington.

Mrs. Mac Neal and her charming daughter, Miss Imogene, of Erlanger, spent a pleasant day with Mrs. Amy Utz, last Saturday.

BELLVIEW.—Uncle Mitchel Coore is with his son, Tom, at the parsonage, and we enjoy his company much of the time.

Small grain is looking well considering the extreme drouth.

H. P. Marshall, of Waterloo, broke bread with us, one day last week.

L. L. Snyder and wife are sojourning with their daughter in the Hoosier State.

Rel Sullivau is harvesting his corn crop from the land of J. H. Lawell, near McVille.

Mrs. Louisa Akin, of McVille, who has been very sick for several weeks, is some better.

Middle creek is running fine, clear water, having filled the pools as far down as our "burg."

Assessor Willis, with his usual congeniality, was with us the past week, attending to his official duties.

John J. Walton bought the entire crop of corn of John Weisicle, jr., at 60 cents a bushel, taken at the field.

The Baptists during the past week, have ornamented their church lot with a beautiful and substantial metal fence.

A. B. Corbin went to Aurora on the 31st ult., to assist in moving his family and effects to a more desirable portion of the city.

Salmon have been biting nicely the past week. Jim Lee Williamson landed an even dozen at one sitting. Mr. Editor, send Manilua down.

Dr. Williamson killed 15 ducks at three shots, near the dyke above Rising Sun. He brought 9 home, and left the other 6 for the spectators.

Mart Stately, jun., who moved to Aurora some time since, lost most all of his household effects in the fire that consumed the hotel, lately occupied by Geo. White.

Our old friend, Cap. Smith, succeeded in producing quite a lot of pumpkins on Dougherty Island, and out of his liberality gave us a choice one for Christmas pies, for which we extend our thanks.

Will Rogers spent the day, Saturday, hunting out on Lick creek.

W. H. Pope, of Huntsville, made us a call, one day last week.

Next Sunday is regular church meeting at the Christian church here.

Ira Powell, of Miller's Hill, Ind., was calling on friends here, Saturday.

W. W. Grant was visiting Ira Powell and family, across the river, Sunday.

But very little shock corn husked, and tobacco stripped for the want of a season.

Tony Rue lost his old mule (Ben) one night last week, after serving Tony so many years faithfully.

We are informed that W. W. Botts will move to Bellevue shortly. We will surely welcome him.

W. L. Aylor and family, of Middle Creek, were the guests of your reporter and wife, last Saturday.

L. L. Snyder and wife are spending a month or so with their son-in-law, Ira Powell, across the river.

H. E. Arnold continues his annual trip to Petersburg. His ways are mysterious and past finding out.

Edward Rice and family, of Idlewild, passed through, Friday, enroute for Mrs. Rice's parents near Waterloo.

The son and daughter of our old friend, John Conley, of Gallatin county, were visiting relatives here, last week.

Carl Cason and sister, of Middle Creek were visiting their uncle and aunt, Dr. French, over in Indiana, Saturday and Sunday.

We are sorry to hear of the total blindness of the Hon. James A. Wilson and the failure of his faithful companion's health.

James W. Ryle, of Gunpowder, passed through, last Saturday, looking as natural as ever. He still wears that pleasing smile.

Herman Carpenter and wife were the guests of B. F. Rogers and family, last Friday and Saturday, he being a brother of Mrs. Rogers.

When you want to procure hickory nuts to help to while away the long evenings, call on Johnnie Schwarts, for he has a fine lot on hand.

Mrs. Garrison and Mrs. Taliaferro, of Union, were the guests of E. L. Grant and wife, last Saturday and Sunday, also Mrs. J. Frank Grant.

Elder Roger T. Nove, of Lexington, will preach in the Christian church at this place, the 4th Sunday in November, morning and evening.

Noah West and Lewis Merrick purchased the little farm lying near the Rock Spring, known as the Akins tract of land, of Bert Berkshire, one day last week.

Owen and Perry Presser have purchased a good team and a new wagon peparing themselves for farming next year on their mothers farm. They will erect a new dwelling thereon this fall.

W. W. Botts and J. M. Setters are doing well with their portable sawmill. They are having calls from all the adjoining neighborhoods to come with their mill and do sawing. We wish them both success, for they are both worthy gentlemen.

UNION—Mr. Fred Wolcott, of Covington, was in town, last week.

Eld. Moore, of Georgetown, filled his appointment at Sardis, Sunday.

Mrs. Emma Presser is spending this week with Mrs. Dora Bannister.

Mrs. Charles Castle, of Orange, N. J., is the guest of her aunt, Mrs. J. N. Gibson.

Charlie Beech, of Covington, spent last week with his aunt, Mrs. Wallace Garrison.

Mr. and Mrs. Charles Allen are citizens of our town. Mrs. Rachel Rice will board with them.

Abe Rice, of Covington, was visiting in this vicinity, Sunday. He has a position with Ellerman.

Mr. and Mrs. John Url Lloyd were the pleasant guests of Mr. and Mrs. L. M. Voshell, Friday night.

Miss Nannie Bristow spent several days, last week, with her friend, Miss Alma Baker, in Covington.

Dr. H. C. Lassing and daughter, Miss Martha, have returned from a delightful trip to the Pan-American.

Mrs. James S. Asbury and daughter, Maud Norman, are spending sometime with Mr. and Mrs. M. C. Norman.

GUNPOWDER.—After a visit of about three weeks, R. N. Tanner, left, last Thursday, for his home in Howard county, Mo.

Communion services at Hopeful at 10:30 a. m. next Sunday.

Enoch Rouse is building a cellar, C. E. Tanner doing the stone work.

Wm. Kipp and family, of Walton, attended communion services at Ebenezer, last Sunday morning.

Mrs. Jerry Carpenter, Misses Ottie and Beulah Surface and Miss Mary Herne united with the church at Ebenezer.

Dave Beall and wife, Mrs. Sada Aylor and J. C. Hankins and Uncle Geo. Utz and Elmer Beall, broke bread with the writer, last week.

The mill here was forced to shut down last week on account of bad water. Several from a distance were here last Friday and had to go home without their grists.

The following heirs have sold their landed interest in the estate of the late S. H. Tanner: B. N. Tanner, Mrs. Tanner, Mrs. Smith, Mrs. Houston and Mrs. Utz, Rev. T. L. Utz being the purchaser. He also purchased of Levi Tanner 9 acres adjoining the above.

In the last issue of the Recorder we spoke of spending the day with A. J. Utz and wife. When we were invited we expected nothing unusual, but when we arrived we soon learned that there was to be big doings, rather a family reunion, and by the time the guests gathered there was quite a nice little assembly. The honored guests were Mrs. Julia A. Craven and daughter, Miss Estie, and David Houston and wife, of Verona; Mrs. Ellen Smith and daughters, Misses Olive and Manie. Mrs. Laura Head and son, James, of Union; Rev. S. E. Slater and wife, of Florence; B. N. Tanner, of Howard county, Mo, and Ed Utz and family. The day was a delightful one and a most pleasant time enjoyed by all. A bountiful dinner was prepared by the hostess (aunt Susie,) who is up-to-date in that line, which was relished by all present, especially the writer, who has a reputation in that line. Before the crowd dispersed a short devotional service was conducted by the pastor, Rev. Slater. The parting was rather a touching scene on account of the four sisters, Mesdames Craven, Houston, Smith and Utz, saying good bye to their only brother, B. N. Tanner, probably for the last time in this world, but all of them are resting on the promise, and have a hope of meeting in the better world beyond the Silent River of Death, where there will be no parting and no tears of sorrow.

PETERSBURG.—Alex Hiatt, jr., train dispatcher for the Big Four, at Riverside, is visiting his father.

Capt. W. K. Fenton went to Buffalo, last week.

The dog poisoner got in his work again last week.

Our sportsmen are killing a great many ducks on the river.

Albert French, of Cold Springs, Ind., was visiting here last week.

T. P. Crisler, of Bullittsville, was in town several days last week.

Atty. S. W. Tolin was in town on legal business, last Saturday.

Kirtley Rice, of Burlington, was in town last Friday, hauling coal.

Ben. R. Smith is in the Jewish Hospital in Cincinnati, for treatment.

Harry Hind is learning to be a steamboat engineer. He is on the Workum.

Ernest L. Grant, who has been sick so long, was in town last Friday, looking well.

Mrs. Arthur Evans, who is in Dr. Holm's hospital in Cincinnati being treated for her eyes, is some better.

Quite a number of our society girls has assumed the Pickadilla Walk. Nothing like living in the fashion.

Raymond Weindel, Louis Applegate, Sam Pink, Sullivan Black and Chas. Hoffman, have joined the regular army.

The condition of Mrs. Henry Terrill, who was hurt in the wreck on the Big Four, a few weeks ago, does not improve.

John Snelling shot at some one after his chickens, one night last week, and the load of shot went through Will Henslye's window.

The Editor of the Aurora Oracle is a bouncing, big fellow, standing six feet in his stocking feet, and weighs 200 pounds, and all Democrat.

Lawrenceburg had a big fire Saturday night. Cook's tube and pump works near the fair grounds burned to the ground. Loss, $100,000.

Aurora had three disastrous fires last week. One of them destroyed the old Eagle Hotel building, the property of Mrs. Martha Collins, of this place.

The writer is in receipt of a complimentary ticket to the opening of Clarks Hall, Rising Sun. It is one of the best arranged houses of the kind outside of Cincinnati.

Two young men from Bracken county, with photographing outfits, are plying our town. They are on a family boat on their way to New Orleans and expect to be two years making the trip.

Harry Bahn gave a ball in Gordon's Hall Friday night. Not a very large attendance, but what was lacking in attendance was made up in enthusiasm, and all seemed intoxicated in the whirl of the mazy waltz.

IDLEWILD.—The infant child of Lee Masters and wife was buried at Bullittsburg, after words of comfort to the bereaved family by Rev. Sproles.

Baldon is doing a thriving business with his saw mill.

Miss Alice Bagby, of Walton, is visiting Miss Alberta Gaines.

Miss Pauline Winston, of Carrollton, is with her parents here.

R. C. Gaines is building a tenant house, Frank Horseman, carpenter.

Henry Terrill and family, of Petersburg, leave this week for Lower California, in search of health.

Mr. J. A. Gaines was here last week, the first time since the last of August. He looked much better than his many friends expected to see him.

The Remains of Mrs. Harrison Carder, a native of this county, who died at her home in Versailles, Indiana, were brought to Hebron, last week and interred.

Bullittsburg church has had a precious revival during the last three weeks. The preaching was able and truly scriptural. There were ten additions, all, except one, are to be baptised to-day, Mouday, at the mouth of Garrison creek.

WALTON.—Mr. and Mrs. Abner Glasscock returned to their home in Clayville.

The friends of Mrs. C. E. Morris, nee Wilson, have received advice that she is delighted with her new home in Memphis.

Mr. and Mrs. W. B. Sparks and Mr. and Mrs. J. L. Rich and daughter, of Big Bone, had a very pleasant visit to Mr. and Mrs. Chas. Slater, of Main st.

Stephen Ingram, of Springfield, O., whilom of this ballwick, who was on a visit here last week, says there would be no getting him to live here again. Steve says there is plenty of work in Ohio, and good wages are paid.

Up to last night we have been experiencing the misery of a water famine, such as the oldest inhabitant has never before known. Farmers, householders all over the district, have been hauling water for stock for some time, but the continuous dry weather has forced people to great extremities and water for drinking and culinary purposes is only to be had in a limited quantity. It is strange that people would stand this deprivation for so many years. I know possibly, that in the last ten years there has always been a time in each year, when there was a scarcity of water. Lately a public cistern has been built, but no steps have been taken to have it filled with water.

The Pomona Grange meeting in Bellevue will be held on the 5th Saturday in this month instead of on the 3d Saturday as originally announced.

OSCAR GAINES, Master.

Local News.

Considerable ice Monday morning.

It did rain slightly once again in dry weather.

Monday was the best day of the fall for husking nubbins.

Born, to Judge C. C. Roberts and wife on the 2d inst., a son.

People looked comfortable in their overcoats, Monday morning.

Mrs. Emma V. Rouse had a telephone put in her residence last Saturday.

Don't forget the Corner Drug Store when in Rising Sun. B. F. Buchanan, druggist.

The Sheriff has but one more appointment for meeting the taxpayers. He goes to Hebron to-morrow.

Ezra Aylor has been hauling 60 cent old corn from the Petersburg bottoms. He bought it at Henry Terrill's sale.

Wheat will come up and grow nicely now, there being sufficient rain last Sunday night, to give it a start.

There is quite a number of new advertisements in this issue, and it will be to your advantage to read each one.

Have you read "Bogus Hallow," B. F. Buchanan's story of the Blue Jeans town? 25 cents and $1. On sale everywhere.

The farmers who came in Monday reported no damages from the rain the night before—that all their water gates and fencing was left in tact.

The Hebron base ball talent went up against the Ludlow club, last Saturday, and won a clean cut victory, the score being 12 to 9 in favor of Hebron.

W. E. Vest figured in another real estate deal, last week, in which N. Stepheus disposed of 50 acres of his land to Jake Youell. Consideration, $1,750.

Corporal Adams, the county clerk, is in receipt of a supply of Wash C. Platt's Mac-o-Cheek remedies, and is ready to minister to the aches and pains of his constituency.

A small crowd attended court Monday. Tuesday being election day and a good time to husk corn, kept many persons from coming to town who had a longing to be present.

Mr. T. B. Ferry, will lecture at the court house in Burlington, at 1 o'clock p. m., on Monday, November 11 1901, under the auspices of the Kentucky commissioner of agriculture and the grange. The public is invited.

LOST.—Bay horse; star in forebead, snip on nose, one white hind foot. When he moves off will pace. He goes all the gaits. Blind in left eye. I will pay anyone who will return this horse, for his trouble. Address N. W. BURKITT, Union, Boone county, Ky

No great amount of mischief was done by the boys in their Halloween celebration last Thursday night. At an early hour in the evening a crowd of ladies, disguised themselves and made a tour of the town, creating considerable merriment at each place where they called.

Eight children have died and eleven others are suffering from lockjaw as the result of the use of diphteria antitoxin in St. Louis. Investigations are being made, and so far confirm the belief that the serum contained tetanus toxin. Great alarm is felt by parents whose children have been inoculated.

Mr. J. J. Lillard, treasurer of the Burlington and Bellevue Turnpike Co., was in town the other day, and expressed himself as well pleased with the stone crusher the company purchased recently. It materially cheapens the stone on the pike. This machine was sold by the Hunter, Harris Co., of Rising Sun.

Hear that Edwin Gaines, Hubert Gaines, Dr. Hays and J. W. Berkshire have matched their roadsters, the trial of speed to be made on the Lawrenceburg track next Saturday. The report is confirmed by the fact that Edwin was collecting a large lot of provender —maple leaves—for his roadster, last Saturday morning.

Notice.—I take this method of informing my friends that I am able to resume my work in the shop again. I quote prices—new shoes, plain, $1 per set; toed, $1 20; for resetting, 40c per set, and all other work done in proportion. Thankful for past favors, I still solicit your patronage in the future.
ROBERT COX, Waterloo.

They do say that Geo. Blyth pumped for an hour and thirty minutes, a few days ago, trying to get water out of a cistern that had been completely exhausted. He thought the pump had gone back on him, and so reported, and it took Mont Sinyback, who was sent to repair the pump, an hour to learn that no matter how good the pump, it cannot get water out of a cistern that is as dry as a powder horn.

To The Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, Ralph S. Myers, 64-Thirty-seventh St., Wheeling, W. Va. For sale by all Druggists.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and can be given as confidently to a baby as to an adult. For sale by all Druggists.

Personal Mentions.

Several Covington parties took dinner at Mrs. Cowen's, Sunday.

A. C. Porter is going on crutches because of a badly sprained ankle.

Esq. Gaines, of Bullittsville, was a guest at the Boone House, last night.

Clutterbuck Bros.' are having a new pavement laid in front of their premises.

Miss Emma Adams returned home, Sunday, from a visit to her sister in Ludlow.

William Gibson, of Rising Sun, was talking hardware to the people in town Monday.

Jas. Carroll, of Beaver, was in town Monday, representing the Great American Purchasing Company.

Mr. and Mrs. James Armstrong, of Covington, came out Sunday and remained over until Monday afternoon.

Mrs. J. J. Lillard arrived home the latter part of last week after a few weeks visit with relatives in Missouri.

Miss Emma Welsh, of Florence neighborhood, was the guest of her sister, Mrs. Anthouy Bentler, last week.

County Clerk Adams made a swing around in the southern part of the county, last week, depositing poll books.

Mrs. Minnie Iugels, of Middlesboro, and Miss Cora Jurey, of Pewee Valley are guests of their aunt, Mrs. O. P. Conner.

Mr. and Mrs. F. P. Walton, of Cincinnati, were in town Sunday. They now reside at 121 East Court street, that city.

Mrs. J. G. Furnish, of Lakeland, has been visiting her father and mother, Mr. and Mrs. J. C. Revill, of this place, for a week.

Mrs. Daniel Barlow purchased through W. E. Vest, J. M. Eddins' house and lot here in town. Consideration, $550.

Thos. N. Grimsley, of Covington, was in town Saturday. He reported the Boone county colony in Covington, as all well.

Jas. K. Sebree and Joseph Riddell, of Hathaway neighborhood, delivered some nice cattle to our local butcher, last Thursday.

Atty. Rogers, of Erlanger, and James M. Conner, of Cincinnati, passed through town Suuday, headed towards Bellevue.

F. A. Utz and Ezra Rouse, of Florence deniers in livestock, passed through town Thursday with 16 nice feeders they bought of Jack and Bee Walton.

Several of the young people assembled at Deputy Sheriff Allphin's on Halloween night, and settled their fortunes by the cake and ring trick.

County Attorney Castleman is the happiest man in town. The cause of his exuberance of happiness is told in an anuouncement elsewhere in this issue.

Some friend sends us a copy of the Los Augeles, California, Times. It is an immense number, and is devoted, largely, to a write-up of Arizona, which it presents in its very best clothes.

Mrs. Carney filled the appointment of her husband at the Universalist church, last Sunday, her husband being called from home, rendering it impossible for him to be in attendance.

Mr. Harvey Ingles, who was a guest at O. P. Conner's, says his great grand mother was captured by the Indians in Virginia at an early day, and brought to Big Bone Springs, this county, where she made her escape, and worked her way back up the Ohio river to Virginia.

David Utz, of Wellington, Kansas, arrived Monday, looking hale and hearty. He will be in the county only a few days. He brought with him a sample of very fine Kansas apples. He says they raised no corn, but his county produced 35,000,000 bushels of wheat this year.

John Furlong, who has been engaged in the life insurance business at Canton, Ohio, for several months, has been transferred to Covington. He was the guest of his sisters, Misses Mary and Catharine, at this place, from Saturday until Monday afternoon. John looks as though Buckeye atmosphere was condusive to good health for him.

Judge Lassing arrived at home Sunday morning, and remained until Tuesday, when he made his X in the circle beneath the rooster, after which he left for Owenton to resume holding court this morning. The Judge adjourned his court last Saturday morning, that the exciting graded school election held in Owenton that day might have the undivided attention of the entire population.

When Judge Roberts came over in town Sunday morning he was upping his beaver to every person in sight, and the first question he asked was, "can you communicate by telephone, with all parts of the county, this morning?" Being told he could, he said, "I want to send the glad tidings forth. It is a boy, and there never was a finer one." His friends then smoked with him at a cost of about $2.

One of our most particular friends in the days of youth, Mark Collins, surprised us with a call last Saturday. His wife has been visiting her parents in Cincinnati for several weeks, and he came up from his home, Wynne, Arkansas, on a business and pleasure trip combined, and accompanied by his wife and father he drove out from the city, last Saturday, to take a view of the town and its environments, which he had not visited for twenty-five years. While Mark has grown considerably heavier, Father Time has been exceedingly lenient with him, and he looks twenty summers younger than what he is. He is the same handsome, noble-hearted fellow of 40 years ago, with that attractive, open countenance that makes friends on sight. He has prospered and appears to be on Easy street. He has but one child living, a son, who is about grown.

SAYINGS IN A CIRCLE.

Good or Evil We Do Shall Return to Bless or Blast Us.

Dr. Talmage Uses the Beautiful Geometrical Figure in His Discourse —Circle of Centuries and of Good Deeds.

[Copyright, 1901, by Louis Klopsch, N. Y.]

In this discourse Dr. Talmage shows that the good or evil we do returns to bless or blast us; text, Isaiah 11:22: "It is He that sitteth upon the circle of the earth."

While yet people thought that the world was flat and thousands of years before they found out that it was round, Isaiah, in my text, intimated the shape of it, God sitting upon the circle of the earth. The most beautiful figure in all geometry is the circle. God made the universe on the plan of a circle.

There are in the natural world straight lines, angles, parallelograms, diagonals, quadrangles, but these evidently are not God's favorites. Almost everywhere you find him geometrizing you find the circle dominant, and if not the circle then the curve, which is a circle that died young. If it had lived long enough, it would have been a full orb, a periphery. An ellipse is a circle pressed only a little too hard at the sides.

Giant's Causeway, in Ireland, shows what God thinks of mathematics. There are over 35,000 columns of rocks—octagonal, hexagonal, pentagonal. These rocks seem to have been made by rule and compass. Every artist has his molding room, where he may make fifty shapes, but he chooses one shape as preferable to all others. I will not say that the Giant's Causeway was the world's molding-room, but I do say out of a great many figures God seems to have selected the circle as the best. "It is He that sitteth on the circle of the earth." The stars in a circle, the moon in a circle, the sun in a circle, the universe in a circle and the throne of God the center of that circle.

Appreciation of this would correct the architecture of churches whose shape is often a defiance of divine suggestion. When men build churches, they ought to imitate the idea of the Great Architect and put the audience in a circle, knowing that the tides of emotion will more easily that way than in straight lines. Six thousand years ago God flung this world out of His right hand, but He did not throw it out in a straight line, but curvilinear. With a leash of love holding it so as to bring it back again. The world started from His hand pure and Edenic. It has been rolling on through regions of moral ice and distemper. How long it will roll God only knows, but it will in due time make complete circuit and come back to the place where it started, the hand of God, pure and Edenic.

The history of the world goes in a circle. Why is it that the shipping in our day is improving so rapidly? A scientific builder says it is because men are imitating in some respects what the small ships deride, the old model of Noah's ark, not as we see it in old time pictures, but as it really was according to the account given. Great ships have we now, but where is the ship on the sea to-day that could outride a deluge in which the heaven and earth were wrecked, landing all passengers in safety—two of each kind of creatures, hundreds of thousands of species.

Pomology will go on with its achievements until after many centuries the world will have plums and pears equal to the paradisaical. The art of gardening will grow for centuries, and after the Downings and Mitchells of the world have done their best in the far future the art of gardening will come up to the arboresecence of the year 1. If the makers of colored glass go on improving, they may in some centuries be able to make something equal to the east window of York minster, which was built in the year 1290. We are six centuries behind those artists, but the world must keep on toiling until it shall make the complete circuit and come up to the skill of those very men.

If the world continues to improve in masonry, we shall have, after awhile, perhaps after the advance of centuries, mortar equal to that which I saw in the wall of an exhumed English city built in the time of the Romans, 1,600 years ago, that mortar today as good as the day in which it was made, having outlasted the brick and stone. I say after hundreds of years masonry may advance to that point.

If the world stands long enough, we may have a city as large as they had in old times—Babylon, five times the size of London. You go into the potteries of England, and you find them making cups and vases after the style of the cups and vases exhumed from Pompeii. The world is not going back. Oh, no! But it is swinging in a circle and will come around to the styles of pottery known so long ago as the days of Pompeii. The world must keep on progressing until it makes the complete circuit. The curve is in the right direction; the curve will keep on until it becomes the circle.

Well, now, what is true in the material universe is true in God's moral government and spiritual arrangement. That is the meaning of Ezekiel's wheel. All commentators agree in saying that the wheel means God's providence. But a wheel is of no use unless it turns, and if it turns it turns around, and if it turns around it moves in a circle. What then? Are we parts of a great iron machine whirled around whether we will or not, the victims of inexorable fate? No! So far from that I shall show you that we ourselves start the circle of good or bad actions and that it will surely come around again to us unless by Divine intervention it be hindered. Those bad or good actions may make the circuit of many years, but come back to us they will as certainly as that God sits on the circle of the earth.

Jezebel, the worst woman of the Bible, Shakespeare copying his Lady Macbeth from her picture, slew Naboth because she wanted his vineyard. While the dogs were eating the body of Naboth, Elijah, the prophet, put down his compass and marked a circle from those dogs clear around to the dogs that should eat the body of Jezebel, the murderess. "Impossible!" the people said. "That will never happen." Who is that being flung out of the palace window? Jezebel. A few hours after they came around, hoping to bury her. They find only the palms of the hands and the skull. The dogs that devoured Jezebel and the dogs that devoured Naboth—oh, what a swift, what an awful circuit!

But do not become impatient because you cannot see the curve of events and therefore conclude that God's government is going to break down. History tells us that in the making of the pyramids it took 2,000 men two years to drag one great stone from the quarry and put it into the pyramids. If men short lived can afford to work so slowly as that, cannot God in the building of eternities afford to wait?

What though God should take 10,000 years to draw a circle? Shall we take our little watch, which we have to wind up every night lest it run down, and hold it up beside the clock of eternal ages? If, according to the Bible, a thousand years are in God's sight as one day, then, according to that calculation, the 6,000 years of the world's existence has been only to God as from Monday to Saturday.

But it is often the case that the rebound is quicker, the return is much quicker, than that. The circle is sooner completed. You resolve that you will do what good you can. In one week you put a word of counsel in the heart of a Sabbath school child. During that same week you give a letter of introduction to a young man struggling in business. During the same week you make an exhortation in a prayer meeting. It is all gone. You will never hear of it perhaps, you think. A few years after a man comes up to you and says: "You don't know me, do you?" You say: "No; I don't remember ever to have seen you." "Why," he says, "I was in the Sabbath school class over which you were the teacher. One Sunday you invited me to Christ. I accepted the offer. You see that church with two towers yonder?" "Yes," you say. He says: "That is where I preach." or: "Do you see that governor's house? That is where I live."

One day a man comes to you and says: "Good morning." You look at him and say: "Why, you have the advantage of me. I cannot place you." He says: "Don't you remember 30 years ago giving a letter of introduction to a young man—a letter of introduction to William E. Dodge?" "Yes, yes; I do." He says: "I am the man. That was my first step toward a fortune, but I have retired from business now and am giving my time to philanthropies and public interests. Come up to my house and see me."

Or a man comes to you and says: "I want to introduce myself to you. I went into a prayer meeting some years ago. I sat back by the door. You arose to make an exhortation. That talk changed the course of my life, and if I ever get to Heaven under God I will owe my salvation to you." In only ten, twenty or thirty years the circle swept out and swept back again to your own grateful heart.

But sometimes it is a wider circle and does not return for a great while. I saw a bill of expenses for burning Latimer and Ridley. The bill of expenses has these items among others:

	Shilling.	Pence.
One load of fire fagots	2	4
Cartage for four loads of wood	—	8
Item, a post	1	4
Item, two chains	3	4
Item, two staples	1	4
Item, four laborers	2	8

making in all 25s. 8d. That was cheap fire, considering all the circumstances, but it kindled a light which shone all around the world and aroused the martyr spirit, and out from that burning of Latimer and Ridley rolled the circle wider and wider, starting other circles, convoluting, overrunning, circumscribing, overreaching, all Heaven, a circle.

But what is true of the good is just as true of the bad. You utter a slander against your neighbor. It has gone forth from your teeth. It will never come back, you think. You have done the man all the mischief you can. You rejoice to see him wince. You say: "Didn't I give it to him!" That word has gone out—that slanderous word—on its poisonous and blasted way. You think it will never do you any harm. But I am watching that word, and I see it beginning to curve, and it curves around, and it is aiming at your heart. You had better dodge it. You cannot dodge it. It rolls into your bosom, and after it rolls in a word of an old book rolls in after it, saying: "With what measure ye mete it shall be measured to you again."

You maltreat an aged parent. You begrudge him the room in your house. You are impatient of his whimsicalities and garrulity. It makes you mad to hear him tell the same story twice. You give him food he cannot masticate. You wish he was away. You wonder if he is going to live forever. He will be gone very soon. His steps are shorter and shorter. He is going to stop. But God has an account to settle with you on that subject. After awhile your eye will be dim, and your gait will halt, and the sound of the grinding will be low, and you will tell the same story twice, and your children will wonder if you will never be taken away. They called you "father" once; now they call you the "old man." If you live a few years longer, they will call you the "old chap." What are those rough words with which your children are accosting you? They are the echo of the very words you used in the ear of your old father 40 years ago. What is that which you are trying to chew, but find it unmasticable, and your jaws ache, and you surrender the attempt? Perhaps it may be the gristle which you gave to your father for his breakfast 40 years ago.

A gentleman passing along the avenue saw a son dragging his father into the street by the hair of the head. The gentleman, outraged at this brutal conduct, was about to punish the offender, when the old man arose and said: "Don't hurt him. It's all right. Forty years ago this morning I dragged out my father by the hair of his head." In a circle. Other sins may be adjourned to the next world. That circle is made quickly, very quickly. Oh, what a stupendous thought that the good and the evil we start come back to us! Do you know that the Judgment day will be only the points at which the circles join, the good and the bad we have done coming back to us unless Divine intervention hinder—coming back to us with welcome of delight or curse of condemnation?

Oh, I would like to see Paul, the invalid missionary, at the moment when his influence comes to full orb, his influence rolling out through Antioch, through Cyprus, through Lystra, through Corinth, through Athens, through Asia, through Europe, through America, through the first century, through five centuries, through 20 centuries, through earth, through Heaven, and at last the wave of influence, having made full circuit, strikes his soul. Oh, then I would like to see him! No one can tell the wide sweep of the circle of Paul's influence save the one who is seated on the circle of the earth.

I would like to see the countenance of Voltaire when his influence comes to full orb. When the fatal hemorrhage seized him at 83 years of age, his influence did not cease. The most brilliant man of his century, he had used all his faculties for assaulting Christianity, his bad influence widening through France, widening through Germany, widening through all Europe, widening through America, widening through the 123 years that have gone since he died, widening through earth, widening through the great future, until at last the accumulated influence of his baleful teachings and dissolute life will beat against his dismayed spirit, and at that moment it will be enough to make the black hair of eternal darkness turn white with the horror. No one can tell how that bad man's influence girdled the earth save the one who is seated on the circle of the earth, the Lord Almighty.

"Well, now," say some, "this in some respects is a very glad theory and in others a very bad one. We would like to have the good we have ever done come back to us, but the thought that all the sins we have ever committed will come back to us fills us with affright." My brother, I have to tell you God can break that circle and will do so at your call. I can bring 20 passages of Scripture to prove that when God for Christ's sake forgives a man the sins of his past life never come back. The wheel may roll on and on, but you take your position behind the cross, and the wheel strikes the cross and is shattered forever. The sins fly off from the circle and fall at right angles with complete oblivion. Forgiven! Forgiven! The meanest thing a man can do is, after some difficulty has been settled, to bring it up again, and God will not do anything like that. God's memory is mighty enough to hold all the events of the ages, but there is one thing that is sure to slip His memory, one thing He is sure to forget, and that is pardoned transgressions. How do I know it? I will prove it. "Their sins and their iniquities will I remember no more." "Blessed is he whose transgression is forgiven."

But do not make the mistake of thinking that this doctrine of the circle stops with this life. It rolls on through Heaven. You might quote in opposition to me what St. John says about the City of Heaven. He says it "lieth four square." That does seem to militate against this idea of a circle, but do you not know there is many a square house that has a family circle facing each other and in a circle moving, and I can prove that this is so in regard to Heaven. St. John says: "I heard the voice of many angels round about the throne, and the beasts and the elders." And again he says: "I saw round about the throne four and twenty seats." And again he says: "There was a rainbow round about the throne."

The two former imply a circle, the last either a circle or a semicircle, the seats facing each other, the angels facing each other, the men facing each other. Heaven an amphitheater of glory, circumference of patriarch and prophet and apostle, circumference of Scotch covenanters and Theban legion and Albigenses, circumference of the good of all ages, periphery of splendor unimagined and indescribable, a circle, a circle!

But every circumference must have a center, and what is the center of this heavenly circumference? Christ—His all the glory, His all the praise, His all the crowns, all Heaven wreathed into a garland round about Him. Take off the imperial aandal from His foot and behold the scar of the spike. Lift the coronet of dominion from His brow and see where was the laceration of the briers. Come closer, all Heaven. Narrow the circle around His great heart. O Christ, the Savlour, O Christ, the Man, O Christ, the God, keep Thy throne forever, seated on the circle of the earth, on the circle of Heaven!

TRADE AND THE FLAG

Tariff Restrictions as Viewed by Colonel Kilbourne, of Ohio.

The Death Knell of High Protective Tariff — Democratic Principles and Republican Subversion of Freedom.

The democrats of Ohio, in convention at Bucyrus, Wednesday, October 23, were addressed by Col. James Kilbourne, democratic candidate for governor, who spoke in part as follows:

"Patriotic republicans, you who love your country and are devoted to its free institutions, will you remain longer with those who, seeking to extend the exercise of arbitrary power by the government, preach that we have outgrown the constitution, or will you unite with those who believe that the preservation of constitutional liberty is of greater consequence than finding new fields for exploitation by President Roosevelt or the establishment of a hybrid imperialism.

"Recognising the power of the trusts, and their control of the republican party, which is their all support, and whose legislation created them, and still fosters them, the American people cannot trust that party to carry out a satisfactory tariff reform. Nor can we much expect President Roosevelt may be inclined to follow the suggestion of President McKinley in his Buffalo speech, the trusts, with their controlling interest in the party, will stand in the way to prevent the free trade which the best interests of our country demand.

"But the death knell of the high protective tariff, which is responsible for the many for the benefit of the few, was sounded by President McKinley in these words: 'The period of exclusiveness is past.' The American people will proceed in the direction he pointed out and will continue to go forward until the true and perfect reciprocity advocated by the democracy is established in trade with all the nations of the earth, unhampered by tariff restrictions, excepting such as may be necessary for the purpose of revenue only.

"The democratic party wages no war against wealth. It is not a poor man's party nor the rich man's party; it is the people's party. It believes that the interests of labor and capital should not be permitted to conflict, and should be harmonized by judicious legislation, but that in the event of conflict between them, labor, which is the parent of wealth, is entitled to paramount consideration. It opposes monopoly, not only because it is unjust and oppressive, but because it is destructive of equality; but it would not legislate to check the legitimate operation of our great industries. It delights to see energy and enterprise rewarded; it has no sympathy with communism and anarchism, but it believes in taxing the wealth rather than the labor of the country, and it opposes, and from its principles must ever oppose, all subsidy, trust and monopoly as hostile to the interests of the great body of the common people, on whose prosperity the welfare of our country depends.

"It is as true now as it was when our government was founded that 'governments derive their just powers from the consent of the governed,' and the democratic party, true to its traditions, demands to-day as it has always stood, in defense of that immortal declaration, which is the spirit of the constitution and has been for more than a hundred years the glory of our people.

"It believes that the policy now being pursued by the republican administration in the Philippines is subversive of our free institutions, and 'imperils the national safety without promoting the national welfare,' and that if persisted in it will threaten the life of the republic and the maintenance of principles upon which rests the only hope of universal freedom.

"It is an obsolete idea that trade follows the flag. It is the quality of goods and the price which determines trade in these days. It is not to our victory over Spain, nor to the possession of colonies, nor is it to the republican tariff that we owe our increasing foreign trade. What has made our foreign trade grow, and what will make it grow, is not colonies, nor the tariff, but partly the courage and enterprise of American manufacturers, and mainly the superior skill, intelligence and character of American workingmen.

"The American flag never has been and never will be hauled down in dishonor. It surely will not be while the spirit of our fathers still lives in the breasts of our people. God grant that it may never be raised in dishonor.

"The fraternalism and subserviency to capital which marks the policy of the republican party to-day have debauched the virtue of that once high-minded organization and begotten monsters in the shape of bosses—national, state and municipal—who have relieved the republican voters of all responsibility except that of registering their masters' will.

"But some one may ask, are there not bosses in the democratic party also? There have been. There are still a few assuming that role who do not yet fully realize that their power is gone; that there is a new uprising of the democratic masses who believe and who intend to maintain the right and capacity of the people to govern themselves. True democracy draws its strength from individual thought, conviction and enthusiasm, and rebels at the idea of masters.

"The bribery of voters and the barter and sale of public offices is becoming too prominent. Every branch of the civil service is contaminated. The improper use of money in our popular elections has become so prominent that executive patronage is hardly thought necessary, and it is undermining the very foundations of the republic.

"The overwhelming majority of the people of this country are still honest and hate a briber with a perfect hatred, and if fully aroused to the growing magnitude of the evil could easily crush it. It is the first duty of every citizen to use his voice, his vote, his influence, whatever strength he has, to arouse public sentiment, and to drive this evil out of public life. You and no man who seeks place or power by corrupt means. Turn out the boodlers and corruptionists of every class, no matter to what party they belong."

Disreputable Republican Tactics.

It is in exceedingly bad taste for the Ohio republicans to attempt to influence voters by the use of the memory of President McKinley. Furthermore, it is a reflection upon the administration of state affairs which is seeking an indorsement. A democratic victory in Ohio this year could in no manner reflect upon the murdered president or indicate a cessation in the public regard for him.—Washington Post.

Merely a Compromise.

So far as reciprocity is concerned, it is merely a makeshift and a compromise. It is free trade tempered with cowardice. When the protectionists of England saw that free trade was inevitable they first let down the ladder of reciprocity to enable them to escape from the burning building without fracturing themselves. Those who have followed the free trade struggle in England know that while reciprocity is a humbug it is also a symptom.—Memphis Commercial Appeal.

REPUBLICAN FINANCIERING.

Fear of the People That the National Banks Will Not Be Able to Survive a Panic.

The protectionists and the trusts have a new scheme to prevent a reduction of the tariff by wiping out the surplus, and as this proposition evidently has the approval of the money combine it may be forced through the coming congress. Representative Fowler, the Washington Star informs us, will be the chairman of the banking and currency committee of the next house of representatives, and he will make an effort to use the surplus to retire a large blocks of the greenbacks. The retirement of the greenbacks has always been favored by the national banks; they want complete command of the money market for their own notes, and they have always had a distinct dislike of the people's money, because they could not extract any profit or advantage from it. The Star further informs us that: "Mr. Fowler, who will be assisted by other men of the same opinion as himself, would adopt one of two plans. He would either cancel $50,000,000 or $100,000,000 outright, without replacing the notes with any other class of money, or he would take from the available cash about $100,000,000 in gold, which he believes could be spared, place that amount in the reserve fund of the treasury, and then as a like amount of United States notes came in, cancel them and issue gold certificates against the additional gold placed in the reserve fund. The reserve fund is now $150,000,000, and the addition of $100,000,000 to the fund would put the figure at $250,000,000. Mr. Fowler and other advocates of the retirement of greenbacks would follow this policy until the treasury contained nothing but gold or its representative in the treasury, removing the danger of the burden of demand obligations that confronts the country in case of panics.

Beyond retirement of greenbacks or reduction of taxation there are only two methods of disposing of the surplus. These are the purchase of bonds or the increase of the deposits with national banks.

The deposits already aggregate $108,506,502, and this is considered in many circles as sufficient for the banks to hold. It is the largest sum of government money ever held by the banks, except from late in 1898 to early in 1900, when the payments to the government from the sale of three per cent. bonds were placed with banks to prevent a curtailment of money in the business world. Not for many years before that or since have the holdings of government money by banks been nearly so large as now. Applications for deposits are being made right along by banks, but they are being informed that the treasury has no intention of increasing the deposits at this time.

Representative Fowler and other advocates of the retirement of the greenbacks would like to see the treasury surplus accumulate to a still larger extent than it is now doing, as they would like opportunity to present their ideas to congress. The amount of United States notes outstanding October 1 was $346,681,016, and it is from this sum that Mr. Fowler would begin the process of greenback retirement.

This radical republican programme is rather amusing in one thing, and that is their great fear that the United States treasury will not be able to meet its demands in case of a panic. The great fear of the people who have deposits in the national banks is that they will be the ones who will not be able to meet their liabilities.

If the treasury was to call for the $108,506,502 which has been loaned to the banks without interest, there would be a panic in Wall street which would at once extend all over the whole country. It is only a few days ago that these same banks were calling on the treasury to relieve them by purchasing bonds at the enormous premiums of 40 per cent. If this is necessary in the prosperous times they claim exist, what will become necessary to do when hard times come again?

COMMENTS OF THE PRESS.

If President Roosevelt wanted to get on the right side of the south he evidently went the wrong way around in fraternizing with colored Booker Washington at the white house table.—Wheeling (W. Va.) Register.

——Those republicans who favor the ship subsidy bill should examine the report of the commissioners of navigation, which says 393 vessels were built in the United States during the three months ended September 30. The excuse for the steal that we must build up, with a bounty, the merchant marine is thus officially shown to be nonsense.

——The New York Sun and some of the other plutocratic newspapers are pretty well done up in their fight with the Hearst papers—the New York Journal, the Chicago American and the San Francisco Examiner—for they have shown by the record that the plutocratic and trust-controlled press is responsible for anarchy if newspaper criticism brings it about.

——As a rule republican journals appear to be much more interested in expedients for reducing the surplus by expending the money in building canals and in the payment of subsidies than in effecting the same object through the repeal of onerous taxes. It is to be feared that when congress shall assemble like views may control its action. Money is power and power is a thing never readily surrendered, either by individuals or parties.—Philadelphia Record.

DISAGREEING TARIFF DOCTORS

Manufacturers and Others Who Do Not Feel So Kindly Toward Reciprocity.

The Manufacturers' association of Philadelphia has been so worked up in its feelings about reciprocity and tariff reform that it declares that, while favoring reciprocity, it abandons none of its protection views. This, if it means anything, favors both sides of the question, for of course there can be no reciprocal arrangement made with any foreign country relating to the tariff without both parties make some concession by reducing their respective tariffs on commodities that they are willing to admit for a lower rate, and to that extent protection views have to be abandoned. It is hardly to be wondered that the manufacturers have lost their bearings and hardly know where they are at on this subject. The Protective league and the Home Market club on the one side are dinging into their ears that to ease up by ever so little on the present tariff would be to abandon the whole theory on which the wonderful and scientific tariff has been constructed and would soon bring ruin on its beneficiaries. The manufacturers and the trusts evidently believe this, for they donate liberally to the league to carry on the fight for no change. On the other hand, they are sold by the champions of reciprocity that their markets must be enlarged or they will not be able to dispose of their surplus products, which, under the stimulus of protection and the enormous profits they are thus enabled to make in the home market, have rapidly grown beyond what our own people can purchase. If no market is opened for their surplus in foreign lands, production must be reduced to the home market level. As both of these schools of political economists promise just the ideal conditions that the trusts and manufacturers want, they naturally favor both factions, not seeing, possibly, what a ridiculous position they occupy. There are, however, some manufacturers and others interested who do not feel so kindly towards reciprocity. For instance, the hosiery and knit goods people of New England find that their industry has been sacrificed by a reduction of 20 per cent. in the reciprocity treaty with France. The seed growers, with a like reduction, the nut growers the same and the prune growers with ten per cent., all of whom declare will reduce their profits by that proportion without any corresponding advantage or reciprocal arrangement. These are the main kickers at reciprocity, outside of those who claim that the constitutional limitations restricting the origin of all revenue lays to the house of representatives is nullified because these reciprocity treaties are originated by the executive. These tariff doctors are certainly considerably mixed, and withal they do not touch the burning question of the tariff of whether trusts' productions that are sold to foreigners cheaper than they are to our own people shall be placed on the free list. That is the democratic contention, and some few anti-trust republicans believe so, too.

TRUST INTENTIONS.

The Overthrow of Labor Organizations and the Usurpation of Every Right.

It is evident that the trusts are intent on the overthrow of organized labor. The steel trust has virtually disorganized the Amalgamated association and will doubtless complete the job at the next attempt. It is announced "officially" that the presidents of the coal carrying roads of the eastern states have refused to consider any proposals for a joint conference with the officers of the coal miners' orgauization. The great coal operators have decreed the death of union labor as did the steel trust the death of the Amalgamated association. However, in doing this the trust officials are cutting from under them the main support to their "right" to own the coal mines and the steel factories and the railroads. Having had demands which they consider just turned down—having been refused even a conference with their employers, what is more natural than that these men should look for some other method of getting a hearing?

After a careful investigation of the ways and means they will learn a lesson from the employer—that of controling the law making and law enforcing bodies of the country. That a majority shall rule is a principle which we admit theoretically as right, the employes are largely in the majority—hence they learn, and they are being forced to learn that they have the coveted power in their own hands to turn the machinery of government to their own advantage; they will do it. And in doing this there will be no infringement of the rights of the minority—there will be no privilege or protection granted to one class of citizens which is denied to another, as in the case to-day.

——The inevitable result of the imperialistic tendencies of the government is found in the annual report of the heads of bureaus of the army and navy. They all demand more officers and more men and tell of the great danger to the country if their demands are not complied with. As the army has been raised to a maximum of 100,000 men and the naval force largely increased by the last congress, the former at all events far beyond what is necessary, these demands for a still greater increase are pretty good proof that the democratic charge of militarism is rapidly being accomplished.

A RACE AGAINST TIME.

Graphic Account of the Record-Breaking Journey of the Australian-London Mail.

"Transportation," said a speaker recently before the international commercial congress at Philadelphia, "underlies material prosperity in every department of commerce; without transportation commerce would be impossible; those states and nations are rich, powerful and enlightened whose transportation facilities are the best and most comprehensive; the dying nations are those with little or no transportation facilities."

Then the speaker uttered these two memorable sentences:

"Trade follows the flag."

"Trade follows the mail."

If these statements be true, too great importance can hardly be placed upon the recent achievement of an American Pacific liner and of the five great railroads making up the transcontinental system between San Francisco and New York, of which Mr. Charles Barnard gives a graphic account in the "Four Track Series."

At the post office of Sydney, N. S. W., there lay, early in the morning of August 13, 1901, 367 sacks of the most important mail matter ever sent from Australia to England. There are two routes by which such mail could go. One is an all-British route by way of the Suez canal. The other is practically an all-American route, by way of Samoa, Hawaii, San Francisco, New York and thence to London. Of course, under the present arrangement, the last lap, on the bosom of the broad Atlantic, is sailed under the British flag. The British route is the older one and also the shorter, being 12,500 miles, while the distance the other away around is 13,537, a difference of over a thousand miles.

That morning, the 13th of August, the American flag was flying on a new ship, fresh from the American ship yards on the Delaware. She was the best available ship that day in the South Pacific. The only thing to do was to place the important mail on board the new American, twin-screw steamer "Ventura," of the Oceanic Steamship company, which was done at ten o'clock in the morning. From Sydney the Ventura steered straight for Auckland and entered that harbor on the 17th. Taking on freight, mails and passengers she again set sail, making for the beautiful and poetic islands of Samoa, thence for Hawaii and San Francisco. At seven p. m., September 2, she anchored at quarantine in San Francisco harbor, having made the voyage in 20 days and 9 hours. Had the Ventura been urged it is possible she could have arrived a few hours earlier and landed those precious mail bags that day. As it happened they could not be landed till 8:30 on the morning of the 3d. They were at once transferred by tenms to the Market street station of the Southern Pacific (Ogden route), and at ten o'clock they began their eventful journey across the continent to New York, 3,388 miles away. The officers of the Oceanic Steamship company and of the Southern Pacific were naturally anxious that the mail should make good progress and were kept informed by telegraph of the progress of the train during that day and evening.

Suddenly the unexpected happened. The train arrived at Ogden, Utah, two dreadful hours late.

The mail was transferred to the mail car of train No. 2 of the Union Pacific. It was still late when it reached Omaha. The Chicago, Burlington & Quincy put the single mail car containing his majesty's mail behind a special fast engine. It was a night run against time for No. 1086. On and on, 60 miles an hour steady. The train entered Union station, Chicago, at 9:08 a. m., on the 6th. Five hundred and eight miles in 555 minutes.

No. 6 is the Lake Shore—New York Central "fast mail"—the heaviest fast mail train in America. She had left at 8:30. That train had to be overtaken. A new special, two cars and No. 566, would try if it had to chase it all the way into Buffalo. At precisely 9:59:30 a. m. she pulled out from the Lake Shore station—and No. 6 one hour and 29½ minutes ahead. As the special ate up the miles, it became evident that she was making up the lost time. She would overhaul No. 6 at Toledo. Two hundred and forty-four miles in 265½ minutes. The thing had been done. The two hours lost 2,000 miles away had been made up.

At Buffalo, the precaution was taken to make up the New York Central's No. 6—the fast mail—into two sections, sending on those mail bags from Australia, together with Uncle Sam's mail, in the first section. This was the fifth and last of the railroad lines forming the route across the United States. The train pulled into the Grand Central station the morning of the 7th at 9:57—three minutes ahead of time.

The Campania sailed at noon, with his majesty's mail on board, 25 days and 2 hours out of Sydney. At seven o'clock Saturday morning, September 14, the Australian mail was delivered at the post office in London, assorted and ready for the carriers. Instead of the old time of 35 days and some hours by way of the Suez canal, it was done in 32 days less some hours by using the American route. This is the natural way from London to the South Pacific, best and natural because it is nearly all within the temperate zone. It crosses the tropics, while the Suez route keeps within the tropics, as torrid Aden testifies, as oColombo and Port Said warmly prove. The great run with the Australian mail settled forever the question of the speediest route between the new commonwealth of Australia and Europe.

TABLE AND KITCHEN NOTES.

All stone fruits are considered to be injurious for those who suffer from the liver.

Onion salt is now to be had the same as celery salt in cans or bottles for flavoring purposes.

Bread pans should never be heated before putting in the bread or the loaf will have a raw, doughy taste when baked.

Croquettes will not stick to the wires if the frying basket is dipped into the hot fat before the croquettes are put in.

When making corn bread the result is likely to be more satisfactory if the meal is scalded before adding the other ingredients.

Cream vegetable soups should be accompanied with squares of toasted bread, oyster and clam soups with pickles and crackers.

Maple sugar cake is a delicious variety of layer cake and is made after these directions: Beat together 1½ cupfuls of finely shaved maple sugar, one egg and one-third cupful of butter; add one cupful of sour milk, one-half teaspoonful of soda and two scant cupfuls of milk; bake in layer tins. The filling is made by cooking one-half pound of maple sugar and one-half cupful of water until the sirup hardens in water; remove from the fire and pour slowly over one egg, beating constantly; when the mixture is nearly cold spread on the cake layers.

APPROPRIATE GARNISHES

Cheese omelets may be substituted for the usual cheese course.

Asparagus is taking the place of peas to serve with sweetbreads.

A row of small baked tomatoes is a new garnish for a roast fowl.

Horseradish sauce, made with cream, is the best accompaniment for roast beef.

Fried chicken, with cream dressing, may be served with cauliflower on the same dish.

A baked fish stuffed with mashed potatoes should be served with little cakes of mashed potatoes rolled in egg and bread crumbs and fried.

Cucumbers served with cheese is something new in the world of gastronomy, biscuits or thin wafers being the accompaniment.

Thin slices of breakfast bacon make a savory garnish for steak; thin slices of pork rolled in egg and bread crumbs and fried are a garnish for fried chicken.

Roman punch was served with soup at a very swell dinner given at a very swell mansion recently. Grape fruit served as the first course at a dinner was another innovation.

SENSE AND NONSENSE.

Call a man a donkey and he is apt to kick.

Love and a silver dollar are tested by the ring.

Keep in the straight and narrow path and avoid the crowd.

If the good didn't die young no one knows how bad they might be.

Many a man falls all over himself in striving to get ahead of others.

Most women who angle for compliments depend upon their curves.

Unless a man has an occasional inning he is unable to enjoy an outing.

Every time a wise man encounters an obstacle he makes a stepping stone of it.

A girl gives up a lot of ice cream and theater tickets in exchange for a husband.

The world has seven wonders, but the average woman can wonder more than that in seven minutes.

W. L. DOUGLAS UNION MADE $3.50 SHOES $3.00

OUR MAJOR — THE WORLD'S GREATEST SHOE MAKER — THE LATEST FASHION

W. L. Douglas $4 Gilt Edge Line Cannot be Equaled at Any Price.

For Sale by a Dealer in Every Town. The reputation of W. L. Douglas $3.50 and $3.00 shoes for style, comfort and wear has excelled all other makes sold at these prices. This excellent reputation has been won by merit alone. W. L. Douglas shoes have to give better satisfaction than other $3.50 and $4.00 shoes before the reputation for the best $3.50 and $3.00 shoes could be established. The standard has always been placed so high that the wearer receives more value for his money in the W. L. Douglas $3.50 and $3.00 shoes than he can get elsewhere. W. L. Douglas makes and sells more $3.00 and $3.50 shoes than any other two manufacturers in the world. Fast Color Eyelets used. W. L. Douglas $5 and $4.00 shoes are made of the same high grade leathers used in $5 and $6 shoes, and are just as good in every way.

Sold by 40 Douglas stores to American cities selling direct from factory to wearer at one profit; and the best shoe dealers everywhere.

Insist upon having W. L. Douglas shoes with name and price stamped on bottom. Shoes sent anywhere on receipt of price and 25c. additional for carriage. Take measurements of foot as shown; state style desired; size and width usually worn; plain or cap toe; heavy, medium, or light sole.

W. L. Douglas, Brockton, Mass.

C. Hy. BROWN,
4241 Folsom Ave.,
St. Louis, Mo.

BELLEVUE.—Several from here attended the ball at Petersburg, last Friday night.

Henry Fassous, of Cincinnati, is visiting his parents here.

Lee Hewett and sister were calling on the Misses Burnes Sunday.

Henry Smith and wife are proud parents of a 9 pound girl, their first born.

Several from here have been attending church at Bullittsburg, the past two weeks.

The Egypt ball team came over Saturday and took the scalp of our home team by a score of 2 to 1.

Alvie and Louis Moyer, and Omer Popham, of Indiana, were calling on their best girls here, Sunday.

Whit Jarrell writes from Illinois, that he is well satisfied with the West, and intends to make that his future home.

Blant Pope and wife and Lawrence Phipps from down on Middle creek, spent Saturday and Sunday with J. F. Cason and family.

Deputy sheriff Allphin was at the school house, Saturday, to collect the first assesment of the district to pay for the new house.

There will be another game of ball here, next Saturday, between the Egypt team and the F. T. C. If the weather is favorable. This will make the third game and decide who are the winners.

VERONA.—Rev. Dean preached at the Methodist church, last Saturday and Sunday.

John E. Roberts was the pleasant guest of Miss Carrie E. Myers, Sunday.

Mrs. J. M. Powers was called to the bedside of her daughter, Mrs. Maude Johnson, at her home in Covington. She has pneumonia.

Russell Hume died on the 1st inst. of the injuries received, mention of which was made in this column last week. He was a son of Mr. and Mrs. L. J. Hume, and leaves a widow. The remains were brought here from the hospital in Cincinnati, where he died, and after funeral services, by Rev W. S. Taylor, of Erlanger, the remains were consigned to their last resting place in the presence of a large number of sorrowing friends.

One of the pleasantest events of the season was the Pie Party given by Mr. and Mrs. Creigin in honor of their daughter, Miss Ella, last Saturday evening. Those present were Misses Mattie Rouse, Hattie Vest, Linda Pursifull, Hattie, Ida and Vergie Johnson, Jennie Smith, Hellen Hume, Bertha and Eva Roberts, Emma Lipscomb, Lizzie Durr, Susan Houston Clara Stevenson, Ina Vest, Auna Hind, Blitha Johnson, Fredrica Johnson, Cecil Waller and Lora Florence, and Messrs. Finnell Peak, Tom Pursifull, George Grubbs, Watson Dyar, Howard Smith, John Roberts, Edgar Stevenson, Charles Johnson, Carroll and Lester Johnson, George O'Neal, Ed and Robert Lipscomb, Robert Myers, Frank Watson, Albert Durr, Robert Baker, Bruce Allen, Tobe and Brice Dudgeon, Omer Waller, —— Kennedy, S. Vest, and others whose names we failed to learn.

MOUNDFIELD FARM.—John Ernst has just returned from an extensive visit through Southern Indiana.

Wm. Clayton, who has been on the sick list for a week, is somewhat better.

Mike Clore was out from Ludlow, last week, looking after his interest at this place.

Ed Aylor filled his brother, Leslie, full of shot, Saturday, mistaking him for a rabbit. Boys, be careful.

Burt Aylor has built another room, which adds much to the appearance of his premises. Henry Quick, builder.

Ed and Spencer Aylor are both now proud fathers. They talk and act like boys with their first pair of red-topped boots.

Harrison Clore has beautified his premises very much by putting down 1,200 or 1,500 square feet of cement pavement.

We have not been able to supply the demand for cisterns this fall, but will make an effort to supply the spring trade, however.

We met Dude Maxon, of Taylorsport, in Delhi, Saturday. Owing to the scarcity of water with him he was over there to get a drink.

Doc Mannin is hauling sand and gravel preparatory to building cement walks through his garden, to stand on while cultivating his vegetables next spring and summer.

A very interesting and instructive meeting was held by Greenwood Grange, last Saturday night. Among the visitors were Bro. Joe Weaver and Sister Eva Smith, of Golden Grange.

Dr. Logan, from Middletown, Ohio, was visiting at William Clayton's, last week. While here he played a series of 14 games of checkers with our invincible John Kelsay. John won 2 games, and the Doctor, the remainder, except one that was a draw.

Wash Tanner has been digging in a well on his premises nearly all summer. Several feet down he passed through what, at some time, had been a mill site and logging camp, judging from the decayed logs and lumber he found. At last accounts he had reached sufficient depth to hear chickens crowing in China, but had found no water.

One of the most elaborate of all the social events that have taken place in this vicinity in a decade, was the birthday anniversary of Misses Edith Rouse and Neva Hafer, which was celebrated at the home of the latter, a few days since. They being of the same age, for several years they have celebrated their birthday together, and the last being their 16th, greater preparations were made than ever before. A large number of their young friends assisted to make everything agreeable. Among those present, whose names we can recall, were Misses Grace Bullock, Laura Beall, Hattie Harper, Anna Hafer, and Messrs. Burt Baker, James Bullock, Walter Hafer, Lewis Harding, Edgar Graves. Misses Rouse and Hafer were robed in beautiful costumes of pink silk, trimmed in the latest fashion, and they looked more than beautiful. Dinner was served at a fashionable hour, and it would be useless for me to attempt to describe the courses and bill of fare that was spread for that gay and happy crowd.

W. J. Rice and Kirb Tanner, have begun a six months' job of building for J. J. Lillard. They have torn down one of the oldest buildings in that neighborhood, it being built entirely of popular logs, hewn in the most perfect manner.

A. M. Acra has a good 17 months old Jersey bull for sale.

Joseph Scott's Jersey bulls sold last Monday for $17, $21 and $22.50.

Harper Rucker, of Constance has several Poland China pigs—males and females—for sale. Apply to J. J. Rucker.

W. P. Carpenter, of Florence, has sold his stallion, Richwood, to Tim Hays, of Cincinnati. Richwood took more premiums than any horse ever owned in this county. He was a grand show horse.

Setters & Botts' saw mill, located at J. J. Lillard's, is said to be doing splendid work. Water has to be hauled some distance to keep it in operation. They had a lot of nice logs in the yard for a starter.

The new Methodist church building is rapidly approaching completion being under roof and partly plastered. It is going to be a beautiful little building and the enterprising members of the church deserve much credit for this beautiful and useful ornament they have added to our pretty town.—Warsaw Independent.

Spreads Like Wild Fire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years." You know why? Most diseases being in disorders of stomach, liver, kidneys and bowels, blood and nerves. Electric Bitters tone up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, rundown man or woman. Price, 50 cents. Sold by W. F. McKim, Burlington; Union Drug Store, Union; H. L. Eskew, Walton; O. N. Grant, Bellevue.

25 per cent
saved in Physicians Prescriptions at
ESKEW'S, Walton, Ky.

Frankfort, Ky.

MIAMI UNIVERSITY

COLLEGE AND PREPARATORY DEPARTMENTS.

Oxford, Ohio, 40 miles north of Cincinnati; 78th year opens September 11; 26 men in the faculty. Both sexes received on equal terms. TUITION FREE. $200 covers all necessary expenses; $148 for board, room rent, books, laboratory and incidental fees for school year. Excellent gymnasium equipment. This school, supported by the State, in a small town, in a mild and genial climate, having commodious buildings and campus of rare beauty, is an ideal place for study and mental and physical training.

DAVID STANTON TAPPAN, D. D., LL. D., President.

BOONE COUNTY RECORDER.

VOL. XXVII. BURLINGTON, KENTUCKY, WEDNESDAY, NOVEMBER 13, 1901. NO. 4.

SOME guessed that 3,000 votes would be polled in this county at the last election.

THE indications are that the vote in Ohio on the 5th inst., will go very little, if any, over 800,000.

WHEN you mention a Covington Democrat to a country brother, he shakes his head, and gnashes his teeth.

AS usual the Democrats had the confidence over in Ohio, but the count showed that the Republicans had the votes.

THE trial of Caleb Powers did not cost the Democrats a single vote, but looks like the other fellows may have lost some strength because of it.

THE defeat of Tamany in New York City is claimed to be a tremendous victory for David B. Hill, putting him at the head of the party in the State.

THE Republicans came very near being entirely excused on the 5th inst., from taking any further part in the lawmaking business in Kentucky.

IT is believed that the President will take a stand in his forthcoming message in opposition to trusts, which Mr. Hanna has publicly declared to be a good thing.

THE overwhelming Republican defeat in Louisville, on the 6th inst., was Collector Saps' official death knell, and he lost no time in putting his resignation in proper hands at headquarters.

SPEAKING of his shipping bill, Senator Frye exclaimed pathetically, "I have been pushing it for twenty years." Yes, and the tax payers of the country have been resisting it as a deliberate steal for the same length of time.

THE contest for United States Senator in this State is already a hot number. It is claimed that it is the field against McCreary and that the combination may cause the Madison county statesman no little trouble before he lands the nomination.

THE people of Kentucky have overwhelmingly expressed their desire that the Democratic party shall have in charge the work of redistricting the State, showing that they have perfect confidence in that party doing the work in a proper manner.

THE Louisville Post is nothing if not inconsistent. One day it will charge the Louisville Commercial with having neither circulation, nor influence of any kind, and the next day it will accuse it of being responsible for the Democratic victory in Louisville.

ALL that newspaper talk about a probable lynching at Petersburg, this county, is bosh. It is true that the death of Dr. Tilley's wife, owing to certain circumstances, created unfavorable comment, and considerable of it, and it was decided that the best way to clear up the matter to the satisfaction of all, was to have the body exhumed and a post mortem held, which was done, and the stomach removed and sent to a Cincinnati chemist for the purpose of having its contents analyzed, to see if there are any traces of poison. The Doctor, it is said consented to the post mortem as the best manner of establishing his innocence of the ugly charges that have been made against him.

Gov. Beckham has sent a letter to Gov. Durbin, of Indiana, resenting the insult which he casts upon Kentucky and its officials and courts. He accuses Gov. Durbin of violating his oath of office and of protecting Taylor and Finley in fulfillment of an ante-election pledge. Gov. Durbin is accused of having unjustly and deliberately misquoted the record in the trial of Caleb Powers in order to bring discredit upon an honest and upright Judge. Gov. Beckham cites the opinion of the Chief Justice of the Supreme Court of the United States in the Davidson case to show that Gov. Durbin has no discretionary power whatever and must honor requisitions, as they are presented in good faith, as much so as a peace officer must serve a warrant or a civil process.

The Election.

Following is the official vote of this county, cast on the 5th inst.:

For Circuit Judge—	
John M. Lassing	1401
For Coroner—	
A. A. Murat	1374
For Surveyor—	
W. E. Vest	1395
For Sup't Schools—	
D. M. Snyder	1386
The above had no opposition.	
For Representative—	
J. W. Kennedy	1393
J. G. Tomlin	308
Kennedy's majority	1085
For County Judge—	
P. E. Cason	1411
G. W. Baker	304
Cason's majority	1107
For County Attorney—	
D. E. Castleman	1390
C. Y. Dyas	301
Castleman's majority	1089
For County Clerk—	
B. W. Adams	1402
Earl Whiting	307
Adams' majority	1095
For Sheriff—	
B. B. Allphin	1403
James Allen	311
Allphin's majority	1092
For Jailer—	
T. J. Adams	1405
James Leach	308
Adams' majority	1097
For Assessor—	
O. S. Watts	1400
Jonas Stephens	331
Watts' majority	1069

The Democrats carried Constance again.

The largest vote polled was for Assessor, 1731.

Burlington cast the largest Democratic vote.

Not an election disturbance was reported at any of the polls.

Candidates without opposition were not complimented any to speak of.

It was the smallest vote polled in the county at a regular election in a long time.

The candidates on each ticket ran very close together. Very little scratching was done.

A great many Democrats who went to the primary election, failed to show up at the regular election.

It took the election commissioners a day and a half to count the vote and make up all the required certificates.

Cason for County Judge lead the Democratic ticket a few votes, while James Allen Republican candidate for Sheriff, lead his ticket.

Were the county's representation in the next State or District convention determined by the vote cast on the 5th inst., her delegation would be a small one.

The officers of election at one precinct put everything in the large envelope and sealed it. When he unlocked the ballot box and saw what had been done, County Clerk Adams asked the officer who returned the box, if the voting booths were in the large envelope also, and the officer answered: "No, but it is because they were too large to be put in."

B. F. McGlasson, of Kenton county, guessed on October 31st, that 1723 votes would be polled at the election in this county on 5th inst. That was the nearest correct guess, and he gets the RECORDER'S $10. James M. Utz, of Limaburg, guessed 1760; J. H. Stephens, of Idlewild, guessed 1800, and Willis Grant, of Burlington, 1864. These were next three nearest correct guesses, and each gets the RECORDER free for one year.

Senator Foraker said in a speech in Ohio a few days ago that he would rather eat with the negro that Roosevelt entertained at dinner than with some Southern Senators that he knew. And still, in the face of such rabid statements as this, these fire-eating Northern fellows have the audacity to croak, year in and year out about the prejudices of the white Southern people. There never was a more disgraceful display of unreasonable prejudice than that given by Foraker.—Big Sandy News.

LOCAL NEWS.

The stock is getting the good of what little grass there is this fall.

There was not a disputed ballot sent in to the county commissioners to dispose of.

Tony Bentler took his engine out on the pike, last week, to operate the stone crusher.

Bert Rouse had several teams engaged cleaning out and enlarging the pond at the mill, a day or two last week.

Kenton county is the only place in Kentucky that did not respond nobly to the call of Democracy on the 6th inst.

Marce Riddell has rented the business house lately occupied by A. M. Acra, and will engage in the grocery business.

It is hard to tell how the political cat is going to jump in Kenton county, as it sometimes jumps two ways at the same time.

John Baldon guessed a change in the weather was coming, and butchered the first installment of his porkers, last Wednesday.

Pike county will send a Democratic representative to the General Assembly this winter, the first time within the memory of man.

Judging from the report of the guns out in the rural districts, it is evident that some of the hunters are equipped with rapid fire guns.

Master James Allphin will be his father's office deputy. Jimmie is a bright boy, and will be obliging and quick in the discharge of his duties.

Jeff Eddins has purchased of W. E. Vest the Kirkpatrick property the latter bought at commissioner's sale on the first Monday in this month.

W. A. Gaines has had a long string of wire fence put up to enclose his land near town. Thos. Adams, the noted wire fence builder, did the work.

Several boys in Burlington who are engaged in the trapping business, make rabbits a specialty. They are swinging quite a number of the cotton tails.

Last week Henry Quick and James Beall, of Hebron, began remodeling in the interior of the building known as the Sandford Hotel for many years.

The Louisville Times prints a handsome (?) picture of Postmaster Thomas Baker, followed by a write up of his sojourn at Reelfoot Lake. From the write up it appears that our friend Baker is not a success as a shootist.

Several persons hereabouts are patiently awaiting the official announcement of the number of votes polled in Ohio on the 5th inst. They are financially interested, each hoping to be inside of the money.

Doll Walton and Henry Clore drove a bunch of extra cattle through town, one day last week. There are a great many good cattle taken to market from their neighborhood during the year. The farmers down there know how to make them good.

John Crisler, of Gunpowder neighborhood, was in town Saturday. He says about the only perceptible difference in his crop of corn this year and last is, last year he made 14 barrels to the acre, while this year it takes 14 acres to make a barrel.

Our bachelor friend, Harry Stephens, of Idlewild, enjoys the distinction of being the nominee of his party for Assessor and not receiving a single vote at the polls. Harry, come over to the Democrats and you will be accorded better treatment.

It is strange that Burlington is not the most populous city in this country. It is generally charged that people who live in Burlington do not have to work, and as there are very few who like to work, it is a wonder that all others do not move to Burlington to avoid labor.

Several of the officers of the election did not understand the law in regard to returning the ballots, &c. Some put the whole outfit in the large envelope and sealed it. From two or three precincts the officers had to make a second trip to the county seat before the vote of their polling place could be counted.

The peculiar thing about the recent election is that Jonas Stephens was voted for as the Republican candidate for Assessor, when his brother, Harry Stephens, was the nominee of the Republican convention. Jonas was certified to the county clerk as the nominee.

J. P. Hemphill, the druggist, of Rising Sun, will remove his stock of drugs, &c., into the Clark Building, one door above the National Bank, in about two weeks, and asks his friends of Boone, to remember the place and call and see him, and at this time thanks them for their liberal patronage for the past year.

The statistics of the growth of the rural free delivery service show that on December 2 next there will be 6,000 carriers throughout the country, traveling a total mileage approximating 146,220 miles daily, or twenty four and one half miles each on an average. There have been 12,000 applications for routes, or twice the number of routes.

Albert Ingram, who is serving Uncle Sam in the Philippine Islands writes his mother from Guinayangan as follows:

Dear mother—As we are having a few days rest I write to let you know that the "googoos" have not caught me yet. My company has had more rest this month than any time since we have been over here. We have been on the firing line now for eleven months, and only knows how much longer we will have to stay. I suppose as long as these niggers keep taking "pot" shots at us. Some times we think we have them stopped, but they will break out again.

Since my company has been guarding the telegraph line between this place and Lopez, we have not been bothered, but we expect trouble all the time.

I am going to give you a full description of the Islands, as I have seen them during the year I have been here. The Philippines are a bunch of trouble gathered on the western horizon of civilization. They are bounded on the west by hoodooism and smugglers; on the east by typhones and monsoons; on the south, by cannibals and earthquakes, and on the north by rocks and destruction. The soil is very fertile, producing large crops of insurrections and treachery. The inhabitants are very industrious, their cheif occupation being trench digging and making of bolos. Their houses are made, principally of bamboo and landscape. Their principal ammusements are cockfighting and stealing. Their favorite diet is boiled rice, stewed rice and rice. The beast of burden is the caribon, and should they undertake a journey of 100 miles with one of them the driver would die of old age before reaching his destination.

Malarial fever is so prevalent that on several occasions the Islands have shaken like they had a chill.

The Philippines would make a good present for some deadly enemy. The natives are friendly at the point of a gun.

The climate is pleasant and the whole country abounds with musquitoes, ants, lizards, snakes, roaches, bats, tarantulas, scorpions, centipedes, monkeys and alligators.

The soil is adapted to raising foul odors and breeding all kinds of diseases.

I have seen all the seasons since I have been here, and the only difference I find between the rainy season and the dry season is that in the rainy season it rains day and night, and in the dry season it only rains in day time.

I think an American soldier toughened to this climate is the only white person that can possibly live here.

You may send this to Mr. Riddell to print for the Recorder, if he chooses, for the benefit of young men who are sick of home and aspire to be soldiers, and see foreign service. It certainly is not what it is cracked up to be.

You can tell my friends they need not send any bananas or cocoa nuts in my X-mas box.

Tell Dad to send me some kraut and turnips. My regards to all my friends, with love to all the family.

TOBE.

Great Luck of an Editor.

"For two years all efforts to cure Eczema in the palms of my hands failed," writes editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Eruptions, Sores and all skin diseases. Only 25 cents at W. F. McKim's, Burlington; Union Drug Store, Union; H. L. Eskew's, Walton; O. N. Grant's, Bellevue.

The Teachers' Association of the Second Magisterial District, met in the school house in Petersburg, Saturday morning, October 26th, with Superintendent Voshell presiding, and eleven teachers in attendance. An address of welcome was delivered by Master Albert Buchanan, after which Supt. Voshell made some introductory remarks. The meeting then proceeded to discuss the programme as previously announced, as follows:

How teach beginners Arithmetic, Mrs. Mary E. Walton, Miss Mary Gaines; and Everett Jones; the value of Analysis and Diagramming, B. W. Nelson; How I teach Spelling, Miss Leola McWethy; Physiology, Carl Grant; Mental Arithmetic, Albert Snyder; Kentucky History, Herbert Grant.

Each subject was handled in an interesting manner, the remarks of Miss Eleanor Goodin, of Ohio, and Rev. L. N. Early, who took part in the discussions, being right to the point.

At noon an elabrate luncheon, prepared by Mrs. Mary E. Walton and Miss Leola McWethy, was eaten.

The committee on programme for the meeting of Nov. 16, at Bullittsville, presented the following: Reading—Effie Lermond.

Primary Geography—O. V. Hahn.

Composition—D. I. Tanner.

Civil Government—Wm. Gaines.

U. S. History—Keene Southerand Omer Henry.

How to grade Our Schools—Carrie Clore.

Advanced Arithmetic—C. M. Summers.

Language Lessons— Miss Anna Schwartz.

The members of the association were photographed in a group, after which the meeting adjourned after a pleasant and profitable session.

The oil drill may be the means of introducing a second mammoth cave in Kentucky. To any one that knows this country the experience of Smith & Co., of Lexington, who are drilling east of Sunnybrook, is significant. This firm shifted its drilling location four times because the tools went into a cavern each time at about a depth of ninety to one hundred feet. There is every reason to believe that Smith & Co. went into the same cave with every hole they drilled. Their third location was fully one-half mile from the first, and their present location is more than one-half mile from the last. None of these locations is on a direct line, so the cavern must have width as well as length. In themselves these facts might not be extraordinary, but considered with the features of the surrounding country the existence of a tremendous cave becomes almost a certainty.—Ex.

A Berlin cable says- An eminent throat specialist here has discovered that the perfume of certain strong-smelling flowers is particularly dangerous to the voice. He specially mentions the violet, the rose, the lilly of the valley, the narcissus and the white lilac. He asserts that a singer can never sing so cleverly in a room where the scent of flowers prevails. The well known vocalist, Marie Sasse, informed her doctor that once between acts she lost her voice from smelling violets. Christine Nilsson discovered that the perfume of roses impaired her voice and carefully removed all strong-smelling flowers from her house. Similar testimony is given by the famous bass singer, Delmas. Mme Rene Richard, the great Paris teacher of singing, noticed that girls who came to her classes wearing flowers always sang better when the flowers were removed into another room. Faure, another great authority, says violets are most dangerous, their perfumes being as hurtful as tobacco or alcohol.

Jumped on a Ten Penny Nail.

The little daughter of J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all Druggists.

Raw bone coarsely ground, about half as large as grains of corn is greedily eaten by fowls especially if kept closely confined.

The Cream.

Rich milk will make the most cream and butter.

Give milk every facility to free itself from animal heat.

Sweet cream makes butter of a very mild flavor.

If the roughness is not so good, give more grain.

Better keep five cows on full feed than ten on scant rations.

Cows fed on rich feed make rich manure which should be carefully saved.

If left alone cows will take but very little exercise.

Test a cow's milk repeatedly if there is any doubt as to her performance.

Stop the churn when the butter granulates if you expect to wash out the buttermilk.

See that the churn is not cold enough to chill the cream below the churning temperature.

The cream should never be allowed to become thick and sour. Churn when slightly acid.

A good cow, when in milking order, is neither fleshy nor scrawny but of medium order.

Salted butter will keep better than fresh. Salt acts as an antiseptic, preserving the butter from decay.

The dairy farmer is in a manner independent as his butter, when sold from week to week, should pay current expenses.

In supplying private customers the butter must be first class, nicely put up and promptly delivered when wanted.

Some farmer dairymen have good cows and do not know it because they have always fed them just enough to get a poor yield.

The feed must be put into the breed. The breed is all right but it requires the feed to show what the breed can do.

A good cow is not necessarily a pure blood or a high grade, but she has the capacity to make cheap milk from good food.

Use plenty of bedding, not only in the stables but in the barnyard, in order to secure proper cleanliness.

It is often asserted that the Jersey is better than the Holstein for dairy purposes, but in a contest conducted at the Nebraska state fair the prize was awarded to J. C. Doubt of University Place, Neb., whose Holstein cow, "Sharon Queen," showed 3.4 pounds of butter fat to 87 pounds of milk.

On last Thursday night Ira Kemper and Miss Wilhoite, of the Green-up neighborhood, were in Monterey attending a Halloween party at the home of Mrs. Ireland. It is thought that some one bent on having some fun unhitched their horse from the buggy and tangled up the harness. When the party was concluded and the young folks started for their homes, Mr. Kemper succeeded in getting his horse, buggy and harness partially together and as he thought secure. However as they reached the top of the Monterey hill near the Carter school house the harness gave way and the horse became frightened and ran away, finally coming in contact with a wire fence and fell. The occupants were thrown out but fortunately were not seriously hurt. Upon investigation it was found that the horse was dead, having cut his throat on the wire fence, the buggy was absolutely demolished.—Owen News.

What A Patent Costs.

In the course of its progress through the office up to the issue and mailing of a patent, says E. V. Smalley in The Century, an application passes through the hands of 52 persons. An applicant pays $15 to have his claim examined, and in case he is granted a patent an additional fee of $20 is required. Attorneys charge from $25 up, according to the work demanded by the cases, and as the applications number about 10,000 yearly it will be seen that there is a good deal of money to be divided among the patent lawyers whose signs cover the faces of the buildings in the vicinity of the patent office.

An inventor is not required to employ an attorney, but probably 99 out of 100 do. In simple cases where there is no interference with prior claims an inventor can almost as well deal direct with the government, but in most cases the knowledge of the lawyers is valuable. He can study other inventions in the same line and knows how to make the claim of his client broad enough to cover all that is new and valuable and not so broad as to be rejected.

If the chicks are allowed to go on the roosts too early they are apt to have deformed breasts.

FREEDOM FROM SIN.

Dr. Talmage Depicts Struggle of Man Who Desires Liberation.

Takes Text from Proverbs and Shows the Good Angel and the Bad Angel Striving for Victory Over the Soul.

(Copyright, 1901, by Louis Klopsch, N. Y.)

In this discourse Dr. Talmage depicts the struggle of a man who desires liberation from the enthrallment of evil and shows how he may be set free; text, Proverbs 23:35: "When shall I awake? I will seek it yet again."

With an insight into human nature such as no other man ever had Solomon in these words is sketching the mental processes of a man who has stepped aside from the path of rectitude and would like to return. Wishing for something better, he says: "When shall I awake? When shall I get over this horrible nightmare of iniquity?" But, seized upon by an uncradicated appetite and pushed down nm by his passions, he cries out: "I will seek it yet again. I will try it once more!"

About a mile from Princeton, N. J., there is a skating pond. One winter day, when the ice was very thin, a farmer living near by warned the young men of the danger of skating at that time. They all took the warning except one young man. He in the spirit of bravado, said: "Boys, one round more." He struck out on his skates, the ice broke, and his lifeless body was brought up. And in all matters of temptation and allurement it is not a prolongation that is proposed, but only just one more indulgence, just one more sin. Then comes the fatality. Alas, for the one round more! "I will seek it yet again."

Our libraries are adorned with elegant literature addressed to young men pointing out to them all the dangers and perils of life—complete maps of the voyage of life—the shoals, the rocks, the quicksands. But suppose a young man is already shipwrecked, suppose he is already off the track, suppose he has already gone astray, how can he get back? That is a question that remains unanswered, and amid all the books of the library I find not one word on that subject. To that class of persons I this day address myself.

You compare what you are now with what you were three or four years ago, and you are greatly disheartened. You are ready with every passion of your soul to listen to a discussion like this. Be of good cheer! Your best days are yet to come. I offer you the hand of welcome and rescue. I put the silver trumpet of the gospel to my lips and blow one long, loud blast, saying: "Whosoever will, let him come, and let him come now." The church of God is ready to spread a banquet upon your return, and all the hierarchs of Heaven fall into line of bannered procession over your redemption.

Years ago, and while yet Albert Barnes was living, I preached in his pulpit one night to the young men of Philadelphia. In the opening of my discourse I said: "O Lord, give me one soul to-night!" At the close of the service Mr. Barnes introduced a young man saying: "This is the young man you prayed for." But I see now it was too limited a prayer.

So far as God may help me I propose to show what are the obstacles to your return and how you are to surmount those obstacles. The first difficulty in the way of your return is the force of moral gravitation. Just as there is a natural law which brings down to earth anything you throw into the air, so there is a corresponding moral gravitation. I never shall forget a prayer I heard a young man make in the Young Men's Christian association of New York. With trembling voice and streaming eyes he said: "O God Thou knowest how easy it is for me to do wrong and how hard it is for me to do right! God help me!" That man knows not his own heart who has never felt the power of moral gravitation.

In your boyhood you had good associates and bad associates. Which most impressed you? During the last few years you have heard pure anecdotes and impure anecdotes. Which the easiest stuck in your memory? You have had good habits and bad habits. To which did your soul more easily yield? But that moral gravitation may be resisted. Just as you may pick up anything from the earth and hold it in your hand toward heaven, just so, by the power of God's grace, a fallen soul may be lifted toward peace, toward pardon, toward salvation. The force of moral gravitation is in every one of us, but also power in God's grace to overcome that force.

The next thing in the way of your return is the power of evil habit. I know there are those who say it is very easy for them to give up evil habits. I cannot believe them. Here is a man given to intoxication, who knows it is disgracing his family, destroying his property and ruining him—body, mind and soul. If that man, an intelligent man and loving his family, could give up that habit, would he not do so? The fact that he does not give it up proves that it is hard to give it up. It is a very easy thing to sail down stream, the tide carrying you with great force; but suppose you turn the boat up stream, is it so easy then to row it? As long as we yield to the evil inclinations in our heart and to our bad habits we are sailing down stream, but the moment we try to turn we put our boat in the rapids just above Niagara and try to row up stream.

A physician tells his patient that he must quit the use of tobacco, as it is destroying his health. The man replies: "I can stop that habit easy enough." He quits the use of the weed. He goes around not knowing what to do with himself. He cannot add up a column of figures; he cannot sleep nights. It seems as if the world had turned upside down. He feels his business is going to ruin. Where he was kind and obliging he is scolding and fretful. The composure that characterized him has given way to a fretful restlessness, and he has become a complete fidget. What power is it that has rolled a wave of woe over the earth and shaken a portent in the heavens? He has quit tobacco. After awhile he says: "I am going to do as I please. The doctor does not understand my case. I am going back to my old habits." And he returns. Everything assumes its usual composure. His business seems to brighten. The world becomes an attractive place to live in. His children, seeing the difference, hail the return of their father's genial disposition. What waves of color has dashed blue into the sky, and greenness into the mountain foliage, and the glow of sapphire into the sunset? What enchantment has lifted a world of beauty and joy on his soul? He has resumed tobacco.

The fact is, we all know in our own experience that habit is a taskmaster. As long as we obey it it does not chastise us; but let us resist, and we find that we are lashed with scorpion whips and bound with ship cable and thrown into the track of bone-breaking Juggernauts.

Suppose a man of five or ten or twenty years of evildoing resolves to do right, why are all the forces of darkness allied against him? He gets down on his knees in the midnight and cries: "God help me!" He bites his lip, he grinds his teeth. He clinches his fist in a determination to keep to his purpose. He dare not look at the bottles in the window of a wine store. It is one long, bitter, exhaustive, hand-to-hand fight with inflamed, tantalizing, merciless habit. When he thinks he is entirely free, the old inclination pounces upon him like a pack of hounds, all their muzzles tearing away at the flanks of one poor reindeer.

In Paris there is a sculptured representation of Bacchus, the god of revelry. He is riding on a panther at full leap. Oh, how suggestive! Let every one who is speeding on bad ways understand he is not riding a docile and well-broken steed, but that he is riding a monster wild and bloodthirsty and going at a death leap.

I have also to say if a man wants to return from evil practices society repulses him. The prodigal, wishing to return, tries to take some professor of religion by the hand. The professor of religion looks at him, looks at the faded apparel and the marks of dissipation, and instead of giving him a firm grip of the hand offers him the tip end of the longer fingers of the left hand, which is equal to striking a man in the face. Oh, how few Christian people understand how much gospel there is in a good, honest handshaking! Sometimes when you have felt the need of encouragement and some Christian man has taken you heartily by the hand, have you not felt thrilling through every fiber of your body, mind and soul an encouragement that was just what you needed?

The prodigal, wishing to get into good society, enters a prayer meeting. Some good man without much sense greets him by saying: "Why, are you here? You are about the last person that I expected to see in a prayer meeting. Well, the dying thief was saved, and there is hope for you." You do not know anything about this unless you have learned that when a man tries to return from evil courses of conduct he runs against repulsions innumerable.

I think, also, that men are often hindered from returning by the fact that churches are anxious about their membership, too anxious about their denomination, and they rush out when they see a man about to give up sin and return to God and ask him how he is going to be baptized—whether by sprinkling or immersion—and what kind of a church he is going to join. It is a poor time to talk about Presbyterian catechism and Episcopal liturgies and Methodist love feasts and Baptist immersions when a man is about to come out of the darkness of sin into the glorious light of the Goapel.

Why, it reminds me of a man drowning in the sea, and a lifeboat puts out for him, and the man in the boat says to the man in the water: "Now, if I get you ashore, are you going to live in my street?" First get him ashore, and then talk to him about the nonessentials of religion. Who cares what church he joins if he only joins Christ and starts for Heaven? Oh, you, my brother of illumined face and a hearty grip for every one that tries to turn from his evil way, take hold of the same hymnbook with him, though his dissipation shake the book, remembering that he that "converteth a sinner from the error of his ways shall save a soul from death and hide a multitude of sins."

Now, I have shown you these obstacles because I want you to understand I know all the difficulties in the way. But I am now going to tell you how Hannibal may scale the Alps and how the shackles may be unriveted and how the paths of virtue forsaken may be regained. First of all, throw yourself on God. Go to Him frankly and earnestly and tell Him these habits you have and ask Him, if there is any help in all the resources of omnipotent love, to give it to you. Do not go on with a long rigmarole, which some people call prayer, made up of ohs and ahs and forever and forever amens! Go to God and cry for help.

I remember that in the civil war I was at Antietam, with other members of the Christian commission, to look after the wounded. I went into the hospital after the battle, and I said to a man: "Where are you hurt?" He made no answer, but held up his arm, swollen and splintered. I saw where he was hurt. The simple fact is, when a man has a wounded soul all he has to do is to hold it up before a sympathetic Lord and get it healed. It does not take any long prayer. Just hold up the wound. It is no small thing when a man is nervous and weak and exhausted, coming from His evil ways, to feel that God puts two omnipotent arms about him and says:

"Young man, I will stand by you. The mountains may depart and the hills be removed, but I will never fail you." And then, as the soul thinks the news is too good to be true and cannot believe it and looks up in God's face, God lifts His right hand and takes an affidavit, makes an oath, saying: "As I live," saith the Lord, "I have no pleasure in the death of the wicked." Blessed be God for such Gospel as this! "Cut the slices thin," says the wife to the husband, "for there will not be enough to go around for all the children. Cut the slices thin." Blessed be God, there is a full loaf for every one that wants it. Bread and enough to spare! No thin slices on the Lord's table!

I remember that while living in Philadelphia, at the time I spoke of a minute ago, the Master Street hospital was opened, and a telegram was received, saying: "There will be 300 wounded men to-night. Please take care of them." From my church there went out 20 or 30 men and women. As the poor, wounded men were brought in no one asked them from what state they came or what was their parentage. There was a wounded soldier, and the only question was how to take off the rags most gently and put on the cool bandage and administer the cordial. And when a soul comes to God He does not ask where you came from or what your ancestry was. Healing balm for all your wounds; pardon for all your guilt; comfort for all your troubles!

Then, also, I counsel you, if you want to get back, quit all your bad associates. One unholy intimacy will fill your soul with moral distemper. In all the ages of the church there has not been an instance where a man kept one evil associate and was reformed—among the 1,600,000,000 of the race, not one instance. Give up your bad companions or give up heaven. It is not ten bad companions that destroy a man nor five bad companions nor three, but one.

What chance is there for the young man I saw along the street, four or five young men with him, in front of a grog-shop, urging him to go in, he resisting vehemently, resisting, until, after awhile they forced him to go in? It was a summer night, and the door was left open, and I saw the process. They held him fast, and they put the cup to his lips, and they forced down the strong drink. What chance is there for such a young man?

I counsel you also to seek Christian advice. Every Christian man is bound to help you. If he declines to help you, he is not a Christian. Now gather up all your energies of body, mind and soul, and, appealing to God for success, declare this day everlasting war against all evil influences. A half week will amount to nothing; it must be a Waterloo. Shrink back now and you are lost. Push on and you are saved. A Spartan general fell at the very moment of victory, but he dipped his finger in his own blood and wrote on a rock near which he was dying: "Sparta has conquered." Though your struggle to get rid of sin may seem to be almost a death struggle, you can dip your finger in your own blood and write on the Rock of Ages: "Victory through our Lord Jesus Christ."

Some one said to a Grecian general: "What was the proudest moment of your life?" He thought a moment and said: "The proudest moment was when I sent word home to my parents that I had gained the victory." And the gladdest and most brilliant moment in your life will be the moment when you can send word to your parents that you have conquered the evil habits by the grace of God and become eternal victor.

Oh, despise not parental anxiety! The time will come when you will have neither father nor mother, and you will go around the place where they used to watch you and find them gone from the house and gone from the field and gone from the neighborhood. Cry as loud for forgiveness as you may over the mound in the churchyard, they cannot answer. Dead! Dead! And then you will take out the white lock of hair that was cut from your mother's brow just before they buried her, and you will take the cane with which your father used to walk, and you will think and think and wish that you had done just as they wanted you and would give the world if you had never thrust a pang through their dear old hearts.

God pity the young man who has brought disgrace on his father's name! God pity the young man who has broken his mother's heart! Better that he had never been born. Better if in the first hour of his life, instead of being laid against the warm bosom of maternal tenderness, he had been coffined and sepulchered. There is no balm powerful enough to heal the heart of one who has brought parents to a sorrowful grave and who wanders about through the dismal cemetery crying: "Mother, mother!" Oh, that to-day, by all the memories of the past and by all the hopes of the future, you would yield your heart to God! May your father's God and your mother's God be your God forever!

THE WANDERING SHADE.

He Airily Invades a Football Field —Meets with a Mental Shock and Forsooth Would Fade Away.

And suddenly I passed by an inclosure wherein were a great multitude seated upon an amphitheater, watching some event which was transpiring out upon a field all marked with white bars.

"Aha!" thought I. "This remindeth me of the lists! I may perchance happen upon some very pretty sword play here!"

I clambered to a good vantage point and observed the scene with much interest. Out upon the field were two bands of knights in quilted armor and with hair long and full of burrs. Also they wore strange devices upon their noses—the meaning of which I wist not.

"O friend," said I to a bystander, "canst tell me the name of yon contrivance which sticketh upon the noses of the contending knights even as a court plaster?"

"Go to!" said the stranger. "Those are nose protectors."

"Gramercy, good sir!" quoth I, "but why protect the nose and allow the rest of the body to be put upon the bum? Is the nose, then, the most cherished possession of the people of this peculiar age?"

Just then our attention was attracted by a great tumult. One line of knights ran toward the other line, carrying a ball the size of a man's head. There was a crash, a cloud of dust, a wondrous commingling of writhing legs and arms, and then the whole company of knights painfully untangled and came forth again. Some lay motionless upon the ground, while others limped away to die. And up in the amphitheater many youths with canes and gaudy ribbons arose and opened their mouths widely and stared and bawled raucously:

"Smackety-whack!
Ker-whack! Ker-whack!
Set 'im down hard on a jagged big tack!"

Or thus it sounded to mine ears.

I could not withstand the excitement of the scene, which reminded me of Agincourt. I drew my blade and rushed between the contending knights and thundered:

"What ho! Gadzooks and have at thee! S'deuth! S'blood!——"

Alas! There was a rush—a shock—and I found myself lying upon the ground in a suffocating dust with 22 lusty knights piled above my ghostly frame. So overcome was I that I was compelled to fade away into thin air and slowly ooze out of the mass. Yea verily, 'twas the only way I could escape.

But the knights of the present fight not as in the days of old.

And in the language of this peculiar people, "I pass it up."

MARRIAGE IN FRANCE.

An Illustrative Instance of the Difficulties Which Beset Bachelors.

The hardest thing to do in France is to get married, says the New York World.

Yet the French nation affects to encourage matrimony, as a remedy for its depleted population.

Study the following case, however, of a Frenchman who is still a bachelor and consider whether you would prefer conducting your romantic affairs in that or some other country.

This is the case of a workman, aged 30, who wanted to marry a woman, aged 25, who was divorced and an orphan. Armed with every document bearing on his identity he could think of, the workman repaired to the town hall of his district. His certificate of birth was pounced upon at once by a clerk. It was out of date, a recent law requiring that all such documents to be valid must have been delivered within the previous three months.

To obtain a fresh certificate the workman had to write to the village where he was born. The delay was fatal. While he was waiting for a reply his parents unexpectedly came in for a little money and in their altered circumstances their prospective daughter-in-law ceased to find favor in their eyes. In France, whatever one's age, one cannot marry without the consent of parents until after the accomplishment of certain formalities.

His family remaining obdurate the workman only had them served at the appointed intervals with the prescribed number of "respectful notices" at the cost of $13. The operation over he returned to the town hall, where the clerk pointed out to him that he was just a week too late.

He possessed his soul in such patience as he was able, did as he was bid and reappeared before the registrar with his batch of newly delivered and attested "papiers."

There he learned that he must pay $40 for a different doenment. The sum exceeded his means and he is still unmarried.

No Ground for Encouragement.

Doctor (to Irish patient who has had both legs amputated)—There now, Pat. Don't worry. You'll pull through all right. You're got a good constitution, and you're having the best of care, and the chances are you'll live to enjoy life for many a year yet.

Pat—You do be talking unreasonable, doctor. Ef there's small show for a man that's "on his last legs," what chance is there, Ol'd like to know, for a man that has no legs at all?—Boston Courier.

Pessimism.

"What do you think of that for a record? Old Chloe, who died yesterday, was 94 years old and 80 years served in the one family."

"Uh, I don't know—who can tell? Did she ever give an account of herself during the other 14 years?"—N. Y. Times.

STATE ITEMS OF INTEREST.

BUILDING GUTTED.

Rapid Spread of Flames From Lithographing Establishment Averted By Department's Work.

Louisville, Ky., Nov. 8.—The establishment of the Louisville Lithographic Co., on Second street, near Main, was completely gutted by fire, causing a loss of about $75,000. The fire was first discovered in the second story of the four-story building of the concern, and spread so rapidly that the neighboring houses, and especially the adjoining whisky house of Bonnie & Co., appeared to be in imminent danger. A general alarm was given and the fire department succeeded in confining the conflagration.

The machinery of the lithographic company was all new and valued at $25,000. It is completely lost, as are also lithographic stones and other material valued at about $50,000. The loss on the building will be $12,000. Bonnie & Co. suffered a damage of $2,500 by water, and the seed house of Ben S. Hutt was damaged to the amount of $1,500. The insurance is not exactly known, but will approximate 80 per cent. The origin of the fire is unknown. C. B. Richardson is president of the lithogrnhing company and J. J. Beck is secretary.

A BROKEN BACK.

Jockey "Eddie" Turner Received Serious Injuries on the Douglas Race Track.

Louisville, Ky., Nov. 9.—Friday's sport at Douglass park was marred by an accident in the fourth race. The field had not straightened out before Tristram, with Jockey "Eddie" Turner up, was badly jostled and was seen to plunge forward throwing her rider into the moving field. Turner was picked up and was at once seen to have sustained a broken back and injuries which may prove fatal. He was taken to a hospital. The favorite, Jordon, won, galloping. In the last race, Dr. Clark was left at the post; Pharoah, the well-backed favorite, winning cleverly. All but one favorite won. Blondi Grayson upset the talent in the first race, when the Hurns' stable representative won from a large field, with something to spare. Prima II. had a rough journey.

KENTUCKY CROP REPORT.

Little Over Half a Crop of Corn Was Harvested—Eighty Per Cent. Crop of Wheat Raised.

Frankfort, Ky., Nov. 9.—The final crop report of the season was issued Friday by the Kentucky agricultural department after the harvesting of all crops. It shows that only 54 per cent. of a crop of corn was harvested, and that 80 per cent. of a crop of wheat was raised, of which 45 per cent. is still in the hands of the raisers. The hemp and tobacco crops, especially in the dark tobacco districts, were good. Ninety-six per cent. of a crop of hemp was harvested, and the quality of tobacco is placed at 90 per cent.

One Defendant Dead.

Louisville, Ky., Nov. 8.—A jury was selected in the federal court for the third trial of H. H. Mullen, Bob Locke and J. J. O'Neill, who are charged with committing offenses against the colored voters in the Taylor-Goebel election of 1899. Another defendant, William Crites, is dead. The third trial of the men resulted in a hung jury, the second in a verdict of three years in the penitentiary and a fine.

Dog Slept on a Corpse.

Bowling Green, Ky., Nov. 8.—The last act in a life tragedy were brought to a close in the potter's field here, when Alice Ayers was buried. The woman, who was formerly a member of a good family in Allen county, was found dead in an old cabin near Taylor's brick yard. She had taken morphine and ended an abandoned life. The dead woman's little dog was curled up asleep on the breast of the corpse.

Sentenced to the Penitentiary.

Somerset, Ky., Nov. 7.—Nancy Hunley and her daughter, Phoebe King, charged with the murder of Mrs. Sellars, near Flatrock, this county, a year ago, were found guilty and sentenced to five years in the penitentiary.

Republican Victory.

Morehead, Ky., Nov. 7.—Complete returns show a republican victory for all county offices, except county attorney, sheriff and superintendent of schools. E. E. Peck, dem., is elected representative from the Bath-Rowan district by 100 majority.

Stabbed the Minister.

Juez, Ky., Nov. 9.—G. W. Estepp, 40 years of age, and for five years pastor of the Baptist church here, was stabbed to death by Marion Daniels. Estepp preached a sermon last Sunday which Daniels charged as directed at him.

Hemp Warehouse at Nicholasville.

Lexington, Ky., Nov. 9.—William J. Loughridge, the leading hemp buyer in the Blue Grass, is to erect in Nicholasville a hemp warehouse which will hold 1,000,000 pounds of hemp.

THE TURF SCANDAL.

The Committee Appointed to Investigate It Held a Secret Meeting at Lexington.

Lexington, Ky., Nov. 9.—The committee appointed by thoroughbred breeders to further investigate the turf scandal in this city, held a secret session of several hours Friday. Trainer Dan O'Brien, who, before the first investigation committee, shouldered the blame for having moved the three-eighths pole at the Kentucky association course that a colt might be sold to Clarence Mackey on false time, was before the committee most of the time.

Hal P. Headley, Dr. R. M. Bryan and R. D. Wilson were other witnesses.

All of the members committed themselves to secrecy as to the testimony Friday. One admitted that it was sensational, thereby strengthening a report that, tired of bearing all the blame, O'Brien would implicate others. The committee will meet again Wednesday. It will also submit the case to the grand jury when it convenes.

WILL READJUST RATES.

Southern Mississippi Valley Freight Association In An Important Conference In Louisville.

Louisville, Ky., Nov. 8.—The Southwestern Mississippi Valley Freight association met at the Galt house to readjust grain rates to all southeastern points from all northern and western gateways. For several months complaints have been made that grain men of St. Louis and adjacent territory were being discriminated against in the matter of rates to southeastern points. At this meeting a number of grain men from St. Louis, Evansville, Cairo, Henderson, Ky., and other points were present, and stated their complaint. A committee from the Louisville board of trade and several Louisville grain men also discussed the rates. Subcommittees were appointed to equalize the rates and report to the association later. It is said some changes will be made.

THE ELECTION FIGHT.

Five Out of the Six Participants at Morehead Will Probably Die of Their Wounds.

Morehead, Ky., Nov. 7.—The affray between Fletcher Ingram and John Shumate on one side, and Geo. Hogge and his three sons, Ray, Charlie and Tilden, on the other, make it one of the bloodiest in the history of Rowan county. The difficulty occurred in the voting booth at the Pine Grove precinct, and the participants, part of whom were election officers, fell out over politics. In the free-for-all fight that followed John Shumate was fatally stabbed in the back, Charlie Hogge was shot three times and is dying, Ray Hogge received a bullet in the head and can not live, George Hogge is believed to be fatally wounded and Tilda Hogge was probably fatally shot in the abdomen. Ingram escaped unhurt, but was arrested.

JEFFERSON STATUE.

It Will Be Unveiled at Louisville Saturday—Ex-Gov. Bradley Will Be the Orator.

Louisville, Ky., Nov. 7.—A statue of Thomas Jefferson, presented to the city by I. and I. H. Bernheim, leading citizens, will be dedicated and unveiled Saturday. Former Gov. W. O. Bradley will be orator and Mayor Weaver will accept the statue for the city. It stands in front of the courthouse. The statue is of bronze, nine feet high, and rests on a base representing the Liberty bell. There are four figures at the top representing Liberty, Justice, Equality and the Brotherhood of Man. It was modeled in Rome by Sir Moses Ezekiel, and cast in Berlin. It cost $60,000.

Kuklux Leader Insane.

Pineville, Ky., Nov. 9.—Mack Yonce, a member of the kuklux gang which operated in Letcher county, and who was sentenced to life imprisonment, has lost his mind. He was the leader of the gang which killed Mrs. Jemima Hall and son last fall in Letcher county. His case is before the court of appeals.

Shot By a Negro.

Beaver Dam, Ky., Nov. 6.—Tom Tatum, white, was fatally shot at the Taylor mines, two miles from here, by Mitchell Taylor, colored. The men had quarreled and separated. The Negro went away, secured a shotgun and later found Tatum, and emptied the contents of one barrel into his stomach. The Negro is only 19.

For a Coal Harbor.

Paducah, Ky., Nov. 9.—The report that the Pittsburg coal combine had secured option on the Paducah marine ways, and is negotiating for the purchase or lease of the inner shore of Tennessee island, to be used as a harbor, is confirmed.

One Killed; Boiler Let Go.

Louisville, Ky., Nov. 9.—One man was killed and three injured by a boiler explosion a the Central stock yards. Killed: George Fusting, engineer in charge; injured, Louis Just, Jake Young and John Dourk.

LI HUNG CHANG DEAD

Famous Chinese Statesman Passed Away at His Home in Peking.

Persistent Refusal to Refrain From Government Affairs Greatly Aggravated His Last Illness.

Peking, Nov. 7.—Li Hung Chang died at 11 o'clock Thursday morning. His wife, two sons and daughter were with him when he passed away. Before death came his burial clothes were put on. The court yard of the Yamen is filled with life-size paper horses and chairs, with coolie bearers, which his friends are sending, in accordance with Chinese customs, to be buried with him in order to carry his soul to Heaven.

The Chinese officials are somewhat uneasy concerning the effect his death will have on the populace, and to guard against a possible anti-foreign demonstration, the Chinese generals have disposed of their troops about the city in such a way as to command the situation. Trouble, however, is extremely improbable.

Chinese officials throng the Yamen. Telegrams have been sent summoning Prince Ching, who is now on his way to meet the court, and Chou Fu, provincial treasurer from Pao Ting Fu. The former will assume the general charge of governmental affairs and the latter will act as governor of Chi Li until Li Hung Chang's successor in that office, who will probably be Yuan Shi Kai, is appointed.

Earl Li's persistent refusals to refrain from attending to government business aggravated his malady, while the refusal of the family to permit certain measures customary in western medical practice for relieving the stomach contributed to bring his end.

Peking, Nov. 8.—The body of Li Hung Chang was Friday morning placed in a costly coffin of teak wood, beautifully lacquered. This coffin Li Hung Chang took on his trip around the world, and he brought it from Canton when he came to Peking to settle the "Boxer" troubles. Since that time it has been kept in a temple here.

On Sunday there will be a ceremonial corresponding to a lying in state, and all the Chinese officials will pay their respects. A separate day will be designated for the ministers of the powers. The interment will be at the birthplace of the deceased statesman, a little village in the province of An-Hui. The time has not yet been decided upon.

GEN. CORBIN WEDS.

The Adjutant General of the United States Army United in Marriage to Miss Edythe Patten.

Washington, Nov. 7.—At noon Wednesday, in the magnificent home of the bride, on Massachusetts avenue, in the presence of a distinguished company, Miss Edythe Patten became the wife of Maj. Gen. Henry C. Corbin, adjutant general of the United States army. The ceremony was performed, according to the rites of the Roman Catholic church, by his eminence, Cardinal Gibbons, assisted by Rev. Dr. D. J. Stafford, of St. Patrick's church.

Grouped before the contracting couple were the president of the United States, Mrs. Roosevelt and Miss Alice Roosevelt, nearly all of the cabinet and their ladies, the supreme court of the United States and their ladies, the diplomatic corps and theirs, and scores of officers of the army and navy, all in glittering full-dress uniforms.

WHILE THEY SLEPT.

Ten Persons Lost Their Lives by the Destruction by Fire of Klondike Theater at Hurley, Wis.

Bessemer, Mich., Nov. 7.—Ten persons were killed in a fire that destroyed the Klondike theater, at Hurley, Wis., early Wednesday morning. Every one in the building was asleep.

The theater was one of the big variety houses common in mining towns, and was constructed of wood. It burned in a few minutes, and two buildings adjoining were also destroyed.

Seven bodies of the victims have been found, but their identity can not be determined, as the fire has done its work so well that nothing but portions of skeletons remain in the ruins.

Maude Adams Statue Melted.

New York, Nov. 7.—What was known as the Maude Adams statue was melted up at the United States assay office in Wall street Wednesday. The statue was made of $97,000 in gold, taken out of the assay office some weeks ago. It has been on exhibition at the Pan-American exposition and was sent to the assay office from Buffalo direct.

Dinner at the White House.

Washington, Nov. 8.—The president and Mrs. Roosevelt gave their first formal dinner at the white house Thursday night, when a company of 18 persons assembled in the family dining room, which was beautifully adorned with white chrysanthemums.

Bubonic Plague Stamped Out.

Liverpool, Nov. 8.—A 7-year-old child, suffering from the bubonic plague, who was isolated a fortnight ago, has just died of exhaustion. The other patients under treatment here are out of danger.

STILL STICK TO SUBSIDY.

Backers of the Old Bill Will Open the Campaign with a New One.

Of course, Senator Frye is still convinced that the ship subsidy principle is sound, and that it was wisely embodied in the bill introduced in the last congress. But we believe that there are more people who disagree with him than there ever were before. The Hanna-Frye-Payne bill is admittedly dead. And the men who drafted it and pressed it as vigorously as they knew how have been forced to lay it aside in favor of another one that they hope may be less objectionable to the people. So the campaign will begin again with the opening of congress. What the new bill is we do not know, but it is safe to say that if it is satisfactory to the interests that have been so clamorous for a subsidy it will be objectionable to the people. More and more they are coming to oppose the whole subsidy principle, and to oppose it strongly. And their opposition is something that the republican leaders had better look out for.

That there will be a vigorous fight against the new bill is of course clear. Republican senators and representatives and able republican newspapers throughout the west are known to be hostile to the proposed gift. Anyone at all familiar with the feeling in this region realizes the danger involved in pushing this subsidy scheme on an unwilling and protesting people. It is known that there would have been a very respectable republican vote against the subsidy bill in the last congress if it had ever come to a vote. And there is reason to believe that it would have been acted on in the senate had it not been for the fact that the bill's republican enemies almost openly countenanced the democratic filibuster against it. We think that the situation is growing steadily worse for the subsidy people. Senator Frye, who seems disposed to judge public sentiment by the sentiment of the people of Maine, is apparently unable to understand that the opposition to his measure throughout the west is almost as strong among republicans as among democrats. Yet such is the fact.

The popularity of reciprocity, the belief that the tariff must come down and the favorable view of the movement against imposing tariff duties for the benefit of trusts are all so many indications of the growth of the opposition to the policy of taxing one set of men for the benefit of another set. Thus the ship subsidy proposition is in direct antagonism to the prevailing tendency of the times in the matter of taxation. Instead of more subsidies and discriminating taxes, the people want fewer, and they are convinced that the time has come to lighten tax burdens rather than to increase them. And when they believe—and on the best of evidence—that the ship subsidy is demanded by a few rich men who are already doing a large and profitable business without it, there is little chance of converting them to the Frye view.—Indianapolis News (Ind.).

LATEST SPEECH OF McKINLEY.

The Course of Ohio Democrats Will Make Things Warm for Republicans.

The last speech of President McKinley—the speech he delivered in Buffalo—created a sensation in free trade England that was remarkable. The readers of the Observer have been told how it was printed in full and commented upon by English journals.

Ohio democrats have taken up the McKinley utterance. What republicans choose to call "reciprocity" is at least a departure from the high tariff protection theory. It is a retreat, so far as it goes.

In the opening of the Ohio campaign in Bucyrus, Col. James Kilbourne, the democratic gubernatorial candidate, declared that the democratic principle of tariff for revenue only had been adopted by the republican party, too, by the late President McKinley. He made the declaration while arraigning the republican party for trust legislation. His words were:

"The death knell of the high protective tariff, which is robbing the many for the benefit of the few, was sounded by President McKinley in these words: 'The period of exclusiveness is past.' The American people will proceed in the direction he pointed out, and will continue to go forward until the true and perfect reciprocity advocated by the democracy is established in trade with all the nations of the earth, unhampered by tariff restrictions, excepting such as may be necessary for the purpose of revenue only."

Ohio will be a hot state during the next campaign.—Utica Observer.

Undismayed Subsidy Grabbers.

The statements which have just seen the light that American capitalists are negotiating for the purchase of another whole fleet of merchant steamships in England and that every shipyard in this country is as busy as it can be and that nearly all of them are preparing to increase their capacity and that many of them are building ocean liners for the foreign trade will in no degree lessen the activities of Payne, Frye, Hanna and the rest of our great statesmen who are so cocksure that there will not be ships enough to do our carrying if congress does not vote some $30,000,000 a year from the public treasury to secure them. They expended all their sweat and eloquence last year after Commissioner of Navigation Chamberlain had reported that our shipyards were more busy than they had been before since the beginning of the civil war and that they were building steamships for the foreign trade without receiving any bonus from American taxpayers.—Chicago Chronicle.

SOME TRUST PROFITS.

Evidences of Overcharging That Is Being Kept from the People.

The trusts have more ways than one of fleecing the public. Of course they charge for their wares "all the traffic will bear," which, thanks to the protection they receive through the tariff and from the monopoly that most of them enjoy of supplying the American market without competition, should enable them to pay large dividends. But this large profit does not satisfy some of the managers or insiders who, by knowing the actual condition of the properties and the amount of business being done, are able to manipulate the market for the trust stock and thus bleed the public who are silly enough to deal in such stocks with no knowledge of their actual value except what the trust managers deal out to them. Speaking of a law which would compel the trusts to publish their condition as banks and railroads do, the Philadelphia North American says: "Of course the business followed by conscienceless insiders in certain of these industrial properties would suffer from the adoption of a policy of publicity, because it would safeguard to some extent the general rule of small investors whom they find it immensely profitable to fleece. But among financiers and investors as a whole any chance tending to reduce mere gambling would not be unwelcome." Then, after showing that publicity has been put forward as one of the means—for controlling the trusts and that the steel trust has voluntarily made a partial statement of its financial condition, the American goes on to say: "The steel trust, however, has thrown out a valuable hint, perhaps inadvertently, which would contribute in some measure to a partial solution of the problem of monopoly. The compulsory publication by all corporations engaged in interstate commerce of regular financial statements would at least afford a starting point for intelligent discussion. The semiannual statement of its earnings by the steel trust has certainly served a distinct purpose. It shows that under present condtions this immense monopoly has earned a ten per cent. income on a capitalization that is more than one-fourth water.

"While doing this it has charged from $26 to $28 per ton for steel rails—to name one article—which Mr. Carnegie has testified can be turned out for $15, and has sold its products cheaper abroad than at home in this country. What the other trusts are earning there is no means of ascertaining under their present secretive system of operation but the average customer—and the average customer, in fact, is none other than the whole people of the United States—feels legitimate curiosity to know how much he is being overcharged since healthful and natural competition has been suppressed. It may save some of the trusts much undeserved criticism if they will voluntarily follow the steel trust's lead in letting the public know more of their affairs. Their habit of concealment is a virtual confession that to expose their earnings would encourage legislation which they do not consider desirable for their own ends.

COURAGE NEEDED.

Big Task Ahead of Tariff Reducers in Dealing with the Trusts.

If Congressman Babcock is in earnest when he announces that he will make a fight for tariff reduction he should find encouragement in the failure of the industrial commission to obtain replies from the principal trusts regarding sales of products abroad cheaper than at home. Their silence is a self-impeachment of the tariff which takes a bonus out of the citizen's pocket for their higher profit.

Especially significant is the flat refusal of the steel trust to answer the series of questions proposed by the commission. Yet Mr. Schwab, when testifying, asserted that if the tariff were reduced the corporation of which he is president would be forced to cut wages. Further than that he refused to commit himself.

In the last speech of President McKinley—the work of such men as Mr Babcock was outlined when the former great advocate of protection said that "commercial wars are unprofitable. If, perchance, some of our tariffs are no longer needed for revenue or to encourage and protect our industries at home, why should they not be employed to extend and promote our markets abroad? We must not repose in fancied security that we can forever sell everything and buy little or nothing."

Yet continued grab seems to be the policy of the trusts which have refused to furnish data to the industrial commission. Does their attitude mean that the present system of high protective tariffs will be continued by bluffing the laboring people with the ungrounded fear that wages will be lowered? Are the dividends of shrinking industrial stocks to be buoyed by forced profits?

Mr. Babcock has a big task before him. This attitude of the trusts will hardly do change. The tariff must be maintained by the forces that are now threatening such men as Representative Babcock. There is need for courage on the part of those who think to alter the present policy of the republicans in charge of the party machine. Of argument there is a plenty. Facts and inferences are on the side of the tariff reformers. But are they brave enough to continue in the fight to the end? Will not Babcock go the way of Knute Nelson?—St. Louis Republic.

SYRUP OF FIGS

IS AN EXCELLENT FAMILY LAXATIVE—
IT IS REFRESHING TO THE TASTE
AND ACTS PLEASANTLY AND GENTLY.
IT ASSISTS ONE TO OVERCOME HABITUAL CONSTIPATION PERMANENTLY

With many millions of families Syrup of Figs has become the ideal home laxative. The combination is a simple and wholesome one, and the method of manufacture by the California Fig Syrup Company ensures that perfect purity and uniformity of product, which have commended it to the favorable consideration of the most eminent physicians and to the intelligent appreciation of all who are well informed in reference to medicinal agents.

Syrup of Figs has truly a laxative effect and acts gently without in any way disturbing the natural functions and with perfect freedom from any unpleasant after effects.

In the process of manufacturing, figs are used, as they are pleasant to the taste, but the medicinally laxative principles of the combination are obtained from plants known to act most beneficially on the system.

To get its beneficial effects—

CONGRESSMEN AND MOURNING

All Would Have Worn Crape Fifty Years Ago for President's Death.

"Fifty years ago members of congress and of the senate would have been compelled by public opinion to wear crape on their arms for 30 days after the death of a president," remarked an ex-member who had served before the civil war, according to the New York Times.

"Up to about 1850, whenever a member of congress died the resolution of sympathy with his family invariably carried with it a provision that members should wear mourning. Deaths of members were of course less frequent, for the congressional body was numerically smaller. Indeed, the increase of the membership, which led naturally to a higher death rate, was the direct cause of abolishing the custom.

"A number of congres now die every year, and it was not thought advisable to keep members of the house and senate in practically perpetual mourning."

An Austrian "Accident."

Among the "accidents" reported in Austria recently was the case of a workman who walked along the road smoking a pipe, with a 50-pound bag of gunpowder on his back!

TO JUDGE AN OPAL.

Desirable Qualities That Lend Value to the Now Popular Unlucky Stone.

An expert on opal mining has recently explained how the opal is judged as to quality and desirability. First, he says, color is of the greatest importance. Red fire, or red in combination with yellow, blue and green, are the best. Blue by itself is quite valueless, and the green opal is not of great value unless the color is very vivid and the pattern very good. The color must be true; that is to say, it must not run in streaks or patches, alternating with a colorless or inferior quality. Patern is described as being an important factor, the several varieties being known as "pinfire," when the grain is very small; "harlequin," when the color is all in small squares, the more regular the better, and the "flashfire," or "flashopal," when the color shows as a single flash, or in very large pattern. Harlequin is the most common, and is also popularly considered the most beautiful. When the squares of color are regular and show as distinct, minute checks of red, yellow, blue and green, it is considered magnificent. Some stones show better on edge than on top.

Neighborhood News.

JACOB'S WELL.—Mesdames Sallie and Nannie Tanner were guests of Mrs. Zimmermau, of Tannertown, last Thursday.

Miss Emma Welsh was calling on Mrs. Sallie Tanner, last Sunday.

Herman Kiefton spent several days at Mr. Joe Scott's, hunting, last week.

Mrs. Dordey has returned home after a pleasant stay with her brother, Mr. Scott.

Edward Droege, of Covington, was calling on Lee Busby, of Gunpowder, last week.

Misses Minnie and Fannie Drinkenberg spent Sunday with Misses Fannie and Bessie Houston.

Mrs. Corbin and sisters and Miss Annie Riley were pleasantly entertained by Mrs. Pearson, last Thursday.

Misses Lottie and Iantha Utz spent last Wednesday night with their grandparents, Mr. and Mrs. Jas. Utz, of Gunpowder.

RABBIT HASH.—Quite a lot of coal is being taken out of the river opposite here.

Mrs. Bettie Ryle has been suffering from a severe attack of asthma.

R. L. Platt and wife gave the young people a dance a few nights since.

It is rumored that Dr. Ramey will move back here in the near future.

It is not quite time for killing hogs, yet we have had a "hog scrape" already.

Mrs J. P. Ryle, who has been quite sick, we are glad to report much improved.

The oldest inhabitant is now predicting that it will snow before we have a good rain.

Two weddings are aunouuced for the near future. Both the boys are named Charley and both are blacksmiths.

Miss Genie Riggs, of McVille, was visiting relatives here last Saturday and Sunday.

The dance at W. B. Ryle's was enjoyed until a late hour by a very large crowd of young people.

If a three wheel vehicle is a tricycle, and a two wheel vehicle is a bicycle, a one wheel vehicle not an icicle, wh t is it? Answer will be given next week.

CRESCENT.—We are sorry to report the very serious illness of Mrs. John Reamer, of Richwood.

Our enterprising merchant and postmaster, H. P. Dixon, was in Cincinnati, Thursday.

The school at Beech Grove is progressing nicely under the supervision of Miss Hattie Lee Riley.

Misses Ellen Reeter and May Regan, of Morningview, were the pleasant guests of Mrs. Henry Groger, last week.

Our local weather prophet, having become discouraged at no prospect of his predictions being verified, has left us.

Walter Grubbs, of Gunpowder, and Ed Rice, of this place, are contemplating a grand hunt over in Kenton on Thanksgiving day, and in view of this your pencil pusher has advised the farmers on their intended route to pen up all their stock on that day.

In the matter of the estate of Hiram J. Rector, deceased, County Judge Shine, Thursday, authorized Sarah J. Rector, administratrix, to accept the $1,200 offered by the South Covington and Cincinnati Street Railway Company as compensation for the death of Mr. Rector. It will be remembered that Mr. Rector was injured by a street car in Covington, last July, his injuries resulting in death. Mrs. Rector filed suit against the Company for $25,550 damages.

HATHAWAY.—Born, to Robert Moore and wife, on the 6th, a girl.

Farmers were busy last week Shucking corn.

Several in this neighborhood have butchered their hogs.

N. L. Moore and E. C. Franks butchered their porkers last Friday.

Ask Joe Greeu what broke his buggy spindle last Wednesday morning.

Miss Pearl White called on her brother, James, of near Burlington, last Thursday.

T. C. Jack, of Sheridan, Ind., was the guest of G. L. Smith, last Saturday night week.

G. L. Smith and wife and Mrs. Cynthia Mason were in Rising Sun, shopping, last Thursday.

Mrs. James White, of Woolper Heights, was the guest of Mrs. Sarah White, last Tuesday.

C. B. Mason has finished a large, nice, under-ground cellar, which is very neat in construction.

Mrs. B. H Stephens, Mrs Cynthia Mason, Mrs. Nan McElroy and Mrs. Vina Smith, spent last Tuesday with Mrs. Connie Rouse, of Gunpowder.

Messrs. Joe Greeu, Robert Green, James Huey and Claud Utz, called on your correspondent last Wednesday, and enjoyed the day very pleasantly hunting. The day's sport rounded up with 36 rabbits and a tired band of hunters, who had had a lot of fun.

UNION.—Mrs. L. H. Voshell entertained a number of friends, Saturday.

H. G. Blanton, of Erlanger, attended church here, Sunday.

Miss Martha Lassing is spending several days with Mrs J. A. Huey.

Mrs. J. S. Asbury and Mrs. John Garrison spent Friday with Mrs. Rachel Rice.

Mrs. H. C. Lassing spent last week with her daughter, Mrs. Joe Collins, of Crittenden.

Maud Norman Asberry spent several days last week with her cousin, Matson Bachel, jr.

The ladies of the Presbyterian church will give an entertainment in the town hall, the last of November.

Mrs. Harry Pettit, who has been with her sister for about two weeks, is now visiting her Crittenden, Ky., friends.

Mesdames John and Wallace Garrison and their friend, Mrs. Krutz, of Petersburg, dined with Mrs. J. W. Kennedy, Wednesday.

Mr. and Mrs. B. L. Norman had for their guests, Sunday, Mr. and Mrs. S. C. Hicks, Mr. and Mrs. L. H. Voshell, and Misses Kittie and Fannie Cleek.

Ernest Clements and wife, of Latonia, are with his sister, Mrs. Dora Bannister. Ernest has a good position with the L. & N. R., but is off of duty at present on account of a badly mashed foot.

Wednesday, November 6th, was the 46th anniversary of Mr. and Mrs. M. C. Norman's marriage. That evening their children surprised them with numerous presents and an elegant 6 o'clock dinner, consisting of all the substantials and delicacies of the season

FLORENCE.—Master James Robert Rice is on the sick list.

Miss Allie Stephens is able to be out after a slight illness.

Mrs. Francis Price is visiting Miss Laura Woodard, of Covington.

The little neice of Mrs. George Buffington, is very ill with diphtheria.

Born, on the 2nd, to Robert Rouse and wife, a daughter, Mary Lucile.

R. P. Rice is able to be out after a very severe illness of several weeks.

Miss Bettie Hoggins is visiting her sister, Mrs Alonzo Graves, of Covington.

Miss Nell Rouse, of Limaburg, was the guest of Miss Sallie Snyder, Saturday.

Ben Dulaney, jr., of St. Louis, is visiting his parents, Dr. and Mrs. Dulaney.

James Hickey, who has been working in St. Louis, is visiting his mother at this place.

G. W. Young, of Winchester, gave a lecture on Temperance at the M. E. church, Sunday evening.

Miss Nell Crigler has returned to her home after visiting her cousin, Miss Nannie Corwine, of Erlanger.

The house belonging to Frank Southter, which was destroyed by fire some time ago, is being replaced by a new one.

Miss Ida James, of Cincinnati, and Anna See, of Erlanger, are pleasant guests of Miss Maggie Conner, of this place.

Miss Carrie Clarke has returned to her home in Cincinnati, after spending several weeks with her parents at this place.

F. D. Norman, of Union, and the Misses Latham, of this place, were handsomely entertained by Miss Elizabeth Kenyon, of Cincinnati, Thursday.

PETERSBURG.—John L. Conner's daughters were visiting him Sunday.

A mad dog was killed in town on election day.

J. H. Brooks moved to Lawrenceburg, Monday.

A vicious dog bit Frank Smith's little boy through the lip.

Will Buster Gaines, of Bullittsville, was in town, Sunday.

Rev. J. A. Kirtley, Dr. Elijah Grant and A. Dean never fail to vote.

Drs. Sayre, of Hebron, and Hays, of Bullittsville, were in town, Sunday.

Dr. W. J. Windel, of Patriot, was calling on his parents here Sunday.

Fox & Coles' teams are hauling logs to our wharf to be floated to Aurora.

Geo. Lynch and wife, of St. Louis, attended the funeral of Mrs. Emma Tilley, Friday.

Fleet Hoffman has accepted a position as inspector for the Middale Cooperage Company.

A small but select audience greeted Messrs. Kersting and Jones at the opera house, Saturday night.

More excitement and gossip in this city, the past week, than ever before known in the same length of time.

Lewis (Red) Gaines is in business in Newport, and Felix, his brother, in Covington. Hope they will do well.

The inside of the Christian church is being painted, and the benches, varnished in an up-to-date style by Mr. Geissinger.

E. T. Krutz left Sunday for a three days' visit at Big Bone, after which he and his wife, who has been there for three weeks, will return home.

The Epworth League, of this place, is certainly a grand institution. The program rendered each Sunday night is instructive and highly apreciated by our people.

The door in the M. E. church should be changed to the opposite end of the building, so some of the congregation will not have to give their necks such a severe twist to see who comes in.

Quite a number here are very hopeful of receiving a prize in the Enquirer's guessing contest. Everett Helms holds the closet number, 897,978, according to late reports.—[That's n. g.—ED.]

Wm. Libbert and wife, of Dillsboro, Indiana, were visiting relatives and friends here Saturday and Sunday. Mrs. Libbert was a Miss Foster, and was born and raised near Plattsburg, this county.

Mrs. Emma Tilley died very suddenly last Wednesday Morning at 4 o'clock. She had been an invalid for nearly ten years, but bore her suffering with patience. She was a daughter of ex-State Senator Joe B. Reed, of Louisville, and was a good, christian lady. After funeral services at the M. E. church by Rev. L. N. Early, the remains were interied in the cemetery here.

MOUNDFIELD FARM.—Mrs. Jenny Aylor is reported very sick.

Henry Quick had the misfortune to loose a valuable calf, last week.

James Bullock is suffering from a bone felon on one of his hands.

Bart Aylor has two milch cows and one horse under the care of a veterinary. "Old Bunker," neighbor Jake Crigler's favorite roadster, is suffering from an attack of fistula.

Chester Davis is buying new corn in the field from Charles Scothorn—paying 60 cents per bushel.

Mrs. Whitcomb and her sons, Robert and Frank, for several years residents of Hebron have moved to Walton.

Surveyor Vest was engaged, several days last week, establishing the outside boundaries of Mr. A. G. Winston's farm.

If you have cabbage make your kraut this moon, it will get sourer and smell louder than at any other time in the season.

Harrison Clore has a cistern excavated and ready to build that would hold the State of Rhode Island as far as dimensions are concerned.

Two Automobiles from somewhere, passed through Hebron, Saturday evening late, scaring horses and people nearly out of their senses.

Some person or persons went into Oliver Dye's cellar, one night last week, and stole what canned fruit and preserves Mrs. Dye had prepared for the winter.

All 25c Pills sold at
19 Cents at
ESKEW'S, Pharmacy,
Walton, Ky.

Elzie Harper has built three large ponds or lakes on his farm and expects to irrigate his land next season should it rain sufficiently to fill them this winter.

John Ernats has returned from his trip through Indiana, and reports the persimmon crop gathered and the craw fish famished for water through parts he was in.

The Christian Endeavor Society at Hebron met at Elzie Harper's residence Saturday night for the election of officers and other business. Forty or more members were in attendance.

Doc Mannin is finding a great many dead rabbits in his cornfield since he began gathering. He thinks they killed themselves by striking the ears of corn which are quite low this season, trying to escape from Batterson's hounds that were in pursuit and could not get the rabbits owing to the corn being so thick on the ground.

WALTON.—Mrs. M. Northcutt, of 208 Pike street, Covington, had a very pleasant visit to her parents last week. It is her special delight to get into the country anyhow, but it seems intensified whenever she can be with "papa and mamma."

Dr. A. M. Jones is again very ill.

Charlie Ransler is recovering from an attack of diphtheria.

Mrs. W. M. Rogers, the mother of Miss Lizzie, has been quite ill for several weeks past.

On Wednesday the 2nd, inst., by the Rev. R. A. Mills, Miss Nellie Murphy to Mr. Everett Dixon. The Recorder tenders its congratulations and hopes that the youthful couple may have pleasant paths thru the devious ways of life.

Miss Lizzie Rogers has been appointed a teacher in the Graded School, and assumed her duties on last Wednesday morning. Miss Lizzie has had experience as a teacher and will give satisfaction—at least she has always done so wherever she has taught.

Mr. R. K. Whitcomb, having given Walton a very fair trial, moved his family last week from Hebron, and is now domiciled in the J. A. Sanders house on High street. Mr. Whitcomb is a first class tinner and says there is plenty of business here for a good workman.

MIDWAY.—W. C. Johson and Geo. Slayback are engaged building a large stock barn for G. L. Miller at Big Bone Springs.

Misses Dell and Pauline Roberts, of Verona, were visiting at the pleasant home of Miss Nell Cleek, Saturday and Sunday.

W. C. Johnson has been engaged the past three weeks threshing clover and timothy hay and baling it. He secured quite a large amount of fine seed.

Charles Rose, whose family recently moved to New Liberty, Owen county, has returned to Beaver. He will remain there where he is engaged in the barber business.

Al Underhill has purchased a nice cottage in Beaver, to which he will soon move. Al is a wholesome, good fellow, and Beaver society will gladly welcome him and his family into its midst.

F. D. Grubbs, contracting house carpenter, has the elegant residence of C. C. Siset about completed. Will Holden, an adept knight of the brush, is putting on the finishing touches of artistic painting this week.

Robert Littrell, of the firm of Littrell Bros., will soon locate in Cincinnati, where he will engage in the wholesale and retail commission business. We hope for him a prosperous business, as he is a clever accommodating business man.

Quite a number of our sporting fraternity have turned their attention to hunting, having found out that a good day's killing of rabbits yields a better profit than a day's toil on the farm. Now, alas! poor bunny, thou art all the money.

The long drouth has made people in this community resolve that they must necessarily prepare better facilities for supplying water on the farms for both stock and domestic purposes, hence the digging of large cisterns and ponds are now being discussed.

Revs. W. S. Taylor and S. M. Adams have been conducting a revival meeting, the past week, which will probably continue through the present, at the Beaver Baptist church. Much interest is being manifested and large congregations are present nightly.

Mrs. Willie Bedinger entertained quite an interesting crowd of young folks at her hospitable residence, last Friday night. There were many pretty belles and gallant beaus present from Union, Walton, Verona and Beaver. All who were fortunate enough to be present, report a good time.

T. J. Hughes, the Beaver telephone magnate, is extending his system thru the entire county, and into adjoining counties. As people become acquainted with the advantages in business communication, they readily appropriate a 'phone to their special use, and almost every home along "the line" is within speaking distance of its neighbors and friends throughout the county.

Geo. Blyth has a good cow and calf for sale.

To The Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, Ralph S. Myers, 64 Thirty-seventh St., Wheeling, W. Va. For sale by all Druggists.

Bert Persall, Co. F. U. S. 17th Inft, in a letter to the Carrollton Democrat, written in Manila, P. I., says:

"The Philippines are a bunch of trouble, death and destruction gathered together on the western horizon of civilization.

"The climate is a combustion of electrical charges, especially adapted to raising Cain.

"The soil is extraordinarily fertile in raising large crops of insurrection and trickery.

"The inhabitants are very industrious, the chief occupation being trench-building, giving poisoned water to American soldiers making bolos and knives and unloading Remington cartridges.

"The amusements for the male set are cock-fighting, monte, theft and cheating; for the females, to catch an American soldier bathing, get between him and his clothing and remain there until they are obliged to go awvy.

"Their diet consists of raw fish, dried snails, boiled rice, stewed rice, fried rice and—rice.

"The towns are an aggregation of shacks, full of filth, fleas, our dogs and corruption. The dogs, cats, chickens, pigs, monkeys, bedbugs, lice and family all sleep together on terms of equality.

"The Philippines would be an appropriate present to a deadly enemy. The native is a friend at the point of the bayonet.

"The climate is pleasant and healthy for tarantulars, roaches, scorpions, centipedes, snakes and alligators.

"The soil is adapted to raising foul odors and breeding diseases, and the islands in general are a God-forsaken, cannibalized, Aguinaldo-infected blot on the face of God's green earth."

Astounding Discover.

From Coopersville, Michigan, comes word of the discovery of a pleasant tasting liquid that when used before retiring by anyone troubled with a bad cough always ensures a good night's rest. "It will soon cure the cough, too," writes Mrs. S. Himelburger, "for three generations of our family have used Dr. King's New Discovery for Consumption, and never found its equal for Coughs and Colds." It is an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles for 50 cents and $1 at W. F. McKim's, Burlington; Union Drug Store, Union; H. L. Eskew's, Walton; O'N. Grant's, Bellevue. Trial bottles free.

FOR RENT

For one or more years, from 1st of March, 1902—Two farms now occupied by W. W. Botts, of Boone county, Ky. One of 60 acres, dwelling house, smoke house, hen-house, tobacco-stripping house, large barn, stable and corn crib, sheep-shed and about 7 acres first class tobacco ground, 15 acres of meadow, balance in grass. Will rent on shares or for cash at end of the year. The other farm has about 40 acres, all in grass, no buildings on this farm. Enquire of W. W. BOTTS on the farm or Dr. E. L. GRANT, Petersburg, Ky.

Local News.

Wheat looks bad.

The turnip crop is short.

The weather has turned considerable cooler.

Boone sent two patients to Lakeland, last week.

The beef shop has been moved into the old Sandford Hotel.

The World's best Garlands, at Hunter, Harris Co., Rising Sun, Ind.

The President has set apart the 28th inst., as a day for national thanksgiving.

The stonecrusher is doing business about half a mile out on the Bellevue pike.

There will be considerable race talk in Burlington and Petersburg, this week.

The river is so low that it would not take excessively cold weather to freeze it over.

The attorneys in the Goodridge divorce case have been busy taking depositions for several days.

Two automobiles passed through town late Saturday afternoon. They went out the Petersburg pike.

Services at the Presbyterian church every night this week. Rev. McDaneil, an able divine, will occupy the pulpit.

Have you read "Bogus Hallow," B. F. Buchanan's story of the Blue Jeans town? 25 cents and $1. On sale everywhere.

For a good, cheap sewing machine buy the New Goodrich, warranted for 10 years, of Hunter, Harris Co., Rising Sun, Indiana.

There will be services at Bullittsville christian church on Thanksgiving day. Edgar Riley will occupy the pulpit. All are invited.

Johnie Bachelor, who lives about two miles from town has lost three nice shoats and three fattening hogs of hydrophobia in the last few weeks.

Dode Pope, 24, and Miss Lonie Willitamson, 24, were married Thursday at the residence of Rev. Sproles. They were accompanied by several friends.

The funeral sermon of the late Miss Kate Kirtley, of East Bend, will be preached by Rev. S. M. Adams at East Bend Baptist church, on Sunday December 1.

In this issue, Addler, of Lawrenceburg, has a new advertisement that contains much valuable information for those who desire purchasing anything in his line.

Mr. T. B. Ferry lectured to a small crowd in the Presbyterian church, Monday afternoon. He delivered a plain, interesting talk to farmers, his remarks being based principally upon a practical experience of many years as a farmer.

Assessor Willis was at work in this precinct, last week. He is about through making this year's assessment, finishing several weeks earlier than usual. Had he not been ill for a couple of weeks in September he would now be done his official work.

LOST.—Bay horse; star in forehead, snip on nose, one white hind foot. When he moves off will pace. He goes all the gaits. Blind in left eye. I will pay anyone who will return this horse, for his trouble. Address N. W. BURKITT, Union, Boone county, Ky

Mrs. Mary Carpenter entertained at dinner Monday in honor of Mrs. Thomas Lasley's wedding anniversary. Those present were Mrs. O. P. Conner, Mrs Lewis Conner, Mr. and Mrs. William Smith, Miss Ella Tanner, Miss Codie Jurey, Mrs. Lasley and Mrs. Harvey Ingles and son.

While here last Saturday Harry Blyth made a race for next Saturday afternoon, at Lawrenceburg, between Hubert Gaines' gray mare and a bay mare belonging to J. W. Berkshire, of Petersburg. The knowing ones say it will certainly be a close finish between the two animals.

There will be a game of foot ball played at Petersburg on the afternoon of Thanksgiving day, between the Lawrenceburg team, and a picked team at Petersburg. The team that loses will pay the rent of Gordon's Hall for a big dance that will be given on Thanksgiving night.

Mr. J. J. Lillard, treasurer of the Burlington and Bellevue Turnpike Co., was in town the other day, and expressed himself as well pleased with the stone crusher the company purchased recently. It materially cheapens the stone on the pike. This machine was sold by the Hunter, Harris Co., of Rising Sun.

B. Scisbala, of Aurora, put a gun in his pocket and to Petersburg a woeing came, last Sunday. It was discovered that the gentleman from abroad was carrying a pistol. He was arrested, charged with carrying concealed a deadly weapon and brought before County Judge Roberts, Monday, when he was given a fine of $25 with an annex of 10 days' imprisonment. The imprisonment part of the penalty was suspended, however, and Scisbala returned home a wiser, and it is hoped a better man.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and can be given as confidently to a baby as to an adult. For sale by all Druggists.

Personal Mentions.

Mrs. Kate Lewis, of Norwood, Ohio, is visiting Mrs. Dudly Rouse.

James A. Riddell and wife, of Hebron, spent Sunday in Burlington.

H. W. Blyth, Petersburg's heavyweight, spent Sunday in Burlington.

W. H. Rouse, of Gunpowder, made the Recorder a call Monday morning.

Mrs Lizzie DeCoursey, of Ludlow, was the guest of her parents here, last Sunday.

H. C. Presser and wife, of Hathaway, were visiting O. J. Ryle and wife at this place, the first of the week.

Mrs. F. P. Walton, of Cincinnati, was the guest of her sister at this place from Saturday until Tuesday.

James Beall and wife, of Hebron neighborhood, united with the Bullittsville Christian church, Sunday night.

Frank Smith, one of the clever men of Petersburg, was in town, Monday, and called in to see the Recorder force.

Thos. Castleman, of Florence, was the guest of his brother, County Attorney Castleman, last Sunday afternoon.

Mr. and Mrs. Benjamin Kelley entertained a large number of young people very handsomely one night last week.

Atty. Hughes is teaching O. P. Conner to play chess. Owen is all right at checkers, but chess is somewhat a puzzler to him.

John Neal, who has been living in the Cason neighborhood for two or three years, moved to Grant county yesterday.

Uncle Frank Smith, of Union, is an enthusiastic Granger, and came over early Monday morning to be rested up and ready to hear the speeches that afternoon.

W. T. Davis, of Limaburg, sent a sample of the soil on his farm to the A. & M. College, at Lexington, last week, to have it analyzed so as to know what fertilizer to use.

Geo. Gordon came to town on the 5th inst., put his cross in the circle under the rooster, and then divided a pocket full of nice peaches among his friends. Two praiseworth acts.

Mr. Henry Terrill was in town Monday. He and his wife and daughter will leave for California to-morrow. Their many friends wish them a pleasant sojourn in the far-off West.

J. C. Revill spent several days last week at Owenton, meeting his army of old friends in Owen County. Circuit Court being in session, he met friends from every nook and corner of the county.

Ben Rue, of the Hathaway neighborhood, was in town, Monday, and had bills printed announcing his sale for the 27th inst. He will move to Cleves, Ohio. We are sorry to have Ben leave us.

Mrs. Thomas Lasley, of Livingston, Ky., and her daughters, Miss Codie Jurey, of Pewee Valley and Mrs. Harvey Ingles, of Middlesboro, are visiting Mrs. Lasley's Mother, Mrs. Mary E. Carpenter.

Miss Louise, the 18 year old daughter, of Rev. B. F. Swindler, Moderator of the North Bend Association of Baptists, died of appendicitis, last Monday. She had been ill only about three weeks, and her death came as a surprise. She underwent an operation Friday for appendicitis, which hastened the end.

Mrs. O. P. Conner gave a dinner, Sunday, in honor of Mrs. Lewis Conner's and Mrs. Thos. Lasley's birthday. Those present were Mrs. Lewis Conner, Mrs Thos. Lasley and daughter, Mrs. Mary Carpenter, Mr. Claud Carpenter, Miss Codie Jurey, Mrs. Robert Carver and daughters, and Mrs. Harvey Ingles and son.

Spreads Like Wild Fire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Bellevile, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years." You know why? Most diseases being in disorders of stomach, liver, kidneys and bowels, blood and nerves. Electric Bitters tone up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, rundown man or woman. Price, 50 cents. Sold by W. F. McKinn, Burlington; Union Drug Store, Union; H. L. Eskew, Walton; O. N. Grant, Bellevue.

Baron Takasaki, chief of the poet's bureau in the imperial palace at Tokyo, says that the emperor of Japan's love of poetry increases with years. Scarcely an evening passes that His Majesty does not compose from 27 to 30 of the 31 syllabled couplets called "Wa-ka."

There are few localities in the world with an equal range of temperature as Dawson, Alaska. It is very cold during eight months of the year and warm during the other four. During each season the temperature ranges from 80 degrees below zero to 100 degrees above.

A THRILLING SCENE.

Brilliant Argument of Schley's Chief Counsel Caused Many in Audience to Weep.

When Court Adjourned Entire Crowd Surged Forward to Congratulate Adm. Schley and Mr. Rayner.

Even Adm. Dewey and His Two Associates, Together With Capt. Lemly, Joined in the Congratulations.

Washington, Nov. 5.—The Schley court of inquiry reached the argument stage at the beginning of the afternoon session. The morning sitting was devoted to listening to Adm. Schley and Capt. Sigsbee in making corrections of their testimony, which had been given previously, and the introduction by Judge Advocate Lemly of numerous documents bearing upon different phases of the inquiry. Adm. Schley did not make any material additions to his previous statements, but devoted himself largely to the clearing up of ambiguous points in his evidence.

An effort was made to introduce two new witnesses, who were expected to give testimony in Adm. Schley's behalf concerning the controversy as to what information Capt. Sigsbee communicated to Adm. Schley when he arrived off Santiago in May, 1898. One of these witnesses was Frank B. Richards and the other George Lynch, both of New York, and both newspaper correspondents, who were on duty in Cuba and in Cuban waters during the war with Spain. Mr. Lynch was on the press boat Somers N. Smith and Mr. Richards on the Premier. They were to have testified concerning the meeting of these vessels with the St. Paul, of which Capt. Sigsbee was in command. The court, however, decided not to hear them.

The opening speech of the argument in the case was made in behalf of the government by Mr. E. P. Hanna, assistant to the judge advocate. He began his presentation of the case a few minutes after the court convened at 2 o'clock, and when the court adjourned two hours later he had not covered more than half of the ground involved in the controversy.

Washington, Nov. 6.—The time of the Schley court of inquiry was entirely devoted to hearing argument in the case of Adm. Schley. Mr. Hanna finished his argument in behalf of the government, and Capt. James Parker began, but did not conclude his presentation of the case for Adm. Schley.

Mr. Hanna considered the retrograve movement, the bombardment of the Colon and the charge made against Adm. Schley of disobedience of order. Capt. Parker had only reached the coaling question when the court adjourned. He defended the conduct of his client at all stages of the campaign, as far as he went.

Washington, Nov. 7.—The climax of the Schley court of inquiry came Wednesday afternoon when Mr. Rayner, chief counsel for Adm. Schley, concluded a brilliant argument of over three hours with a peroration so eloquent and impassioned that all within the sound of his voice were profoundly touched. This remarkable trial, he said, sought to condemn the man who had brought to a successful termination as great a naval triumph as was ever won. In vivid colors he painted the picture of the Brooklyn, with Commodore Schley on the bridge, fighting the entire Spanish fleet until the Oregon appeared out of the smoke. The thunders of the Brooklyn, music for the ears of his countrymen, he said, aroused Adm. Schley's envious foes. He pictured the victorious sailor suffering as few have suffered for three long years, while the fires of persecution leaped around him and now awaiting the hour of his vindication in the verdict of the court.

"And when it comes," he concluded, "He can, from the high and exalted position that he occupies, look down upon his traducers and maligners and with excellent pride exclaim: 'I care not for the venomous gossip of clubs, drawing rooms and cliques and the poisoned shafts of envy and of malice. I await under the guidance of Divine Providence the verdict of posterity.'"

The scene in the court room as he finished with these words was thrilling. The attendance had been large all day, and at the morning session a lady had fainted from excitement. As Mr. Rayner began his eulogy of Adm. Schley those in the audience, many of whom were ladies, leaned forward in their seats. The spell of his oratory was over them, and when he described the admiral's gallant deeds and the long persecution to which he had been subjected, many of them wept. The members of the court displayed evidence of emotion, and Adm. Schley himself was plainly moved. He sat, leaning back, with his hands behind his head. His chin twitched, and as his counsel said he could afford to await the verdict of posterity, two big tears rolled down his cheeks. He moved uneasily to conceal his emotion, and under the pretense of adjusting his glasses, brushed the tears aside. For full 30 seconds after Mr. Rayner closed there was not a sound. Then the tension broke in a loud burst of applause.

Adm. Dewey, after about half a minute, arose to remind the spectators that such a demonstration was out of place. A moment afterward the court adjourned, the judge advocate pleaded that he could not well go on Wednesday. Then another remarkable thing happened. As soon as the gavel fell the entire audience surged forward to shake the hands of Adm. Schley and Mr. Rayner. But the on-coming spectators fell back a moment as they saw Adm. Dewey and his two associates move around the table, as if by a common impulse, and congratulate Adm. Schley and his counsel. Even Capt. Lemly, the judge advocate, came forward to join in the congratulations. Then the public had its inning, and for 15 minutes after the court adjourned Adm. Schley and Mr. Rayner were kept busy shaking hands.

Washington, Nov. 8.—After sittings covering 40 days, and with a record which, when completed, will cover about 2,000 pages, the Schley court of inquiry, at 3:45 p. m., adjourned its last public session. To Capt. S. C. Lemly, the judge advocate, had been assigned the duty of making the closing argument in the case. Soon after he had completed his speech, Adm. Dewey, bringing his gavel down upon the big, flat table, said:

"There being no further business, the court is adjourned."

There was only one session during the day. It began at 2 o'clock, and the entire time was devoted to Capt. Lemly's address. He read his speech in clear and distinct tones, and was given careful attention. The speech in the main was an analysis of the testimony, but occasionally a conclusion was drawn and frequently there was criticism of the course pursued by Adm. (then Commodore)) Schley.

THEY WANT SCHLEY.

The Admiral Will Be Invited to Indianapolis By the Governors of the Board of Trade.

Indianapolis, Nov. 6.—Adm. Schley will be invited to Indianapolis. It was so decided by the governors of the board of trade, and they will extend an invitation to that distinguished officer to become their guest. He will be the guest of honor at a great reception in Chicago after the court of inquiry has completed its work, and it is hoped that he will accept an invitation to this city about the same time.

The governors decided to send the invitation for November 21 or such early date as would suit his convenience. The occasion will be made a public one and everybody will be invited to a reception at the state house. The railroads will be asked to grant special rates from all points in the state.

Schley Going to Memphis.

Washington, Nov. 8.—Adm. Schley expects to make a visit to Memphis, Tenn., in January, at a date to be determined later, when he is to be presented with a silver service by the people of Memphis.

Schley Invited to Vicksburg.

Vicksburg, Miss., Nov. 9.—A telegram was addressed by Mayor Trowbridge to Mr. Adm. Schley, inviting him to visit this city on the occasion of his trip to Memphis in January.

THEATER BURNED.

The Lyceum, Atlanta's Vaudeville House, in Ruins—Two Men Were Badly Injured.

Atlanta, Ga., Nov. 7.—The Lyceum theater, Atlanta's vaudeville house, was destroyed by fire Wednesday afternoon. A huge electric sign across Edgewood avenue, in front of the playhouse, collapsed and fell to the street at 2:40 p. m., causing a small fire by the crossing of wires in the theater. To avoid a panic the audience was dismissed a few minutes before the department arrived. One hour later flames burst from the roof and were soon beyond control. About ten vaudeville actors, including Carroll Johnston, the minstrel, lost their wardrobes. All the scenery was burned. Fred Jones, a fireman, and Roy Denner, an electrician of the theater, were badly injured.

Transfer of Army Officers.

Washington, Nov. 8.—On the recommendation of Gen. Gillespie, chief of engineers, Maj. Charles P. Powell, stationed at Pittsburg, will be transferred to the station at New London, Ct. He will be relieved at Pittsburg by Capt. Wm. L. Sibert, now at Louisville, Ky. Maj. E. H. Buffner, at Cincinnati, in addition to his present duties, will assume charge of the station at Louisville.

Army Order Changed.

Washington, Nov. 8.—Orders have been issued at the war department directing that a battalion of the 28th infantry sail on the Roseerans instead of the Warren, as heretofore ordered, the latter ship having met with accident in the Japan inland sea. The Roseerans will go to Portland, Ore., to take the battalion and recruits from Vancouver barracks.

Assassinated on the Highway.

Tallahassee, Ala., Nov. 8.—Giles Enffinger, a young white man, was assassinated about two miles from here while walking along the road. Jesse Davis, a Negro, is suspected of having committed the crime. A posse is now searching for the Negro, and if captured, a lynching may follow if his guilt is established.

Rural Free Delivery Service.

Washington, Nov. 8.—The statistics of the growth of rural free delivery service show that on December 2 next there will be 6,000 carriers throughout the country, traveling a total mileage aproximating 147,220 miles daily.

PEACE NOW PREVAILS.

France Has Received Full Satisfaction From Turkish Government.

The Franco-Turkish Dispute Is Now at An End—An Irade to This Effect Has Been Issued By the Sultan.

Paris, Nov. 11.—The French foreign office has announced that the sultan has signed an irade for the execution of his engagements with the French government, and that the Franco-Turkish dispute is now at an end. Tewfik Pasha, Ottoman minister of foreign affairs, wrote a letter to M. Bapst, councillor of the French embassy in Constantinople, notifying him of the signing of the irade, which, while settling the original French demands, accepts the fresh demands as set forth in a dispatch to the Temps from Constantinople Friday, together with an additional clause by which the sultan pledges to consider as authorized in full right the foundations, extensions, constructions and repairs of the schools and religious and hospitable establishments which France may desire to carry out if the porte is advised of her intentions and makes no objection within five months.

France has thus far received full satisfaction, and M. Delcasse, on the receipt of M. Bapst's dispatch, telegraphed him to inform Tewfik Pasha that diplomatic relations had been resumed, and that M. Bapst should consider himself as regularly charged with the affairs of the embassy.

Instructions were also sent to Adm. Caillard at Mitylene to re-embark the marine and to return to Greek waters, which is understood to mean the vicinage of the Island of Syra.

CREATED EXCITEMENT.

The United States Government Insists Upon Mediating Between Venezuela and Colombia.

Willemstad, Island of Curacao, Nov. 11.—Advices received here from Capacho Viejo, dated November 5, say that the report from President Castro to his brother, Celestino Castro, at San Cristobal, to the effect that the United States government "insists upon mediating between Venezuela and Colombia," caused the greatest excitement among the troops on the frontier. Gen. Uribe Uribe and Gen. Modesto Castro immediately set out for San Cristobal to obtain details.

It seems that Gen. Uribe Uribe refused to believe the report, declaring that he had no fears as to the future of the liberal cause, because President Castro had given him a cast-iron pledge not to forsake him.

"Should President Castro prove untrue to the liberal cause," exclaimed Gen. Uribe Uribe, "the result would be his ruin. The war will enter Colombia before Christmas."

There is considerable feeling against the Castro family among the Colombian liberals, and along the frontier, in consequence of a widespread rumor that Celestino Castro, who is commander-in-chief at San Cristobal, has been privately selling cattle to the enemy, the cattle being whisked across the frontier by means of alleged raids of Colombian conservatives. During one of these raids a dozen soldiers were killed on both sides. It is said that the cattle changed hands at a prearranged price of $30 per head. The blood thus spilled is charged directly to Celestino Castro by the indignant people of Tachira.

From San Cristobal Gen Uribe Uribe proceeded to Maracaibo.

INSURGENT LEADER LUKBAN.

He Will Not Surrender Until All of the Americans Are Withdrawn From Gandara.

Manila, Nov. 11.—According to advices from Catbalogan, capital of the Island of Samara, Lukban, the insurgent leader, has sent a message to Gen. Smith declaring that he will not listen to negotiations until all the Americans have withdrawn from the Gandara valley.

Gen. Smith has ordered every American soldier in the Island of Samara and the Island of Leyte never to be without arms, even at meal times. He is determined that there shall be no more surprises, and commanding officers will be held responsible. Gen. Smith also directs that scouting must continue incessantly, and that all rice and hemp captured must be destroyed. He considers the capture of Lukban only a question of a very short time.

Disqualified For Life.

Paris, Nov. 11.—C. T. ("Boots") Durnell, the American jockey and trainer, has been disqualified for life by the Jockey club on the ground that he deliberately remained at the post at St. Cloud, October 28, when he rode Londres in the Prix de Marly-le-Roi.

Engineer Killed.

Paola, Kan., Nov. 11.—A Missouri Pacific train crashed into a freight car at the Missouri, Kansas & Texas crossing, near here, late Saturday night, killing Engineer Bowers, of St. Louis, and seriously injuring the fireman.

New Railroad Project.

Chicago, Nov. 10.—Chicago & Northwestern railway has completed a deal by which it will absorb the Chicago, Peoria & St. Louis line and thus gain an entrance into the desirable St. Louis territory.

Avoid the Alligator.

He was evidently from the country, this little old German, and as his eyes rested on the elevator, undoubtedly for the first time, his sense of the ridiculous was touched.

For a few minutes he stood in wonderment and then, laughing softly to himself, he stopped the first person he chanced to see, who happened to be the janitor, and fired this at him: "Vat was dot leedle box t'ing vat valks people oop der stairs stooden still?"

"Oh, that's the elevator," was the answer.

"Oh, dat's vat idt is, is idt? I haf a pocketbook made offen der peel uf one uf doze." He tried a ride, but didn't like it. Then he said:

"I vould told my wife nefer to go in mit von uf dos alligators ven der valking by hand vas goot."—N. Y. Post.

Persons contemplating a journey East or West should be careful that the rates paid for their transportation do not exceed those charged by the Nickel Plate Road.

This company always offers lowest rates and the service is efficient. Careful attention is given to the wants of all first and second class passengers by uniformed colored attendants. The dining car service of the Nickel Plate Road is above criticism and enables the traveler to obtain meals at from thirty-five (35) cents to $1.00 but no higher.

The Pullman service is the usual high grade standard. Semi-weekly transcontinental tourist cars ply between Atlantic and Pacific Coasts. Confer with nearest agent of the Nickel Plate Road.

Poor Champleigh.

"Why, pa, this is roast beef!" exclaimed little Willie at dinner on the evening when Mr. Chumpleigh was present as the guest of honor.

"Of course," said the father. "What of that?"

"Why, you told ma this morning that you were going to bring a 'mutton-head' home for dinner this evening."—Philadelphia Press.

Made for Each Other.

Edith—I hear that you and Fred are quite interested in one another.

Bertha—Don't you tell a soul, Edith, but really I believe Fred and I were made for each other. We have played golf together three times, and we never have quarreled—except two or three times when Fred was clearly in the wrong.—Boston Transcript.

Information Wanted.

Miss Citybred—What are those queer-looking animals?

Farmer Hayrix—They are the cows that supply us with milk and cream.

"Oh, are they? And where are the cows that give the beef tea?"—Chicago Daily News.

Strong Men.

Miss Touriste—You have some strong and rugged types of manhood out in this western country?

Stage Driver—Yaas, miss, we hev men out here thet don't think it's nuthin' t' hold up a railroad train.—Ohio State Journal.

Truth in Advertising.

Mr. Gettit—Well, that place where we boarded this summer advertised the truth, anyway.

Mr. Hazzit—Indeed? That was a novelty.

"Yes, sir; it advertised: 'Summer boarders taken in.'"—Detroit Free Press.

From Experience.

"Paw's weather-grips are felt," said Bessie, as she examined the floor.

"So are his shingles," sobbed Tommy, who had been caught smoking in the woodshed.—Chicago Daily News.

That Settled It.

Brinkerhoff—I thought you intended to become a piano virtuoso.

Beerolt—I did; but my barber says that I will be prematurely bald.—Brooklyn Eagle.

Just a Beginner.

She—Has she many friends in society?

He—Oh, yes; she hasn't been in long, you know.—Smart Set.

Teacher—"Yes, 'revive' means to 'come to.' Now make a sentence containing that word." Bright Boy—"If one apple costs three cents what'll four apples revive?"—Philadelphia Press.

Foreigner—"In American politics I understand the office seeks the man." American—"That's all wrong! A representative American wouldn't have an office that sought him."—Ohio State Journal.

Some people are so two-faced that they deceive themselves.—Atchison Globe.

In driving storms the clouds hold the rains.—Philadelphia Record.

A miser is known by the money he keeps.—Chicago Daily News.

"Straws Show Which Way the Wind Blows,"

and the constantly increasing demand for and steady growth in popularity of St. Jacobs Oil among all classes of people in every part of the civilized world, shows conclusively what remedy the people use for their Rheumatism and bodily aches and pains. Facts speak louder than words, and the fact remains undisputed that the sale of St. Jacobs Oil is greater than all other remedies for outward application combined. It acts like magic, cures where everything else fails, conquers pain.

Comforting Improvement.

Pinchbeck—Ah, doctor! I see you continue your visits to my neighbor, Guffinger; how is he, by the way, this morning?

Doctor—I am glad to be able to report a noticeable improvement in his case.

"Indeed! Is he able to do anything yet?"

"Yes, indeed! He was able to pay his bill yesterday, and that's a marked improvement, as compared to the bulk of my patients."—Richmond Dispatch.

He Evenped.

Thingumbob—I thought you said you saw Borem first in Europe last summer.

McJigger—Well?

"Well, he says he's known you for years; besides he says he didn't see you at all when he was in Europe last summer."

"Exactly; because, as I told you, I saw him first there."—Philadelphia Press.

Don't Pay for Another's Dinner.

"Order what you want; pay for what you order," is the unique way in which the Lackawanna Railroad is advertising its new dining-car service. The aptness of the phrase is apparent when it is understood that the traveler may order from the most complete menu, and yet pay for nothing he does not want. In addition, low-priced club meals are served individually from 35 cents to $1.00, so that table d'hote and a la carte features are virtually combined. All through trains to Buffalo, Chicago and St. Louis are equipped with dining-cars, and the service is admitted to be second to none in the world.

Recalls Famous Cures.

Small doses of fine, dry sand are the latest freak "remedy" for dyspepsia. Somehow this specific recalls the remark of a distinguished American that six feet of gravel is the only cure for hay fever.—Norfolk Reflector.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

Hard to Identify.

"That is Jimmy's hair," said the Football Player, laying out his trophies after the game, "and this is Billy's nose, and this is Tom's ear, and this eyebrow belongs to young Rusher, but I can't identify this finger to save me."—Baltimore American.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

Only Half the Battle.

Brown—Are you anything of a linguist?

Jones—Well, I can read and understand French, German, golf, yacht, baseball, and football; but I can't talk 'em.—Detroit Free Press.

We promise that should you use PUTNAM FADELESS DYES and be dissatisfied from any cause whatever, to refund 10c. for every package.
Monroe Drug Co., Unionville, Mo.

A third person always tells.—Atchison Globe.

Mrs. Kate Berg, Secretary Ladies' Auxiliary of Knights of Pythias, No. 58, Commercial Hotel, Minneapolis, Minn., After Five Years Suffering Was Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Whatever virtue there is in medicine seems to be concentrated in **Lydia E. Pinkham's Vegetable Compound.** I suffered for five years with profuse and painful menstruation until I lost flesh and strength, and life had no charms for me.

Only three bottles of your Vegetable Compound cured me, I became regular, without any pains, and hardly know when I am sick.

Some of my friends who have used your Compound for uterine and ovarian troubles all have the same good word to say for it, and bless the day they first found it."—MRS. KATE BERG.

$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. **Lydia E. Pinkham's Vegetable Compound** at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address Lynn, Mass.

THE STATE ELECTIONS

The Republican Plurality in Ohio Beats All Records For an "Off Year" in the State.

IOWA GOES REPUBLICAN BY 90,000.

The Result in the Legislative Contest in Maryland Was Almost Without a Parallel.

The Kentucky Legislature Will Be: Senate, 25 Dem., 13 Rep.; House, 13 Dem., 20 Rep., 1 Ind. Dem. —Other States.

Columbus, O., Nov. 7.—With almost complete returns in Wednesday night, it is noted that the republican plurality beats all records in "what had become known as the quadrennial "off year," and with two exceptions the records of other years, in the "off years" or those following a presidential election, the democrats have carried Ohio, the exceptions being in 1881 after the death of Garfield, and in 1885 and 1889, after the Cleveland elections. In two of these three exceptional years, the president was a democrat and those was considered "off years" for the democrats. With the single exception of Hoadley, in 1883, the democrats never elected a governor of Ohio in any other than a "presidential year" since the republican party started, and then they won on a local issue of liquor taxation.

Wherever local issues were paramount this year the republicans sustained losses, notably at Columbus, on account of local option, and at Cleveland, on account of Mayor Johnson's agitation of "taxation inequalities." Where no such conditions were confronted, the republicans made gains and they carried some democratic counties that were never before represented by republicans. The state was carried on national issues involving in the support of President Roosevelt and the indorsement of Senator Foraker for re-election. In interviews Senator Hanna, Gov. Nash and Chairman Dick on the republican side, and Col. Kilbourne, Chairman Daugherty and Secretary Gillum on the democratic side, agree that the result was due to the indorsement on national affairs, and none of these six leaders or others in interviews on the result ascribe the silver question as a factor in the figures.

Late Wednesday night Chairman Dick, of the republican state committee, had the returns from the 86 counties in Ohio with only two missing, and the two missing counties were estimated. The newspaper reports with the following results:

Sixty-two counties have republican pluralities aggregating 90,840. Twenty-six counties have democratic pluralities aggregating 23,179, making the plurality of Nash over Kilbourne, for governor, 67,-661, and approximating 60,000 majority for other candidates on the republican state ticket. The total vote will not exceed 900,000, but it will not be known accurately till the vote is counted officially. The plurality for Gov. Nash exceeds that of two years ago when he was elected by 49,623, and the average plurality of the candidates on the republican state ticket greatly exceeds that for governor last year when McKinley and Roosevelt had a plurality in Ohio of 69,930.

The republicans elected 88 representatives and the democrats 42. The state senate stands 27 republicans and 12 democrats. The republican majority on joint ballot for United States senator is 35. The official vote will not change these figures on the political complexion of the legislature, but the republicans say they expect the official count slightly to increase their plurality on the state ticket.

Cleveland, O., Nov. 7.—The democrats won a sweeping victory in Cuyahoga county Tuesday. Every candidate on the democratic ticket with the single exception of E. F. Hatfield, for the short term judgeship—was elected by a safe, and, in many instances, a rousing majority.

George C. Phillips, the republican candidate for common pleas judge, short term, was elected by a plurality of about 3,500.

For governor, Kilbourne, dem., ran away behind his ticket. His plurality in Cuyahoga county is 236, while the democratic candidate for lieutenant governor led his republican opponent about 2,000 votes.

From the Different Cities.

Cincinnati, Nov. 6.—The entire republican ticket was elected in Hamilton county by majorities ranging from 4,000 to 5,000. Considerable interest was made against County Auditor Lewis for re-election, but while he ran behind his ticket, he still outstripped his opponent by several thousand votes.

Columbus, O., Nov. 6.—Complete returns from the city of Columbus give Nash, rep., 13,762; Kilbourne, dem., 15,-019. Kilbourne's plurality, 1,257. Nash carried the city two years ago by 1,500. Kilbourne's plurality in Franklin county is about 3,000. The democrats have certainly elected two senators and two out of four representatives in Franklin county. The remaining two representatives are in doubt.

Fremont, O., Nov. 6.—Unofficial returns from Sandusky county give Nash the county by 700 votes, a democratic falling off of about 1,400 and a republican gain of 600 or 700. The republicans have also elected their candidate for the legislature and claim the entire county ticket.

Zanesville, O., Nov. 6.—Nash carries Muskingum county by 600, a gain of 750 over two years ago.

Sandusky, O., Nov. 6.—Nash's plurality in Erie county is 422; republican loss 250. Republican representative is elected by S. Judson, rep., elected senator by 600 or more, a gain of one senator.

MARYLAND.

Returns Indicate the Republicans Will Be Able to Organize the House—Senate Democratic

Baltimore, Nov. 7.—Returns received in this city up to midnight and including every county in the state, partly official and partly unofficial, indicate the result of the legislative contest which is almost without parallel in Maryland. The most careful estimates and calculations give the democrats 48 delegates and seven newly elected senators, which, combined with the ten who hold over in the senate, assures the friends of Mr. Gorman a total of 63 on joint ballot. The republicans, it appears, have elected 49 delegates and six senators, which added to their three hold over senators, gives them a total of 58 on joint ballot. These figures indicate that the republicans will be able to organize the house of delegates.

The situation in Baltimore city is a peculiar one, in that the returns in the Second legislative district are in such an incomplete state as to make the result there uncertain as to two legislative candidates. The election judges in two precincts became involved Tuesday night in a controversy over the rejection of several ballots and finally locked the ballots and the poll book in the ballot box and turned them over to the supervisors of election with the statement that they declined to sign the return, and as the democratic candidates lacks but 97 votes of election and another needs but 193. The republicans seem inclined to concede the election of the first mentioned when the returns are in from the two missing precincts, but assert that the other will be beaten.

One of the surprises of the day was the close vote in Allegany county, heretofore safely republican by majorities ranging from 1,500 to 2,000. The democrats have elected their senator and one republican in that county, and the result as to the remaining four delegates is close. St. Marys county, which had been considered doubtful, has gone solidly democratic, and Washington Wilkinson, one of the picturesque figures o the republican side of the senate, is relegated to private life.

NEW YORK.

The Democratic Anti-Tammany Forces Will Rehabilitate the Party in Greater New York.

New York, Nov. 7.—Mr. Seth Low, mayor-elect of Greater New York, is receiving congratulatory telegrams.

In commenting on the election the Times Thursday says: "One of the results will be the immediate attempt of the democratic anti-Tammany forces to rehabilitate the party in this section, to bring this about ex-Senator Jacob A. Cantor, president-elect of the borough of Manhattan, favors, if necessary, the revocation of the charter of the Tammany society. The Greater New York democracy purposes to undertake the reorganization of the democratic party here and to make the effort forthwith to secure, to the exclusion of Tammany, recognition at the state and national conventions. The first steps in this movement will be taken at a meeting to-morrow night which will be attended by representatives of all democratic bodies opposed to Tammany hall."

John McCullough, state superintendent of elections, asserted Wednesday night that in spite of all the precautions taken to prevent violations of the election law and all the work done by the bureau, he believed that at least 10,000 illegal votes had been cast in this city Tuesday.

Complete unofficial returns from every district of Greater New York give:

Seth Low, fusionist candidate for mayor, 294,992.

Edward M. Shepard, democratic candidate, 268,128.

Low's plurality, 29,864.

Edward M. Grout, fusionist candidate for controller, received 299,713 votes, and William Laddy, his democratic rival, 254,-737, making the plurality of the fusionist 44,976.

Unofficial returns from every election district in New York give Low 90,000 and William Travers Jerome, fusionist, a lead of 15,380 over Henry W. Unger, democrat, in the race for the district attorneyship.

IOWA.

Ultimate Official Returns Will Give A. B. Cummins, Rep., For Governor, About 90,000.

Des Moines, Ia., Nov. 7.—Wednesday's returns from the county auditors of Iowa indicate that the ultimate official vote will give A. B. Cummins, the republican governor-elect, something 90,000 plurality. Four-fifths of the counties have been officially heard from, and a conservative estimate of the remainder as certain.

Official returns from 1,000 precincts give Cummins 231,492, Philips 145,061, Cummins' plurality, 86,428. The returns on legislature are not complete, but the republicans have surely the same good gain and increase their already large majority by eight or ten.

Dubuque, Ia., Nov. 7.—For the first time in the history of Dubuque county since it was admitted as a state the democratic party has been routed. The party has only saved two of its candidates—Fruehauf, representative to the state legislature, and coroner. Dubuque is the banner democratic county in Iowa.

PENNSYLVANIA.

Practically Complete Returns Give Harris, Rep., For State Treasurer, 52,360 Plurality.

Philadelphia, Nov. 7.—Practically complete returns from the state give Harris, rep., for state treasurer, 52,360 plurality, and Potter, rep., for supreme court judge, 47,939 plurality. The official totals from all the counties in which the returns are incomplete Wednesday night will not materially alter the foregoing pluralities.

A number of counties have not yet completed the returns of the vote on the proposed constitutional amendments providing for changes in the ballot law, but the figures received from two-thirds of the state indicate that the amendments are carried by a big majority, although the aggregate vote on this question will far below that cast for the state candidates.

The total vote cast in the state will approximate 850,000. The total vote cast last year was 1,173,210. Two years ago the total vote was 790,501.

KENTUCKY.

Louisville, Ky., Nov. 7.—Returns up to 12:30 indicate that the next general assembly in Kentucky, which will elect a United States senator, will stand:

Senate, 25 democrats; 13 republicans.

House, 71 democrats; 26 republicans; 1 independent democrat.

In the city elections in Louisville, Lexington, Paducah, Frankfort and other towns of the central and eastern parts of the state the democratic nominees were successful.

Middlesboro, Ky., Nov. 8.—Col. David G. Colson, former congressman from the Ninth congressional district, was elected to the general assembly of Kentucky by a large majority. Colson is a republican. H. H. Wilson, rep., was elected to represent Knox and Whitney counties in the Kentucky legislature. C. H. Durham, dem., was elected county clerk of Bell county.

MASSACHUSETTS.

Boston, Nov. 7.—Revised and corrected returns from the entire state of Massachusetts show that Governor Crane has a plurality of 70,116 votes. Revised returns for the legislature show that the political complexion will be as follows: Senate, 33 republicans; 7 democrats. House of representatives, 145 republicans, 73 democrats, 2 social democrats. This is a gain of 2 republican senators and a loss of 15 republican representatives.

NEBRASKA.

Omaha, Neb., Nov. 7.—Returns from the state indicate that the women cast a heavy vote, a greater part of which went to the fusionists, who represented the anti-machine element. The latest returns do not indicate a change in the apparent result from Tuesday's election. Sedgwick, rep., is probably elected supreme judge by a majority of from 5,000 to 8,000.

MISSISSIPPI.

Jackson, Miss., Nov. 7.—Returns received from Tuesday's election from 51 counties show that Power had 4,033 votes; George, 1,625; Quinn, 1,520; Eckford, 900, and Dial, 715, for secretary of state. Carlisle has 4,500 and Evans 3,300 for treasurer. It is not believed the lead can be overcome. All the candidates are democrats.

COLORADO.

Denver, Col., Nov. 7.—In the election of county officers Tuesday in Colorado, the republicans won in four of the large counties, except Arapahoe. The democrats carried Teller county. The republican ticket in Pueblo, El Paso, Lake, Jefferson, Boulder, Larimer, Gilpin and La Plata counties. In many counties the result is mixed.

RHODE ISLAND.

Providence, R. I., Nov. 7.—Complete returns from the 139 districts in the state give Gregory, rep., for governor, 26,242; Garvin, dem., 19,852; Gregory's plurality, 6,389, as against 8,889 last year.

In the senate the republicans have elected 31 members, the democrats 7, and in the house the proportion is 51 republicans to 4 democrats.

VIRGINIA.

Richmond, Va., Nov. 7.—Official and unofficial returns of Tuesday's election do not change the figures already given except to increase the democratic majority on the state ticket. It will probably run to 30,000. The republicans gain two senators and eight members of the house, leaving both branches of the legislature overwhelmingly democratic.

CONNECTICUT.

New Haven, Ct., Nov. 6.—Connecticut chose delegates to the first constitutional convention to be held in the state since 1818. Of the 168 towns in the state, it have been heard from, showing that republican delegates were elected 94 to democrats in 44 and citizens or non-partisan candidates in 10.

SOUTH DAKOTA.

Sioux Falls, S. D., Nov. 6.—The vote was light over the state, only circuit judges being elected. The republicans elected all eight judges, but two democrats claim the election of Bennett in the Third and McGee in the Seventh.

U. S. CONVICTS ESCAPE

In a Fight With a Posse Two Were Killed and Two Wounded.

None of the Pursuing Party Were Hurt—Seven More Men Were Captured in Different Places Without Resistance.

Leavenworth, Kan., Nov. 8.—One man was killed, three others dangerously wounded, and 26 desperate convicts are at large as a result of a mutiny late Thursday afternoon at the site of the new United States prison, two miles southeast of here, where 400 prisoners from the federal prison, in charge of 30 armed guards, were at work.

Most of the escaped men are from Indian Territory.

Leavenworth, Kan., Nov. 9.—Eleven of the 26 convicts who escaped from the stockade of the new federal prison here have been accounted for. Two of the five are dead. The fourth, Willard Drake, white, aged 19, is wounded and recaptured, and the fifth, Fred Moore, aged 16, a Negro, recaptured, also wounded. The five men were discovered in the barn of Fay Welshaar, a quarter of a mile from Nortonville, Kan.

Two more convicts, Donald Norie and R. L. Davenport, were captured in a field two miles north of Jarbalo. They were hiding in a ravine, and, being unarmed, they surrendered without resistance.

Two more were captured in Topeka.

Topeka, Kan., Nov. 11.—Sheriff Cook, of this county, and Deputy Sheriff Williams were captured by two escaped convicts from the Fort Leavenworth military prison Sunday afternoon at Pauline, five miles south of Topeka, and held prisoners in the farm house of a man named Wooster for several hours. They both finally escaped. Both are slightly wounded. Wooster was badly wounded by one of the convicts when he tried to fire on them. Sheriff Wooster and Sheriff Cook were held before the convicts as a shield by the prisoners in making their escape. A posse is in pursuit.

At 2:30 Sunday afternoon some farmer boys near Pauline learned that the convicts were in the neighborhood. Hastily forming a posse, armed with target rifles, pistols and clubs, they gave chase. Neither of the convicts were armed, and they were unable to make a stand. Later Sheriff Cook and Deputy Williams arrived. Coming upon the convicts both officers fired, wounding the men, but not disabling them.

The convicts then fled through a small opening in the timber and ran into the house of Farmer Wooster. Sheriff Cook telephoned to Topeka for assistance, and then took up the chase. Thinking the convicts had run around the house, Cook darted through the door, intending to surprise them at the rear door. But instead of this the convicts had gone into the house and the officer almost fell into their arms. Sheriff Cook was ordered to give up his gun, which he did. Deputy Williams by this time had reached the house and entered without knowing what had happened inside, and he, too, was made captive by the convicts.

USED GASOLINE.

Two Children Burned to Death, and Father and Son Seriously, But Not Fatally, Burned.

Minone, Ill., Nov. 11.—In a fire which Sunday destroyed the home of Joseph Tomashiski, a Polish miner, his 13-year-old daughter and 11-year-old son burned to death. The father and another son, aged 7 years, were seriously, but not fatally, burned. The fire followed an attempt on the part of Tomashiski's daughter to start a blaze in the kitchen stove with gasoline.

American Schooner Seized.

London, Nov. 11.—The Exchange Telegraph Co. has received a dispatch from Lisbon announcing that a Portuguese gunboat has seized the American schooner Nettie and Lottie at Horta, Island of Fayal, the Azores, for clandestinely conveying 26 emigrants who were trying to avoid military service.

Death of Paul Revere.

New York, Nov. 11.—Paul Revere, vice president general of the Sons of the American Revolution, died Sunday at Morristown, N. J., aged 45. He was a son of Gen. Joseph Warren Revere, who fought in the Seminole and civil wars, and a great grandson of Paul Revere, of revolutionary fame.

Killed By a Fist Blow.

Enid, O. T., Nov. 11.—Joseph Carter, aged 22, killed Ed Campbell, aged 44, with a fist blow over the heart. Both were farmers. Campbell had threatened Carter with a knife and finally challenged him to a fist fight. Carter felled Campbell with a single blow, and death resulted almost immediately.

Death of Mother Dickerdyke.

Bunker Hill, Kan., Nov. 9.—Mother Dickerdyke, famous for her work among union soldiers during the civil war, died here, aged 84 years. Funeral services will be held Sunday, and on Monday the body will be taken to Galesburg, Ill., for burial.

Under Assumed Name.

New York, Nov. 9.—Alexander Senna is in prison here charged with a series of alleged swindling stock operations under the name of M. F. Phillips. Out-of-town customers were caught.

A SUSPECTED ROBBER.

John Rose, Under Arrest in St. Louis, Identified as H. Longbaugh, a Western Desperado.

St. Louis, Nov. 9.—John Rose, the man suspected of the robbery of an express car on the Great Northern railroad, near Wagner, Mont., July 3, last, and who was arrested in this city by detectives on Tuesday, has been identified as Harry Longbaugh, a celebrated western desperado. The identification was made by a St. Louis man, who desires his name withheld. He was prosecuting attorney of Cook county, Wyoming, in 1887, and prosecuted Longbaugh in that year on a charge of horse-stealing. Longbaugh was convicted and sentenced to 18 months in jail. The ex-prosecuting attorney described to Chief Desmond the distinguishing marks of the Longbaugh of 1887, and as these are all found upon Desmond's prisoner, he is satisfied that he has the bandit properly identified.

Chief of Detectives Desmond said he would, if necessary, send for one of the officers of Wagner, at the department's expense, to come here and identify Longbaugh.

Hot Springs, Ark., Nov. 9.—Harry Longbaugh and another man, the former now under arrest with a woman, Laura Burlhon, in St. Louis, suspected of connection with the gang that robbed the Great Northern express car last July, and on whom much of the unsigned stolen money was found, are believed to be the persons who flooded this city with the Helena, Mont., bank notes.

It is claimed that Longbaugh, while here, had his hair, eyebrows and moustache dyed by a barber.

Longbaugh is thought to have left here Wednesday or Thursday of last week, but the other man was seen on the streets here as late as Tuesday evening. The officials of the bank here estimate that no less than $35,000 of the stolen bank notes was left in this city. Every day somebody brings one or more of the bank's notes to deposit. A farmer received one from a prominent merchant in part payment for a bale of cotton.

CALLAHAN NOT GUILTY.

Acquitted of the Charge of Perjury in His Trial in connection With the Cudahy Kidnaping.

Omaha, Neb., Nov. 9.—The jury in the case of James Callahan, after being out 36 hours, brought in a verdict, finding the defendant not guilty, and the prisoner was discharged. This is the latest chapter of the mystery surrounding the kidnaping of Eddie Cudahy, son of E. A. Cudahy, the millionaire packer, and this is practically the second time Callahan has been acquitted of the kidnaping charge. Callahan was first tried about nine months ago on a charge of robbery, there being no statute in Nebraska making kidnaping a violation of the law. Acquitted of this charge, Callahan was then tried on a charge of perjuring himself in the robbery trial, and again acquitted.

GOV. HUNT'S TRIP.

Delighted Over the Spirit of Co-Operation He Found in the Various Sections of Porto Rico.

San Juan, P. R., Nov. 9.—Gov. Hunt has returned from his tour of the islands. He expressed himself as delighted with the spirit of co-operation which he found throughout the various sections of the country and the increased hopefulness of the people. He reports that the crops indicate a heavy sugar production and a large yield of coffee. Improvements in municipal arrangements are also noticeable, and intense interest was shown in education wherever he went. There was a demand for more schools. Fifty thousand pupils are attending schools, and 200,000 are unable to obtain tuition.

FREE MILLING GOLD ORE.

Ledge Struck at Helena, Mont., While Grading For a Federal Building Foundation.

Helena, Mont., Nov. 9.—A ledge of free milling gold ore was struck while grading the foundation of the United States federal building, which is now under construction. The ledge is a very strong one of iron stained quartz, containing free milling gold. The government, when letting the contract for the government building, stipulated that any finds of mineral made by the contractors should go to the government.

Indian Mounds Opened.

St. Louis, Nov. 9.—Two of the Indian mounds on the World's fair site in Forest park were opened under the direction of Prof. D. I. Bushnell, the well known archeologist. In one mound were found the skulls and fragments of five human beings in a very bad state of preservation. Mixed with the bones were pieces of pottery. Nothing else was discovered in the mounds.

Negotiating For Steamers.

London, Nov. 9.—The Berlin correspondent of the Daily Mail gives currency to a report that Herr Albert Ballin, of the Hamburg-American line, is in London negotiating for the sale of 18 steamers to J. Pierpont Morgan.

Mother and Babe Burned.

Ripley, W. Va., Nov. 9.—A little child of Ed Fisher caught fire and was fatally burned. The mother in trying to rescue the little one was also fatally burned. Both died a few hours later.

THE BRIGANDS HIDING.

Captors of the American Missionary Have Fled to the Frontier.

Miss Stone May Be Killed as Soon as the Ransom Is Paid to Prevent Her Telling Her Experience.

Sofia, Bulgaria, Nov. 11.—Information has been received here from Dedeagatch that the band of brigands holding captive Miss Ellen M. Stone, the American missionary, called about a fortnight ago at the village of Smeizro and subsequently proceeded to the monastery of Rilo, but the movements of the troops compelled the brigands to flee toward the frontier, where they are now in hiding. It is also asserted that brigands have recently been treating Miss Stone with more severity in order to exercise pressure and to compel a more ready acceptance of their conditions.

Consul General Dickinson is inflexible. He insists that the surrender of Miss Stone must precede or be simultaneous with the payment of the ransom. His attitude is justified by the known determination of some members of the band, particularly the captain, Yanne Sandansky, to kill Miss Stone and her companion as soon as the ransom is received, owing to the fact that the captives have now acquired information concerning the secret committees. Competent persons, however, express the opinion that the cupidity of the brigands will overcome their fear of revelations, and all such approve the declaration of Mr. Dickinson.

Mr. Dickinson has made energetic representations to the Bulgarian government against the movements of the Bulgarian troops, reproaching the officials with the fact that, notwithstanding their solemn promise to give him all assistance in their power, their action was embarrassing the negotiations, retarding a settlement, and placing in jeopardy the life of Miss Stone. He made a definite declaration that the Bulgarian government would be held responsible for the death of Miss Stone and of all the consequences of her death, should it be proved that the attitude of the Bulgarian government forced the brigands to kill their captives.

LI HUNG CHANG'S ESTATE.

It Will Remain Intact For Use of His Eldest Son, Who Will Provide For the Family.

Peking, Nov. 9.—The flag of the United States legation was the only one half-masted in Peking Saturday. The mourners and the family of Li Hung Chang burned paper offerings, in accordance with custom, for the use of his spirit in the other world. The street is hung with mourning emblems. All the attendants at the Yamen are richly attired and many of them gaudily dressed. Musicians beat drums about the house. Li Hung Chang's estate will remain intact for the use of his eldest son, who will provide for the other members of the family.

COLE YOUNGER.

The Once Notorious Bandit Refused the Position of Captain of the Minneapolis Police Force.

Minneapolis, Minn., Nov. 9.—A. A. Ames, mayor of Minneapolis, tendered Cole Younger, the notorious bandit, now out of the Minnesota state prison on parole after serving 25 years of a life sentence, a position as captain on the local police force. Cole took the matter up with his friends in St. Paul, where he is now engaged as clerk in a grocery store, and on their advice refused the office. He said he wished to avoid all notoriety.

HAY-PAUNCEFOTE TREATY.

In View of Progress Made It Is Expected the New Convention Will Be Concluded Next Week.

Washington, Nov. 9.—Lord Pauncefote, the British ambassador, had a half hour's talk with Secretary Hay in regard to the preparation of the new Hay-Pauncefote treaty. It is expected that in view of the progress that has been made the convention may be concluded, so far as the executive branch of the government is concerned, the latter part of next week.

First McKinley Monument.

Tower, Minn., Nov. 11.—To this village belongs the honor of having erected the first monument in honor of William McKinley. Thousands of people from all over the state and the entire northwest were on hand at the unveiling Sunday. When the monument was unveiled all the bands that Tower and surrounding country could muster played together "Nearer, My God, to Thee." The chief speaker was Gov. Van Sant.

Escape Shaft Burned.

Spring Valley, Nev., Nov. 11.—The escape shaft to No. 1 mine burned down Saturday night, causing a loss of $16,000 to the Spring Valley Coal Co. There were 30 miners at work below but they escaped. Seven hundred men are thrown out of work.

Miners Strike Averted.

Scranton, Pa., Nov. 11.—The community is greatly relieved by the action of the Temple Iron Co. in reinstating the alleged blacklisted men, and thereby averting a strike of its 3,000 miners.

CHARLESTON EXPOSITION.

Hundreds of Car Loads of Exhibits Are Arriving Daily and a Great Show Is Promised.

Charleston, S. C., Nov. 11.—Exhibitors and concessionaries are coming to Charleston in large numbers, and during the past few days a hundred car loads of exhibits have arrived here for the exposition.

Architect Huston, of the Philadelphia building, is here to receive the building from the contractors. It is ready for the Liberty bell, which it will shelter during the exposition. More than 2,000 men are now employed on the exposition grounds. The housing commission of the woman's departments have already secured accommodations for more than 10,000 exposition visitors in private families and boarding houses. The usual rate for lodgers will be $1, and for lodging and brenkfast $1.25. Nearly every house in Charleston will be converted for the exposition period into a house of entertainment, and the sentiment of the community is against every attempt to exact heavy tolls of the visitors. The railroads have agreed upon low rates, 30 per cent. lower than the rates made for Buffalo, and the city council will pass an ordinance next Tuesday night for the protection of the roads from the scalpers. The attendance promises to be at least twice what the promoters of the project expected, and the exposition will be one of the most artistic ever held in the south.

PAYMASTER ROBBED.

Paper Money to the Amount of $4,-800 Mysteriously Abstracted From His Satchel.

Pensacola, Fla., Nov. 11.—Paymaster Stevens, of the United States army, arrived from Atlanta Saturday, and before leaving that city placed in a hand satchel 200 silver dollars and $4,800 in paper money for the purpose of paying several hundred artillerymen at Forts Barancas and McRea their salaries for the past month. When he reached the fort here he opened his grip and found all the paper money had been abstracted. The 200 silver dollars remained. Amazement and surprise followed the discovery, and the news soon spread, becoming known here about midnight. The police were instructed to watch out for the treasure. Paymaster Stevens thinks some pickpocket followed him and relieved him during the trip. He can not recall a single incident of the trip that would lead to anything on the robbery, but has no idea the money was taken before he left Atlanta.

VALVE BLEW OUT.

Two Steamfitters Killed and Two Others Seriously Injured in An Accident in Kansas City.

Kansas City, Nov. 11.—Two steamfitters were killed and two others seriously injured by the blowing out of a valve in the water pumping apparatus at the Schyarzschild & Sulzberger packing plant in Armourdale, Kan.

N. R. Murphy was suffocated or drowned, and J. H. Russell was scalded to death. James McMahon and W. B. Hoover were badly scalded.

The accident occurred in a deep pit, in which is located the packing plant's pumping machinery. Nothing could be done to rescue the men until the flow of steam had exhausted itself. Murphy was dead when taken out. Russell lived four hours. The injured men are in a serious condition. McMahon has a slight chance for recovery.

Gutted By Fire.

Newcastle, Pa., Nov. 11.—The plant of the Lawrence Ice & Storage Co. was completely gutted by fire. The damage amounts to fully $150,000. The plant was only completed and operations begun this fall, and all the expensive machinery was destroyed, only the bare walls left standing. More than 28,000 pounds of ammonia was stored in the place, and the fears of explosion hindered the firemen. The fire started in the oil room, and the watchman tried to fight the blaze alone until too late.

Prominent Business Man Dead.

Madison, Wis., Nov. 11.—John A. Johnson, president of the Fuller & Jackson Manufacturing Co., agricultural manufacturers; president of the Gisholt Machine Co., president of the Capital City bank, and one of the foremost and wealthiest Norwegian-Americans in the northwest, died Sunday morning of stomach trouble after a year's illness.

Confessed Another Crime.

St. Louis, Nov. 11.—John Callahan, who was arrested in the Union Iron foundry after an attempt to hold up the night watchman, Michael Hennesberger, has confessed to Chief of Detectives Desmond that he was one of the three men who robbed a bank at Turon, Reno county, Kan., in October, 1899. Callahan says his home is in Cleveland.

Election Riot in Spain.

Barcelona, Nov. 11.—The municipal election here Sunday were attended by bloodshed and excitement. Revolver shots were exchanged, and one person was killed and 40 others were wounded. The election resulted in a large majority for the supporters of the government.

War Vessel Purchased.

Managua, Nicaragua, Nov. 11.—President Zelaya has purchased from Germany the special service vessel Arabius, which will be used for a cruiser.

STATE NEWS.

Ed Burke, of Bourbon county sold to Pennsylvania parties 15 nice two-year-old mules at $85 per head.

At the sale of the herd of Shorthorn cattle of Joshua Barton, at Paris, fifty-nine head brought $6,500.

The first fine hogshead of new tobacco sold in Louisville this year was from Mercer county and brought $6.50 per hundred.

Mode Nicholl, of Lexington, sold to an eastern party the great saddle horse Comus, for $3,400, the highest price ever paid for a saddler in Kentucky.

About 1,000 cattle at Winchester on Court day. There was a good demand for good steers of 1,000 pounds and upward at 4cts. Best heifers brought 3c. Mule colts $35 to $70.

Weil, of Lexington, bought of Buckner Woodford, of Bourbon county, 94 head of Christmas cattle, weight 1,460 pounds, and of Aylette Bedford, of same county, 40 at same price. They will be shipped to London for the Christmas market.

Corn sold in the shock at a sale in Fayette county is estimated to have been from $3 to $4 per barrel. Oats in the sheaf sold at an estimate of $14 per ton and Hungarian hay at an estimate of $12 per ton. The lowest estimate put on hogs was 6 to 7c.

At Corbin, W. G. Holland, a saloon man, was standing in his door when E. Bingham, a drayman, passed on his dray. Holland stepped out with a double-barreled shotgun and, without a word, fired the contents of both barrels into Bingham's back. Then he dropped the gun, and drawing a pistol from his belt, he emptied six shots into the fleeing form. When Bingham lay dead on the ground Holland went up to him and placed the muzzle of the pistol against his head and fired again, after which he beat the dead man's brains out with the pistol. The affair was witnessed by over one hundred persons.

Sammy Slatterly, who died near Dugansville, a few days ago, had been addicted to the cigarette habit for twelve or fifteen years, sometimes, it is said, smoking as high as fifty a day. Just before he died he had twelve or fifteen of the young men and boys of the vicinity called to his bedside and he told them that cigarettes had brought him to his deathbed, and he plead with them to take warning at his fate and eschew the habit. The day before his death, and when it was not thought that he was seriously ill, he told his father that the physicians had wrongfully diagnosed his ailment and repeated that cigarettes had caused his illness.

One matter which all young girls should consider, which is perhaps almost hackneyed and yet never unnecessary, is the question of reverence, all that is implied by the injunction to honor our parents. To honor them is not only to obey them. It goes farther and deeper than mere obedience.

You cannot possibly understand the love that your mother bears you; it is a law of nature that you should not understand. It is like no other love; peculiarly interwoven with every fibre of her being, not to be comprehended by any daughter of you all until the day when you perhaps hold your own children in your arms. You must take it on trust. But remember that this love of hers makes her acutely conscious of every touch of hardness and coldness in your voice; she misses the kiss that you are in too great a hurry to bestow; she winces at the argumentative voice with which you labor to get your own way; she dreads unspeakably to lose your affection and respect. Do not begrudge the tender word, the long caress, even if you feel a little impatient of it all the while. You will long for it with a heartsick longing when it can never be yours again. And remember that hardness is one of the faults of youth; you should strive against it as much as you strive against your faults of bad temper, or inaccuracy, or sloth. Be hard on yourself if you like; that will not hurt you. But you may regret it all your life that you have been hard on anybody else.—The Watchman.

[Kentucky Post Nov. 9]

The following explanatory letter has been received by ex-Mayor Joseph L. Rhinock from ex-Governor McCreary:

"RICHMOND, KY., Nov. 8.—Hon. Joseph L. Rhinock: I was overwhelmed with sorrow and disappointment yesterday when I heard that you were defeated. Late Tuesday night I tried to call you over the telephone, and failed to get you, but heard your race was in doubt. No Senatorial race in Kentucky has been watched with more interest by me than yours, and I especially desired to have you at Frankfort next winter, not only because you are my warm personal friend, but also because I believed you would render splendid service to the Democratic party and the State, and also help me in my race. Ben Harding said: 'Nothing is more uncertain than a political election,' and that has been proved in Covington. You deserved election as much as any man who was ever nominated for State Senator, and the loyalty and honesty of yourself and friends in standing by the Democratic nominees in the past entitled you to at least a majority of 1000 in your county.

"I hope to have the pleasure of seeing you very often during our struggle when the Legislature meets, and I wish for you all the blessings that can be given any man. With kind regards.

"JAMES B. M'CREARY."

Public Sale.

I will sell at public auction at my residence on Gunpowder creek, 1 mile from Hathaway, Boone Co, Ky.,

Wednesday, Nov. 27th, 1901,

The following property:

Two Horses, 18-years old and 15-years old, two fresh Milch Cows, Road Wagon, Buggy, Sled, and Farming Implements, Harness, 100 bus. Corn in crib, about 60 shocks Fodder, 1,575 sticks of Tobacco, will be sold on stick, also Household and Kitchen Furniture.

STOPS PAIN

Athens, Tenn., Jan. 27, 1901.

Ever since the first appearance of my menses they were very irregular and I suffered with great pain in my hips, back, stomach and legs, with terrible bearing down pains in the abdomen. During the past month I have been taking Wine of Cardui and Thedford's Black-Draught, and I passed the monthly period without pain for the first time in years. NANNIE DAVIS.

What is life worth to a woman suffering like Nannie Davis suffered? Yet there are women in thousands of homes to-day who are bearing those terrible menstrual pains in silence. If you are one of these we want to say that this same

WINE OF CARDUI

will bring you permanent relief. Convince yourself with the knowledge that 1,000,000 women have been completely cured by Wine of Cardui. These women suffered from leucorrhoea, irregular menses, headache, backache, and bearing down pains. Wine of Cardui will stop all these aches and pains for you. Purchase a $1.00 bottle of Wine of Cardui to-day and take it in the privacy of your home.

BOONE COUNTY RECORDER.

VOL. XXVII. BURLINGTON, KENTUCKY, WEDNESDAY, NOVEMBER 20, 1901. NO. 5.

A FAIR deal at Frankfort, this winter, is all that is necessary, gentlemen.

GOV. BECKHAM'S epistle to the Governor of Indiana proves that he is a strong letter writer.

MR HANNA is actually continuing to go through the motions just as he did in the old days, when he was IT.

BOTH the Kentucky penitentiaries are now on a paying basis. This has been accomplished by Democratic control.

THE DemocraticP-opulist fusion in Nebraska has grown weaker, until the Republicans no longer fear a defeat by it.

JUDGING from the course the President is pursuing, Senator Hanna's visits to the White House will soon become few and far between.

THE President has put the bottom rail on top in his party in Kentucky, in the doing of which he clearly departs from the policy of his predecessor.

WOMEN are getting some rights they didn't bargain for. A New York judge has just held that one is responsible for her husband's tailor bill. Evidently, the worm has turned.

IT is just about a foregone conclusion that McCreary will be "per diem per day" Deboe's successor, although a hard fight is being made to effect a combination for his defeat.

SOME times too much of a good thing does more harm than good. It is hoped such will not be the case with the big Democratic majority in the Kentucky General Assembly this winter.

THE Cleveland Leader, Mr. Hanna's home organ, says: "It is idle to look for much Republican success in Kentucky until the taint of sympathy with murderous crimes can be lived down."

It's fortunate that the Schley court didn't call on any experts. If it had, the testimony might have filled a hundred thousand pages, instead of only ninety-nine thousand, as at present.

THE river is so low that it is advisable for those who contemplate traveling by boats, to take their canes with them, as they may have to do considerable hoofing before reaching their destination.

TEDDY has reorganized the kitchen cabinet in Kentucky, reinstating some of the ablest Republicans in the State, who had been relegated to political seclusion by the Hanna influence at Washington.

JOURNALISM must be profitable in the Argentine Republic. La Presna, published at Buenos Ayres, has completed a palace of gray marble which is described as the most magnificent newspaper office in the world.

AND Secretary Gage has his back up because the President had the audacity to make an appointment without consulting him. It seems that Mr. Roosevelt has yet to learn that he is not the whole thing in the matter of Presidential appointments.

RICHARD ERNST will, henceforth, have a good deal to say as to whom shall hold positions in the Internal Revenue service in this district, and he will be besieged by those who have been wanting a slice of the pie for a long time, but have never been able to make connection.

COLLECTOR SAPP, of Louisville, against whom charges of violating the Civil Service Law had been preferred, was permitted to resign, but Mr. Comingore, of Covington, against whom there were no charges, was unceremoniously bounced. Sapp has the laugh on Comingore.

THE President is requesting his appointees to observe strictly the civil service law. The ins rejoince because of that injunction, while the outs express themselves in language that would not look well in print, and Comingore thinks President Roosevelt would better practice what he preaches. So it goes.

COL. BRECKINRIDGE made a speech before the Labor Union in session at Lexington, last week, and as a result of that speech, the organization was disrupted. His usefulness as an orator on all occassions has been very much curtailed in the last few years.

THERE has been a complete change in the Chicago cattle market, owing to the great falling off in the supply. Not long since the receipts there were considerably ahead for the corresponding period last year, but now they are running much smaller, and the market shows a good tone.

IN Walla Walla County, Washington, they have been trying the plan of spreading straw upon the highways. It keeps down the dust in summer and the roads are better in the winter. They have a "straw day" each year, and officers are appointed in each district to look out for the straw and tell people where to put it.

MURAT HALSTEAD, the well known editor, applied for an injunction in the United States circuit court of Philadelphia to restrain the John C. Minston company from publishing or distributing alleged false and defamatory circulars concerning the petitioner's new book, entitled "The Illustrious Life of William McKinley."

GOVERNOR DURBIN, of Indiana, says that Kentucky would not give a fair trial to Taylor, accused of complicity in the Goebel murder. But Governor Odell, of New York, also says exactly the same thing of Ohio in his remarks turning down a similar requisition by the latter state. The governors are getting pretty uppity these days.

THE next General Assembly of Kentucky will have some very important work to dispose of, the most important of which will be the redistricting of the State as provided for by the new constitution, and it is hoped that no member of the body will imagine that he is especially qualified for an office for which he will labor to have a district carved out for his especial benefit.

G. ALLISON HOLLAND, of Henry county; Gerald T. Finn, of Simpson county; L. E. Weatherford, of Graves county, and E. E. Barton, of Pendleton, are the candidates for the Lower House of the next General Assembly. They were members of the last Legislature, and served on important committees. It is thought that race will narrow down to Holland and Finn.

IT is said that in consideration of Alec Davezac's treachery in the last election one of his sons gets the best clerkship in the office of the County Clerk, who is a Republican, and his younger son gets a deputy's place in the Sheriff's office. This too notwithstanding the fact that Davezac in the last fifteen years, has drawn salaries of more than $100,000 from the Democratic party. He has certainly displayed political ingratitude of the basest kind.

THE county officers-elect are arranging to take hold of the public business on the first of January. There will be no perceptible change from the old order of things, as the fiscal affairs of Boone have been handled for many years, in a most satisfactory manner to the taxpayers, and in only a few exceptions could there be any improvements. No doubt, the fiscal authorities are willing to hear suggestions made in the proper spirit.

THE Richmond Register is greatly elated over the victory the Democrats gained in Madison county on the 5th inst., and says: "We are neither Bryan or anti-Bryan, neither silver or gold, neither Goebel nor anti-Goebel, but just plain, old-fashioned dirt road Democrats, who love home—particularly the old Kentucky home—and seek truth and follow the right and do justice. We are out of the woods at last and all the clouds are scattered and we face a future bright with promise and big with hope. Just fix your eyes upon the rising sun and keep your powder dry. There's a good time coming boys!"

THE President is very much annoyed by conflicting reports regarding the characters of men he has been appointing to office. No sooner does he make an appointment until protests begin to reach him, deploring the appointment on account of the character of the men selected. He would prefer hearing from the opposition before the appointments are made.

THE official count of the vote at the last election shows that the Democrats will have sixty majority on joint ballot in the General Assembly. This result is arrived at in the following manner:

HOUSE OF REPRESENTATIVES.

Democrats	73
Republicans	27

SENATE.

Democrats	26
Republicans	12

ON JOINT BALLOT.

Democrats	99
Republicans	39
Majority	60

THE Weed, published at Louisville, is good authority on any matter pertaining to a tobacco crop in this State, and of the 1901 crop it says: "Enough is known of the new crop to say that it is as a whole a very unsatisfactory one so far as Burley is concerned, as much of it is green and undesirable, and the proportion of bright tobacco will be very small. In a few blue grass counties there is a splendid crop in texture, color and every essential to please the most exacting manufacture, but in the larger part of the Burley district this does not hold good- Dark tobacco this year is very fine, in fact the finest that has been grown for years; the color, texture and every essential of good tobacco is there."

THROUGH the efforts of A. B. Rouse, Union, this county, is receiving two mails a day—noon and evening, beginning last Monday. The patrons of the Union office will find this a convenience which they will appreciate. The government is much more liberal with the extension of mail facilities than it was a few years ago, and is increasing them at every point where there is any necessity for them, or where it appears that any considerable community will be benefitted thereby. Gunpowder being on the route between Union and Florence, ought to have two mails a day, and no doubt that office can have it for the asking. It is hoped the patrons at Gunpowder will make the effort. They will be given the same outside assistance that Union received.

IF the Democrats in the next General Assembly will redistrict the State in a manner fair to the Republicans, there will be no trouble to keep Kentucky in the Democratic column, but so sure as an attempt is made to gerrymander the several districts, to suit the political aspirations of the numerous members who want to go to congress, or hold a judgship, there will be serious trouble at the next State election. The Republicans are entitled to fair treatment, notwithstanding, numerically, their strength in the legislature this winter will be insignificant. Should the grab-all policy prevail with the Democratic majority at Frankfort, this winter, the party will be given a blow from which it will take a long time to recover. Representatives with cool heads and a proper appreciation of the minority's rights may be able to prevent the party being injured by an unwise redistricting of the State, and to such "the boys in the trenches" will have to look for the salvation of the party. Wise leadership will be very necessary at Farnkfort, and time, only, will demonstrate whether a leader, who fully appreciates the situation and responsibilites of the Democrats in the next General Assembly, will come to the front. If Democrats in the legislature fail to avail themselves of the opportunities afforded them this winter it will be a great pity that they were chosen as legislators.

AT a meeting of Shelby county citizens Saturday plans were discussed for obtaining rural free mail delivery in the county, and seven routes were selected over which the service is desired.

THE safe blowers are on the rampage. It is probable that they are endeavoring to replenish their purses so they can respond to the holiday demands, soon to be made.

A SAN FRANCISCO paper prints an unconfirmed story that a conspiracy is on foot in the Klondike, and extending to Skagway, Victoria, Vancouver and Seattle, to overthrow the local government of the Northwest Territory and establish a republic with Dawson as its capital.

SENATOR DEBOE'S reception by the President when the Kentucky delegation was at the White House, last week, is a source of much amusement for Gov. Bradley and his collegues. It is said thePresident made the Senator sit down, sure enough, which was very humiliating to him.

SUNDAY morning a band of about seventy-five armed men, believed to be union miners attacked the nonunion miners and guards at the slope mine of the Providence Coal Company, in Webster county, about seventeen miles from Madisonville, Ky., and during the fight which followed one union miner was killed another was fatally wounded, three nonunion miners were seriously wounded and another man is reported to have been killed. Many persons had narrow escapes from death, while the houses of the negro miners were riddled with bullets. The fight lasted for nearly two hours, the attacking party being finally driven off. Two companies of State Guards are now on the scene.

WITH the coming of the new order of things in this Internal Revenue District, the chances of Col. Graddy, of Burlington, to land a good, fat job in the revenue service have been greatly enhanced, and, as he believes, in a few weeks he will, doubtless, be drawing a handsome salary from Uncle Sam. Until a few years ago the Colonel was a prominent Democrat, but bolted that party's ticket when Bryan was nominated the first time, and went squarely into the Republican camp, since which time he has been very quiet, politically, but his ability as a party manager has been fully recognized by his new political associates, and he is now a leader of one of his party's factions in this county, and it is said he engineered its action which so recently gained for it such a signal victory over the other faction, and, by the way the faction, with which the Colonel affiliates is the one that opposed Comingore in his desire for reappointment as Collector, therefore it is believed that the Colonel has made a record as a Republican that will profit him handsomely in the near future. So be it.

On account of crowded condition of the State School of Reform in Lexington, the legislature will be asked to appropriate $100,000 to make necessary improvements. Perhaps so large a sum will be regarded as excessive, but the legislature should be ready and willing to make adequate provisions for the proper maintenence of this most worthy institution. The reform school offers a place where wayward boys and girls may be taught a trade and reared in morally clean surroundings, and made honest, worthy, selfsupporting men and women. To send juvenile offenders to the penitentiary is to send them to the devil. In prison they fall under the influence of habitual criminals and come forth hardened desperate depraved lawbreakers. One reform school is worth forty jails in the work of reclaiming the youthful offenders of our state.—Paducah Democrat.

We have seen several letters written recently by large dealers in the East concerning the turkey crop. In the West and Northwest it is very large again this year. In Kentucky the crop is about 70 per cent, of the abnormally large crop of last year, and is about the average of other years. About one and one-half million turkeys of last year's crop are still in cold storage, and dealers warn country buyers that prices will not be high. Renaker and Co., say the prices here will be 5½ cents in the country and 6 cents delivered.—Winchester Democrat.

LOCAL NEWS.

Smallpox has made its appearance in some parts of the State again. It is getting a start for the winter.

The Poston land advertised for sale in the RECORDER brought $48, John and Jeff Cloud of Hebron, purchasers.

In this issue will be found advertised the sale of the personal estate of the late David Clements, to take place on the 30th inst.

As the days go by the condition of the growing wheat crop looks worse. There has been rain enough to bring it up, but not enough to hasten its growth.

The minutes of the last session of the North Bend Association of Baptists have been sent out to the several churches in the Association, by Clerk Castleman.

A special term of the Boone Circuit Court will be held, commencing on the first Monday in December. The regular term will begin on the second Monday in December.

W. O. Buttler one of Carrollton's distinguished citizens, died on the 12th inst. He was a nephew of Gen. Wm. O. Butler, who settled in Carrollton about the beginning of the last century.

Understand that on account of scarlet fever prevailing in the Taylorsport neighborhood, the Quarterly Meeting that was to be held with the Taylorsport M. E. Church has been transferred to Petersburg.

It is impossible to keep up with the movements of the local trotting horse fraternity. They make and unmake matches for races with the rapidity of lighting. One day a race is appointed for the future and before breakfast next morning it is declared off.

Some town hunters were in this neighborhood last Thursday, and during the day accidently shot and killed two of their dogs, each of which they valued at $35. It is a good thing that it was their dogs rather than some farmers' stock that were the victims of their carelessness.

The RECORDER does not desire to detract from the honor of any candidate on the ballot at last election, and desires to correct its statement wherein it said James Allen lead his ticket, when in fact our young friend Jonas Stephens was entitled to that distinction. He received 20 votes more than Allen.

A. W. Smith, of Verona neighborhood, discovered a very strange member of the feathered tribe, last Thursday morning, evidently hunting a warmer climate. It was pure white except its wings which were black. Mr. Smith is well versed in zoology, but this bird belongs to no class with which he is familiar.

The RECORDER has secured a correspondent at Crescent and Richwood, and the local doings of these two neighborhoods wil be faithfully and correctly reported in the future. These correspondents will please mail their communications on Monday morning of each week so they will reach us by noon that day.

The long drought appears to have cut the rock crop short, and the stacks of stone hauled for the crusher out on the Bellevue pike have not yielded what was expected. Where at least 100 perch of crushed stone were expected to be obtained less than 90 were measured. Machine made pike stone does not measure up like the hand-made article.

V. W. Gaines has purchased the butcher business of Julius Schrump, of Rising Sun. It is said Mr. Schrump has grown rich in the business, for which he was splendidly eqipped in every particular, and Mr. Gaines' friends here hope that his predecessor's success will remain with him. He will take posession of the business on the first of December.

The birthday of Mr. W. T. Smith of this neighborhood, and his neice, Mrs. James A. Riddell, of Hebron neighborhood, come on the 13th of November, and they celebrated their anniversaries, last Wednesday, by a big dinner prepared by Mrs. Riddell. Mrs. Riddell was 53 and Mr. Smith was 84. Mr. Smith is especially well preserved for one of such advanced age, and can "set a horse" as well as a man in the thirties.

Teachers' Association.

The Association of county teachers met in this district, No. 4, last Saturday, with several teachers and visitors present. The meeting was called to order by our worthy Superintendent, L. H. Voshell, with his usual address, "a welcome to all."

As some of the teachers on the programme were absent, part of the regular programme was omitted.

First on the programme was reading, assigned to Miss Effie Lermond. She being absent, Mr. Voshell introduced the subject, giving an interesting and instructive talk. William Gaines followed, saying his trouble was with advanced pupils, to get an interest. Prof. Henry gave a very instructive talk on the subject. Supt. Voshell claimed that too much time is spent on definitions and too little on reading.

The Association then adjourned for dinner, which had been prepared and furnished by Mrs. Charles A. Gaines and Mrs. William Gaines, for which the Association extends to them its hearty thanks.

The meeting was again called to order by the Superintendent.

Primary Geography was assigned to O. V. Hann, who was not present, but William Gaines, Omer Henry, Supt. Voshell and Mary Gaines, gave able talks on the subject.

D. I. Tanner read a most excellent paper on composition.

Civil Government was introduced by Prof. Wm. Gaines, by an instructive talk. The subject was then opened for discussion and several responded.

History was introduced by Omer Henry, and discussed by Supt. Voshell and others.

We were, indeed, glad to see the patrons and friends take an interest in the meeting.

Following is the programme arranged for the next District Association, which will be held at Florence on the 23d inst.:

Penmanship—Miss Marie Korn; Primary Reading—Miss Lizzie Vest; Physiology—J. H. Newman; History—A. M. Yealy; Recitation—Marietta Riley; Grammar—Lucy Clayton; Geography—Miss Flora Youell; Arithmetic—Katie Clayton.

The Association adjourned to meet in Florence Nov. 23.

MARY J. GAINES, Secretary.

Supt. Voshell was in town Monday. He has about completed his circuit of the schools for this fall. He will be in his office next Saturday, in Burlington, to pay the teachers their salary for last month.

An interment, the subject being alive, took place last week in Andy Miller's orchard, in the north end of Mercer county. Andy has a seven-foot cowsucker snake that answers to the name of "Dan." The cold weather had thrown Daniel into a torpor so that he was unable, as was his habit, to follow his master about the farm, so Andy got a box and partly filled it with rags, placed the snake in it, dug a three-foot hole and buried his pet. He has had Daniel for three years, and each season, when cold weather sets in, "caches" him until spring again clothes the leafless trees. Miller captured the snake under most peculiar circumstances. He was going through his woodland, when a rabbit ran by him so rapidly that he could hardly tell what it was. Close behind the hare came the snake. One hundred yards away the thought must have struck the rabbit that its only salvation was in the man, for it made a loop and ran to where Miller was standing, and to his amazement squatted between his feet. The snake, not to be robbed of its dinner, also turned and came toward Miller at full tilt, who stood speechless at what was going on, but when the reptile ran between his legs he closed upon it, reached down, caught it by the back of the neck and carried it to the house. In three years it has become so gentle that it knew its name, would jump through a hoop and follow Andy like a dog and slept on his feet at night. Miller can tame any kind of snake.

It was supposed until recently, says the Golden Penny, that the "Kin-Pan," a Chinese journal published in Pekin for the last 1,000 years, was the oldest newspaper in the world. In a very able work recently published, however, Imbault Huart, the French Consul at Canton, shows that this honor belongs to the Tsing-Pao, or Pekin News, which has been published continuously since the year 710, and is even said to have been founded some 200 years before that date, or early in the Sixth century—800 years before a newspaper was known in Europe.

THE RECORDER

W. L. RIDDELL, Publisher.

BURLINGTON, : KENTUCKY.

CURRENT TOPICS.

King Leopold has abandoned his intention to visit America.

Sir Thomas Lipton says there are "no girls like American girls."

No large comet has appeared within our environment since that of 1882.

The hide of the hippopotamus in some parts is fully two inches thick.

In nine of the great cities of the United States there are 200,190 telephones.

Experiments have demonstrated that doors of wood covered with tin resist fire better than those made of iron.

The shark holds the record for long-distance swimming. A shark has been known to cover 800 miles in three days.

Sarah Bernhardt says that she rehearsed "Cleopatra" 500 times before it was finally presented to an audience.

Nearly a half billion pounds of tea were consumed in the year 1903 in countries other than the sources of production.

The late Richard P. Bland will have a monument erected to his memory in Lebanon, Mo., by the citizens of that place.

A statistical item of interest to women is that to-day women are two inches taller on an average than they were 25 years ago.

The corn crop of the United States in 1900 (2,105,102,516 bushels) was larger than for any other year since the record crop of 1896.

During the Franco-German war 23,500 French soldiers died of smallpox, while the Germans, who had been all vaccinated, lost only 268.

A two-year-old colt, the Duke of Westminster, was sold in England the other day for 21,000 guineas—considerably more than $100,000.

Out of every 1,000 English people there are 68 Marys, 66 Williams, 62 Johns and 61 Elizas. No other name claims as many as 40 in the 1,000.

In some parts of the north of Scotland fisherfolk turn back if a hare or pig crosses their path; and at sea they never pronounce the name of the hare, the pig, the salmon, the trout, or the dog.

The longest horse-drawn railway in the world runs from Buenos Ayres to the town of San Martin, a distance of 30 miles. Thirteen hours is allowed for the distance and trains run every hour.

A mountain which walks is a curiosity in France. During 48 hours this mountain, which is near Nimes, slid over 30 meters, and great was the excitement among the people living in the neighborhood.

The United States produces only a small part of the barley crop of the world. For 1900 the total for this country was only 58,926,000 bushels, out of 921,075,000 bushels for the countries whose crops are reported.

All rivers of Africa have several remarkable peculiarities. They seek the ocean that is farthest away from their source; their course is always broken by falls, and their mouths are stopped by numerous sand banks.

A man-made volcano exists in Belgium, which has been burning continuously for nearly 100 years, and emits vast columns of black smoke, rendering the neighboring country barren, baked and utterly unprofitable.

D. P. Simpson, a horse buyer in northwestern Kansas, has adopted a new plan of buying horses. He pays so much a pound. Good drivers are quoted at 11 cents a pound, farm horses 10 cents, and ordinary plugs 5 cents.

A petrified forest, covering an area of 1,000 square miles, has existed for centuries in Arizona. Thousands and thousands of petrified logs strew the ground, and represent beautiful shades of pink, purple, red, gray, blue and yellow.

Fashion is less conspicuous in China than in any other part of the round globe, but even there a sentiment is growing in favor of allowing women's feet to grow to a larger and more nearly normal size than has hitherto been the practice.

The wheat crop of the world for 1900 was nearly 167,000,000 bushels, about 6 per cent. short of the preceding crop and about 341,000,000 bushels below the big total of 1898. It exceeded the crops of 1896 and 1897, the latter by 267,000,000 bushels.

The total acreage of prairie dog town in Kansas, according to the returns to the agricultural college, is about 2,000,000. The college assumes that there is a population of 50 dogs to the acre and that the prairie dog population is at least 100,000,000.

Caravan robbing in Tripoli seems as profitable as holding up pay trains. One captured by Arabs at a place called Dameghhon consisted of 12,000 camels, laden with corn, ivory, ostrich feathers and skins, all valued at $825,000. In the fight 210 men were killed.

Russia and Austria are the only large European countries which produce more meat than they eat. Their yearly surplus amounts to 105,000 tons.

In Siberia rivers flow over ice, old and solid as rock. A tributary of the Lena river has underneath the soil which forms the bed of the river a bed of pure ice over nine feet thick.

It is stated that when Lord Salisbury rests his elbow on something his speech flows unchecked, but that when the rest is taken away from him he is halting and undecisive in his speech.

INSURANCE SWINDLE.

H. C. Rathbun Suspected of Murdering a Man and Representing the Body as His Own at Jeffersonville, Ind.

Louisville, Ky., Nov. 13.—Newell C. Rathbun, who, according to the police, has confessed that he planned to defraud an insurance company out of $4,000 by pretending that a corpse shipped to Little Rock, Ark., was his own dead body, has admitted, according to the authorities, that the man who accompanied him to the hotel in Jeffersonville, Ind., and was found dead the next day, was Charles Goodman, who is said to have come from Evansville, Ind.

Rathbun made the following statement to Chief of Detectives Sullivan:

"I admit everything except that I killed Goodman. I meant to kill him, and kept him drunk for the purpose, but he died of alcoholism, and I was not forced to make way with him. My story about an accomplice named Blanchard was fictitious. I acted alone and with out a confederate."

Jeffersonville, Ind., Nov. 13.—Newell C. Rathbun, suspected of killing Charles Goodman in a hotel here by poison, was Thursday afternoon positively identified by an officer and an acquaintance of the prisoner from Little Rock, Ark., where he lived for awhile. Later Rathbun was arraigned before Mayor Rader in the police station on a charge of murder. Rathbun pleaded not guilty, and Mayor Rader held him over to the circuit court without bond. The prisoner had no lawyer. After being arraigned he was taken back to jail. The circuit court will convene in special term and a grand jury will be empanelled to consider Rathbun's case.

The prisoner is becoming less tall, native and evidently realizes that he had already talked too much, but he is reported to have said to a fellow prisoner at the jail:

"The officers haven't a thing on which to convict. A man's intention does not mean that he may be convicted."

Little Rock, Ark., Nov. 13.—The corpse sent here as that of Newell C. Rathbun continues to repose in a vault at Oakland cemetery, subject to the orders of Coroner J. M. Young. The latter states that he will surrender the body only upon sworn testimony before the coroner's jury here that the prisoner at Jeffersonville, Ind., is Newell C. Rathbun.

The coroner stated that he had some sworn evidence that the body held here is the body of Rathbun, and until it was disproved he could not release the remains.

Indian Question.

Milwaukee, Wis., Nov. 14.—United States Senator Joseph V. Quarles will shortly leave for Washington to confer with President Roosevelt on the Indian question. "I believe there should be a complete and radical change in the way the government handles the Indians," said Senator Quarles. "The original laws made for this purpose no longer apply. Things have changed in every direction. I can see wherein the present system is at fault and am prepared to suggest remedies."

Riot Follows a Strike.

Oelwein, Ia., Nov. 14.—A serious riot has occurred here between the Great Western shop employes and the non-union men who took their places during the strike. The non-union men were preparing to leave the city, when an angry mob of shopmen gathered and began clubbing them. Several were seriously injured and two were beaten into unconsciousness.

Whitridge-Gray Wedding.

Baltimore, Nov. 15.—Miss Madeline Lavinia Gary, youngest daughter of ex-Postmaster General and Mrs. James A. Gray was married Thursday to Dr. Andrew Henderson Whitridge in Brown Memorial church, this city. The ceremony was performed by Rev. John Timothy Stone, pastor of the church.

Narrow Escape.

Red Wing, Minn., Nov. 15.—The Chicago Great Western passenger train on the Red Wing & Zumbrota line miraculously escaped being wrecked near Goodhue Thursday. As the train was passing over a bridge the structure fell to pieces behind the cars while in front it swayed, but stood until the train was safely over.

Leonides Fell.

Cambridge, Mass., Nov. 15.—Harvard observatory reports that some Leonides began to fall about 11:30 Thursday night, and up to 1:30 p. m. between 60 and 70 had been counted. The number seen is about as usual, but the expected shower did not come. Some photographic exposures have been made.

Heavy Failure.

St. Paul, Minn., Nov. 15.—John O. Adams and John W. Adams, of St. Paul, partners in the firm of J. O. Adams & Co., doing business in Minneapolis, have filed a petition in bankruptcy. The firm's assets are mostly in claims, secured and unsecured amounting to $1,185,218. Total liabilities are $145,424.

World's Fair Buildings.

St. Louis, Nov. 13.—The 110 acres comprising the grounds of Washington university and the four magnificent buildings of that institution, now nearing completion, just west of Forest park, will be used for World's fair purposes.

Twenty-Round Draw.

Savannah, Ga., Nov. 13.—Tim Callahan, of Philadelphia, and Ed Lenny, of Chester, Pa., under the auspices of the Savannah Athletic club, fought a draw in 20 fast and clever rounds. Both men weighed in at 125 pounds.

JOS. D. KEITH HANGED.

He Murdered Nora Kifer and Threw Her Body Into a Creek.

In Two Closely Typewritten Pages Addressed to His Wife the Condemned Man Confessed He Committed the Crime.

Michigan City, Ind., Nov. 15.—Jos. D. Keith was hanged for the murder of Miss Nora Kifer in the prison here at 12:10 Friday morning.

He was removed from his cell at 12:10 a. m., and led to the scaffold. At 12:12 the drop fell, and in seven and one-half minutes the physicians pronounced him dead, when his body was cut down.

Keith confessed that he committed the crime. He had the prison chaplain with him from 8 o'clock Thursday evening to the time he was removed from the cell. He ascended the scaffold singing "I Am Going Home to Die No More," and finished the song before the drop fell.

The confession covers two closely written pages of typewritten matter, and is addressed to Keith's wife. He said that Nora Kifer annoyed him much, and fearing her much, he put the girl out of the way for the sake of his wife.

Keith was a farmer in Warrick county. On April 3 Keith sent Miss Kifer a note asking her to be at an old bridge that night. This is the last time she was seen alive. Her dead body was found some time afterward in a creek near Evansville, Ind. Later evidence was discovered that she was murdered near Keith's home, and that the body was placed in a well, from which it was taken by Keith when he became alarmed at threats of search, and thrown into a creek many miles from the well. The case went to the supreme court, which on November 1 affirmed a death sentence.

WINTRY WEATHER.

Snow Storms Prevailed Throughout Central New York—The Country Roads Blocked.

Syracuse, N. Y., Nov. 15.—The snow storm throughout central New York continued Thursday night with unabated severity. Country roads are in many cases blocked and huge drifts are piling along the fences. Streams are rising, and several places report threatened floods. In Syracuse sleighs are running even in the down-town streets. Trolley service is demoralized, but the steam railways are making their time. About ten inches of snow has fallen. The mercury has fallen to about the freezing point.

MAJ. JOHN B. HARLOW.

Retires from Civil Service Commission and Is Succeeded By William Dudley Foulke.

Washington, Nov. 15.—With the close of business Thursday Maj. John B. Harlow retired from the civil service commission and was succeeded Friday by Mr. Wm. Dudley Foulke. Maj. Harlow has held his position as a member of the commission since May, 1895. He will return to his old home in St. Louis, where, on appointment by Postmaster General Smith, he will have the position of cashier in the post office.

DESTROYED BY FIRE.

The Electrical and Transportation Building of the Atlanta Exposition Destroyed.

Atlanta, Ga., Nov. 15.—The electrical and transportation building of the Cotton States and International exposition of 1895 were entirely destroyed by fire early Friday morning. The buildings are situated in Piedmont park outside of city limits, and beyond the municipal fire control. It is impossible to ascertain the origin of the fire. The loss is estimated at about $50,000.

Alleged Bank Wrecker.

Washington, Nov. 15.—Information has reached the state department of the arrest in London of H. St. John Dix, who is wanted in Whitcom, Wash., for alleged bank wrecking. The governor of Washington has been notified, and upon the arrival of his application here the necessary papers will be issued to secure the extradition of Dix.

Very Peculiar Accident.

Menominee, Mich., Nov. 14.—One of the strangest accidents of the hunting season occurred at Stephenson Gro. Richardson shot a deer, and the bullet passed through its body, hit a tree, glanced off and struck William Eyerhardt, first going through his wrist. It then hit his gums, glanced up and entered his mouth through his cheek, lodging in neck. The wound is a serious one.

Town Bank Robbed.

Leroy, Ia., Nov. 15.—The First national bank of Leroy, in Decatur county, on the Keokuk & Western railway, was broken into and $2,000 taken from the safe by the use of nitro-glycerine. This makes the eight bank robbery in Iowa within a month.

Collier Lost and Crew Drowned.

Belfast, Nov. 15.—From wreckage seen in Belfast lough Thursday it is supposed that the 49-ton collier White Abbey has been lost and her crew of nine drowned.

BIG GUNS TESTED.

The Gathmann Ordnance and Shell Proved a Failure at the Proving Grounds.

New York, Nov. 16.—The test of the Gathmann gun and shell took place at the army proving grounds on Sandy Hook and resulted in a failure. The shell did no material damage to the target. The failure of Inventor Gathmann's theory is ascribed by him to an imperfect detonation of the fuse, in the interior of the shell. The army officers, however, claim that they have found convincing proof to the contrary, and say that everything in connection with the test was as perfect as it was possible to make it, in accordance with the inventor's ideas.

On the other hand the test made later in the day with the regulation gun was a complete success.

The gun used was a specially built piece of ordnance, six inches larger in bore and several feet longer than any now in use, being of 18 bore and 44 feet in length. The projectile was a shell 18 inches in diameter and six feet in length, containing a charge of 500 pounds of wet gun cotton, the whole, including the shell, weighing 1,850 pounds. The claim of the inventor was that with a charge of 310 pounds of powder this shell or torpedo would disable any battleship in existence at a distance of 3,500 yards.

The target used in the test consisted of a Kruppized steel plate, 11 inches thick, backed by five feet of steel. To the rear of the target was a bank of sand eight feet high and 50 feet long. The gun was mounted upon a temporary structure 500 feet from the target, which was located several hundred yards below the regular proving grounds. The powder charge was reduced in this test so as to represent the distance of 3,500 yards.

The duplicate target on which the regulation 12-inch breech-loading rifle with a 12-inch Midvale armor-piercing shell, loaded with the government high explosive "D," was tested at 4 o'clock. The projectile pierced the 11-inch Kruppized plate. It made a perfectly clean entrance and exploded after passing through the plate, making a most deplorable wreck of the interior.

SHOWER OF METEORS.

Over 1,000 Recorded and Charted By the Professors and Students of Carleton College.

Northfield, Minn., Nov. 16.—Professors and students of Carleton college recorded and charted over 1,000 meteors. The shower began about 11:30 p. m., and continued until sunrise. All meteors of any importance were charted upon specially prepared charts. The climax was reached at 3:18:02, when a brilliant meteor of magnitude minus-2 was seen to enter the constellation of Hydra. By actual determination the trail persisted for 22 minutes. Several thousand large leonids were seen at Goodsell.

University of Virginia, Va., Nov. 16.—Mr. Charles P. Olivier, of the Leander McCormick observatory, of University of Virginia, while watching for the expected shower of leonic meteors, observed 84 between 4:50 and full daybreak Friday morning. Until day broke an average of one per minute was seen in spite of adverse atmospheric conditions.

This shower was very much greater than that of either of the two preceding years, and it is said may indicate that the great shower will yet come.

PEOPLE STARVING.

A Deplorable State of Affairs in Zapata County, Texas—Relief Asked For.

Dallas, Tex., Nov. 16.—Gov. Sayers received a letter from Hon. F. W. Seabury, member of the legislature in whose district Zapata county is situated. The letter details a most deplorable condition of suffering in Zapata county. Mr. Seabury declares the condition is worse than heretofore reported, and says the people are starving, and unless immediate relief reaches them, nearly the entire population of the county will die of starvation. There is no chance to raise any kind of crops in the district earlier than next April or May. Mr. Seabury says there is scarcely any kind of food on hand and appeals for outside aid. Gov. Sayers immediately on receipt of the letter sent $500 to Mr. Seabury. Relief supplies will be gotten into Zapata county at the earliest possible moment.

Adm. Schley's Savings Gone.

Washington, Nov. 16.—The savings from 45 years of active service in the United States navy have been eaten up by the expenses of the inquiry by which Adm. W. S. Schley hoped to clear his record as a naval officer.

To Pave and Sewer Havana.

Havana, Nov. 16.—The municipal council unanimously voted Friday night to award Michael J. Dady the contract to pave and sewer Havana at his reduced bid of $10,913,858.06.

Headquarters Building.

Omaha, Neb., Nov. 16.—It is given out that the Union Pacific will built in the very near future a new head quarters building in this city, to cost a half million dollars. It was also stated that the new shops will, when completed, cost about $4,000,000.

Senator Stranahan's Appointment.

Oswego, N. Y., Nov. 16.—Senator Nevada H. Stranahan received a letter from President Roosevelt tendering him the position of collector of the port of New York, beginning April 1. Mr. Stranahan will accept.

A COAL MINE ON FIRE

Twelve Dead Bodies Taken Out and Twenty-Five Persons Rescued.

It Is Supposed That the Flames Were Started By a Defective Electric Light—Several Other Persons Are Missing.

Bluefield, W. Va., Nov. 15.—Twelve dead bodies have been taken from the Baby mine at Pocahontas. Several other persons are unaccounted for, and 25 persons have been rescued more or less severely burned.

At 3 o'clock Thursday morning it was discovered that the Baby mine, of the Pocahontas Colliery Co., at Pocahontas, Va., was on fire. An alarm was sent in and the fire company responded promptly. In a very short time after the fire fighters had reached the mouth of the mines and were attempting to extinguish the flames some of the firemen and others having rushed inside the mines to ascertain the extent of the trouble and to assist miners entombed therein, a terrific explosion occurred and many miners and their friends were more or less injured. It is supposed that the mines caught fire from a defective electric light wire.

Twenty-five persons have been rescued, all more or less burnt, some seriously and perhaps fatally. The instantly killed were carried to their homes in wagons and all the physicians in Pocahontas have been busy all day attending the injured. One or two other explosions have followed that of the early morning, and others are hourly expected. The mine is still burning, and clouds of smoke are constantly issuing from its mouth. The fan has now been stopped, and as soon as possible to do so the mine will be re-entered, with hope of extinguishing the fire.

In 1894 Pocahontas experienced a like occurrence, in which over 100 lives were lost.

The list of the dead so far recovered are: Louis Woolwine, John Bernhart, Will Montgomery, M. B. Koonits, and a Hungarian named Urico.

Woolwine, Montgomery and Koonts were killed while attempting to reach and bring out a dead body. At this time it is impossible to secure the names of those injured. As yet it is impossible to estimate the amount of damage to the mines.

At a late hour Thursday night it was thought that not over 20 men, the last shift of the day, were in the mine when the first explosion happened. Members of the rescuing party who escaped claim that they were within sight of two bodies lying on the ground supposed to be dead, when they were driven back by the second explosion.

Richmond, Va., Nov. 16.—A Bluefield, W. Va., special says a rescue party entered the burning baby mine at a favorable time and succeeded in reaching a point hitherto impassible. They saw in the distance the corpses of six or perhaps seven men and endeavored to reach them but the extreme heat drove them back. The fire is growing fiercer. All efforts to get even partial control of it have proved futile.

EARTHQUAKE SHOCKS.

Much Damage Was Done to Property Near Richfield, Sevier County, Utah.

Salt Lake, Utah, Nov. 15.—A special from Richfield, Sevier county, states that the damage to property in that county from Wednesday night's earthquake will amount to $100,000.

Scarcely a building escaped damage of some kind. The Mormon tabernacle at Richfield was damaged to the extent of $2,000. The members of the choir were in the structure at the time of the shock, and fled, terrified, to the street.

At Marysvale the entire population left their homes after the first shock, built bonfires in the streets, and camped out all night. In many parts of the country landslides have occurred, blocking railroads, changing streams and causing general disorder.

No Connection With It.

Washington, Nov. 15.—In reply to numerous inquiries regarding a project for obtaining subscriptions purporting to be for the benefit of United States ex-life savers, the general superintendent of the life saving services announces that neither the service nor any of its officers have anything to do with the project, or any connection whatever with it.

Queen Wilhelmina's Condition.

London, Nov. 15.—The condition of Queen Wilhelmina is worse than has been officially reported. Three physicians are in attendance upon her majesty, and the queen's mother has been summoned. The royal patient will be obliged to keep her couch for six weeks.

Mysterious Death.

Rome, Ga., Nov. 15.—James Goings was found dead in his buggy Thursday a few miles south of Cave Springs, his neck being broken. His death is a mystery, and it is thought he was murdered and robbed by highwaymen.

Col. George W. Trigg Dead.

Richmond, Mo., Nov. 15.—Col. Geo. W. Trigg, aged 35 years, a well known temperance advocate, died Thursday after a lingering illness. Col. Trigg was formerly president of the Missouri Press association.

When They Were Reminded.

Sunday School Teacher—Now, children, what did Pharaoh say to Moses?

Children—We don't know.

"Oh, yes, you do. He told Moses to go and do something. Now, what did he say?"

"Go way back and sit down!"—Baltimore American.

Distinction.

"Wha's the diff'rence 'tween gastronermy an' jes' plain, common cookin', huh?"

"Sig'nunce! Gastronermy 's jes' nachly cookin' wit gas, cohse."—Puck.

MRS. H. F. ROBERTS

Says to All Sick Women: "Give Mrs. Pinkham a Chance, I Know She Can Help You as She Did Me."

"DEAR MRS. PINKHAM: The world praises great reformers; their names and fames are in the ears of everybody, and the public press helps spread the good tidings. Among them all Lydia E. Pinkham's name goes to posterity

MRS. H. F. ROBERTS,
County President of W. C. T. U., Kansas City, Mo.

with a softly breathed blessing from the lips of thousands upon thousands of women who have been restored to their families when life hung by a thread, and by thousands of others whose weary, aching limbs you have taken away.

"I know whereof I speak, for I have received much valuable benefit myself through the use of **Lydia E. Pinkham's Vegetable Compound,** and for years I have known dozens of women who have suffered with displacement, ovarian troubles, ulcerations and inflammation who are strong and well to-day, simply through the use of your Compound."—Mrs. H. F. ROBERTS, 1404 McGee St., Kansas City, Mo. —*$5000 forfeit if above testimonial is not genuine.*

Don't hesitate to write to Mrs. Pinkham. She will understand your case perfectly, and will treat you with kindness. Her advice is free, and the address is Lynn, Mass.

THE MINING TROUBLES

One Killed and Four Wounded Near Madisonville, Ky.

A Well Directed Fire Was Poured Into the Houses Occupied By the Non-Union Employes and Their Families.

Madisonville, Ky., Nov. 18.—Mining troubles in this district brought bloodshed Sunday morning. Jas. H. Smith a Negro striker, is dead; Geo. Crouch another striker, is fatally wounded, while John West, Hut Dawson and Nathan Bush, all guards, are wounded none of them dangerously. The trouble occurred at the mines of the Providence Coal Co., 17 miles from here where an attack began at about 4:30 o'clock. The attacking party, some 75 or 80 strong, first fired on the engine house and then in a few minutes the company's stables were surrounded. A horse and a mule were killed and several other animals disabled. By this time the guards were becoming active and the attackers formed in a semi-circle over the brow of the hill. From there they poured a well directed fire upon the houses occupied by the non-union employes and their families. Men aroused by the crash of bullets rushed to small timber piles, arranged for use in such an emergency, and from behind these returned the fire.

The attacking party, while sending volley after volley into this quarter, kept up a steady fire on the tiplet, engine room, stable and other buildings of the company while the guards, for their part, were doing effective work. The battle raged for almost an hour and a half when the assailants withdrew, leaving Smith dead and Crouch shot through and through on the field. How many wounded they took with them is not known, but the leader was seen to fall and it is believed some of the party who went to his rescue were hit.

County Judge Hall, at Providence started an investigation. An inquest was held, the coroner's jury verdict being that the Negro came to his death at the hands of the guards, while defending life and property, and they were therefore justifiable. The news of the shooting spread like wildfire. It was not long before the news reached Adjt. Gen. Murray, who at once commenced an investigation, opening up communication with the governor.

Following the battle at the Providence mine there were riots at other Kentucky mines. An attack was made on the mine guards at the Monarch miners, three miles from Earlington, Sunday night, but it was repulsed. Two employes of the St. Bernard Coal Co., at Morton's Gap, were fired upon by a man who sprang from behind a tree. There was much trouble at other places, but neither injury nor loss of life followed.

Madisonville, Ky., Nov. 18.—Two companies of state troops have been ordered out. The Madisonville company is doing patrol duty in the outskirts of town and the Hopkinsville company of the Kentucky state guard, under command of Capt. H. Thomas and Second Lieut. Robert D. Bellamy, reached here at 11 o'clock Sunday night. There are but 30 of the men, as orders reached Hopkinsville but a short while before train time. The company has an enlisted strength of 70 men and those who could not be found Sunday night will flow in the morning in command of First Lieut. Geo. W. Phelps. Maj. E. B. Bassett, of the 3d regiment of Hopkinsville, accompanied the troops. Adjt. Gen. Murray was out in a statement Sunday night in which he declares he is determined that lawlessness shall be suppressed. A detail of 20 men started for the Providence mine.

Sunday night as the train having the troops aboard passed the Nortonville camp, located in the woods near the railroad, camp fires could be observed and the scene was one of bustle. Several shots were fired, but not at the train.

At the Madisonville camp the strikers were astir. A searchlight recently placed on top of a coal tipple near Madisonville was thrown on the camp. About 150 men were there handling their arms and walking about between their tents.

A MEMORIAL ARCH.

The Empress Dowager Has Issued An Edict Eulogizing the Late Li Hung Chang.

Peking, Nov. 18.—The empress dowager has issued another edict eulogizing the late Li Hung Chang and ordering the erection of a memorial arch near his birthplace. The edict also directs that the rank of marquis, conferred upon the eldest son of the late Chinese statesman in his own right, shall descend through 23 generations. It confers high rank upon the other sons of Earl Li, upon whom the posthumous rank of marquis has been bestowed, and confers dignities upon his grandsons, together with lucrative offices.

Asphalt in Michigan.

Escanaba, Mich., Nov. 18.—Analysis of asphalt discovered near Rapid river, at the head of Little bay, shows that the product found is composed of 40 parts of high-grade lubricating oil and 60 parts of pure asphaltum, equal in quality to the famous Trinidad product.

Fought Over Creed.

Vienna, Nov. 18.—After a fierce fight Sunday Lutheran students drove Roman Catholic students out of the great hall of the university. The fighting continued outside the building.

JIM JEFFRIES WON.

The Big California Pugilist Still Retains the Championship of the World.

San Francisco, Nov. 16.—In one of the most unsatisfactory prize fights ever witnessed in this country, James J. Jeffries proved the victor Friday night over Gus Ruhlin, the Akron giant. In the fifth round of what was to have been a 20-round struggle Ruhlin wilted and then surrendered to his peer, to the utter amazement and disgust of the assembled thousands. No one was more surprised at the outcome than Jeffries himself, who asserted that while he had delivered one telling blow in the second round, he did not expect to win the victory so easily. Ruhlin's sole explanation of the outcome of the fight is that he received a chance blow which utterly disabled him, and that Jeff persisted in fighting him low.

While Ruhlin will make no absolute charge of Jeffries having committed a foul, he intimates that he was unfairly handled and injured as a result. Ruhlin received the support of his seconds in this stand, who say that his was a hopeless case after the second round. When seen in his dressing room after the fight Champion Jeffries said:

"I was certainly surprised at my easy victory and Ruhlin's amazing defeat. While it is true that he did not punch me hard enough during the five rounds to cause me any alarm, I believed him strong and cautious up to the moment of his collapse, and was surprised when he quit. I certainly had no trouble in whipping him, and had the fight gone on, the result must have been the same. Ruhlin was inaccurate and in poor wind, and I can not say that he even had the courage and force that I expected to encounter in him.

"Ruhlin took a stiff punch in the stomach in the fourth round, which, I presume, gave him trouble, nevertheless I expected him to lose harder than he did. Ruhlin can doubtless best explain his own position, and as for myself, I am willing to meet Sharkey next month, and there after to defend as best I can the title I hold."

CARBON CAST STEEL.

A Private Test of An Armor Plate Was Made at the Indian Head Proving Ground.

Washington, Nov. 16.—A private test was made at Indian Head of an armor plate made by the Carbon Steel Co., under patents of cast metal. The purpose is to combine a backing of low grade, soft and tough cast steel with a high carbon cast steel face, which may be made of any proportionate thickness. This plate is six inches thick, and was attacked by a six-inch gun, both shots cracking the plate. The inventors claim to be satisfied with the demonstration of the success of their plan of effecting a complete union by casting together the two grades of steel.

EARTHQUAKE SHOCK.

Buena Vista, Col., and the Surrounding Country Receives a Severe Shaking Up.

Buena Vista, Col., Nov. 16.—This town and surrounding country experienced an earthquake shock which lasted for several seconds. Many people rushed from their residences in night attire, fearing their houses would be demolished. Plate glass windows were cracked. It is reported that the waters of the Cottonwood lake rose considerably. Many huge boulders on Mount Princeton and Mount Harvard were dislodged and rolled down the sides of the mountain. The seismic disturbance seemed to travel from the southwest to northeast, and lasted about six seconds. This is the first earthquake ever felt in Buena Vista.

DETROIT BASEBALL CLUB.

Frank Dwyer, Former Cincinnati Pitcher, Signs a Contract as Playing Manager.

Detroit, Mich., Nov. 16.—Frank Dwyer, the former Cincinnati pitcher and umpire, after a conference with the new management of the Detroit Baseball club, Friday night signed a contract as playing manager of the club, and he at once began his work of organizing the club by signing Jimmie Barrett as one of the outfielders. The interests of Mr. Stallings in the club have not yet been acquired by the new managers. Two conferences were held between Mr. Stallings and Secretary Cook, but with out results.

Dishonest Employes.

New York, Nov. 16.—Two employes whose names have been withheld, robbed the Williamsburg Savings bank of $60,000. One of the men guilty of the crime was said to have died recently. Gen. Meserole, president of the bank, admitted that one of the men had confessed to the cashier. The bank is partly secured against the loss.

Fire in a Packing Establishment.

Kansas City, Mo., Nov. 16.—Fire that broke out in the canning building of the Cudahy packing establishment destroyed that building, with a large stock of canned meats that it contained. The loss is estimated at $150,000.

Brilliant Meteoric Shower.

Phoenix, Ariz., Nov. 16.—A meteoric shower of great brilliancy and considerable length occurred here early Friday morning. The shower continued half an hour, during that time more than 200 meteors were counted.

BOLOMEN KILLED.

Company E, Ninth Infantry, Attacked Near Tarangnan.

Capt. Hall, of the 21st Infantry, Had Four Separate Engagements With Filipinos in Balangas Province.

Manila, Nov. 18.—Company E, of the 9th infantry, Capt. F. H. Shoeffel, was attacked by 50 Bolomen and several insurgents armed with rifles at a point six miles from Tarangnan, in the island of Samar. The insurgents tried to rush the Americans, but failing to accomplish their purpose, they quickly broke and scattered. The men of the 9th had a corporal and a scout killed and one private wounded. Sixteen of the Bolomen were killed while the riflemen escaped.

Ten Hotchkiss rapid fire guns will be sent to the southern islands for operation in the mountains. Capt. Herman Hall, of the 21st infantry, has been scouting for several days in Balangas province. He had four separate engagements with the insurgents there. Judging from the firing on these occasions, Capt. Hall estimates the force of each band of the rebels at from 30 to 50. They made no attempt to charge Capt. Hall's party. Capt. Hall's scout resulted in the capture of one insurgent officer and 50,000 pounds of rice.

Gen. Sumner, commander of the district of Southern Luzon, highly praises Capt. Hartman and his troop of the 1st cavalry who last Wednesday morning attacked 400 insurgents entrenched in rifle pits at Buan, Balangas province, and routed them.

Gen. Sumner says that the blow then administered by Capt. Hartman is the most severe the insurgents have suffered since he, Gen. Sumner, assumed command of his district. Owing to the fact that the United States transports Sheridan, Waldron and Hancock all met with accidents in the inland seas of Japan, and the returning party of visiting congressmen is consequently delayed in the latter country, the transport Thomas, which arrived at Manila November 12, will be immediately dispatched to Japan. Gen Chaffee opposes United States transports in future passing through the inland seas.

Manila, Nov. 18.—The Filipino priest Depasoy has been sentenced by court martial to the penalty of death for the murder of certain of his countrymen who favored the Americans. Out of respect, however, to the condemned man's calling, and the great religious body to which he belonged and most unworthily represented, Gen. Chaffee has commuted the sentence to 20 years imprisonment. Gen. Chaffee desires it to be understood that the leniency exercised in the case can not be known as a precedent and that no person in the islands can be permitted to plead his office, however sacred and exalted this may be, as protection against crimes committed.

The municipal authorities have decided to enlarge the city of Manila and to incorporate within its limits the suburb of Santa Ana.

PRO-BOER DEMONSTRATION.

The Crew of a Dutch Fishing Boat Attacks a British Smack in the North Sea.

London, Nov. 18.—An extraordinary demonstration of pro-Boerism is reported by a Brussels newspaper. It seems that a Dutch fishing boat belonging to Ymuiden, while off Wellingen lightship, in the North sea, pretended to be in distress and approached a British smack. Thirteen fishermen from the Dutch boat boarded the British craft and attacked the crew of the latter, shouting, "Long live the Boers." Several of the Britishers were wounded.

It is alleged that before making the attack the Dutchmen locked their captain in his cabin.

The British smack succeeded in escaping and arrived at Osbend, where the captain lodged a complaint with the British consul.

Death of Dr. Albert L. Gihon.

New York, Nov. 18.—Dr. Albert L. Gihon, about 70 years old, former medical director of the United States navy, who came to this city from the south three weeks ago to meet his wife, who has been in Europe and who is expected back next Tuesday, died in the hospital Sunday. Dr. Gihon suffered a stroke of apoplexy last Thursday at his hotel and never regained consciousness. He was a native of Philadelphia.

Too Good to Live.

Minneapolis, Minn., Nov. 18.—Mrs. Sarah Nordeman, who, with her son, Knute Bjorge Nordeman, attempted suicide Saturday by taking morphine, died Sunday. The son is still in the hospital with prospects of recovery, although his mind is seriously deranged. He raved constantly about his desire to leave this world, as he believes himself too good to live here.

Wage Earners Party.

Chicago, Nov. 18.—Inspired by the success of the union labor candidates in San Francisco and Bridgeport, Ct., the labor men of Chicago are to be organized into a wage earners' party, and will have their own candidates for municipal and state officers.

Yeomanry Captured.

London, Nov. 18.—The South African casualty list shows that in the affairs at Brakspruit, November 13, which Lord Kitchener reported last Friday, 58 yeomanry were captured by the Boers and afterward released.

STILL A PRISONER.

Brigand Leaders Can Not Agree as to the Amount of Ransom For Miss Ellen M. Stone.

Sofia, Bulgaria, Nov. 18.—The brigands who abducted Miss Ellen M Stone, the American missionary, and Mme. Tsilka, her companion, have not yet replied to the latest proposals of Mr. Dickinson, diplomatic agent of the United States in Sofia. This is due to the fact that the band has many leaders and that the latter are unable to agree among themselves.

There is a general impression here that time is being frittered away while waiting for the brigands to reduce their demands. It is felt that the only means from which matters can be brought to a head is to inform them as to the amount available for ransom and to declare that this can not be increased for any consideration what ever. Such an ultimatum might endanger the life of Miss Stone, but it is more probable that the brigands will accept this condition.

Besides every day's delay imperils her life, not so much on the score of the brigands themselves, but by reason of the exposure and strain she is undergoing.

THE CHARLESTON EXPOSITION.

It Will Open Next Sunday Week With Religious Exercises By All Denominations.

Charleston, S. C., Nov. 18.—Next Sunday week the exposition will open here with religious exercises in which all denominations will take part. The musical programme will be rendered under the direction of Mme. Barbet, opening with an ode written for the occasion by George Herbert Sasas and set to music by Prof. Theodore Saul. The formal opening of the exposition will take place on Monday, December 2. Chauncey M. Depew, of New York, will deliver the principal oration and President Roosevelt will start the wheels moving by wire from the white house. The president has accepted an invitation to visit the exposition with his cabinet on February 12, Lincoln's birthday, and it is hoped he will be able to remain here several days, a number of entertainments having been projected in his honor, among them a deer hunt on the private grounds of President Wagner, of the exposition company.

This week the finishing touches will be given to the exterior of the exposition buildings and the work of decorating the interior will be completed. Exhibits are arriving each day.

BATTLE WITH BANK ROBBERS.

Two Men Are Dead and a Constable Is in a Very Critical Condition.

Sioux City, Ia., Nov. 18.—John Sunblad, who was shot in the battle with Greenville bank robbers at Albert City Saturday, died Sunday. He was one of the prominent merchants of Albert City.

Constable Lodine, who was shot in the groin, is in a critical condition.

The robber, who was shot in the stomach, died Sunday morning. He refused to give his name or the name of his assistants, but he admitted that they had robbed the bank. These men, a Negro, and a white man, also admit robbing the bank. Besides $435 in money recovered from the burglars they confess to having secreted $500 in a cornfield.

SENATOR CULLOM.

The Illinois Statesman Will Be Chairman of the Senate Foreign Relations Committee.

Washington, Nov. 18.—Senator Cullom, of Illinois, will be chairman of the foreign relations committee of the senate, to succeed the late Senator Davis. Senator Cullom said Sunday:

"I can not understand why rumors to the effect that I was undecided whether or not to take this chairmanship should be put into circulation. I have had no other intention since Mr. Frye declined the honor."

Mr. Cullom's decision to accept this chairmanship will cause him to resign the chairmanship of the committee on inter-state commerce.

BURIED UNDER SLAG.

One Man Was Killed and Two Badly Burned at the Axle Works, Homestead, Pa.

Homestead, Pa., Nov. 18.—Of a party of workmen buried Sunday under a mass of molten slag at the Howard axle works, John Rusk, aged 50 years is dead and Andrew Huisl, aged 33 and George Siski, aged 50, are badly burned. The accident occurred on the cinder dump of the company's plant. The victims were engaged in collecting scrap when a party of workmen at the top of the dump about 20 feet above dumped their car over the edge not knowing that the men were directly beneath them. The car contained about eight tons of slag, a great part of which was red hot and much of it in a molten state.

Guard Waldrupe Dead.

Leavenworth, Kan., Nov. 18.—J. B. Waldrupe, a guard at the Ft. Leavenworth military prison, who was shot during the mutiny at that institution on November 7, is dead. Twenty-six mutineers now become liable to a charge of murder.

Broke All Records.

Paris, Nov. 18.—An American-made locomotive, No. 3,999, on the Paris, Lyons & Mediterranean line, drawing 14 cars, a total of 181 tons, ran at the rate of 130 kilometers (81 miles) per hour the other day, breaking all records.

STATE ITEMS OF INTEREST.

KENTUCKY F. OF L.

Public Speaking Closed the Second Annual Convention at Lexington, Ky.

Lexington, Ky., Nov. 15.—A public speaking Thursday night closed the second annual convention of the Kentucky Federation of Labor. During the day officers were elected. Paducah was chosen as the 1902 convention city, and various resolutions pertaining to labor questions were adopted.

The legislative committee was directed to meet in Louisville Friday night to consider legislation favored by the Federation.

Boycotts on a Kentucky tobacco company not using the union label and Kentucky coal not mined by union men were declared.

Resolutions favoring the establishment of a state bureau of labor, the restriction by law of child labor, the limiting by law of the work day to eight hours, and indorse and authorize aid to striking miners in Hopkins county.

OFFICIALLY NOTIFIED.

George W. Lieberth Will Soon Be Installed Collector of the Sixth District, Covington.

Covington, Ky., Nov. 18.—George W. Lieberth, the newly appointed collector for the Sixth district of Kentucky, has been officially notified of his appointment, and Collector D. N. Comingore, whom he will succeed, has been officially notified of his removal. Mr. Lieberth has prepared his bond, giving a bonding company as security, and has forwarded same on to Washington. The transfer of the office will be made as soon as his bond is accepted and the proper officials can arrive from Washing to make the transfer. It is not thought that this will take over a week's time.

A SAD CASE.

Young Boy, Brooding Over His Mother's Insanity, Finally Lost His Own Mind.

Hopkinsville, Nov. 18.—One of the youngest persons ever placed in an asylum for the insane in this state was Lester Vance, a youth of seven years old, from Daviess county, where he has been adjudged or unsound mind, and brought to the Western Lunatic asylum. He was bright and happy until his mother became insane and was placed in the asylum here six months ago. This so preyed on his mind that he has recently become violent and tried to burn the house and kill his brothers and sisters.

Leaders Meet.

Central City, Ky., Nov. 18.—The leaders of the coal miners' strike met here Monday morning and afternoon to take some action with regard to the hearing of the federal court injunction at Louisville later in the week. It is believed that plans will be laid for future hostile demonstrations. Central City is the hotbed of strike feeling.

Tree Fell the Wrong Way.

Mt. Sterling, Ky., Nov. 18.—In Bath county, near this place, Frank Staton was cutting a large pine tree, endeavoring to drop it down hill. Contrary to his expectation, it fell uphill. As it came down Staton's wife, who was standing near, was caught under the main body of the tree and her back and skull crushed. She is dying.

Mob Reconciled.

Mayking, Ky., Nov. 14.—The guard which surrounded the Whitesburg jail to prevent the lynching of "Hade" Whittaker, who killed Preston Banks at Smoot creek, was dismissed, as the Bankses have just sent word that they are reconciled and will let the law take its course.

All Bids Rejected.

Covington, Ky., Nov. 16.—All bids for the construction of the public library in Covington were rejected by the trustees at their meeting Friday evening, as they were too high. The trustees have $75,000 in the treasury to build the library, and will not contract for more than that sum.

The Fox Hunt.

Irvine, Ky., Nov. 18.—The first consignment of guests for the annual meet of the National Fox Hunters' association has arrived here. The association formally opened Monday. Great interest is manifested and the best hunting in its history is expected.

Robbed of All Her Savings.

Newport, Ky., Nov. 16.—The residence of Mrs. Ida Woods, in Taylor Mill road, Latonia, was entered by burglars early Friday morning, and robbed of $100, all of her savings for several years.

A Carpenter's Fall.

Augusta, Ky., Nov. 18.—While David Crumbaugh, a carpenter, was working on the third floor of Knoedler's drug store he stepped backward and fell through the elevator shaft to the cellar. He sustained probably fatal injuries.

Swallowed Tacks.

Carrollton, Ky., Nov. 16.—Mrs. Ben Banta, a bride of a few weeks, is lying at the point of death, her condition being caused by swallowing tacks which she had placed in her mouth while putting down oil cloth.

AN ELECTRIC LINE.

Preparations Being Made to Begin the Survey of the Road From Lexington to Paris, Ky.

Lexington, Ky., Nov. 16.—The Georgetown & Lexington Traction Co. is preparing to begin a survey for an electric line to Paris. On Monday the survey is to be made which is to determine whether the road will go via Georgetown or direct from Lexington. The Georgetown line will soon be completed. The trouble regarding running into Georgetown has been settled, and only the fish plates are wanting to begin laying the rails, which will take but a short time.

SUED FOR DIVORCE.

A Barricade Kept Her Away From the Lawyers, So Mrs. Florence Crow Says.

Owensboro, Ky., Nov. 18.—In her suit for divorce Mrs. Florence Crow, of this county, alleges that her husband barricaded her at home for months to keep her away from lawyers whom she desired to consult.

Finally, the opportunity presented itself. She slipped away, and, eluding the vigilance of her lord and master, came to the city and rushed to the office of a lawyer, to whom she related her story. He quickly prepared and filed the petition.

Beaten to Death.

Albany, Ky., Nov. 14.—Another killing has taken place in this county. James Johnson was beaten to death with clubs and rocks in a drunken fight, 10 miles west of here. Sam Shipley, Sam Groce, John Henry and Bob Miller are charged with the murder. Officers are in pursuit of them.

Younce in the Insane Asylum.

Pineville, Ky., Nov. 16. — Mack Younce was tried Friday by a special jury and sentenced to the insane asylum at Lexington. Younce was a member of the alleged kuklux gang which attempted to whip Mrs. Jemima Hall and son, and which killed them in the attempt.

Engineer Killed.

Sturgis, Ky., Nov. 15.—The boiler in the Sturgis Milling Co.'s plant exploded Thursday, completely wrecking the plant. Engineer George Quirey was killed and the ruins are being searched for more bodies.

The Statement Incorrect.

Lexington, Ky., Nov. 15.—Trainer Si Hughes denies that Trainer Chas. Dodson told him that the three-eighths pole had been moved. He says he himself was the first to suspect that something was wrong.

Charged With Murder.

Hopkinsville, Ky., Nov. 16.—William Goldsworthy and George Phillips were bound over Friday on the charge of killing Officer Coffey and shooting Deputy Fields. Jim Will Anderson was dismissed.

Presidential Offices.

Washington, Nov. 15.—The post office at Bardwell, Ky., will become a presidential office on January 1, with salary of $1,000, and Berea, Ky., with salary of $1,200.

Fire in a Distillery.

Mt. Sterling, Ky., Nov. 18.—A loss of $5,000 was caused by an incendiary setting fire to the distillery of Joe Chambers, at Chambers Station, Menefee county.

An All-Kentucky Team.

Lexington, Ky., Nov. 18.—A project is on foot to organize an All-Kentucky football eleven and arrange a game with the Carlisle Indians for this city some time in early December.

Collapsed From Overwork.

Scottsville, Ky., Nov. 15.—Rev. J. B. Wichers, a Baptist minister, has been taken to Hopkinsville for treatment, his nervous system having collapsed from overwork.

Killed While Boating.

Scottsville, Ky., Nov. 16.—Charles Thomas, son of Lem Thomas, was shot and killed Friday by Price Jackson, his uncle. The men were hunting at the time.

Run Over By a Wagon.

Scottsville, Ky., Nov. 18.—Clifford Wade, 5-year-old son of Mr. Willis Wade, of this city, was run over by a loaded wagon, and is dying from his injuries.

Rather Young Bride.

Millstone, Ky., Nov. 14.—John Halbrooks, aged 19, of Leland, will be married here to "Bibie" Craft, the 14-year-old daughter of Postmaster Craft.

Fatally Injured By a Train.

Hopkinsville, Ky., Nov. 15.—Will Jessup, colored, was struck by a train on the Louisville & Nashville railroad and fatally injured.

Wealthy Farmer Suicides.

Lexington, Ky., Nov. 18.—Raymond Burgess, aged 60, a wealthy farmer, who lived near Sadieville, Ky., was found hanging in his home by friends Sunday afternoon. Burgess was a bachelor and lived alone. No cause for his suicide is known.

Bank Will Quit.

Lexington, Ky., Nov. 18.—The Union savings bank, recently organized in this city, will at an early day go into voluntary liquidation. The bank is in good shape, but its business has not been as large as was expected.

BOONE CO., RECORDER
Wednesday, - - Nov. 20, 1901.
W. L. RIDDELL. - - Publisher.

Neighborhood News.

PLATTSBURG.—John Baldon was the first to kill hogs around here.

Irvin Rue was calling on his best girl, Sunday.

A. E. Acra and daughter were visiting his brother, Sunday.

Some hunters shot and killed a calf for Frank Voshell, last week.

Cage Stephens and wife were visiting Mrs. Stephens' mother, last week.

Albert Acra killed a hawk, last week, that measured 3 feet 10 inches from tip to tip.

James 'Botts and family and Tony Rue and wife spent Sunday with Doll Walton and wife.

Mrs. Jenny Randall and Miss Pearl Botts were visiting Mrs. W. S. Acra and daughter, Wednesday.

CONSTANCE.—Raymond Jackson is quite ill.

Mrs. Souther is very ill.

A. Peno bought H. Fox's place.

Mrs. M. Kottmyer is on the sick list.

Fred Zimmer fell and broke his arm a few days ago.

Wm. Peno has purchased a lot and will build on it.

A. L. Loder, who has been quite sick is improving.

Rev. Hays preached at the Christian church, Sunday night.

Abe Hankins cripples the ducks and Irvin Hood catches them.

Lonnie Souther is working for a dairyman at Hamilton, Ohio.

James Popham thinks he has the lucky guess in the Enquirer's contest.

W. A. Crigler, recently elected commissioner in Kenton county, passed through here the other day.

Two automobiles passed through here Monday night. They rightened Dr. Crisler's horse near Fairview, and his buggy was run over a bank. Luckily the Doctor was not hurt.

FRANCESVILLE.—The sick of the neighborhood are all recovering.

Miss Mary Thompson is a guest of friends near here.

Boru, to Jake Reitman and wife, a daughter, on the 14th.

Willie Kilgour, of Cincinnati, was a guest of his brother Harry, Sunday.

W. S. Taylor, pastor of the Big Bone church, preached at Sand Run Saturday and Sunday night.

Mrs. Johnnie Gaar and Mrs. Sidney Blankenbeker, of Louisville, are visiting their parents, Mr. and Mrs. J. Wash Watts.

W. B. Graves got through gathering corn Friday, the first in the neighborhood. The neighbors' turkeys are disposing of a great deal of this valuable product near here.

In your personal mention column of the 13th you stated that James Beall and wife united with the Christian church at Bullittsville. This is a mistake; it was Sand Run Baptist church. They were baptized on Weduesday, in the river by the pastor, Rev. Charles Dame.

UNION—Miss May Norman called on Mrs. Chas. Bradford, Tuesday.

Mrs. Simmons and daughter, of Covington, were guests at J. M. Crouch's last week.

Miss Sallie Belle Allen, of Big Bone, spent several days with Mrs. Kennedy, last week.

Mr. and Mrs. Orin Percival spent Sunday afternoon with Mr. and Mrs. M. C. Norman.

Mrs. J. W. Conner gave a most delightful dining, Wednesday, to a number of her friends.

Mr. and Mrs. J. W. Kennedy spent the day in Corinth, Tuesday, with Mr. and Mrs. Will Dorman.

Mr. and Mrs. J. S. Asbury left, Monday, for their home after a pleasant visit with friends here.

The Ladies' Society of the Presbyterian church have decided not to give an entertainment Thanksgiving, as mentioned in last week's paper.

Mr. and Mrs. J. D. Norman and sons, Jeff and Daniel, and Victor Norman, all of Birmingham, Ala., are the guests of their parents, Mr. and Mrs. M. C. Norman, near here.

VERONA.—Mrs. Russell Hume has gone to Carrollton to live with her parents.

Denton Cotton and wife are making preparation to go to housekeeping.

Miss Bediuger and her assistant, Miss Myers are progressing nicely with the public school.

J. Showers has a new picket fence in front of his residence, which adds much to the appearance of the premises.

Mrs. M. Conley died of consumption, last Friday, and was buried at New Bethel cemetery, last Sunday afternoon.

Lost—Last Friday night a Shetland shawl some where on the road between Walton and Verona. The finder will please return same to Roberts' store.

We hear considerable complaint about the way our road overseer has been ditching the roads in front of certain premises.

Rev. S. M. Adams, who was called as pastor for New Bethel church, declined to accept, therefore, the members have set Saturday, Nov. 23rd to call a pastor for the ensuing year. All the members are requested to be present at the meeting.

FLICKERTOWN—Several from here attended church at Bellevue Sunday.

The first snow of the season fell last Thursday night.

Wm. Smith has gone to Addyston, where he will work in the pipe foundry.

Jim Burns and Courtney Jarrel are kept busy hauling logs for Baldon & Hewett.

Geo. Maines has hauled his logs to Aurora which Botts & Setters would not saw.

Ben Grant has finished gathering one field of corn that made about 40 bushels to the acre.

Doc Rice, agent for the Singer Sewing machine Co., was in this neighborhood last Friday in the interest of the company.

Hogs and turkeys are each 6 cents a pound, therefore, it will be just as cheap for everybody to have a Thanksgiving turkey as it is to have common, every day pork.

Harry Acra and family from down on Middle creek, spent a couple of days last week with relatives here. Harry brought his gun with him and succeeded in bagging several rabbits and quails.

Charlie Gaines and family and W. L. Aylor and wife spent a couple of days last week with James Gaines and wife here. The men spent the greater part of the time chasing the mollie cottons, which they found to be quite plentiful.

IDLEWILD—The game law has expired, and the local hunters are out after the birds.

E. M. Gaines is making his home with his son, C. A. Gaines.

Miss Beulah Gaines was visiting Miss Grace Davis, in the city, last week.

Hubert Walton and James Thompson took a nice drove of cattle to market, Sunday.

Lawrence Chambers has gone to Chicago to engage in the sugar manufacturing business.

W. D. Cropper, our esteemed merchant, is now a citizen of our town, boarding with James Brown.

Mr. and Mrs. John Cropper and grand-daughter, Virginia Lee, visited relatives in Union, last week.

Mrs. R. C. Gaines, Pauline Winston and mother spent last Wednesday very pleasantly with Mrs. C. E. Stepheus at Hebron.

After services, last Sunday, our pastor baptized those who united with the church by confession at the protracted meeting. Bro. John Cropper hauled and put 60 barrels of water in the baptistry for the occasion.

HEBRON.—Miss Mayme Ernest, who has been quite sick for the past week, is recovering.

William Batterson has been working in Ohio for the past two weeks.

We are glad to see our school progressing so nicely. Prof. Tanner deserves credit.

Mike Clore and wife, of Ludlow, have been visiting the latter's sister, Mrs. R. McGlasson.

Rumor says our western friend, Add Batterson, will be at home to eat his Christmas dinner.

People who attended the sale of John Vaneous, Thursday last, report good articles and fair prices.

Leslie Aylor has returned home after a pleasant visit with his cousin, Will Crisler, of Petersburg.

Dr. F. L. Sayre and wife were pleasant guests of Mrs. Bruce Grubbs and family, of Taylorsport, Monday.

James Wilcox and Ernest Moorman, of East Walnut Hills, were pleasant guests of the Misses Ernests, last Sunday.

Clyde Hafer, who formerly worked in Indiana, and who has been at home on account of illness, has resumed his position.

Will Hess, of Cincinnati, has been out on a hunting expedition, and was the pleasant guest of Mr. W. McGlasson and wife.

PETERSBURG—Wm. Passons and family have moved to Indianapolis, where Billy has a good job.

Ed Stott is head miller at Newtown, Indiana, roller mills.

The government will build a movable dam at Lawrenceburg.

Geo. Pitcher and mother, of Big Bone, were in town Monday.

Deputy Sheriff Ira Miller, of Lawrenceburg, was here, last week.

Mr. and Mrs. E. T. Krutz returned home Thursday from Big Bone.

Rev. Chandler, of Newport, is being entertained by Mrs. Maria Terrill.

A heavy rain on the headwaters will cause a slight rise in the river here.

The Indiana was aground on Gunpowder bar for 14 hours, last Friday.

The high wind blew nearly all the water out of the river, last Thursday.

None of our would-be soldier boys passed the required physical examination.

John Helms, of Shelbyville, Ky., was the guest of his brother here last week.

Scott Chambers sold his tobacco to Wingate & Thompson for $6 50 for the best leaf.

J. J. Rucker, of Constance, was here one day last week visiting his mother.

There is an epidemic of a very aggravated form of sore throat prevailing here.

Harry Goss, one of the best reporters on the Enquirer, was here several days last week.

Ervin Peas, an old veteran of the late war, is dangerously ill at his home in the new addition.

Mr. and Mrs. Louis Geiszler have adopted a baby boy from an Orphans' Home in Cincinnati.

Lafe McChord, of Milton, clerk on the Indiana, was calling on Miss Birdie Bolton, last week.

Mrs. Adam Hoffman, sr., has rheumatism badly. Miss Lena Messmer, of Idlewild, is with her.

The Workum is out on the docks at Cincinnati. She will look like a new boat when she comes off.

It is said that Ed Botts, of Plattsburg, has a pull with the new Collector. Hope Ed will land a place.

J. L. Conner and Louis Papet have gone to Cincinnati to overhaul the old Royer Wheel Works plant.

All the Methodist preachers in the Covington district are with us this week. The town ought to be getting better.

Dogs got among M. F. Wingate's and John Smith's sheep, one day last week, killing and crippling a number. They got the dogs.

Dr. E. H. Grant and Dr. J. M. Mathews, leading physicians of Louisville, were visiting E. L. Grant and hunting last Saturday.

It is said that a farmer boy living a few miles out in the country and a pretty little town blond will be married in the near future.

President Roosevelt keeps the boys guessing what he will do next. The appointment of Leiberth as Collector, knocked some of them silly.

Misses Lou Allen, Sallie and Florence McWethy are indefatigable workers in the Epworth League. Miss Lou Allen is the secretary for this district.

Rev. Seaman, of Covington, preached at the Christian church last Sunday morning and evening. He makes a fine appearance and is a good talker.

The stove in the Berkshire schoolhouse exploded, last Thursday, and

All 25c Pills sold at
19 Cents at
ESKEW'S, Pharmacy,
Walton, Ky.

scattered things all over the house. Miss Gaines had to dismiss school for the day.

There is an extra large crop of pole cats this fall, and our champion trapper, Owen Batchelor, has caught a number already. He has a way of capturing them without their producing any effluvium.

Mrs. Arthur Evans has returned home from the hospital in Cincinnati, but is not much improved. Hers is a singular case; as she was stricken blind almost instantly and has never regained her sight entirely.

Following is the lineup for the game of foot ball here on Thanksgiving day:

Petersburg.		Lawrenceburg.
S. Pink,	left end	F. Albright,
C. Burns,	left tackle	J. Suetzer,
E. Tafferty,	left guard	B. Conkle,
B. Bahn,	center	H. Gould,
M. Cave,	right guard	E. Yeager,
A. McCool,	" tackle	B. Whitaker,
W. Gordon,	" end	W. Mason,
W. Alden,	quarter back	J. Ingles,
R. Guisinger,	left ½ back	W. Motherat,
P. Mahau,	right half back	G. Gould,
E. Theetge,	full back	P. Lemuel,
E. Shinkle,	sub.	

Umpire—H. Mahan. Game called at 2:20 o'clock, Thursday, Nov. 28.

WALTON—The funeral sermon of Bruce Finuell, as good a boy as ever was raised in the town, was preached at the Christian church by Bro. Wallace, last Sunday. There was a very large attendance as the lad was highly esteemed for many lovable traits.

Mr. and Mrs. Marcellus Riddell, of Burlington, were visiting at Everett Stephens', Sunday and Monday.

Dr. A. M. Jones was removed, last Sunday, at the request of Dr. Frohlicher, his physician, to Beebe's hospital, in Cincinnati, so that he may receive the closest attention.

Chas. H. Lermond, of High St., and Chas. Davis at Mr. E. West's, near the Southern depot, are both very ill, but to day, the 18th, seem to be slightly better. Chas. Rausler is nearly or quite well.

Early last week came J. T. McLean whilhom, of Middlesboro, and Moses Rice, of Covington, bringing with them a working model of one of the most useful household articles ever brought to this region. Mr. C. Rich, of Pluer, happened to be in town when the article was on exhibition at the Phoenix and was so taken with the novelty and usefulness of the article that he made arrangements to have the rights of Kenton and Pendleton counties transferred to him Monday, last.

Britteuhelm Bros. also made an investment in an article for farm and garden improvement that seems to be absolutely necessary to either of them. Richard M. Jones is also handling the patents for some very useful articles.

Glasscock's tobacco warehouse was broken into, one night last week, and some one helped themselves to tobacco, nails and anything there was lying loosely around. The case is being investigated and the party or parties who burglarized the premises may find themselves up against Judge Lassing's court.

The remains of J. P. Lathrop, who died in Newport, were interred in the Baptist cemetery last week. Mr. Lathrop was agent and operator of the Short Line R. R. as the L. & N. was then called, and is still known as such through out the country.

The little son of William Crisler was buried on the same day, aged 1½ years.

RICHWOOD.—Andy Collins, sr., is seriously ill of Bright's disease.

John R. Carpenter celebrated his 61st birthday, Sunday.

Elbert Glackin is about again after a long siege with typhoid fever.

Miss Lena Walter, of Verona, spent last week with Mrs. John Fowers.

Mr. Harris, of Cincinnati, visited Sam Hicks, last week, and took a hunt.

Mr. Clark, agent at Ludlow Station, spent in few days last week at Jerry Carpenter's, hunting.

Potatoes, corn and chickens around here are walking away. Petty stealing is becoming unbearable.

Hunters galore here last week. Over 100 quails have been taken out of this neighborhood since the 15th inst.

James Carpenter is circulating a petition asking the Governor to remit the fine imposed on him at the last term of circuit court.

Sam Hicks says the birds were nearly all killed the first three days of the open season. If rabbits are not put on the protected list, it will be only a few years until there will be no birds at all.

We see that the Crescent correspondent gives one of our citizens a "jar" on a Thanksgiving hunt. Walter says he hopes Hubert will have some of the old gentlemen penned with the stock, as heard once, "We don't allow no hunting, boys," and in Kenton, too.

CRESCENT.—Eugene Wallingford has removed from Newport to his residence at this place.

Willie Glacken is reported very low with typhoid fever.

T. J. Brown, of Hebron, was visiting his son, Elbert Brown, of Cincinnati, last Friday.

Miss Blanche Tanner, of Erlanger, was the guest of Miss Hattie Riley, last Sunday.

Oscar Edwards, of Cincinnati, spent Sunday visiting friends and relatives at this place.

Bert Northcutt was visiting friends and relatives in Covington and Cincinnati, last Saturday.

Miss Ida Grubbs, of Richwood, was visiting her sister, Mrs. Lute Tanner, of Banklick, last Friday.

Mr. John Harris, who is staying with his daughter, Mrs. Bud Carpenter, is very sick. Mr. Harris is quite old and has been afflicted for several years.

Chas. Cahill has accepted a position with the Steward Iron Company, of Cincinnati. We will miss you, Charley, but you have our best wishes for your success.

Mr. Hardsaw, who has been spending several weeks with his son-in-law, Wm. Weber, will resume his position on the Louisville and Nashville Railroad in the near future.

Rev. Means filled his regular appointment at the Mt. Zion M. E. church last Sunday evening. He has been with us only a short while, but his congregation is quite large, and his sermons instructive and highly appreciated by all who have heard them.

GUNPOWDER.—E. D. Crigler left a few days since for Florida, where he will spend the winter with his son L. N. Crigler.

Harrison Clore and wife were guests of J. C. Hankins, last Sunday.

Clark Rouse, of the Big Bone neighborhood, was in our burg last Saturday.

Levi Tanner has purchased a house and lot in Union and will move there in the spring.

A number of the boys met last Saturday and sawed Aunt Polly Rouse a nice lot of wood.

Mrs. D. I. Tauner, of Hebron, was visiting her father Leon Tanner and wife, a few days last week.

Rev. T. L. Utz moved to Florence last week, where he will reside until spring, when he will take possession, of the farm he purchased recently.

The arrangements for the publication of the History of the Boone County Cluge are now completed, and the work is under way, and will endeavor to have the book out by Christmas.

Some worthless curs made a raid on several flocks of sheep in this neighborhood a few nights since. J. S. Surface had 17 killed and wounded; Lute Aylor, 10 and J. H. Tanner one, killed.

John Surface and Perry Utz went over to Beaver, one day last week, to take a hunt and narry a rabbit did they get. They say it was no fit time to hunt. It was too dry and cold for the rabbits to be out.

Hopeful church has recently purchased a new organ, and has a good second hand Mason and Hamlin organ for sale. Any one desiring to purchase an instrument of that kind will please call on or address Mrs. H. F. Utz or B. A. Floyd, of Gunpowder, or Jeremiah Beemon, of Limaburg.

To The Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, Ralph S. Myers, 54-Thirty-seventh St., Wheeling, W. Va. For sale by all Druggists.

FOR RENT

For one or more years, from 1st of March, 1902—Two farms now occupied by W. W. Botts, of Boone county, Ky. One of 60 acres, dwelling house, smoke house, hen-house, tobacco-stripping house, large barn, stable and corn crib, sheep-shed and about 7 acres first class tobacco ground, 15 acres of meadow, balance in grass. Will rent on shares or for cash at end of the year. The other farm has about 40 acres, all in grass, no buildings on this farm. Enquire of W. W. BOTTS on the farm or Dr. E. L. GRANT, Petersburg, Ky.

Eggs 18 cents a dozen and scarce.

The colored church had a baptizing down ou Gunpowder, last Sunday.

Subscribe for the RECORDER and get it until January 1, 1903 for $1 50.

Fine weather is with us again after last week's three days effort to snow.

Estray.—A large, listed sow. Been gone one week. J. F. BLYTH.

The butchering season is now on, having been hastened somewhat by the short supply of corn.

A great many rabbits are being caught in snares, this fall. They are generally fat and nice.

Harry Roberts and wife entertained quite a number of young folks with a party, one night last week.

Cashier Revill decided that the Boone County Deposit Bank needs a 'phone, and has had one put in.

The opening of the hunting season for quails was celebrated by the discharge of firearms in every direction, last Friday.

Birds and rabbits are very scarce about here—Arthur Rouse and Edwin Gaines were out with their guns a day or two last week.

Rev. H. J. Seaman, of Covington, preached at Petersburg, Sunday, for Elder Edgar Jones, who is conducting revival services at Erlanger.

It tried for three days last week to snow, and could not, so the prediction that it will not rain until after a good snow falls, carries no comfort.

Peter Hartman, of Lawrenceburg ferry, was in town yesterday. He says if the river gets much lower water will have to be hauled for the fish.

Our patrons at the Union office can now read the RECORDER after supper every Wednesday evening, after which they will enjoy the night's repose.

J. B. Tolin, of Petersburg, is an agent for W. J. Bryan's paper, the Commoner, and will canvass this county for subscribers, beginning at an early date.

John Keyes, one of the "shanty-boat murderers," tried here several years ago, has bobbed up in Cincinnati again, where he was arrested for practicing a trick game.

Master Garnett Tolin, son of Senator Tolin is a candidate for Page in the Senate. He would make a good Page, and his father being a member of the Senate he ought to get the position without any trouble.

John C. Sebree, of Plattsburg neighborhood, was in town yesterday and had bills printed, announcing a sale of his stock, crop and farming implements for the 29th inst. He intends to move to Cochran, Indiana, to educate his children.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and can be given as confidently to a baby as to an adult. For sale by all Druggists.

Having moved my Drug Stock into the building lately occupied by W. H. Clark—one door above the National Bank, I cordially extend an invitation to all my old patrons and the public in general of Boone to call and see me at my New Place of business, here assuring you of my appreciation of your patronage in the past, and hoping for a continuance of the same.

I am yours respectfully,
J. P. HEMPHILL,
Rising Sun, Indiana.

Claud C. Adams, who has recently been elected County School Superintendent of Grant county, will be admitted to the bar in a few days. He has been studying law at the Cincinnati Law School for the past two years and will shortly receive his diploma. On last Monday the Judge of the Grant County Court issued him a certificate of character, which is the first preliminary step to securing his license. Attorney Adams will practice at the Grant county bar.—Courier.

The Gospel meetings of the Church of the Disciples began Sunday night at Erlanger Town Hall. Rev. Edgar D. Jones preaching a brilliant discourse to a crowded house. The following is the list of subjects to be discussed during the meeting: "The Christian Church, Its principles and Its Plea," "Stumbling Blocks and Stepping Stones," "The Safe and Infallible Way," "Life's Great Guide Book," "The Birthday of the Church," "The Man Christ Jesus." "Sin and Its Wages," "Choosing a Master," "The Fixed Gulf," "Sympathy," "Heaven," "Prevailing Voices," "The Faith That Saves," "Repentance Unto Salvation," "Judging—and Judgment," "Was Thomas a Doubter?" "Enduring to the End," "The Mind of the Master," "Soldier of the Cross," "The story of a Troubled Conscience," "The Philippian Jailer," and "A Model Conversion."

Astounding Discover.

From Coopersville, Michigan, comes word of the discovery of a pleasant tasting liquid that when used before retiring by anyone troubled with a bad cough always ensures a good night's rest. "It will soon cure the cough, too," writes Mrs. S. Himelburger, "for three generations of our family have used Dr. King's New Discovery for Consumption, and never found its equal for Coughs and Colds." It is an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles for 50 cents and $1 at W. F. McKim's, Burlington; Union Drug Store, Union; H. L. Eskew's, Walton; O. N. Grant's, Bellevue; J. G. Oelsner's, Florence. Trial bottles free.

Personal Mentions.

Robert Bradford, of Hebron, was in town yesterday.

The meeting at the Presbyterian church closed Tuesday night.

Mrs. J. G. Furnish returned to her home at Lakeland, last Saturday.

Mrs. Richard White has been visiting relatives in Cincinnati for a week.

A man with a patent door closer canvassed the town, one day last week.

Rev. Sproles is engaged in a protracted meeting at Oak Ridge, Kenton county.

Wilson Gaines returned home, last week, from a tour as far west as California.

Chester Davis and wife, of Hebron, were guests of V. W. Gaines and wife, Sunday.

Mrs. Dr. Smith left Saturday morning for a visit to Mrs. Frank Smith in St. Louis.

W. D. Cropper, of Idlewild, is becoming a regular attendant at church in Burlington.

John and Charles Clore, of Hebron, had telephones put in their residences, last Saturday.

J. C. Byland, the best life insurance man in Northern Kentucky, was in town yesterday.

R. A. Brady and wife, from down on Middle creek, were visiting their daughters here, Monday.

Congressman Gooch, wife and daughter, were guests of Mr. and Mrs. Dudley Rouse, last Sunday.

Addison Riddell, of Constance neighborhood, was transacting business in the hub last Saturday.

Mr. and Mrs. Roy Clutterbuck were visiting Mr. and Mrs. Fletcher Clore, of Bullittsburg, Sunday.

Rev. C. A. Earle will preach at the Burlington Baptist church, next Sunday morning and evening.

Jno. Deck and wife from near the mouth of Woolper, were among the visitors in town Saturday.

Doc Mannin and John Taneous, of Hebron, were transacting business in Burlington, last Saturday.

Mesdames Cyrus Riddell and C. C. Hughes attended the Epworth League meeting in Petersburg, yesterday.

Atty. A. W. Gaines, of Chattanooga, Tennessee, spent a day or so with his relatives in this county, last week.

Leslie Harrison, of the North Bend neighborhood, was doing business at the Court-house Monday morning.

Messrs. Jutus and Elisha Hudson, of Walton, were in town, yesterday, and replenished the State's exchequer considerably.

Mr. and Mrs. Henry Malory, who reside at Lawrenceburg ferry, were in Burlington, Saturday. They are holding their own well.

Sheriff Beall and Jimmie Duncan were in the city Monday. They went down to try and get the official returns from the Ohio election.

Hal Presser, of Hathaway, came over on a business trip, last Monday, and reported everything in good condition in that part of the county.

Mrs. B. W. Adams was visiting in Beaver Lick neighborhood, last week, and attending the protracted meeting at Beaver Lick Baptist church.

Sheriff elect J. W. Connelly and wife, of Gallatin county, were guests of Sheriff-elect B. B. Allphin and wife a few days the first of this week.

Harry Adams, of Sugar, Gallatin county, is at his mother's, near Big Bone, trying to give the ague the shake, it having been shaking him for several weeks.

Judge Lassing came home Saturday evening from Owenton, and left Sunday morning for Warsaw, where he commenced a term of Circuit Court, Monday morning.

Joshua Masters, of Bullittsville, was in town Monday morning, and told about a well recently completed in his town, that is capable of supplying the entire county with water.

Mrs. John Miller, of Florence, was honored with a visit from her sister, of Kansas City, Mo., a few days last week. She is going east on business. She is Superior of their new Academy.

W. M. Rogers, of Walton, came down, one day last week to form the acquaintance of his new grand son at Judge Roberts'. The old gentleman was very favorably impressed with the young man.

S. J. Ewalt, one of the oldest and most substantial citizens of the Hamilton neighborhood, was in town Monday and Tuesday, the first time for many months, on account of feeble health. We hope he will soon regain both health and strength.

Our ex-towusman, H. W. Blyth, came up from Petersburg early Monday morning, presumably to collect the forfeit on the Maine-Berkshire trotting race which he arranged for, the last time he was here. It is understood that the forfeit was a liberal one. While here Harry was not to say voluable in his praise of the course of the new President to date, but, nevertheless, he has an abiding faith in Teddy.

Spreads Like Wild Fire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years." You know why? Most diseases being in disorders of stomach, liver, kidneys and bowels, blood and nerves. Electric Bitters tone up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, rundown man or woman. Price, 50 cents. Sold by W. F. McKim, Burlington; Union Drug Store, Union; H. L. Eskew, Walton; O. N. Grant, Bellevue; J. G. Oelsner, Florence.

A LESSON OF HOPE.

Dr. Talmage Would Lift People Out of Despondency.

Shows Some of the Future Joy Which May Be the Portion of Everybody—Assurances from Heaven.

[Copyright, 1901, by Louis Klopsch, N. Y.]

In this discourse Dr. Talmage would lift people out of despondency and bring something of future joy into earthly depression. The text is Hebrews 6:19, "Which hope."

There is an Atlantic ocean of depth and fullness in the verse from which my text is taken, and I only wade into the wave at the beach and take two words. We all have favorite words expressive of delight or abhorrence, words that easily find their way from brain to lip, words that have in them mornings and midnights, laughter and tears, thunderbolts and dewdrops. In all the lexicons and vocabularies there are few words that have for me the attractions of the last word of my text: "Which hope."

There have in the course of our life been many angels of God that have looked over our shoulders, or met us on the road, or chanted the darkness away, or lifted the curtains of the great future, or pulled us back from the precipices, or rolled down upon us the rapturous music of the heavens, but there is one of these angels who has done so much for us that we wish throughout all time and all eternity to celebrate it—the angel of Hope. St. Paul makes it the center of a group of three, saying: "Now abideth faith, hope, charity." And, though he says that charity is the greatest of the three, he does not take one plume from the brow, or one ray of luster from the brow, or one aurora from the cheek, or one melody from the voice of the angel of my text: "Which hope."

That was a great night for our world when in a Bethlehem caravansary the Infant Royal was born, and that will be a great night in the darkness of your soul when Christian hope is born. There will be chanting in the skies and a star pointing to the nativity. I will not bother you with the husk of a definition and tell you what hope is. When we sit down hungry at a table, we do not want an analytical discourse as to what bread is. Hand it on; pass it round; give us a slice of it. John speaks of hope as a "pure hope." Peter calls it a "lively hope." Paul styles it a "good hope," a "sure hope," a "rejoicing hope." All up and down the Bible it is spoken of as an anchor, as a harbor, as a helmet, as a door.

When we draw a check on a bank, we must have reference to the amount of money we have deposited, but Hope makes a draft on a bank in which for her benefit all Heaven has been deposited. Hope! May it light up every dungeon, stand by every sickbed, lend a helping hand to every orphanage, loosen every chain, caress every forlorn soul and turn the unpictured room of the almshouse into the vestibule of Heaven! How suggestive that mythology declares that when all other deities fled the earth the goddess Hope remained!

It was hope that revived John Knox when on shipboard near the coast of Scotland he was fearfully ill, and he was requested to look shoreward and asked if he knew the village near the coast, and he answered: "I know it well, for I see the steeple of that place where God first opened my mouth in public to His glory, and I am fully persuaded how weak that ever I now appear I shall not depart this life till my tongue shall glorify His holy name in the same place." His hope was rewarded, and for 25 more years he preached. That is the hope which sustained Mr. Morrell, of Norwich, when departing this life at 24 years of age he declared: "I should like to understand the secrets of eternity before to-morrow morning." That was the kind of hope that the corporal had in the battle when, after several standard bearers had fallen, he seized the flag and turned to a lieutenant colonel and said: "If I fall, tell my dear wife that I die with a good hope in Christ and that I am glad to give my life for my country." That was the good hope that Dr. Goodwin had in his last hour when he said: "Ah, is this death? How have I dreaded as an enemy this smiling friend!"

Philippe de Mornay, prime minister of Henry IV, when asked in his last hours whether he was certain of eternal felicity, replied: "I am as confident of it from the incontestability of the spirit of God as ever I was of any mathematical truth from all the demonstrations of Euclid." That was the hope that cheered Vara, the converted native of the island of Aimeo, when he said in his last moment: "The canoe is on the sea; sails are spread; she is ready for the gale. I have a good pilot to guide me and a good haven to receive me."

No better medicine did a man ever take than hope. It is a stimulant, a febrifuge, a tonic, a catholicon. Thousands of people long ago departed this life would have been living today but for the reason they let hope slip their grasp. I have known people to live on hope after one lung was gone and disease had seemed to lay hold of every nerve and muscle and artery and bone.

Alexander the Great, starting for the wars in Persia, divided his property among the Macedonians. He gave a village to one, a port to another, a field to another and all his estate to his friends. Then Perdiccas asked: "What have you kept for yourself?" He answered triumphantly, "Hope." And, whatever else you and I give away, we must keep for ourselves hope—all comforting, all cheering hope. In the heart of every man, woman and child that hears or reads this sermon may God implant this principle right now.

Is your health gone? Then that is a sign that you are to enjoy a celestial health compared with which the most jocund and hilarious vitality of earth is invalidism. Are your fortunes spent? Remember you are to be kings and queens unto God and how much more wealth you will have when you reign forever and ever. I want to see you when you get your heavenly work dress on. This little bit of a speck of a world we call the earth is only the place where we get ready to work. We are only journeymen here, but will be master workmen there. Heaven will have no loafers hanging around. The book says of the inhabitants: "They rest not day or night." Why rest when they work without fatigue? Why seek a pillow when there is no night there? I want to see you after the pedestrianism of earth has been exchanged for powers of flight and velocities infinite and enterprises interstellar, interworld.

I suspect that the telescope of that observatory brings in sight constellations that may comprise ruined worlds which need looking after and need help saintly and missionary. There may be worlds that, like ours, have sinned and need to be rescued, perhaps saved by our Christ or by some plan that God has sought out for other worlds as wise, as potent, as lovely, as the atonement is for our world. The laziness which has cursed us in this world will not gain the land of eternal activities—so much tonic in the air, so much inspiration in the society, so much achievement after we get the shackles of the flesh forever off. Do not dwell so much on opportunities past, but put your emphasis on opportunities to come. Do not count the battles lost, but scour your musket for victories to come.

Am I not right in saying that eternity can do more for us than can time? What will we not be able to do when our powers of locomotion shall be quickened into the immortal spirit's speed? Why should a bird have a swiftness of wing when it is of no importance how long it shall take to make its aerial way from forest to forest, and we, who have so much more important errands in the world, get on so slowly? The roebuck outruns us, the hounds are quicker in the chase, but wait until God lets us loose from all limitations and hinderments. Then we will fairly begin. The starting post will be the tombstone. Leaving the world will be graduation day before the chief work of our mental and spiritual career. Hope sees the doors opening, the victor's foot in stirrup for the mounting. The day breaks—first flush of the horizon. The mission of hope will be an everlasting mission, as much of it in the heavenly hereafter as in the earthly now. Shall we have gained all as soon as we enter realms celestial—nothing more to learn, no other heights to climb, no new anthems to raise, a monotony of existence, the same thing over and over again for endless years? No! More progress in that world than we ever made in this. Hope will stand on the hills of Heaven and look for ever brightening landscapes, other transfigurations of color, new glories rolling over the scene, new celebrations of victories in other worlds. Heaven rising into grander heavens, seas of glass mingled with fire, becoming a more brilliant glass mingling with a more flaming fire. "Which hope."

Do not have anything to do with the gloom that Harriet Martineau expressed in her dying words: "I have no reason to believe in another world. I have had enough of life in one and can see no good reason why Harriet Martineau should be perpetuated." Would you not rather have the Christian enthusiasm of Robert Annan, who, when some one said: "I will be satisfied if I manage somehow to get into Heaven," replied, pointing to a sunken vessel that was being dragged up the River Tay: "Would you like to be pulled into Heaven with two tugs like that vessel yonder? I tell you, I would like to go in with all my sails set and colors flying."

Again, let me introduce the element of hope to those good people who are in despair about the world's moral condition. They have gathered up appalling statistics. They tell of the number of divorces, but do not take into consideration that there are a thousand happy homes where there is one of marital discord. They tell you of the large number in our land who are living profligate lives, but forget to mention that there are millions of men and women who are doing the best they can. They tell you the number of drunkeries in this country, but fail to mention the thousands of glorious churches with two doors, one door open for all who will enter for pardon and consolation and the other door opening into the Heavens for the ascent of souls prepared for translation.

Those pessimists do not realize that two inventions of our times are going to make it possible under God to bring this whole world into salvable and millenial condition within a few weeks after those two inventions shall be turned into the service of God and righteousness, as they will be. I refer to the telegraph and the telephone. If you think that God allowed those two inventions to be made merely to get rapid information concerning the price of railroad stocks or to call up a friend and make with him a business engagement, you have a very abbreviated idea of what can be done and will be done with those two instruments. The intelligence of the world is to be expanded, and civilization will overcome barbarism, and illiteracy will be extirpated, and the promise will be literally fulfilled: "A nation born in a day."

Let Hope say to the foreboding: Do all you can with Bible and spelling book and philosophic apparatus, but toil with the sunlight in your faces or your efforts will be a failure. The pallor in the sky is not another phase of the night, but the first sign of approaching day, which is sure to come as to-night will be followed with to-morrow. Things are not going to ruin. The Lord's hosts are not going to be drowned in the Red sea of trouble. Miriam's timbrel will play on the high banks "Israel Delivered." High hope for the home! High hope for the church! High hope for the world!

I introduce the angel of Hope to those who have through decease lost Christian friends. "How could I find them," says a bereft soul, "up there in the land of the multitudinous?" You may find them by inquiry, by heavenly escort and by unfailing memory of the guard at the gate. "And he carried me away in the spirit to a great and high mountain, and showed me that great city, the holy Jerusalem, descending out of Heaven from God, having the glory of God, and her light was like unto a stone most precious, even like a jasper, clear as crystal, and had a wall great and high, and had 12 gates and at the gates 12 angels." So you see, there will be an angel guarding each gate. As you go in ask the armed guard. He saw your loved one pass through, and will know the direction to take and by what fountain or in what street of gold is the mansion prepared. The blessed Christ knows where your departed loved one is, and He will tell you if no one else will. Fifty ways of finding out the whereabouts of your ascended one. What will I surely know Him when I get there, for he will be so changed?" Yes, for you will be just as much changed, and the old affinity will assert itself. The soul will be as easily distinguished by soul there as on earth the body is distinguished by the body.

Open that closed instrument of music in your parlor that has not been played on since the hand of the departed player forgot its cunning. Put up before you on the music board the notes of the hymn of Isaac Watts and sing "There Is a Land of Pure Delight" or James Montgomery's hymn, "Who Are These In Bright Array?" or Fillmore Bennett's "Sweet Bye and Bye" or "Jerusalem the Golden." Take some tune in the major key—"Ariel" or "Mount Pisgah." While you play and sing the angel of Hope will stand by you and turn the leaves and join in the rapturous rendering. Reunion with the loved and lost! Everlasting reunion! No farewell at the door of any mansion! No good-by at any of the 12 gates! No more dark apparel of mourning, but white robe of exaltation! Hop now is on its knees, with face uplifted, but Hope there will be on tiptoe or beckoning you to follow, saying: "Come and hear the choirs sing! Come and see the procession march! Come and see the river of life roll! Come with me over the hills that rise into everlasting heights." Celestial Alps and Himalayas piled into other Alps and Himalayas!

From this hour cultivate hope. Do so by reading all the Scriptural promises of the world's coming Edenization and doubt if you dare the veracity of the Almighty when He says He will make the desert roseate, and the leopard and the kid will lie down in the same pasture field, and the lion, ceasing to be carnivorous, will become graminivorous, eating "straw like an ox," and reptilian venom shall change into harmlessness, so that the "weaned child shall put his hand on the cockatrice's den, and there shall be nothing to hurt or destroy in all God's holy mountain, for the earth shall be full of the knowledge of the Lord, as the waters cover the sea." So much for the world at large.

Then cultivate hope in regard to your own health, your own financial prosperity, your own longevity, by seeing how in other people God mercifully reverses things and brings to pass the unexpected, remembering that Washington lost more battles than he gained, but triumphed at the last, and, further, by making sure of your eternal safety through Christ Jesus, understand that you are on the way to palaces and thrones. This life a span long, ending in durations of bliss that neither human nor archangelic faculties can measure or estimate—radolence of a springtime that never ends and fountains tossing in the light of a sun that never sets. May God thrill us with anticipation of this immortal glee! "Which hope."

I said in the opening of this subject that my text was only the wave on the beach, while the whole verse from which it is taken is an ocean. But the ocean tides are coming in, and the sea is getting so deep I must fall back, wading out as I waded in, for what mortal can stand before the mighty surges of the full tide of eternal gladness? "Eye hath not seen nor ear heard; neither hath entered into the heart of man the things which God hath prepared for them that love Him."

Preacher Had Good Luck.

Rev. Mr. Babcock, of Converse, Ind., whose wife had been blind for ten years, brought her to a specialist in Kokomo for treatment. He left her there for a few days, but on his return his wife was absent. He went to an auction sale of lots in the suburbs, in which one lot was given free. Mr. Babcock won the free lot. When he went back to the doctor's home he joyfully learned that his wife's sight had completely restored.

RECIPROCITY UNLIKELY.

Marked Change in Public Opinion Regarding a Policy in Favor of Trusts.

It was but a few weeks ago that the Louisiana Sugar Planters' association adopted stalwart resolutions against reciprocity with Cuba, declaring that it was the entering wedge of free trade that would admit all sugar free to this country and bring about the downfall of the sugar industry. There can be no question that at the time of this utterance the situation looked rather alarming. The west had declared apparently with great unanimity in favor of reciprocity, under the belief that this would aid it to sell its products in Cuba and South America; and the sugar trust and other capitalists who have recently invested considerable money in Cuban plantations were anxious to get their sugar into this country free or pay a lower duty. The sentiment in favor of reciprocity appeared very strong, and as the president was known to have a leaning in that direction, he was counted on to recommend the adoption of the policy of reciprocity in his message, as a continuation of the policy outlined by President McKinley in his last speech at Buffalo.

But in the last few weeks there has been a complete change in the situation, which has postponed any chances of reciprocity, at least with Cuba, for years. Two facts have strongly impressed all persons who were in any doubt on this subject. First, that the most ardent shouters for reciprocity were thoroughly selfish, and expected to make fortunes by getting their sugar in free. Secondly, that the government would suffer in revenue from reciprocity; and that many American industries and home producers, but particularly the tobacco growers of the Pacific coast, sugar planters of Louisiana and Texas and beet sugar farmers of the northwest would be sacrificed mainly to benefit the sugar and tobacco trusts. The protests from the threatened industries have not been without their effect; and the disposition shown by the sugar trust to maintain its monopoly and crush out all competition has converted many wavering persons who do not care to see congress play into its hands.

There seems to have been a very marked change of public opinion in the west, or rather those who saw no reason why we should favor the Cuban planters at the expense of our own farmers spoke their minds. Moreover, some one suggested to the imperialists and expansionists that reciprocity, instead of having the effect of bringing Cuba into the union, which they desire, would have exactly the contrary effect. If the Cubans got their sugar into the United States free of all duty, through a reciprocity treaty, it would build up and enrich the island at the expense of this country and strengthen the independent government in power. There would be no incentive for annexation, as Cuba, while still independent and governing itself, would secure all the advantages that annexation could give it. But if kept out in the cold, if told that it cannot get its sugar into the United States free of duty except through annexation, the sentiment in favor of annexation will, it is argued, grow steadily stronger.

Mr. Roosevelt's own personal leaning to reciprocity has been somewhat weakened by these arguments, but still more so by the interviews he has recently had with senators and representatives. He has found a large majority of them, particularly of the republican leaders, opposed to reciprocity of the style proposed by the sugar trust. The reciprocity outlined by Mr. McKinley and favored in the republican platform must not, Representative Dalzell told the president, bring injury to a single American producer, that is, it must be reciprocity in such products as we do not raise ourselves.

It is now announced that the president will not recommend in his message the adoption of the reciprocity treaties, and will favor none save those that carry no injury to American interests. This may be considered as settling the matter, as reciprocity could get through congress only through the backing of the president, and even then it was in doubt. With Mr. Roosevelt lukewarm, if not in opposition, with the republican leaders opposed and public sentiment changing against a policy framed mainly in the interest of trusts, reciprocity may be regarded as dead for the present. The change is remarkable, because it was decidedly in the ascendant only a few weeks ago.—N. O. Times-Democrat.

——It rests with the people of the United States to teach congressmen and senators that the sentiment for free trade is a bigger thing than congress. Similar lessons have been given before; similar lessons shall be given again. It is not too much to say that the United States senate instead of being regarded, as it was at one time, with veneration and admiration, is now looked upon by a large mass of our people as an obstructive body, influenced largely if not wholly by the behests of interests peculiar to individual pockets and caring little or nothing for the benefit of the nation as a mass.—Minneapolis Times.

——So far as the republican politicians are concerned, President Roosevelt is certainly free to do as he pleases, and the whole people, regardless of party, hope that he will be pleased to give short shrift to the Hannas, the Platts and the Quays, whose bossism has long been a scandal which the best republicans all over the United States would rejoice to see brought to an end.—Albany Argus.

FORSEEING EXTRAVAGANCE.

Subsidy Grabbers and Lobbyists Already Knocking at the Door of Congress.

It is barely a decade since the high-water mark of federal expenditures was reached in the famous "billion-dollar congress." Since then we have left the billion-dollar limit far in the rear. At the present rate of annual increase it will not be long before some congress assumes the title of "two-billion." going down into history as the marker of a new era in national extravagance.

The remark of Representative McCall, of the ways and means committee, in speaking of the growing treasury surplus, is apt and forceful. "I suppose," says Mr. McCall, "that congress will want to spend it. That is always the tendency where there is plenty of money." If this committeeman had cared to go into details he could have pointed out that lobbyists and subsidy grabbers of every degree are already knocking at the door of the new congress for sums of money that in the aggregate would not only wipe out the treasury surplus, but would leave a deficit.

The American people are in nowise disposed to be niggardly in providing for all needful expenditures to meet the nation's marvelous expansion. This is far from saying that they will look with tolerance upon any tendency toward prodigality simply because the revenues are piling up in unparalleled volume. As Mr. McCall says, the tendency to spend freely is always stronger when the treasury, public of private, is full to overflowing. The tendency is even stronger where the spendthrifts are handling impersonal funds—that is, money belonging to a government or a corporate entity where the responsibility of financial management must be intrusted to individuals.

There will be sharp, and it is to be hoped, effective criticism upon every action of the new congress tending to show that this inclination toward national extravagance has reached the point of recklessness. There is as much need for sound economy with a full treasury as with a light one. Prodigality in any form will only strengthen the critics who are even now contending that a too full national treasury may become dangerous.

It will be the part of sound economic wisdom to enact such measures in the next congress as will reduce the treasury surplus by lightening taxation, without in any degree impairing the available funds for all the needs of government.—Chicago Chronicle.

HOLDING ITS OWN.

Democracy Is in a Fair Way to Put Up a Great Fight in 1904.

The state elections give no encouragement to either reorganizers or the disorganizers in the democratic party.

In the two states where there was the most to gain or lose—Maryland and Kentucky—the democratic party came to its own. A United States senator has been gained in each of these border states.

Tammany's defeat in New York city is not a party defeat. It is the consequence of reckless and autocratic machine rule. St. Louis democrats, for example, who overthrew a republican machine last spring with the help of the independent vote, felt only gratification that New York citizens, without regard to party, are capable of administering a blistering rebuke to insolent spoilsmen who have used office for personal advantage.

In Massachusetts, Iowa and Ohio the republican victories were expected; as was the democratic success in Virginia.

Nebraska is the greatest democratic disappointment. It seems that we must learn there, as we have learned in Kansas and the Dakotas, that the populist republicans are republicans still, with whom alliance offers no rewards in practical politics.

Democracy is fully holding its own. It will be full of vigor and aggression before 1904. It needs no new panaceas. The organization is sound and the loyalty of voters to the old creed is demonstrated.—St. Louis Republic.

——A Washington dispatch says: "President Roosevelt is expected, in his first message to congress, upon which he is now at work, to take a very strong stand in favor of reciprocity. That would be in line, not only with his own views, but entirely in consonance with the last speech made by the late president. President Roosevelt will not, however, be apt to make any specific recommendations as to rates and articles upon which concessions should be made by the United States." So long as he sticks to glittering generalities, President Roosevelt will not offend the most sensitive party. Reciprocity, without any "specific recommendations," will be entirely satisfactory to the most hidebound protectionist.—Albany Argus.

——Roosevelt appears to have spotted the tariff reform movement as a band wagon chance and he caught the band wagon at the first corner. It is either tariff reform or abolition of a large number of schedules. Commercial conditions do not justify a continuation of the rates. There is little to commend the law as it stands and there are numerous reasons for change.—Cedar Rapids Gazette.

——The Dingley tariff act crippled our trade with South America terribly by taking hides off the free list, where they had been for 30 years, and imposing a 15 per cent. tariff on them. This change was made at the behest of and for the benefit of the cattle trust, which has contributed enormous sums to the campaign funds of the republican party.—Atlanta Journal.

HUMOROUS.

First Boston Tipster—"Are you drunk?" Second Boston Tipster—"Pardon me a minute until I look in my dictionary."—Boston Post.

Said an Irish physician of a patient: "If he lives till morning he may pull through; but if he doesn't there is no hope for him."—Chicago Daily News.

She—"Haven't I suffered a thousand ways since I married you?" He—"There is one way you haven't." She (indignantly)—"In what way is that?" He—"In silence."—Town and Country.

Farmer Gray—"Did you hear the loons last night, Miss Citybred?" Miss Citybred—"Were those loons? Why, I thought it was some college boys giving their college cry."—Boston Transcript.

Perhaps Fannie Was Envious.—Cora—"Paul told me last night that he wouldn't marry the prettiest woman living." Fannie—"Then your chances of getting him are very good."—Chelsea Gazette.

The Eetrnal Woman.—"I know that Justice is blind," mused the fair defendant, adding the finishing touches to her toilet, which consisted of a Paris gown, a picture hat, and other beautifiers; "I know that Justice is blind, but, thank goodness, the judge is not."—Baltimore American.

Again Sherlock was equal to the emergency. "Don't tell me that you are married," he hissed; "I see that you are only engaged." "How do you know?" faltered the young man. "Because every cigar you offered me from your vest pocket had been broken. If you were married it would not have been the case."—Philadelphia Record.

Careless Gunner.—"There, my dear,' said the returned hunter, "there's one bird for you, anyway. Bagged him just as I was about to give up in disgust." "Oh, George!" she exclaimed, "it's a carrier pigeon, isn't it?" "Not much! It's a quail." "But it has a card tied to its leg with some message on it. Let's see. It says: 'John Jones, poultry and game, Central market.'"—Philadelphia Press.

HOW HE WAS QUEERED.

Just as He Was Getting Along Nicely the Old Lady Spoiled the Whole Thing.

"I am afraid that it is all off," sighed the young man, relates the Detroit Free Press. "Just as the prospects looked the brightest, too! When all-the-world-to-me left to visit an aunt who lived in the central part of the state it happened that I had business that took me the same way, and I chanced to take the same train that she did, and naturally I took a seat at her side. She was very much surprised to see me, and acted very distant at first, evidently not believing my story about important business taking me the same way she was going. I was just succeeding in breaking the ice, when the train stopped at a station, and a motherly old fool, wearing corkscrew curls and smelling of peppermint, who sat just back of us, took advantage of the fact to lean over the back of our seat and with a beaming face that was meant for friendly interest, said:

"'Jes' married, ain't ye?'

"The suddenness of the question left me incapable of answering.

"'Of course you be!' she cackled again, like a pullet with her first egg. 'I suppose ye think it is fashionable to set apart like old married folks when ye are jes' dyin' to lovey-dovey each other! The land sakes! when me an' Josiah got married we held each other's hands an' said 'lovey' an' 'ducky' all we wanted to! Now, young man, you jes' set up close an' put your arm around her! We won't mind, will we?' she said, turning to the passengers, who were roaring.

"Then the train started and gave us a respite, during which the girl turned to me with burning face, and whispered fiercely that if I didn't get off at the next stop she would never speak to me again.

"I ran too good a soldier not to obey orders, so I dropped off at the next stop. It turned out to be nothing but a flag station, and I spent the rest of the day watching the through trains go past. I managed at last to bribe a freight conductor to take me away.

"Up to date no sort of an explanation goes with the girl. She says that if I hadn't been there it wouldn't have happened."

What the Winds Bring.

The wind needs to be noted to intelligently observe the clouds. The east wind is usually certain to bring a storm, which in this part of the country will last until it changes to the west. The direction of the change, however, has much to do with the clearing. If the wind works around to the west by way of the north, clearing weather is not to be expected. This is what the sailors call "backing round." When it works around to the west by way of the south the storm is over. The south wind sometimes brings rain, but this depends a good deal upon the season. It will do it more often in winter than summer. The west wind is usually a dry wind, except when it brings thunder showers, which commonly announce themselves without waiting for introductions.—Science.

Only a State Line Now.

Mason and Dixon's line has been resurveyed, not because of any significance it may have as the dividing line between free and slave territory, but as to the line between the states of Pennsylvania and Maryland. Once it was a matter of national concern and was mentioned in political discussions; now it is simply a fading incident in history.—Louisville Courier-Journal.

THE AMERICAN NAVY.

Secretary Long Recommends an Increase in Ships and Men.

Suggests the Revival of the Grade of Vice Admiral and An Increase in the Number of Cadets.

Washington, Nov. 16.—The keynote of the annual report of Secretary Long for 1901 is "increase," and increase in both the number of ships and the number of officers and sailors for the navy.

"The navy to-day," he says, "is a far greater factor in our relations with the world than it was before the recent national expansion, which now includes Porto Rico, the Hawaiian Islands, the vast area of land and sea in the Philippines, and our obligations to Cuba. If we are to have a navy at all, it must be commensurate with these great extensions—greater in international than in territorial importance."

The secretary's recommendation for new construction based on the report of the general board headed by Adm. Dewey and that of the board of construction is as follows:

Three first-class battleships, two first-class armored cruisers, three gunboats, each of about 1,000 tons trial displacement; three gunboats, each of about 200 tons trial displacement, for insular service; three picket boats, each of about 650 tons trial displacement; three steel sailing training ships, each of about 2,000 tons trial displacement; one collier of about 15,000 tons trial displacement; four towboats.

All the vessels recommended in these two reports, says Secretary Long, are desirable in the prospective and harmonious development of our naval force, and a larger increase this year than usual is desirable because none were made last year.

The secretary places emphasis on the necessity for more line officers and more enlisted men. He recommends that the number of lieutenants be increased from 300 to 350, and that the limit of the number of junior lieutenants and ensigns be placed at 600. As to the enlisted men, he recommends that that force be increased by 3,000 men.

Another pressing need set out in the secretary's report is that for a national naval reserve, which was so strongly advocated by President Roosevelt when he was assistant secretary of the navy.

In connection with the subject of naval personnel, Secretary Long makes a number of important recommendations as follows: The revival of the grade of vice admiral, an increase of 50 per cent in the number of cadets at the naval academy, an increase of the marine corps by 750 men, increase in the corps of naval constructors and of civil engineers, and no further appointments to the office of professor of mathematics.

THE X RAYS.

A New Apparatus Designed For a Stereoptic Vision of Broken Bones, Etc.

New York, Nov. 16.—E. W. Caldwell describes in the current Electrical Review new apparatus designed for stereopic vision by X rays. It has been developed in the laboratory at the Bellevue Hospital Medical college, New York city. By using two sources of X rays in the same tube each eye views independently the shadow, with the result that the picture stands out distinctly, showing all the space relations of the objects viewed. It is thought that this method will be of the most value in surgery, permitting immediate examination of broken bones, etc., as if they were viewed by the eye with their positions accurately indicated, instead of in silhouette effect, as formerly.

NOT GUILTY.

John Wilburn, Charged With the Murder of Rosa Hudson at Leavenworth, Acquitted.

Leavenworth, Kan., Nov. 16.—After being out but seven minutes the jury in the case of John Wilburn, charged with the murder of Mrs. Rosa Hudson in a raid on a "joint," brought in a verdict of "not guilty," and the prisoner was released. Evidence was adduced to convict four or five raiders, who have not yet been caught. Mrs. Hudson was killed in the wreckage of a "joint" during the Carrie Nation crusade.

Blooded Horses For New York.

Helena, Mont., Nov. 16.—Two special trains, bearing 232 head of blooded horses raised on the Bitter Root stock farm of the late Marcus Daly, left here for New York. The horses will be sold at the Madison Square garden. These are the last horses that will be sold from the ranch, all blooded animals having been shipped away.

On Detailed Duty.

Washington, Nov. 16.—Naval Constructor Richmond P. Hobson has been detached from duty in the bureau of construction and repair and detailed to duty in connection with the management of the government naval exhibit at the Charleston exposition, South Carolina.

Vessels Missing.

Milwaukee, Wis., Nov. 16.—The propeller Thomas Davidson, and consort, Aberdeen, coal laden, from Buffalo, for Milwaukee, are missing and fear is felt for their safety.

Johnny Obeyed.

"Children," said the teacher, while instructing the class in composition, "you should not attempt any flights of fancy, but simply be yourselves and write what is in you. Do not imitate any other person's writings or draw inspiration from outside sources."

As a result of this advice Johnny Wise turned in the following composition:

"We should not attempt any flites of fancy, but rite what is in us. In me there is my stummick, lungs, hart, liver, two apples, one piece of pie, one stick lemon candy and my dinner.—Baltimore American.

Just the Man.

"I say," said the business man to the detective, "some fellow has been representing himself as a collector of ours. He has been taking in more money than any two men we have, and I want him collared as quickly as you can."

"All right; I'll have him in jail in less than a week."

"Great Scott, man! I don't want to put him in jail; I want to engage him."—Boston Transcript.

Bad Investment.

Theodore—It's all right, darling. I have met your father, and we took to one another at once. He even went so far as to borrow ten dollars of me. Surely, he can't refuse me your hand after that.

Edith—Dory, I'm afraid you've made a mess of it. Pa told me about the ten dollars, and said I'd better let you slide; that you were too easy.—Boston Transcript.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

Uncle Eph'm.

"Dey's mo' dan one kind o' wisdom," said Uncle Eph'm. "A wohd to de wise is sufficient, but yo' don't git no chance to say a wohd to de wise guy. He knows it all."—Chicago Daily Tribune.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

God is on the side of virtue; for whoever dreads punishment suffers it, and whoever deserves it dreads it.—Colton.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900.

A man who plays cards for a living never has anything except the backache.—Atchison Globe.

The youthful lawyer's profession is usually better than his practice.—Chicago Daily News.

1902.

POINT PLEASANT.—Mr. and Mrs. Everett Souther are rejoicing over the arrival of a son, Earl Clifford.

The C. E. Society at this place has disbanded.

Overseer Milton Souther is doing good work on the roads in this neighborhood.

Miss Nora Rucker has returned home from a visit with friends at Mulberry, Kentucky.

Mrs. Lucretia Hood, one of the pioneer residents of this vicinity, died Thursday, November 14th. The funeral services were held at her late residence, Saturday the 16th inst., conducted by Rev. Duncan, of Ludlow, after which the remains were interred in the family burying-ground. She leaves a daughter, Mrs. Ellen Russell, and three sons to mourn her death. A kind hearted, earnest Christian woman, she will be missed by many, and the church has lost another faithful member.

Jumped on a Ten Penny Nail.

The little daughter of J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all Druggists.

To Lincoln county belongs whatever there is of distinction for having been the first place in America where horse racing was held. Our authority is none other than the distinguished Gen. W. H. Gentry, of Lexington, who says in the American Field of September 14: "It was known as quarter stretching' and here, long before the opening of the famous Kentucky Association's course at Lexington, sportsmen raced their horses simply for the pride of owning the fastest and best. Each horse took a separate path, laid off side by side on the turf. Even Bess I think, was the best known of these sportsmen. He was greatly admired by my father, who often told me about his racing ventures. He had for a rider an Indian boy, whom he had secured from some Missourians who had captured him in his native country. The boy was called Tom Martin. After his racing career he was married to a mulatto girl and Bess gave him a large track of land.—Interior Journal.

The Throbbing Headache.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25 cents. Money back if not cured. Sold by W. F. McKim, Burlington; Union Drug Store, Union; H. L. Eskew, Walton; O. N. Grant, Bellevue; J. G. Oelsner, Florence.

STATE NEWS.

Sales of old corn at $4 per barrel are reported from Fayette county.

At the big Shorthorn sale at Kansas City, 50 head sold for an average of $337.

In Boyle County M.S. Fitzgerald sold to Thomas Gentry 215 barrels corn at $3.15 per barrel, delivered.

Edwin Ward, of Scott county, says he fed 60 cent wheat to hogs that netted him 90 cents a bushel that way.

H. P. Wilson sold to Lewis Rogers, 35 acres of corn at $3 per barrel in the field. Jonas Weil sold to Mr. Gaitskill, of Winchester, 68 head of feeders at 4c. and $1 a head.—Paris Kentuckian.

The number of Turkeys raised this year is abnormally large and it is thought the Thanksgiving price will be very low. They are now selling at 7 cents per pound in coops—Cleveland Bros. sold to Ben Bedford for export seventeen head of 1,450 lb cattle at $5.05 per hundred and W. M. McMurtry seven 1,350 lb. cattle at $5 per hundred. They were the best delivered here for years.—Cynthiana Times.

Great Luck of an Editor.

"For two years all efforts to cure Eczema in the palms of my hands failed," writes editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Eruptions, Sores and all skin diseases. Only 25 cents at W. F. McKim's, Burlington; Union Drug Store, Union; H. L. Eskew's, Walton; O. N. Grant's, Bellevue; J. G. Oelsner's, Florence.

The great comfort a women gets in calling in a doctor is that she knows it keeps all her neighbors at the window watching his carriage to see how long he stays.

All a man has to do to make his wife believe he is a genius is to pretend he is so absent-minded that if she didn't look out for him he would put on his suspenders for a necktie.

By request we publish the following letter received by James E. Botts from his nephew:

Bolse Barracks, Idaho, Sept. 28, 1901.

I received a letter from you yesterday and at your suggestion, I will write you an account of my experience in the Philippines.

I enlisted in the 32d Vol. Infantry at Great Bend, Kansas, on August 5th, 1899, and joined the Regt., at Ft. Leavenworth, on August 9th, and was assigned to Co. "D," commanded by Capt. Charles Comfort, of St. Louis, who was formerly a Lieut. Colonel of the 7th U. S. Immunes (colored.)

While there we were drilled in the skirmish drill until we were considered competent to go to the Philippines and on the 16th of Sept., we left for San Francisco, Cal., and on Oct. 1st we left for Manilla—7 companies, the headquarters, band and staff on the transport Glenogle, three companies on the transport Sheridan, and companies C and D on the Charles Nelson, and in a few hours after leaving port most of the new men were experiencing all the horrors of sea sickness, and some of them did not recover until we arrived at Honolulu, which was the 9th of October; we stayed there two days and as it was our first glimps of the tropics they were enjoyable days to us.

We arrived at Manilla Bay on the 3d of November, after a very quiet voyage of thirty-three days and every one was heartily glad to see land again. We were unloaded on the 6th and almost immediately left for the firing lines at Augeles (pronounced Ar-ha-les) where we arrived on the evening of the same day, and for headquarters were assigned to small Nipa houses which had formerly been the homes of the Philippines, and we stayed there until the 2d of Dec., doing outpost duty every other day and we could hear the bugles of Aggie's army every morning until the 17th of Nov., when Gen. Wheaton made an advance with the 9th, 12th & 17th Int., and the 36 Vol. Inf., under Col. Bell, since promoted to Brig.-Gen. and when Aggie made one of his "masterful retreats" farther inland.

My first impression of the Phillipinos was that they were the laziest race of people on the globe, and even with the 17 months I spent among them my opinion has never changed even for a minute. They are a small, deceased, treacherous race of people, and even the influence of the Americans cannot do them much good. The only good the Spaniards have done them is to spread great stone churches all over the Islands of which some were used for fortifications, and it takes half they make to support the church and priests.

But, I am drifting away from my subject. On the 2d of Dec. our first real campaign commenced. We formed a part of Gen. Gratt's Brigade and actiug with a part of the Third Inf. we marched to Pasac, 10 miles from Augeles and the advance guard had a small skirmish in which they captured the sword which Ensign Wood, U. S. N., wore when he was captured by the insurgents, next day we marched to Dinalupihau, which we captured, after a few minutes fight, and there the forces were divided and Co. "D," of which I was a member, was left in charge of the town and we were kept on the go continually, after real or imaginary insurgents, until sometime in February, I can't remember the exact date.

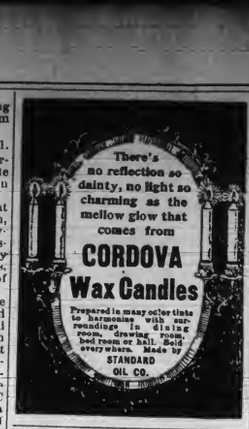
On the 31st of Dec. we had a skirmish in the mountains north of Dinalupihau that lasted about 45 minutes and we captured 12 rifles and a quantity of ammunition, and on the 23d of Dec. we went to the same place again and as we were returning we were ambushed and one man was killed, while we got eight of them, captured one prisoner.

While in the town of Dinalupihau we were practically cut off from all communication from the rest of the regiment, until the signal corps came thro and put up a telephone line, and after awhile we began to get fresh meat from Manilla on a launch, and then we had to send a detail ten miles to the bay after it, and it was seldom worth much after we got it.

Sometime in February we received orders to move on up into Bataan Provence of which Balanga is the capitol, and we were relieved by Co. G of our regiment, left the same day for Balanga, and there our Co., was divided, one-half stayed in Balanga the other half went to Pilar, 3 miles farther on. The Pilar detachment was commanded by Lieut. Shook. Our Capt. stayed in Balanga. While we were there we went on a great many "hikes" into the mountains and often had a small skirmish, but did not amount to much.

In June we changed stations, going to Orion, 10 miles farther on, and on the 8th of Oct. when a detail of 45 men were returning from a "hike" we were fired upon and had one killed and five wounded.

Sometime early in Nov., information was received at headquarters that Gen. Muscards was in a strongly intrenched position in the mountains, 20 miles west of Balanga, and Col. Craig sent 275 men under command of Major Spence, and after 3½ hours fighting, we captured the position, with only one American hurt, while we killed over 20 of them, captured 4 bambo cannons, a lot of ammunition, 4 Mauser and 12 Remington rifles, after which we burnt their barracks and a quantity of rice, which is the mainstay of their victuals. We then marched back to our stations, in all a distance of 75 miles in 28 hours. From then on we never had another fight, and then we began to look forward to the time when we were going home, and after much red tape, the welcome order came at last, on March 15th, 1901, and we arrived in Manilla on that day and went into camp on the Luneta the same day. On the 22d of March we passed in review, with the 29th Vol. Inf. before Gens. McArthur, Bates and Wheaton, and left on the transport, Grant on the 23d, and on the 19th of April we steamed into the Golden Gate and went into camp at Presidio, where we stayed until May 8th, 1901, where we were discharged, and now the 32d exists only in history.



Well, I must close for this time, hoping to hear from you soon,

I remain your nephew,

STANLEY R. BOTTS,

Formerly Co. D 32d Co. H 28th Inf.

BOONE COUNTY RECORDER.

VOL. XXVII. BURLINGTON, KENTUCKY, WEDNESDAY, NOVEMBER 27, 1901. NO. 6.

THE report comes from Washington that President Roosevelt has prepared that part of his message to Congress relating to trusts, and has read it to his Cabinet, not all of whom are in exact agreement with him. The President regards it as his duty to call the attention of Congress to the evils of the trust system and to urge the legislative branch of the government to devise means of correction. He takes thefground similar to that he assumed in his message as Governor of N. Y., and in his acceptance of the nomination for Vice President, and in his speech at Minneapolis on September 2. He is conservative in his views of the rights of incorporations, but fully recognizes the fact that there are trust evils. He is understood to be firmly resisting the advice of some of his political friends not to say anything on the subject.

IT is estimated that an appropriation of more than $100,000 will be asked from Congress with which to compensate the surgeons who attended President McKinley after he was shot. Dr. Burton's bill alone is expected to be at least $25,000 and the other physicians will file claims in proportion. President McKinley's fatal illness lasted only eight days, but the legislative experts believe that the bills presented will be twice as large as similar services rendered twenty years ago during a period of ten times as long. A great many people there will be who will believe such bills excessive for the reason that those in charge of the President's case did not know anything about it, or, if they did, they misrepresented the facts to the public.

COL. GRADDY, who it is conceded will land a good office under the new Collector of Internal Revenue, in this district, was moving about the county at a rapid gait last week, getting his credentials in shape. The Colonel's very brief career as a Republican makes his accession to office a bitter morsel for many of the regulars in his party in this county, but they certainly have observed that it is the policy of their party to provide comfortable places for the Democratic turnovers while those who never knew how to vote other than the straight Republican ticket must go back and sit down. It appears that republics are not alone ungrateful.

ALREADY is it being said by some of the Republicans in this county, who would like to get a pull at the public teat under the new order of things, that Burlington is out after the best plum in sight, as usual, and, what to the old-liners, is the worst feature in the case, a man whose Republicanism is of very recent date is to be the fortunate applicant.

THE rapidity with which the new comers from the Democratic to the Republican party are appointed to office, makes it look very much like the g. o. p. was about out of material with which to fill public positions before the influx from the ranks of the opposite party.

THE Louisville Post used all its energy to down Sapp, but it lost out badly in the appointment of his successor. The Post believed it could land Ex-Auditor Stone as collecter, but when the test came it turned out that he had not a single element of strength.

ACCORDING to the opinion of the Court of Appeals ousting Breckinridge as Attorney General, Mr. Pratt should not take the office. He holds a certificate of election issued by a board that court holds is unconstitutional.

THE removal of Breckinridge from the office of Attorney-General puts him in the race for Governor, and he will be a hard man to keep out of the Executive Mansion.

IN declining to purchase horses with "docked" tails for his own use, President Roosevelt sets a fine example in the interest of humanity and of good taste.

CONGRESS will be in session in a few days, and a lively session it is likely to be.

THE Covington and Erlanger electric road was mentioned in Covington again last week.

SEVERAL of the papers in the State are fearful the large Democratic majority in the next General Assembly will overdo itself.

"WONDER what surprise Teddy will spring to-day," is the first thought that enters the minds of the would-be bosses, each morning as they awake.

THE appointment of Leiberth as Collector will change the leadership of the Republican party throughout the district. It is pretty certain that a new deal is at hand.

IN looking over the list of members of the next General Assembly it is remarkable how conspicuous by their absence are the recognized leaders of each of the political parties.

THE latest move in the big steel combine, which involves all the mills outside of the United States Steel Corporation, is a consolidation of all outside mills making billets, rods and wire.

CONGRESS will be asked to give Mrs. McKinley one year's salary on her husband's account, and to vote her a pension of $5,000 a year so long as she lives. This was done in the case of Mrs. Garfield.

IT is said that President Roosevelt will take a decided stand against trust in his message to Congress. He ought not do so, for Senator Hanna says there are no trusts but that they are good things.

THE agent of W. K. Vanderbilt was in Central Kentucky, last week, where he purchased of James Murphy a trio of highly bred mares to be shipped to Vanderbilts breeding establishment in France. They cost $10,000.

THE Mt. Sterling Gazette, a Republican paper, says "internal jealousies, greed for office and incompetent leadership drove away the intelligent vote and resulted in the disaster which overtook the Republican party in Kentucky."

NOT satisfied with his political downfall Sapp's enemies are talking of having the federal grand jury indict him for violations of the civil service law while he was Collector of Internal Revenue. Verily troubles do not come singly even in politics.

WHEN Teddy said to that Kentuckian who called on him to inform him how to dish up Kentucky patronage, that he was seriously thinking of dividing the United States into two districts, making Kentucky one district, he only meant to convey the idea that Kentucky Republicans are raising more hades over the offices that are at his disposal, than all the rest of the country.

A POLICY which, it is contended, will settle the entire Indian question within a generation is announced by Commissioner of Indian Affairs William A. Jones, in his annual report. His plan is to give the Indian opportunity for self-support, the same protection of his person and property as is given others, throw him upon his resources and to enforce on him realization of the dignity of labor and the importance of building and maintaining a home for himself. The key to the whole situation, the Commissioner suggests, is the home. The larger and more powerful tribes, he added, are located in an arid region, on unproductive reservations, often in a rigorous climate, where there is no chance to make even a living. In these cases something should be done quickly toward placing these Indians in a position where they can support themselves. He makes the emphatic statement that the present Indian educational system, taken as a whole, is not calculated to produce the results that were anticipated so hopefully, and may be added to the obstacles to independence and self-support under which class Mr. Jones has placed indiscriminate issue of rations, periodical distribution of large sums of money and the general leasing of allotments.

Congressman Gooch's Views.

[Daily Enquirer.]

Congressman D. Linn Gooch, of the Sixth Congressional District of Kentucky, is making final arrangements for the coming session of Congress, and will leave for Washington this week.

With his estimable wife and two daughters, Mr. Gooch will be domiciled at the Hotel Normandie. There will be neither bars nor bolts on Mr. Gooch's door, so that his friends calling on business or pleasure, whether farmer, laborer, mechanic or millionaire, will have no sesame to repeat, but can enter without ringing.

Congressman Gooch, a typical Kentuckian, is an old school Democrat of the Jacksonian stripe, and will be found staunch and true on all party question.

"Excuse me," said the new Congressman, "but I can see no reason why I should make promises and predictions to day because it costs nothing, and then have to take all back with apologies in a few weeks. It is immaterial what a member of Congress may desire, as I may ask much and be granted but little. The paramount question, in my mind, must and always will be, what are the wishes of my constituents? When this is made known, then the world can plainly discover what I am after, and that is the welfare of those I am representing. I shall favor improvements ot the Ohio river. As a manufacturer and shipper for many years, I can realize the decided advantages for commerce, agriculture, miners and wage workers in securing a magnificent waterway from Pittsburg to New Orleans.

"I want water, plenty of it, and at all seasons of the year. I shall, likewise, advocate improvements of the Licking river. In fact any river can receive my support where improvements are in demand. Railroads may be controlled by corporations, but the waterways should be as free as the air and sunshine. They should be harnessed, equipped and controlled for the benefit of the masses, and not for the few.

"The enlargement and improvement of Ft. Thomas will merit my approbation. Ft. Thomas should be converted into one magnificent, picturesque military reservation, the prettiest fort in the West. That was the opinion expressed by General Miles, a capable critic and one competent to judge. There is ample territory. The situation of the fort, high up in mid-air, with a commanding view of the Ohio river and State of Ohio, presents a panorama-like picture of beautiful nature, not surpassed by any scene on the famous Hudson.

"My constituents want good roads. They demand more rural mail deliveries, and these measures will receive my endorsement. People of the to-day are all in step, educating themselves, not in schools but by the dissemination of good literature.

"Taxation is the bane of every good American citizen's existence. While all are willing to pay a fair proportion, no man should be condemned for seeking relief from excessive and unnecessary taxation, and my vote shall be promptly and loudly declared for an immediate revision, if possible, of the tariff tax, war tax or any other tax made oppressive to those that pay the most, the working class. I have but one regret, that the Democracy in Congress will be in the minority; that the voice of the people will thereby be stilled, and legislative action will proceed in behalf of the few and not for the yearning multitude at large.

"Could I have my way with a party majority in Congress, I should have attempted some pleasing experiments. For instance, I should have selected deserving young men. There are plenty of them that are to-day making $10 per week, I would place them in positions of trust where $1,800 or $2,000 per annum salaries are paid, instead of filling those offices with men too busy to give proper attention, or men able to exist without either office or salary. I found young men following plows in the field, others standing before furnaces in mills, or working in shops and factory, that when interrogated showed a consciousness of their positions; responded with flow of language and fund of knowledge that proved them thoroughly capable of discussing the mighty problems before the world to-day. They were the ones that elected me, the farmer and wage workers, and on their behalf I shall fight and fight hard for labor and the laboring classes."

$1 50 will pay for the RECORDER from now until January 1, 1903.

LOCAL NEWS.

To-morrow is Thanksgiving day.

Have you a nice turkey prepared for your dinner to-morrow?

It is said that owing to the short corn crop the turkey crop is not so good as usual.

Marce Riddell will have his stock of merchandise on the shelves in a few days, and ready for sale.

Clutterbuck Bros. took 200 rabbits to market, last Friday. They were bought up in two days.

Jordon Beall and others, of the Hebron country, have been buying and hauling fodder from Ohio.

R. W. Rouse, of Limaburg neighborhood, has a lot of nice 50 or 60 pound Thinrined shoats for sale.

Send your order to this office for any kind of mercantile printing which you need in your business.

Up in Bath county geese are driven to market in droves of 1,500. A drove of geese of that size is a big show.

County Commissioner-elect W. A. Crigler, of Bromley, Kenton county, was in town Friday morning, driving a race animal.

This office printed, last Friday, 11,000 as handsome counter checks for the Boone County Deposit Bank, as any bank should want to use.

The local butcher firm appears to be doing a good business since it got into its new quarters. It emplos several men and runs two wagonsy

Some of those around here who guessed on the number of votes polled in Ohio at the last election, were not closer than 100,000 to the money.

John Baldon got one of his thumbs badly lacerated while feeling of a circular saw, a few days ago, to find what part of it was getting hot.

Born, on the 20th inst. to Mr. and Mrs. Frank Smith, of St. Louis, Mo., a son, and thus Dr. Smith, our neighbor, has another on his list of grand children.

James B. Tolin, of Petersburg, is an agent for the Commoner, Hon. W. J. Bryan's paper and will call on the people of this county soliciting subscription for same.

Riley & Cropper sold, a few days since to Wingate & Thompson 56 1,200-pound cattle at 4½ cents, to be weighed at Bullittsville between January 10th and February 15th.

The Owen News and the Owenton Herald have been consolidated, and the News-Herald will the name of the new paper, published by F. C. Greene. Here is hoping the new venture success.

R. P. Rice, of Florence, general agent for the Deering Machine Co., was in town last Friday. He is out selecting local agents for his company. He had not entirely recovered from a severe attack of appendicitis.

It is strange where so many rabbits come from. It looks like enough have been shipped from Burlington this fall to stock a county as large as Boone, and yet there is no complaint of a scarcity of that class of game.

It is suggested that a good way to condition shock corn for husking is to pour a bucket full of water in the top of the shock the day before it is to be shucked. Now, will somebody suggest where to get the bucket full of water?

The Williamstown Courier of last week evidently thought its two columns of matter headed, "Southern Democrats Receiving Many Rich Plums from President Roosevelt," &c., was good reading, as it printed it twice, on its sixth and eigth pages.

Some predict that the wheat that was sowed late will make the best crop, because that which was brought up by the light showers is in a condition to be entirely ruined by the freezes this winter. Just now the prospects for a crop of wheat next summer are very poor in this part of the country.

A couple of the local limbs of the law have been missing their chickens this fall, and the thief was not known until Monday night when Edson Riddell set a steel trap to capture the nocturnal visitor to his chicken roost. The entire neighborhood knew early Tuesday morning that the thief had been caught, and it will be several days before you can pass through the north end of town without holding your breath. Judge Cason has employed a force of boys to excavate a den of the same kind of thieves that are located in his landed possessions.

Hulling Peanuts.

There is some humor as well as a good deal of muscle about our friend J. B. Rouse, and the other day a friend passed a field in which Bert was making a close hunt for corn, when the passer-by asked him, "what are you doing in there?" and the answer came back as quick as a flash, "hulling peanuts."

Some Huge Corn.

D. E. Lawell, one of Boone's best farmers, placed on our desk the other day three huge years of yellow corn, such as would indicate that his cornfield is not located in drought stricken district. Daniel is one of the few farmers who knows how to make two blades of grass grow where only one grew before.

A Narrow Escape.

The principal manufacturing establishment in Constance. Klassener's wagon and blacksmith's shop came near being destroyed by fire, last Thursday. A spark from the flue fell on the roof, and a good sized blaze was under way when it was discovered. In a few minutes more and the building would have been doomed. The fire was extinguished with a few buckets of water.

A Money Loosing Business.

The stockholders of the Lawrenceburg Fair Association (a dozen in number) held a meeting last Friday night to wind up their business and make arrangements to dispose of their road scraper and other personal property on the grounds. They paid the debts of the old association a few years ago, amounting to $1,500, and took possession. The present society has lost over half that sum in their venture, not counting their time and trouble. They will continue to exist as an organization—although their lease on the ground has expired—and will await future developments.—Lawrenceburg Register.

Those Melancholy Days.

The melancholy days have come the meanest of the year, when farmers vow their corn fields will fail them in the ear; when school deprives the restless boy of vacation fun, and daddy growls at the bills, and coal nine planks a ton; when the merchant gets his biggest stock and thinks he's wonderous wise because he hopes to sell the same and never advertise; when the wind begins its dreary moan and leaves begin to fall, when the boy starts out for college to study up foot-ball, when the banker gets his interest, and the boarder gets poor hash; the subscriber has plenty to read, but the printer gets no cash.

Burglars at Erlanger.

The Erlanger burglar not only takes the cake, but he takes everything in the house, as proven by a visit to the residence of Harry Ryle, one night last week, from which they took all the silverware, dishes, clothing and Master Floyd's bank, in which were several dollars. It is said that Mr. Ryle had not clothes enough with which to dress on the following morning, and had to be supplied by a neighbor. A few nights before, the residence of O. M. Rogers was entered and a meal was prepared and consumed, after which some few articles were taken. The good people of Erlanger think they know who the burglars are, and no doubt it will not be long before they have them in hoc.

LATER.—Since the above was put in type Mr. Ryle recovered his silverware at a pawn shop in the city, where it was placed by a colored man.

Jumped on a Ten Penny Nail.

The little daughter of J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all Druggists.

A Deserter.

Last Wednesday just before noon there was a gentle rap on the door to Sheriff Beall's office, and in response to the invitation to come in, a good looking young man about 22 years of age presented himself, and asked, "are you the sheriff?" Mr. Beall told him that he was. The young man said, "My name is Edward Dunaway, of Graves county, this State. I enlisted in the regular army at Paducah on December 11, 1900, and deserted with several others at Columbus, Ohio, last September. I am tired of dodging about over the country, and desire to give myself up." The Sheriff questioned the young man closely, and decided to take him to Ft. Thomas, Campbell county, to which place they started immediately afternoon. The young man said his people do not know anything of his whereabouts, but supposes they think he is in the Philippines. He seemed to care but little for the punishment he is likely to receive, on his own part, but was sorry of the disgrace it will bring upon his family. Like a great many young men, Dunaway discovered after it was too late, an army life was not the kind that suited him, and sought release by deserting, which he now sees has placed him in a much less desirable position.

The Wireless Telegraphy.

Request by the lighthouse board at Washington for an appropriation of over $100,000 to be invested in wireless telegraph instruments, has attracted renewed attention to wireless telegraph stock the past week.

The government, following precedent in such matters will probably allow the appropriation. All the lighthouses along both coasts would, in the near future, be in close touch with inland stations.

Before this request was made the navy department had made a partial examination of the system controlled by the Federal Wireless Telephone and Telegraph Co., which operates under the basic patent taken out by Prof. Dolbear of Turts College.

Since the International Cup races the Federal Company has established marine stations at Barnegat, Cape Henlopen, and at two other points on the Atlantic coast, with which within a few weeks, vessels equipped with instruments may communicate.

The opening of the line over the old Morse route from Baltimore to Washington, it is announced by L. E. Pike & Co., the fiscal agents of the company will take place during the current month, which makes it possible that messages will be accepted at a regular tariff before the end of the year. This will be the actual opening of wireless telegraphy on a commercial basis, and will call such attention to the enterprise that it should materially increase the price of the stock, which is now selling at 60 cents.

The company announce their invention to run a newspaper train from New York to Washington on the occasion of the opening of the line, for the accommodation of correspondents of all the prominent papers in the country.

A minister one Sunday evening was preaching to a sleepy congregation; to wake them up he said: "Brethren, wake up! You really cannot know that your minister is preaching to you this evening with only half a shirt to his back," and they woke up. In the following week he had several parcels sent to him containing new shirts, senders hoping he would excuse the liberty they were taking in sending them to him. Several ladies, more anxious than others, called upon the minister and expressed their sorrow at his being so poor. "Dear friends, don't you know that the other half was in front?" The ladies blushingly smiled and turned away.

Great Luck of an Editor.

"For two years all efforts to cure Eczema in the palms of my hands failed," writes editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Eruptions, Sores and all skin diseases. Only 25 cents at W. F. McKim's, Burlington; Union Drug Store, Union; H. L. Eskew's, Walton; O. N. Grant's, Bellevue; J. G. Oelsner's, Florence.

Four Aurora hunters were fined $154 for killing two quails and a rabbit. Three paid their fines and the other went to jail. Hunters who think the new game law can be violated with impunity are liable to be suddenly convinced that it cannot.—Lawrenceburg Press.

THE RECORDER

W. L. RIDDELL, Publisher.

BURLINGTON, : KENTUCKY

CURRENT TOPICS.

Mrs. Langtry will not appear in London until after Easter.

The Brazilian congress has voted £5,000 to M. Santos-Dumont.

A woman's club is soon to be opened on a large scale in New York.

Petrified tropical fruits have been found in some Spitzberger coal.

A Shickshinny, Pa., man claims to have discovered perpetual motion.

There is a herd of elk in Routt county, Col., numbering nearly 500.

The potato crop of the United States in 1900 was 210,926,897 bushels, worth on the farm $90,811,167.

Eugene Carsey, of Sioux City, Mo., 82 years old, is cutting his third set of teeth.

All persons found playing cards in railway cars in Russia are subject to heavy penalties.

If the surface of the globe were perfectly level water would cover it to the dept of two miles

Vienna has a school for waiters with a three years' course. Among the subjects taught is French.

The river Dee in Scotland has had more poems written in its honor than any other stream in the British Isles.

Italy owns the three largest churches in the world—St. Peter's, Rome; the Duomo, Milan, and St. Paul's, at Rome.

Pupils in the schools of Saxony are required to commit to memory 291 biblical verses and 198 verses of hymns, in addition to the catechism.

At Eucla, in Australia, a subterranean lake has been found at a depth of 300 feet with a comparatively inexhaustible supply of water.

The lowest tide in any large sea is in the Mediterranean. At Toulon there is about nine inches, which is the average for the whole Mediterranean.

B. Eldredge, the millionaire sewing machine manufacturer of Belvidere, Ill., owns a rare variety of carnation producing a single bloom for which he paid $1,750.

Manchuria, of which we get flashes of news, is a level, well watered, densely crowded region in the highest state of cultivation, with scarcely an acre not planted and hand cultivated.

Competitive hunting is still indulged in in the Southern Adirondaks. At a recent meeting in Boonville an organization of sportsmen was formed with the object of promoting the sport.

It is related of Hall Caine, the novelist, that he once worked in the Laxey lead mines, in the Manx mountains, in place of a young man who was ill, to keep the young fellow's position for him.

The marigold is a little weather prophet. If the day is going to be fine the flower opens about 5 or 6 o'clock in the morning, but if wet weather is in store the marigold does not open at all.

Four hundred thousand barrels of apples, worth $1,000,000, were received in the St. Louis market during October of this year to the further fame and greater glory of Missouri's big red apple.

The trade and wealth of Canada are increasing far more rapidly than its population. With only one-fifteenth of the population, Canada has a trade of more than one-sixth of that of the United States.

It was William Pitt who originated the income tax in Great Britain in 1798 as a war tax. The Napoleonic wars were fought with it. From that time to this it has been the resort of all ministries to meet war expenditures.

A boat carrying six persons has been towed on the Mozelle by a Malay kite six and one-half feet long. Headway was made against a somewhat rapid current, and the traction could have been increased by adding more kites.

A novel suggestion for starting delicate plants has been made known by a French gardener. He sets the seed in some earth laid in half an egg shell instead of a little pot; the shell, which has a small hole in it to permit of draining, is placed in a box of damp mold. When the time arrives for transplanting all that need to be done is to break the shell.

The attempt is being made on some western game preserves to plant the wild turkey. The birds are trapped, and their wings are clipped. Sometimes they are allowed to breed with tame birds. The young then show less inclination to wander, but are not so good for purposes of sport, and lack the delightful flavor for which the wild ancestor is famous.

The chameleon spider is one of those spiders which do not spin webs. It sits among the yellow petals of the black-eyed daisy, with which it is very much alike in color, and when a butterfly flits along springs out and seizes it with a bound like that of a tiger. Thus the stock of butterflies whose caterpillars are ruinous to orchards and gardens is kept down.

The government obtains about one-half its revenue by taxes upon whisky, beer, tobacco and cigars and other forms of internal taxes, and the other half upon taxes that are levied upon goods imported into the country.

Prof. Loeffler, of Greifswald, seriously discussed in the Friednau Medical Weekly the possibility of curing cancer by blood from sufferers from malaria. He advocates universal trials of this method in all hospitals. The idea is not new. Prof. Trinka, of Hungary, having remarked as far back as 1775, the total freedom from cancer of malaria infected districts.

REBEL FORT TAKEN

Capt. Lawton's Company Gains a Signal Victory on Bohol Island, South of Cebu.

HE TOOK THE ENEMY BY SURPRISE.

The Insurgents Defended Themselves With Both Cannon and Rifles, But They Suffered Terrible Loss.

The Steamer Alerta, With About 200 Passengers, Including Some Discharged American Soldiers, Believed to Be Lost.

Manila, Nov. 25.—Capt. Edward P. Lawton's company of the 19th infantry has attacked and captured an insurgent fort on Bohol island, south of Cebu, in the Vizayan group.

This fort was surrounded on all sides by a precipice and the only entrance to the higher ground was guarded by a stockade with a line of entrenchments behind it. Capt. Lawton sent Sergt. McMahon and 20 men to climb the precipice and attack the fort in the rear. Sergt. McMahon's party accomplished their task after three hours' climbing through the thick undergrowth of brush and vines that covered the almost perpendicular cliff. They took the enemy by surprise and drove them from the fort. As the insurgents escaped they had to pass the remainder of Capt. Lawton's company at a distance of 150 yards. Here the enemy suffered terrible losses.

Special Mention For Bravery.

The insurgents defended themselves with both cannon and rifles. The cannon were captured, the smaller ones were removed while the larger ones were buried. Capt. Lawton, in his report, makes special mention for bravery of Sergts. List and McMahon.

The local steamer Alerta, with 200 passengers, including some discharged American soldiers from Olongapo, Subig bay, to Manila, is believed to have been lost.

Gen. Chaffee has ordered that in the future complete records shall be kept of all natives taking the oath of allegiance to the United States. Duplicates of these records will be signed in English, Spanish and Tagalog.

The Philippine constabulary, which was organized last August, is proving itself a valuable adjunct to the military authorities and is making an enviable record.

ADM. SCHLEY'S CHIEF COUNSEL.

Isidor Rayner Refuses to Accept a Fee For His Services In the Court of Inquiry.

Baltimore, Nov. 25.—It was learned Sunday that Mr. Isidor Rayner, chief counsel for Rr. Adm. W. S. Schley in the recent hearing before the court of inquiry, had refused to accept a fee for his services. A mutual friend of the admiral and Mr. Rayner stated that the admiral recently sent a valuable gold watch to Mr. Rayner, and a magnificent brooch of diamonds and pearls to Mrs. Rayner.

NEW MINISTER TO PERSIA.

Lloyd Griscom Received in Private Audience By the Sultan—A Valuable Souvenir.

Constantinople, Nov. 25.—Lloyd Griscom, the newly appointed minister to Persia, and Mrs. Griscom are staying with Spencer Eddy, the secretary of the United States legation here.

It was denied at the palace Sunday night that the sultan had decorated Mrs. Griscom with the order of Nichant Chefakat of the first class. The sultan received Mr. Griscom in private audience and presented him with a valuable souvenir. Mr. Griscom will leave here Monday for Teheran.

THE SAN JUAN BATTLEFIELD.

Gov. Wood, For the Government, Bought the Principal Portion—A Park Will Be Laid Out.

Santiago de Cuba, Nov. 25.—During his recent visit here Gen. Wood bought for the government the principal portion of the San Juan battlefield, including San Juan hill, the site of the blockhouse and Bloody Bend. The tract comprises 200 acres and cost $15,000. It will be considered a United States reservation and the government intends to lay out a beautiful park on the old battlefield.

A Heavy Snowstorm.

Cumberland, Md., Nov. 25.—One of the heaviest snowstorms for years has been prevailing at Oakland and Terra Alta, W. Va., on the summit of the Allegheny mountains since Saturday. The snow Sunday morning at an early hour had reached a depth of 20 inches. This snow is accompanied by a high wind.

Turkey's Arrogant Circular Note.

Vienna, Nov. 25.—The Vienna papers assert that Turkey is addressing an arrogant circular note to the powers protesting against their "perpetual interference" in Turkish affairs and demanding to know their intentions regarding Crete.

Churches Destroyed By Incendiaries.

Madrid, Nov. 25.—A number of churches in the provinces have been destroyed during the last few days by incendiary fires. Thus far the police have secured no clews as to the culprits.

WILL BOMBARD COLON.

Ignaci Follaco Gave 24 Hours' Notice That He Would Open Fire on the City Monday Noon.

Colon, Colombia, Nov. 25.—As a result of an exchange of notes between the United States gunboat Machias and the Gen. Pinzon, Ignaci Follaco, commanding the Pinzon, which has 500 men on board, has officially notified the American, the British and French warships now in the harbor that he intends to bombard Colon at noon Monday, thus giving 24 hours' notice.

The various consuls are notifying their various fellow-citizens that refuge may be had on board the warships. To bombard the town of Colon it is absolutely necessary to fire across the railroad tracks and the railroad employes will probably refuse to work. Lieut. Commander McCrea, of the Machias, is the senior naval officer and he awaits instruction from Washington regarding the threat to bombard. There is much excitement in Colon.

EX-PRESIDENT CLEVELAND.

His Condition Very Much Improved, and It is Believed He Will Recover in a Few Days.

Princeton, N. J., Nov. 25.—The condition of ex-President Cleveland, who is suffering with a cold, is very much improved. Dr. Wikoff, his physician, gave out the following statement for publication Sunday night:

"Mr. Cleveland is getting along very nicely, and, to all appearances, is entirely out of danger. He passed a restful night and has had a very comfortable day."

Mrs. Cleveland made the following statement Sunday night:

"Mr. Cleveland is very much improved and we are encouraged to believe that he will be fully recovered within a few days. He is still in bed, but is resting very quietly. At times he is somewhat distressed with a cough, caused by the breaking up of the cold."

A THING OF THE PAST.

The Famous Union Camp, Located South of Nortonville, Ky., Broken Up By the Militia.

Madisonville, Ky., Nov. 25.—The famous and much talked of union camp that has been located about a quarter of a mile south of Nortonville, in the southern part of this county, is a thing of the past, and Sunday night there was but little left to mark the rendezvous of the lawless gang which has given the state and county authorities so much trouble for the past two months.

All of the campers on whom the sun rose Sunday morning with the exception of a very few who escaped the clutches of the law are prisoners behind the bars of the county jail charged by County Judge Hall with a breach of the peace, unlawfully assembling and banding together, thereby making the camp a menace and terrc. to the peace.

HIS LIFE EBBING AWAY.

Martin Hogan, Irish Patriot, Who Was Rescued From Van Dieman's Land, Is Dying.

Chicago, Nov. 25.—Martin Hogan, an Irish patriot who was rescued from Van Dieman's land, Australia, in 1869 by a ship sent out for that purpose, is dying at the county hospital. He is one of the seven men convicted, with John Boyle O'Reilly in 1866, of treason against the British government and sentenced to be shot.

The sentence was commuted to life imprisonment and afterward reduced to 20 years of penal servitude. With O'Reilly he was confined in various English prisons until 1867, when he, with his companions, was banished to Van Dieman's Land, the English penal colony in Western Australia.

Kansas Educational System.

Topeka, Kan., Nov. 25.—Frank Nelson, superintendent of public instruction, is completing an investigation of the Kansas educational system which will show that 120,000 of the 400,000 children of school age in the state do not attend school. Kansas has a compulsory educational law, and it is, therefore, difficult to account for the large percentage of absentees.

Death of A. J. Streeter.

Galesburg, Ill., Nov. 25.—A. J. Streeter, well-known in agricultural and political circles in Illinois, and who came into national fame in 1886 as the union labor party's candidate for president, died of diabetes Sunday at his home at New Windsor.

Threatened To Kill Miss Stone.

London, Nov. 25.—"Mr. Dickinson has received no reply from the brigands to his ultimatum," says a dispatch from Sofia to the Daily Telegraph. "The brigands threaten to kill Miss Stone unless the full ransom is paid by January 1."

Went Back to Work.

New York, Nov. 25.—There was a rush of business at the Harlem river yards of the New York, New Haven & Hartford railroad Sunday, for at 10 o'clock in the morning all the men who went on strike last Tuesday went back to work.

The Crew Rescued.

New York, Nov. 25.—The crew of the ship Flotbeck, which went ashore at Monmouth beach Saturday night, was rescued by the life savers, who got the sailors ashore in the breeches buoy.

MORE LIVES LOST.

A Searching Party of Eight Overcome by White Damp in the Pocahontas Mine.

THEIR DEAD BODIES RECOVERED.

The Unfortunate Men, Who Were Missing Since Friday, Found Within 600 Feet of the Entrance.

Among the Victims Were Superintendent of Mines, Walter O'Maley, State Mine Inspector Price and His Sub-Inspector.

Bluefield, W. Va., Nov. 25.—The dead bodies of the lost party of eight well-known mining men who entered west mine of the Pocahontas Collieries Co. on Friday morning last at 11 o'clock were recovered at 12:45 o'clock Sunday. At 7 o'clock Sunday morning a rescuing party, numbering 40 persons, entered the main entrance, bratticing the mine as they went in order to improve the circulation of the air. They had advanced a distance of 3,500 feet from the entrance when they encountered such quantities of white damp that it was impossible to proceed further. Retracing their steps, they decided to make another attempt from the Tub river entrance, some six miles across the Flat Top mountain. They went in this entrance about 10:30 o'clock and after going a distance of some 600 feet found the dead bodies of A. S. Hurst, chief inspector, Bob Odham, sub-inspector, and Franzier C. Belt, mining engineer, all huddled together. From their positions they must have met death suddenly and without pain. All of them were lying face down with no signs of a struggle.

Signs of a Struggle.

The bodies of the other five members of the party, Superintendent of Mines Walter O'Maley, Joseph Cardwell, superintendent of the Shamokin Coal and Coke Co., R. E. St. Clair, second assistant inspector, State Mine Inspector Price and Maurice St. Clair, sub-inspector, were found several hundred feet back in the mine. The bodies of O'Maley, Maurice St. Clair and Price were discolored and bruised about the face, showing signs of a struggle.

It is said by members of the rescuing party that Hurst, Bell and Odham would hardly have lost their lives but for the fact that they lost their way, entering a chamber 150 feet to the left, or near one of the passages from the Baby mine in which the deadly white damp had accumulated in great quantities.

The bodies were brought down from the mines in four wagons, reaching the Pocahontas wholesale grocery house at about 5 p. m., where they were prepared for burial. The bodies are very much swollen, and, having been attacked by mine rats, present a grewsome spectacle.

Baby Mine Still Burning.

The fire is still burning in Baby mine, and the mine officials seem at a loss to understand how it will be finally extinguished. The only way, it is believed, is by flooding. This will be an enormous undertaking as the mine is a drift mine. Mine experts claim there is great danger of an explosion by flooding the mine, for, when the water comes in contact with the fire, the generation of gas will be so great as to possibly blow away the whole side of the mountain.

SUBMARINE BOAT FULTON.

The Vessel Rose From the Bottom of the Bay After Its Fifteen Hours of Submersion.

New York, Nov. 25.—In the presence of a big crowd, which, despite the storm, assembled to witness the emerging of the submarine boat Fulton, that craft rose from the bottom of the bay Sunday morning at 10:30 o'clock with all well and greatly surprised to find there was a storm raging.

The test of the Fulton's staying power was highly satisfactory, not only to the officers of the company that built her and the naval officers present, but to those who went to the bottom in the boat. They report there was not the slightest discomfort to them during their more than 15 hours of submersion beneath the surface.

Iron Steamer Launched.

Santiago de Chile, Nov. 25.—The launch of the first iron steamer constructed in Chile occurred at Valparaiso Sunday and was a great success. The ceremony was attended by the president, Senor Jerman Riesco, the federal authorities and a large assemblage of people. The entire ship, from keel to truck, was constructed in this country.

Rioting in Athens Renewed.

Athens, Nov. 25.—There was a renewal of rioting Sunday night, though not on a large scale, with demonstrations against the retiring cabinet. The residences of the ministers were stoned. The crowds were finally dispersed by cavalry. Armed students continue to occupy the university buildings.

Money For the Spanish Navy.

Madrid, Nov. 25.—The minister of finance has consented to the demand of the minister of marine for the appropriation of 12,500,000 pesetas for the Spanish navy in addition to the sums already appropriated.

CHINAMAN GAVE UP HIS SEAT.

A Heathen's Courtesy to a Tired Woman While Christians Remained Seated.

A Columbia avenue car, with a good crowd aboard, was wending its way up Ninth street late one Saturday evening. Only a few of the gentler sex were on the car and these had seats. Among the seated passengers were two severe-looking clergymen, several prosperous business men and a docile Chinaman who carried a large bundle on his knees.

At Arch street a middle-aged woman who carried a small valise got on the car. It jolted along and the slender, tired-looking woman glanced around appealingly for a seat. She stood close to where the two ministers sat and her face wore an expression of pain as the car rattled along and she clutched nervously at the hand-strap. The Chinaman rose from his seat, and, holding his heavy bundle with his left hand, tapped the woman with his right hand gently and motioned her to the seat he had vacated. She accepted the favor with a smile and a gracious "Thank you, sir."

All the men seated in the car stared at each other as if each of them had received a rebuke.

"That Chinee is all right," remarked the conductor, according to the Philadelphia Record. "He's a good sample of those supposed barbarians we are endeavoring so hard to civilize."

HE WANTED A BEAR.

But When He Met One Face to Face He Forgot What He Was Out After.

"The sickest man I ever took into the woods," said an Adirondack guide, near North Creek, relates the New York Times, "was a lawyer who came in from Buffalo last fall to kill a bear. He said he was going to kill one if it took all season. He wanted a rug of his own killing for his office. He staid in the woods three weeks, and wouldn't look at deer or small game. Finally he had to go home. He sent his stuff out to the railroad by team, and walked out himself, saying that would be his last chance at a bear.

"Sure enough, he went around a big rock and met a bear face to face in the trail. He forgot what he was after, forgot he had been hunting three weeks for this very animal, forgot that he wanted a rug for his office, and even forgot that he had a gun. He turned and sprinted in the direction from which he came till it all came over him that that bear was just what he wanted. Then he stopped, went back and saw from the tracks that the bear had gone a good deal faster than he did, and in the opposite direction."

Going Easy.

"He is dying very calmly," observed the physician, as he felt the pulse of the sufferer. "So like John," softly spoke the prospective widow. "He always was an easy going man."—Baltimore American.

St. Jacobs Oil for Chest-Colds, Bronchitis, Croup and Pleurisy.

An outward application for bronchial difficulties is many times far more effective than syrups, cough mixtures, cod liver oil, &c., simply because it penetrates through to the direct cause, which is, as a rule, an accumulation of matter or growth tightly adhering to the bronchial tubes.

St. Jacobs Oil, possessing as it does those wonderful penetrating powers, enables it to loosen these adhesions and to induce free expectoration. Cases have been known where expectorations have been examined after St. Jacobs Oil has been applied, and the exact formation was clearly shown, where the adhesions had been removed or pulled off the bronchial tubes. All irritation of the delicate mucous membrans of the bronchae is quickly removed by the healing and soothing properties of St. Jacobs Oil. In cases of croup and whooping cough in children St. Jacobs Oil will be found superior to any other remedy.

St. Jacobs Oil is for sale throughout the world. It is clean to use—not at all greasy or oily, as its name might imply. For rheumatism, gout, sciatica, neuralgia, cramp, pleurisy, lumbago, sore throat, bronchitis, soreness, stiffness, bruises, toothache, headache, backache, feetache, pains in the chest, pains in the back, pains in the shoulders, pains in the limbs, and all bodily aches and pains it has no equal. It acts like magic. Safe, sure, and never failing.

Very Dear.

"Dost love me, George?" she whispered. "Sweetheart," he answered, fondly, "you are the dearest thing on earth to me."

Which was quite true; for, what with box suppers and carnations and chocolates, she got most of the young man's salary.—San Francisco Bulletin.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

Her Logic.

He—You will admit that man is the most sensible of all animals?

She—I'll admit that he thinks he is. It is for that reason it is so easy for a woman to make a fool of him.—Boston Times.

Miss Lillie Degenkolbe, Treasurer South End Society of Christian Endeavor, 3141 Michigan Ave., Chicago, Ill., Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—When life looked brightest to me I sustained a hard fall and internal complications were the result. I was considerably inflamed, did not feel that I could walk, and lost my good spirits. I spent money doctoring without any help, when a relative visited our home. She was so enthusiastic over **Lydia E. Pinkham's Vegetable Compound,** having used it herself, that nothing would satisfy her until I sent for a bottle. I have thanked her a hundred times for it since, for it brought blessed health to me and cured me within seven weeks.

I now wish to thank you, your medicine is a friend to suffering women."—LILLIE DEGENKOLBE.

$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone," and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. **Lydia E. Pinkham's Vegetable Compound** at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Cut this out and send to the **McKinley Music Co.** 204 Wabash Avenue CHICAGO, ILL.

GALE IN THE EAST.

Large Amount of Shipping and Other Property Wrecked or Partially Demolished.

THE HIGHEST TIDE EVER KNOWN.

The United States Hotel, Long Branch, Was Unroofed and the Interior Badly Damaged.

A Ribbon of Wreckage Girts the Shore Front From Astoria to Greenport—Railroad Tracks Badly Washed Out.

New York, Nov. 26.—A heavy northeast gale has been ranging along the coast for the past 20 hours. The storm set in at sunset Saturday evening, blowing with great severity all night, accompanied by heavy rain. In the upper and lower bay the storm blew with great fury, an unusually high tide washed upon the Staten Island shores, doing considerable damage to docks, small boats and other craft. The Staten Island Rapid Transit railroad tracks between Tompkinsville and Stapleton was obstructed by wreckage from pile drivers and a small schooner which was driven ashore and the wreckage piled up on the railroad track. A heavy sea raged in the upper bay.

The United States hotel at Long Branch was wrecked early Saturday night. The gale started a corner of the roof and the wind, getting under it, ripped almost the whole covering off. Very little could be done to save the interior. The rain was falling in torrents and men worked hard to get the furnishings to points where they would be in the least danger.

Along Ocean avenue several store fronts were blown in and the rain beat in during the night.

Many of the avenues are impassable owing to fallen trees and fences being blown across them. Sunday night there was but one telegraph wire working out of the city.

The New York & Long Branch railroad is blocked by a washout at Morgans. No trains have come in or gone out by that route since morning.

The Damage Very Heavy.

Driven by the terrific northeast gale, the highest tide ever known along the north shore of Long Island swept inland, leaving a ribbon of wreckage that girts the shore front from Astoria, in Long Island City, out to Greenport, on the extreme end of the island.

Thousands of dollars of damage was done. Docks, boat and bathing houses were wrecked, and fleets of yachts which had been drawn up in supposedly safe winter quarters, were floated off by the high tide and left stranded, in many instances more than half a mile inland.

Washout occurred on two branches of the railroad and trolly roads. Traffic was suspended on two branches of the Long Island railroad, while for more than half a day the cars of the New York and Queen's County Electric railway were unable to get beyond Steinway, owing to the tracks across the meadows being submerged by the tide.

Probably the greatest damage was done at North Beach at Flushing and Bowery ways, where more than $20,000 worth of docks, pave walks, pavilions, places of amusement and other property were destroyed.

THE STORM IN NEW JERSEY.

Wind Attained a Velocity of 70 Miles An Hour—Cottages At Asbury Park Damaged.

New York, Nov. 25.—The storm struck Asbury Park, New Jersey, with more force than any in recent years. The wind during the night attained a velocity of 70 miles an hour, and did much damage to cottages. The great waves rolled across Ocean avenue, and the surf rolled across the beach into Wesley Lake, overflowing it, something that never occurred since Asbury Park was located. The water of the lake flooded cellars, and made the streets in that vicinity almost impassible.

The Metropolitan Hotel, one of the largest at Asbury Park, was swept of its roof, and the rain soaked down into the rooms, causing much damage. The piazzas of the hotel strand were torn off, and the building considerably damaged. Trees have been stripped, and the streets are littered with branches, wires, parts of roofs, or verandas and shutters.

A new inlet from the ocean to the Shrewsbury river has formed near Navesink, and an examination of it Sunday afternoon indicates that it is deep enough for the river steamers.

Distilling Ship Aground.

Manila, Nov. 25.—The United States distilling ship Iris has been aground on a reef near Iloilo for three days past. The United States cruiser New York, and the gunboat Yorktown have gone to her assistance.

Will Be Tried For Treason.

London, Nov. 25.—Col. Arthur Lynch, the newly elected member of parliament for Galway, has been informed that if he comes to England he will be tried forthwith for treason.

A Vanderbilt Heir.

New York, Nov. 25.—A son was born to Mr. and Mrs. Alfred Gwynne Vanderbil, Sunday night.

GIGANTIC CONSPIRACY.

A Scheme Was Hatched to Overthrow the Canadian Rule in the Yukon Country.

Seattle, Wash., Nov. 23.—The Times prints the following from Victoria, B. C.:

There was an organized conspiracy to seize Dawson, secure the barracks of the Northwest mounted police with their arms and ammunition, loot the banks and pillage the property of the rich northern gold fields. These facts are confirmed. James Seely, formerly of this city, now head of the secret service of the Northwest mounted police, is in this city, says that not only was there a conspiracy to overthrow Canadian rule in the Yukon and loot Dawson, but the scheme hatched by the conspirators was a very feasible one and had its existence not been discovered by the secret service of the Yukon and nipped in the bud, the conspirators could have accomplished their purpose and, after taking Dawson, could have held that place and the Yukon. The conspiracy was born at Dawson and had a branch at Skagway, but no existence in any other point to the south of Skagway, although efforts were made to secure the assistance of pro-Boer sympathizers in Seattle and other points in the United States. It was at Dawson that the plot was made last summer. Several American Fenians who had drifted to Dawson, got together and formed an organization which was called the "Order of the Midnight Sun." A number of others were gathered in this and it grew until there were several hundred adherents in September, when the members of the secret service in the Yukon became aware of its existence.

INSURGENT LEADER CABALLOS.

Reported That He Has 500 Fully Armed Men, Including a Number of American Negroes.

Manila, Nov. 23.—It has been officially reported to Gen. Chaffee that the insurgent leader Caballos has 500 fully armed men, including a number of American Negroes, under his command in Laguna province, Luzon. An insurgent officer has just been captured, carrying papers dated Mauban, Laguna province, November 18, and signed by Caballos. The prisoner admits that Caballos has 1,000 men with him and contemplated attacking Mauban. This probably accounts for the fact that the telegraph lines were cut near Mauban and in several places the supporting poles were found to have been removed.

PILLORY SYSTEM REVIVED.

A 10-Year-Old Boy in the Illinois State Reformatory, Severely Punished For Whispering.

Chicago, Nov. 23.—An old-fashioned pillory system of punishment, which it is claimed has the sanction of the board of directors, of which Bishop Fallows is president, has been unearthed at the Pontiac (ill.) state reformatory.

In this trying manner Chas. Miller, a 10-year-old boy, asserts he was forced to stand for 20 hours at a stretch. He was taken down for 10 minutes at noon, when bread and water were furnished him. Superintendent Mallory, of the reformatory, is quoted as corroborating the statement. Young Miller's offense was whispering in school.

THE SMOKE NUISANCE.

The City of St. Louis Sued in Mandamus Proceedings Asking That It Be Abolished Forthwith.

St. Louis, Nov. 23.—Because the throat and lungs of Ferdinando Avendano, leading tenor for the Southwell Opera Co., were so irritated and injured by St. Louis smoke that he was unable to sing his part in the opening performance of "La Giaconda," the city of St. Louis and Charles H. Jones, chief smoke inspector, are sued in mandamus proceedings, asking that they be compelled to abate the smoke nuisance forthwith.

LARCENY OF DIAMOND RINGS.

Percy W. Vance, Formerly Employed in a Chicago Department Store, Arrested in St. Louis.

St. Louis, Nov. 23.—Percy W. Vance, 19 years old, was arrested on information from Chicago that he was wanted there on an indictment charging him with the larceny of 40 diamond rings, valued at $3,000. The rings were stolen from a Chicago department store, where he formerly worked. Vance says he spent the money received for the sale of the stolen jewels in gambling.

Violated Customs Regulations.

Seattle, Wash., Nov. 23.—The treasury department has imposed fines of $24,660 upon the owners of the three Nome steamships, the Roanoke, Portland and Valencia, for violations of the customs regulations in carrying passengers from the north in excess of the license limit.

Famous Lines Faded.

Washington, Nov. 23.—The writing and signatures of the original copy of the Declaration of Independence have completely faded away despite the fact that the document has been kept in a hermetically sealed glass case.

Conditional Shaves.

Conneaut, O., Nov. 23.—Conneaut barbers have formed a union and have agreed not to shave any customer known to owe a member of the union. Whiskers may become the style this winter in "Carnegie town."

TARIFF FACTIONS FORMING.

The Republican Party Is Rapidly Going to Pieces Over the Protection Policy.

It is evident from the dispatches from Washington to different organs of public opinion that the republican party is getting to be more and more a house divided against itself, so far as the question of protection is concerned.

There emerges a faction which is opposed to any disturbance of Dingleyism, either by direct legislation or by treaty. This extreme bourbon faction assumes to have control of the organization of the new house of representatives, to have exclusive possession of the key to McKinley's last speech and to be able to dictate the policy of congress in both branches.

A second faction emerges which favors abandonment of the extreme Dingley duties on most things and resort to reciprocity treaties with all nations which will let down their tariff bars against American products in return for the letting down of our bars against their products. Mr. McKinley's last speech indicated that he had determined to put himself at the head of this faction with the expectation of making it dominant.

There emerges also a third faction, which proposes to attack the Dingley duties directly, but only such of them as are for monopoly solely. This faction, of which Mr. Babcock is a conspicuous leader, sees no possible excuse for tariff protection of American producers of articles which they sell in foreign markets not only in open competition with all comers, but in face of hostile tariffs.

While the first of these factions has recovered from the consternation into which it was thrown by Mr. McKinley's Buffalo speech and now claims to be the whole party, the others are by no means disposed to concede the claim.

Mr. Babcock recently returned from Europe as firmly resolved as ever to push his bill to deprive the monster steel trust of protection. He showed that the steel monopoly could turn out products cheaper than they could be turned out anywhere else in the world and that it was in fact using the Dingley duties merely as an instrument for the practice of extortion upon the American people.

Senator Cullom, representing the reciprocity faction, has declared within the last day or two that the people of the west are "generally in favor of reciprocity treaties and tariff concessions as the best means of enlarging their foreign markets." Representative Prince, of Illinois, is quoted as saying that he expects a stubborn fight during the coming session for lower duties by treaties or by direct legislation.

Western constituencies are tired of paying high prices for merchandise sold to foreigners for low prices and tired of seeing foreign markets closed against them in retaliation for our high duties. But it is extremely doubtful whether they will ever obtain relief through the republican party.—Chicago Chronicle.

THE PHILIPPINE ARMY.

No Prospect of a Reduction in the "Military Guard" Now in Occupation.

According to the annual report of Lieut. Gen. Miles the total strength of the United States army at the present time is 84,313, of which number 43,239 are in the Philippines. Thus more than half the entire army are now occupied in reducing to submission the islands which were purchased from Spain at forced sale for $20,000,000 about three years ago, the remaining minority of our military forces being scattered through the United States, Cuba, Porto Rico and China.

The entire army of the United States, officers and men, at the time of the last annual report before the outbreak of the war with Spain, amounted to 27,532. At the present time there are in the United States itself, exclusive of outlying possessions and Cuba, 33,874 men and officers, or over 6,000 more than the entire army of four years ago. In the Philippines alone there are now nearly 16,000 more than the entire army of the United States at that time.

It is now more than three years since the war with Spain was ended, nearly two years since the "insurrection" of the Filipinos was officially announced to be suppressed, and about a year since preparations were making for the reduction of the "military guard" in the Philippines to a maximum of 20,000 men. Yet there are over 43,000 in occupation, either in active campaign service or awaiting the call to battle at any moment. There is no longer talk of reducing the forces in the Philippines to 20,000 men, but the question is how to maintain the troops there at the present number.

The $20,000,000 paid to Spain is a trifling item in the cost so far to the United States of the Philippine purchase. It will be utterly insignificant in comparison with the aggregate cost in cash within a few years at the present rate, to say nothing of the far greater cost in what cannot be computed in money.—N. Y. World.

——To reduce the tariff will be to reduce the toll which the monopolist is collecting from the American consumer. Of course this will never do. The whole power of the trusts and all their friends in the upper and lower houses would cry out against such a plan. It remains to be seen whether the present administration will harken to the voice or the people in settling this question, or whether the interests of the trusts will prevail to defeat all attempts at either tariff revision or reciprocity.—Peoria Herald-Transcript.

QUESTION OF THE TARIFF.

Protected Interests in Line to Defeat Babcock's Plans for a Revision.

Congressman Grosvenor, of Ohio, familiarly known as the "McKinley tabulator" and as the mouthpiece of the late president's administration in the house of representatives, has been inspecting the returns of the recent elections, and he says that "the returns mean that the protective tariff is no more to be revised or modified than the Ten Commandments." This is not in line with the last speech made by President McKinley in Buffalo, the day before he was assassinated, nor is it in line with the public utterances of Mr. Roosevelt while still vice president. For disguise it as they may, and quibble over words as much as they choose, the republican leaders know as well as we do that reciprocity is, in effect, a modification of the protective tariff system as heretofore practiced and understood, and that it amounts to an entering wedge in the direction of tariff reform, through the reduction of the present almost prohibitive duties.

Such declarations as this of Mr. Grosvenor's would seem to mean, if we assume that he is well advised as to his party's conduct and line of policy at the coming session of congress, that short shrift will be made of Mr. Babcock's plans of tariff revision, and that the ratification of President McKinley's reciprocity treaties will again be defeated by the "protected interests." It has been intimated that President Roosevelt's message will contain no specific, explicit reciprocity recommendations. But in any event, the congress, and not the executive, makes tariffs, and the senate, not the president, confirms treaties.

The effect of this policy upon the republican reformers of the middle west can only be conjectured as yet. In Iowa, especially, a governor has just been elected who was, only a few years ago, called an out-and-out free trader; and the Iowa republican platform tails year squinted decidedly in the direction of tariff reform. If Mr. Grosvenor is right, and these low-tariff republicans are to get the cold shoulder in congress, it is the best news for the democratic party that we have heard in many a day.—Albany Argus.

POTENT THOUGH BRIEF.

Such May President Roosevelt's First Message to Congress Be Made.

President Roosevelt is alike correct in his determination upon a brief but emphatic message to congress and in his conviction that a president should not recommend specific legislation to congress, contenting himself, instead, with pointing out the need of legislation against certain evils and leaving congress to furnish the remedy.

Nevertheless, a message such as is now contemplated by the president may be effectively potent both in wise guidance of his party and in helpful influence bearing upon congressional action. Brevity in such a message should intensify, not dissipate, that document's forcefulness. The fact that the president sees certain perils in existing conditions, and yet leaves to congress without dictation the duty devolving exclusively upon that legislative body, should insure the faithful performance of the duty.

If, for instance, President Roosevelt entertains earnest convictions of the evils of the trust system as now prevailing, he can very briefly and yet with compelling emphasis indicate to congress the necessity for laws which shall properly restrict the trusts.

If, also, he perceives the malign features of the Hanna-Frye-Standard Oil ship subsidy bill, so apparent to the people that all the money and power of the syndicates failed to jam the bill through the last congress, a very few words from the president should render impossible that bill's passage during the approaching session. In neither case will there be necessity for prolonged discussion or for dictation of congressional action.

The new president's first message to congress will be awaited with profound interest. He is known to be apprehensive of the growing dominance of the trusts. He is believed to be opposed to the passage of the Hanna-Frye-Standard Oil ship subsidy bill. The—forthcoming message should make his position on these issues clear beyond all doubting.—St. Louis Republic.

——The republican party, the champion of aggregated wealth, of an aggressive foreign policy, opening new markets for our trade abroad; the democratic party advocating equality of opportunity at home so that the benefits won by the nation shall not be sequestered by the few. Coupled with this, the democratic party is to stand ready to check the arrogant power of certain corporations by government ownership, but handicapped by professed members and even leaders who are hand-in-glove with the republicans. It may be that the battle will be set in array between these two great forces. It would be a grim contest.—Baltimore Sun.

——It is true that the democracy has won no victories excepting in the case of Kentucky and perhaps of Maryland, but it is evident that the stout old party is alive, that its vigor is returning and that, freed from the false leaderships and the impracticable heresies that have so fatally handicapped it during the last eight or ten years, it has before it a career of usefulness and incalculable possibilities. The democracy may well take heart.—Washington Post.

STATE ODDS AND ENDS.

A DISSENTING OPINION.

Chief Justice Paynter Gives His Views In Regard to the Ousting of Mr. Breckinridge.

Frankfort, Ky., Nov. 21.—The court of appeals decided the Breckinridge-Pratt contest case over the office of attorney general of state, in favor of Judge Pratt, republican nominee, and directing the retirement of Breckinridge.

Frankfort, Ky., Nov. 22.—Chief Justice Paynter, of the Kentucky court of appeals, Thursday filed a dissenting opinion in the case of Pratt vs. Breckinridge, decided Wednesday, in which some rather strong language is used. He says the decision ousting Breckinridge from the office of attorney general of the state, is far reaching in consequences and effect and unfortunate, and that such action as the court has taken serves to bring reproach upon the courts.

RAILROAD TERMINAL FACILITIES.

Wm. K. Vanderbilt, W. H. Newman, M. E. Ingalls and C. E. Schaff in Louisville on An Inspection Tour.

Louisville, Ky., Nov. 22.—Wm. K. Vandeblit, W. H. Newman, president of the New York Central & Hudson River railroad; M. E. Ingalls, president, and C. E. Schaff, general manager of the Cleveland, Cincinnati, Chicago & St. Louis railway, were in Louisville Thursday afternoon inspecting the railroads' terminal properties. The officials are on their annual inspection tour, which began at Cleveland Wednesday afternoon.

At 8 p. m. a special train took the party to St. Louis by the Baltimore & Ohio Southwestern. Friday morning the terminals at St. Louis will be inspected, and in the afternoon the party will go to Indianapolis and thence to Chicago.

WOMAN SHOOTS HERSELF.

Mrs. Dudley Woods, of Keene, Ky., Was Suffering With Pneumonia, and She Suicided.

Nicholasville, Ky., Nov. 22.—Mrs. Dudley Woods committed suicide at her home near Keene, this county. She was formerly Miss Sallie Young, of Shelby City, Ky., and is a sister of Deputy Sheriff Logan Young, of this place. She leaves a widower and three children, the eldest being only 8 years of age. No cause but ill-health can be given for her taking her own life. She [illegible] breakfast and her husband had left her room and bedside only a few moments before she shot herself. Her husband's family and her own are prominent people of Jessamine county.

HE RESISTED ARREST.

John Siegel, of Louisville, Died as the Result of Blows on the Head Delivered By a Policeman.

Louisville, Ky., Nov. 23.—John Siegel died Friday as the result of blows on the head delivered by Patrolman Paul Bronger, while Siegel was resisting arrest Thursday afternoon. Bronger claimed that he was forced to strike Siegel several times in self-defense. He states that Siegel had a drawn knife in his hand when he was struck. Bronger was presented in police court Friday morning and his case was continued.

Brood Mare Sold.

Lexington, Ky., Nov. 22.—H. B. Durham, acting, it is supposed, for the Oneck stable, of New York, has bought of Baker & Gentry the well known brood mare Virgie Johnson, 12 years old, by Jils Johnson, dam Lady Virgil. She is the dam of Little Veronica, Jean Raphael and Lily Hammerton. The price paid was about $1,200.

He Takes His Meals Standing.

Vine Grove, Ky., Nov. 23.—Miss Cleora Cox, a pretty school marm, has been held over to the grand jury by Magistrate Hill for chastising too severely one of her pupils. The youngster exhibited an anatomy that presented visible marks of the teacher's vigorous hiding. He takes his meals standing.

The Floater's Identity.

Henderson, Ky., Nov. 23.—The floater found in the Ohio river two miles above this city November 9 is now believed to be the body of Frank Dahlgren, a tailor, who disappeared from Clarksville, Tenn., in October. The body may be exhumed.

For a State Fair.

Louisville, Ky., Nov. 22.—The Kentucky Live Stock Breeders' association has decided to ask the legislature for a $15,000 appropriation for a state fair to be held here during the week of September 22.

John M. Morgan Dead.

Mayking, Ky., Nov. 23.—John M. Morgan, aged 59 years, a wealthy pensioner of Potters Fork, and a relative of Gen. John H. Morgan, the famous raider, died here. His son, Wm. Morgan, resides at Frisco, O. T., and is a wealthy land owner.

Two Fatal Accidents.

Middlesburg, Ky., Nov. 21.—Harvey Lallee, a youth of 15 years, was accidentally killed while hunting near Somerset. George Head, aged 20, accidentally shot and killed himself near Burnett's Chapel.

HE REFUSED TO SERVE.

B. F. Loy Was Elected Sheriff and George A. Edwards, Defeated, Now Claims the Office.

Greensburg, Ky., Nov. 21.—George A. Edwards, who was defeated for sheriff, Wednesday filed a contest against B. F. Loy, who was elected. There has been no sheriff in this county for over 20 years, and neither party nominated a candidate for the office, but Mr. Edwards made the race on an independent ticket with nobody against him on either of the other tickets; the voters wrote the name of Loy on their ballots and Edwards was thereby defeated. Loy did not know that his name was being used and would not qualify. Edwards claims that he was entitled to the certificate of election because Loy did not want the office and did not want the certificate of election which was issued to him.

WILL SOON BE IN OPERATION.

The Georgetown & Lexington Traction Co., Now Constructing Tracks, Increases Its Capital Stock.

Lexington, Ky., Nov. 23.—Amended articles of incorporation were filed by the Georgetown & Lexington Traction Co., now constructing tracks, increasing the capital stock from $5,000 to $250,000, and grant the right to construct a power plant, car barns, etc., and maintain a telephone or telegraph line along the road. The road will be in operation by January.

Bees in a Cliff.

Petersburg, Ky., Nov. 23.—In an opening in one of the large overhanging cliffs at the mouth of Woolper creek, and over 100 feet from the ground, and so steep that no one has ever been able to reach it, is a swarm of bees that has been domiciled there for a number of years. This season they have filled the inside of the cavern and on the outside hanging to the rocks can be seen an immense column of honeycomb and down the sides of this huge rock the "sweets" has run almost to the ground.

Four Bound Over.

Albany, Ky., Nov. 21.—Sam Groce, Sam Shipley, John and Henry Miller, charged with killing James Johnson in the western part of this county, had their examining trials here before Judge Parrigin, and Groce, Shipley and John Miller were held over until the February term of circuit court. Their bond was fixed at $250 each, which they gave. Henry Miller was acquitted. Robert Miller is still at large.

Train Broke From Its Coupling.

Middlesboro, Ky., Nov. 22.—The Mingo passenger train broke loose from its coupling Thursday and started down the mountains at a frightful speed. Helen Keeny, aged 13, daughter of Jake Keeny, a coal operator, was the only occupant. She jumped and was badly hurt, but may recover. The train never stopped until it reached Middlesboro.

Quinn's Death Warrant Signed.

Frankfort, Ky., Nov. 22.—Gov. Beckham Thursday signed the death warrant of Reuben Quinn, of Boyle county, who killed Policeman John Crum, at Danville, and ordered that he be executed on Friday, December 20. Crum attempted to arrest Quinn without a warrant on a charge of operating a "blind tiger."

Five Moonshiners Were Caught.

Mayking, Ky., Nov. 21.—A successful moonshine raid was made on the Kentucky-Virginia border in the moonlight, when five stills were cut up and destroyed and five "shiners" were arrested and taken to Whitesburg for trial before United States Commissioner Baker.

Aged Couple Married.

Middlesboro, Ky., Nov. 21.—"Uncle Brummet" Cochran, an old widower of 80 winters, and "Aunt Patsy" Marblee, a widow of 60 years, were married at Liberty. The groom is the father of Hon. W. B. Coehran, a prominent attorney of Liberty and late republican candidate for state senator.

Victory For the Investment Companies.

Lexington, Ky., Nov. 22.—Seven suits filed by separate parties and aggregating $200 against two local investment companies were decided in favor of the companies Thursday. The complainants charged the companies with being lotteries.

Many Conversions.

Scottsville, Ky., Nov. 23.—Elder M. F. Hall, who has been conducting revival meetings in Allen county, will Sunday baptize 46 converts in Long creek, making a total of 172 for the last two months. This is the young elder's first evangelical work.

A Big Fox Hunt.

Lancaster, Ky., Nov. 23.—A grand fox hunt is to begin at Crab Orchard Monday, to continue through Thanksgiving week, and wind up with a national organization. Visitors are already gathering and hundreds are expected from all over the state.

The Weather Too Dry.

Irvine, Ky., Nov. 23.—The eighth annual meeting of the National Fox Hunters' association came to a close Friday rather abruptly. The weather has been so dry that it was found impossible to hold satisfactory trials.

BOONE CO., RECORDER
Wednesday, - - Nov. 27, 1901.
W. L. RIDDELL. - - Publisher.

Neighborhood News.

IDLEWILD.—C. A. Gaines, our hustling turkey merchant, bought about $100 worth of Thanksgiving turkeys at 6½ cents a pound.

Mrs. R. Y. Raudall had a sever stroke of paralysis, last week.

Will Cummings has moved to Covington, where he has a position in the gas works.

Mrs. Alfred Chambers entertained a number of her friends very pleasantly last Friday.

Gov. Beckham's Thanksgiving proclamation was decidedly the best with which Kentucky was ever favored.

Mrs. M. T. Graves had an old fashioned quilting and turkey dinner, last Thursday. It was enjoyed by a large number of her lady friends.

Several ladies attended the Epworth League at Petersburg, from here, and were delighted with the exercises, and especially with Rev. Cramm's address on Foreign Missions.

RABBIT HASH.—A small rise in the river here.

The Vixen is on duty again between Rising Sun and Aurora.

The answer to the puzzle in our last writing is, a wheel barrow.

John McConnel has been hauling logs to Rising Sun, the past week.

Several of the farmers here butchered their winter's meat the past week.

Some rain fell here the past week, but not enough to furnish water for stock.

—W. C. Ryle, of Hamilton, Ohio, is recovering from a severe attack of pneumonia.

Eugene Wingate is the champion hunter of this burg. He never fails to bring in a load of rabbits at every hunt.

James A. Wilson celebrated his 87th birthday by a dinner last Sunday. A crowd of relatives and friends were present.

Andy Dolph had a wood sawing, Friday, and Friday night the young people were invited back to a dance, which was enjoyed until a late hour.

A club of 22 guessed in the Enquirer contest. The nearest guess is 2000 off, so they will not have as big a time, Christmas, as they were counting on.

BEAVERLICK.—Uncle Bob Conneley, who has been on the sick list for some time, is reported getting along nicely.

James Lest and his son, William, left here for Hunne, Illinois, one day last week.

Mrs. J. B. Eldred, who has been quite poorly for the last two weeks, is convalescing.

Bates Brown and wife, of Covington, were visiting his brother and wife, Will, here last week.

Born, November 23d, to Henry Maxwell and wife, a fine baby girl. Henry came into Beaver the next day exclaiming, "I'm the galdarndest best man in town, and no one is barred!"

Charles Roberts, of Verona, came down one day last week, to Howe Cleek's, and they played sad havoc with what few qualls were left in the neighborhood. They report having killed a mess.

B. B. Allphin, Sheriff elect, was among the people here, last week, notifying those whom it may concern, that our own Circuit Judge, John M. Lassing, will convene his court in Burlington, Monday.

Owing to the general scarcity and high price of corn, we will have sausage and spareribs earlier this year than we generally do. Many of our farmers have already slaughtered their tolerably fat porkers.

Many of our young people, who attended the dance at Larry Farrell's, last Thursday night, report a large attendance and a general good time. Larry was all along the line once himself, and knows precisely how to entertain the young folks when they visit him.

T. J. Hughes, as is his wont, exemplified one of the noblest traits of generous human character, last Monday, killing 32 nicely fatted swine, which he will keep on sale at his store, where those of limited means can purchase any pieces of good meat at reasonable prices.

Quite an interesting protracted meeting at the M. E. Hughes Chapel, began last Sunday night. The services will be conducted by Rev. Mills, the regular pastor, assisted by Prof. Fogg and his pretty horn music. Much interest is being manifested for the spiritual good of the meeting.

There is a tripple competition going on at present among our three merchant firms, composed of T. J. Hughes, John Taylor and Littrell Bros., each striving to give its customers the best bargains. It would be a capital thing for the poor of the community if the rivalry could only continue through the winter.

J. O. Griffith is adding much to the convenience of his home by the building of a large stock barn. Jerry has one of the prettiest farms and snuggest of commodious residences on the pike, and the only wonder among the fair sex is, how he can afford to "batch," when there are so many fair ones yearning to assist him in bearing the burdens of domestic life.

The Missionary Entertainment given by the Sabbath School Scholars, and conducted by Mrs. Sallie Green Hughes, last Sabbath morning at the Hughes Chapel was largely attended and great appreciation was manifested by the congregation in the efforts of the little ones in performing their allotted parts of the programme, which was well chosen and appropriate for the occasion. All did well and elicited quite encouraging remarks from Rev. Mills and Fogg, who were present and lent their aid to the morning's exercises.

It is calculated by those in a position to know, that if the present destruction of rabbits is permitted to continue another year or two, rabbits will be scarcer in this country than foxes. There is a class of people who do nothing but snare, trap and dead-fall for a living, and they have so thinned out the game that it is barely possible to get a shot at one for desert. An appeal to the incoming legislature for an act to protect our game from such unfair and indiscriminate destruction, is certainly in order. Let the sportsmen now take notice.

BELLEVUE—Will Rogers and wife were visiting Mrs. R's. parents, last Saturday and Sunday.

Mrs. J. R. Akins is still quite poorly.

James Rogers is feeding the nicest lot of steers in the county.

Mrs. Caroline Ryle, of the Waterloo neighborhood, is quite poorly.

Owen and Perry Presser are progressing nicely with their new residence.

Akin Bros. expect to have their new boat completed in three or four weeks.

The Steamer Vixen has resumed her daily trips between Rising Sun and Aurora.

Prof. L. H. Voshell was in the neighborhood, last week, making his annual visits to the schools.

Ome Rogers and wife, of Erlanger, were visiting Ome's parents here, a couple of days last week.

Bellevue Grange met, last Saturday in the I. O. O. F. Hall, with a fair attendance.

I hope that our editor and correspondents may be supplied with plenty of turkey, cranberries and celery Thanksgiving day.

Mrs. Williams, of Shelbyville, Ind., is visiting her cousins, Mrs. James W. Kite, Nora Satchel, Georgia Clore and J. S. Clore.

All are more than pleased with County Clerk Adams' office deputy, his estimable wife. She has the highest regards of all his constituents.

E. L. Grant was at Florence, Saturday, to order a new buggy built by Bradford Bros. All know where to go to get nice, desirable and honest work.

Bro. Roger T. Nooe delivered three interesting, instructive and able sermons at the Christian church here, Saturday evening, Sunday morning and evening.

It is proposed to have our mail route now 30 miles long lessen to 7½ miles by carrying the mail from our county seat to this point, which will put us in more direct communication with our neighbors.

Our genial, good natured friend, O. J. Ryle, of Burlington, calls on us every Wednesday and Saturday with nice, delicious beef and pork. Oscar knows the taste of every one and he tries to please all.

The stone crusher on the B. & B. turnpike is proving to be a great labor saver, and puts the metal in better shape for the roads. The directors are sparing neither labor nor means in order to put the road in good condition.

We are sorry to report that our friend, J. J. Huey, will leave us next week. Being connected with the store here for several years, he has made many friends who will regret to see him leave. He goes to Rising Sun to engage in the butcher business. May success attend him in his new efforts.

JACOB'S WELL.—Ezra Tanner furnished this neighborhood with some nice beef, one day last week.

We are glad to hear that Rev. S. W. Adams has accepted the call to the Baptist church of Florence.

Miss Lottie Utz celebrated her fifteenth birthday last Saturday. She received several nice presents.

Messrs. Harry and Authur Tanner gave an excellent Graphaphone entertainment at Pleasant Ridge, Wednesday night of last week.

We visited Locust Grove neighborhood a few days ago and found Ed Hensley and Abb Gaines talking turkey, and gobbling hard and loud for 7½ cts.

By special dispensation from the National Grange the four degrees were confered on a Mr. Smith from Hamilton Ohio, by Golden Grange, last Saturday.

Dogs made a raid on E. H. Blankenbeker's sheep, one night last week, and crippled about a dozen of his finest ones. We will say for the benefit of Colonel Whitson that Maine the second has been blown up, and peace has been declared. Lay aside your hickory club and go when and where you please.

What we saw and heard as we went around the circle: At Union we found B. L. Norman up and doing business; Mike Holtzworth hunting two hogs to make an even hundred; Tun Rich building two new houses on the property lately purchased from Jas. O. Huey; John Rich nursing a bad cold; Henry Underhill moving a barn for Jerry Griffith; John Jones improving his premises with a new yard fence; Charlie Buress and Mr. Black taking rabbits to the city by the road wagon loads.

MOUNDFIELD FARM.—It being necessary that we put up our winter supply of meat, last week was spent hunting rabbits down in the Big Bone country; consequently did not get my communication in time for publication.

Henry Quick is engaged putting an addition to John Aylor's residence.

Sam Aylor has moved into the house formerly occupied by Mrs. Whitcomb.

Thanksgiving services will be held at the Hebron church next Thursday at 10 o'clock a. m.

Several of our neighbors butchered their hogs last week. Owing to the scarcity of corn they were not as fat as those of other years.

There will be no thanks offered in this neighborhood for pumpkin pies, as there are no pumpkin vines.

Miss Edith Brown, while engaged in a game of ball at school the other day, had the ball to strike her in the face, disfiguring her very much for a time.

Mike Clore, of Ludlow, was out a few days ago in the interest of a telephone line that is to be established between Hebron and the city via constance. Mike says it will be a go.

Bro. F. P. Wolcott has been sending us the Lewiston, Journal published at Lewiston, Maine, for the week past. The National Grange has been holding a meeting there. The paper gives the whole proceedings which is quite interesting to read.

A move in the right direction to secure good roads in our neighborhood, has been made. Several who have plenty of stone on their lands have donated them, and parties who have teams are hauling them, while others are breaking and putting them on the road. Our efficient road supervisor, Thos Hafer, has taken a great interest in securing good roads, and during his administration has done much in that direction.

If you have a difficult Prescription take it to ESKEW'S, Pharmacy, Walton, Ky.

UNION.—Miss Anna Rice is seriously ill.

Glad to report Miss Anna Rice some better.

Mr. Abe Rice, of Covington, was out Sunday.

Mrs. Mike Knaley is with her father Mr. Andy Collins, who is quite sick.

Mr. George Gullion, of Carrollton, spent a few days in our town, last week.

Miss Susie Hogan is visiting her aunt, Mrs. James Howe, at Hamilton, Ohio.

Mr. John McConnell, of East Bend, spent Sunday with his sister, Mrs. C. P. Baker.

Mr. Ellerman, of Covington, was hunting several days last week with B. L. Rice.

Messrs. Wolcott and Smith, of Cincinnati, attended Golden Grange, last Saturday.

Miss Maggie Thomas, of Cincinnati, spent several days last week with Miss Nannie Burkitt.

Miss Lottie Williams, of Florence, is visiting her mother, Mrs. J. W. Williams, this week.

Miss Lillian Corbin is spending several days this week with her pupils in Speedwell neighborhood.

Mrs. Jane Gatson and daughter, Miss Josie, entertained a number of their friends at dinner, Thursday.

Mr. and Mrs. Joe Williams and daughter, Miss Judith, of Camp Washington, are guests of Mr. and Mrs. B. L. Norman.

Rev. W. S. Taylor and wife, of Erlanger, and Miss Taylor, of Cynthiana, spent Thursday night with Mr. and Mrs. J. W. Kennedy.

Mr. John Poindexter and family, of Cynthiana, spent a few days with Mrs. Poindexter's father and mother, Mr. and Mrs. J. W. Kennedy, last week.

Mr. John Baker, and old citizen of this place, died Saturday morning at 3 o'clock, at the home of his son Charles, after a long and serious illness. Funeral services were conducted at the house by Rev. Dr. Adams assisted by Rev. Mills and Rev. J. M. Brodnax.

CRESCENT.—One of most charming events of the season was the dance given at the house of Mr. and Mrs. Will Hogan, on the evening of the 21st. Among those present were the Misses Carrie Smith, Hattie Riley, Fannie Conrad, Maggie Kaut, Kate Scott, Fannie Edwards, Agnes Cody, Nanuie Terry, Myrtle Riley, Alice Scott, and Messrs. Charles Perry, Jno. Powers, Cleve Tanner, Howard Perry, Rolly Fleming, Dr. Charles Petty, C. Doty, Howard Edwards, Ed Byland, Woodford Carpenter, and many others whose names we can not now recall. The time was spent pleasantly in dancing until a late hour.

In last week's issue the Richwood correspondent censures this scribe for giving a Richwood citizen a "jar" on a Thanksgiving hunt, and says that the citizen in question, "hopes that Hubert will pen up some of the old gentlemen on that day." This correspondent begs to assure the Richwood correspondent and all others concerned, that when he wrote that item of Walter's intended hunt, that he did not mean to give offense to anyone, and that the item was written in a spirit of pleasantry, and not to give anyone a "jar." The Hubert referred to informs this correspondent that gentlemen are so plentiful in his vicinity that they are never penned up except for using faulty grammar, and he says he hopes the same is the case at Richwood.

Died, on the 20th inst., Mr. John Harris, at the residence of his daughter, Mrs. Bud Carpenter. Mr. Harris was afflicted for may years but bore it patiently until he was called away at the ripe old age of 85 years. Services were held at the house by Rev. Buffington, after which the remains were taken to Independence and placed in the vault. His many friends and relatives have our deepest sympathy.

Clarence Rector, who has been living on the farm of J. H. Carpenter, has removed to his mother's place in Kenton county.

Mrs. Carrie Carpenter was visiting her mother, Mrs. Sarah Rector, last week.

Mrs. Ell Carpenter, of Richwood, is on the sick list.

HATHAWAY.—E. R. Smith is not quite so well.

Born, to Lafe Presser and wife on the 19th, a girl.

The Beech Grove school had a spelling bee last Tuesday night.

Mart Williamson killed two rabbits at one shot one day last week.

The little daughter of B. F. Rue was on the sick list for several days last week.

S. H. Marshall and son entertained several of their friends, hunting last Wednesday.

Tony Rue and wife, of Bellevue, were pleasant guests of Ben Rue and family, last Friday.

James Connelly and wife, of Galiatin county, spent last week visiting their relatives and friends here.

Miss Meive White was the guest of her grand parents, Mr. and Mrs. G. L. Smith, a couple of days last week.

R. L. Huey entertained Jas. Allen, Thos. Judge, Jas. Huey, and Ernest Walton with a big bird hunt, one day the past week.

W. S. White and Mrs. J. J. Berkshire, of near Burlington, celebrated their birth days together at the home of Mr. White, on the 14th inst., with a turkey dinner. Those present were Mr. and Mrs. J. J. Berkshire, Jas White and wife, J. C. White and wife and Mrs. Mary Rector and the host and hostess. All spent a very pleasant day.

Ben Rue has sold his place and will move to Cleves Ohio and as he leaves some very close friends behind he wants to make them some gifts to remember him by, so he gave Joe Riddell the mail with the handle attached and to Frank Rue all the surplus slop and his felt boots, and to the young folks of the neighborhood he gave a party last Wednesday night which was enjoyed by all present until a late hour, when they took their departure for their several homes.

GUNPOWDER.—Mrs. B. C. Surface who took sick very suddenly last Sunday is better.

Our school is preparing to give an entertainment Christmas.

H. O. Rouse, who has been on the sick list a few days is improving slowly.

Levi Tanner is doing some carpenter's work in the Big Bone neighborhood.

W. H. Rice bought some fine, young cattle of Fred Utz, last week, at 3½cts. per lb.

A great many people are killing their hogs on account of the scarcity of corn.

Joseph Scott has two registered jersey bulls for sale, 17 months old. They are good ones.

We had a light shower of rain last Saturday, but not enough to replenish the cisterns very much.

J. A. Rouse is able to be out again, after about three months struggle with a severe case of rheumatism.

There was considerable corn gathered last week, and the quality is not very good. The yield is poor as well.

W. C. Tanner spent several days in Campbel county, last week, in the interest of the Grange. Noah is an enthusiastic Granger.

The prospect for a wheat crop at this time is not at all flattering, and unless the winter is favorable there will be a very short crop in this part of the county.

Dogs that have been killing and crippling sheep made a raid on E. H. Blankenbeker's flock one morning last week but fortunately some of the neighbors heard them and drove them off before they did any damage. Mr. B. started in pursuit and succeeded in capturing them. The sheep owners are resting easy again.

Two-Quart Fountain Syringes 59c at ESKEW'S, Walton, Ky.

Local News.

Astounding Discover.

From Coopersville, Michigan, comes word of the discovery of a pleasant tasting liquid that when used before retiring by anyone troubled with a bad cough always causes a good night's rest. "It will soon cure the cough, Coo," writes Mrs. S. Himelsburger, "for three generations of our family have used Dr. King's New Discovery for Consumption, and never found its equal for Coughs and Colds." It is an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles for 50 cents and $1 at W. F. McKim's, Burlington; Union Drug Store, Union; H. L. Eskew's, Walton; O. N. Grant's, Bellevue; J. G. Oelsner's, Florence. Trial bottles free.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and can be given as confidently to a baby as to an adult. For sale by all Druggists.

Having moved my Drug Stock into the building lately occupied by W. H. Clark—one door above the National Bank, I cordially extend an invitation to all my old patrons and the public in general of Boone to call and see me at my New Place of business, here assuring you of my appreciation of your patronage in the past, and hoping for a continuance of the same.

I am yours respectfully,
J. P. HEMPHILL,
Rising Sun, Indiana.

W. J. Rice had to kill a nice yearling heifer, last Sunday, on account of the hydrophobia which developed just 49 days after she was bitten by a rabbid dog. The animal was put in a field to herself as soon as she began to act strangely, and was permitted to run until Sunday. She was not vicious, but roamed about the large field, lowing nearly continuously night and day. She would not eat.

Chas. Youell, of Limaburg neighborhood, was coming home from the city last Saturday evening, and when near Southside an electric car ran into the rear end of his wagon, and injured it some. The horses attached to the wagon were frightened by the collision and ran about a quarter of a mile before Mr. Youell got them under control. Charlie was bruised up some. It was a narrow escape from a bad accident.

Rev. J. F. Carney, of the Burlington Universalist church, will preach at the church Sunday morning and night, Dec. 1st, at 10:30 a. m., and 7:30 p. m. Morning subject:—"The influence of little things on Life and Character." Evening subject:—"A lecture on the Pan-American Exposition." The pastor having recently returned from Buffalo, will deliver a free lecture on the Civilizing Influences of the Exposition, Sunday night. The public cordially invited.

We have before us three tax receipts of the late Thomas Underhill, given for the years 1845, 1856 and 1857. They bear the signatures of W. I. Sandford, deputy for R. Walton, S. B. C.; James W. Miller, D. S. for John J. Miller, S. B. C.; John E. Calvert, D. S for James Calvert, S. B. C. They do not resemble in the least a modern tax receipt.

As the last day draws nearer in which to pay taxes without the penalty, the number of visitors to the Sheriff's sanctum increases, and his pocket book grows fatter hour by hour, but still there will be many who will fail to procure their receipts in time to avoid the penalty.

If you have an item of news you can send it in by telephone. It will cost you nothing, and be a great accommodation to the RECORDER. Arrangements have been made with Mr. T. J. Hughes, by which all messages to this office over his lines will cost the sender nothing.

A letter received from H. W. Smith directs his paper sent to the Meutone Hotel, Chicago, of which he will have charge this winter in the absence of the proprietor, who is his brother-in-law.

The Erlanger Christian Church was organized Sunday night. Thirty-four had been added up to that time. The services will be continued through this week.

B. S. Clore, of Hebron neighborhood, will have a sale of his personal property, December 16. He will move to Ludlow immediately after the sale.

County Judge elect P. E. Cason received his commission last week, and will be ready to swear in on time.

Miss Bettie Acra will have a sale of a lot of merchandise next Monday. Read the adv. in this impression.

The Gallatin county grand jury was in session only three days, last week, and found three indictments.

The rain last Friday night and Saturday put fodder in good conditiou for handling.

Spreads Like Wild Fire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years." You know why? Most diseases being in disorders of stomach, liver, kidneys and bowels, blood and nerves. Electric Bitters tone up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, rundown man or woman. Price, 50 cents. Sold by W. F. McKim, Burlington; Union Drug Store, Union; H. L. Eskew, Walton; O. N. Grant, Bellevue; J. G. Oelsner, Florence.

Personal Mentions.

J. H. Clore, of Florence, was in town Monday morning.

M. S. S. McManama has a severe attack of pneumonia.

Mrs. Nora Satchwell, of Bellevue, was in town Tuesday.

Wm. Lucas has moved into the house occupied by his mother.

Ed Berkshire was calling on friends in Constance, last Sunday.

E. B. Norman, of Walton, was in Burlington, last Thursday.

Capt. Henry, of Erlanger, spent a few hours in town, Thursday.

Mrs. James E. Smith has been entertaining her mother for several days.

Dr. Ayre, of Cincinnati, came out home with Gordon McKim and spent Sunday.

E. L. Grant, of Bellevue, was looking after business in Burlington, last Saturday.

C. W. Riley, of Bullittsville, was shaking hands with friends in Burlington, Thursday.

Bellfield Graddy, of Idlewild neighborhood, was transacting business in Burlington, Saturday.

Our stalwart friend, Charles Scottgorn, of Francesville neighborhood, was in town, Tuesday.

Mr. and Mrs. J. R. Clutterbuck spent the first of the week visiting in Bellevue neighborhood.

Mrs. T. J. Turley, of Owensboro, is the guest of her brother, County Attorney Castleman and family.

Atty. C. Y. Dyas, of Walton, was transacting business with officials at the Court-house, last Thursday.

Misses Lizzie Stephens and Fanuie Willis, of Bullittsville, were guests at Deputy Sheriff Allphin's, Sunday.

M. T. Graves, of the Bullittsville neighborhood, was in town Saturday, looking as chippy as a 13-year-old.

William Arnold, one of the prosperous young farmers of Bellevue neighborhood was in town, last Saturday.

Dr. J. C. McCullough and niece, Miss Minette E Hurlin, of Lawrenceburg, were in Burlington, last Saturday.

Dr. Rouse, farmer Conner and Atty. Hughes constitute Burlington's chess trio. The attorney is at the head of the class.

Wilson Warner, of Hebron, called in and gave the RECORDER a boost, last Friday. He makes few visits to the county seat.

Hon. L. W. Lassing, of Union, was in town Monday. We were glad to see him appear to be enjoying better general health.

Robt. Clore, of Rabbit Hash neighborhood, was in town Monday. He says the corn down there is not turning out half a crop.

J. S. Cullum, one of the RECORDER'S substantial friends, called in to see us last Friday. He was looking better than he was a few months ago.

Sorry we were away from home, last Thursday, when Walter Walker, of the Marlon Press, called in to see us. He was visiting his relatives in this county, last week.

W. M. Whitsan, a prominent citizen of Verona, was in town last Friday. Mr. Whitson is one of the prosperous men in this part of the county and makes no noise about it.

Judge Lassing returned, Sunday, from Warsaw, Gallatin county, where he held court last week. He will not have to leave home any more this year on account of his courts.

C. H. Acra, one of our Bellevue correspondents, deputy county clerk and toll collector for the B. & B. T. P. R., was in town last Saturday, to meet a preacher to take to his town.

Assessor Willis entertained in his inimitable style at the Sheriff's office last Saturday. He has the dialect of some of his friends down fine, and is able to keep a crowd in an uproar when in an imitative mood.

James L. Clore and J. W. White have pulled off a trade by the terms of which Mr. White will vacate the farm he now occupies. He has rented one of the farms Dr. E. L. Grant had advertised in the RECORDER.

Clem Kendall was at home Sunday. He came up Saturday from Lakeland to Covington to bring the remains of a Covington patient who died at the asylum. Clem's position agrees with him if looks are any indication.

Mrs. Susan Acra entertained all her children, last Sunday, that being the anniversary of her birth. She is one of the old citizens of this part of the county, and bids fair to live many years longer. Her husband was the late Mat Acra.

Rev. Sproles came home from Oak Ridge, Kentou county, to preach for his congregation at this place, last Sunday morning and evening. He had had three additions during his meeting at Oak Ridge, to which place he returned Monday morning.

Miss Bertha Hoard, of Walton, has accepted a position with the Tribune published at Greenfield, Ind., as proof reader and stenographer. Miss Hoard is a graduate of K. F. O. S., Midway, Ky., and is very able and efficient in this line. She has many friends and acquaintances in that city who will be glad to learn of her connection with that paper and many here who also wish her success in her new field.

To-morrow A. B. Rouse will leave for Washington, D. C., to continue his duties as private Secretary to Congressman Gooch. Mr. Gooch could not have given a more affable and deserving young gentleman the position, and he will perform every duty of his position with promptness and fidelity. Mr. Rouse will enjoy the winter at the national capital, and profit by the numerous advantages that accrue to the position he holds.

To The Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, Ralph S. Myers, 64-Thirty-seventh St, Wheeling, W. Va. For sale by all Druggists.

See John Sebree's sale advertised in this issue.

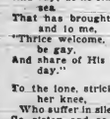
THE peal of the trumpet borne down on the air
When the troops stand in battle array
Rings no louder command to the veterans there
Than the trumpet of peace does to-day.
For to right and to left in grim poverty's grooves,
God's sparrows to feed and God's children to soothe,
Wait in rags and embittered by hunger and pain;
Give, give, and still give. Yours alone is the gain.



To the heart all in darkness with grief for the dead
Give a word from sweet charity's store;
To the heir of the slums as he begs for his bread
A welcome and wide open door;
And say, as he stands there cast up by the sea,
That has brought better fortune to you and to me,
Thrice welcome, take freely, look up and be gay,
And share of His bounty, my brother, to-day."

To the lone, stricken widow, the child at her knee,
Who suffer in silence and tears,
Go, sister, and, as God has given to thee,
Give joyously, banish their fears.
And carry away from black poverty's tent
A blessing that bears to you peace and content,
And a heart that with every beat seems to say:
"I have done one good deed, I am happy to-day."

For to-day, of all days in the swift-passing years,
Must we welcome the poor of the earth,
And kill with a handshake, a smile and a tear
All barriers of fortune or birth.
'Tis bread on the waters that comes by and by
With a benison angels might seek from on high;
Sweet whisper of conscience that cheers on the way
Each true vicar of God in his giving to-day.
—John R. Rathom, in Chicago Herald.

ONE PASTOR'S THANKSGIVING

By CHAS ROSS LANGDON

SOMETHING had to be done! Such was the verdict of the good people of Elmville on a certain October Sunday. The treasurer, a young man who had recently come to the village, had made a financial statement that morning, upon which certain persons felt very much scandalized. Such a thing had never been done before—not even thought of; then it revealed the fact that the Rev. Wesley Norwood had received but $51.75 for six months of faithful service.

"I don't believe in bringing up such matters in the religious services of the church," growled Brother Cook, who always protested that it was a waste of money to pay the minister so much salary.

"I quite agree with you," responded Mr. Barnes. He was not a member of the church, but attended because it was a respectable thing to do—gave you standing. "If these things must come up every Sunday I shall attend church elsewhere."

Notwithstanding this, it was generally agreed that it was a shame, and something must be done. But when things had gone in a haphazard way so long it was no easy matter to face right about. After several weeks of deliberation, the necessary something seemed as far from accomplishment as ever.

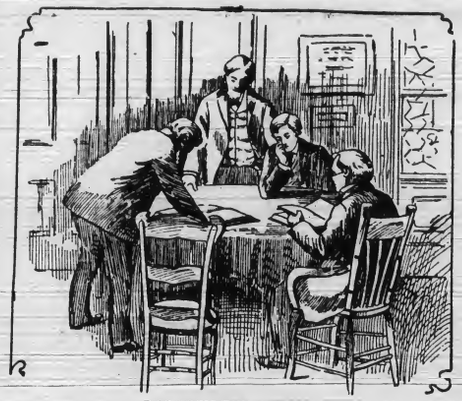
"It is too bad that they do not collect the pastor's salary," remarked Mrs. Hunter at the Ladies' Aid meeting. Who she meant by "they" was not entirely clear, inasmuch as she was one of the officers.

"If no one else will do aaything, we must," rejoined Mrs. Allen; the various members nodded approval.

It was soon planned. The pastor had received $51.75; they would pay him $98.25—make it even $150—and have enough left in the treasury for incidental matters. On Thursday evening of next week, which was Thanksgiving, they would invite themselves to the parsonage and have a good time while making the pastor happy. It would be easy to prepare something extra while getting ready for Thanksgiving. It was to be a grand secret; not a soul but members of the society should know a word of it.

"May I not tell John?" stammered timid Mrs. Addie Day. She was but recently married and disliked to have ever so little a secret from her husband. Scornful glances from the more mature matrons warned her that she was about to lose caste in the society, and she quickly subsided.

At the close of the business meeting of the Young People's league, the president made a close scrutiny to assure himself that all present were members; he then proposed that, as "they would not do anything," the league take up the matter.



"I understand that we have nearly $60 in the treasury; we could pay the pastor $48.50—bring the salary up to $100—and have enough left to pay all bills and begin the new year out of debt. If we do this, I suggest that we observe the utmost secrecy and make it a complete surprise." All readily agreed to the plan and pledged the proper reticence in the matter.

Four of the most faithful met after prayer meeting to discuss the situation, and decided that they must at once collect $248.25, the balance necessary to pay the six months salary due. This they proceeded to do so quietly that no one surmised a general canvass was being made. Before Sunday the entire amount was secured.

Friday, after school, the Junior leaguers met and decided that inasmuch as the grown-up folks would not help in the matter, they would do what they could; so they voted to pay over every bit there was in the treasury. Upon counting, $23.25 was found to be the correct amount.

"Oh, girls!" cried Lottie Newman, as she made some figures in the treasurer's book, "it will make just even $75 and I hope we can get enough to make it a hundred."

After the choir had run over the Sunday hymns, some one proposed that they pay the proceeds of the last con-

DISCUSSING THE SITUATION.

cert on the salary. The sum was $30.25; after referring to the margin of his anthem book, the chorister reported that it would make $82 all told. On Thanksgiving evening they would call at the parsonage and surprise the pastor with a check for this amount. Perhaps it would somewhat atone for the sin of whispering during the sermon.

Thanksgiving day was a trying time for the Norwoods. The baby was sick the night before and kept them awake; when they did get to rest, they overslept. What with rushing to get breakfast over and make ready for the service at church, prayers were shortened and the chapter omitted altogether. Before the dishes were put away Robbie came in with torn clothes and confessed to having been fighting. With like interruptions Mrs. Norwood and the children were unavoidably late to church.

When they were seated at the dinner table, it was almost with a rebellious heart that thanks were offered for the scanty meal before them. They had never thought to keep the day with such a meager fare as this. Under the pleа of pressing work, Mr. Norwood presently left the table and repaired to his study, where he worked all the afternoon on a funeral sermon he was to preach the next day. He had quit his own dinner that the children might not go hungry. Between him and his sermon floated visions of hungry mouths, and eyes pleading stronger than in words for food. The sermon would not be made.

The wife succeeded no better with her own work. Some one kept running in all the afternoon until she declared positively that she would not go to the door for another caller, which resolution she broke almost immediately. At last when the day's tasks were ended and the children, tired and hungry, had been early sent to bed, she came and laid her hands in her husband's and looking into his eyes said tearfully:

"Oh, Wesley, I am so tired! Everything has gone wrong to-day. The children never were so naughty before. What will people say about Robbie fighting? The flour-barrel is empty, the potatoes are all gone, and we have not a thing in the house for breakfast, only bread and butter; and the grocer sent us word yesterday that we could not have another thing until we paid him. What shall we do?" After which lengthy and somewhat incoherent speech, she laid her head on his shoulder and found refuge in tears.

"Never mind, dear; the Lord will provide;" then he slowly added, as if in an afterthought, "someway."

A few minutes later, Pastor Norwood was bowing to the organist, who slipped a check into his hand and said properly: "With the compliments of the choir." Just as they were seated, the door-bell rang again, and this time the Junior league marched en masse and the astonished minister stood speechless with a check in either hand. Then the older league came, and presently the Ladies' Aid, and last of all the trustees, all adding their offerings and crowding the small rooms. Each party looked stiffly askance at the others, wondering by what trickery their secret had become known. Mrs. Hunter glanced sharply at Addie Day as if to accuse that young matron of treachery; but that timid soul shook her head so violently that it seemed she would dismember it, in asseveration that she did not tell her John. Suddenly a Junior audaciously shouted:

"I say! why can't we we all go to the church and have a good time." It was the suggestion that averted impending war. A fire soon removed the chill from the room and the lights shone brightly on a reconciled and happy gathering. By the time the younger Norwoods had been routed from their beds and brought to the occasion, tables were spread in the Sunday school room, where all for the second time that day enjoyed a Thanksgiving feast. After an hour of social discourse and song, the treasurer arose and said:

"A few days since, our pastor had received but a mere pittance for many months of faithful labor. While he had wrought earnestly for the church and its societies, so that, for the first time in years, all were in a prosperous condition, he unselfishly forgot his own needs. No, no! Brother Norwood, you must permit me to flaish. Then one society and another, by some strange coincidence, conceived the thought of giving the pastor a pleasant Thanksgiving surprise. It is needless to say we have surprised each other quite as well. But best of all, I find that in the few days of unconscious cooperation, we have increased the amount paid on salary to just $500. This shows what we can do if we all work together. I move you, as a congregation, that we increase our pastor's salary from $600 to $800 a year."

It was carried with a rush, even Brother Cook assenting. Pastor Norwood arose, and, with tears of joy trickling down his cheeks, thanked them simply. Some said they sung the doxology as never before; at least there were two voices that rang out with a new inspiration of faith.

When they were once more at home, and the children in bed, Wesley Norwood again took his wife into his arms and opening his Bible at a place much marked and worn, they read together with the guileless faith of children: "And it shall come to pass, that before they call, I will aaswer; and while they are yet speaking, I will hear."—Ram's Horn.

LIFE PRESERVER.

Turkey—"Guess I'll smoke cigarettes till Thanksgiving and then I won't be worth killing."—Chicago Daily News.

Who Fixed Thanksgiving Day?

According to the Boston Transcript, it was a woman who was the means of having a definite day in the year set apart for the national observance of Thanksgiving. Mrs. Sarah Josepha Hale, a Boston woman, and editor of the first woman's magazine published in this country, worked for 20 years to accomplish this end. Time did not daunt her courage, but rather increased her insistence. She wrote to governors of states and to presidents of the United States. At last President Lincoln adopted her suggestion in 1864, when there was reason to rejoice over the success of the north in restoring the union.

A Misuse of the Day.

It is said that a certain minister was in the habit of selecting the texts of his Thanksgiving day discourses from the Book of Lamentations. The elegies of the weeping prophet have their place in the sacred volume. There is a time for everything, and there are occasions in which the mournful dirge and the tearful lament are fitting; but the appropriate thing for Thanksgiving day is the glad carol and the psalm of praise. There are other days in the calendar on which to bewail evils and to strike at social and political wrongs. Let this one day at least be set apart for thanksgiving.—Baptist Union.

Forget Not.

"Forget not all His benefits." If we do not give thanks for them, we do forget them; and that is unjust as well as unkind, since in all God's favors there is so much that is memorable.—Matthew Henry.

One Good Thing.

"Ef my neighbor has a Thanksgivin' turkey, an' I ain't," said Uncle Eben, "I kin be a little thankful, anyhow. I won't bother listen to any kickin' I'm him."—Washington Star.

A SONG OF THANKS.

National Congratulations for the Achievements of Past Year.

Thanksgiving Sermon of Dr. Talmage in Which He Speaks of Many Marvelous Changes—Victories of Peace.

[Copyright, 1901, by Louis Klopsch, N. Y.]

This discourse of Dr. Talmage is a national congratulation over the achievements of brain and hand during the past 12 months. The texts are: 1. Corinthians 9:10, "He that ploweth should plow in hope;" Isaiah 41:7, "He that smootheth with the hammer;" Judges 5:14, "They that handle the pen of the writer."

There is a table being spread across the top of the two great ranges of mountains which ridge this continent, a table which reaches from the Atlantic to the Pacific sea. It is the Thanksgiving table of the nation. They will come from the east and the west and the north and the south and sit at it. On it are smoking the products of all lands, birds of every aviary, cattle from every pasture, fish from every lake, feathered spoils from every farm. The fruit baskets bend down under the products plucked from the peachfields of Maryland, the apple orchards of western New York, the orange groves of Florida, the vineyards of Ohio and the nuts threshed from New England woods. The bread is white from the wheat fields of Illinois and Michigan, the banqueters are adorned with California gold, and the table is a-gleam with Nevada silver, and the feast is warmed with the fire grates heaped up with Pennsylvania coal. The hall is spread with carpets from Lowell mills, and at night the lights will flash from bronzed brackets of Philadelphia manufacture. The fingers of Massachusetts girls have hung the embroidery, the music is the drumming of ten thousand mills, accompanied by the shout of children let loose for play, and the gladness of the harvesters driving barnward the loads of sheaves, and the thanksgivings of the nation which crowd the celestial gates with doxologies until the oldest harper of Heaven cannot tell where the terrestrial song ends and the Celestial song begins.

Welcome, Thanksgiving day! Whatever we may think of New England theology, we all like New England Thanksgiving day. What means the steady rush to the depots and the long rail trains darting their lanterns along the tracks of the Boston & Lowell, the Georgia Central, the Chicago and Northwestern, the St. Paul & Duluth and the Southern railway? Ask the happy group in the New England farmhouse. Ask the villagers whose song of praise in the morning will come over the Berkshire hills. Ask all the plantations of the south which have adopted the New England custom of setting apart a day of thanksgiving. Oh, it is a great day of national festivity! Clap your hands, ye people, and shout aloud for joy! Through the organ pipes let there come down the thunder of a nation's rejoicing! Blow the cornet! Wave the palm branches! "Oh, that men would praise the Lord for His Goodness and for His wonderful works to the children of men!"

For two years and a half this nation has been celebrating the triumph of sword and gun and battery. We have sung martial airs and cheered returning heroes and sounded the requiem for the slain in battle. Methinks it will be a healthful change if on this year's Thanksgiving in church and homestead we celebrate the victories of the plow, the hammer and the pen; for nothing was done at Santiago or Manila that was of more importance than that which in the last year has been done in farmer's field and mechanic's shop and author's study by those who never wore an epaulet or shot a Spaniard or went a hundred miles from their own doorsill. Come up, farmers and mechanics and literary men, and get your dues as far as I can pay them.

Things have marvelously changed. Time was when the stern edict of government forbade religious assemblages. Those who dared to be so unloyal to their king as to acknowledge loyalty to the Head of the Universe were punished. Churches awfully silent in worship suddenly heard their doors swung open and down upon the church aisle a score of muskets thumped as the leaders bade them "Ground arms!" This custom of having the fathers, the husbands, the sons and brothers at the entrance of the pew is a custom which came down from olden time, when it was absolutely necessary that the father or brother should sit at the end of the church pew fully armed to defend the helpless portion of the family. But now, how changed! Severe penalties are threatened against any one who shall interrupt religious services, and annually, at the command of the highest official in the United States, we gather together for thanksgiving and holy worship. To-day I would stir your souls to joyful thanksgiving while I speak of the mercies of God and in unconventional way recount the conquests of the plow, the hammer and the pen.

Most of the implements of husbandry have been superseded by modern inventions, but the plow has never lost its reign. It has furrowed its way through all the ages. Its victories have been waved by the barley of Palestine, the wheat of Persia, the flax of Germany, the rice stalks of China, the rich grasses of Italy. It has turned up the mammoth of Siberia, the mastodon of Egypt and the pine groves of Thessaly. His iron foot hath marched where Moses wrote and Homer sang and Aristotle taught and Alexander mounted his war charger. It hath wrung its colter on Norwegian wilds and ripped out the stumps of the American forest, pushing its way through the savannas of the Carolinas and trembling in the grasp of the New Hampshire yeomanry. American civilization hath kept step with the rattle of its clevises, and on its beam hath ridden thrift and national plenty.

I do not wonder that the Japanese and the Chinese and the Phoenicians so particularly extolled husbandry or that Cincinnatus went from the consulship to the plow or that Noah was a farmer before he became a shipbuilder or that Elisha was in the field plowing with 12 yoke of oxen when the mantle fell on him or that the Egyptians in their paganism worshiped the ox as a tiller of their lands.

Piltheus, the king, found some rich gold mines in his province, so he turned all the population to digging in the mines. Tillage was neglected, and there came a great famine. One day the wife of the king invited him to a great banquet, and he came in and sat down, and there were pieces of gold in the shape of bread, and pieces of gold in the shape of biscuits, and pieces of gold in the shape of joints of meat, and the king was disgusted, and he said: "I cannot eat this." "Neither can the people," said his wife most suggestively, and then they went back to the tillage.

Within our time the presidential cabinet has added a secretaryship of agriculture. Societies are constantly being established for the education of the plow. Journals devoted to this department are circulated through all the country. Farmers, through such culture, have learned the attributes of soils and found out that almost every field has its peculiar preferences. Lands have their choice as to which product they will bear. Marshy lowlands touched by the plow rise and wring out their wet locks in the trenches. Islands born down on the coast of Peru and Bolivia are transported to our fields and make our vegetables leap. Highways, by this plow, are changed from boggy sloughs into roads like the Roman Appian way. Fields go through bloodless revolutions until there the farmhouse stands. In summer honeysuckles clamber over the trellises. On one side there stands a garden, which is only a farm condensed. On the other side there is a stretch of meadow land with thick grass, and, as the wind breathes over it, it looks like the deep green ocean waves. There goes a brook, tarrying long in its windings, as if loath to leave the spot where the reeds sing and the cattle stand at noonday under the shadow of the weeping willows. In winter the sled comes through the crackling snow, with huge logs from the woods, and the barn floor quakes under the thumpings of the flail or the deafening buzz of the thrashing machine. Horses stand beneath mow poles bending under loads of hay and whinny to the well-filled oat bins.

Praise God for the great harvests that have been reaped this last year! Some of them, injured by drought or insects or freshets, were not as bountiful as usual, others far in excess of what have ever before been gathered, while higher prices will help make up for any decreased supply. Sure signs of agricultural prosperity we have in the fact that cattle and horses and sheep and swine and all farm animals have during the last two years increased in value. Twenty million swine slaughtered this last year, and yet so many hogs left. Enormous paying off of farm mortgages have spoiled the old speeches of the calamity howlers. If the ancients in their festivals presented their rejoicings before Ceres, the goddess of corn and tillage, shall we neglect to rejoice in the presence of the great God now? From Atlantic to Pacific let the American nation celebrate the victories of the plow.

I come next to speak of the conquests of the American hammer. Its iron arm has fought its way down from the beginning to the present. Under its swing the city of Enoch rose and the foundry of Tubal Cain resounded and the ark floated on the deluge. At its clang ancient temples spread their magnificence and chariots rushed out fit for the battle. Its iron fist smote the marble of Paros, and it rose in sculptured Minervas and struck the Pentelican mines until from them a P[illegible] was reared whiter than a palace of ice and pure as an angel's dream. Damascus and Jerusalem and Rome and Venice and Paris and London and Philadelphia and New York and Washington are but the long protracted echoes of the hammer. Unless the hammer everywhere dwellings have gone up, ornate and luxurious. Schoolhouses, lyceums, hospitals and asylums have added additional glory to the enterprise as well as the beneficence of the American people. Vast public works have been constructed, bridges have been built over rivers and tunnels dug under our mountains, and churches of matchless beauty have gone up for Him who had not where to lay His head, and the old theory is exploded that because Christ was born in a manger we must always worship Him in a barn.

Railroads of fabulous length have been completed, over which western trains rush past the swift-footed deer, making the frightened birds to dart into the heavens at the cough of the smoke pipes and the savage yell of the steam whistle. In hot haste our national industry advances, her breath the air of 10,000 furnaces, her song the voice of uncounted factories, her footstep the flash of wheat buckets and the tread of the shaft and the stamp of foundries. Talk about antidiluvian longevity. I think the average of human life is more now than it ever was. Through mechanical facilities men work so much faster and accomplish so much more in a lifetime that a man can afford to die at 40 as well as one of old at 900. I think the average of human life in point of accomplishment is now equivalent to about 800 years, as near as I can calculate it. In all our occupations and professions we feel the effect of a crippled or enlarged mechanical enterprise. We all have stock in every house that is builded and in every public conveyance that is constructed and in every ship that is sailed. When we see the hardworking men of the land living in comfortable abodes, with luxuries upon their tables that once even kings could not afford, having the advantage of thorough education, of accomplishment and art, we are all ready at this season to unite with them in praise to God for His goodness.

Now, I come to speak of the conquests of the pen. This is the symbol of all intellectuality. The painter's pencil and the sculptor's chisel and the philosopher's laboratory are all brothers to the pen, and therefore this may be used as a symbol of intellectual advancement. There are those disposed to decry everything American. Having seen Melrose and Glastonbury by moonlight, they never behold among us an impressive structure; or, having strolled through the picture galleries of the Louvre and the Luxembourg, they are disgusted with our academies of art. It makes me sick to hear these people who have been to Europe come home talking with a foreign accent and aping foreign customs and talking of moonlight on castles by the sea. I think the biggest fool in the country is the traveled fool.

But, considering the youth of our nation and the fact that comparatively few persons devote themselves entirely to literature, I think we have great reason to thank God for the progress of our American literature. As historians have we not had in the past such men as Bancroft and Prescott, as essayists Irving and Emerson, as jurists Story and Marshall and Kent, as theologians Edwards and Hodge, as poets Pierrepont and Sprague and Longfellow and Bryant, as sculptors Powers and such men as West and Cole and Inman and Kensett? And among the living Americans what galaxies of intellectual splendor and power! Edward Eggleston and Will Carleton and Mark Twain and John Kendrick Bangs and Marion Harland and Margaret Sangster and Stockton and Churchill and Hopkinson Smith and Irving Bachelier and Julia Ward Howe and Amelia Barr and Brander Matthews and Thomas Nelson Page and Elizabeth Stuart Phelps and William Dean Howells and a score of others, some of them fixed stars and some meteors.

How things have marvelously changed! We used to cry because we had to go to school. Now children cry if they cannot go. Many of them can intelligently discuss political topics long before they have seen a ballot box or, teased by some poetic muse, can compose articles for the newspapers. Philosophy and astronomy and chemistry have been so improved that he must be a genius at dullness who knows nothing about them. On one shelf of a poor man's library is more practical knowledge than in the 400,000 volumes of ancient Alexandria, and education is possible for the most indigent, and no legislature or congress for the last 50 years has assembled which has not had in it rail splitters and farmers and drovers or men who have been accustomed to toiling with the hand and the foot.

The grainfields have passed their harvests above the veto of drought and deluge. The freight cars are not large enough to bring down the grain to the seaboard. The canalboats are crowded with breadstuffs. Hark to the rushing of the wheat through the great Chicago corn elevators! Hark to the rolling of the hogsheads of the Cincinnati pork packers! Enough to eat and at low prices. Enough to wear and of home manufacture. If some have and some have not, then may God help those who have to hand over to those who have not! Clear the track for the rail trains that rush on, bringing the wheat and the cotton and the rice and the barley and the oats and the hops and the lumber and the leather and everything for man and everything for beast.

Lift up your eyes, O nation of God's right hand, at the glorious prospects! Build larger your barns for the harvests. Dig deeper the vats for the spoil of the vineyards. Enlarge the warehouses for the merchandise. Multiply galleries of art for the pictures and statues. Advance, O nation of God's right hand, but remember that national wealth, if unsanctified is sumptuous waste, is moral ruin, is magnificent woe, is splendid rottenness, is gilded death. Woe to us for the wine vats if drunkenness wallows in them! Woe to us for the harvest if greed sickles them! Woe to us for the merchandise if avarice swallows it! Woe to us for the cities if misrule walks them! Woe to the land if God defying crime debauches it! Our only safety is in more Bibles, more churches, more free schools, more good men and more good women, more consecrated printing presses, more of the glorious Gospel of the Son of God, which will yet extirpate all wrongs and introduce all blessedness.

But the preachers on Thanksgiving morning will not detain with long sermons their hearers from the home group. The housekeepers will be angry if the guests do not arrive until the viands are cold. Set the chairs to the table—the easy chairs for grandfather and grandmother if they are still alive, the high chair for the youngest, but not the least. Then put your hand to take the full cup of thanksgiving. Lift it and bring it toward your lips, your hands trembling with emotion, and if the chalice shall overflow and trickle a few drops on the white cloth that covers the table do not be disturbed, but let it suggest to you the words of the psalmist and lead you thankfully to say: "My cup runneth over!"

OUR FIRST THANKSGIVINGS

The Proclamation Issued by General Washington Proclaiming a National Day of Praise.

PROCLAMATION
By The
PRESIDENT
Of The
UNITED STATES OF AMERICA.
A PROCLAMATION.

"Whereas, it is the duty of all Nations to acknowledge the Providence of Almighty God, to obey his Will, to be grateful for his Benefits, and humbly to implore his Protection and Favour. And whereas both houses of Congress have, by their joint Committee, requested me "To recommend to the People of the United States a Day of public Thanksgiving and Prayer, to be observed by acknowledging with grateful Hearts the many Signal Favours of Almighty God, especially by affording them an opportunity peaceably to establish a Form of Government for their Safety and Happiness.

"Now Therefore I do recommend and assign Thursday, the Twenty-fifth Day of November next, to be devoted by the People of these States, to the Service of that great and glorious Being, who is the beneficent Author of all the good that was, is, or that will be. That we may then all unite in rendering unto him our sincere and humble thanks for his kind Care and Protection of the People of this Country previous to their becoming a Nation;—for the signal and manifest Mercies and the favourable interpositions of his Providence in the Course and Conclusion of the late War;—for the great Degree of Tranquility, Union, and Plenty, which we have since enjoyed;—for the peaceable and rational Manner in which we have been enabled to establish Constitutions and Government for our Safety and Happiness; and particularly the national one now lately instituted;—for the civil and religious liberty with which we are blessed, and the means we have of acquiring and diffusing useful knowledge; and, in general, for all the great and various Favours he hath been pleased to confer upon us.

"And also, that we may then unite in most humbly offering our Prayers and supplications to the great Lord and Ruler of Nations, and beseech him to pardon our National and other Transgressions;—to enable us all, whether in public or private Stations, to perform our several and relative Duties properly and punctually;—to render our National Government a Blessing to all the People by constantly being a Government of wise, just, and Constitutional Laws, discreetly and faithfully executed and obeyed;—to protect and guide all Sovereigns and nations (especially such as have shown kindness to us), and to bless them with good Government, Peace, and Concord; to promote the knowledge and practice of true Religion and Virtue, and the increase of Science among them and us;—and generally to grant unto all Mankind such a Degree of Temporal Prosperity as he alone knows to be best.

"Given unto my Hand, at the City of New York, the third day of October, in the year of our Lord One Thousand, Seven Hundred and eighty-nine.

"GEORGE WASHINGTON."

The above is the proclamation that gave us our first national Thanksgiving after the government was established. The first Continental Thanksgiving had been observed 12 years before, December 18, 1777, the winter following the autumn marked by Burgoyne's surrender. This may be looked upon as the first national Thanksgiving day, and the one appointed by Washington as the first after the establishment of the government. In regard to the Continental celebration, Congress passed the following resolution: "That a committee of three be appointed to prepare a recommendation to the several states to set apart a day for thanksgiving for the signal success lately obtained over the enemies of these United States."

Of the very first Thanksgiving on our shores there is no formal proclamation extant, although we have valuable records which tell us how that day was kept. Long, long ago, about 280 years ago, Plymouth's ancient (book) of Lawes decreed that "it be in the Power of the Governor to command solemn days of humiliacon by fasting and also for thanksgiving, as occasion shall be offered." Gov. Bradford, in 1621, exercised this power by appointing a day for Thanksgiving, and this was the very first American Thanksgiving, the Harvest Festival of New England. It is interestingly described in a letter written by Edward Winslow, dated December 11, 1621:

"You shall understand that, in this little time that a few of us have been here, we have built seven dwelling-houses and four for the use of the plantation and have made preparation for divers others.

"We set the last spring some 20 acres of Indian corn, and sowed some six acres of barley and pease; and according to the manner of the Indians we manured our ground with herrings, or rather shads, which we have in great abundance, and take with great ease at our doors. Our corn did prove well; and God be praised, we had a good increase of Indian corn, and our barley indifferent good, but our pease not worth the gathering, for we feared they were too late sown. They came up very late and blossomed; but the sun parched them in the blossom.

"Our harvest being gotten in, the governor sent four men on fowling, so that we might, after a special manner, rejoice together after we had gathered the fruit of our labors. They four in one day killed as much fowl as, with a little help besides, served the company almost a week. At which time, amongst other recreations, we exercised our arms, many of the Indians coming amongst us, and among the rest their greatest king, Massasoyt, with some 90 men, whom for three days we entertained and feasted; and they went out and killed five deer, which they brought to the plantation, and bestowed on our governor and upon the captain and others. And although it be not always plentiful as it was at this time with us, yet by the goodness of God we are so far from want, that we often wish you partners of our plenty."

We believe that first Thanksgiving scene was one worthy the painter's brush, one worthy handing down to admiring posterity. That little band of white folk on the stern New England shore, together with the friendly savages partaking of the autumnal bounty. We should like to have looked upon the demure maidens and sober wives passing amongst them the smoking platters, heaped high with golden Indian corn and the flesh the huaters had brought in from the chase. Venison and fowl appeared to have been the chief dishes at that first Thanksgiving feast. It would not be out of the way, I trust, to suppose the fowl was wild turkey.

GOING TO THE FIRST THANKSGIVING SERVICE.

The old Plymouth laws further refer to Thanksgiving and its observance, thus: "It is enacted that none shall prsume to attend servill works or labour or attend any sports on such days as shal be appointed by the Court by humiliation by fasting and prayer or for publicke Thanksgiving on penalty of five shillings."

A penalty of five shillings if one failed to observe Thanksgiving Day! Those old Puritans were about as intolerant as the masters they had fled, it would seem, in matters both secular and spiritual. But, come to think of it, all matters were to them, in the final analysis, of spiritual concern. If everybody was forced to be thankful, willy nilly, it was because the old Fathers thought every one ought to be thankful. And, to-day, though no fine is imposed if we neglect to keep the day, still we feel somewhat churlish if we do not lay down accustomed toil, betake ourselves to Divine service, and later to the feasting that for so many, many years has followed the religious rites.

What a contrast their Puritan Thanksgiving and ours of to-day. The Prisellius, with their demure faces looking out from the encircling hoods, walking sedately to meeting beside the erect, dignified John Aldens. No gay, roistering, chrysanthemum- and streamer-bedecked girls and men jostling each other on the way to the football game. No, life was a very serious business then, and holidays were observed seriously, pleasures taken sadly.

For twd centuries Thanksgiving Day was a peculiarity of the Eastern States. Now, that the great middle west and west are peopled by men and women of eastern extraction, and now when the south has outlived much of the old reluctance toward the adoption of anything with the Puritan mark on it, we find we have indeed a national Thanksgiving. KATHERINE POPE.

The Scientific Production

of a laxative of known value and distinctive action is rapidly growing in public favor, along with the many other material improvements of the age. The many

who are well informed

must understand quite clearly, that in order to meet the above conditions a laxative should be wholly free from every objectionable quality or substance, with its component parts simple and wholesome and it should act pleasantly and gently without disturbing the natural functions in any way. The laxative which fulfils most perfectly the requirements, in the highest degree, is

Syrup of Figs

The sale of millions of bottles annually for many years past, and the universal satisfaction which it has given confirm the claim we make, that it possesses the qualities which commend it to public favor.

Its Excellence

is due to the originality and simplicity of the combination and also to the method of manufacture, which is known to the California Fig Syrup Co. only, and which ensures that perfect purity and uniformity of product essential to the ideal home laxative. In order to get

Its Beneficial Effects

always buy the genuine and note the full name of the Company—California Fig Syrup Co.—printed on the front of every package. In the process of manufacturing figs are used as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially.

CALIFORNIA FIG SYRUP CO.

What's in a Name.

The captain of a down-town Salvation Army corps noticed the other day that one of the most zealous women of his flock had been absent from meeting several times in succession. He sent her a note of inquiry and received in reply the following pathetic letter:

"Dear Captin: It ain't no Spirrital trouble—praise god, I'm all right there, but it's because I got a bad cold & my Nose runs. Now they ain't no use goin' to meeting and praying when your Nose runs and spoils all youre enjoyment. So Glory to god. good Bye."—N. Y. Times.

Doesn't Soil a White Vest.

The Lackawanna route from New York to Buffalo and the West has been making the announcement that one migat travel the whole length of its road, and not soil a white vest. The writer tried this the other day and sure enough the trip on the Lackawanna Limited left his linen in better condition than it would have been after a day's running about in the city. The value of such service to ladies is obvious. This unique service is made possible because hard coal is used exclusively in the passenger service. It is useless to speak of the scenery of the mountains as we traverse them all day—such a relief from the dull monotony of the flat country and its wearisome sameness. It's the luxury of travel.—The Evangelist.

High Qualification.

"Can he cook?" asked the proprietor of the restaurant.

"Cook?" echoed the cellsr, who was rooting for a friend out of a job. "Can he cook? Say, I've seen that man make four squab pies out of one old pigeon!"—Chicago Tribune.

Persons contemplating a journey East or West should be careful that the rates paid for their transportation do not exceed those charged by the Nickel Plate Road.

This company always offers lowest rates and the service is efficient. Careful attention is given to the wants of all first and second class passengers by uniformed colored attendants. The dining car service of the Nickel Plate Road is above criticism and enables the traveler to obtain meals at from thirty-five (35) cents to $1.00 but no higher.

The Pullman service is the usual high grade standard. Semi-weekly transcontinental tourist cars ply between Atlantic and Pacific Coasts. Confer with nearest agent of the Nickel Plate Road.

One Good Feature.

She—So you don't like these Wagner concerts?

He—Well, they have one redeeming feature. They're so loud you can't hear the man next to you whistling his accompaniment.—Philadelphia Times.

UNION-MADE

W. L. DOUGLAS $3.50 & $3.00 SHOES

SOLD IN OUR 63 RETAIL STORES

SOLD BY OVER 5,000 DEALERS

W. L. Douglas $4.00 Gilt Edge Line Cannot Be Equaled At Any Price.

For More Than a Quarter of a Century the reputation of W. L. Douglas $3.00 and $3.50 shoes for style, comfort and wear has excelled all other makes sold at those prices. This excellent reputation has been won by merit alone. W. L. Douglas shoes have to give better satisfaction than other $3.00 and $4.00 shoes because his reputation for the best $3.00 and $4.00 shoes must be maintained.

The standard has always been placed so high that the intrinsic and fancy value for his money in the W. L. Douglas $3.00 and $4.00 shoes that he can not equal them. W. L. Douglas makes and sells more $3.00 and $4.00 shoes than any other two manufacturers in the world.

CAUTION! TAKE NO SUBSTITUTE. Insist upon having W. L. Douglas shoes with name and price stamped on bottom. Shoes sent anywhere on receipt of price and 25 cents additional for carriage. Take measurements of foot as shown; state style desired; size and width usually worn; plain or cap toe; heavy, medium or light sole.

W. L. Douglas $3.00 and $3.50 shoes are made of the same high-grade leathers used in $5.00 and $6.00 shoes and are just as good in every way.

Sold by 63 Douglas stores in American cities selling direct from factory to wearer at one profit; and the best shoe dealer everywhere.

"WHAR DEW I CUM IN?"

(Being the Soliloquy of a Farmer on the Free Raw Sugar Question.)

Thar's a mighty lot er talkin' about farmers 'n thar rights,
'N the wonderful prosperity thet beet growin' invites,
Thar's er heap of foolish crowin' 'n the "beats" begin ter shout
'N holler fer the Tariff ter keep free raw sugar out!
But I notis thet the beet-producin' farms are very few,
An' the farmers through the country aint got much ef it ter dew.
The hull land aint a-raisin' beets, 'n aint goin' ter begin,
Beet growin's right fer sum, I guess—but, whar dew *I* cum in?

The farmer gits four dollars now fer every ton o' beets—
A hansum price, I must allow—but hidin' sum deceits.
Beet sugar manyfacterers admit es they hev found
Thet "granylated" costs 'em sumthin' like tow cents a pound.
In fact thet leaves a profit on which they'd greatly thrive—
And—if it kin be sold fer *three*, why should we pay 'em FIVE?
It seems ter me es thet's a game thet's mighty like a skin—
But—if thar's any benefit—waal—whar dew *I* cum in?

When Uncle Sam's in want o' cash we're glad ter help him out,
'N we'll stand all the taxes thet are needed, never doubt,
Bnt when his pocket-book's well lined an' nary cent he lacks,
Et seems ter me his duty's ter repeal thet sugar tax.
Them fellers wot is interested sez it's to protect
The beet-producin' farmer thet the duty they collect,
But I guess thet explanation es a little bit too thin—
The sugar maker,—*he's* all right;—but—whar dew *we* cum in?

Take off raw sugar duty an' the price will quickly fall,
To everybody's benefit, fer sugar's used by all.
The poor will bless the Goverument thet placed it in thar reach—
('N millions of our citizens free sugar now beseech)
The dealer 'll be delighted—less expenditure fer him—
More demand 'n bigger profits—which at present are but slim.
An' the farmer 'll be as well paid as he ever yet hes ben—
But he'll buy his sugar cheaper—thet's whar he an' I'll cum in.

Now, whar's the sense er reason of the sugar tax to-day,
When our treasury's a-bulgin' an' we hev no debts ter pay?
The duty on raw sugar's Fifty million every year—
An' the people's got ter pay it—thet's a fact thet's very clear.
Fifty million! Great Jerusha! Ter protect beet magnates, too,
Why should they tax ALL the people—just ter help a scattered FEW?
And the FEW? Beet-sugar-MAKERS! Don't it really seem a sin
Thus ter help an' fill thar coffers? Whar dew you an' I cum in?

The farmer growin' beets hes got a contract price fer years,—
Free raw sugar wouldn't hurt him, an' of it he has no fears,
But mebbe, like myself—he's also growing fruit so nice—
Ter preserve it—at a profit—he needs sugar—*at a price!*
The repealing of the duty, surely cuts the price in two—
Thet'll make a mighty difference, neighbor, both ter me an' you!
Let the sugar manyfactrer make such profits as he kin—
Ter him it may seem right enuff—but whar dew I cum in?

An' I aint agoin' ter swaller all the argyments they shout
Thet the farmers need protection—an must bar raw sugar out.
Common sense is plainly showin' that the people in the land
Want raw sugar free in future—an' its freedom will demand.
'Tis a tax no longer needed—hateful to the public view,—
Taxing millions of our people to enrich a favored few.
They can't blind me any longer with the foolish yarns they spin,—
While they're busy makin' money—whar dew you and I cum in?

I'm agoin' ter keep on hustlin', talkin', pleadin' with my frends,—
Aint no sense in lettin' others gain thar selfish privet ends.
I'm agoin' ter write termorrer to my Congressman 'nd say
Thet he oughter do his best ter kill that tax without delay!
Feller-farmers, do your utmost— whether you grow beets or not—
To repeal the tax on sugar—you can but improve your lot!
Cheaper sugar helps your pocket, greater blessings you can win—
When we've three-cent granylated—that's whar you an' I cum in!

DROPSY NEW DISCOVERY; gives quick relief and cures worst cases. Book of testimonials and 10 days' treatment Free. Dr. H. H. GREEN'S SONS, Box B, ATLANTA, GA.

A. N. K.—E 1893

WHEN WRITING TO ADVERTISERS please mention this paper.

NEIGHBORHOOD NEWS.

WALTON.—Charles Lermond is improving, but very slowly.

Dr. Brice Metcalfe still has Harry Adams on his visiting list.

From Dr. Bagby it is learned that Chas. Davis did not require his services any longer. To use the Dr.'s own language, "I have dismissed the case."

Everett Stephens was in the city, Sunday, to see Dr. Jones and brings the good news that he is much better.

The Odd-Fellows' building is at a stand still, waiting for a particular kind of lumber from "way back" somewhere, unknown to the general public.

Mrs. Dr. John O'Neal and daughter, Mrs. Hubbell, of Lancaster, with Miss Anderson, of Erlanger, were the pleasant guests of Dr. and Mrs. Bagby, last week.

W. H. Metcalfe will have the hardware store veneered with an eight inch brick wall as fast as it can be built. It was demonstrated in our last big fire that it adds greatly to the indestructibility from fire and lessens the cost of insurance two or three per cent.

ŧ–ŧ

RICHWOOD.—Park Gilmore, of Covington, and Dr. Hermann, of Cincinnati, visited Walter Grubbs and wife, Saturday.

Mrs. Johana Harvey is no better.

Mr. Andy Collins is reported better.

Mrs. Kate Rice has moved to Walton.

Andy Collins, jr., is at the bedside of his father.

Mrs. McCarty, wife of the railway section boss, is quite sick.

Rev. Slater was visiting among his members here, last Friday.

Ollie Dixon has resumed work at the Pullman Car Shops at Ludlow.

Mrs. Effie Ransleur is much improved and is able to be out after her serious illness.

Wm. Glueken is progressing nicely and the doctor reports typhoid fever in a light form.

Miss Ida Grubbs attended the Tri-State Carriage Manufacturer's Convention at Cincinnati, last week.

Coal has been an object much sought after here. B. F. Bedinger & Son disposed of 1,000 bushels in two days.

Harry Tanner, of Gunpowder, gave an exhibition with his graphaphone at Zion School-house, Wednesday night.

Mrs. M. Grubbs and Mrs. Mary Carpenter visited Petersburg, last Thursday, in the interest of the Women's Missionary Society of the Methodist Church.

J. C. Robinson, Jerry Conrad, Cave Carpenter and Eli Rice had a walking match from here to the Cincinnati Stock Yards, last week. Their cattle beat them there by two feet. They report the cattle market dull.

ŧ–ŧ

FLORENCE.—Mrs. J. D. Stephens is improving after a very severe illness.

Miss May Norman, of Union, called on friends here, Friday afternoon.

Joseph Kyle, who has been very ill in Cincinnati, is improving slowly.

Mrs M. E. Latham and daughter, Miss Nancy, visited Mrs. E. H. Riggs, of Erlanger, Friday and Saturday.

The Teacher's meeting was held at this place Saturday, but was not largely attended, on the account of the weather.

Miss Bessie Talbott and brother Courtney and Miss Lotta Williams were entertained by Mrs. C. C. Bradford, Sunday.

Mrs. Joshua Tanner and Mrs. Frances Clutterbuck and children were entertained, Sunday, by Mrs. Spencer Tanner, of Pt. Pleasant.

Quite a number of ladies from this place attended services at the Towu Hall at Erlanger Sunday evening. Rev. E. D. Jones is holding a very interesting meeting there.

An oyster supper will be given at the Florence School house, Saturday Dec. 7th, 1901. The proceeds will be used to purchase a Primary Chart and to start a library. All are very cordially invited.

Mrs. Rebecca Fulton, formerly of Florence, died at the residence of her daughter, Mrs. Swords, in Maysville Saturday. The funeral was conducted by Rev. G. N. Buffington at the M. E. Church, Tuesday morning. The remains were interred in the Florence cemetery.

ŧ–ŧ

PETERSBURG.—The first tow of coal passed down Saturday about 3 o'clock.

Lawrenceburg has several new cases of smallpox.

Miss Effie Hensley is quite sick of Malarial fever.

J. B. Berkshire will soon be a resident of our town.

The wheat fields all look green and nice in the bottoms.

The distillery received a 10,000 bushel barge of coal, Saturday.

A young man died from hydrophobia in Aurora, one day last week.

Some new faces may be expected in the revenue service here, shortly.

Prof. L. H. Voshell was in town, one day last week, visiting our schools.

In the absence of Mrs. Grant, Dr. J. M. Grant is domiciled at the hotel.

Thanksgiving services at the Christian church at 10:30 a. m., Thursday.

W. R. McWethy, of Frankfort, is visiting his mother, who is very sick.

Dr. John Walton, of Home City, Ohio, is visiting his grandparents here.

Get Grant Mathews to tell you why Rev. W. A. Penn is opposed to immersion.

Mrs. Fleet Hoffman has joined her husband at Milldale, and will remain all winter.

A drunken man shot the marshal of Aurora 8 times one day last week. He will get well.

The Workum has had a new battery of boilers placed on her, which will increase her speed.

Taylor Bowman, of Lawrenceburg, is helping Geo. Ruth butcher during the busy season.

Angie McConnell and wife, of East Bend, were guests of Dr. E. L. Grant and family, last week.

Come and see the foot ball game Thanksgiving, and eat turkey and oysters at hotel Crisler.

John McCune and Hubert Burris have gone to Cincinnati to work, in an electric light plant.

Dr. Randall, one of the faculty of the Louisville Dental College, is visiting his grand-parents here.

Everett Helms welcomes every one to his place of business, but draws the line on trappers of polecats.

Ben Drake, of Bellevue, was here Sunday. He will likely become a citizen of our town before long.

As yet the coroner's jury has rendered no verdict in the Tilley case. The chemist has made no report.

A handsome and wealthy young man from North Bend will soon wed one of our prettiest young ladies.

Dode Bailey, of Coal City, O., was in town Sunday. He says the Boone county colony is all prosperous.

R R. Waltou, of Chicago, is at the bedside of his grandmother, Mrs R. Y. Randall, who is dangerously sick.

If there is any truthfulness in old Madam Rumor there will be several weddings before the robbins nest again.

A corps of skilled physicians and an ambulance will be on the foot ball ground, Thursday, in ease of au emergency.

Mrs. Henry McWethy was suddenly stricken with paralysis, last Thursday morning, and is now in a dangerous condition.

Harry Acra, of Middle creek, delivered some hogs to Wingate and Olds, Saturday. George is the Si Keck of Petersburg.

Will Botts and wife, of Bellevue, were visiting Mrs. Botts' mother and sisters here Sunday. Will looks like a 3 year old.

As soon as the repairing is done at the distillery and the river gets to good boating stage, it will start up again for a good, long run.

Mrs. R. Y. Randall was taken suddenly sick Friday morning, and at this writing her life is despaired of. She is 75 years of age.

Harry Lyons and Morris McCright engaged in an altercation, Saturday evening, and Harry was badly hurt about the face and head.

Sunday's Enquirer had an excellent picture of our friend, Joel C. Clore. He is a Boone county by, and one of the Queen City's best lawyers.

Rev. H. R. Mills, of Waltou, will assist Bro. Cook in a protracted meeting at the M. E. Church after the holidays. He is a good preacher.

The next Epworth League Convention will meet at Walton next October. Mrs. U. V. Darlington, of Coviugton, was elected Secretary in the place of Miss Lou Allen.

A recent enumeration of the marriageable people of our town, shows 35 ladies between the ages of 16 and 25; 26 ladies over 30; 18 widowers; 6 old batchelors; 18 widows; 45 young men who part their hair in the middle and smoke cigarettes. We see prospects for four weddings in the above. If you want to hitch up, matrimonially, come down.

Never in the history of a religious gathering has the town experienced such a pleasant meeting as that of the Epworth League Convention and Missionary Institute. It opened Monday night with recitations and speeches from the little ones, and they all did themselves proud. The best preachers in the Covington Conference were present and preached morning and night. At night services the house would not seat the people that attended, and the large crowds were held spell bound by their flights of pulpit oratory. The singing of Rev. Cook and the choir could not have been better. The meeting has left a favorable impression upon our people, which will redown to the good of the community. The following preachers were in attendance: F. S. Pollitt, Presiding Elder; T. W. Barker, Visalia; U. V. W. Darlington, Coviugton; H. R. Mills, Walton; J. D. Redd, Carrollton; W. G. Cram and wife, Warsaw; Dr. Watkins, Covington; O. J. Chandler, Newport; B. B. Lancaster, Ft. Thomas; Robert Jordan, Brookville; B. F. Chatham, Brooksville; Delegates—F. B. Threlkeld, Visalia; Carrie Kellog, Newport; Miss Anna Weaver, Brooksville; Lula Jones, Walton; Lucy Woods, Newport; Miss Truett, Alexandria; Avis White, California; Ella Scott, Cynthiana; Alice Riley, Alexandria; Miss Owens, Highlands.

It will astonish you, if you will investigate the Prices at Eskew's Pharmacy, Walton, Ky.

The Throbbing Headache.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25 cents. Money back if not cured. Sold by W. F. McKim, Burlington; Union Drug Store, Union; H. L. Eskew, Walton; O. N. Grant, Bellevue; J. G. Oelsner, Florence.

FOR SALE BY

Paul A. Davis

Dealer in Up-to-Date

Footwear, Hats & Gloves.

A cordial invitation extended to all my Boone county friends to call when in RISING SUN, IND.

MOTHERHOOD

The greatest ambition of American men and women is to have homes blessed with children. The woman afflicted with female disease is constantly menaced with becoming a childless wife. No medicine can restore dead organs, but Wine of Cardui does regulate derangements that prevent conception; does prevent miscarriage; does restore weak functions and shattered nerves and does bring babies to homes barren and desolate for years. Wine of Cardui gives women the health and strength to bear healthy children. You can get a dollar bottle of Wine of Cardui from your dealer.

WINE OF CARDUI

143 Market Street, Memphis, Tenn., April 14, 1901.

In February, 1901, I took one bottle of Wine of Cardui and one package of Thedford's Black-Draught. I had been married fifteen years and had never given birth to a child until I took Wine of Cardui. Now I am mother of a fine baby girl which was born March 31, 1901. The baby weighs fourteen pounds and I feel as well as any person could feel. Now my home is happy and I never will be without Wine of Cardui in my house. Mrs. J. W. C. SMITH.

BOONE COUNTY RECORDER.

VOL. XXVII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 4, 1901. NO. 7.

If you did not pay your taxes before the 1st inst., you are caught dead to right for the six per cent penalty.

It appears that the President toned his message down considerably from what the original draft indicated it would be.

The papers throughout the State are giving the law-makers who will assemble at Frankfort in a few weeks, some excellent advice. Will they heed it?

At the municipal election in England the first of last month, the Socialists elected fourteen councilmen in twenty-five towns where elections were held.

A Society to suppress the lynching evil and to encourage and induce colored men to pay their poll tax has been incorporated in Mississippi. The incorporators are negroes.

If the Republicans in this district cannot parcel out the offices in the Revenue service, let them hand them over to the Democrats, they will show you how they can dwell together in love and affection (?).

The Courier Journal has been publishing the pictures of the members of the next General Assembly and the pictures of the mayors of the cities and towns in the state, and the mayors are much the abler men, if looks are an indication.

The suicide of Stuart Young, who, a few days since was discovered to be a defaulter while Treasurer of Louisville, cast a gloom over that city. It seems that he had numerous friends who would have come to his aid, and made good his defalcation.

The old-line Republicans grit their teeth when they see a recent acquisition to their ranks wink the other eye and walk off with the appointment to a good, fat office. They are not to blame, as those who have stood the brunt of battle for years are certainly entitled to the spoils.

Speaking of the latest railroad combine of 47,000 miles, Russell Sage warns the promoters that they are treading on dangerous grounds. "A combination of this sort throttles competition, and the people don't like it," he says, and adverse legislation by states is likely. He scents the giant of Labor, and fears to awaken him.

Black plague is again raging in Honolulu. Twenty-three cases are now being treated in the detention camp. The scourge is said to be beyond the control of the health authorities and the city is threatened with an epidemic like that of 1888, when 112 people died. Quarantining the island of Hawaii is being considered.

The census bureau has issued a bulletin in which it is shown conclusively that the average duration of human life in the United States is steadily and wonderfully increasing. In 1890, according to the bulletin, the average age at which Americans died was 31.1 years; in 1900 the average lifetime was 35.4, a gain of 4.3 years.

The health authorities of Buffalo have discovered forty-seven carcasses of hogs which had been affected with smallpox. The disease was the same as that which affects human beings. The hogs were shipped from Louisville to Chicago, where they were slaughtered by Swift & Co. The Buffalo authorities say there are many cases of the disease in Louisville, while an epidemic prevails in Buffalo.

Last Saturday's issue of the Kentucky Post was, as is usual with it, speaking regardless of the facts when it said Judge Lassing is a tool of Gov. Beckham, and for Judge Cantrill for U. S. Senator. The writer of the Post article is the only person in this part of the State, who does not know that Judge Lassing is an avowed McCreary supporter and one of the managers of Mr. McCreary's campaign. The charge that the Judge is a tool of the Governor, is on a par with the remainder of the article.

The State Journal, which is at the seat of war, gives its readers the following in regard to what is on top, politically, at Frankfort.

"Judge James E. Cantrill is the first of the candidates to engage rooms for headquarters in the coming Senatorial contest. He will be located at the Capital Hotel, and from talk in political circles, all of the candidates with a good sprinkling of their political managers as well as the advance guard of members of the Legislature will arrive here and open up early in the holidays. Thus while the children are celebrating the arrival of old Santa Claus, the big political moguls of the State will likely be bringing their heads together and making their final calculations for the start in the derby. All of the candidates will bring along with them a big crowd of "rooters" and Frankfort now has prospects of entertaining as many or more visitors than have been brought here on a similar occasion in recent years.

"There is of course no end of estimates as to probable strength of candidates for Senator. Nearly every politician you run against will give you an estimate, and the size of vote accorded to each candidate is, as a rule, fixed according to the preference of the party making the estimate.

"The contest for President protem, of the Senate is mixing up to some extent with the race for Senator, as whoever is nominated for that office is by virtue of his position chairman of the Joint Caucus. Both Senators Allen and Farris are McCreary men, while Senator Utley is a Wheeler supporter.

"Senator-elect Campbell Cantrill, of Scott county, will be the leader of the Cantrill forces in the caucus.

"Ex-Gov. McCreary will have a big force of Eight District politicans here working in his interest, as well as some of the shrewdest wire pullers from other parts of the State. Insurance Commissioner John B. Chenault will be at the head of the McCreary column, and he will be assisted by numerous outside lieutenants, prominent among whom will be C. M. Lewis, of Shelbyville.

"The First district will send up a big crowd of Wheeler shouters and Ollie James, of Crittenden, Sam Crossland, of Mayfield, Judge Chas. Emery and J. M. Warten, of Paducah, will form a part of the Wheeler lobby managers which Senators Mc. D. Fergurson, of McCracken, and J. D. Watson, of Graves, and Representatives Wyatt, of Marshall, and Clark, of McCracken, will be among his leaders on the floor.

"Raney Wells, of Calloway, also a Wheeler supporter is said to be a star speaker and his friends say he is likely to take high rank as an orator during the session. Congressman D. H. Smith also has behind him a good following and in addition to being one of the most adroit politician in the State has among those some who will be here in his interest a number who are equally adept in political craft. The politicians are therefore prepared to expect some of the most skilful political maneuvering from the Smith side. Railroad Commissioner C. C. McChord, of Springfield, Judge Frank Daugherty, of Bardstown, and Murray Hubbard, Secretary of the Railroad Commission are a few of the most prominent who will be high in the management of the Smith campaign.

"An unusual number of leading politicians visited Frankfort this week "on private business." All of them denied that politics had anything to do with their presence here and to listen to what they had to say one might be misled to believe that the political tea pot had not begun to boil. This, however, would be a mistake. It is already sizzing."

Under the Leiberth dispensation a new deal, as far as possible, is looked for in this Revenue district.

The charges filed against Leiberth at Washington, stopped his taking possession of the collector's office for a few days only. They fell flat, but increased the bad feeling between the two factions of the Republican party in the district.

The committee appointed by the Masonic Grand Lodge at its last session, composed of Judge H. R. French, of Mt. Sterling; Judge John A. W. Ramsey, of Owingsville; James W. Staton, of Brooksville, and E. B. Barc, of Carlisle, to take charge of and install the new Home for Aged and Infirm Masons of Kentucky, and which has been located at Shelbyville, was in session a few days since preparing the rules and regulations to govern the institution and other work [illegible] to getting things in shape for its opening. Mr. H. B. Shafer was elected Superintendent of the Home over several applicants.

The site of the Home, which was purchased for $12,000, is located just one mile east of Shelbyville. This institution will be an innovation in Masonic circles, the Kentucky Grand Lodge being the first Masonic body in this country to establish a home for its aged and indigent members. The committee has received several applications for entrance. The institution is now open.

The following Executive Committee, composed of prominent local Masons, was appointed to supervise the affairs of the Home: E. B. Beard, Mayor L. C. Willis, D. N. Sharp, Judge W. H. Tipton and John K. Todd. A Visiting Committee was also named.

The biennial report of the State Superintendent of Public Instruction, the first issued since 1897, because of the gross neglect of the former Republican Superintendent, W. J. Davidson, is in course of preparation by Superintendent H. V. McChesney. The report within the next few days will be handed to Gov. Beckham, to whom, by direction of the statutes, it is made. It is to be the most comprehensive, yet compact public document ever issued from this department. The two years from 1897 to 1899, covering which Mr. Davidson should have made report, but which he neglected to do, are taken into the report of Mr. McChesney as far as it was possible to get the information accurately. No effort was made to give any general statistics of the missing years, as the department could not well do so now. The report to be issued contains much more information of value to teachers and county officials than did the 1897 report of the Davidson administration. The general statistics are arranged in tables embracing all the counties, thus affording opportunities for comparison. This alone will reduce the size of the volume to over 300 pages less than the Davidson report, and will save the State in its publication at least $5,000.

Grant county came to the front with another killing, last week, the murderer making good his escape. The Courier gave the following account of the tragedy which occurred near Elliston:

"Foree Sipple gave a play party" to a few of his neighbors and friends. The young ladies and young gentlemen of the neighborhood gathered in and spent the early hours of the night in delightful social intercourse. Among the party was John Webster, the murdered man. Sometimes he was called John "Peavine" in order to distinguish him from the numerous other Webster's in that part of the county. He was about thirty five, married and had five children and, a decent, law abiding citizen. Later in the night James Claxton came to the party. He is thirty years old and married and was raising a family of children. When he came to the residence of Mr. Sipple he was drinking heavily, and during the time he was about there kept his drinking going until when the turn of the night came he was "loaded" and crazy with drink and anxious for a fight. It was almost time for the party to break up and the young people to disperse to their homes. Claxton walked into the room among them and pulled two pistols from his pocket and pointed them at one of the party. John Webster interfered and asked him to put up his pistols. Turning on Webster as a crazy maddened demon he said "I will just kill you," and without further ado or warning he began to shoot at Webster, firing in all three shots. One shot, the fatal one entered the bowels and kidneys of Webster and was later extracted near the back bone.

The President's message is on an inside page.

LOCAL NEWS.

Thanksgiving day was not generally observed in Burlington.

Business was pretty lively about the Sheriff's sanctum, last week.

B. S. Clore's sale on the 16th. He has a long list of property advertised.

The local schools dismissed last Wednesday afternoon until Monday morning.

W. J. Rice bought some nice porkers from Henry Clore, last week, for less than 5 cents a pound.

The Indian sign, which has not appeared this summer, is the only sign of rain that has not proven a failure.

There has been considerable land trading in the county, this fall, and prices paid have been, generally, good.

The attendance at court this week will be small, owing to the fact that the special term is limited to a few actions for trial.

November was a gloomy month throughout, threatening rain repeatedly, but at no time relieving the drought to any extent.

Yes W. Gaines left with bag and baggage for Rising Sun, last Friday. Hope he will wax wealthy in a few years and return to his native heath.

The B. & B. T. R. Co., has run its stone crusher into winter quarters. About 500 perches of stone were crushed and put on the road this fall in a very short time.

The predictions are that we will have a hard winter. Some old-fashion "sure signs" indicate that we are in for it. The onion skin is thick and tough, and corn is hard to shuck.

George Fain, aged 17 years, whose picture is the frontispicce f John Uri Loyd's book, "Worwick s of the Knobs," is on exhibition at the Fair in Cincinnati, as a holiday drawing card for that business establishment.

Great was the slaughter of game a few days since when Ezra Wilhoit, of Florence, visited his old friend, A. W. Smith, of Verona. They bagged 65 quails and killed so many rabbits they could not be counted.

John Aylors's sulphur spring is becoming quite popular with the citizens of Limaburg neighborhood, and John expects to realize handsomely on the output of this vein, as its medicinal properties are undisputed.

The rise in the upper Ohio started a very large run of coal for the lower river towns, at many of which considerable uneasiness existed on account of the limited supply of fuel and the proximity of cold weather.

Prof. Voshell was in this office last Saturday, and took a look at the sample of corn D. E. Lawell left here. Having scrutinized the ears closely, he remarked, "had I thought of it I would have brought you a sample of large corn."

Dr. Jacob Tanner, of Hebron, was in town Saturday, the first time since his return from his western trip. He went to California by what is known as the northern route, and returned by the southern. The Doctor can talk to you a week on the beauties of the country he traveled.

In this county so far the conditions have been very favorable for a good attendance at the public schools this fall. There has been very little sickness among the children, and the weather and roads have been excellent. Parents have had no excuse for keeping their children out of school.

Sol Long, the Union genius, has invented a latch for gates that is destined to revolutionize things generally. Those who have seen the invention are satisfied that it is just the latch the farmers have wanted for ages. When the gate is closed the latch relieves the hinge of the weight of the gate.

L. L. Tanner, of Gunpowder neighborhood, having purchased property in Union, and to which he intends to move, was in town, last Saturday, and had bills printed for a sale of his stock and farming implements on the afternoon of the 14th inst. The property Mr. Tanner bought belonged to Mrs. Schleey, on High street, in Union.

The colored people have their new church building weatherboarded and roofed. The work appears to have suspended and that, too, at a very bad point, as the building is in a condition to be injured by the winter blasts.

Waller Marshall, of Locust Grove neighborhood, came up last Friday and tackled O. P. Conner and Dr. Rouse at checkers. The record shows that the Locust Grover was not in it even a little bit. It happened to be Waller's off day.

Our corpulent friend, James McAtee, called in to see us one day last week. He is one of the carpenters in this part of the country who is kept busy and he is now building a nice residence for Charles E. Stephens, of Locust Grove neighborhood.

Ben Rue's sale down on Gunpowder, last Thursday, was attended by a large crowd of men and women, and the prices realized were very satisfactory to Mr. Rue. Corn sold for 71½ cents a bushel; one horse, $140; one horse, $130; one cow, $44; one cow, $51 25; tobacco, 5½ cents per stick.

Miss Olga Kirkpatrick, who has been Burlington's efficient P. M. for the last four years, has been reappointed and qualified for another four years term. She has been repeatedly complimented by the post-office inspectors for the splendid manner in which she keeps her office. Pleasant and obliging she is justly popular with the patrons of the office

Uncle Michael Clore has traded the farm he got of James H. Lawell, out on the East Bend road, for the store of Henry Clore and J. J. Walton in Bellevue. Of course Uncle Mike gets a pretty good sum as boot. He has put his son, Thomas, in the store, but will be found close about at all times. The store has commanded a good trade for many years and it will lose none of its popularity under Uncle Mik's administration.

Messrs M. T. Garnett and James E. Duncan left yesterday morning for Florida to spend the winter. Their destination is Bartow, but they do not know that they will spend the winter there. Bartow is the southern home of L. N. Crigler. They expect to spend much of their time hunting and fishing this winter. Their many friends here wish them as pleasant a time as they anticipate. In hunters' garbs and in hot pursuit of a fat buck, they will make a sight that their Boone county friends would be glad to behold.

An exchange says: A man was fined $25 for listening to a telephone message passing over a line in which he owned a 'phone, and after what he heard. The theory was that the messages or conversations over the wires are confidential, and the fact that he owned a phone gave him no right to repeat what he had heard, either by accident or otherwise. If you have a 'phone you will agree that this is a good law, although sometimes you happen to hear some very amusing and interesing things which were not intended for your ears.

Tommie Rice, son of W. J. Rice, who had a dog to go mad a few weeks ago, had the Tanner madstone applied, Friday, to his finger where the dog snapped him, and it adhered three times, the first time for about 30 minutes. Before it was thought the dog had hydrophobia, it snapped the first finger on Tommie's right hand, but as the blood was not brought no attention was paid to it. Last week Tommie was shucking corn, and broke the skin on the finger at or near the place that was in contact with the dog's teeth, and the finger began swelling, when his parents and aunt, Mrs. R. S. Cowen, prevailed on him having the mad-stone applied to the wound made by husking corn, and the application resulted as above stated. No bad effects from the bite are now apprehended.

A Good Cough Medicine.

(From the Gazette, Toowoomba, Austra ia.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockener. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefitted, as was Mr. Wockner. This remedy is sold by all druggists.

Mt. Pleasant Grange, 262, will hold an all day meeting on the second Saturday in December, commencing at 10 a. m. sun time. The fourth degree will be conferred; reports of officers and committees also an election of officers for next year will be held in morning session. A literary and musicale program has been arranged for afternoon. Every member is requested to be present at morning session.

F. E. Riley, Secretary.
E. L. Riley, Master.

Says He Was Tortured.

"I suffered such pain from corns I could hardly walk," writes H. Robinson, Hillsborough, Ills., "but Bucklen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by W. F. McKim, Burlington; Union Drug Store, Union; J. G. Oelsner, Florence; H. L. Eskew, Walton; O. N. Grant, Bellevue. 25c.

Charles Sabie, who was born and raised in this county, was killed in the railroad yards at Ludlow, last Thursday. He was a car inspector and had just emerged from beneath a car he had inspected, and before he could straighten up he was struck by a yard engine that felled him and dragged him a considerable distance, mangling him in a dreadful manner. He was taken to the Good Samaratin Hospital in Cincinnati, where he died in a few minutes after his arrival. Mr. Sabie leaves a wife and seven children, and was liked by all who knew him. By industry and frugal habits he had acquired a comfortable home, and was leading a happy life surrounded by his family. The remainf were brought here Sunday afternoon by Allison & Yates, undertakers, and interred in the Odd Fellows' cemetery. The funeral was in charge of the Odd-Fellows' and K. of P. lodges of Ludlow.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt, of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50c. Guaranteed. For sale by W. F. McKim, Burlington, Union Drug Store, Union; J. G. Oelsner, Florence; H. L. Eskew, Walton; O. N. Grrnt, Bellevue.

My stock of groceries is now opened —everything new and fresh. A share of your patronage is solicited. Remember the place, A. M. Acra's old stand, Burlington. Marce Riddell.

A dog belonging to Chas. Utz, colored, of Burlington, went mad last Saturday night, and was gone from home until Monday morning, when it was chained until Tuesday morning, at which time Sheriff Beal killed it. No doubt it bit a great many dogs, and the people can not watch their dogs too closely, and should kill them as soon as they display any unusal signs. Do not wait until they bite a lot of stock or some person. Preclude all danger by not delaying you duty to your fellow man.

Report of the Hebron public school for the second month ending Nov. 15. The first figures show the standing in the studies; the second, the deportment:

Sixth Grade—Grace Bullock, 97-100; Mabie Regenbogen, 96-100; Olive Conner, 95-100; Nannie Lodge, 93-100; Ollie Dye, 94 100; Kenneth Clayton, 90 95.

Fifth Grade—Lorena Hafer, 96-100; Eva Conner, 96 100; Flora Dye, 96 98; Bessie Lodge, 96 98; Lola Hafer, 95 98; Eva Aylor, 95 98; Lizzie Clore, 95 98; Edna Beall, 96 97; Chester Aylor, 90 95; Lester Aylor, 40 90; Emil Regenbogen, 93-90; Irvin Regenbogen, 94-98; Thos. Clayton, 93 95.

Fourth Grade—Edgar Aylor, 94 91; Lowell Tanner, 89-90; Elmer Goodridge, 90 92; Frank Rossman, 95 90; Amy Regenbogen, 93-98; Mary Clayton, 93-100; Iva Aylor, 89 95; Etta Hafer, 89-96; Gordon Aylor, 83 90; Emry Smith, 96 87; Frank Aylor, 96-100; Milton Aylor, 94-100; Mary Reed, 100-100.

Third Grade—Frank Sayre, 96-90; John Dye, 90-98; Earl Aylor, 85 85.

Second Grade—Jennie Hafer, 97-100; Harold Crigler, 97 98; Robt. McGlasson, 96 96; Frances Reed, 96-100.

The primary grade did very good work, but we expect improvements in all grades next month

We ask the patrons to notice the standing of their children at school, and if it is not satisfactory, to cooperate with the teacher in securing better results. The patrons are very cordially invited to visit our school and inspect our methods of teaching.

D. I Tanner, Teacher.

Scott Chambers has a 4 year old Jersey cow with heifer calf by her side for sale.

CURRENT TOPICS.

Mark Twain consumes over 3,000 cigars a year.

Amateur photography is a fad with the shah of Persia.

Cork weighs 15 pounds per cubic foot, gold 1,155 pounds.

Lord Breadalbane is the owner of the finest vine in Europe.

The skeleton measures one inch less than the height of the living man.

A Bridgeport, Ct., man is about to build an airship, designed to carry six people.

Paris supplies, free of cost, sulfurous baths to all persons engaged in handling lead.

Dentistry is now an accepted and often flourishing profession for women in France.

There were 150,000 children at school in India sixty years ago. There are 4,000,000 now.

The human windpipe is composed of sixteen or eighteen cartilaginous rings, united by exceedingly flexible ligaments.

Holland has 10,100 windmills, each of which drains 310 acres of land, at an average cost of twenty-five cents an acre a year.

French women wrap in red cloth children who have measles. Now a scientist named Chatinier proves by experiment that red paper pasted on the windows of patients having measles has a good influence.

As early as 1734 a bloomery forge was erected at Lime Rock, in Litchfield county, Ct., by Thomas Lamb, which produced from 500 to 700 pounds of iron per day. A blast furnace was afterward added to the forge.

It is cited as proof of the hard times in Germany that while in October, 1900, there were 153 applicants for each 100 vacant situations, in 1901 the number had increased to 198 applicants for each 100 vacancies.

With a fruit that is imperishable the owners of the almond lands have in hand one of the most paying industries of southern California, and one is not too sanguine to believe that in the almond Antelope valley may see her reclamation.

The bureau of engraving and printing has completed all the dies for the Porto Rican revenues. Proofs in various colors have been submitted to the treasury department officials, who are to determine the matter of color for each value.

More than $10,000,000 will be raised by direct taxation in the city of New York to pay what are known as county charges, the maintenance of the offices in the four counties making up the city, and for the expense of each toward the state tax.

The Swedish government has under consideration the substitution of electricity for steam on all the Swedish railroads, the abundance of water power in the country not only making the project feasible, but holding out promise of great saving.

The humming bird, of which there are a thousand varieties, is found only in America and the adjacents islands. The only food that will be of any avail in the proposed attempt to convey some of these birds to Europe is honey. It is not very difficult to keep humming birds alive in cages for a few weeks in summer, but it is almost impossible to get them through the iwnter.

When King Edward—or the prince of Wales, as he was then—lay at death's door with typhoid fever, the famous William Jenner was called in for a period of four weeks, and in return he was paid at the rate of £2,500 a week and given a baronetcy into the bargain. Nor was it by any means unusual for him to receive a fee of £500 for an hour's consultation with less celebrated patients.

Hatchers of trout have discovered that the big German brown trout which has promised so much in the way of sport, will not live in harmony with its smaller, but gamier, cousin, the brook trout. It not only eats the fry of the smaller trout, but is so large that it can eat a fairly good-sized grown-up. Sportsmen are universally in favor of the native trout, and the hatching of the German fish may be abandoned.

Danny Maher, the American jockey has been engaged at a salary of $35,000 a year to ride the horses owned by King Edward, of Great Britain.

Nearly all the chairmanships of the house committees will remain unchanged in the new congress, and the changes in membership will be slight.

During his speech in introducing the British army proposals of the government, Mr. Broderick stated that the families with three sons serving in the army number no fewer than 300; four sons, 176; five sons, 142; six sons, 73; seven sons, 29; eight sons, 2; nine sons, 1; ten sons, 1.

BURNED TO DEATH.

Mother and Four Children Perish in Their Burning Home Near Altoona, Pa.

Altoona, Pa., Dec. 2.—Mrs. Mary C. Burk and her four children, Adam, aged 16 years; Mary, aged 13; Joanna, aged 11, and Joseph Victor, aged 8, all burned to death at their home at George Station, near here, Sunday.

Carl W. Burk, the husband, was seriously burned about the back.

Mrs. Burk and all the children except Adam retired at the usual hour Saturday night. Mr. Burk, who was in Altoona, did not get home until late. The lamp was burning in the kitchen for him. Before he went up stairs he turned it low. A lunch was left on the kitchen table for Adam, who is a stage hand at the Altoona opera house. It is not known what time Adam came home.

Mrs. Burk was awakened by a dense smoke in her room. She awoke her husband, who found the kitchen ablaze. Burk's clothing was ignited, but he rolled in the snow to extinguish the flames. He then summoned the assistance of neighbors, but when they arrived there was no hope of saving the house or rescuing the inmates. Burk was sent away to a hospital crazed with grief. The house was soon consumed and the bodies, charred and blackened, were recovered. One corpse could not be distinguished from the other. The general opinion is that Adam forgot to extinguish the light in the lamp when he retired and that the lamp was in some way upset, possibly by the family dog.

INTERNATIONAL ALLIANCE.

Proposition to Unite Labor Unions of England and America For Offensive and Defensive Purposes.

Chicago, Dec. 2.—An international alliance for offensive and defensive purposes between the labor unions of this country and Great Britain was advocated by Francis Chandler, of Manchester, Eng., at a meeting of the Chicago Federation of Labor Sunday night. The suggestion was received with cheers. Mr. Chandler, who comes to this country as a fraternal delegate to the American Federation of Labor, represents 2,000,000 organized workmen in Great Britain. In tracing the similarity of court procedure in England and the United States, when dealing with labor troubles, Mr. Chandler declared that the time had arrived when the exchange of fraternal delegates between the two countries should be something more than mere formality.

MRS. FLORENCE MAYBRICK.

An Effort Will Be Made to Have Her Released From Her English Prison.

Cleveland, O., Dec. 2.—Former Canadians resident in American cities are again active in their efforts to have Mrs. Florence Maybrick released from her English prison. A petition is being drawn up by a Cleveland lawyer and copies of it will be sent along the cities bordering on the great lakes; copies will also be sent to the mayors of Montreal and Toronto. The petition will finally go to the king of England and the English premier. The present is considered opportune for an appeal to his majesty for clemency by the Canadians because of the gallant work of Canadian soldiers during the Boer war.

EXPOSITION AT CHARLESTON.

Impressive Religious Exercises Held Sunday as a Preliminary to Its Opening on Monday.

Charleston, S. C., Dec. 2.—Impressive religious exercises, intended as a prelude to Monday's opening of the South Carolina Interstate and West Indian exposition, were held at the exposition grounds Sunday afternoon. The naming of December 1 as the opening day of the exposition was without consulting the calendar, and the fact that December 1 was Sunday was discovered but a short time ago. It was then decided that a proper way to fulfill the promise made in the resolution as to the opening was to hold exercises appropriate to the day.

Prominent New Yorker Dead.

New York, Dec. 2.—Arthur W. Soper, president of the Pintsch Compressing Co., the Safety Car Heating and Lighting Co., and a prominent figure in many corporations, clubs and other organizations, died after a month's illness at his residence in this city Sunday. Mr. Soper had suffered from a complication of stomach troubles.

Cotton For the Orient.

Port Townsend, Wash., Dec. 2.—The exportation of cotton to the Orient by the way of Puget Sound during the past year has made a wonderful increase. November has been a record breaker in that line. According to customs house records here shipments amounted to 14,000 bales of cotton, valued at $800,000.

Shot By Her Sweetheart.

Sioux City, Ia., Dec. 2.—Miss Porter, who was shot in a restaurant at Cherokee, Ia., by her sweetheart, Harry Hortman, Saturday night, is dying. Hortman, it is alleged, said he meant to kill her. There are threats of lynching.

Advised to Fight.

London, Dec. 2.—John Dillon, M. P., addressing an Irish league demonstration at Loughrea, counseled the evicted tenants to take back their farms by storm and fight and suffer if necessary.

CONGRESS CONVENES.

Both Branches of the National Legislature Organize.

It Is the General Opinion That But Little Real Work Will Be Done Before the Christmas Holidays.

Washington, Dec. 2.—Congress opened Monday. In the senate a resolution on the death of President McKinley was introduced, after which the senate adjourned as a mark of respect to the memory of the dead president. The death of Senator Kyle was also announced.

On Tuesday the president's message will be read and after its reading the announcement of the death of President McKinley will follow at once, whereupon under the precedent established when Lincoln and Garfield died, resolutions providing for the appointment of a committee to act with a similar committee of the house of representatives to take appropriate action relative to the matter and then calling for immediate adjournment for the day will be adopted. Heretofore committees have been appointed to arrange the details of public exercises and it is understood that plan will be pursued in this instance, and that later in the session some public man of distinction will be invited to deliver a eulogy in the capitol.

Wednesday and Thursday will be devoted to the introduction of new bills, and as usual there will be a flood of them. Among the first bills of importance to be presented will be the ship subsidy bill, which will be presented by Senator Frye, and the Nicaragua canal bill, which Senator Morgan will present. Senator Morgan's canal bill will be a duplicate of Representative Hepburn's bill on the canal question. Other early bills of importance will be one looking to the construction of a submarine cable from the western coast to Hawaii, and another providing for the establishment of a new executive department to be known as the department of commerce. On Thursday the senate will adjourn until the following Monday.

The general opinion among senators is that very little real work will be done before the Christmas holidays.

The clerk of the house called the members to order at noon and after prayer by the chaplain the roll was called by states.

The speaker was formally elected and escorted to the chair by a committee. Gen. Henderson, re-elected as speaker, addressed the house, after which Mr. Bingham, of Pennsylvania, "the father of the house," a titular honor bestowed upon the oldest member in point of continuous service, administered the oath to him. The speaker in turn administered the oath to the members-elect. The old officers of the house who were re-chosen by the republican caucus were then re-elected and sworn in.

By resolution, Speaker Henderson appointed a committee of three to join a similar committee from the senate to inform the president that a quorum of the two houses has assembled and that congress is ready to receive any communication that he may have to make. Temporarily the rules of the last house were adopted.

The president's message will be withheld until Tuesday. The sad announcement to the house of the death of the late President McKinley was made and the house adjourned until Tuesday. On Tuesday that portion of the president's message referring to the death of Mr. McKinley probably will be referred to a select committee to arrange a programme of eulogies. It is rather a remarkable coincidence that Mr. McKinley was the chairman of the committee which arranged the programme when President Garfield died. Blaine pronounced the eulogy upon that occasion. Elihu B. Washburn was chairman when Lincoln died and George Bancroft, the historian, was the orator. After Tuesday the house will probably adjourn three days at a time until congress recesses for the Christmas holidays.

HISTORIC VALLEY FORGE.

Bills to Be Introduced For Its Acquisition and Incorporation Into a National Park.

Washington, Dec. 2.—Early in the coming week Senator Penrose and Representative Wanger, of Pennsylvania, will introduce bills for the acquisition of Valley Forge and its incorporation into a national park as a memorial of one of the most historic places of revolutionary days. The measures will be practically the same as those introduced in the senate and house respectively last year and will provide for an appropriation of $200,000 for park purposes. The project has the earnest endorsement of 27 patriotic associations, including both organizations of the Sons and Daughters of the Revolution, the Colonial Dames and the Junior Order of American Mechanics.

Died From Shock.

Detroit, Mich., Dec. 2.—Jennie Louise McTaggart, 17 years old, is dead from the shock occasioned by hearing a false report that her younger sister had been sent to death with 30 others in the explosion of the big boiler in this city.

Aguinaldo Coming.

Kansas City, Mo., Dec. 2.—Aguinaldo probably will be brought to Ft. Leavenworth prison. He has been found writing treasonable matter in Manila, it is said. Army officials here are authority for the statement.

THAT INDEMNITY.

The Chinese Officials Are Resorting to All Kinds of Means to Raise the Money.

Port Townsend, Wash., Dec. 2.—According to mail advices from the Orient Chinese officials are resorting to all kinds of means to raise money to assist in paying the indemnity agreed on by the powers. Besides a gigantic scheme in which more than $100,000,000 are involved, half of which will go into the indemnity fund and half be given away in prizes, and which scheme has received the sanction of the court, it is now proposed by Prince Ching to impose a head tax on all Chinese whether residing within the limits of the empire or in foreign countries. Prince Ching's plan, as submitted to the court, is to send commissioners to all foreign countries to collect the tax from Chinese residents, claiming that as they do not become citizens of other countries they should assist in paying the indemnity. Prince Ching's plan has created considerable dissatisfaction in the southern provinces of the Chinese empire and is liable to result in serious disturbances.

It is claimed that residents of the northern provinces were alone responsible for the Boxer movement and that they should be called upon to bear any expense caused by their action. Chinese of the southern provinces were friends of the foreigners, as most of the merchants in foreign countries are from the southern provinces, the movement on foot to resist the taxation for indemnity is rapidly gaining ground, and it is said Chinese abroad will refuse to pay the proposed tax.

Prince Ching, according to Chinese papers, says that if they are further burdened, it will fall on their relatives in the southern provinces and that other oppressive measures will be enforced against them, and that merchants abroad who refused to pay the proposed tax will not be allowed to return to their mother country and will be classified as traitors.

THE DOWAGER EMPRESS.

Owing to Fatigue the Last Stage of the Court's Journey Has Been Postponed Ono Week.

Peking, Dec. 2.—Prince Ching has informed the ministers of the foreign powers that owing to the fatigue of the dowager empress, resulting from her travels, the last stage of the imperial court's journey has been postponed for one week.

Great preparations are being made here for the reception of the royal party. All the palaces and temples have been repainted and regulided. The foreign residents of Peking never have seen these buildings looking so imposing as now.

Upon the day of the reception the route followed by the royal cortnge will be lined with Manchu bannerman and elaborate ceremonies will be observed.

The condition of Peking has improved immensely and good discipline is maintained among the European troops stationed there.

CEASED TO EXIST.

The Military Departments of Northern and Southern Luzon Have Been Ended.

Manila, Dec. 2.—The military departments of Northern and Southern Luzon have ceased to exist. Maj. Gen. James F. Wade, formerly in command of the soutbern department, left Manila Monday to assume command of the American forces on Cebu island, and Maj. Gen. Lloyd Wheaton, formerly commander of the northern department, will take command of the department of the North Philippines. Several small engagements have occurred in Batangas province in the last few days. The forces of the insurgent leader, Caballos, have become badly demoralized. His followers are broken up into several small bands. Caballos holds two American prisoners.

LET OFF EASY.

Seven Men Accused of Participating in a Recent Lynching Convicted of Assault and Battery.

Modena, Utah, Dec. 2.—Saturday the jury at Ploche, Nev., returned a verdict of assault and battery against seven persons accused of participation in the recent hanging of the Negro Ellis at Fay, Nev. Judge Talbot, in his charge to the jury, instructed them to either return a verdict of guilty of assault with intent to kill, or one of acquittal. When the verdict was read in court the judges scored the jury for returning such a verdict. The men will be sentenced Monday.

To Stimulate Marriage.

Paris, Dec. 2.—The chamber of deputies has voted urgency for a bill introduced by Charles Bernard making all marriage formalities absolutely free of all costs with a view to check depopulation.

Middleweight Boxer Dying.

Chicago, Dec. 2.—"Dutch" Reiniger, a local middleweight boxer, is dying at St. Elizabeth's hospital from injuries received in a prize fight Friday night with "Jim" Driscoll, a Chicago middleweight. Driscoll has been arrested.

Flaying Machines For the Market.

London, Dec. 2.—Any one in London may buy a flying machine now. M. Santos Dumont's successful flights have induced the Motor Power Co. to build a flying steerable machine for anybody prepared to spend £950.

THE FUTURE OF CUBA.

More Freedom in Tax on Sugar and Tobacco is Desired.

The Cubans Import Between $200,000,000 and $300,000,000 Worth of Stuff Every Year—We Furnish $28,000,000 Worth.

New York, Nov. 30.—Among the passengers who arrived on the steamer Monterey, from Havana, were Gen. Leonard Wood, military governor of Cuba, Mrs. Wood, his secretary, William A. Vary, Lieut. McCoy, of the 10th cavalry, his aide, and Gonzalo de Quesada, as special commissioner from Cuba to Washington. Immediately after luncheon, the Wood party left for Washington.

"I came here this time," said Gen. Wood when interviewed, "to perfect arrangements by which Cuba may be turned over to the Cubans, and to talk over with the president and Secretary Root on the economic situation of the island. We do not expect any trouble at the forthcoming elections.

"The chief features of the economic situation in Cuba to-day relate to sugar and tobacco. I am assured that the Cuban people will not, under any circumstances, restore the export duties on those products levied by the Spaniards which we abolished two years ago to stimulate industry, and they will only ask some reasonable tariff concessions by us on sugar and tobacco. Upon the rest of the products of the island the people are willing to pay duty.

"The island now imports between $200,000,000 and $300,000,000 worth of stuff every year. Of this amount we furnish only $28,000,000 worth, notwithstanding our superior market and proximity. Of wine, alone, Cuba imports $5,000,000 worth each year from Spain. She also spends in foreign countries $2,500,000 for shoes, $6,000,000 for cotton fabrics, and $2,000,000 for rice.

"More freedom in the tax on the two staple products will save the island because sugar is now raised at a loss of 50 cents a hundred pounds. Cuba is bigger than Java, and has a population of 2,000,000 inhabitants, while Java supports a population of 20,000,000. Cuba can comfortably take care of a population of 10,000,000, and the people of influence and wealth on the island are anxious for an accession of strength from the United States. Immigration will solve the question of Cuba's future."

TRANSPORT BUFORD ARRIVES.

It Had on Board Eight Companies of the 23d United States Infantry and Others.

New York, Dec. 2.—The United States transport Buford arrived Sunday from Manila with eight companies of the 23d United States infantry, Companies A to H, 91 enlisted men, non-commissioned staff and band and 37 officers under command of Col. J. Milton Thompson. There were also 115 discharged soldiers and government employes on board. The men are a fine, robust lot, in good spirits and glad to get home.

BURIAL OF A ROUGH RIDER.

President Roosevelt Sent a Large Floral Tribute to Be Laid on the Grave of Lieut. Joseph A. Carr.

Washington, Nov. 30.—President Roosevelt sent a large floral tribute to be laid on the grave of Joseph Armistead Carr, late lieutenant of Troop D, of the Rough Riders, whose remains were interred at Arlington. Lieut. Carr was a great grandson of Gen. Walter Keith Armistead, of the first class graduated from West Point, and was a nephew of Gen. Lewis Armistead, of the confederate army.

COUNTERFEIT MONEY.

A Large Quantity Found on a Negro Wearing the Uniform of a United States Cavalryman.

Montgomery, Ala., Nov. 30.—Tom Shorter, a Negro wearing the uniform of the 9th United States cavalry, was arrested by the conductor of a passenger train at Union Springs for beating his passage. A quantity of counterfeit dollars, half dollars and nickels were found on his person. The Negro claimed it was Filipino money. He also had molds for making money.

Mrs. Armour to Marry.

Chicago, Nov. 30.—Mrs. Philip D. Armour, jr., the sudden death of whose husband hastened the demise of his multimillionaire father, is to marry P. A. Valentine, a member of the Armour firm.

Deschanal Goes to Hayti.

Paris, Nov. 30.—Paul Deschanal, former councillor of the French embassy at Washington, where he married a daughter of Gen. George B. McClellan, has been appointed French minister to Hayti.

Robbed of $3,000.

Mattoon, Ill., Nov. 30.—During Frank Glover's absence from his home at Allenville thieves robbed his wife of $3,000 which she had hid under her pillow. Mrs. Glover was awakened and screamed for help but the robbers got away.

River Pilot Commits Suicide.

Peking, Ill., Nov. 30.—Frank E. Baugh, a widely known Illinois river pilot, committed suicide by jumping from his father's boat while the tug was under way. He is thought to have been temporarily insane.

WHAT A LEADING AGRICULTURIST SAYS OF WESTERN CANADA.

Prof. Thomas Shaw of Minnesota University Gives an Unbiased Opinion.

In a letter to "The Farmer," St. Paul, dated Sept. 1st, 1901, Prof. Thomas Shaw, of the Minnesota State University, has the following to say, after having made a trip through Western Canada:

"The capabilities of the immense area known as Western Canada are but little understood on this side of the line. Our people are apt to look upon it as a region of frost and snow, a country in which but small portion of the land relatively will ever be tillable because of the rigors of the climate. True, the climate is cold in winter, but Western Canada has, nevertheless, just that sort of climate which makes it the most reliable wheat producing country in all the continent.

AN IMMENSE AREA.

Western Canada is not only an immense area, but the same description will apply to those portions of the country that are capable of being successfully tilled or grazed. Nearly all of the prairie Province of Manitoba can be brought under cultivation, although probably not one-third of its surface has been laid open by the plough. Assiniboia to the west is a grain and stock country. Saskatchewan to the north of Assiniboia has high adaptation for the same. This also may be said of Alberta to the west. Here lies what may be termed a grain growing and stock producing empire, the resources of which have been but little drawn upon comparatively, viewed from the standpoint of the agriculturist. When it is called to mind that even in the Peace River Country, several hundreds of miles north of the Canadian boundary, wheat was grown which won a premium at the World's Fair in 1893, the capabilities of this country in wheat production loom up more brightly than even the brilliant Northern lights of the land that lies toward the pole.

ADAPTED TO STOCK AND GRAIN PRODUCTION.

The region under consideration is, however, mainly adapted to growing grain and grazing stock. Much of it is adapted to growing both grain and stock, but certain areas, especially towards the mountains, are only adapted to ranching, except where irrigation will yet be introduced. This, of course, can be done successfully along the many streams that flow down from the Rockies, and water the country towards the east and north. The adaptation of the country for wheat production is of a high character. The cool nights that usually characterize the ripening season are eminently favorable to the filling of the grain, and to the securing of a plump berry, and consequently large yields. The crop this year is a magnificent one. In Manitoba and the Territories it should certainly give an average of more than 20 bushels per acre. But should the yield be not more than 20 bushels, the crop will be a most handsome one, owing to the large area sown to wheat. Many farmers only grow grain. But those who do succeed as well in growing oats and barley as in growing wheat, hence these foods for live stock should always be abundant. Some grow cattle mainly and others combine the two. The last named, of course, is doubtless the safest of the three during a long course of years, that is to say, where such farming is practicable.

QUALITY OF LIVE STOCK.

It was a pleasurable surprise to note the high quality of the stock. The average of quality in cattle is higher than the average of cattle in our State, unless in the dairy classes. This opinion is not reached rashly or without ample opportunity for investigation. I spent three long days in the show ring at Winnipeg making the awards in the beef classes. I question if any of our states, single handed, could make such a showing in cattle. It was my privilege to make the awards at several shows, and at all of them were evidences that much attention is given to the improvement of the stock. I noted carefully the character of the herds that grazed along the railroad and everywhere the high average of the quality of the stock was in evidence.

REASONS FOR QUALITY IN STOCK.

The quality of the grass is good. Many of the settlers came from Ontario, and had been schooled as to the value of good stock before going west. The railroads and the Government have taken a deep interest in making it less difficult and costly to the farmers to secure good males.

Those who are anxious of changing their residence should bear in mind that the lands in Western Canada are many of them free and others reasonably cheap.

Information will gladly be given by any agent of the Canadian Government, whose advertisement appears elsewhere.

In the Department Store.

"I want to get a dog collar," said the customer.

"Yes, sir," replied the absent-minded salesgentleman, who had recently been transferred to that department, "what size shirt do you wear?"—Philadelphia Press.

How She Knew.

"That is your husband rapping!" announced the medium in a solemn voice.

"My husband rapping?" said the widow, absently; "gracious! he must have forgotten his night key!"—Philadelphia Record.

Many a man who tries to be a rascal finds he is only capable of being a fool.—Chicago Daily News.

ROOSEVELT TO CONGRESS

Sends His First Annual Message to the Senate and House of Representatives.

MAKES RECOMMENDATIONS ON IMPORTANT QUESTIONS.

Eulogizes the Late President McKinley and Advocates Stern Measures for Anarchists - Proposes Trust Legislation Along the Lines of Publicity Favors Government Construction of Irrigation Works — Urges Construction of Isthmian Canal and Laying of Pacific Cable - Asks Legislation for the Colonies and Reciprocity for Cuba - Would Exclude Chinese.

The following is a comprehensive summary of President Roosevelt's message to congress:

The president begins his first annual communication with an official announcement of the death of the late President McKinley, a eulogy of his character, chief in which he says:

"It is not too much to say that at the time of President McKinley's death he was the most widely-loved man in all the United States. Those who knew him best and whose friendship he valued most highly were the first to bear the heartiest and most generous tribute to the greatness of his character, to the sweetness and gentleness of character which so endeared him to his close associates. In a position of great responsibility in public life he united the tender affections and home virtues which are all important in the home with the strongest character. A gallant soldier in the great war for the union, he also shone as an example to all our people because of his conduct in the most sacred and intimate of home relations. Never did he show personal hatred of him, for he never acted with aught but consideration for the welfare of others, and he gained the full respect him who knew him in public or private life. The defenders of those murderous criminals who at last attained their criminality by asserting that it is exercised for political ends through against wealth and irresponsible power, for this assassination even this base apology cannot be urged.

"Much of the grief of the country, are bitter in the minds of all who saw the dark days while this president you revered between life and death. At last the light was stilled in the kindly eyes, and the breath went from the lips as by his own mortal agony uttered no words save of forgiveness to his murderer, of love for his friends and of his suffering at the will of the Most High. Such a death crowning the glory of such a life leaves us with infinite sorrow mingled with pride in what he had accomplished and in his own personal character that we feel the blow not as one but as all have been struck at the nation. We mourn a good and great president who is dead, but while we mourn we remember that his splendid achievements of his life and the grand heroism with which he met his death.

In the same connection he makes strong recommendations as to how the nation should deal with anarchy. He urges that the preaching of teaching of anarchy be made a crime, requiring congress to enact legislation that will prevent anarchists from foreign countries finding upon our shores. He would also have the federal courts given jurisdiction over any man who kills, or attempts to kill, the president, and also any member of the cabinet who is in line for succession to the presidency. He has no fear, however, that the country will ever be given to anarchy.

"The federal courts should be given jurisdiction over any man who kills or attempts to kill the president or any man who by the constitution or by law is in line of succession for the presidency, while the punishment for an unsuccessful attempt should be fixed at the death penalty. In the case of the murder of a president the punishment should be certain and speedy. Our procedure in such cases should be simple and early, and reviewing courts should not be permitted to use technicalities to defeat justice. Laws should be enacted to punish with death any conspiracy to murder the president or any man lawfully acting as president, or any officer in the line of succession, when any overt act is committed in furtherance of the conspiracy. Such laws would in all probability never have to be used, but they might well make a deep and lasting impression for good upon the public mind."

The Trusts.

The president sees cause for congratulation over the action of the business combinations of the present, but sees in the "tendencies and highly complex industrial development which went on with ever accelerated rapidity during the latter half of the nineteenth century" a serious social problem for the present and future. He does not believe that the old laws and old customs are sufficient to regulate the accumulation and distribution of wealth of the present time. He does not attribute the creation of great combinations as due to the existence of a protective tariff, "nor to any other governmental action, but to natural causes in the business world, operating in other countries as they operate in our own." In this connection he says:

"The process has aroused much antagonism, a great part of which is wholly without warrant. It is not true that the rich have grown richer the poor have grown poorer. On the contrary, never before has a wider average of the wageworker, the farmer, the small trader, been so well off as in this country and at the present time. There have been abuses connected with the accumulation of wealth, yet it would be a veritable calamity if the genius actuated in legitimate business can be accumulated by the person specially benefited by it unless accompanied by conferring immense incidental benefits upon others. Successful enterprise of the type which benefits all mankind can only exist if the conditions are such as to offer great prizes as the rewards of success."

But while he realizes existing conditions, he emphasizes the fact that congress in proffering remedies must act with caution, as the men who have accumulated and have built up our commerce and driven our railroads across the continent have done great good to our people. To strike them the material development of which we are the beneficiaries would be a veritable calamity. Moreover, we should recognize the immense importance to this material development of leaving a man free to prosper as is compatible with the public good the strong and forceful men upon whom the business of the country chiefly inevitably rests. The slightest study of business conditions will satisfy anyone capable of forming a judgment that the personal equation is the most important factor in all business operation; that the business ability of the man at the head of any business concern, big or little, is usually the factor which fixes the gulf between striking success and hopeless failure.

Another reason for caution in trust legislation we think is to be found in the international commercial conditions of today. The same business conditions which have produced the great aggregations of corporate and individual wealth have made them very potent factors in international commercial competition. Business concerns which have the largest means at their disposal and are managed by the ablest men have naturally those which take the lead in the strife for commercial supremacy among the nations of the world. America has only just begun to assume that commanding position in the international business world which we believe will more and more be here. It is of the utmost importance that this position be not jeopardized, especially at a time when the overflowing abundance of our own natural resources and the skill, business energy and mechanical aptitude of our people make foreign markets essential. Under such conditions it would be most unwise to cramp or to fetter the youthful strength of our nation.

"Moreover, it cannot too often be pointed out that to strike with ignorant violence at the interests of one set of men almost inevitably endangers the interests of all. The fundamental rule in our national life, the rule which underlies all others, is that on the whole and in the long run we shall go up or down together. There are exceptions to the rule, and temporary periods of prosperity and depression come upon us; but a fairly permanent system of inspection abroad and a more rigid system of examination at our immigration ports, the former being especially necessary.

"The second object of a proper immigration law ought to be to secure by a careful and not merely perfunctory educational test some intelligent capacity to appreciate our institutions and act reasonably as American citizens. This would not keep out all anarchists, for many of them belong to the intelligent criminal class, but it would do what it also in point —that is, keep out the mass of ignorance so potent in producing the envy, suspicion, malignant passion and hatred of order from which anarchistic movement inevitably springs. Finally all persons should be excluded who are below a certain standard of economic fitness to enter our industrial field as competitors with the lowest grade of labor. There would be proper proof of personal capacity to earn an American living and enough money to insure a decent start in the new environment conditions. This would stop the influx of cheap labor and the resulting competition which gives rise to the fiercest race animosity in American industrial life, and it would drive up the springs of the pestilential social conditions in the crowded districts of our great cities. Finally, it would stop at the source many of the most potent causes calling forth the need of charity, and would tend in the most effective way to solve the problem of how to deal with the sinister and menacing development of certain forms of charitable and philanthropic activity. Existing law makes it possible to deport any alien who becomes a public charge within two years after his entry into this country, the cause for deportation must affect the man prior to his landing. What is needed is a law which will enable us to deport any alien who comes here and becomes a public charge from whatever cause, the cause existing prior to landing or not."

Immigration Laws.

He pronounces our present immigration laws unsatisfactory. In which connection he says "we need every honest and efficient immigrant who comes here to be an American citizen, every immigrant who comes here to stay, who brings here a strong body and mind, and the resolute purpose to do his duty well in every way and to bring up as children as law-abiding, God-fearing members of the community." But he says:

"There should be a comprehensive law enacted with the utmost care and with a view to effective improvement over our present system. First, we should aim to exclude absolutely all persons who by their habits are known to be believers in anarchistic principles or members of anarchistic societies, but above all persons who are of low moral tendency or of unsavory reputation. The mere fact that we should exclude a more thorough system of inspection abroad and a more rigid system of examination at our immigration ports, the former being especially necessary.

"The second object of a proper immigration law ought to be to secure by a careful and not merely perfunctory educational test some intelligent capacity to appreciate our institutions and act reasonably as American citizens. This would not keep out all anarchists, for many of them belong to the intelligent criminal class, but it would do what is also in point —that is, keep out the mass of ignorance so potent in producing the envy, suspicion, malignant passion and hatred of order from which anarchistic movement inevitably springs. Finally all persons should be excluded who are below a certain standard of economic fitness to enter our industrial field as competitors with the lowest grade of labor. There should be proper proof of personal capacity to earn an American living and enough money to insure a decent start in the new environment conditions. This would stop the influx of cheap labor and the resulting competition which gives rise to the fiercest race animosity in American industrial life, and it would dry up the springs of the pestilential social conditions in the crowded districts of our great cities. Finally, it would stop at the source many of the most potent causes calling forth the need of charity, and would tend in the most effective way to solve the problem of how to deal with the sinister and menacing development of certain forms of charitable and philanthropic activity. Existing law makes it possible to deport any alien who becomes a public charge within two years after his entry into this country, the cause for deportation must affect the man prior to his landing. What is needed is a law which will enable us to deport any alien who comes here and becomes a public charge from whatever cause, the cause existing prior to landing or not."

The Merchant Marine.

The president renews our merchant marine bill, so creditable to us as a nation and insignificant to that of other nations which we own. He says: "Our coasting trade is entirely free to our own vessels, while vessels of all other nations, even those of countries friendly to us, are excluded from it. Our vessels in the foreign trade are subjected to the competition of foreign vessels which we have to meet in the ports of the world on terms of equality, while our vessels are excluded from competition in the ports of our own country. Under the present system we have driven our merchant marine from the sea, and our ships rot at the docks, while we pay other countries enormous sums for carrying our goods and our mails. Our coasting trade is developing to a degree unparalleled in the history of the world, but our foreign trade is slipping steadily into the hands of our commercial competitors. Our inland waterways are not connected with the sea, and our great harbors are unimproved. Our river mouths are obstructed by bars, and our merchant vessels are driven to the use of expensive docks, because deep water is not brought to the wharves which exist in plenty in all our rivals. Our lack of a merchant marine is peculiarly inexcusable, because we have developed to a high degree the very type of vessel which is specially needed in the coastwise trade and in the trade with the islands lying near our coasts, namely, the fast steamship of large size and great carrying capacity. Our steel industries have reached a development unparalleled elsewhere in the world, and we are able to build vessels of steel as well and as cheaply as they can be built anywhere. Our lumber industry is the greatest in the world, and we can build wooden vessels as well and as cheaply as anywhere else. Our seamen are the boldest and most adventurous in the world, and are fully the peers of any. Our officers are trained in our admirable naval and military schools, and are capable of handling vessels in the most perilous positions. Our yards and docks are filled with workmen who are skilled in every variety of shipbuilding. Our sailors are eager to enter the navy, and our officers are glad to remain in the navy, because they are sure of good treatment and of ample opportunity for rising in their profession. Our navy is the only one in the world which has not been called upon to aid in the development of the merchant marine. Every battleship we build could be duplicated in private shipyards, and in case of war could be utilized for the navy as auxiliary cruisers. Our merchant marine should be restored to the ocean."

Finances.

Under this heading the president recommends such legislation as will guard against the deranging influences of commercial crises and financial panics and such as will tend to prevent them. The country more responsive to the demands of distribution and contraction.

He points out the fact that the receipts from duties on imports and internal taxes exceed the needs of the government, but counsels against reducing the revenues so that there will be the possibility of a deficit.

"But after providing against any such contingency means should be adopted for the reduction of the revenue to the point within the limit of our actual needs."

He urges strict economy, but not economy in expenditures, but that "our national needs forbid us to be niggardly in the matter of providing for what is actually necessary to our well-being."

Inter-State Commerce.

He points to defects in the interstate commerce law, and recommends amendments to correct these defects, in which connection he says:

"Those who complain of the management of the railways allege that secret rebated rates are not maintained, that rebates and similar devices are habitually resorted to, that these preferences are usually in favor of the large shipper, that they drive the small dealer out of business, that while many rates are too low many others are excessive and that discrimination between localities and between commodities. Upon the other hand, the railways assert that the law as to publicity has produced new methods of these illegal practices by depriving carriers of that right of concerted action which they claim is necessary to establish and maintain nondiscriminating rates.

"The act should be amended. The railway is a public highway. Its rates should be just to and open to all shippers alike. The government should see to it that within the jurisdiction this is so and should provide a speedy, inexpensive and effective remedy to that end. At the same time it must not be forgotten that our railways are the arteries through which the commercial life of the nation mainly flows. Nothing could be more foolish than the enactment of legislation which would unwisely hamper the power of the government and operation of these commercial agencies."

Agricultural Interests.

The president cites the forest legislation of the past and the great good of forest preserves to the people, and says they will "inevitably be of still greater value. Continuing, he says:

"At present the protection of the forest reserves rests with the general land office, the mapping and description of their timber with the geological survey, and the care and the preparation of plans for their conservative use with the bureau of forestry, which was created to aid the general advancement of practical forestry in the United States. These various functions should be united in the bureau of forestry, to which they properly belong. The present diffusion of responsibility is bad from every standpoint. It prevents that effective cooperation between the government and the men who utilize the resources of the reserves, without which the interests of both must suffer. The scientific bureaus generally should be put under the department of agriculture. The president should have by law the power of transferring lands for use as forest reserves from the department of agriculture. He already has such power in the case of lands needed by the departments of war and the navy."

Irrigation.

Irrigation in connection with the waste lands of the west is a question to which the president gives extensive consideration, and makes strong recommendations for government assistance in reclaiming the waste lands by constructing irrigation and the control of water rights where every state possesses, or not this in says:

"In the arid region it is water, not land, which measures production. The western half of the United States could sustain a population greater than that of our whole country to-day if the waters that now run to waste were used for irrigation purposes. The interests of water problems are perhaps the most vital internal questions of the United States.

"In cases where natural conditions have been restored for a time the agricultural has again carpeted the ground, birds and deer are coming back, and hundreds of persons, especially from the immediate neighborhood, come each summer to enjoy the privilege of camping. Some at least of the forest reserves should afford perpetual protection to the native fauna and flora, safe havens of refuge to our rapidly diminishing wild animals of the larger kinds and free camping grounds for the ever-increasing numbers of men and women who have learned to find rest, health and recreation in the splendid forests and flower-decked valleys of our mountains. The forest reserves should be set apart forever for the use and benefit of our people as a whole, and not sacrificed to the shortsighted greed of a few."

The forests alone cannot, however, fully regulate and conserve the flow of our arid region. Great storage works are necessary to equalize the flow of streams and to save the flood waters. Much actual irrigation has been conclusively shown to be an undertaking too great for private effort. Nor can it be best accomplished by the individual states acting alone. Far-reaching interstate problems are involved, and the full resources of single states would often be inadequate. It is properly a national function, at least in the case of great works. It is as right for the national government to make the streams and rivers of the arid region useful by the storing of water for water storage as to make useful the rivers and harbors of the humid region by engineering works of the same type. The storing of the floods in reservoirs at the headwaters of our rivers is but an enlargement of the present policy of river control under which levees are built on the lower reaches of these same streams.

"The government should construct and maintain these reservoirs as it does other public works. The water should be used to regulate the flow of streams the water should be turned freely into the channels best suited to secure its use, due regard being under the same laws as the natural flow.

"The reclamation and settlement of the arid lands will be a national blessing to our country, just as the settlement of the Ohio and Mississippi valleys brought prosperity to the states farther east. The demand for additional homes for our citizens will stimulate industrial production while wider markets for sale and the trade of Asia will consume the larger food supplies and more effective means of transportation will enable us to hold our own in competition with eastern agriculture. Indeed, the products of irrigation will be consumed chiefly in supplying the needs of farmers of mining and other industries which would otherwise not come into existence at all. Our people will be the gainers, for successful homemaking is but another name for the upbuilding of the nation.

"If homesteads are to be secured much at the beginning, but advises that we let experience go a small plan teach the possibilities of greater. He also urges that he cites the conditions under which the settlers of the west are attempting to build homes on their arid lands. He says:

"The security and value of the homes of settlers depend largely upon the facilities to water, but the majority of these rest on the uncertain foundation of court decisions conflicting with the statute at law. With a few creditable exceptions, the arid states have failed to provide for the certain and equitable division of water in times of scarcity. Lax and uncertain laws have made it possible to establish rights to water in excess of the needs and necessities, and many streams have already passed into private ownership or a control equivalent to ownership.

"Whoever controls a stream practically controls the land which borders upon it, and the doctrine of private ownership of water apart from land cannot prevail without working great injustice in many localities. The doctrine of private ownership has been permitted to grow up in the arid regions, should give way to the doctrine of limited and larger recognition of the rights of the public in the control and disposal of the public water supplies, due regard being had to conditions obtaining in humid regions, where water is too abundant to justify charging it, have no proper application in a dry country.

"In the arid states the only right to water which should be recognized is that of use. In irrigation this right should attach to the land reclaimed and appurtenant thereto. Granting perpetual water rights to other than users without compensation is impossible to open to the objections which apply to giving away perpetual franchises to the public utilities of the states. A few of the arid states have already recognized this and have incorporated in their constitutions the doctrine of perpetual state ownership of water."

The Colonies.

Considerable attention is given the colonies, and especially the Philippines. This section of the message begins by citing the needs of Hawaii and Porto Rico, of which he says:

"In Hawaii our aim must be to develop the territory on the traditional American lines. We do not wish a region of large estates tilled by cheap labor. We wish a healthy American community in which the men themselves till the farms they own. All our legislation for the islands should be shaped with this end in view. The well being of the average homemaker must afford the true test of the healthy development of the islands. Their laws should as nearly as possible be modeled on our homestead system."

For Porto Rico he says the island is thriving as never before, and is being administered efficiently and honestly. He deems the legislation necessary except that concerning the public lands of the island.

He calls attention to the fact that in Cuba the independent government of the island will soon be in control, and in the same connection urges reciprocity with Cuba. "Reciprocal trade relations with the new nation, upon which subject he says:

"In the case of Cuba we have weighty reasons of morality and of national interest why the policy should be held to have peculiar application. I therefore most earnestly ask your attention to the wisdom, indeed to the vital need, of providing for a substantial reduction in the tariff duties on Cuban imports into the United States. Cuba has in truth and fact won her right to be declared that she should stand in international matters in closer and more friendly relations with us than with any other power, and we are bound by every consideration of honor and expediency to pass commercial legislation in the interest of her material well being."

For the Philippines he recommends much in the way of legislation, but again counsels caution that we go neither too far nor with too great haste. He says: "We hope to make our administration of the islands honorable to our nation by making it of the highest benefit to the Filipinos themselves, and as an earnest of what we intend to do we point to what we have done. Already a greater measure of material prosperity and of governmental honesty and efficiency has been attained in the Philippines than ever before in their history."

He says we do not desire to do for the islanders "merely what has been or could be done for tropic peoples by even the best foreign governments. We hope to do for them what has been done by the best of our people of the tropics—to make them fit for self-government after the fashion of the really free nations."

But the idea of the president is that we cannot leave the islands at this time, or even in the near future. To withdraw at this time would mean that they would fall into a welter of murderous anarchy, and a deep sense of duty on our part would be a crime against humanity."

But he says that real progress has been made along the lines under which we have been working in the islands to warrant us in passing new legislation, but in this connection he urges the need of caution. He believes the time has come when the industries of which the islands are capable should be encouraged by granting franchises for their development, and of this he says:

"Nothing better can be done for the islands than to introduce industrial enterprises. Nothing would benefit them so much as throwing them open to industrial development. The connection between lawlessness and mischief is proverbial, and the opportunity to do remunerative work is one of the surest preventives of war. Of course no business man will go into the Philippines unless it is to his interest to do so, and it is immensely to the interest of the islands that he should go in. It is therefore necessary that the congress should pass laws by which the resources of the islands can be developed, so that capitalists may be induced to go there and be granted to companies doing business in them such concessions as may seem given to the incoming of business men of every kind.

"But to permit this is to do a wrong to the Philippines. The franchises must be granted and the business permitted only under conditions which will guarantee the islands against any kind of improper exploitation. But the vast natural wealth of the islands must be developed, and the capital willing to develop it must be given the opportunity to be used must be thrown open to individual enterprise, which has been the real factor in the development of every portion of our own country. It is urgently necessary to enact suitable laws dealing with general transportation, mining, banking, currency, homesteads and the use and ownership of the lands and timber. These laws will give free play to industrial enterprise, and the conner bal development which will surely follow will afford to the people of the islands the best proofs of the sincerity of our desire to aid them."

The construction of a Pacific cable is also urged, either that the government lay such a cable, to connect Hawaii and the Philippines, or that an arrangement be made by which the advantages accruing from a government cable may be secured to the government by contract with a private cable company. This he recommends largely for both commercial, political and military considerations.

The Isthmian Canal.

He calls attention to the need of an Isthmian canal, and says:

"Its importance to the nation is by no means limited merely to its material extension of our present business prosperity, and yet with a view to these effects alone it would be to a very high degree important and would immediately begin. While its beneficial effects would perhaps be most marked upon the Pacific coast and the gulf and south Atlantic states, it would also greatly benefit other sections. It is emphatically a work which it is for the interest of the entire country to begin and complete as soon as possible; it is a work which no single state or any great nation can undertake with prospects of success and which when done in the lower way will be a lasting benefit to the nation's material interests, but standing monuments to its constructive statesmanship.

"The treaty recently concluded with England he says: "I am glad to be able to announce that the negotiations with this subject with Great Britain, conducted on both sides in a spirit of friendly mutual understanding and respect, have resulted in my being able to lay before the senate a treaty which if approved will enable us to begin the building for an Isthmian canal at any time and which guarantees to the nation every right that it has asked in connection with the canal. In this treaty the old Clayton-Bulwer treaty, so long recognized as inadequate to supply the base for the construction and maintenance of a necessarily American policy, is abrogated. It especially provides that the United States alone shall do the work of building and assume the responsibility regarding the canal and shall regulate its neutral use by all nations on terms of equality without the need of any interference or control by any nation from any quarter. The signed treaty will at once be laid before the senate, and if approved the congress can then proceed to give effect to the Hay-Pauncefote treaty by providing for the building of the canal."

The Monroe Doctrine.

The president sets forth the objects of the Monroe doctrine, and the spirit in which it has been received by foreign countries, and in connection with it says this nation has not the slightest desire to assume a protectorate over the affairs of any of our neighbors, and cites our attitude toward Cuba as a guarantee of our good faith. He says also that the Monroe doctrine has nothing to do with the commercial relations of any American power with any other power, which allows each power to form such as it desires." That we do not ask for any exclusive commercial privileges in any other American state." He says of this:

"The Monroe doctrine should be to the normal benefit of the foreign policy of all the nations of the two Americas as it is of that of the United States. Just 75 years have passed since President Monroe in his annual message announced that 'the American continents are henceforth not to be considered as subjects for future colonization by any European power.' In other words President Monroe put forth a declaration that there must be no territorial aggrandizement by any non-American power at the expense of any power on American soil. It is in no way intended as hostile to any nation in the old world. Still less is it intended to give cover to any aggression by one new world power at the expense of any other. It is simply a step, and a long step, toward assuring the universal peace of the world by securing the possibility of permanent peace on this hemisphere."

The Navy.

The president urges the continued upbuilding of the navy as a means of peace. He says that international duties as well as a protection and safeguard for our international rights, and for the honor of our people as a first-class power necessitates the building and maintenance of a navy in keeping with our position. He says further:

"So far from being in any way a provocation to war, adequate and highly-trained navy is the best guarantee against war, the cheapest and most effective form of insurance. The cost of building and maintaining such a navy represents the very lowest premium that can be paid for assurance of peace which this nation can possibly pay."

He recommends both the construction of more battleships and additional more officers and men as absolutely necessary, and says:

"There should be no cessation in the work of completing our navy. So far ingenuity has been wholly unable to devise a substitute for the great war vessel of the line whose hammering guns beat out the mastery of the high seas. Such vessels are now built at a cost to provide this year for several additional battleships and heavy armored cruisers, and for many and lighter craft in proportion. For the exact number and character I refer you to the report of the secretary of the navy. But the most pressing thing we need even more than additional ships, and this is additional officers and men. We have not enough officers of all services and then lay them up with the expectation of leaving them unmanned until the ships are needed. In that event they would be worse than folly. It would be a crime against the nation.

"To meet a foe with ownership against a competent enemy unless those aboard it have been trained by years of actual sea service, including incessant gunnery practice, would be to invite not merely disaster, but the most shameful humiliation. Four thousand additional seamen and a thousand additional marines should be provided, and no increase in the officers should be provided by making a large addition to the classes at Annapolis. There are two small matters which should be mentioned in connection with Annapolis. The pretentious and unmeaning term 'cadet' should be definitely established; the title of 'midshipman,' full of historic association, should be restored.

"We now have 30 battleships completed for, of which nine are completed and have been commissioned for actual service. Of the remaining eight will be ready in from two to four years, but it will take at least that time to recruit and train the men to fight them. It is at least concern that we have trained crews ready for the ships that are now in commissioned. Good ships and good guns are simply good weapons, and the best weapons are useless save in the hands of men who know how to fight with them. The men must be trained and drilled under a thorough and well-planned system of progressive instruction, while the recruiting must be carried on with still greater energy, in order to keep up and maintain the numbers in the officers the command of men. The leading graduates of the naval academy should, as assigned to the combatant branches, the line and marines."

The Army.

No increase in the regular army is deemed necessary at this time, but there are several changes in that branch of the government service which the president recommends to congress. Chief of these is the establishment of a staff department, and of this he says:

"A general staff should be created. As for the general staff and supply departments, they should be filled by details from the line, the men so detailed returning after swhile to their line duties. It is very undesirable to have the senior officers of the army composed of men who have come to fill the positions by the mere fact of seniority. A system should be adopted by which there shall be an elimination grade by grade of those who seem unfit to be promoted before they reach the next grade. Justice to the veterans of the civil war who are still in the army would seem to require that the full rights and retirements they be given by law the same privileges accorded to their comrades in the navy."

Another recommendation which the president makes in connection with the army is for the reduction of the "paper work" of the service, known to the public as "red tape." Of this he says:

"Every effort should be made to bring the army to a constantly increasing standard of efficiency. But much of the work now that directly in the efficiency of the service should be required. The paper work in the army, as in the navy, should be greatly reduced. What is needed is every officer and enlisted man actually to work well in the field. Constant care is necessary to prevent dry rot in the transportation and accessory departments."

He also urges the enactment of legislation in connection with the militia and national guard forces of the nation that they may be better fitted for active service in time of war, and says:

"Our militia law is obsolete and worthless. The organization and encampment of the national guard of the several states, which are treated as militia in the appropriations by the congress, should be made identical with those provided for the regular forces. The obligations and duties of the guard in time of war should be carefully defined and a system established which will insure a method of procedure of raising volunteer forces should be prescribed in advance. It utterly impossible to improvise efficient and haste or impending war to do this satisfactorily if the arrangements have not been made long beforehand. Provision should be made for utilizing in the first volunteer organizations called out the training and experience which have already had experience under arms, and especially for the selection in advance of the officers of the regiments which may be raised; for careful selection of the kind necessary is impossible after the outbreak of war."

He praises the veterans of the civil war, the war with Spain and those who have rendered the nation valiant service in the Indian uprisings of the west and in the Philippines, and counsels generous liberality in the nation's dealing with them.

The Civil Service.

He recommends the enactment of legislation that will put the recent rulings of the merit system many classes of employes now governed by law. His recommendation for this is as follows:

"I recommend the passage of a law which will put the classified service in the District of Columbia or will at least enable the president thus to extend it. In my opinion the rules governing appointment to the temporary employment of clerks should hereafter contain a provision that they be selected under the civil service law."

He also wishes the merit system to obtain in the government service in the colonies, and says:

"Not an office should be filled in the Philippines or Porto Rico with any regard to the man's partisan affiliations or services, with any regard to the political, social or personal influence which he may have at his command. In short, heed should be had only to getting the man who has the man's own character and capacity and the needs of the service.

"The conditions in these islands should be as wholly free from the suspicion of partisan politics as the administration of the army. It is on the basis that we ask from the public servant in the Philippines or Porto Rico is that he reflect honor upon the flag and the nation which he makes that country's rule a benefit to the people who have come under it. This is all that we should demand, and we cannot afford to be content with less."

Other Recommendations.

Among other recommendations which the president makes are those asking for legislation along the lines of the consular service along lines outlined in bills introduced at previous sessions, and he says that: "It is true that the service is now in the main efficient, but a standard of excellence cannot be permanently maintained until the principles set forth in the bills heretofore submitted to the congress on this subject are enacted into law."

He believes the time has arrived when the Indian should cease to be treated as a ward of the nation, but as a citizen, and recommends breaking up the tribal funds, putting a stop to the indiscriminate permanent appropriations for these funds and stopping the ration system. He recommends also the establishment of an industrial training school for Indians. He endeavor to encourage the Indians to become cattle raisers rather than agriculturists where practicable, and recommends legislation to that effect.

Another of his recommendations is for the permanent appropriation for the reclamation of the arid lands, to insure better, cheaper and more satisfactory work in the interest of business, statistics, economic and the census.

The Postal Service.

He calls attention to the growth of the postal system and to the fact that the annual deficiency in the postoffice department service has been reduced to the small sum of $3,923,727. This, he says, could further be lessened by the increase of revenue shown but for the fact that many publications are now securing the pound rate as second class matter which is not justly entitled to the same under the law. Of this he says:

"The full measure of postal progress which might be realized has long been hampered, and obstructed by the heavy burden imposed on the government through the intrenched and well-undersood abuse of the franking privilege in connection with second-class mail matter. The extent of this burden appears when it is stated that the second class mail matter makes nearly three-fifths of the weight of all the mail, it paid for the last fiscal year only $4,264,000 out of a total postal revenue of $111,651,193. If the pound rate of postage, which produces the large loss in the service, were fixed by the congress with the purpose of encouraging the dissemination of public information, were limited to legitimate periodicals and periodicals actually contemplated by the law, no just exception could be taken. That such action would be the recognised and accepted cost of a liberal public policy determined long ago seems to be clear and well. But much of the matter which enjoys the privileged rate is wholly outside of the intent of the law. The abuse of admission only through an evasion of its requirements or through lax construction, the proper remedy for which is legislation matter is estimated by postal experts to be one-half of the whole volume of second-class matter. In the appointment of postmasters, the magnitude of the burden is apparent. The post office department has now no right to remove a fourth class postmaster as far as possible by a stricter application of the law, and it should be sustained in its effort."

The Chinese Difficulties.

He calls attention to the satisfactory settlement of the Chinese difficulties of Queen Victoria, and the clemency of the emperor of Germany, which aroused the genuine sympathy of the people of this country which sympathy was fully reciprocated by the people of both these nations upon the assassination of President McKinley.

He calls attention to the satisfactory settlement of the Chinese difficulties of 1900, and says that a part of the terms of the settlement, and says provisions have been made for insuring the future safety of foreigners and representatives. Of the promises made by China he says:

"The Chinese government has agreed to participate financially in the work of bettering the water approaches to Shanghai and to the construction of a railway grade in central and northern China, and an international conservancy board, in which the United States will be largely represented, has been provided for the improvement of the Shanghai river and the construction of a railway. The most line of commercial advantages a revision of the present tariff on imports has been provided for, the general principle being substituting specific for ad valorem duties, and as expert has been appointed to report to the United States to assist in this work. A list of articles to remain free of duty, including machinery, raw cotton, gold and silver coin and bullion, has also been agreed upon in the settlement."

In conclusion he mentions the Pan-American congress, now in session at the City of Mexico, and refers to the death of Queen Victoria and the dowager empress of Germany, which aroused the genuine sympathy of the people of this country which sympathy was fully reciprocated by the people of both these nations upon the assassination of President McKinley.

BOONE CO., RECORDER

Wednesday, - - Dec. 4, 1901.

W. L. RIDDELL, - - Publisher.

Neighborhood News.

JACOB'S WELL.—W. P. Utz and family spent Thanksgiving with Mr. and Mrs. John Taylor, of Beaver. Miss Lottie remained several days.

The Odd Fellows at Florence are doing a great deal of work.

Miss Bessie Cropper, of Weneeda, entertained, most royally, about forty of her friends, Thanksgiving day.

Winston Gaines brought two of his college friends from Oxford, Ohio, to spend Thanksgiving with his parents.

December 1st was a lovely day as proven by the crowd at Bullittsburg to hear their pastor and witness the baptism of Miss Clara Delph.

Jimmie Clore, of Rushville, Indiana, visited his parents recently. Having sold his business at that place, he will purchase a feed store in Cincinnati.

Our social circle was taken by surprise on Thanksgiving afternoon, by the marriage of Miss Lutie Gaines and Mr. Bellefield Graddy, at the home of Courtney Walton by Rev. L. Early, of Petersburg.

‡-‡

CONSTANCE.—Miss Emma Stahl has been visiting friends in Cincinnati, the past week.

Last week's Recorders failed to reach this office.

Two of Wm. Huff's children have typhoid fever.

Rev. Clayton preached here last Saturday night.

Rev. Peno preached the Thanksgiving sermon at the Mission.

Work has begun on the telephone to connect this place with Covington.

Mr. Newman has established a night school here for young men and ladies.

W. E. Anderson has an ugly wound on his leg, the result of a kick from a horse, last week.

J. R. Cookman, a prominent Covington attorney, and Mr. T. Sparks, were guests of Dr. Murat, Sunday.

William Tanner knocked out three men who attacked him on the other side of the river, last Saturday night.

Mr. Retchers, of Kansas City, Mo. and the leading apple grower of his section, is visiting Mr. and Mrs. Armstrong.

Constance elite took in the dance given by Master Arthur Herbstrapt at his home in Scringtown, and all had a good time.

‡-‡

FLORENCE.—John Crouch and wife, of Warsaw, were guests of their daughter, Mrs. R. P. Rice, Saturday and Sunday.

Joseph Kyle and wife have gone to Cincinnati to live.

Mrs. Ann Tanner, of Gunpowder, is visiting Mrs. Henry Tanner.

Miss Lizzie Vest spent a few days last week with her parents at Verona.

O. P. Tucker and family spent Thanksgiving with the Misses Hoggins.

James Tanner and wife spent a few days last week, with Mrs. S. F. Powers, of Verona.

Mrs. Joseph Clarke and daughter, Jeanette, of Cincinnati, are visiting Mrs. J. W. Clarke.

Miss Eva Clutterbuck, of Limaburg, was entertained by Miss Emma Clutterbuck, Saturday and Sunday.

Mr. Benjamin Stephens, and daughter, Mrs. Ezra Wilhoit, have returned home after spending a few weeks with relatives in Kansas.

Mrs. Joshua Tanner had for her guests, Spencer Tanner, wife and children, Howard Tanner and wife, of Pt. Pleasant, and Miss Mary Koru, of this place, Sunday.

An oyster supper will be given at the Florence school house Saturday evening, Dec. 7th. The proceeds will be used to purchase a primary chart and to start a library. All are very cordially invited.

‡-‡

VERONA.—Measles quite prevelant at this place.

Nearly every body is hauling water quite a distance.

John Myers has accepted a position as clerk at the B. Grass grocery.

Prof. J. H. Craven, of Covington, is spending his vacation at home.

The entertainment at the League Institute was a pleasant affair.

The game in this neighborhood has been nearly all slaughtered in the last two weeks.

Thanksgiving passed off very quietly at this place, with its usual feast of turkey and oysters.

New Bethel church has called their old pastor, Rev. Lafe Johnson, to serve them the coming year.

Ernest Porter's wife was buried at New Bethel, last Sunday. Bro. Taylor preached the funeral.

Our friend, J. C. Byland, passed through our burg on his way to R. O. Powers', last Saturday.

Mr. and Mrs. Calender, of Jonesville were guests of Mr. and Mrs. Denton Cotten, Thanksgiving.

Joseph Callahan, of Gardnersville, was visiting his brother, J. H. Callahan, last Saturday and Sunday.

Mr. and Mrs. A. W. Smith entertained at dinner, Thanksgiving day, quite a number of their friends, in a royal style.

‡-‡

HATHAWAY.—A. J. Utz is on the sick list.

This neighborhood was overrun with hunters, last Thursday.

Jasper Sullivan and family spent Thanksgiving with Jas. Sebree and wife.

Rev. W. S. Taylor conducted Thanksgiving services at Big Bone church, last Thursday.

C. B. Mason and family were the guests of your humble scribe and family, last Friday.

Mrs. Carrie Setter's, of Bellevue, was the guest of her parents on Gunpowder last Wednesday.

B. F. Rue and family left last Monday for their future home in Cleves, Ohio. May prosperity attend them.

Messrs. Joe and Robert Green entertained their cousins, of Rising Sun, hunting a couple of days last week.

Mrs. Leoma Jone's, of Scott county, is here on several days' visit to her parents, Mr. and Mrs. N. L. Moore.

Master Riley Presser went to Big Bone and had an other surgical operation performed on one of his limbs, last Friday.

Robert Carver has purchased and is hauling the E. H. Baker corn raised in the Riddell's run bottoms at 60 cents for all that is saleable and 30 cents for damaged.

James Hamilton son of Wood Hamilton died in Covington one day last week. The remains were brought to Big Bone and the funeral services were conducted by Rev. S. M. Adams at the church, after which the remains were laid to rest in the Big Bone cemetery in the presence of a host of sorrowing friends and relatives.

‡-‡

FLICKERTOWN.—Jim Snyder is driving a bread wagon in Aurora.

A small crowd attended John Sebree's sale, and things went cheap.

John Sebree moved his family and household goods to Cochran, Ind., last Wednesday.

Cecil Gaines and Russell Smith, of Burlington, spent Thanksgiving with Johnie Grant.

Stony Utz and wife entertained quite a number of their young friends, one night last week.

Courtney Jarrell caught 6 skunks one night last week, which he sold for $3 the next day.

Jas. Snyder and Wm. Sebree are the only lucky ones in this neighborhood in the Enquirer guessing contest.

Mrs. Mary E. Hensley entertained a number of friends from this and the Burlington neighborhood Sunday.

J. F. Cason will have a public sale of his personal property and will move to Ludlow about the first of the year.

Wm. Hinzfield, from near Lawrenceburg ferry, is seen in this neighborhood quite often on Sunday afternoon.

Hunters were out in full blast last Thursday, and what few rabbits and quails there were, were put out of existence that day.

Miss Ethel Sebree and Miss Julia Smith were visiting Dr. Geo. F. Smith and family, of Welsburg, Ind., a couple of days last week.

Mrs. Laura Sebree has greatly improved the looks of her premises by having a new roof put on her house. Morgan Tolin did the work.

‡-‡

UNION—Abe Rice is reported dangerously ill with typhoid fever.

Miss Mary Hedges spent last week, with her sister at Bank Lick.

Mrs. Christine Becker spent Thanksgiving with her brother in Cincinnati.

Mary Elizabeth Hicks spent last week with her grandmother, Mrs. J. W. Kennedy.

Miss Nannie Chambers made her friend, Miss Nyda Dickey a pleasant visit, last week.

An unusual number of Thanksgiving dinner parties were enjoyed in this neighborhood, Thursday.

Miss Anna Rice's friends will be glad to know that her physician has pronounced her out of danger.

Mrs. John Garrison and Mrs. J. W. Conner are visiting Mrs. J. S. Asbury in Mason county, this week.

The Ladies' Society will meet Saturday afternoon at 2:30 o'clock p. m., with Mrs. Fielding Dickey, Jr.

Levi Tanner has bought Mrs. Slevit's lot on High street. Mr. Tanner and family will move the first of March.

Mr. and Mrs. Henderson Ellis, of Covington, spent Saturday and Sunday with Mr. and Mrs. Lou Clarkson.

Mrs. Frank Bonnie, of Louisville, has arrived and will be the guest of her sister, Mrs. J. N. Gibson, for a short while.

Robt. Dickerson has been quite sick, but is now improving. Rob says he is so tired of keeping "bach" he will devote his time and strength to secure a housekeeper.

"Chuck" Fane, of "Warwick of the Knobs" fame, has an excellent position at the Fair in Cincinnati, in connection with Mr. Uri Lloyd's books.

A number of Golden Grange members attended the Pomona Grange at Bellevue, Saturday, and enjoyed the excellent dinner served by the good ladies of that place.

The ladies of the Presbyterian church are preparing a Cook Book that will be appreciated by the house-keepers of Boone county. It will be for sale in about six weeks, at the modest sum of 25 cents.

Miss Nannie Burkett's illness will keep her in Cincinnati several weeks longer, compelling her to temporarily suspend business. Her hats are left in charge of Miss Mary Hedges to be sold at cost, and she will be thankful for the patronage of her friends.

J. D. Norman and family and Victor Norman, who have been visiting their parents, Mr. and Mrs. M. C. Norman, returned on Saturday night to their home in Birmingham, Ala., taking with them their younger brother, Fielding D. Norman, who hopes to secure a situation in Alabama.

‡-‡

BULLITTSVILLE.— Miss Marie Riley has been visiting friends in Ohio.

Bernard Gaines was home from Covington, Thanksgiving.

Thornton Snyder and his friend, Mr. Berkshire, were at Thornton's home, last week.

Thanksgiving day was one loug to be remembered by the forty guests invited to the hospitable home of Mr. and Mrs. W. P. Cropper. The guests were met at the door by Mr. Cropper and his handsome and accomplished daughter, Miss Bessie, and their attention was given to seeing that every person enjoyed themselves. Dr. Walton and wife, of Horne City, Winston Gaines, of Oxford, O., Bernard Gaines, of Covington, Thornton Snyder and friend, Mr. Berkshire, of Cincinnati, were among those present. At twelve the guests were invited to the dining room, where every delicacy of the season had been provided from turkey to frozen desert. After dinner the music of Misses Miria Corn, Beulah Gaines, Nellie Duncan and Zayda Gaines was very much enjoyed by those present. Every one was loth to depart, and many stayed until late in the eveuing. Miss Bessie is one of the most popular young ladies in the county and entertains as charmingly as she is popular. "Buddie" made every one feel good and wished they could stay longer.

Pomona Grange met with Bellevue Grauge, last Saturday, in Odd Fellows' Hall at Bellevue. There was quite a large attendance from the Subordinate Granges in the county, especially from Golden Grauge, of Union. The sixth degree was conferred on 14 candidates. The Worthy State Master, F. P. Wolcott, was present and gave an earnest and interesting description of the National Grange meeting held at Lewiston, Maine, from which meeting he had just returned. The reception given the Patrons of Husbandry by the people of Maine has never been equalled by any State, in the history of the order. Everything that could have been thought of was done to entertain the visitors. When railroads, cities and even the whole State is placed at the service of the order, it goes to show the great influence of the P. of H. in that country. There are over 30,000 Patrons in the State of Maine; over 60,000 in New York, with more than a half million in the United States. The farmers in the east recognize the value of organizing and what is good for the eastern farmer is also good for us. If every farmer and family in this county and State would become members of the order, what a great influence they could wield in promoting their own welfare. Why do farmers hesitate to become members of an organization that consists of themselves? Are they afraid they will work against their own interest? Do they believe like some say, "There is nothing in it?" Then remember that you are using your influence against an organization that is trying to promote your interest and put the farmer on an equal footing with other branches of business.

o o o

MIDWAY.—Thanksgiving duly observed by most all our well regulated families.

John Taylor and wife entertained a large number of their relatives with a turkey dinuer.

Don Williamsou and wife, of Bellevue bottoms, were visiting Allie Rodeband wife, Saturday and Sunday.

John Maxwell, an old Boone county boy, who has been spending the year in Illinois, returned to his old home, last week.

Robt. Litterreli, who is engaged in the commission business in Cincinnati, visited his brother and family, last Sunday. Bob is a good fellow and we wish him a prosperous business.

The play party at the residence of Art. Smith and wife, given in honor of some visiting relatives, was a nice affair and greatly enjoyed by all who were fortunate enough to be present.

Married—Nov. 27th in Owen county, Miss Lucy Stevens and Mr. Abe Lockhart. While on their wedding tour he paid his brother, John Lockhart and wife, a brief visit, from which place they returned home to engage in housekeeping in Owen county.

Died—Nov. 27th, of pneumonia fever James Wilson Hamilton, at the residence of his uncle, Will Stevens, in Cincinnati. Mr. Hamilton was one of Big Bone Springs' most exemplary young men, in the 26th year of his age, and had just engaged with his uncle in the grocery business, when death called him. The remains, after an able and interesting funeral sermon by Rev. S. M. Adams, were laid to rest in the Big Bone Baptist cemetery.

The protracted meeting at Hughes' Chapel, under the management of the regular pastor, Rev. Mills assisted by Prof. Fouse and wife, he being a noted cornet soloist and his wife possessing a sweet and cultured alto voice add measurably to the interesting meetings, which are being nightly held with overflowing house congregations. Rev. Mills believes in practical sermons and possessing a good voice and fine delivivery is giving marked satisfaction on this circuit.

Quite a swell wedding in cloored social circles was pulled off at 8 a. m., on Nov. 27th, at the residence of John Brown and wife at Beaver, the high contracting parties being Miss Susie Weaver and Albert Cleek, Rev. Vinegar, of Erlanger, officiating. The bride looked well in a suit of tan with hat to match, and the groom wore the conventional black. A large number were present, and the gifts were many and pretty. After all had regaled themselves heartily at an elegant spread they left for home wishing the happy couple a long, happy married life.

‡-‡

GUNPOWDER.—Mrs. W. H. Rice is confined to her room with rheumatism.

B. C. Surface and wife entertained a number of their friends to dinner Thanksgiving.

Henry Quick and family and J. H. Tanner and family were guests of the writer, last Sunday.

B. C. Surface and wife were visiting in Richwood neighborhood last Saturday, guests of Jno. Denedee.

Mrs. Sparks, of near Indianapolis, Ind., left last Friday for her home after about two months stay with her numerous Boone county friends.

Perry Utz and Ezra Blankenbeker received a carload of corn from Kinkade, last week, at a cost of $3 per bbl, delivered at Erlanger.

Uncle Harrison Clore and wife entertained most royally J. C. Hankins and family, Mrs. Alice Beall, Lon Crucher and wife, C. T. Davis and wife and your Cor. and family, Thanksgiving.

Saw Death Near.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help could save her, but a friend recommeuded Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthama and all Throat and Lnug diseases. 50c and $1 at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Geisner's, Florence; H. L. Eskew's, Walton; J. N. Grant's, Bellevue. Trial bottles free.

The bieuual report of the State Superintendent of Public Instructiou, to be filed with the Governor within the next few days will urge the Geueral Assembly to make a number of changes in the Kentucky school laws. It will recommeud the repeal of third class certificates qualifying persons to teach in inferior grades; that the school term of five months in rural districts be increased to six months; that school districts be authorized to vote a tax to build school houses; that the district trustee system be abolished and a County Board of Education for each county be established, and that the time for paying county teachers be changed so that they will receive 20 per cent on October first, 20 per cent. on November first, 20 per cent. on December first, and the remaining 40 per cent. on January first.

If you have a difficult Prescription take it to ESKEW'S, Pharmacy, Walton, Ky.

Two-Quart Fountain Syringes 59c at ESKEW'S, Walton, Ky.

Don't Lose Time from your business on account of a cold or La Grippe.

Price, 25c Per Box. For sale by all druggists or mailed upon receipt of price.

BOULTON'S Chemical Company, COVINGTON, KY.

Boone County Court.

F. F. Gordon and Cassandra Foulk, Jr. vs. S. H. Goodin, Defts. } Notice. Pffs.

The defendant, S. H. Goodin, is notified that the plaintiffs, F. L. Gordon and Cassandra Foulk, will on the 6th day of January, 1902, that being a regular County Court day in and for Boone county, Ky., make a motion to be released from further liability on the bond of Taylorsport and Delhi Ferry, now owned by said S. H. Goodin, who is principal on said bond. Said Goodin is hereby notified to appear in said court at said term and show cause, if any, he has why such orders of release shall not be entered releasing the plaintiffs from further liability as surety on said bond. F. L. GORDON.

CASSANDRA FOULK.

GOOD TERMS TO FIRST CLASS AGENTS.

Local News.

Mr. J. W. Duncan was on the sick list several days last week.

The business of hauling water has not been suspended by a great many people.

Not a very large crowd in town Monday, and all were glad to see the damp weather.

Williamson, Jeff vs. Conner, O. P., at checkers, Monday—Conner, 3; Williamson, 1; 6 drawn games.

A meeting will be held at the Presbyterian church in Burlington, next Sunday afternoon, for the purpose of organizing a Christian Endeavor.

For Sale—One span good 2½ year old mules—broke to work, one first-class 6-year-old mule. LUCIEN T. CLORE, Grant, Boone Co. Ky.

Lucien Clore, of Waterloo, has purchased of Henry Clore, of Bellevue, 45 acres of land, Henry's interest in his father's land down on the East Bend road.

Rev. T. W. Barker will deliver a lecture on Pythianism at the K. P. Hall at Rabbit Hash at 7 p. m., Tuesday, December 17th, 1901. All are invited to attend.

The ladies of Hopeful church will give an oyster supper at Odd-Fellows' Hall, in Florence, on Thursday night, December 26, 1901. All are cordially invited.

The protracted services conducted by the Christian church at Erlanger Town Hall, closed Sunday night with a crowded house. The meeting, which was continued for two weeks, resulted in 40 accessions.

James M. Utz, of Limaburg, brought to this office, Monday, a bottle filled with water from John Taylor's sulphur spring. It is not bad to drink, and has no unusual appearance. The sulphur is plainly detected by the taste.

Judge Owen P. Conner and County Attorney Castleman were royally entertained by Mr. and Mrs. Albert Conner, of Locust Grove neighborhood, last Saturday. They went hunting and did shooting that ten year old kids could have beaten.

One of G. T. Gaines' fine work mules got a hind foot hung under the side of its stall, last Friday night, and sprained and bruised itself up so badly that it is very doubtful if it will ever be any account. Saturday morning the mule's stall looked like a slaughter pen. The animal had demolished every yart of its stall that could be torn down.

NOTICE—Having sold out our store, etc., in Bellevue, we desire to hereby express our thanks to those who stood by us so long with their patronage, and assure them that the same was fully appreciated by us. Those who are indebted to are requested to come forward and settle their accounts without further notice. HENRY CLORE.
J. J. WALTON.

O. W. Gaines, of near Bullittsville, while hauling stone on his farm not long since, noticed the dirt beneath them was moist, and upon investigation, he discovered that the moist dirt had a strong coal oil odor. So positive is he that he has oil in paying quantities close at hand, he is organizing a company to put down two or three wells. W. C. Watts will depresi dent of the Bullittsville Oil Company.

Having moved my Drug Store into the building lately occupied by W. H. Clark—one door above the National Bank, I cordially extend an invitation to all my old patrons and the public in general of Boone to call and see me at my New Place of business, here assuring you of my appreciation of your patronage in the past, and hoping for a continuance of the same.
I am yours respectfully,
J. P. HEMPHILL,
Rising Sun, Indiana.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said, 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by all druggists.

Holiday Goods.

On and after Saturday, December 14, I will display my line of Holiday Goods at my new store—the building lately occupied by W. H. Clark as a Dry Goods Store, one door above the National Bank. I will have the finest line of goods that I have ever carried. Call and see me; my room is large and all are invited to make it your headquarters when in Rising Sun. I extend a hearty welcome to the people of Boone.
Respectfully, J. P. HEMPHILL,
Rising Sun, Ind.

A well belonging to William Clore, of Bullittsville, went dry several days ago, something it never did before, and when a man went down into it the other day to clean it out, he heard a roaring noise that alarmed him. Thinking it might be gas he came out and sent a lighted candle down, but ignited nothing, neither was the flame extinguished. The well was then cleaned out, and a lot of water hauled and put in it. There is considerable speculation as to what caused the unusual noise, many thinking it was escaping gas, which had it been confined to a small volume might have burnt.

Food Changed to Poison.

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Billousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles. Only 25c at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oelsner's, Florence; H. L. Eskew's, Walton; O. N Grant's, Bellevue.

Personal Mentions.

Atty. Rogers, of Erlanger, was in town Saturday, enroute to Bellevue.

Chas. Craven entertained Mr. Wach, of Covington, on Thanksgiving day.

Jacob Rouse and wife, of Limaburg, were guests at Dr. Rouse's, Thursday.

Miss Edna Bryan, of Cincinnati, is the guest of Misses Birdie and Nellie Martin.

W. C. Respass, of Covington, was in town, Friday, the guest of Circuit Clerk J. W. Duncan.

Timothy Westhay and two sons, of Covington, spent Sunday and Monday in Burlington.

Rev. J. F. Carney, of Rising Sun, made the RECORDER a pleasant call, Monday morning.

Mr. and Mrs. Homer Clutterbuck were visiting relatives in the Union neighborhood, Sunday.

County Judge Brown, and Hon. J. W. Hance, of Gallatin county, attended court here Monday.

Messrs. Geo. Delph and John H. Corbin, were among the leading farmers of the county, who were in town last Friday.

Dr. Rouse has had a pavement laid along in front of his property, an improvement that has been needed for a long time.

Atty. J. C. Gordon, of Eminenc, has been visiting his parents, Mr. and Mrs. F. L. Gordon, of Hebron neighborhood, the past week.

J. A. Duncan and Wat Brown went to Petersburg, Thursday, to witness the game of football. They were not delighted with the mixup.

C. W. Riddell, of Williamstown, was the lucky winner of a $25 set of harness, given away in a guessing contest by a Cincinnati firm last week.

J. S. Surface was in town Monday, the first time since his visit to Rev. Lentz in Virginia. He was delighted with his sojourn and travels in the East.

Messrs. Peter and Reuben Hager, of East Bend, were among those from a distance in town, last Saturday. Notwithstanding the long drouth they appear to be enjoying their usual prosperity.

Our young friend, Claud Robinson, of Crescent, called in to see us while in town last Friday. He says in his corn he finds some very fine ears, but nine-tenths of his crop is of very indifferent quality.

Joe Weaver, of Union, was in town Saturday, and some said he had business with the County Clerk and a minister, while others opine that his transactions were solely with the Sheriff on the tax question.

William Utz, of Limaburg, was in town Friday morning, predicting rain in less than twenty-four hours. When asked upon what he based his prediction he said the fact that the fish in his pond had the water muddled that morning. He says that is a never failing sign.

Jesse Bachelor, of Cincinnati, was in town last Friday, making arrangements for the interment of the remains of Chas. Sable, who was killed by a railroad engine at Ludlow, the day before. Many years ago he lived with Mr. and Mrs. W. T. German. He is a railroader of many years experience.

Edwin Gaines has the position of conductor on a Pullman Car, and will go to work this week, his first run being from Cincinnati to California. Edwin is a young man everybody likes and will be greatly missed here. He has an army of friends who wish him success in his new position.

The Friday evening exercises of the Richwood school, November 22, were quite a success from beginning to end. The programme was as follows: A Salutatory, Edna Wolfe; Little Midget, Brady Warner; Penalty of Savin' Up, Lucy Hearne; Little Star, Gordou Taggart. A Fool, May Hunt; Under a Tree, Hugh Parker; Be Thou My Guide, Oscar Hunt; Indignant Nell, Mande L. Cleek; Little Diamonds, Lawrence Hunt; This is East, Ora Taggart; Sign-Board, Charles E. Denady; Let Us Try to be Happy, Lucy Warren; Ducks and the Fox, Charles Hunt; Thanksgiving Letter, Mary Soden; Since Pa Rode the Goat; Eddie Glacken; Little Flo's Letter, Nannie Dwyre; Nature, Wayne Hearne; Beggins Gray, Lizzie Hearne; The Lost Cap, Pryor Warren; Poverty, William Soden; Quits, Dan Gunning; Since We Got the Mortgage, Zella Glacken; He Did Not Think, Edie Poetering. A Little Girl, Pearl Parker; Goin' Huntin' In the Fall, Coleman Lassing.

Each pupil spoke with the greatest ease; the delivery of each was excellent, and especially that of Coleman Lassing, who will some day be a great orator.

The visitors present were, Mrs. Ryan and daughter, Della; Misses Norval and Elizabeth Redinger; Miss Stella Taylor, Miss Fannie Long, Miss Emily Hughes, Miss Effie Cleek; Messrs. C. F. Blankenbeker, W. L. Norman and John R. Parker. Each one was very much impressed with the exercises.

Miss Fannie Cleek should be proud of having such bright pupils.
J. R. PARKER.

The special term of the Boone Circuit Court convened Monday morning with Judge Lassing on the bench. The petit juries for the term were organized as follows:

No. 1.—Thos. Rouse, Merit Sullivan, Keeler Stephens, O. W. Gaines, William Clore, Chas. Cleek, J. M. Baker, W. C. Goodridge, Z. T. Kelley, E. Franks, H. C. Duncan, Clay Baker.

No. 2.—H. C. Presser, Geo. W. Ossman, C. D. Scothorn, S. L. Craven, Mike O'Hara, E. M. Holton, M. Knaley, E. H. Blankenbeker, Granville Rouse, Geo. McGlasson, Joe Brown, Holland Goodridge.

In the afternoon Col. William Lindsay, of Owenton, was elected special judge for the term, when the Powers will case was called, and the trial of that case is now in progress.

WANTED — Furs.— Top prices for prime Skunk, Raccoon, Mink and Opossum. H. KIRKPATRICK,
Burlington, Ky.

VISIONS OF THE NIGHT

Dr. Talmage Shows How God Has Honored the Dream.

It Has Decided the Fate of Nations and Has Changed Course of World's History—Warnings from God.

[Copyright, 1901, by Louis Klopsch, N. Y.]

In this discourse Dr. Talmage discusses a much talked of subject, and one in which all are interested. The text is Joel 2, 28: "I will pour out my spirit upon all flesh; your old men shall dream dreams, your young men shall see visions."

In this photograph of the millennium the dream is lifted into great conspicuity. You may say of a dream that it is nocturnal fantasm or that it is the absurd combination of waking thoughts, and with a slur of intonation you may say: "It is only a dream," but God has honored the dream by making it the avenue through which again and again He has marched upon the human soul, decided the fate of nations and changed the course of the world's history. God appeared in a dream to Abimeleeh, warning him against an unlawful marriage; in a dream to Jacob, announcing by the ladder set against the sky full of angels the communication between earth and heaven; in a dream to Joseph, foretelling his coming power under the figure of all the sheaves of the harvest bowing down to his sheaf; to the chief butcher, foretelling his disimprisonment; to the chief baker, announcing his decapitation; to Pharaoh, showing him first the seven plenty years and then the seven famine-struck years, under the figure of the seven lean cows, devouring the seven fat cows; to Solomon, giving him the choice between wisdom and riches and honor; to a warrior, under the figure of a barley cake smiting down a tent, encouraging Gideon in his battle against the Midianites; to Nebuchadnezzar, under the figure of a broken image and a hewn-down tree, foretelling the overthrow of His power; to Joseph of the New Testament, announcing the birth of Christ in his own household, and again bidding him fly from Herodic persecutions; to Pilate's wife, warning him not to become complicated with the judicial overthrow of Christ.

We all admit that God in ancient times and under Bible dispensation addressed the people through dreams. The question now is, does God appear in our day and reveal Himself through dreams? That is the question everybody asks, and that question I will try to answer. You ask me if I believe in dreams. My answer is, I do, but all I have to say will be under five heads.

Remark the First.—The Scriptures are so full of revelations from God that if we get no communication from Him in dreams we ought, nevertheless, to be satisfied.

With 20 guidebooks to tell you how to get to New York or Pittsburg or London or Glasgow or Manchester do you want a night vision to tell you how to make the journey? We have in this Scripture full direction in regard to the journey of this life and how to get to the celestial city, and with this grand guidebook, this magnificent directory, we ought to be satisfied. I have more faith in a decision to which I come when I am wide awake than when I am sound asleep. I have noticed that those who give a great deal of their time to studying dreams get their brains addled. They are very anxious to remember what they dreamed about the first night they slept in a new house. If in their dream they take the hand of a corpse, they are going to die. If they dream of a garden, it means a sepulcher. If something turns out according to a night vision, they say: "Well, I am not surprised. I dreamed it." If it turns out different from the night vision, they say: "Well, dreams go by contraries." In their efforts to put their dreams into rhythm they put their waking thoughts into discord. Now, the Bible is so full of revelation that we ought to be satisfied if we get no further revelation.

If there should come about a crisis in your life upon which the Bible does not seem to be sufficiently specific, go to God in prayer and you will get especial direction. I have more faith, 99 times out of 100, in directions given you with the Bible in your lap and your thoughts uplifted in prayer to God than in all the information you will get unconscious on your pillow.

Remark the Second.—All dreams have an important meaning. They prove that the soul is comparatively independent of the body. The eyes are closed, the senses are dull, the entire body goes into a lethargy which in all languages is used as a type of death, and then the soul spreads its wing and never sleeps. It leaps the Atlantic ocean and mingles in scenes 3,000 miles away. It travels great reaches of time, flashes back 80 years, and the octogenarian is a boy again in his father's house. If the soul, before it has entirely broken its chain of flesh, can do all this, how far can it leap, what circles can it cut, when it is fully liberated? Every dream, whether agreeable or harassing, whether sunshiny or tempestuous, means so much that, rising from your couch, you ought to kneel down and say: "O God, am I immortal? Whence? Whither? Two natures. My soul caged now—what when the door of the cage is opened? If my soul can fly so far in the few hours in which my body is asleep in the night, how far can it fly when my body sleeps the long sleep of the grave?" Oh, this power to dream, how startling, how overwhelming! Immortal, immortal!

Remark the Third.—The vast majority of dreams are merely the result of disturbed physical conditions and are not a supernatural message. Job had carbuncles, and he was scared in the night. He says: "Thou scarest me with dreams and terrifiest me with visions." Solomon had an overwrought brain, overwrought with public business, and he suffered from erratic slumber, and he writes in Ecclesiastes: "A dream cometh through the multitude of business." Dr. Gregory, in experimenting with dreams, found that a bottle of hot water put to his feet while in slumber made him think he was going up the hot sides of Mount Etna. Another morbid physician, experimenting with dreams, his feet uncovered through sleep, thought he was riding in an Alpine diligence. But a great many dreams are merely narcotic disturbances. [illegible] that you see while under the influence of chloral or brandy or hasheesh or laudnuum is not a revelation from God.

Do not make narcotic disturbance for Divine revelation. But I have to tell you that the majority of the dreams are merely the penalty of outraged digestive organs, and you have no right to mistake the nightmare for heavenly revelation. Late suppers are a warranty deed for bad dreams. Highly spiced salads at 11 o'clock at night, instead of opening the door heavenward, open the door infernal and diabolical. You outrage natural law, and you insult the God who made those laws. It takes from three to five hours to digest food, and you have no right to keep your digestive organs in struggle when the rest of your body is in somnolence. The general rule is, eat nothing after six o'clock at night, retire at ten, sleep on your right side, keep the window open five inches for ventilation, and other worlds will not disturb you much. By physical maltreatment you take the ladder that Jacob saw in his dream and you lower it to the nether world, allowing the ascent of the demoniacal. Dreams are midnight dyspepsia. An unregulated desire for something to eat keeps it ruined. The world during 6,000 years has tried in vain to digest that first apple. The world will not be evangelized until we get rid of a dyspeptic Christianity. Healthy people do not want this cadaverous and sleepy thing that some people call religion. They want a religion that lives regularly by day and sleeps soundly by night. If through trouble or coming on of old age or exhaustion of Christian service you cannot sleep well, then you may expect from God "songs in the night," but there are no released communications to those who willingly surrender to indigestibles." Napoleon's army at Leipsic, Dresden and Borodino came near being destroyed through the disturbed gastric juices of its commander. That is the way you have lost some of your battles.

Waking thoughts have their echo in sleeping thoughts. If a man spend his life in trying to make others happy and is heavenly minded, around his pillow he will see cripples who have got over their crutch and processions of celestial imperials and hear the grand march roll down from drums of Heaven over jasper parapets. You are very apt to hear in dreams what you hear when you are wide awake.

Now, having shown you that, having a Bible, we ought to be satisfied with not getting any further communication from God, and having shown you that all dreams have an important mission since they show the comparative independence of the soul from the body, and having shown you that the majority of dreams are a result of disturbed physical conditions, and having shown you that our sleeping thoughts are apt to be an echo of our waking thoughts, I come now to my fifth and most important remark, and that is to say that it is capable of proof that God does sometimes in our day and has often since the close of the Bible dispensation appeared to people in dreams.

All dreams that make you better are from God. How do I know it? Is not God the source of all good? It does not take a very logical mind to argue that out. Tertullian and Martin Luther believed in dreams. The dreams of John Huss are immortal. St. Augustine, the Christian father, gives us the fact that a Carthaginian physician was persuaded of the immortality of the soul by an argument which he heard in a dream. The night before his assassination the wife of Julius Caesar dreamed that her husband fell dead across her lap.

It is possible to prove that God does appear in dreams to warn, to convert and to save men. My friend, a retired sea captain and a Christian, tells me that one night while on the sea he dreamed that a ship's crew were in great suffering. Waking from his dream, he put about the ship, tacked in different directions, surprised everybody on his vessel—they thought he was going crazy—sailed on in another direction hour after hour and for many hours until he came to the perishing crew and rescued them and brought them to New York. Who conducted that dream? The God of the sea.

Rev. Dr. Bushnell in his marvelous book entitled "Nature and the Supernatural," gives the following fact that he got from Capt. Yount in California, a fact confirmed by many families: Capt. Yount dreamed twice one night that 150 miles away there was a company of travelers fast in the snow. He also saw in the dream rocks of peculiar formation, and, telling this dream to an old hunter, the hunter said: "Why, I remember those rocks. Those rocks are in the Carson valley pass, 150 miles away." Capt. Yount, impelled by this dream, although laughed at by his neighbors, gathered men together, took mules and blankets and started out on the expedition, traveled 150 miles, saw those very rocks which he had described in his dream, found the suffering ones at the foot of those rocks and brought them back to confirm the story of Capt. Yount. Who conducted that dream? The God of the snow, the God of the Sierra Nevadas.

God has often appeared in resource and comfort. You have known people—perhaps it is something I state in your own experience—you have seen people go to sleep with bereavements inconsolble, and they awakened in perfect resignation because of what they had seen in slumber. Dr. Cranage, one of the most remarkable men I ever met—remarkable for benevolence and great philanthropies—at Wellington, England, showed me a house where the Lord had appeared in a wonderful dream to a poor woman. The woman was rheumatic, sick, poor to the last point of destitution. She was waited on and cared for by another poor woman, her only attendant. Word came to her one day that this poor woman had died, and the invalid of whom I am speaking lay helpless upon the couch, wondering what would become of her. In that mood she fell asleep. In her dreams she said the angel of the Lord appeared and took her into the open air and pointed in one direction, and there were mountains of bread, and pointed in another direction, and there were mountains of butter, and pointed in another direction, and there were mountains of all kinds of worldly supply. The angel of the Lord said to her: "Woman, all these mountains belong to your Father, and do you think He will let you, His child, hunger and die?" Dr. Cranage told me by some Divine impulse he went into that destitute home, saw the suffering there and administered unto it, caring for her all the way through. Do you tell me that that dream was woven out of earthly mudvnes? Was that the phantasmagoria of a disensed brain? No. It was an all sympathetic God addressing a poor woman through a dream.

Furthermore, I have to say that there are people who were converted to God through a dream. Rev. John Newton, the fame of whose piety fills all Christendom, while a profligate sailor on shipboard in his dream thought that a being approached him and gave him a very beautiful ring and put it upon his finger and said to him: "As long as you wear that ring you will be prospered; if you lose that ring, you will be ruined." In the same dream another personage appeared and by a strange infatuation persuaded John Newton to throw overboard that ring, and it sank into the sea. Then the mountains in sight were full of fire, and the air was lurid with consuming wrath. While John Newton was repenting of his folly in having thrown overboard the treasure another personage came through the dream and told John Newton he would plunge into the sea and bring that ring up if he desired it. He plunged into the sea and brought it up and said to John Newton: "Here is that gem, but I think I will keep it for you lest you lose it again." And John Newton consented, and all the fire went out from the mountains, and all the signs of lurid wrath disappeared from the air, and John Newton said that he saw in his dream that that valuable gem was his soul and that the being who persuaded him to throw it overboard was Satan and that the one who plunged in and restored that gem, keeping it for him, was Christ. And that dream makes one of the most wonderful chapters in the life of that most wonderful man.

Rev. Herbert Mendes was converted to God through a dream of the last judgment, and many of us have had some dream of that great day of judgment which shall be the winding up of the world's history. If you have not dreamed of it, perhaps to-night you may dream of that day. There are enough materials to make a dream—enough voices, for there shall be the roaring of the elements and the great earthquake; enough light for the dream, for the world shall blaze; enough excitement, for the mountains shall fall; enough water, for the ocean shall rear; enough astronomical phenomena, for the stars shall go out; enough populations, for all the races of all ages will fall into line of one of two processions, the one ascending and the other descending, the one led by the rider on the white horse of eternal victory, the other led on by Apollyon on the black charger of eternal defeat. The dream comes on me now, and I see the lightnings from above answering the volcanic disturbances from beneath, and I hear the long reverberating thunders that shall wake up the dead, and all the seas, lifting up their crystal voices, cry: "Come to judgment!" and all the voices of the heaven cry: "Come to judgment!" and crumbling mausoleum and Westminster abbeys and pyramids of the dead with marble voices cry: "Come to judgment!" And the archangel seizes an instrument of music which has never yet been sounded, an instrument of music that was made only for one sound, and, thrusting that mighty trumpet through the clouds and turning it this way, he shall put it to his lip and blow the long, loud blast that shall make the solid earth quiver, crying: "Come to judgment!"

"Then from this earthly grossness quit,
Attired in stars, we shall forever sit."

Would Go with Mamma.

Little Girl (to visitor)—My papa's a good man. He'll go to Heaven, won't he?

Visitor—Oh, yes, indeed, and are you going to Heaven, too?

Little Girl—Oh, no! I'm going with mamma.—Detroit Free Press.

QUAIL ON TOAST IN THE ROUGH

Blackbirds in the Crate, But They Were Destined to Serve a Higher Purpose.

Number 131 was conveying an unusual load. About 60 shallow crates, mere skeleton boxes made of elm laths, were piled one on top of the other and all securely lashed to the body of the dray, says the New York Times.

Out between the slats protruded heads that clucked and cackled and hissed and chattered as the heavy vehicle lumbered over the holes of East Seventeenth stret, says the New York Times.

The ducks and geese in the large crates at the bottom put themselves on record volubly as strenuously opposed to the motion. The hens and chickens above encored the opposition to a fowl. The meek-looking pigeons at the top simply gazed around and wobbled piteously as the great pile lurched into a rift in the roadbed. Theirs was the dumb pantomime of protest.

The drayman pulled up at the corner of Third avenue to allay his thirst, and a small coterie of the curious gathered about the load. A little girl in a red shawl started the fun when she spied a crate of small dark birds up among the pigeons.

"Say, Bill, what's them?" she asked of a lounger who stood by smoking a pipe.

"Dunno," answered he of the dusky brier.

"Looks like crows."

"Naw, them's too little for crows," vouchsafed a new recruit, with a cigarette and an air of precocious wisdom. "Crows is as big as—as ducks."

"What are they, then, smarty?" crushingly asked the maid of the shawl.

"Them's peasants, English peasants, like the king shoots at an' misses." Such knowledge of the ways of monarchy was convincing. Certainly they were "peasants."

Just at this stage along came Antoine, the French chef from the cafe around the corner, and pretty Antoinette beside him.

"Oh, look at the pretty blackbirds!" she cried. "What are they going to do with them?"

Antoine smiled—a wicked smile.

"Maybe they're blackbirds to-day—but they'll be 'quail on toast' to-morrow!" he said.

FRILLS OF FASHION.

Some of the Late Novelties That Are Popular with Up to Date Dressers.

The one new lace which stands out very prominently among all the various kinds in use is the filet, a Breton specialty, which is sort of embroidery on a foundation of very fine fish net made of very fine thread, and this has brought square meshed nets of all kinds into fashion, says the New York Sun.

It is a lace which is made by the Breton peasant women, and it is considered a great luxury for them to keep any of it in their possession. When they do have a bit of it they hand it down as a precious family relic from generation to generation.

It is one of the leading laces this season and it comes in a variety of widths. You see it, too, combined with other kinds of lace and also made of silk.

Heavy silk Chiny in shades of brown, cream and pale tan is another specialty shown in wide insertions for trimming cloth gowns in the same colors. Filet lace and Irish crochet are certainly the most fashionable laces just at the moment, but there is a long list from which to choose, all the same. The craze seems to be especially for laces of national origin, and this is true, also, of embroideries. Japanese, Chinese and Roumanian embroideries are all in demand for band trimmings.

Long fine silver chains are worn again. They must be very fine to meet with fashion's approval and have one single unset gem of some sort suspended therefrom.

The latest thing in umbrella handles is enameled in white, and it is the fashionable white frocks which are responsible for this fad. The design may be the head of a swan or a white duck, or perhaps an Angora cat with jeweled eyes. This fancy will bring ivory handles into vogue again.

Glass and China.

Just how much glass and china a housekeeper needs is a problem. There are few more complete satisfactions in a matron's life, and, too, in the life of young girls, than those of presiding at a well-appointed table. The woman who does not care, is satisfied to have the service put up on "every which way," and breakfast, lunch and dinner look monotonously the same day following day, is a woman who has missed much. Change in table arrangements, as in the food itself, is one of the marks of refinement. While the depth of the purse signifies much, this is not all. On little means and on a small stock a great deal can be done. The china and glass closet should have its corner of appropriation in the family purse, for however modest an amount. The clever housekeeper picks up bits now and again. Her wants are constant, for by means of slight changes, a little purchase here, another there, she can reach if not the ideal, at least a high standard.—Mary Graham, in Woman's Home Companion.

Potato Puffs.

Pare and boil potatoes until done, then mash with two tablespoons of butter, the besten yolk of one egg, one-half cup of milk and salt, pepper and parsley to taste. Beat until light and smooth. Fold in the beaten white of egg, and with a large spoon fill greased pan with individual puffs, leaving the tops ragged and uneven. Put into the oven to brown. Carefully remove from pan to platter with a cake turner.—Good Housekeeping.

INTERESTING STATE NEWS.

HIS BIENNIAL REPORT.

Many Changes in the Kentucky School Laws Are Recommended By the State Superintendent.

Frankfort, Ky., Nov. 30.—State Superintendent of Schools McChesney has completed his biennial report, and makes the following recommendations to the legislature: That the third-class teacher certificate be abolished; that the individual school districts be clothed with authority to vote on a proposition to levy tax for building schoolhouses; that the county be made the unit for the taxation; that the present trustee system be so changed as to have only one trustee in a district, appointed by a county board of education, this county board of education to consist of the county superintendent and one member from each magisterial district, elected by the people on the regular quadrennial election, the members to give bond for the faithful performance of duty, and to be paid $3 per day for such days as they are actually in session, the number of days they can be in session in one year to be limited by statute, the board to be clothed with authority to build all schoolhouses, purchase all material for same and to purchase all furniture and apparatus; also, to have authority to employ all teachers, except in graded school districts.

ELECTRIC ROAD A GO.

Predicted That Cars Will Be Running Between Newport and Alexandria By Next Fall.

Newport, Ky., Nov. 29.—An enthusiastic and well attended meeting was held at the Alexandria couthouse Thursday afternoon, in furtherance of the scheme to construct an electric railway between Newport and that place. Col. A. S. Berry, Judge M. J. Brown, Engineer J. J. Weaver, of Ludlow, and Engineer Wayman, of the Cincinnati & Lawrenceburg Traction Co., attended the meeting and gave the necessary information as to the best route, probable cost, etc. Col. Berry was the principal speaker, and he predicted that before the leaves fell again trolley cars will be making regular trips to the county seat.

OHIO & KENTUCKY RAILROAD.

The General Offices Will Be Removed From Lexington to Cannel City in a Few Days.

Lexington, Ky., Nov. 30.—Announcement was made Friday that the general offices of the Ohio & Kentucky railroad, which penetrates Eastern Kentucky coal fields and connects with the L. & E. road at Jackson, will next week be moved from Lexington to Cannel City, Ky., the terminal. This town will be incorporated and a post office established soon. R. M. Broas, general manager of the road, has tendered his resignation. A successor has not been selected.

CONSIGNED TO THE GRAVE.

The Minister Who Recently Married Stuart R. Young Preached the Suicide's Funeral.

Louisville, Ky., Nov. 30.—The body of Stuart R. Young was consigned to a suicide's grave in Cave Hill cemetery Friday morning. Funeral services were conducted in the residence of his father, Col. Bennett H. Young, by Dr. Charles R. Hemphill, whose church Young attended. Only a few short months ago Stuart Young stood before Dr. Hemphill to be married to a radiantly beautiful woman.

Seized With Convulsions.

Henderson, Ky., Nov. 28.—United States Commissioner J. T. Motely, of Bowling Green, while waiting for a train at the station here at 8 o'clock Wednesday morning, was seized with convulsions. He was hurried to a sanitarium, where he was found to be in a dangerous condition. The physicians have not thus far diagonsed the illness.

Will Go to Jail.

Central City, Ky., Nov. 30.—President Wood, Vice President Barnaby and Organizers Wilson, Tuck, Oates and Guy, of the Miners' union, drove to Madisonville Friday morning to surrender to the authorities. They claim their bond has been fixed at $1,000, but they will refuse to furnish it and will go to jail.

Annual Fox Hunt.

Crab Orchard, Ky., Nov. 30.—The annual fox hunt which is now in progress is attracting a large crowd of sportsmen, among them being Howard Tracy, of Chicago, president of the National Fox Hunters' association. In the chase Friday morning Gen. Gentry's Topsy captured a red fox ahead of 11 beagles.

Study Baby Feeding of Young Cattle.

Lexington, Ky., Nov. 30.—The United States experiment station at the state college will establish a department of "animal husbandry." Davis W. May, of the department of agriculture, Washington, will have charge of it. "Baby feeding" of young cattle will be studied.

Death of Dr. Thos. H. Mason.

Whitestown, Ky., Nov. 28.—Dr. Thos. H. Mason, a schoolteacher known all over Eastern Kentucky, Virginia and West Virginia, is dead, aged 77 years.

RAILROAD COMMISSION.

Work of Assessing the Tangible Property of the Railway Companies Has Been Completed.

Frankfort, Ky., Nov. 28.—The Kentucky railroad commission completed the work of assessing the tangible property of the railroad companies operating in the state for taxation for the present year. The total valuation on all kinds of property is $52,432,198. This is an increase of $247,411 on the assessment of 1900. The total mileage in the state is 3,099, as against 3,055 last year. About 150 miles of steam and electric road is being built. The report shows the gross earnings for all the roads for 1901 in Kentucky as $23,795,414. Last year the gross earnings amounted to $23,995,523. The net earnings for the year are shown as $7,878,468, a falling off of about $15,000 from 1900. The company to be assessed at the highest figure was the L. & N. railroad, assessed at $40,000 per mile for the main stem. This is no increase over 1900.

THE MINE TROUBLES.

An Official of the United Mine Workers Arrested—Warrants Are Out For Others.

Madisonville, Ky., Nov. 28.—Charles Plackman, colored, member of the official board of the United Mine Workers of America, was arrested Wednesday afternoon on the charge of confederating with other union men for the purpose of intimidating non-union miners. Warrants have been issued for the arrest of other union officials higher in authority than Plackman.

The 21 union prisoners, who have been in jail since the raid on the camp at Nortonville last Sunday morning by the county authorities, were released Wednesday afternoon by the court on their own recognizance.

There were in the union camp at Nortonville Wednesday night about 100 men. The 21 prisoners who were released Wednesday afternoon are in camp now.

W. C. WHITNEY'S HORSES.

Preparations Being Made to Remove Them From Lexington to Rancocas Stud, Jobestown, N. J.

Lexington, Ky., Nov. 29.—Sidney Paget, racing manager for Mr. W. C. Whitney, is here to make arrangements for the transfer of Mr. Whitney's horses from H. P. Headley's Labelle farm to Rancocas stud, Jobestown, N. J. The stud of Mr. Whitney consists of the stallions Im. Meddler, Jean Beraud, Lasack, Hamburg and Bally-hoo Bey, now at Madden's Hamburg place. Sandringham, also at the Madden farm, is said to be owned by Mr. Whitney. Mr. Paget is visiting Hamburg place Thursday, but it is not known if he will move Bally-hoo Bey and Sandringham.

Eating His Hat.

Louisville, Ky., Nov. 30.—Thos. P. Watts, the plumber, who, according to schedule, is to eat a straw hat because he bet on the losing republican ticket in the recent election, says he is performing the feat at the rate of a bite a day. Watts has gained an international reputation by his wager. English, French, German and even Chinese papers have commented on it.

The Howard Murder Trial.

Frankfort, Ky., Nov. 28.—Clerk Ford, of the Franklin circuit court, has issued subpoenas for all of the old witnesses in the murder case of the commonwealth against Jim Howard, and for many new ones, to appear here at the opening of the January term of court.

Burglars Scared Away.

Lancaster, Ky., Nov. 29.—Burglars forced their way into the post office, made an unsuccessful attempt to dynamite the safe and escaped, leaving their tools. They were scared away by the mail carrier, who placed midnight mail in the office. Bloodhounds have been sent for.

Rich Vein of Ochre.

Richmond, Ky., Nov. 28.—There has been found on the farm of T. C. R. Adams, a well-known citizen living at Waco, this county, a vein of ochre. The ore has been analyzed by experts and pronounced of fine quality. Great excitement prevails on account of the rich find.

Illegal Discrepancy.

Louisville, Ky., Nov. 28.—The attention of the board of equalization of city taxes has been directed to the claim that the Kentucky Distilleries and Warehouse Co. pays taxes on only $450,000 worth of property for which, it is said, it paid $3,000,000. The board will investigate.

Shot and Fatally Wounded.

Hopkinsville, Ky., Nov. 29.—Mrs. Lennie Campbell, wife of a colored non-union miner at Empire, was shot in the side and fatally wounded, it is said, by a man named Couch Wednesday night. Her assailant has not been captured.

Shot Him By Mistake.

Hopkinsville, Ky., Nov. 30.—Section Foreman George Carter was shot in the back by Brakeman John Brown, and probably fatally wounded. Brown mistook Carter for a man who had been stealing coal.

TEMPORIZING ON THE TARIFF.

Republicans Exercising Their Ingenuity to Hang On to Monopoly.

It is undoubtedly true, as stated in substance by a Washington correspondent, that leading republicans perceive that their party must sooner or later meet the popular demand for tariff revision or suffer defeat at the polls, says the Chicago Chronicle.

The laborious exercise of their ingenuity in devising methods of temporizing is sufficient proof that they perceive the danger. The problem with them is how to acem to satisfy the popular demand without sacrificing monopoly.

There are three principal solutions of this problem offered. One is the treaty solution. The tariff victims are expected to be satisfied for the time being with a show of activity in negotiating reciprocity treaties. This is supposed to be a safe thing, because it takes a two-thirds vote of the senate to ratify a treaty, and the day when two-thirds of that body will be opposed to the tariff system of monopoly is believed to be far distant.

A second solution is known as the Babcock solution. Mr. Babcock himself explains that he is as much in favor of protection as any republican is. But he maintains that the party must yield to the popular demand so far as not to arm our protected classes with power to extort higher prices from Americans than from foreigners for the same goods. He believes that if this concession is made the people will cease their clamor and patiently submit to any amount of tariff extortion; that they will cheerfully pay two prices to American producers, provided foreigners have to pay two prices for the same articles or go without.

The third solution or mode of saving the tariff monopolists is the commission solution. Senator Aldrich, Senator Spooner and other republican statesmen would have a standing commission of "nonpartisan experts" to "study" the whole subject "scientifically," and report in two or three years and from time to time thereafter, recommending the lowering now of one duty and again of another, and so on ad infinitum.

This is a beautiful mode of temporizing. If the people can be made to believe that the commission is really doing something and that congress will treat its "scientific" recommendations with more than a waste-paper degree of respect, they can be held still for 10 or 20 years, and perhaps forever.

But the "if" in the way is a very large and thorny one. The people will not be fooled a minute by a "scientific," "expert," "nonpartisan" commission nominated by a protectionist president and confirmed by a protectionist senate. They will understand perfectly that a commission so constituted would be expert and scientific in nothing but the business of getting the most for the tariff monopolists and pulling the wool over the eyes of the public. They will understand that it would be nonpartisan only in having two or three carefully chosen Pennsylvania and Louisiana protectionist democrats in its make-up.

Such a commission would no more be able to settle the tariff question than a commission made up of four southern slaveholders and three carefully selected northern doughfaces would have been able to settle the slavery question in 1856.

The whole system of tariff protection is radically unjust. It is morally as well as economically wrong, just as slavery was wrong—morally and every other way. The only way to settle it finally is to dig it up by the roots and cast it ont utterly and forever. All temporizing and palliative schemes will fail, because they will leave the wrong unredressed, the multiform evil unremedied.

POINTED PARAGRAPHS.

——Republican discussion of the tariff issue in the approaching session of congress must logically be of the greatest democratic benefit.—St. Louis Republic.

——The rapidity with which Neely is being punished is only equalled by the celerity with which the Philippine insurrection is being suppressed.—Indianapolis Sentinel.

——The stubborn resistance offered by the high protectionists in congress to the modification of the tariff, by revision or by reciprocity treaties, does not alter the fact, as stated by Mr. McKinley at Buffalo, that we cannot expect to sell all the time and never buy.—Minneapolis Journal (Rep.).

——The souther California fruit exchange has adopted a formal protest against the whole reciprocal idea. The republican politicians are tolerably expert in reconciling conflicting opinions, but how they are to satisfy the low tariff republicans, and at the same time avoid alienating the "protected interests," passes comprehension. Even reciprocity, as an empty name, arouses suspicion and hostility from the beneficiaries of Dingleyism.—Albany Argus.

——There are tariff taxes which ought to be reduced. They are not needed for the protection of any interest. They simply enable the trusts to take higher prices in the home market than they get in foreign markets. The republican party, however, is the friend of trusts, and so long as it can assist them it will do so. No tariff legislation need be expected from this congress. The surplus will be gotten rid of in some other way.—Savannah News.

BEGINNING OF THE FIGHT.

Trouble in the Republican Ranks Over the Tariff Grows More Threatening.

In the movement of certain high protectionist leaders in congress to bring about a reorganization of the house ways and means committee which will eliminate Representative Babcock from that committee there is proof of the exceeding improbability of honest tariff revision under Hanna control, says the St. Louis Republic.

This movement against Babcock, in retaliation for his aggressive efforts in behalf of a general revision of the existing tariff, will have effects reaching beyond the representative thus to be punished. Notice is thereby served on all republicans who dare to oppose the "sacred" principles of high protection that they will be summarily dealt with. They cannot hope for the distinction of place on the more important congressional committees. They will be degraded and belittled in every way possible by the dominant protectionists. The screws will be laid for their defeat in the next congressional elections if this is within the power of the trusts and the trust instruments.

There is an element of strength behind these tariff revision republicans, however, which the protectionists are failing to take into account. The rank and file of republican voters have had their eyes opened to the bunko nature of a high protective tariff. Men like Babcock are not leading the sentiment of their constituencies when they fight for tariff reduction. They are following that sentiment. Republicans of the middle west especially demand a revision of the tariff. The developments of the approaching session of congress will amply prove the truth of this assertion. There should be some significant news from Washington during the progress of this session.

Also, there should be much excellent campaign material manufactured for the profit of the movement in favor of tariff revision. The protectionist tools of the trusts in the present congress may succeed in preventing tariff reduction by throwing down the gage of battle to the revisionists and using the power of the trusts to disarm or utterly crush them, but this prevention will be temporary indeed. The congressional elections of 1902 are destined to be disastrous to the syndicates and to syndicate henchmen in the national congress. Tariff revision, coupled with the trust issue proper, is an exceedingly vital issue. American sentiment demands the reduction of the tariff and the restriction of the trusts under competent governmental supervision.

THERE ARE VARIOUS THEORIES

A Full Treasury and the Probability of a Reduction of Taxation.

When congress assembles next month it will be confronted with a condition and with several theories The condition is an annual surplus of $130,000,000. The theories relate to its prevention or disposal, says the New York World.

A considerable number of men in office favor the shortest and easiest way of dealing with the surplus—that is, spending it. Spending other people's money is always an agreeable occupation to the average politician. There are ways enough, of course. Ship subsidies, an isthmian canal, more pensions, bigger river and harbor appropriations and new public buildings to reelect congressmen, can easily absorb the surplus. But there are important elections in nearly all the states next year, and the wise and prudent leaders of the party in power do not look with favor upon a new carnival of extravagance.

These men, with the president at their head, are likely to recommend a further reduction of the war taxes. But what are the war taxes?

When the war for the union began, 40 years ago, the average tariff was about 28 per cent. Under the stress for revenue, and to counterbalance internal taxes on manufactures, the average duty was raised to 50 or 52 per cent. At the end of the war internal taxes, mainly upon wealth and yielding $300,000,000 a year, were one after the other repealed. But now, though our "infant industries" are 40 years older, the tariff taxes are still up to the highest point of war taxation.

When the war with Spain made more revenue necessary internal taxes were again voted. Last year, when the surplus became troublesome, a part of these taxes was repealed. And now it is proposed by the republican leaders still further to reduce the taxes on whisky, beer and tobacco—vices or indulgences which all civilized governments make the basis of their revenue—and to leave untouched the worse than war taxes on the necessaries of the people, their food, fuel, clothing and shelter; taxes, too, which promote monopolies and permit their beneficiaries to sell cheaper in foreign markets than to home consumers.

This would be better than to continue taxation for a surplus or for extravagance. But is it just? Is it statesmanlike? Is it safe in a country where, after all, the people rule?

——The policy of protection will ultimately strangle itself. The domestic market will not suffice; the foreign market must be entered, and yet we shall not be able to get the benefits of the foreign markets without free, or freer, exchange. We cannot continue to sell commodities abroad in large quantities unless we consent to take commodities from abroad in return.—Portland Oregonian.

QUEER CORPORATION BYLAWS.

Some European Cities and Towns Have Singular Regulations on Their Statute Books.

Although as a rule English and American cities have escaped the freaks, there are exceptional instances in which the hand of the crank is visible. Even London, staid and conservative as a general thing, can show one or two curious enactments. For instance, it is an offense in the city to unload casks of beer between certain hours. Perhaps the reader will say that there is nothing very remarkable about this. The odd part of the bylaw in question is that it says nothing about casks of any other beverage. Presumably, therefore, casks of ginger beer may block the pavements at any and all times.

Glasgow recently enacted that no flower sellers should be allowed in the streets on Sunday, and the town of Dunoon will not permit travelers or holiday makers to land on its piers on the first day of the week.

Padsworth, a village near Pangbourne, has a council that is worthy of all praise. To keep down the local rates it has been decided by that body that wherever it is possible any municipal work should be carried out by the councilors themselves. Four members were recently observed clearing out a drain underneath a public footpath crossing through the mill meadows, so it is evident that this is no case of preaching without practice.

Nothing, however, to be found in the United Kingdom compares in eccentricity with some of the regulations laid down by foreign city authorities. Ems, for instance, the German health resort, enacted as lately as May last that ladies living or staying in the town must not wear trains in the streets. The objection to this practice is that it makes the dust fly. Neither may men smoke in public during the hours when invalids are taking their walks.

At Uelzen, in Luneberg, the city authorities have passed a bylaw which finds more favor with women than with the sterner sex. Husbands must leave their clubs or public houses in time enough to be home by 11 sharp. A fine is the penalty for infringing this regulation, half of it to go to the person—presumably the wife—who makes and proves the complaint.

Lucerne has on its statute book a law which fortunately is not enforced, although it has never been repealed. It prohibits hats more than 18 inches in diameter, forbids the use of artificial flowers and imported feathers and orders that a license of 50 cents a year shall be paid for the right to wear ribbons of silk or gauze.

French towns, too, have their share of curious legislation. We know that France's nightmare is the dwindling of her population. Givet, in the Ardennes, has taken this matter seriously to heart. In future for all city offices fathers of families will be preferred to others, and married men generally before bachelors. More than this, large money prizes will be given yearly to the heads of those families who have sent to school regularly the largest number of children.

Vienna has the severest cycling code of any city in Europe. No one may ride a bicycle in the streets without a certificate of proficiency. This applies especially to lady cyclists. Ladies have to mount and dismount from both sides of their wheels, show that they can turn corners and ride in and out between a number of dummies. All cyclists are photographed by the police, and this photograph is fitted into a little book containing the rules and regulations for cycling in the city. For this book the cyclist must then pay $1. Besides this a huge brass number has to be worn conspicuously placed on the handlebar of the machine.

Making Sure of His Honesty.

As the daily train reached a Vermont village the other day an antique-looking dame thrust her head out of the window opposite the refreshment room and briefly shouted:

"Sonny!"

A bright-looking boy came up to the window.

"Little boy," she said, "have you a mother?"

"Yes, ma'am."

"Do you go to school?"

"Yes, ma'am."

"And are you faithful to your studies?"

"Yes, ma'am."

"Do you say your prayers every night?"

"Yes, ma'am."

"Can I trust you to do an errand for me?"

"Yes, ma'am."

"I think I can, too," said the lady, looking steadily down on the manly face. "Here is five cents to get me an apple. Remember, God sees you."—Boston Courier.

He Wanted to Explain.

The man up by the front door of the car was badly bowlegged, but no one had noticed it as he entered, and the fact would have entirely escaped observation had he not suddenly queried of the passenger on his left:

"You noticed my legs, of course?"

"Not particularly," was the reply.

"I thought I saw you squinting. My legs are bowed."

"Sorry to hear it."

"But I want you to know how it came about," continued the man. "I wasn't born this way."

"No?"

"No, sir, I wasn't. It has all come to me from having to hitch along on the kitchen roof and climb through a window when the old woman locks me out of nights, and I want the blame placed where it belongs."—Boston Globe.

Thrown from His Cab and Killed.

The following is a most interesting and, in one respect, pathetic tale:—

Mr. J. Pope, 42 Ferrar Road, Streatham, said:

"Yes, poor chap, he is gone, dead—horse bolted, thrown off his seat on his cab he was driving and killed—poor chap, and a good sort, too, mate. It was him, you see, who gave me the half-bottle of St. Jacobs Oil that made a new man of me. 'Twas like this: me and Bowman were great friends. Some gentleman had given him a bottle of St. Jacobs Oil which had done him a lot of good; he only used half the bottle, and remembering that I had been a martyr to rheumatism and sciatica for years, that I had literally tried everything, had doctors, and all without benefit, I became discouraged, and looked upon it that there was no help for me. Well," said Pope, "you may not believe me, for it is a miracle, but before I had used the contents of the half-bottle of St. Jacobs Oil which poor Bowman gave me, I was a well man. There it is, you see, after years of pain, after using remedies, oils, embrocations, horse liniments, and spent money on doctors without getting any better, I was completely cured in a few days. I bought another bottle, thinking the pain might come back, but it did not, so I gave the bottle away to a friend who had a lame back. I can't speak too highly of this wonderful pain-killer."

Influence of Food.

"What do you think of the theory that food has a potent influence in determining character?" asked Mr. Smithfield, as he put three lumps of sugar in his coffee.

"I guess it's all right," replied Mr. Wood, as he severed a portion of his beefsteak. "It always seems a little cannibalistic to me when you order lobster."

"Well," retorted Mr. Smithfield, good humoredly, "I ought to have known it was dangerous to lend you money after I discovered your fondness for beets. But, seriously, if there were anything in the theory, wouldn't it make a man sheepish to eat mutton?"

"It would, and prize fighters ought to restrict themselves to a diet of scraps."—Pittsburg Gazette.

Public Protected.

Hon. Judge Wing of the Federal Court of Cleveland has issued a permanent injunction with costs and damages enjoining a lawyer named Gorey from the manufacture and sale of an imitation of Cascarets. Gorey imitated the boxes, the shape of the tablet and used a similar sounding name. Any dealer who will offer a substitute or say that something "is just as good" when Cascarets are called for, does it for the purpose of making a few cents extra profit, which must always be at the expense of the customer's health.

Cascarets have been advertised freely in our columns and as the result of making them known, Cascarets to-day have the largest sale of any bowel medicine in the world. They are always packed in metal boxes with the long tail on the cover and each tablet stamped C. C. C. They are never sold in bulk or from jars. Readers are warned against imitations or substitutes of this meritorious medicine, and if at any time they have been offered a substitute or an offer to sell something "just as good" when Cascarets have been asked for, write direct to the Sterling Remedy Company, New York or Chicago.

All Together.

"Give me a room with a good fire in it," cried the storm-beaten traveler. "Gee whiz! but I'm wet."

"Yes, sir," said the landlord of the wayside inn.

"And, landlord, bring me a brandy and soda. Gee whiz! but I'm dry!"—Philadelphia Press.

Very Popular Plan.

The route between New York and Chicago by way of the Lackawanna Railroad is growing in popularity. It takes people through some of the finest scenery in America, over splendid roadbeds, in excellent cars that are noted for their fine riding qualities. The dining-car service is worked on the principle of having what you want to pay for nothing else—a plan that is very popular. You may have your meals as cheap or as expensive as you please. Service is on the European plan. Individual dish breakfasts or suppers, calculated to please the most fastidious, are furnished at a minimum cost of 35 cents.

No Limit.

Mrs. Talk—Emma is very fond of embroidery.

Highest Award on Cocoa and Chocolate.

The Judges at the Pan-American Exposition, Buffalo, have awarded three gold medals to Walter Baker & Co. Limited, Dorchester, Mass., for the superiority of their Breakfast Cocoa and all of their cocoa and chocolate preparations, and the excellence of their exhibit.

This is the thirty-seventh highest award received by them from the great expositions in Europe and America.

In Death Valley.

Tourist (on vacation, as he meets a stroller along the road)—I say, you are the first one that I have met in half an hour's walk. Is it always as dead as this in this neighborhood?

Native—Dead? Worse! If it wasn't for an occasional funeral in the place you would not see life here from one end of the year to the other.—N. Y. Times.

Persons contemplating a journey East or West should be careful that the rates paid for their transportation do not exceed those charged by the Nickel Plate Road.

This company always offers lowest rates and the service is efficient. Careful attention is given to the wants of all first and second class passengers by uniformed colored attendants. The dining car service of the Nickel Plate Road is above criticism and enables the traveler to obtain meals at from thirty-five (35) cents to $1.00 but no higher.

The Pullman service is the usual high grade standard. Semi-weekly transcontinental tourist cars ply between Atlantic and Pacific Coasts. Confer with nearest agent of the Nickel Plate Road.

Keeping the Secret.

Old Bachelor Uncle—Well, Charlie, what do you want now?

Charlie—Oh, I want to be rich.

"Rich! Why so?"

"Because I want to be petted. Ma says you are an old fool, but must be petted, because you are rich. But it's a great secret, and I mustn't tell it!"—Stray Stories.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

A Shrewd Man.

Gooph—Old Gettit is a smooth customer. Whoop—So they say.

"Did you ever hear about the time Boomville offered a subsidy for manufacturing establishments, and he planted a rhubarb field and got it on the fund, because he was promoting several pie plants."—Baltimore American.

On Dec. 3rd and 17th the Norfolk & Western Ry. will sell round trip tickets from Cincinnati and Columbus to points in the Virginias and Carolinas at greatly reduced rates.

For all information as to rates, address Allen Hull, D. P. A., 45 E. 4th St., Cincinnati.

Johnny—"What is an adage?" Pa—"An adage is an epigrammatic sophistry manufactured to prevent one from doing something he wants to do or to induce him to do something he doesn't."—Boston Transcript.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. Thos. Robbins, Maple Street, Norwich, N. Y., Feb. 17, 1900.

"This," remarked the minister, after officiating at the double wedding, "is what we call a ring two and two together."—Cincinnati Observer.

Dropsy treated free by Dr. H. H. Green's Sons, of Atlanta, Ga. The greatest dropsy specialists in the world. Read their advertisement in another column of this paper.

Some men can always see great profit in other people's business. Then they go in, and lose money.—Atchison Globe.

PUTNAM FADELESS DYES are as easy to use as soap. No muss or failures.

Some people can't even manage to go up like a rocket.—Puck.

GUN POWDER

AN OPEN LETTER

Address to Women by the Treasurer of the W. C. T. U. of Kansas City, Mrs. E. C. Smith.

"My Dear Sisters:—I believe in advocating and upholding everything that will lift up and help women, and but little use appears all knowledge and learning if you have not the health to enjoy it.

MRS. E. C. SMITH.

"Having found by personal experience that **Lydia E. Pinkham's Vegetable Compound** is a medicine of rare virtue, and having seen dozens of cures where my suffering sisters have been dragged back to life and usefulness from an untimely grave simply by the use of a few bottles of that Compound, I must proclaim its virtues, or I should not be doing my duty to suffering mothers and dragged-out housekeepers.

"Dear Sister, is your health poor, do you feel worn out and used up, especially do you have any of the troubles which beset our sex, take my advice; let the doctors alone, try **Lydia E. Pinkham's Vegetable Compound**; it is better than any and all doctors, for it cures and they do not."—Mrs. E. C. Smith, 1212 Oak St., Treasurer W. C. T. U., Kansas City, Mo.—*$5000 forfeit if above testimonial is not genuine.*

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

NEIGHBORHOOD NEWS.

RABBIT HASH.—Hunters are annoying the farmers here very much regardless of threats to prosecute. Five from the city are camped just above town for a four weeks hunt.

Hubert Brady was hunting here last week. He killed 25 birds.

Your scribe has been confined to his bed the past week with bronchitis.

Mrs. Perry Cloce, of Grant, took Thanksgiving dinner with Ben Wilson and wife.

The river is rising very fast. The paper says that lots of coal will come out in consequence.

Rev. Dr. Adams preached Miss Kate Kittley's funeral at the East Bend Baptist church Sunday morning Nov. 1st.

Murray Ryle gave a dance Thanksgiving night, which was attended by the young people of two neighborhoods.

Solon Ryle left on Saturday morning to go to work at Hamilton, Ohio. His many friends here will miss him very much.

A wild woman visited the school at Maple Hill, one day last week, and frightened the teacher and scholars nearly out of their wits.

The friends and relatives of J. H. Walton and wife spent the day with them Thursday, and helped them dispose of a turkey and many other goodthings. Your scribe was not able to be present but was remembered with a box of the good things.

Quite an excitement was occasioned here Sunday morning by John S. Finley, towboat, breaking up a fleet of loaded barges on the bar. Two barges were broken in 4 pieces and sunk, and four remained on the bar. People from both sides of the river flocked to the scene.

2-2

BELLEVUE.—Oscar Bolts and wife, of Rising Sun, are visiting Mrs. Bolts' father, Colonel Moody.

Mrs. J. R. Akins is quite poorly.

Miss Ida Bosmore spent Thanksgiving, in the city.

Turkeys here spent a happy Thanksgiving, as but few were called on to adorn the table.

Next Sunday Elder E. T. Hays will preach in the Christian church here, morning and evening.

Henry Smith and wife, of Ashby Fork, were guests, last Saturday and Sunday of G. T. Rue and wife.

Mrs. J. A. Kitley, of the Bull Itsburg neighborhood, was visiting Mrs. Lamora Huey, a couple days last week.

Botts & Settle are doing well with their sawmill. They have received calls from different points to come and saw.

Uncle Sam seems to be as well pleased as we are here with the way our young friend, O. N. Grant, is conducting the P. O.

Miss Mary Huey returned home last week from a couple of weeks visit with her brother, Frank and family, at Muncie, Indiana.

Dony Cook lost his only horse last Thursday night. It was kicked by another horse. It lived about 10 hours after being kicked.

J. J. Walton and Henry Clore traded their store property and goods to Uncle Michael Clore for his farm on the East Bend and Burlington road, known as the Lawell farm.

The people are becoming so interested in the proposed mail route from Burlington to this place, a petition for signers will be presented to them at once. They see it is the best for all and some want the telephone added on.

2-2

RICHWOOD.—Harry Tanner will entertain the Frogtown people at the school house with his Graphaphone this week.

William Glackin is much better.

Mr. Collins is very much improved.

J. T. Powers spent Thanksgiving at Verona.

D. B. Dobbins is out, after a slight indisposition.

Clarence Tanner has engaged in the butcher business.

John Tanner and family visited in Covington, Friday and Saturday.

Some miscreant stole 13 of Joseph Laile's turkeys, Wednesday evening.

Theodore Carpenter and wife visited Mrs. Sallie Waller at Verona, last week.

O. F. Glackin had 8 lambs to disappear from his flock near here, recently.

The goose bone and loose shuck fiends have begun to predict a mild winter. So be it.

John R Carpenter has had several lambs to die from the effect of stomach worms.

William Woodward and wife spent Thanksgiving with Mr. and Mrs. John R. Carpenter.

Frank Benham, of Banklick, died Thursday. Buried at the Glackin cemetery, Sunday.

By actual count 37 hunters came out on the accommodation train, Thanksgiving morning.

Excelsior Grange members are asked to be present on the 7th inst., as it is annual election day.

E. L. Glackin left Sunday for a visit to his sister, Mrs. Ira Aylor, at Payne's Depot, Scott county.

Mr. John Harris' body was moved from the vault at Independence, last Sunday, and buried.

Col. John R. Whitson is sojourning in our midst. He is becoming famous as a typoid fever nurse.

Mr. and Mrs. M. Grubbs, Miss Ida and Walter spent Thanksgiving day at Mr. and Mrs. M. L. Tanner's.

J. T. Powers has been hustling this week, preparing for the Powers will case, docketed for trial Tuesday.

The Beaver Lick scribe's suggestion as to a rigid rabbit law, is worthy of attention for the people through the legislature.

Miss Ida Grubbs entertained Miss Olga Kirkpatrick, of Burlington, and Messrs. Lane Riggs and Hal Blanton, of Erlanger, Sunday.

2-2

WALTON.—Just now the water famine which is pinching this region more severely than was ever before known, is troubling housekeepers more keenly than the danger of fires. Why, the ground is so dry that it is a wonder it don't take fire and burn.

Mrs. H. C. Dietz, of Harrison, O., was visiting friends here last week. So also was her daughter Mrs. Lora Wills, of Ludlow.

Geo. W. Nicholson, contractor for the Odd Fellows Building hopes to get it raised on Monday the 9th inst. It would not astonish the people to any great extent if the weather, which has been propitious for so long a time, should suddenly become tempestuous.

"Alas! what dangers do environ,
Those who meddle with cold iron."

Harry Houston, 12 or 13, was handling a flobert rifle the other day, when it went off and put a bullet thru his hand, admonishing him to be more cautious in the future.

John Stamler went out rabbit hunting, last week, and was trudging manfully over a hill when a gun was discharged on the other side and some shot hit him about the head. John was not hurt much, but the shot, if they could be found, very probably would be flattened.

The members of the Walton brass band are energetically rehearsing for a minstrel show for christmas eve and christmas night. The entertainment will be a treat to those who attend. It will be strictly up-to-date. Some of the latest "coon sketches" will be introduced, intermingled with popular music and songs. Come and laugh to encourage the boys. The minstrels are in charge of H. L. Eskew and H. B. Noell, which insures its success.

Dr. Brice F. Metcalfe hands in the following: "A short time ago Ed Mann came out from Ludlow to take a hunt, bringing with him his noted setter, Joe. When the hunt was over Joe was tied up and left with Perry Rouse on the Metcalfe farm on Bank Lick, some three or four miles from here. One morning soon afterwards, Joe showed up in Walton and going to the commuter hopped into the baggage car and rode to Cincinnati. When the commuter started at 11:30 a. m., Joe, who had not found Ed and had probably become hungry, rushed into the depot and finding the commuter ready to pull out jumped into the baggage car and came to Walton, where he got off and made a straight course for the Metcalfe farm. The doctor thought the performance a wonderful exhibition of canine sagacity." It was, the dog had been brought out on that train and knew it.

Two hearses were on the air, Sunday morning. What did it mean? Yes, there were two, and it means that from now on there will be opposition to the old firm of Edwards Bros. in the undertaking business, and it is given out that funerals will be conducted at cut rates, independent of the Undertakers' Union.

Thanksgiving day was duly observed by our citizens and the quality of the turkeys was discussed at the tables of nearly all the citizens. The consensus of opinion leads one to believe that turkey is a very well spoken of, especially when accompanied with oysters and cranberry sauce.

Our esteemed friend, S. L. Edwards, has started a new industry which he devotes much of his spare time and any amount of patient industry. His principal fad just now is the propagation and development of the Belgian hare, he has 25 or 30 from wee little ones to whoppers. W. H. Metcalfe accompanied us to the breeding quarters and engaged a half dozen to turn out on his place.

PETERSBURG.—Mrs. Henry McWethy is improving.

Mrs. King and son have returned to their home in Carrollton.

The telephone cable that crosses the river here, is out of working order.

Miss Ida Berkshire is quite sick in Covington, where she is visiting.

Mrs. Perry McNealy has gone to Memphis to spend the winter.

Miss Yerkes, who was stricken with heart disease, last Sunday, is improving.

Misses Sallie and Martha Snyder, of Louisville, are guests of Miss Lou Alden.

Miss Pearl Crisler celebrated her 20th birthday with a big party, Saturday night.

An out house belonging to Homer Grant burnt a few days ago. The loss was small.

Mrs. Peak, of Memphis, after a visit of several weeks here has returned to he home.

Geo. Weindell has been promoted to the position of Master of Arms on the battleship Massachusetts.

Dr. Elijah Grant is 85, A. Dean, 84 and aunt Sallie Wingate, 91. They are all enjoying good health.

A letter from Henry Terrill says he and his family arrived at their destination, and are well pleased.

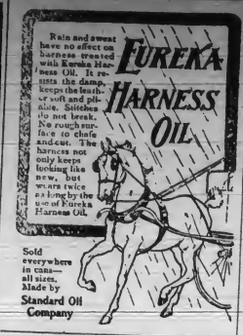
Bert Pease, while practicing for a game of foot ball, got one of his shoulder blades broken in two places.

Mrs. Esther Kirtley, who was the guest of W. O Kirtley and wife, has returned to her home in Covington.

The ball at Gordon's Hall, Thanksgiving night was the largest affair of that kind in the history of the town.

Everett Helms was bitten on his nose by some kind of a poisonous insect, a few nights ago, since which he has looked like he had been in a fight to a finish.

A large crowd assembled to witness the game of foot ball which was not played out. Lawrenceburg claimed a touchdown, which the umpire would not grant, and the Indianians left the field. Petersburg claims the game 5 to 0—The same teams will play at Aurora next Saturday for $25 a side.



The most enjoyable social affair of the season was a reception given by the gallant gents of this town at the home of Dr. J. M. Grant, Friday evening. At 9:30 a delicious repast was served, consisting of five courses. The dinning room was handsomely and artistically decorated with flowers. After supper music and games were enjoyed.

COUGHS AND COLDS IN CHILDREN.

Recommendation of a Well Known Chicago Physician.

I used and prescribed Chamberlain's Cough Remedy for all obstinate, constricted coughs, with direct results. I prescribe it to children of all ages. Am glad to recommend it to all in need and seeking relief from colds and bronchial afflictions. It is non-narcotic and safe in the hands of the most unprofessional. A universal panacea for all mankind.—Mrs. Mary R Melendy, M. D., Ph. D., Chicago, Ill. This remedy is for sale by all druggists.

It will astonish you, if you will investigate the Prices at Eskew's Pharmacy, Walton, Ky.

Rain and sweat have no effect on harness treated with Eureka Harness Oil. It resists the dampness, keeps the leather soft and pliable. Stitches do not break. No rough surface to chafe and gall. The harness not only keeps looking like new, but wears twice as long by the use of Eureka Harness Oil.

Teachers' Association.

The Teachers' Association met at Florence on the 23d ult., and the following program was delivered. The meeting was called to order by Supt. Voshell.

Song, "America" by pupils of Florence school; Recitation, "The Negro Soldier," by Morris Thomas; "The Children's Hour," by five girls; "Bobbie Shaftoe," a duet, by Robt. Rouse and Ireda Tanner; Recitation, "Babies and Kittens," Jessie Hampton; Reading, "The Jolly Old Pedagogue," by Morris Thomas; Recitation, "Put Your Shoulder to the Wheel," by Ireda Tanner; Reading, "The Professor in Shafts," by Harry Stephens; "Give us Little Boys a Chance," recitation by four little girls; Solo, "The Star Spangled Banner," by school; Duet, "If I were a Boy," and "If I were a Girl," by Robert Rouse and Ireda Tanner; Song, "The Alphabet Motto," by the school. Adjourned for dinner.

After noon the meeting was called to order and the teachers discussed the following topics:

An interesting discussion on Penmanship was opened by Miss Marie Korn.

Miss Lizzie Vest gave an able talk on Primary Reading.

The interesting subject, History, was opened by Prof. A. M. Yealy, who gave us some interesting ideas.

Taken in all, the meeting was very enthusing and we came away feeling that it was well to have been there.

Misses Korn and Vest certainly have some good material on which to work. We take the smelling of publicly thanking the people of Florence and vicinity for the elegant luncheon which was so acceptable.

The following is the program for the Association to be held at Union on the third Saturday in December.

The verb, Miss Lizzie Roberts; Language, Miss Marietta Riley; Written Arithmetic, Miss Edna McElroy; Mental Arithmetic, Miss Nannie Bristow; A Model Class in Oral Spelling, J. R. Parker; A Model Class in Reading, Miss Ella Norman; An Essay, "Idle Thoughts Along the Pedagogue's Highway," by M. J. Brough; Physiology, Miss Sue G. McWethy; Geography, Miss Jeanette Chambers; Recitation, Miss Lillian Corbin.

Miss Vosbel hopes to make this meeting a great success; so it is hoped that he will not be disappointed.

C. M SUMMERS, Secretary.

The Lawrenceburg Register came out in a new form last week—a six column quarto. The Register will be 66 years old in a few weeks, and like whisky, gets better as it grows older.

BOONE COUNTY RECORDER.

VOL. XXVII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 11, 1901. NO. 8.

THE mildness of the President's message to Congress was a great surprise.

IF the level headed element is in control in the legislature this winter, wholesome legislation will result.

FRANKFORT has begun to assume more life, and will be quite a gay place again for two mouths beginning January 1.

To make up the deficiency in wheat and rye it is estimated that Germany will import this year 3,000,000 tons of wheat and 1,000,000 tons of rye.

THREE of the candidates for United States Senator in this State are figuring how they are going to defeat McCreary, who is going quietly along, feeling sure of the caucus nomination.

THE Hanna and Foraker wings of the Republican party in Ohio are at war again, and every leading Republican in the Buckeye State has a knife up his sleeve for someother Republican.

JUDGING from the pictures of the members of the next legislature, as published by the Courier-Journal, the Hon. J. W. Kennedy, of this county, will be a long ways above the average member in the matter of ability.

WITH the Republicans who want office, and they are largely in the majority in their party, the civil service law is the most distasteful law in existence, and the President's known admiration of civil service is causing them much concern.

BEFORE Leiberth could land the Collectorship he had to call to his assistance Congressman Gooch and ex-Congressman Berry. The trouble was the Republicans had represented eachother as such infernal prevaricators that Teddy would believe the statements of none of them.

THE Georgetown News issued an industrial edition, last week, of immense dimensions, and carried the speech of Commonwealths Attorney Franklin, in the recent trial of Caleb Powers, in supplement form. B. O. Gaines is one of the greatest hustlers on the Kentucky Press.

IN his forthcoming report Auditor Coulter will call attention to the millions of dollars of individual bank deposits in this State that escape taxation. The quarterly reports of the banks to the Auditor show that there is an immense discrepency between the amount of money on deposit in the State banks and that listed for taxation.

EX-GOV. BRADLEY has put his scalping knife in condition for use on Sam J. Roberts, Collector of Internal Revenue in the Seventh [Lexington] District. Roberts was President McKinley's confidential advisor in Kentucky, and as Bradley is determined to wipe from office the entire force of McKinley men in this State, Roberts will have to go.

AS soon as Congressman Gooch spoke to Teddy a few words in the interest of Leiberth, the holdup of the appointment was declared off, and the President's private secretary directed to send the appointment to the Senate for confirmation. He considered Mr. Gooch's statement entirely true, as he was a disinterested party of opposite politics.

FROM the estimates of votes in the contest for U. S. Senator that are being sent out from Frankfort, the race looks to be anybody's, and a dead lock for some time in the caucus appears imminent. While he may not have enough votes to land the nomination on an early ballot in the caucus, McCreary's friends believe in his ultimate success.

EX.-GOV. BRADLEY is not going about the country just now throwing bouquets at Commissioner of Internal Revenue Yerkes, but what he is saying in that uncouth way of his about Mr. Yerkes is a plenty. It is evident that Mr. Bradley will not live at peace with the leaders in his party in Kentucky unless they recognize him as the gun of the largest caliber in the entire outfit.

COLLECTOR CRAFT, of Louisville, has issued a circular letter in which is shown that his policy will be radically different from that of his predecessor. The civil service law will be obeyed to the letter, and there will be no holdups for political purposes among his subordinate officers.

FOR the first time since the war there is not a colored man in Congress. This is very remarkable when it is considered that the Republicans have a political majority in 215 congressional districts of the United States and they carry at least fifty of these districts with the aid of negro votes. It seems to one that they would at least send ten or fifteen likely colored men to Congress.

THE American Federation of Labor settled the color line question, which was brought up in the form of a protest against the seating of a delegate from Central labor body of Richmond, Va., on the ground that the labor body refused to take in a colored organization of that city. The convention seated the delegate and ordered the organization of a colored central body in Richmond.

A DISPATCH from Washington to the New York Tribune, predicts an early shakeup of the President's cabinet, Secretary Hay to be the first to pack his grip. Of course it is announced that the break up will not be on account of any disagreement of polices to be pursued by the administration, but that conflicts with the fact that a Republican office-holder seldom dies, and never resigns on his own accord.

C. B. POYNTZ, of Maysville, member of the State Board of Election Commissioners and formerly a member of the Contest Board, will be a candidate for the nomination for Lieutenant Governor before the Democratic convention of 1903. Mr. Poyntz is a strong Democrat, and the office for which he will make a fight would not seem to be an extravagant recognition of his sincere service to his party, should it be given him.

A FREAK of nature is the lost river in Kentucky. It is known as the Hidden river, because no one knows its origin, and it vanishes into a cave leading no one knows where. It flows without a ripple, and is of a pale bluish color. Speaking of color, the Chinese believe that the Yellow river has always been of its present hue, except one day about 3,000 years ago, on which occasion a great man was born, and the river was perfectly clear.

THE Blue Grass Consolidated Traction Company, of Lexington with a capital stock of $7,000,000 filed articles of incorporation with the Secretary of State last week. The new company proposes to build electric railroads connecting Lexington with all the blue grass towns, including Frankfort Georgetown, Paris, Winchester and Richmond. It is the largest company ever incorporated in Kentucky, and the incorporation fee paid the state was $7,000.

IN an intensely bitter anti-American article, last Saturday's London Review advocates German-English friendship for the purpose of holding the United States in check. Emperor William, it declares, sees in the growing German population of Chili and Brazil the inevitable necessity for future interference, which "in any form involves a conflict with the United States." This, the Saturday Review holds, it is impossible for Germany to wage successfully if Great Britain is hostile.

KENTON COUNTY presented a claim for $340 for taking care of small-pox patients from this county that were lodged in her pest house several months ago. The fiscal court authorized County Attorney Castleman to make the best settlement possible with the Kenton county authorites, and he succeeded in getting them to accept $200 in full satisfaction of their claim. This is a pretty good start Mr. Castleman has made as a county official, and if he will keep up the pace he has set, his election will prove a bonanza to the county.

IF this county wants any rural free delivery mail routes established it is time those who are interested were filing their applications. The government will not force the free delivery system on any community, and where they are desired they must be asked for. Write Congressman Gooch and he will send you printed instructions how to proceed.

THE Legislature which will convene in Frankfort Tuesday after the first Monday in January will be a remarkable body in one respect at least. More than 50 per cent, of its members will be men who served in one branch or the other at some previous times. The average per cent of members of this body re-elected is said to be anywhere from 10 to 15, but the per cent, this year breaks all records. On the Democratic side Hickman and Cantrill who served in the last House have been promoted to the Senate. Among Republican notables in the House will be ex-Lieu. Gov. W. J. Worthington, of Greenup, and ex-Congressman David G. Colson, of Bell.—Frankfort Journal.

THE Western Argus says:

"Senator-elect Taylor, it is reported, will use all his energy to have a law passed at the coming legislature reimbursing our city and county for the high expense incurred two years ago when the mob from the mountains of Eastern Kentucky visited us. There will hardly be any opposition to such a law, and no man is better able to explain the case more plainly than Hon. E. H. Taylor, jr. The extra police and extra deputies to the sheriff during these troublesome days cost the city and county something over eleven thousand dollars. The expense is a heavy one on our people, and it seems like it should be paid for by the State, as each of the contending elements was made up of men from every section of the Commonwealth, and it does not seem just that our people should be made to pay for the protection given each of the factions that made this battle ground.

THE Ohio Experiment Station has made a pretty thorough test of the comparative value of wheat and corn meal feeding for beef. The experiment was continued for two years. Wheat bran was used as a part of the ration. Equal parts of corn meal and wheat bran were mixed and then, after the animals became accustomed to the feed, oil meal was added until it amounted to one-fourth of the entire grain ration. The coarse fodder consisted of clover hay and corn silage. To part of the steers wheat meal was substituted in the ration for corn meal; all other feeds remaining thesame. It was found that 15 to 16 pounds per day of the corn mixture could be fed without experiencing difficulties. The results of the first year's feeding were slightly in favor of the wheat meal. The second year, corn meal appeared to give somewhat better results.

THE report of the Commissioner of Agriculture, made a few days since, says of the wheat crop:

"Wheat sowing was continued until quite late, some being sown as late as November 15. The ground in many parts of the State has been too dry for thorough preparation, and the conditions as a whole cannot be said to be the best. The late sown wheat is not all up yet, and the continued dry weather is very unfavorable to it. There is some complaint of fly having appeared, but this is not so generally observed as was the case last year at this time, and the probabilities of escape from disastrous ravages from the pest are flattering. From indications the crop will not be a record-breaker, even with the best of conditions from now until harvest. The prospect for winter oats falls off from the same causes, and rye loses 2 points also, though there was an effort made by farmers to increase the breadth of sowing of this grain."

MR. WATTERSON has been lecturing in Western Kentucky towns and incidently feeling the public pulse in regard to his probable candidacy for the Democratic nomination for Governor.

LOCAL NEWS.

Children are now talking about Santa Claus.

Lee Busby, of Gunpowder, has had a 'phone put in his residence.

Remember $1.50 pays for the RECORDER until January 1, 1903, for a new subscriber.

Remember the date of Ben Stephens' sale, Wednesday, December 18. Read his advertisement.

This office turned out, last week, a nice lot of stationery for T. J. Clore & Son, Bellevue merchants.

With the special and the regular term the attorneys will be able to get in three weeks' work for their clients.

The telephone is growing in popularity day by day, and before many years a majority of the farmers will have them in their residences.

J. M. Eddins is occupying the property he recently purchased here in town. Jeff has an opportunity to do a great deal of work now.

Mrs. Kirtley's school moved into a larger and better room last week. It is in the building where she taught previous to the move.

Tommie Rice had the mad stone applied to his finger again, last Friday, and it refused to stick. It adhered three times eight days before.

Had the attendance at court from other parts of the county last week been in proportion to that from Verona, the crowd would have been immense.

It is about time that some of the dogs and stock bitten by the mad-dog that was killed here in town on Tuesday of last week, was showing signs of hydrophobia. Keep an eye on your dog, and if he acts or looks strange, kill him.

The Los Angeles, California, Times of the 25th ult., in its Pico Heights items says:

"Mr. and Mrs. Henry Terrill and daughter are new arrivals from Boone county, Ky., and are located for the winter at No. 1221 El Molino street. Mr. Terrill will buy a home here."

The Press last week mentioned the fact that Mr. Loyd had lost a cow and some sheep from eating green cornstalks. Since then several deaths of stock from the same cause have been reported at this office, one man losing sixteen head. Farmers cannot be too careful in this matter.—Crittenden Press.

J. C. Revill entertained the members of the bar, last Thursday evening in honor of Judge Lindsay, of Owenton, who was his guest during the special term of Circuit Court. An elaborate and elegant menu was prepared and spread by Mrs. Revill assisted by her sister and nieces. The occasion was a most delightful one.

Government engineers were here last week making surveys of the river between this city and Petersburg. They had plans for the construction of a dam in the harbor at this point, beginning on the Kentucky side opposite the wharfboat and extending across to this side near the foot of Walnut street.—Lawrenceburg Register.

There are twenty-six widows in Owenton and at least twenty-six more married women who would be far better off if they were widows. We are well acquainted with some of their husbands and we know whereof we speak. They let their wives hoe the gardens in the spring time and summer season and milk the cows and make the fires in winter.—News-Herald.

Benjamin Stephens, jr., whose sale is advertised in this paper will move to Kansas City, Missouri, where he will engage in business, but what he does not know yet. Mr. Stephens has a large circle of acquaintances, with each of whom he is very popular, and who will be sorry to see him leave, but wish for him abundant success in his new home.

A petition is being circulated among the patrons of the Grant (Bellevue) postoffice, asking that the mail for that office be transmitted to and received from the Burlington office. By way of the mail route Bellevue is 55 miles from the county seat, whereas over the proposed route it would be but 7½ miles, with nothing to delay a prompt delivery of the mail 313 days in the year.

The Powers Will Case.

The Powers will case was the principal trial during the special term of Circuit Court held last week.

Jeffry Powers, who was born in Ireland, December 22, 1822, came to the United States and died in Verona, this county, in September, 1891. He had been an industrious, frugal man, and was worth somewhere from $18,000 to $20,000, when he died. His family of children was composed of two daughters and three sons. The old gentleman, for some time before his death, entertained an ill feeling towards his two sons, John and Will, and on July 3, 1891, he made a will by the terms of which John and Will could never inherit any part of his estate. After the death of the old man the will was offered for probate, when the two boys, who were disinherited, began a contest, alleging that their mother and two sisters had unduly influenced their father in making his will, and that it was through their influence over the old gentleman that they had been cut off.

The first trial in the Circuit Court resulted in a hung jury, but upon a second trial the jury returned a verdict that the paper offered for probate as the true last will and testament of Jeffry Powers, deceased, was not, nor any part thereof, his true last will and testament. An appeal was taken, and the Court of Appeals reversed the lower court because of an erroneous instruction to the jury and an improper ruling as to some of the testimony, and remanded the case for a new trial, which was begun on Tuesday of last week before the following jury: George Ossman, H. C. Duncan, S. L. Craven, Joe Brown, E. M. Holton, Ezra Blankenbeker, Hal Pressler, Charles Clerk, Granville Rouse, Charles Scothorn, E. K. Stephens, Everett Franks.

The hearing of testimony was concluded at noon, last Thursday, when the court instructed the jury, and the arguments of counsel began. Hon. John S. Gaunt, of counsel for the contestants, lead off in a speech of two and a quarter hours, in which he made an able presentation of his clients' contentions. So hard did he labor that he was almost prostrated and had to go to his room immediately upon the close of his speech.

Hon. M. D. Gray, of counsel for the propounders, followed Mr. Gaunt. Mr. Gray's speech was composed of two editions, afternoon and morning. The afternoon edition consumed about thirty minutes and was devoted, principally, to pleasantries in regard to Mr. Gaunt, with an occasion outburst of sarcasm.

The morning edition was composed of humor, pathos, and logic, many of the points being argued in a masterful manner. The entire speech consumed two and a half hours, and was listened to closely throughout by quite a crowd of spectators.

Senator Tolin, for propounders, made the third speech. He made no effort at display, but argued the testimony closely. He consumed two and a half hours, in a close analysis of the statements of the several witnesses.

Judge Lassing closed the argument in the case by a speech of an hours length He labored under the disadvantage of having a very sore throat, but made a good speech in the interest of his clients, the propounders.

The jury got the case about 4 p. m., Friday, and had it under consideration until about 10 o'clock that night, when it reported that it would be utterly impossible for it to make a verdict, and was discharged. The jury stood five for to seven against the will. In the contest of this will there have been two hung juries and one verdict against it.

Judge Lindsay presided during the trial and gave entire satisfaction. His ruling was always prompt and impartial. The Judge made a most excellent impession among the people who attended court last week, and especially with the acquaintances he formed here.

The Miller-McManama land suit was compromised.

The special term adjourned Friday night.

Twelve jurymen were allowed pay for 6 days and twelve were allowed for three days.

WHAT's the matter down in the "pennyryle?" The Paducah News-Democrat, says:

"We do not want mere chair-warmers from Kentucky in congress, but we would be far better off with chair-warmers than to have to endure some of the alleged orators who are threatening to become candidates."

If one will take a careful view of the political field he will see the deceitfullness, debauching and hellish desire of a few to control the people. Then you will no longer wonder why God created a hell. Don't rebel against the declaration of your own conscience when the truth is spoken. Be ye not deceitful in anything, but truthful, honest and faithful in all things, for one cannot know the pleasure, joy and happiness of the future until they have thus lived from their youth up. With charity for all and malice towards none, this is easily said, but 'tis never done, but honesty for all a cause for malice toward none, this if you will practice the victory is won. J. E. H.

Where the waters of Clarks Creek unite with those of Big Eagle, is a country picturesque and beautiful. For several weeks past men have been at work in that vicinity delving into the bowels of the earth, apparently searching for some hidden treasure. The treasure for which they are searching is gold. Upon what indications they base their theory that gold abounds we are unable to state, but that the gentlemen who are at work on the supposed mines are honest in their endeavors and have faith in the ultimate success of their undertaking, is attested by the fact that they have already put up a large amount of cash in developing the prospect hold. At a depth of eight feet a vein of ore was struck containing what is believed to be gold in large quantities. If it is gold it will pan out several hundred dollars to the ton and will make the owners rich beyond the imaginations of common people. The Klondike will pale into insignificance in comparison. Whether a chemical analysis has been made or not we do not know, but some of the ore has been used in plating watches, chains and rings, and if it is not gold it certainly looks very much like it.—Williamstown Courier.

Says He Was Tortured.

"I suffered such pain from corns I could hardly walk," writes H. Robinson, Hillsborough, Ills., "but Bucklen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by W. F. McKim, Burlington; Union Drug Store, Union; J. G. Oelsner, Florence; H. L. Eskew, Walton; O. N. Grant, Bellevue. 25c.

Circuit Court.

The December term of the Boone Circuit Court convened Monday, with Judge Lassing presiding, and Miss Bula Duncan present to do the clerical work in the absence of her father, circuit clerk J. W. Duncan, who is too ill to leave his room, while sheriff Beall and his deputy, B. B. Allphin, and jailer Adams, were on hand to execute the commands of the court. The grand jury was organized and given a comprehensive charge. The grand jury is composed as follows:

Grand Jury.—John B. Dixon, foreman; Richard Clements, Leonard Crigler, Jake Cook, H. D. Brady, R. C. Tanner, James White, James Craven, Joe Rich, Lewis R. Terrill, Henry Aylor, Robert Carver.

The petit juries were organized yesterday, and are as follows:

No. 1.—Jas. L. Riley, Fred Pfalzgraf, J. L. Frazer, Jno. Williams, W. C. Weaver, G. E. Carroll, N. S. Bristow, R. J. Madden, R. L. Howlett, M. E. Hance, Asa Cason, Jno. R. Whitson.

No. 2.—Adam Dolwick, Geo. L. Smith, T. E. Garrison, Dan'l Lawell, Will Beemon, W. B. Graves, George Saunders, C. A. Gaines, Henry Rose, O. J. Ryle, H. C. Duncan, C. A. Fowler.

The following attorneys were present yesterday: J. S. Gaunt, M.D.Gray, J. E. Clore, B. F. Menifee, J. G. Tomlin, C. Y. Dyas, F. E. Curley, S. W. Adams, W. W. Dickerson.

In the case of the Commonwealth against Mrs. J. J. Smith, for assault and battery the jury returned a verdict of not guilty.

The court is just getting down to business.

The jury returned a verdict of not guilty on the indictment against Ed Norman for shooting a horse belonging to William Brittenhelm, of Walton.

Last Friday's Enquirer contained an account of the Gaines oil fields in this county, and a real estate boom is developing in the Bullittsville neighborhood.

A Good Cough Medicine.

(From the Gazette, Toowoomba, Austra ia.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockener. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

SOME GREAT EVENTS.

Dr. Talmage Discourses on the World's Advancement.

Says It Is in the Right Direction—Present Time Wonderful for Disaster and Wonderful for Blessing.

[Copyright, 1901, by Louis Klopsch, N. Y.]

In this discourse Dr. Talmage recites some great events and shows that the world is advancing in the right direction; text, Joel 2:30: "I will show wonders in the heavens and in the earth."

Dr. Cumming—great and good man—would have told us the exact time of the fulfillment of this prophecy. As I stepped into his study in London on my arrival from Paris, just after the French had surrendered at Sedan, the good doctor said to me: "It is just what I have told you about France. People laughed at me because I talked about the seven horns and the vials, but I foresaw all this from the book of Daniel and the book of Revelation." Not taking any such responsibility in the interpretation of the passage, I simply assert that there are in it suggestions of many things in our time.

Our eyes dilate and our heart quickens in its pulsations as we read of events in the third century, the sixth century, the fourteenth century, but there were more far-reaching events crowded into the nineteenth century than into any other, and the last 50 years eclipse any preceding 20. We read in the daily newspapers of events announced in one paragraph and without any special emphasis—events which a Herodotus, a Josephus, a Xenophon, a Gibbon would have taken whole chapters or whole volumes to elaborate. Looking out upon our time we must cry out in the words of the text: "Wonders in the heavens and in the earth."

I propose to show you that the time in which we live is wonderful for disaster and wonderful for blessing, for there must be lights and shades in this picture as in all others. Need I argue that our time is wonderful for disaster? Our world has had a rough time since by the hand of God it was boxed out into space. It is an epileptic earth—convulsion after convulsion; frosts pounding it with sledge hammer of iceberg and fires melting it with furnaces seven times heated. It is a wonder to me it has lasted so long. Meteors shooting by on this side and grazing it and meteors shooting by on the other side and grazing it, none of them slowing up for safety. Whole fleets and navies and argosies and flotillas of worlds sweeping all about us. Our earth like a fishing smack off the banks of Newfoundland, while the Majestic and the St. Paul and the Kaiser Wilhelm der Grosse rush by. Besides that, our world has by sin been damaged in its internal machinery, and ever and anon the furnaces have burst, and the walking beams of the mountains have broken, and the islands have shipped a sea, and the great hulk of the world has been jarred with accidents that ever and anon have threatened immediate demolition.

But it seems to us as if the last hundred years were especially characterized by disaster—volcanic, oceanic, epidemic. I say volcanic because an earthquake is only a volcano hushed up. When Stromooli and Cotopaxi and Vesuvius stop breathing, let the foundations of the earth beware! Seven thousand earthquakes in two centuries recorded in the catalogue of the British association! Trajan, the emperor, goes to ancient Antioch and amid the splendors of his reception is met by an earthquake that nearly destroys the emperor's life. Lisbon, fair and beautiful, at one o'clock on the 1st of November, 1775, in six minutes 60,000 have perished, and Voltaire writes of them: "For that region it was the last judgment, nothing wanting but a trumpet!" Europe and America feeling the throb—1,500 chimneys in Boston partly or fully destroyed!

But the disasters of other times have had their counterpart in later times. In 1812 Caracas was caught in the grip of an earthquake, in 1822 in Chili 100,000 square miles of land by volcanic force upheaved to four and seven feet of permanent elevation, in 1854 Japan felt the geological agony; Naples shaken in 1857, Mexico in 1858; Mendoza, the capital of the Argentine Republic, in 1861; Manilla terrorized in 1863; the Hawaiian islands by such force uplifted and down in 1871; Nevada shaken in 1871, Antioch in 1872, California in 1872, San Salvador in 1873, while in 1883 what subterranean excitement! Ischia, an island of the Mediterranean, a beautiful Italian watering place, vineyard clad, surrounded by all natural charm and historical reminiscence; yonder Capri, the summer resort of the Roman emperors; yonder Naples, the paradise of art—this beautiful island suddenly toppled into the trough of the earth, 8,000 merrymakers perishing, and some of them so far down beneath the reach of human obsequies that it may be said of many a one of them, as it was said of Moses: "The Lord buried him." Italy, all Europe weeping, all Christendom weeping where there were hearts to sympathize and Christians to pray. But while the nations were measuring that magnitude of disaster, measuring it not with golden rod like that with which the angel measured heaven, but with the black rule of death, Java, of the Indian archipelago, the most fertile island of all the earth, is caught in the grip of the earthquake, and mountain after mountain goes down and city after city until that island, which produces the best beverage of all the world, produced the ghastliest catastrophe. One hundred thousand people dying dead!

Look at the disasters epidemic. I speak not of the plague in the fourth century that ravaged Europe and in Moscow and the Neapolitan dominions and Marseilles wrought such terror in the eighteenth century, but I look at the yellow fevers, and the choleras and the diphtherias and the scarlet fevers and the typhoids of our time. From Hurdwar, India, where every twelfth year 3,000,000 devotees congregate, the caravans brought the cholera, and that one disease slew 18,000 in 18 days in the Bosporus. Twelve thousand in one summer slain by it in India and 125,000 in Egypt. Disasters epidemic. Some of the finest monuments in Greenwood and Laurel Hill and Mount Auburn are to doctors who lost their lives battling with southern epidemic.

But now I turn the leaf in my subject, and I plant the white lilies and the palm tree amid the nightshades and the myrtle. This age no more characterized by wonders of disaster than by wonders of blessing—blessing of longevity; the average of human life is rapidly increasing. Forty years now worth 400 years once. Now I can travel from Manitoba to New York in less than three days. In other times it would have taken three months, in other words, three days are now worth three months of other days. The average of human life, practically greater now than when Noah lived, with his 950 years, and Methusaleh lived his 969 ears.

Blessings of intelligence: The Salmon P. Chases and the Abraham Lincolns and the Henry Wilsons of the coming time will not be required to learn to rend by pine knot lights or seated on shoemaker's bench, nor will the Fergusons have to study astronomy while watching the cattle. Knowledge rolls its tide along every poor man's door, and his children may go down and bathe in them. If the philosophers of a hundred years ago were called upon to recite in a class with our boys and girls those old philosophers would be sent down to the foot of the class because they failed to answer the questions! Free libraries in all the important towns and cities of the land. Historical alcoves and poetical shelves and magazine tables for all who desire to walk through them or sit down at them.

Blessings of quick information; Newspapers falling all around us thick as leaves in a September equinoctial. News three days old rancid and stale. We see the whole world twice a day—through the newspaper at the breakfast table and through the newspaper at the teatable, with an "extra" here and there between.

Blessings of Gospel proclamation: Do you know that nearly all the missionary societies have been born within a hundred years and nearly all the Bible societies and nearly all the great philanthropic movements? Christianity is on the march, while infidelity is dwindling into imbecility. While infidelity is thus dwindling the wheel of Christianity is making about a thousand revolutions a minute. All the copies of Shakespeare and of Tennyson and of Disraeli and of any ten of the most popular writers of the day less in number than the copies of the Bible going out from our printing presses. A few years ago in six weeks more than 2,000,000 copies of the New Testament purchased—not given away, but purchased, because the world will have it. The most popular book to-day is the Bible, and the mightiest institution is the church, and the greatest name among the nations and more honored than any is the name of Jesus.

Wonders of self-sacrifice: A clergyman told me in the northwest that for six years he was a missionary at the extreme north, living 400 miles from a postoffice, the thermometer 40 degrees below zero, he slept out of doors in winter, wrapped in rabbit skins woven together. I said: "Is it possible? You do not mean 40 degrees below zero?" He said: "I do, and I was happy." All for Christ! Where is there any other being that will rally such enthusiasm? Mothers sewing their fingers off to educate their boys for the Gospel ministry. For nine years no luxury on the table until the course through grammar school and college and theological seminary be completed. Poor widow putting her mite into the Lord's treasury, the face of emperor or president impressed upon the coin not so conspicuous as the blood with which she earned it. Millions of good men and women, but more women than men, to whom Christ is everything. Christ first and Christ last and Christ forever.

Why, this age is not so characterized by invention and scientific exploration as it is by Gospel proclamation. You can get no idea of it unless you can ring all the church bells in one chime and sound all the organs in one diapason and gather all the congregations of Christendom in one "Gloria In Excelsis." Mighty camp meetings! Mighty Ocean Groves! Mighty Chautauquas! Mighty conventions of Christian workers! Mighty general assemblies of the Presbyterian church! Mighty conferences of the Methodist church! Mighty associations of the Baptist church! Mighty conventions of the Episcopal church! There may be many years of hard work yet before the consummation, but the signs are to me so encouraging that I would not be unbelieving if I saw the wing of the apocalyptic angel spread for its last triumphant flight in this day's sunset or in to-morrow morning the ocean cables should thrill us with the news that Christ the Lord had alighted on Mount Olivet to proclaim universal dominion.

All dead churches, wake up! Throw back the shutters of stiff ecclesiasticism and let the light of the spring morning come in! Morning for the land! Morning for the sea! Morning of light and love and peace! Morning of a day in which there shall be no chains to break, no sorrows to assuage, no despotism to shatter, no woes to compassionate. Blessed Christ, descend! Scarred temple, take the crown! Bruised hand, take the scepter! Wounded feet, step on the throne! "Thine is the kingdom."

These things I say because I want you to be alert. I want you to be watching all these wonders unrolling from the heavens and the earth. God has classified them, whether calamitous or pleasing. The Divine purposes are harnessed in traces that cannot break and in girths that cannot slip and in buckles that cannot loosen and are driven by reins they must answer. I preach no fatalism. A swarthy engineer at one of the depots at Dakota said: "When will you get on the locomotive and take a ride with us?" "Well," I said, "now, if that suits you." So I got on one side of the locomotive, and a Methodist minister, who was also invited, got on the other side, and between us were the engineer and the stoker. The train started. The engineer had his hand on the agitated pulse of the great engine. The stoker shoveled in the coal and shut the door with a loud clang. A vast plain slipped under us, and the hills swept by, and that great monster on which we rode trembled and bounded and snorted and raged as it hurled us on. I said to the Methodist minister on the other side of the locomotive: "My brother, why should ministers quarrel about the decrees and free agency? You see that track, that firm track, that iron track; that is the decree. You see this engineer's arm; that is free agency. How beautifully they work together! They are going to take us through. We could not do without the track, and we could not do without the engineer."

So I rejoice day by day. Work for all to do, and we may turn the crank of the Christian machinery this way or that, for we are free agents. And there is the track laid so long ago no one remembers it—laid by the hand of the Almighty God in sockets that no terrestrial or Satanic pressure can ever affect. And along the track the car of the world's redemption will roll and roll to the Grand Central depot of the millennium. I have no anxiety about the track. I am only afraid that for our indolence and unfaithfulness God will discharge us and get some other stoker and some other engineer. The train is going through with us or without us. So, my brethren, watch all the events that are going by. If things seem to turn out right, give wings to your joy. If things seem to turn out wrong, throw out the anchor of faith and hold fast.

When Titans play quoits, they pitch mountains, but who owns these gigantic natural forces we are constantly reading about? Whose hand is on the throttle valve of the volcanoes? Whose foot, suddenly planted on the footstool, makes the continents quiver? God! I must be at peace with Him. Through the Lord Jesus Christ, this God is mine and He is yours. I put the earthquake that shook Palestine at the crucifixion against all the down rockings of the centuries. This God on our side, we may challenge all the centuries of time and all the cycles of eternity.

Years ago I was at Fire Island, L. I., and I went up in the cupola from which they telegraph to New York the approach of vessels hours before they come into port. There is no opening in the wall, and the operator puts his telescope through that opening and looks out and sees vessels far out at sea. While I was talking with him he went up and looked out. He said: "We are expecting the Arizona to-night." I said: "Is it possible you know all those vessels? Do you know them as you know a man's face?" He said: "Yes. I never make a mistake. Before I see the hulls I often know them by the masts. I know them all—I have watched them so long." Oh, what a grand thing it is to have ships telegraphed and heralded long before they come to port, that friends may come down to the wharf and welcome their long-absent ones! So to-day we take our stand in the watch-tower, and through the glass of inspiration we look off and see a whole fleet of ships coming in. That is the ship of peace, with the star of Bethlehem floating above the top gallants. That is the ship of the church, mark of salt water high upon the smokestack, showing she has had rough weather, but the Captain of Salvation commands her, and all is well with her. The ship of heaven, mightiest craft ever launched, millions of passengers waiting for millions more, prophets and apostles and martyrs in the cabin, conquerors at the foot of the mast, while from the rigging hands are waving this way as if they knew us, and we wave back again, for they are ours. They went out from our own households. Ours! Hail, hail! Put off the black and put on the white. Stop tolling the funeral bell and ring the wedding anthem. Shut up the hearse and take the chariot.

Now the ship comes around the great headland. Soon she will strike the wharf and we will go aboard her. Tears for ships going out. Laughter for ships coming in. Now she touches the wharf. Throw out the planks. Block not up that gangway with embracing long lost friends, for you will have eternity of reunion. Stand back and give way until other millions come aboard her. Farewell to sin! Farewell to struggle! Farewell to sickness! Farewell to death! "Blessed are all they who enter in through the gates into the city."

Quite True.

Knife wounds heal quicker than those caused by a caustic tongue.

AN IMPORTANT ITEM.

A Valuable Suggestion for the Young Housekeeper Just Starting In.

The young matron buying her first housekeeping outfit will do well to set aside a generous sum for the purchase of bedding. Good hair mattresses, made of the best quality of hair, represent considerable investment at the time, but will last a lifetime and furnish always a delightful bed, says the New York Post. If possible, no substitute for this should be taken. In the same way live-geese-feather pillows, once bought, are practically a lasting possession. They can be renovated indefinitely, and are satisfactory at every moment of use. Much cheaper feather pillows are to be had which, when new, seem almost as good, but they are largely mixed with hen's feathers and soon disclose their poor quality. In buying muslin sheets, cloth woven from a rather coarse thread should be selected, though a finer quality at first may seem preferable. Old housekeepers still insist that unbleached muslin not only wears better, but becomes whiter in the end, than the bleached variety, but young housekeepers do not like the transition process. They may consent, however, to choose the half-bleached variety, which really whitens so rapidly in consecutive washings as to prove very satisfactory. Allow full two yards and a half after hemming to every sheet, as a short sheet is an abomination. At least a couple of pairs of linen sheets should be included in the first purchase of bedding, and after that the purchase of a pair a year will easily keep up the necessary supply. Cotton sheets are so generally used—are preferred, indeed, by many—that the great store of linen bedding, dear to the hearts of our grandmothers, is superfluous.

RABBIT HAD A PECULIAR GAIT.

New Member of Shooting Club Is Initiated by the Old Timers.

There is a sportsman's club on one of the lakes in Sullivan county, and thither came a new member recently for his first shooting, says the New York Times. The old members talked enthusiastically of the excellent sport to be had shooting rabbits by moonlight. The new one was very anxious to try it.

After dinner the old-timers offered to take him out. One volunteered to stay by the new man so that he should not be lost, and the two took their places on a log where they could overlook the edge of a marsh. After awhile there was a stir in the bushes and some gray thing moved across the open space. The new man saw it first.

"It's yours," said the old-timer. "You saw it, and we make it a rule here to never interfere with another man's game."

So the new member fired a shot from his repeating gun. The object kept on moving. "Bang, bang, bang," roared the gun until its magazine was empty.

Now there was a rushing of feet and the other hunters came on the scene. Their questions were numerous. The new man's answers were indefinite. He had seen something and had emptied his gun at it. It had looked like a rabbit, "but," he added, "it had a darned queer gait."

The old members went with the new man to look for the game. They were present when he picked up an old shot bag stuffed with cotton and fastened to a long string.

HEALTH COMMANDMENTS.

Common-Sense Suggestions Which Should Be Followed by Homebodies.

The requirements of health can be counted on the fingers of one hand, says the Philadelphia Times. They are good air, good food, suitable clothing, cleanliness and exercise and rest. The first two requirements affect the blood, and as the blood circulates all over the body, including the brain, every part is affected. Fresh air affects the purity of the blood. The freshest air is out of doors, and it is the duty of every one who wishes to be in good health to spend a certain amount of time in the open air. Good food is not necessarily expensive food. Exercise and rest should alternate and balance each other. It is quite possible to take too much exercise, and this side of the question must be guarded against as carefully as the other. Women, as a rule, do not rest sufficiently. Every woman should try during the day to get a few minutes' rest, even if it interferes with her regular work. It is impossible for her to attend to the health and welfare of her family if her own health suffers from overwork and lack of rest. She should follow her husband's example. Although he is busy all day long, he generally makes it a hard and fast rule to rest during the evening in the best way, namely, by change of employment.

Carrot Pudding.

This pudding tastes as rich as plum pudding, and has the advantage over that of being digestible. Cream one tablespoon of butter with one cup of dark brown sugar, then add one egg, beaten very light, one-half cup of milk, one cup of grated carrot, one teaspoon of cinnamon, allspice, carbonate of soda, one-half a nutmeg, one-half teaspoon of cloves, one cup of bread crumbs, one cup of flour, one-half cup of raisins and currants, and two tablespoons of citron. Add by degrees the raisins and currants, dredged with flour. Stir the whole very hard, put in a buttered pudding mold, and steam for three hours.—Good Housekeeping.

A ROCKY ROAD FOR HIM.

The Way That Lies Before President Roosevelt Is Anything But Smooth.

All signs will fail if there is not a violent collision between the president and the senate before the end of Mr. Roosevelt's term of office. Mr. Roosevelt was for a number of years one of the United States civil service commissioners, and he has well-defined notions upon the methods and motives of appointments to the public service, whether civil or military. Theories which he holds are directly opposed to those held in the senate of the United States, says the Baltimore Sun. The president, as far as the public is advised, conceives that the appointing power is placed by the constitution in his hands, and that he is responsible to the people for the proper exercise of it and that he alone is responsible. Mr. Roosevelt declares that in making appointments he will be guided by the desire to promote the public service. Many senators, on the other hand, have been in the habit of selecting the men to be appointed by the president from among their personal or political friends with an eye single to their own personal advantage and without any regard whatever for the public service. This has been done so often that the plain intent of the constitution to give the appointing power to the executive has been almost in effect subverted. Appointments are to be made "by and with the advice and consent of the senate." This form of words was undoubtedly used for the same purpose that the veto power is given to the president. All laws must be made ordinarily with the consent of the president. But that has never been construed to confer legislative power on the executive. The reason why appointments are to be confirmed by the senate was, undoubtedly, to prevent notoriously unfit appointments made hastily or without full information, and such appointments, it was expected, are to be rejected. But for years past the senate has often undertaken to reject appointments, not only when unfit, but when they were personally objectionable to the senator from the state for which or from which the appointee came.

Mr. Cleveland's nominations, many of them, were "hung-up" or rejected by a senate controlled by senators personally hostile to him. The senate at this time is controlled by the president's own party. But it seems to be almost as ready to oppose a president of its own as of the opposite party when he will not submit to their dictation.

The first important political appointment Mr. Roosevelt seems to have considered is that of collector of the port of New York. It is said that one of the leaders of the republican machine in New York went to the white house to make threats of vengeance in behalf of the organization and that he was promptly escorted to the door. Now it is announced that the president has declared that in the high military appointments about to be made he will be guided by the records of the officials under consideration and not by the recommendations of congressmen.

President Roosevelt has always been more distinguished for his courage than for his flexibility, and it is just possible that he might attain his ends more surely, or come nearer to them, by pursuing a more conciliatory course.

The late President McKinley had the advantage to carry with him to the executive office long years of experience in congress. He understood congress as few of his predecessors in the presidential office had, and while upon the whole he made many and great concessions of his own views and purposes it is probable that he exerted more influence over the legislative branch of the government than any other executive since Andrew Jackson. Jackson accomplished his purposes in congress more or less by determination, and McKinley by fine management and concessions. But the congress, and especially the senate, with which Jackson had to deal was a different and far less formidable body than that which now confronts Mr. Roosevelt. The people admire courage and like a good fighter, and especially a fight in a good cause. If the president goes to war with the senate to uphold the executive prerogative and good morals in the public service the people will rally to his support.

POINTS AND OPINIONS.

——With a treasury surplus of $130,000,000 in sight, the republican majority in congress is likely to break all records in the matter of lavish appropriations.—Middletown Argus.

——The kind of reciprocity which the manufacturers want is that by which they can get as much more as possible without surrendering anything they have already. That's business, perhaps.—Washington Times.

——Tariff revision is coming and, while the present administration may temporarily block its way, it will come all the faster for having been detained by an impediment created for selfish purposes.—No barrier erected to check a needed reform can successfully survive the assaults of a wronged and determined people.—Harrisburg (Pa.) Patriot.

——President Roosevelt has tasted of the cup of personal power and ambition, and unless we mistake the man he will drain it to the dregs. His intention to build up a personal machine by the use of the federal patronage, regardless of what President McKinley may have done or intended to do, is now so plain that he who runs may read.—Albany Argus.

SENATE AND PRESIDENT.

Roosevelt May Nominate Men for Office But That Is Not Altogether Conclusive.

Washington advices continue to point to the probability of strenuous times when the senate meets. We commented the other day upon a dispatch which indicated that a break between the senate and President Roosevelt is imminent. The Boston Globe has news from its Washington correspondent, dealing with the same subject in more detail. Here is a specimen instance, as related in the Globe:

"A prominent senator who was at the white house a day or two ago makes no concealment of his feelings, and is openly telling his grievances. He went to the white house to try and secure a promotion in the army for a constituent. The president, in his somewhat nervous and impulsive manner, brought his hand down on the table and told the senator that political influence would not count in army promotions and that efficiency would be alone considered.

"The senator said he had no objections to that, but he considered that as a senator he was entitled to be heard when he recommended the promotion of a man from his own state, of whose qualifications and abilities he had full knowledge. Then he added, somewhat significantly: 'You appear to forget that the senate has something to say about appointments; that the president may nominate, but the senate must confirm.' The president replied that he had not forgotten. The senator answered that he was glad to know that the president remembered it, and went away. The senator in talking about the little flurry said that what he objected to was the president's manner. He quite agreed with the president that army promotions should be made on merit alone, but he disliked being placed in the attitude of trying to secure the promotion of an unworthy person."

Then there is another story going the rounds of Washington of how Senator Deboe, of Kentucky, was "tricked" (that is the word used) in regard to the removal of Collector Sapp, of Louisville. Mr. Deboe desired the retention of Collector Sapp, and he had some argument with which he expected to influence the president. "With this plan in mind," the story continues, "he approached the president, in what was to have been a long and earnest appeal, beginning with those unfortunately chosen words: 'I have Collector Sapp's resignation in my pocket, Mr. President, but—' 'You have!" said Mr. Roosevelt. "I'll take it. Here, Mr. Cortelyou; wire Mr. Sapp that his resignation has been accepted and ask him to turn the office over to his first deputy at once. Have somebody telephone the treasury that this transfer will be made to-day. That's all right, Mr. Deboe; everything will be promptly attended to.' The rest of the speech of the senator was never completed, except to Sapp's friends, as a sample of what he would have said had he found a chance. It is believed that Deboe is at heart rather doubtful of Roosevelt's making a success of his presidential office."

Furthermore, in appointing Collector Sapp's successor, President Roosevelt ignored Senator Deboe, and consulted with ex-Gov. Bradley, Mark Hanna's dearest foe. The departure from President McKinley's policy and methods could hardly have been more complete and striking.

MUST FACE THE ISSUE.

Flimsiness of the Republican Reciprocity Dodge Is Becoming Apparent.

There is little reason to doubt that the protected interests of this country will favor such action by congress on the reciprocity question as shall seem to contain a promise of tariff reduction without offering a genuine menace to the great monopolies, says the St. Louis Republic.

The trick would be well worth turning if the American people could be kept in ignorance of the bunko nature of such action. Following congressional legislation as thus directed by the trusts the republican party would doubtless proclaim to the voters of this country that the republicans themselves were removing the tariff burden from the shoulders of taxpayers.

In this manner, the shrewd representatives of monopoly interests believe, the issue of tariff revision can be kept out of the next national campaign. There is no longer a possibility of entirely ignoring this issue and refusing point blank to abandon the principle of the high protective tariff. The people are too fully aroused to the iniquities of the present tariff to be longer fooled by the argument that protection benefits the consumer. They know that protected interests which sell their manufactured product cheaper in Europe than at home constitute a heavy burden upon the home consumer and are unfairly enriched at his expense. The only expedient now left to avert tariff revision is found in the crafty movement for reciprocity treaties with certain foreign nations.

Luckily, however, there is little doubt that the American people already see through the flimsy game being attempted by the republican party. The congressional debates on the question of reciprocity and tariff revision promise to be of peculiar significance. One of the certainties of the situation is that they will make the issue of the tariff revision the most vital issue of the presidential campaign of 1904. On that issue the democratic party can appeal to the country with confident hope of victory based on the party's faithfulness to the people in opposing the evil principle of the trust-creating tariff.

——If President Roosevelt crushes the bosses in his own party he will contribute greatly to the betterment of all parties. But San Juan hill was a summer stroll in a garden compared with the hill he now has to climb.—Toledo Bee.

Agricultural Hints.

A CURIOUS WINDMILL.

In Its Construction Nature and Mechanics Are Strangely and Effectively Blended.

A windmill is apt to be a very prosaic and ugly construction, but many attempts have been made with varying success to beautify these very useful and economical power producers. Our engraving illustrates how nature and mechanics are sometimes blended. The trees serve only as a support for the platform at the top, and as side rails of a ladder, it being necessary only to provide rounds. The trees serve also to stay the iron supports. The windmill, which was

A TREE WINDMILL.

built by J. G. Benster, of Moline, Ill., is of peculiar construction, there being no gear wheels nor crank, the power being transmitted by an involute wheel which is a part of the steel wheel to which the fans are attached. The surface of the involute is perfectly smooth, as is also that of the wheel attached to the pitman carrier, the one rolling upon the other. The mast is of tubing, the pitman being carried down inside. The wires for throwing the mill out of gear are attached to a thimble on the outside of the mast. From this it will be seen that the trees are not needed for actual support.

A number of these mills have been attached to trees and have been giving excellent results. It is also possible to carry the mills around on a wagon and set them to work at any part of a field.—Scientific American.

RURAL DELIVERY.

How the System Has Materially Added to the Cash Value of Farm Lands.

The most recent provisions of the rural delivery system make every wagon a post office and a money order office as well. Stamps are sold, money orders are both issued and paid, and letters are registered. The carriers are allowed to deliver packages, other than mail parcels, when such tasks do not interfere with prompt service. The farmers were at first inclined to look at the plan as short lived. The receptacles which they prepared for the mail were, in thousands of instances, of the crudest material that could be found about the farms. Tomato cans, stove pipes turned on end, cigar boxes and tin pails all served for mail boxes, and one farmer in Washington county, Pa., constructed a box by making over an old hobby horse and mounting it upon a stake in front of his gate. The carrier often discovered the box nailed to the nearest fence, or attached to a tree half-way between the road and the family residence, instead of being within easy reach of the mail wagon.

It is estimated that the value of land along rural delivery routes has increased from two to five dollars an acre. Then, too, there is an educational value in the rural free delivery, in that thousands more magazines and periodicals are finding their way to people's homes. The oldest route in the United States runs out from Hope, Ind. More carriers are now making daily rounds within the boundaries of this state. If they went in a straight line in relays they would cross the continent every day. The total length of the routes is 5,295 miles, and the area covered is 8,914 square miles. They serve 196,712 people who two years ago were compelled to travel from one to ten miles for their mail.

Take Care of Your Trees.

Don't be afraid of putting out too many fruit trees; but be sure that after they are out they receive proper attention. Pruning is an absolute necessity, and spraying is the great factor in growing fruit of fine quality. There is always a market, at home and abroad, for fine fruit. When we hear anyone complain of dull market and small prices we may at once conclude that his fruit is not of a good quality—either wormy or knotty or perhaps both. But this is only the reward of negligence. We wish to emphasize the sentence: "Take care of your trees."

Neglect Causes Big Loss.

Not many years ago farmers thought that it made cattle "tough" to stand out through the cold days of winter, shivering from head to foot. They did not seem to know that cold takes off a large share of animal heat which they can get only from food, and the more they are exposed the more food they will need. Most folks know better now, or, if they don't, there's a society with a long name that stands ready to teach them.—Farm Journal.

WHY NOT FEED WHEAT?

At Present Prices Stock Farmers as Well as Dairymen Could Make Money in This Way.

At a time like the present when wheat is bringing a comparatively low price it is a very important matter to farmers to make the best possible use of the crop. And when, as now, corn is high many farmers are considering the best possible economy of feeding wheat to their live stock rather than sending it to the mills. This is a question of the utmost importance to the farmers of the northwest, and, incidentally, to the whole country, for whatever makes the farmers more prosperous makes the towns and cities more prosperous.

To assist in solving this problem for the farmers Prof. Snyder, of the Minnesota Agricultural Experiment station, has just compiled a bulletin showing the results of experiments in feeding wheat, made by the various experiment stations of the country during a few years past. This brings together a mass of practical information on the subject and may be taken as authoritative.

At the Minnesota station it was demonstrated that ground wheat was 10 per cent. more digestible than when fed whole, but slightly less digestible than corn. But a mixture of the two feeds was found to be better than either one fed separately. This was also shown at the tests at the Wisconsin station where an average of 499 pounds of ground wheat was required to produce 100 pounds gain in live weight of hogs, while 498 pounds of corn produced the same results; but when wheat and corn were mixed in equal parts, only 485 pounds of the feed were necessary to produce a gain of 100 pounds in weight of the animals.

The bulletin gives account of many other very interesting experiments which are well worth reading by the intelligent farmer. But the gist of the whole matter is found in the summary at the close which says:

"The results obtained when wheat was fed at the various experiment stations show that, as a food for growing pigs, it is somewhat preferable to corn. The best results, however, are obtained when wheat is ground and fed with other grains. A mixture of equal parts of ground wheat and corn gives better results than either when or corn when fed alone. Experiments show that ground wheat is ten per cent. more digestible than whole wheat. When the price of wheat is low and it can be purchased for the same price per pound or less than corn, it will pay to use wheat in a ration. The manure from wheat-fed animals is more valuable than from corn-fed animals. As a food for dairy animals ground wheat has been found to be fully equal to corn or a mixture of corn and barley, and when fed to fattening steers ground wheat produced about the same results in a ration as ground corn. From the experiments that have been conducted, it would appear that the value of wheat, as a food, depends, to a great extent, on the way in which it is fed, and the foods with which it is combined. When properly used and combined with other grains, wheat is a valuable animal food. In addition to its being equal to corn for fattening animals, and superior to corn for growing animals, it is also equal to corn in a dairy ration."

A STRAW ICE HOUSE.

It Costs But a Few Cents to Build One That Will Answer All Ordinary Purposes.

A straw ice house will do good service, if properly made, and the surplus straw stack of many a farm may thus be turned to good account. The cheapest sort of a framework which

STRAWSTACK ICE HOUSE.

need not be tightly boarded up will answer. The floor should be leveled up and a drain consisting of a trench partly filled in with stones dug to carry off meltage water. Entrance should be through a long passage with several air locks to effectually cut off air currents. All surface water must be conducted away from such a stack and hogs kept out or they will burrow in and admit air to the ice.—Theron L. Hiles, in Ohio Farmer.

HINTS FOR DAIRYMEN.

Those people who consider milking irksome will never make good dairymen.

It is not always the man with the biggest herd of cows who clears the most money from his dairy.

Despite all of the laws to the contrary, skimmed cheese is yet sold for "full cream," and oleomargarine for real butter. Where is the remedy?

It is a parody on cleanliness to try to strain filth out of milk when it might have been obviated by the exercise of the most ordinary precautions.

It is a curious fact, and yet true, that some of the most profitable moments anyone engaged in dairying can spend are in repeated washing of the hands.

While it pays to raise hogs in conjunction with the dairy, it never has or never will pay the manufactory to keep the swine quartered near a cheese factory or creamery.—Nebraske Farmer.

DINING-ROOM ORNAMENTS.

Damascus lanterns, decorated with chains and jewels, represent one of the latest novelties in hanging ornaments.

The morning glory is the design of one of the prettiest of the new candlesticks. The color is blue and part way down the stem is a blossom which curves to form the handle.

In art pottery surprising bargains are to be picked up these days and for a few cents one may secure a dainty bit of bric-a-brac, though it be but three or four inches high.

Every variety of flowering plant familiar in the ordinary household, from the modest violet to the stately imperious American Beauty rose, can now be displayed in a vase especially designed to emphasize its peculiar attractiveness and never were flower holders in cut or Bohemian glass more beautiful.

A new style of vase has made its appearance this autumn. It is an extremely tall crystal holder with wavy lines in the stem suggestive of moire silk, and fluted top in the shape of a calla lily blossom. Exceptionally long stemmed must be the roses or chrysanthemums that would appear to advantage in these slender vases, which look like sentinels as they are distributed in the shop displays among the many-hued ordinary-sized vases.

Those who have tired of the conventional glass and silverware designed for table use will welcome the new combination of Bohemian glass and sterling silver that represents a fall novelty. Cracker jars, olive dishes and similar pieces are seen. These autumnal productions are very appropriate, for the brown, dull green and yellow shadings are duplicates of the tints of the leaves at this season and the glass at first glance seems more like highly glazed pottery than Bohemian ware. The silver mounting, in dull finish, harmonizes effectively.

IN THE BUSINESS WORLD.

An oil boom is spreading over Mexico.

The steel crisis in Belgium has reduced production 40 per cent.

Some 20 elevators of unusual size and capacity are being constructed in the northwest.

There are 27,969 joint-stock companies in the United Kingdom, with a combined capital of £1,512,000,000.

Nineteen street car companies in as many western cities now capitalized at $100,000,000 are to be brought under one management.

Coffee merchants figure out a world's supply this year of coffee of 24,000,000 bags, with a demand for only 15,000,000 bags, and they do not know what to do.

In the past five years the total funded debts of United States railroads have increased only five per cent. and capital stock only 18 per cent. In that time net gains have increased 43 per cent., and the sum total of dividends is 63 per cent. larger. Five years ago dividends were paid on $1,183,000,000 stock. Last year on $2,000,000,000.

Financiers of national reputation predict among the features of the coming 12 months a greater concentration of stocks in strong hands, greater power of the dominant interests to make up prices, an active buying up of desirable securities, the closing of a number of important railway deals, a combination of southwestern railroads, greater earnings of anthracite coal roads, closer relations of small Vanderbilt properties to the main lines, the absorption of small lines, immense crops, enormous export trade and general improvement of business.

In Use For Over Thirty Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Persons contemplating a journey East or West should be careful that the rates paid for their transportation do not exceed those charged by the Nickel Plate Road.

This company always offers lowest rates and the service is efficient. Careful attention is given to the wants of all first and second class passengers by uniformed colored attendants. The dining car service of the Nickel Plate Road is above criticism and enables the traveler to obtain meals at from thirty-five (35) cents to $1.00 but no higher.

The Pullman service is the usual high grade standard. Semi-weekly transcontinental tourist cars ply between Atlantic and Pacific Coasts. Confer with nearest agent of the Nickel Plate Road.

Her Circulating Medium.

"She's a very cautious woman. Especially about gossip. No woman ever heard her retail any scandal."

"But I am told that stories confided to her in secrecy do get out somehow."

"Yes, I know. You see, she tells them all to her husband."—Cleveland Plain Dealer.

Hoped They Would Run Their Course.

Mrs. Vernon Brown—Why on earth don't you get your husband to cut off his whiskers?

Mrs. Smiffian Jones—I wouldn't have him do it for the world. I want him to let them grow and get them all out of his system.—Stray Stories.

Every man hides his deformity.—Atchison Globe.

Travelers Call It Blessed.

Of all the blessings that a railroad company can confer upon a long-suffering public, none is greater than smokeless coal. The Lackawanna Railroad burns it; for which all travelers call that road blessed. No smoke! no dust. Its policy may well inspire the gratitude and patronage of a grateful and appreciative public.—Outing.

Then He Gets Noisy.

Mrs. Biggs—Your husband isn't much for show. He always dresses very quietly.

Mrs. Diggs—Huh! You ought to hear him sometimes when his collar button rolls under the dresser.—Chicago Daily News.

On Dec. 3rd and 17th the Norfolk & Western Ry. will sell round trip tickets from Cincinnati and Columbus to points in the Virginias and Carolinas at greatly reduced rates.

For all information as to rates, address Allen Hull, D. P. A., 45 E. 4th St., Cincinnati.

To suit the Case.

Jake—Cora has an aquiline nose, hasn't she?

Fake—How could I know? She always turns it up at me.—Harlem Life.

The best way to avoid anyone you do not wish to meet is by keeping straight ahead.—Washington (Ia.) Democrat.

It is not hard to let your moderation be known to all men, so far as the virtues are concerned.—Ram's Horn.

Syrup of Figs

The Sale Annually of Millions of Bottles

of Syrup of Figs and the universal satisfaction which it has given attest the fact that it possesses the qualities which commend it to public favor. With the diffusion of knowledge of what a laxative should be and a general understanding of the fact that it should have a truly laxative and beneficial effect and be wholly free from every objectionable quality, or substance, the large and growing demand for

Syrup of Figs

shows that it is destined to supplant the old-time cathartics which were generally injurious and usually disagreeable as well. In Syrup of Figs one finds a true laxative, simple and pleasant to the taste, gentle in its action and beneficial in effect.

In the process of manufacture figs are used as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. In order

To Get Its Beneficial Effect

Neighborhood News.

PLATTSBURG—James Botts had a nice cow to die, last week.

J. E. Botts and daughter were in the city, one day last week, shopping.

Mr. Stevenson and Mr. Byland, of Walton, were visiting J. W. Gaines, last Sunday.

Elmo Gaines, of Idlewild, spent two or three days last week, with his brother, Jim, huntiug.

Among the sick in this community are, Mrs. J. W. Gaines, who has been quite sick for a week or two; Little Martha Randall, who has been complaining for several days; Mrs. W. S. Acra, who has been poorly for a week or more.

JACOB'S WELL.—An epidemic of bad colds prevails here.

Perry Utz killed hogs one day last week.

Arthur Tanner has sold his share of the phonograph to Harry.

E. H. Blankenbeker and Jas. Barlow have made a purchase of some fine locust posts on the Noah Utz farm.

Mrs. Belle and Nannie Tanner, and Mrs. Mamie Utz were guests of Mrs. J. M. Utz, of Gunpowder, one day last week.

We had the pleasure, Saturday, of meeting Tom Rieb, one of Boone county's boys, who is now running one of the largest engines in Cincinnati.

LIMABURG.—Hubert Rouse had a woodsawing last Saturday.

Eddie Riggs has 10 pigs for sale.

Billie Dobbins will move to Delila Utz's farm.

John Kahr, of Hebron, was the guest of Geo. E. Rouse, Sunday.

Born, on the 5th inst. to Wm. Garnett and wife, a bouncing boy.

The saw mill, after having been idle for two months, has resumed business.

The recent rain started the creek, and it is doing business at the old stand.

Those who have been hauling water for the last five months can now take a rest.

Chas. Garnett has done good work on the roads in this district, and wants the office again.

FLICKERTOWN.—The local trappers say skunks are plentiful.

Ben Hensley is hauling corn from J. I. McWethy's.

W. C. Hensley has purchased a new $150 buggy. Look out, girls!

Charles Sebree delivered some nice porkers to E. M. Holton, Thursday.

Frank Voshell spent a couple of days last week, visiting relatives in Indiana.

J. I. McWethy, of Petersburg, bought some stock hogs of Ben Hensley, last week.

Woody Sullivan had a wood sawing, last Wednesday, and got a nice lot of wood sawed.

Mrs. Nina Moreland entertained a number of her friends with a quilting bee, last week.

Capt. Stephens, of the Hathaway neighborhood, was in this vicinity, last week, trying to rent a place.

VERONA.—We have been blessed with a good rain at last.

Several new cases of measles are reported.

A. P. Myers is all smiles over the recent arrival of a fine girl at his home.

The schools here have closed, on account of measles, until after the holidays.

Several of our citizens attended court at Burlington last week, in the Powers will case.

Ben O'Neal offers a reward of $5 for the name of the person who shot one of his hounds, recently.

Marshall Whitson delivered several hundred bushels of wheat to Collins & Bros. of Crittenden, last week.

Charles Griffith and Dr. James McCormac will be two of the money winners in the Enquirer guessing contest.

J. M. Powers and wife were called to Covington on account of the illness of the little granddaughter, Maggie Johnson, who has typhoid fever.

RABBIT HASH.—Ves Gaines, of Burlington, now located at Rising Sun, was buying cattle in this vicinity, last week.

Elbert Ryle is confined to his bed with pneumonia.

Reuben Hagar, of East Bend, is on the sick list this week.

Sam Wilson and Rob Clore drove some cattle to Covington, last week.

Mrs Rogers and the Misses Moody, of Grant, were visiting Mrs. Robert Clore, Friday.

Wallace and Ernest Stephens shipped a drove of fat hogs to Cincinnati Thursday night.

Miss Mamie VanNess left here Sunday for a two months' visit with relatives in Cincinnati.

The protracted meeting in progress at East Beud M. E. church is being well attended, but no additions this far.

Our new physician, Dr. Hopkins, by his sociability and engaging manner, has won the respect of all of the good people of this neighborhood.

HATHAWAY.—Born, to Otis Rouse and wife, a son.

E. R. Smith has another relapse.

Several in this neighborhood have finished gathering corn.

G. L. Smith made a business trip to the county seat, Friday week.

Jno. L. Henderson made a business trip to Rising Sun, last Thursday.

Rumor says there will be a couple of weddings here in the near future.

Mrs Cynthia Mason was visiting at L. J. Riley's a couple of days last week.

There was considerable ice on Gunpowder, a couple of mornings, last week.

The two little sons of Otha Hubbard have been on the sick list for the past week.

V. W. Gaines, the Rising Sun butcher, was in this vicinity hunting beef cattle, one day last week.

Mrs. Sarah E. White was visiting her brother, W. L. Ryle, of Woolper neighborhood, last Thursday.

L. J. Riley and wife, P. P. Neal and wife, and James Riley and wife, were guests of John L. Presser and wife, last Sunday.

The sale of the late David Clements' came off last Saturday week, with a good crowd in attendance. Some articles brought fair prices, while others sold very cheap.

CRESCENT.—Lon Tanner and wife were visiting, Chas. Tanner and family, of this place, last Sunday.

John Mardis is the pleasant guest of Mr. and Mrs. Henry Groger.

Wm. Scott bought and shipped a car load of coal to this place.

An electric signal staff is being put in on the switch at Dixon Station.

Chas. Fultou and wife were visiting Mr. and Mrs. James Glass, Sunday afternoon.

Frank Respass, of Newport, visited his father, Wm. Respass, of Richwood, last Monday.

Miss Tenia Carpenter, of Richwood, was visiting her brother Cove Carpenter, Thursday.

John Vest, of Independence, is home again after spending several days with relatives at Verona.

Miss Mabel Huron has returned from a pleasant visit among friends and relatives near Hebron.

Miss Hattie Northcutt is spending Saturday and Sunday with her sister, Mrs. Edna Brown, of Cincinnati.

Our popular agent at Dixon, C. L. Doty, entertained his mother, Mrs. Doty, of Lexington, Saturday last.

Mrs. Mary Bettman, of Cincinnati, is spending several weeks with her sister, Mrs. Ernst Groger, of this place.

Mr. and Mrs. Meredith Conner, Geo. Rice and family, and Rev. Slater and family spent Sunday with Mr. and Mrs. Tom Rice.

John Brames, of Covington, gave an entertainment with his graphophone Tuesday night at the home of John Conner, of Richwood.

On account of an accident which occurred to freight train No. 51, the noon accommodation train was "laid out" at this place for several hours last Friday.

Hubert Carpenter, Hugh Carey, Perry Dixon and Bert Northcutt, champion domino players, met at the postoffice, one day last week, and crossed steel. Perry soon won in a walk over and the other boys have challenged him to meet them again.

Cove Carpenter, a prominent young farmer of this place, met with a frightful accident Tuesday, on the Southern Railroad. It was in the early afternoon, when Carpenter, driving his two horse wagon, reached the crossing north of Dixon Station. At the same moment the north bound accommodation train shot past the crossing. Both horses were instantly killed, and the wagon dashed to pieces, while Carpenter was thrown from his seat over an adjacent fence. Mr. Carpenter was badly bruised about the head, sustained a broken ankle, and is probably injured internally. His escape was almost a miracle, considering that both wagon and horses were demolished completely. Dr. Dulaney, of Florence, is attending Mr. Carpenter, and we have hopes of his speedy recovery.

MOUND FIELD FARM.—The Hebron Christian Endeavor Society met with Ex-Sheriff Beall and wife, last Saturday night.

Miss Clara Hoseman is home from Lebanon College on a short vacation.

William Graves, jr., and family are now citizens of Hebron, having moved here last week.

William Clore and wife entertained quite a number of their friends at dinner, last Wednesday.

Word came over the telephone, last Saturday, that Walter Garuett and wife had another son at their house.

Heard a farmer say the other day that he would have to buy lard to grease his sausage mill in order for the meat to pass through.

Greenwood Grange held its regular meeting last Saturday. Officers for the ensuing year were elected and other important business was transacted.

Doc Mannin finished gathering his corn last week, and by the hardest he crowded it in two cribs. The rabbits had not injured it as badly as he anticipated.

It is hoped that some of our capitalists will start a building boom in the spring, as, no doubt, there are hundreds of people that would move to Hebron could they secure houses to live in.

Tom Howard, of Petersburg, and your humble servant shared the hospitality of Mr. and Mrs. Gadd, near Union, several days last week. While there we reduced the number of rabbits alarmingly, leaving barely enough for seed.

Boone County Pomona Grange will meet with Greenwood Grange on Friday, the 20th inst., at 10 o'clock a. m. It is very essential that all who are interested attend, as officers for the ensuing year are to be elected that day, besides there is other important business on the program.

We heard Tom Hafer offering to gamble to the amount of $500 or more the other night that John H. Mannin could walk and carry 100 pounds between Clores store in Hebron and the store at Limaburg, a distance of three miles and a fraction, and not make any stops for rest during the trip. John is willing to undertake the feat for small consideration.

WALTON.—Mrs. Judith Peak has just finished a 30-yd hit or miss carpet. It is very smooth and handsome for a rag carpet and would have a very becoming look on any floor. She desires to sell it.

The postoffice has been removed to the house adjoining A. M. Edwards' Livery Stable. The people are pleased at its being in a house to itself. Walton and anyother town of its size is better accommodated where no other business is conducted in the postoffice. The farmers are wondering when we shall have the Rural Mail Delivery. It can be said, just as soon as you go to work and apply for it. Live communities get this and other conveniences of a public nature by trying to get them. If no effort is made to get them it will be concluded are not desired.

The north side of the hardware Store of Edwards Bros., was veneered with a four inch brick wall last week. Mr. W. H. Metcalfe, the owner of the building, says, as an investment it will pay for itself in five years, as it cuts the insurance rate almost in halves and enables the storekeeper to get insurance on his stock at about 2½ or 2¾ per cent. It is said that T. F. Curley will soon have the north and south sides of his handsome store and dwelling house veneered in the same style; and A. M. Edwards is seriously thinking of having the Phoenix Hotel and the Livery Stable treated in the same manner. These improvements will add greatly to the appearance of the town and give so much more security to it against disastrous conflagrations that it is a matter of consequence to have it done as soon as possible. And while they are at it why not give the Opera House the same treatment?

PETERSBURG.—Some of our farmers are buying corn in Indiana at 72 cents a bushel.

Aurora had another fire Sunday night.

E. W. Phillips, of Aurora, was here Friday.

Miss Birdie Holton is visiting relatives in Owenton.

Robert Brasnier will move to Newport in the spring.

J. B. Brooks has sold his house and lot to Ben Drake, of Bellevue.

Aurora has a new wharf-boat, of which her people are very proud.

The young people will give a big ball in Gordon's Hall on Christmas night.

It is understood that the chemist is ready, to make his report in the Tilly case.

T. B. Mathews is Supreme Representative of the K. of P. Sovereign Grand Lodge of the world.

The distillery here is filling the largest order for holiday goods it has received in many years.

Abe Black, a Big Bone product, has developed into a successful contractor, builder and wrecker, since locating in Petersburg.

Grant Mathews is the most interesting conversationalist in town. He can give you an interesting history of the Spanish war.

A threatened conflagration at Anna Deiphi's, Monday morning, created considerable excitement, but did very little damage.

Miss Ida Berkshire, who went to Covington, several weeks ago, is detained there by the illness of her sister, Mrs. Ella Terrill.

George Bachelor, of East Enterprise, Indiana, moved to Mr. Guisenger's farm, Mr. G. will cultivate 100 acres of tobacco next year.

The Baptists will hold a protracted meeting here beginning the first Sunday night in January. The services will be held in Gordon's Hall.

Joseph McWethy, one of the most successful farmers in this part of the county, has on hand 600 bushels of old and 1,000 bushels of new corn.

An old fox and five cubs visit Frank Smith's barnyard every night, and are becoming so gentle that Frank can not keep them out of his way.

Rev. T. B. Cook, assisted by Rev. Chatham, of Brooksville, Ind., is engaged in an interesting protracted meeting at East Bend M. E. Church.

There will be a wedding on Christmas day four miles out on the Woolper pike. The young man comes from the sandy soil, and the young lady, from the clay.

Ed Stott and Cecil Burns have rented a large farm on the Indiana side of the river just below Lawrenceburg, and will engage extensively in raising hogs and cattle.

The Christian Sunday School will give a children's party at Gordon's Hall on Christmas eve night. The Methodist will have no Christmas exercises at their church.

Lou Terrill, the leading fruit grower in this part of the county, predicts a small crop of fruit next year, because the dry weather of this year will prevent the buds from filling.

The ladies of the M. E. Church will give an oyster supper at the residence of Hon. T. B. Mathews, next Friday night. No pains will be spared to make this the occasion of the season. All are invited to come and assist in a good cause.

The household goods of J. B. Berkshire arrived from Sullivan, Indiana, last Friday. Jack is gladly welcomed back to his old home by a host of friends. He will, henceforth, be seen behind the counter of Berkshire & McWethy's store.

Ben R. Smith has resigned as first clerk on the Workmn, and Wallace Grant has been appointed to the position. Mr. Smith was justly popular with the shippers along the river, and Mr. Grant, who has had considerable experience as a clerk on the Workum, will make a worthy successor.

The old Smith building in the southern part of the town is being wrecked. It is, probably, the oldest structure in this part of the county, having been erected in 1794—over 100 years ago. The roof was put on with wooden pins. Could this old landmark only talk it would relate many interesting incidents of early history long since forgotten.

BELLEVUE.—The gasoline boat, Mystic, is making daily trips to Aurora.

Mrs. J. J. Walton is convalescing after an illness of several days.

Some say they are butchering their hogs to keep them from starving.

Owen and Perry Presser will move into their new residence, this week.

Botts & Setters will move their saw-mill to near the big spring on J. M. Moody's farm.

Your correspondent had the pleasure of entertaining all of his brothers, one day last week.

Miss Hattie, daughter of J. M. Moody, was married, one day last week, at Guilford, Indiana.

Miss Julia Dinsmore returned home, last Monday, after a visit of several days, with friends in Cincinnati.

Mrs. Alice Cook and children, of Woolper Heights, were visiting relatives here several days last week.

Forest Brown and wife, nee Grace Rogers, of Owen county, are guests of Mrs. Brown's parents, near here.

Ben Drake has sold his house and lot to Dony Cook and purchased property in Petersburg, to which he will move shortly.

Tom Clore has his yard-stick and scales in perfect working order, and is giving his customers 36 inches for a yard and 16 ounces to the pound. His prices correspond with the times.

Dr. Williamson will hang up a grain sack in which to receive his presents from Santa Claus. I'm thinking he will rob several about here. Doc, you will divide with a fellow, wont you?

As Judge Roberts and his two daughters, Misses Sheba and Susie, were coming from Erlanger in their carriage, last Saturday evening, the Judge attempted to pass a vehicle at J. H. Clore's near the toll-gate on the Florence division of the road, and it was so dark that he did not see the obstructions that were just ahead of him, and the wheels on one side of the carriage ran on to a ridge of broken stone, while those on the opposite side dropped into the ditch, and, as a result, the vehicle was turned over, and the top and shafts were broken off. The Judge held the horse, preventing it from running, and luckily he and his daughters escaped with only a few slight scratches and bruises. The mail wagon came along in a few minutes and brought the young ladies home.

Saw Death Near.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthama and all Throat and Lung diseases. 50c and $1 at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oelsner's, Florence; H. L. Eskew's, Walton; O. N. Grant's, Bellevue. Trial bottles free.

S Q has cut the Price on Patent Medicines 30 to 40 Per Cent.

GOOD TERMS TO FIRST CLASS AGENTS.

Local News.

Now is the time to plant Christmas advertisements.

The last shower of rain helped the looks of the growing wheat.

J. O. Huey, of Erlanger, has a yard full of good Raymond City coal.

Those who have tobacco have been given an opportunity to engage in the stripping act.

Mrs. Neal Brown's sale is on the 17th inst., and on that day her farm will be sold or rented.

James Carroll, of Beaver, is authorized to receive and receipt for subscriptions to this paper.

It was a pretty close race between the rain and the snow, but the rain came under the wire first.

The last issue of the Owenton News-Herald contained fifteen advertisements of Commissioner's sales.

So certain was Judge Lassing that it would never rain again, he began hauling water from Middle creek, Sunday.

The schools in Covington and in several of the country towns have been closed on account of prevalence of the measles.

Hunters report rabbits as scarce in this part of the county, but it is no wonder as they have been killed and sold by hundreds for two months or more.

In his speech in the Powers will case Judge Lassing asserted that in the history of this county a will had not been broken, although many had been attacked.

To correspondents: Always give the place of residence of persons visiting in your locality. Items lacking this information cannot be used because of their incompleteness.

From the way the Republicans were caucussing in Burlington, on Monday of last week, it was evident one of the factions in the county thought it had something up its sleeve.

In this issue appears the advertisement of the sale of B. F. Tanner, of Erlanger. Read the list of property and you will see someting that you want. Date of sale, December 21st.

On account of illness Mr. Sayer, of Erlanger, could not come to Burlington, last Sunday to organize the Christian Endeavor and the organization of the society was postponed until further notice.

The ladies of Hopeful church will give an Oyster Supper at Odd-Fellow's Hall, Florence, on the evening of the 26th inst. All are cordially invited. Admission.— Adults, 25 cents; children, 15 cents.

In 1837 W. T. Winston was conducting a store in Petersburg, and here are some of the prices for which he sold goods: Calico, 25 cents a yard; Indigo 10 cents a pound; Madder, 25 cents a pound; Buttons, 6 cents a dozen.

Mt. Pleasant Grange will give a musical and dramatic entertainment at the Grange Hall at Bullittsville, Ky., Tuesday evening, Dec. 24, 1901, for the benefit of Grange Library. Admission, 20c. Programme in next's weeks paper.

Do not forget to use the telephone when you have an item of news that will interest the readers of the RECORDER. We have secured for you the use of any 'phone in the county, when you have an item for us, so don't be too modest to call us.

The following item is taken from a Cincinnati paper published in 1847: "A great falling off in the tobacco crop this year is expected. Last year the crop was over 90,000 hogsheads. This year it is estimated at 50,000. The price of leaf will, doubtless, advance."

The distillery at Petersburg is undergoing a general overhauling preparatory to a long run. This is good news to that town, as a very large per cent. of its population depends on that institution for a sustenance, and when it is shut down many of the laborers are compelled to go elsewhere for work.

Our young friend Cecil Gaines, is taking lessons in the banking business under Cashier Revill in the Boone Co. Deposit Bank. Mr. Revill could not have secured the assistance of a more obliging and correct young man, and it is hoped Cecil will develope into one of the leading bankers in this great country.

The rain that commenced falling last Sunday night was a source of much joy in this part of the country, for a genuine water famine was staring the people in the face, and many who expected to haul water Monday were agreeably disappointed when they found, Monday morning, a considerable amount in their cisterns and the gentle rain still falling.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said, 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by all druggists.

Holiday Goods.

On and after Saturday, December 14, I will display my line of Holiday Goods at my new store—the building lately occupied by W. H. Clark as a Dry Goods Store, one door above the National Bank. I will have the finest line of goods that I have ever carried. Call and see me; my room is large and you are invited to make it your headquarters when in Rising Sun. I extend a hearty welcome to the people of Boone.

Respectfully, J. P. HEMPHILL,
Rising Sun, Ind.

Personal Mentions.

Miss Martha Lassing, of Union, is a guest at Judge Lassing's.

Only those who have business are attending court this week.

E. H. Norman, a prominent citizen, of Walton, made us a brief call yesterday.

Mrs. Kate Ashburn, of Mt Adams, Ohio, is the guest of her sister, Mrs. F. A. Hall.

George Blyth purchased of Huey & Clore, of Bellevue, their two large black horses and a run-a-about.

It looked very much like winter after 9 o'clock Monday afternoon. The beautiful came down in fine style.

Mrs. Daniel Barlow has moved to the residence she recently purchased of J. M. Eddins in Burlington.

Decidedly more rain has fallen this week than this section has enjoyed, all told, since the third of last July.

Miss Edna Bryan returned to her home in Cincinnati, last Friday, after a week's visit with relatives here.

Judge Lindsay left Saturday morning to spend a few hours with his old friend, Dr. S. S. Scott, of Erlanger.

Geo. W. Davy, Special Loan agent, Northwestern Mutual Life Insurance Co., made the RECORDER a business call yesterday.

Miss Lottie Hall returned home last Friday, after a visit of three months, with relatives at Mt. Adams, Ohio, and Newport, Ky.

Vernon Pope, son W. L. Pope, has been quite low of pneumonia, but is progressing nicely under the skillful treatment of Dr. Duncan.

Judge Roberts expects to move back to Verona in a month or so. The people here will hate to have the Judge and his family leave them.

Miss Mary Thompson returned, last week, from a visit with friends in the north end of the county. She expects to start for old Pt. Comfort and New York in a week or so.

C. C. Adams, of Grant county, called on the RECORDER, Monday. The Boone Circuit Court that day issued him a license to practice law. He is superintendent-elect of Public Schools in his county.

B. C. Tanner, of Gunpowder, made this office a brief call, yesterday. He says that Uncle Dutton Crigler had quite a sick spell after he arrived in Florida, but is now about well. The trip was rather too much for him.

Messrs. Omer Henry, of Bullittsville, and Lloyd McGlasson, of Constance, two of Boone county's prominent young society men, were guests of Misses Edith Menauch and Mable Carnes Thanksgiving day.—Williamstowu Courier.

Tuesday morning had very much of a Christmas appearance, after the two inch fall of snow the night before, and the little boys brought forth their sleds early in the day to try the coasting. By the way, according to the predictions of Mr. W. T. Smith, who has been a close observer of the weather signs for more than four score of years, there is to be only one more snow this winter.

Food Changed to Poison.

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely. curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles. Only 25c at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Geisner's, Florence; H. L. Eskew's, Walton; O. N Grant's, Bellevue.

Having moved my Drug Store into the building lately occupied by W. H. Clark—one door above the National Bank, I cordially extend an invitation to all my old patrons and the public in general of Boone to call and see me at my New Place of business, here assuring you of my appreciation of your patronage in the past, and hoping for a continuance of the same.

I am yours respectfully,
J. P. HEMPHILL,
Rising Sun, Indiana.

The following orders were made by the County Court:

O. S. Watts qualified as Assessor.

Miss Kittie Kirtley's will was probated and William K. Leathers qualified as executor.

J. M. Finch, of Florence, was granted a tavern license.

Solon Early qualified as trustee for F. J. Appleton.

The following persons were released from erroneous assessments:

Emma Rouse, $1,200; Lucy J. Cowen, $1,000; Gertrude Green, Everett Willford. $800; Charlott Reidman, $200.

It appearing that D. E. Castleman, County Attorney, has secured a compromise of the city of Covington's bill of $340 against Boone County for taking care of two negro small-pox patients from Walton, which compromise settlement is effected at the agreed sum of $200 in full settlement thereof. The Sheriff of Boone county is now ordered to pay to D. E. Castleman the sum of $200 out of any funds in his hands belonging to the county, not otherwise appropriated.

The Sick.

Edson Riddell is laid up with a very sore throat.

If you haven't a bad cold you are not up-to-date.

Miss Alma Carpenter is recovering from an attack of measles.

Mrs. Noah Clore, who was very sick last week, has about recovered.

M. S. S. McManama has recovered from a serious spell of pneumonia.

Circuit Clerk J. W. Duncan is on the sick list yet, and not able to appear in court.

COUGHS AND COLDS IN CHILDREN.

Recommendation of a Well Known Chicago Physician.

I used and prescribed Chamberlain's Cough Remedy for all obstinate, contracted coughs, with direct results. I prescribe it to children of all ages. Am glad to recommend it to all in need and seeking relief from colds and bronchial afflictions. It is non-narcotic and safe in the hands of the most unprofessional. A universal panacea for all mankind.—Mrs. Mary R. Melendy, M. D., Ph. D., Chicago, Ill. This remedy is for sale by all druggists.

CURRENT TOPICS.

London is soon to have an office building on the American plan.

To crush a half inch cube of granite requires a weight of eleven tons.

The corporate limits of the city of Manila are shortly to be extended.

The New York Zoo is now in possession of a genuine double-headed snake.

A southern California man is reported to have found an egg of the extinct dodo.

In Turkey red hair is counted a great beauty and the women dye their hair that tint.

Kubelik, the famous European violinist, is here. He will get $100,000 for his American season.

It is said that $9,000,000 will be needed for the repair of our warships during the next fiscal year.

The most expensive chair in the world belongs to the Pope. It is of solid silver, and cost $90,000.

George Ehret, an old man of New York, worth $35,000,000, owns no less than 800 saloons in that city.

Dispatches from Turkey say Armenia brigands have captured sixty women and children and are holding them for ransom.

A well-known explorer of Africa says there is no doubt that many animals talk and laugh in certain ways among themselves.

Comparatively few horses attain to seventeen hands, but Kansas boasts of one that measures twenty hands and weighs 2,412 pounds.

Far away from civilization gesture-language is still extant in Australia. Some of the tribes possess an excellent code that is almost as efficient as the spoken language.

The German millionaire Jakob Plaut, who died in Nice last February, left the greater part of $2,000,000 for charitable purposes and institutions in Berlin, Hamburg and Saxon cities.

By way of commemorating the birth of Jolanda Margherita, niece of Queen Margherita of Italy, Prof. Zopetti recently published an historic sketch of the nineteen Margheritas of the house of Saxony.

American millionaires who expected to buy seats to King Edward's coronation from needy British peers are shocked by the information that none but British subjects will be present except in an official capacity.

As many kisses as shots are exchanged on a big field day with the Russian army. The emperor kisses his officers, the officers kiss each other, men embrace lovingly; old generals kiss; in fact, everybody is kissing and being kissed when the czar reviews his troops.

A French explorer has discovered on the west coast of Africa what he regards as the vainest people on earth. They are the Pahouins, a warlike tribe whose main employment is the adornment of their persons, chiefly by means of tattooing. Great ingenuity is also exhibited in dressing their hair, which in many cases is arranged in astonishingly elaborate fashion.

A German fire brigade inspector recently published the statement that burning oils and fats can be extinguished more effectively and easily by heaping a quantity of chopped straw upon them than by any other means. This seemingly paradoxical method was tried recently at a conflagration that broke out in a large oil warehouse, and was attended with success.

Burns's cottage, at Alloway, and the adjoining monument on the banks o. Doon attract annually a larger number of visitors than does any other literary shrine in Great Britain. Last year 45,100 tickets of admission were sold, and the Ayr Town Council resolved the other day to construct an electric train service from the "auld toon" to the famous cottage—a distance of two miles.

One receives almost a shock on arriving in Havana to learn that the first street you reach on your way upton is "O'Reilly" street, and that is with Obispo street, the principal business thoroughfare in the city. But a stay in Havana accustoms one to seeing Irish names in high places. There are hundreds of O'Farrells, O'Donuells, O'Reillys and other fine old Irish names.

The colored element constitutes in Virginia nearly one-third, or 32.7 per cent. of all males of voting age, and is comprised almost wholly of persons of Negro descent.

Greyhounds are pictured on Egyptian monuments carved 3,000 B. C. The Arab boardhound is the oldest type of domestic dog at present existing.

Reports gathered by leading newspapers show that only 141 persons in the whole Japanese empire have amassed fortunes amounting to $250,000 or over. The population is about 41,000,000.

HOAR ON ANARCHISM.

Favors Colonizing Advocates of the Doctrine by Themselves.

Transport All Anarchists Who Uphold Assassination or the Overthrow of All Government to That Place.

Washington, Dec. 6.—Senator McComas, of Maryland, made an extended and carefully prepared speech in the senate Thursday with anarchy for his theme, and was followed by some brief remarks by Mr. Hoar, of Massachusetts, on the difficulties in the way of dealing with anarchist assassins. Mr. McComas remarks showed careful examination of the legal authorities. He maintained that congress had full power under the constitution to enact a law punishing with death any person killing a president, or assaulting the president with intent to kill or aiding, inciting or procuring such an act. He favored rigid provisions in the immigration laws for the deportation of alien anarchists. Much of the speech was devoted to an explanation of the dangerous doctrine of anarchy, and the extent to which these doctrines had been propogated within recent years.

Senator Hoar's remarks were interesting, as coming from the venerable chairman of the judiciary committee, which will have much to do with the framing of any legislation on this subject.

He said the difficulty was that assassins of kings and rulers always gloried in their crimes, and were in no wise deterred by the fear of punishment. For this reason he thought it was almost useless to multiply punishments. The most effective remedy, he suggested, would be to have the civilized nations of the world agree upon some desolate spot on the earth's surface, to which all anarchists who upheld assassination or the overthrow of government should be transported. In such a community the anarchist could carry out his theories of living without a government, and the world would be rid of his presence.

"Let the anarchists have an object lesson," the senator said, "and let the world have an object lesson. Let there be a little inoculation of anarchy into the anarchist himself, and let him have an anarchistic government among his followers." Mr. Hoar said banishment would be a proper punishment under the constitution, and if all nations would agree that every such person be sent to a spot where there was no government, it would be an effective remedy. Certainly, the anarchist could not complain, for, in being transported to a place of no government, he would have reached his utopia.

THE VETERAN OFFICERS.

A Bill Providing For the Voluntary Retirement of Those Who Served in Three Wars.

Washington, Dec. 6.—Secretary Root has prepared for submission to congress a bill providing for the voluntary retirement of the veteran officers of the army who have seen service in the three wars, the rebellion, the Indian wars and the Spanish wars, with an additional grade. It appears that only about 201 officers will be affected by this arrangement, which the president himself will urge in the strongest terms as a measure of simple justice to the veterans, and as calculated to improve the efficiency of the military service by placing younger men in command.

UTE INDIANS.

Commissioner of Indian Affairs Jones Introduced a Delegation to the President.

Washington, Dec. 6.—Commissioner of Indian Affairs Jones Thursday introduced to President Roosevelt a delegation of Ute Indians who were anxious to meet the "Great Father."

The president shook hands very cordially with each of the Indians. One of the Indians understood English. On being informed of this fact the president turned to him and said:

"Tell your brothers that I had 50 Indians in my regiment during the war with Spain and they made fine soldiers." The Indians appeared to be very much pleased when this message was conveyed to them.

Thick Fog Over Paris.

Paris, Dec. 6.—There has been a thick fog over Paris all day long and street traffic was considerably impeded. Traffic on the river was stopped. There was a collision between a suburban train and a light engine at Clichy station. Five passengers were injured.

Town Company Fails.

Nashville, Tenn., Dec. 5.—The Elizabethtown Town Co., in Carter county, Tennessee, has been placed in the hands of a receiver. Its assets are $59,000, and liabilities are reported at $75,000.

Snowfall in the South.

Louisville, Ky., Dec. 6.—One to two inches of snow fell Thursday afternoon at Memphis and Chattanooga, Tenn., and Holly Springs, Okolana and Oxford, Miss. Snow fell Thursday night at Charlotte, N. C., and through out middle and upper South Carolina.

A Nobleman Bounced.

Pittsburg, Dec. 6.—Baron Gulzberg a French nobleman, and claiming to have been a Boer soldier, here collecting money for the Boers, was arrested charged with trying to chloroform a girl and was driven out of town.

OVER A STEEP BLUFF.

Engineer and Fireman Crushed to Death Beneath the Engine on the Canadian Pacific.

Vancouver, B. C., Dec. 7.—As a Canadian Pacific freight train was proceeding east at a slow rate around a dangerous curve, 400 feet above the Frazer river Friday, Engineer Randall suddenly came upon a rock slide scarcely 50 yards ahead of him. A signal was given to the brakemen and the engine was reversed, but too late. The train was going scarcely five miles an hour, but the heavy train behind the engine was pushed on the rocks, and before the engineer and fireman could jump the engine rolled over and over a distance of 300 feet down the steep bluff toward the river. Engineer Randall and Fireman Potruff were crushed to death beneath the engine. Three cars were wrecked, going over the bank after the engine.

BUD WILSON HANGED.

The Murderer of Guard R. H. Naylor Died a Terrible Death From Strangulation.

Little Rock, Ark., Dec. 7.—Bud Wilson, a convict, who killed R. H. Naylor, a guard of the Yell county convict camp last September, was hanged at Danville. The trap was sprung at 9:45 o'clock and at 10:05 the body was lowered into a coffin. The lid was placed upon the coffin and the body began moving about. Wilson opened his eyes and his whole frame shook with tremors. He was taken from the coffin by the deputies and carried up the steps to the scaffold for the purpose of hanging him again. When the platform was reached the body became rigid, remaining so for a moment and then became limp. Wilson was examined by the physicians, who finally pronounced him dead, death being caused by strangulation.

SHOWED REMARKABLE NERVE.

Thomas J. Hampton Hanged at Lake City, Fla.—He Confessed to Five Murders.

Lake City, Fla., Dec. 7.—Thomas J. Hampton, colored, who committed a double murder at Fort White, in this county, nine years ago, was hanged here for the crime. The doomed man showed the most remarkable nerve and smoked a cigar to the very moment the black cap was adjusted. In his statement just before the execution he confessed to five murders, one of a conductor on a train in Lexington county, South Carolina, in 1887, a homicide that has for the last 14 years been a mystery. Other murders were committed in Georgia. He was working in a turpentine camp when the fourth white crime was committed. He escaped and was only recently captured.

ANOTHER COAL COMBINE.

The New Company Is a Virginia Corporation Known as Red Jacket Coal and Coke Co.

Roanoke, Va., Dec. 7.—Another consolidation of coal mines on the Norfolk & Western railway, in what is known as the Thacker field, was consummated here. The new company is a Virginia corporation, known as Red Jacket Coal and Coke Co., with a capital stock of $2,400,000. They have acquired the Red Jacket mine, the Logan mine, the Rutherford mine, the Lick Fork mine and the Maritime mine, all situated in the Thacker field in West Virginia and controlling 6,000 acres of land. The mines are all in full operation. They produce what is known as the Red Jacket coal and have a capacity of 1,000,000 tons per year.

Outlaw to Be Garroted.

Manila, Dec. 7.—The import merchants are preparing a petition, which will be sent to congress, asking that Manila be made an American port, free of duty. Maj. Velasco, an insurgent outlaw, who tried to murder a Filipino judge, has been sentenced to be garroted.

Lighting and Power Combination.

San Francisco, Dec. 7.—Eastern capitalists are interested in the formation of a large lighting and power combination which has been organized in this city with a capitalization of $30,000,000. The towns of Southern California and those as far north as Sacramento will be included in the operations of the corporation.

Raiding Villagers.

London, Dec. 7.—A dispatch to the Exchange Telegram Co., from Allahabad, India, says that Gen. Deaning's column from Jandola has been raiding the Mahsud villages in Waziristan, and that ten of his men have been killed and 16 wounded.

The Treaty Is Approved.

Washington, Dec. 7.—The senate committee on foreign relations voted to report favorably the new Hay-Pauncefote treaty providing for the construction of an isthmian canal.

Attacked By a Pet Goat.

Mattoon, Ill., Dec. 7.—Mrs. Henry Freize, aged 70 years, wife of a farmer of Shelby county, will probably die from an attack made on her by her pet goat, as she was hanging clothes in her yard. Her hip bone was broken by the animal.

Anti-Trust Measures.

Washington, Dec. 7.—Several anti-trust measures were presented to the house. One of them by Mr. Ball, of Texas, proposes the appointment of a special committee of nine representatives to report an anti-trust bill.

THE GATHMANN GUN.

Unfavorable Report Made By the Army and Navy Board.

The Destructive Effect of the 12-Inch Army Service Rifle, on the Other Hand, Surpasses Anything Hitherto Obtained.

Washington, Dec. 7.—The report of the mixed army and navy board, headed by Maj. Knight, corps of engineers, appointed under the terms of an act of congress to test the Gathmann gun, has been laid before congress by Secretary Root. The report is accompanied by a number of photographs showing the effects of the shots fired at the targets during the trial at Sandy Hook, on November 25. The report describes in detail the effect of each of the shots fired from the Gathmann gun and from the 12-inch army service rifle. The board sums up the results as follows:

"After a careful consideration of the effect of the various impacts on the respective targets of the Gathmann gun and the 12-inch army service rifle, the board finds that none of the impacts from the Gathmann gun would have endangered a modern battleship; that the Gathmann system is not effective as a means of attacking armored vessels, and that each of the shots from the 12-inch army service rifle would have wrought serious injury to a modern battleship as regards its buoyancy, the interior mechanism and the armament and the personnel. It may be said in the connection that the destructive effect of the 12-inch army service rifle surpasses anything hitherto obtained from any gun so far as this board has knowledge, or as the records show. There is nothing in the Gathmann system to recommend its adoption in the public service of the United States or to warrant further experiments."

THE SENTENCE DISAPPROVED.

A Soldier Should Not Be Punished For Alleged Drunkenness Due to Drinking Cider.

Washington, Dec. 7.—Gen. Brooke, commanding the department of the east, has decided that a soldier should not be punished for alleged intoxication due to their drinking cider containing intoxicating ingredients obtained at the post exchange. Private John W. Donovan, 16th company coast artillery, who bought the cider at the post exchange, was convicted by court-martial at Fort McPherson, Ga., of drunkenness on duty and sentenced to three months confinement at hard labor and to forfeit $20 of his pay, but Gen. Brooke has disapproved the sentence.

FIRE AT WILKESBARRE, PA.

Spark From a Broken Electric Light Wire in a Dry Goods Show Window Caused Loss of $135,000.

Wilkesbarre, Pa., Dec. 7.—The large dry goods store of Langfeld Bros., in this city, burned, the building and all the stock being destroyed. The clothing stores of Simon Long's Sons and Weltzenkorn Bros., adjoining, were also badly damaged. The total losses will be about $135,000. A spark from a broken electric light wire in one of the show windows of the dry goods store is said to have started the fire.

CHARGED WITH THREE MURDERS.

Miss Jane Toppan Indicted By the Grand Jury at Barnstable, Mass.—She Used Poisons.

Barnstable, Mass., Dec. 7.—Miss Jane Toppan has been indicted by the grand jury for the alleged murder of Mrs. Mary E. Gibbs, Alden P. Davis and Mrs. Genevieve A. Gordon, at Cataumet, Mass., in July and August, this year. There are four counts to each indictment.

The indictment charges the use of morphine, atrophine and a poison unknown to the jurors.

To Amend Apportionment Act.

Washington, Dec. 7.—Representative Crumpacker, of Indiana, has introduced a bill for an amendment to the apportionment act so that the membership of the house of representatives will be 372. The representation is based on the vote cast instead of population. It reduces the representation in the southern states and makes increases in northern states.

The Danish West Indies.

Washington, Dec. 7.—Representative Gardner, of New Jersey, has introduced a joint resolution authorizing the state department to purchase the Danish West Indies and appropriating not exceeding $4,000,000 for that purpose. The resolution refers to the desirability of American ownership of these islands under the Monroe doctrine.

Wants Foreigners Give Up Tien-Tsin.

Peking, Dec. 7.—The principal object of the visit to Peking of Yuan Shi Kai, the new viceroy of Chi Li, who arrived here December 3, is to induce the foreign powers to relinquish their control of the government of Tien-Tsin.

To Pension Mrs. McKinley.

Washington, Dec. 7.—Representative Taylor, of Ohio, introduced a bill to pension Mrs. McKinley at the rate of $5,000 a year, beginning September 14, 1901, the date of the death of the late president.

DESERTER KILLED.

David Fagin, An American Negro, Captured and Decapitated By Native Scouts.

Manila, Dec. 9.—Native scouts from Bengaison, province of Nueva Ecija, have killed the American Negro, David Fagin, a deserter from the 24th (colored) infantry, who for more than two years has been leading Filipinos against the American troops. The native scouts decapitated their prisoner. The man's head, however, was recognized as that of Fagin's. They also secured his commission in the insurgent army. Fagin had on one of his fingers the class ring of Lieut. Frederick W. Alstetter, of the engineers, who was captured by Filipinos, supposedly under the command of Fagin himself, October 28, 1900. Fagin has been reported killed upon several occasions. The authorities are satisfied that former statements of his death were erroneous and that he has now been killed.

A military commission has sentenced the Filipino general, Isidore Torres, to be hanged, after finding him guilty of ordering the assassination of Corp. Fieldned, of the 12th infantry, at Maiolos, province of Buluacan last October. The sentence of the commission has been disapproved by Gen. Chaffee, who finds that the commission had reasonable grounds to doubt whether Gen. Torres personally ordered the assassination of the American soldier. Gen. Chaffee thinks the high rank held by Torres in the insurgent army would have been sufficient to prevent such unmilitary action on his part.

THE FILIPINO PATRIOT.

The Birthday of Jose Risal Will Be Celebrated Annually in the Public Schools in the Philippines.

Manila, Dec. 9.—Superintendent Atkinson, of the public schools of the archipelago, has written a letter to Pedro Paterno, the Filipino politician, saying instructions have been given to every school throughout the islands to celebrate annually the birthday of Jose Risal, the Filipino patriot, who was executed by the Spaniards. The life and history of Risal will be recited in the schools on this day. Paterno, in a manifesto, has asked for contributions from the scholars, their parents and their teachers to be devoted to constructing the proposed monument to Risal's memory. Paterno concludes his manifesto, saying:

"If Risal, the Filipino Washington, were alive he would help all Filipino children to gain an education."

CURES LOCKJAW.

Pittsburg Physician Claims to Have Discovered a Successful Serum Treatment For Tetanus.

Pittsburg, Pa., Dec. 9.—Dr. A. Leteve, of the C. L. Magee pathological department of Mercy hospital, has discovered what has every indication of being a successful serum treatment for lockjaw. After a year of experimenting on lower animals, the doctor within the last three weeks had the opportunity of testing his theory on human subjects, one a middle aged man, a middle aged woman and a boy ten years of age. According to his statement, when these patients were first given the injections of the serum they were violent, being in spasms and convulsions. The treatment in five or six days restored them to their former health.

Dr. Leteve does not claim that the treatment will cure every case, but believes that the problem of treating tetanus successfully has been solved.

TRADES UNION MOVEMENT.

The President McKinley Trades Union Memorial Association of Illinois Has Been Organized.

Chicago, Dec. 9.—Steps toward a national trades union movement for a McKinley memorial fund were taken Sunday night when a number of men prominent in labor circles met and formed the President McKinley Trades Union Memorial association of Illinois. The movement will be started with a fund of $300 which the letter carriers of Chicago have secured towards the building of a monument and which they will give to the committee appointed for the collection of the funds.

NORTH ATLANTIC SQUADRON.

The Battleship Kearsarge Left New York and Will Join the Other Vessels at Havana.

New York, Dec. 9.—The United States first-class battleship Kearsarge left port early Sunday afternoon to join the North Atlantic squadron. She was fully bunkered and it is thought that she will proceed direct to Havana where the other vessels of the squadron are due to arrive on the 17th inst., to remain until the 26th, the programme of the annual winter cruise having been changed at the request of Gen. Wood, that the squadron be allowed to remain in the port of Havana for Christmas.

Saved a Child's Life.

Washington, Dec. 9.—Senator McLaurin, of South Carolina, saved a little 10-year-old girl Sunday evening from serious injury, possibly death, by being run over by an electric car, and was loudly cheered by those who witnessed the noble act.

Large Posse After Him.

Minter City, Miss., Dec. 9.—O. A. Horten, a white man, was killed by a Negro named Ben Jones, near here Sunday. Jones escaped and a large posse is scouring the country for him.

PRINCESS VIROQUA, M. D.

Endorses Lydia E. Pinkham's Vegetable Compound After Following Its Record For Years.

"DEAR MRS. PINKHAM:—Health is the greatest boon bestowed on humanity and therefore anything that can restore lost health is a blessing. I consider Lydia E. Pinkham's Vegetable Compound as a blessing to State and Nation. It cures her mothers and daughters and makes them well and strong.

PRINCESS VIROQUA,
Practicing Physician and Lecturer.

"For fifteen years I have noted the effect of your Vegetable Compound in curing special diseases of women.

"I know of nothing superior for ovarian trouble, barrenness, and it has prevented hundreds of dangerous operations where physicians claimed it was the only chance to get well. Ulceration and inflammation of the womb has been cured in two or three weeks through its use, and as I find it purely an herbal remedy, I unhesitatingly give it my highest endorsement. —Fraternally yours, DR. P. VIROQUA, Lansing, Mich."—$5000 forfeit if above testimonial is not genuine.

If you are ill do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham at Lynn, Mass. for special advice; it is entirely free.

Mythology in Kansas.

"Some one in Kansas proposed that a statue of Ceres be placed on the dome of the new statehouse, but now he wishes he hadn't made the proposition," remarked the exchange editor, as he laid down a Kansas paper.

"What's the objection?" asked the telegraph editor.

"It is urged that no one in Kansas knows the lady—that she probably was an actress, anyhow. It is the opinion that the figure of Chief Fewclothes, an Indian, would be more appropriate as an ornament to the dome of the Kansas statehouse."

"Well, I should think that a statue of Chief Fewclothes would be a mute departure, at any rate."—Pittsburg Gazette.

Had Him There.

"How crazy you women act over the 'Woman's page!'" said Mr. Pozenby, in a tone of withering sarcasm. "I wonder why the papers don't have a 'Man's page,' too?"

"They do," Mrs. Pozenby replied.

"I've never seen one."

"Oh, yes, you have. It's the page devoted to prize fighting and horse racing and other occupations of that sort."—Youth's Companion.

More Palatable.

"Good morning," said the would-be contributor. "How would you like to have an essay on 'Our Daily Bread?'"

"Thanks," replied the editor, "we prefer butter. Good-day."—Philadelphia Record.

A Change of Base.

"Least—I see a Philadelphia composer has written a quickstep.

Grimsonbeak—Yes, and I hear they are using it in Chicago for a funeral march.—Yonkers Statesman.

"Don't you know you oughtn't to smoke, my lad?" "So me physician tells me, but it's the only way I can get relief from business worries."—Indianapolis News.

DOINGS IN CONGRESS.

Bill Introduced Providing for a McKinley National Park.

The Senate Passed a Bill Extending the Life of the Industrial Commission Until February 15— Bills Introduced.

Washington, Dec. 3.—Senator Burrows, of Michigan, introduced a bill Tuesday providing for the exclusion and expulsion of alien anarchists.

Representative Brownlow introduced a bill amending the constitution so as to define assaults on presidents, vice presidents, members of the cabinet and justices of the supreme court, and giving congress power to fix penalties.

Resolutions respecting the late President McKinley were introduced in the house of representatives by Representative Grosvenor Tuesday, simultaneously with the introduction by Mr. Foraker, in the senate, of the same resolution.

The president's message was read in both branches Tuesday.

The house adjourned until Friday.

Washington, Dec. 5.—Practically the entire time of the senate Wednesday was devoted to the introduction of bills and resolutions. Among them were the following: For the admission of Mexico as a state; to prevent the dissecration of the American flag and to increase the pay of letter carriers; for a committee of five to investigate trade relations with the Orient; for the establishment of a department of commerce; to make the census bureau permanent; creating a national bureau of criminal identification; to repeal the bankruptcy law; for the laying of a cable to Hawaii and the Philippines; authorizing the creation of a forest reserve of 5,000,000 acres in the Apalachian mounts of Virginia, North Carolina, Tennessee and Georgia; subjecting national banks to the usury laws of the state in which they are located; creating a national military park at Valley Forge.

Washington, Dec. 6.—In the senate Thursday the presiding officer announced the following senators as the committee to act, with the committee from the house, to consider by what token of respect congress may express its deep sensibility at the death of the late President McKinley: Messrs. Foraker, (O.), Allison, (Ia.), Fairbanks, (Ind.), Kean, (N. J.), Aldrich, (R. I.), Nelson, (Minn.), Perkins, (Cal.), Jones, (Ark.), Morgan, (Ala.), Cockrell, (Mo.), and McEnery, (La.).

The senate passed a bill extending the life of the industrial commission until February 15 next, to complete the work it now has in hand.

A message was received from the president responsive to the senate resolution transmitting the letters of Jefferson to Madison and Monroe on the subject of the annexation of Cuba.

At 2:30 o'clock the senate went into executive session, and at 3:40 adjourned until Monday.

Washington, Dec. 7.—There was a large attendance on the floor when the house met Friday, but there were only a few spectators in the galleries. Mr. Gaines, (Tenn.), who has just returned from the Philippines, was sworn in. Speaker Henderson then announced the appointment of the following committees: Ways and Means—Republicans: Payne (N. Y.), Dalzell (Pa.), Hopkins (Ill.), Grosvenor (O.), Russell (Ct.), Steele (Ind.), Tawney (Minn.), McCall (Mass.), Long (Kan.), Babcock (Wis.), Metcalfe (Cal.). Democrats: Richardson (Tenn.), Robertson (La.), Swanson (Va.), McClellan (N. Y.), Newlands (Nev.), Cooper (Tex.). Appropriations—Republicans: Cannon (Ill.), Bingham (Pa.), Hemenway (Ind.), Barney (Wis.), Moody (Mass.), Van Voorhis (O.), McCleary (Minn.), Littauer (N. Y.), Brownlow (Tenn.), Gardner (Mich.), Burkett (Neb.) Democrats: Livingston (Ga.), McRae (Ark.), Bell (Col.), Pierce (Tenn.), Benton (Mo.), Taylor (Ala.). Enrolled Bills—Republicans: Wachter (Md.), Ball (Del.), Burk (Pa.), Currier (N. H.) Democrats: Lloyd (Mo.), Edwards (Mont.).

NATIONAL CIVIC FEDERATION.

The First Annual Session of the Federation's Industrial Department to Be Held December 16-17.

New York, Dec. 9.—The National Civic Federation announces that the first annual session of the federation's industrial department will be held December 16 and 17 in the rooms of the New York board of trade and transportation. The special object of the industrial department is to attempt to federate the representatives of the large employing corporations and associations, the leaders of the large labor organizations and representatives of the general public for the purpose of establishing the principles of conciliation and voluntary arbitration as the best means to prevent strikes and lockouts.

The principal topics to be discussed are "The effect of machinery on labor," the "Shorter hour movement" and the "Joint agreement method of preventing strikes and lockouts." Permanent executive board will also be appointed.

Conor O'Kelly to Be Prosecuted.

London, Dec. 9.—The governor has decided to prosecute Conor O'Kelly, M. P., and chairman of the Mayo county council and several officials of the County Mayo under the crimes act, for holding meetings and delivering intimidating speeches in defiance o. the orders of the police.

Declined a Bishopric.

Rochester, N. Y., Dec. 9.—Rev. Campbell Brown, of West Virginia, who was a short time ago elected Episcopal bishop of Porto Rico, has declined the appointment.

RESULT OF BITTER FEELING.

R. D. Coffman, Justice of the Peace, Shot and Killed Rev. J. Bradford, at Brookside, Ala.

Brookside, Ala., Dec. 9.—Rev. J. W. Bradford, Methodist minister at this place, was shot by R. D. Coffman, justice of the peace, Sunday afternoon at 5 o'clock and died two hours later. Coffman was standing in Bradford's doorway and fired two shots, both taking effect in the head. There were no witnesses to the tragedy.

Rev. Mr. Bradford had been returned here as the Methodist minister for another year. While at Sunday-school Sunday morning Rev. Mr. Bradford called attention to this fact and remarked that he hoped all the relations between himself and his congregation would be pleasant, adding, it is alleged, that their relations would be pleasant if they could stop such men as Coffman from lying about him and the church.

Coffman was once a member of Rev. Mr. Bradford's church, but had been expelled on some charge and for this reason there had been some bitter feeling between him and Bradford for some time.

Coffman immediately after the shooting surrendered to Deputy Sheriff Armstrong. A warrant has been sworn out before Justice J. T. Sellers charging Coffman with murder.

JUMPED THE SWITCH.

Passenger Train Wrecked at Macon, Ga.—One Person Was Killed and Twenty Were Injured.

Macon, Ga., Dec. 9.—A Central of Georgia passenger train, en route from Savannah to Atlanta, was wrecked as it entered Macon early Sunday morning. One person was killed and 20 were injured. The train had just crossed the river when it jumped a switch on top of a high embankment, the engine and tender parting from the train. There were 100 passengers on board and it seems a miracle that no more were hurt.

The baggage and express cars were thrown down the embankment and burned. The second class coach was thrown upon its side and also burned. The first-class passenger car fell over the embankment, and the Atlanta sleeper, filled with passengers, caught fire and was destroyed. Two sleepers were saved. The members of the Walter Mains circus were aboard. The only person killed was Julia Boynton, colored, of Columbus, Ga. The mail was saved. Among the injured are Lee Jackson, of Lafayette, Ind., and O. W. Dowd, of Geneva, O.

LABOR DISPUTES.

New South Wales Passed An Industrial Arbitration Bill Which Excites Much Interest.

Sydney, N. S. W., Dec. 9.—By the passage of the industrial arbitration bill, the government has placed upon the statute books a law, the working of which will excite interest throughout the whole world.

This bill not only compels reference of all disputes between employers and employes to a competent court, with power to enforce its orders and award, but makes a strike or a lockout, before or pending such reference, a misdemeanor, punishable by a fine or imprisonment.

The court which will pass upon these disputes is to be presided over by a judge of the supreme court and will have most extensive powers, including the power to declare a standard wage and to direct that, other things being equal, an employer shall give preference to unionist over non-unionist labors. There is no appeal from the decisions of the court.

ATTACKED THE DEPUTIES.

A Small Riot at Scranton, Pa., in Which the Officers Received a Severe Beating.

Scranton, Pa., Dec. 9.—At 10 o'clock Sunday night an attempt was made by three deputies to arrest boys who were stoning cars on South Main avenue, manned by non-union men. A big crowd set upon the officers and in the face of flying bullets, overpowered them and beat them severely. Two of them, S. F. Cosgrove and B. T. Reilly are in the hospital. The third, J. J. Lauders, was able to go home.

At 5 o'clock a crowd set upon five deputies who attempted the arrest of stone-throwers on Campos avenue, and after taking their prisoners away, put them in retreat with a fusillade of stones and bricks. The deputies returned with reinforcements, but the mob had disappeared.

Two Escaped Convicts Captured.

Leavenworth, Kan., Dec. 9.—Clark and Barnes, two of the 26 convicts who escaped from the Fort Leavenworth federal prison November 7, during the outbreak, arrived at the prison Sunday from Lawton, O. T., in the custody of Deputy Warden Lemon. Clark was one of the leaders of the mutiny and a reward was offered for his arrest. This leaves but seven convicts still at large.

Must Resign Political Positions.

Denver, Col., Dec. 9.—The Post says that all federal office holders in this state have received an order from President Roosevelt to resign whatever positions they hold in political organizations. Several have already resigned.

Four-Year-Old Kills Mother.

Pana, Ill., Dec. 9.—Four-year-old Cecil Bates accidentally killed his mother by knocking from a table a loaded gun. The charge was fired, and, entering Mrs. Bates' stomach, caused almost instant death.

THE PHILIPPINE ARMY

Gen. Chaffee Urges the Reduction of Troops Be Postponed.

Since June 10 361 Filipino Officers and 3,683 Men Surrendered, and 26 Officers and 494 Men Have Been Captured.

Washington, Dec. 7.—The war department made public the first annual report of Maj. Gen. Adna R. Chaffee, military governor of the Philippine islands. Gen. Chaffee sums up the situation in the Philippines from a military point of view by stating that the provinces of Batangas and Laguna, in Luzon, and the islands of Samar, Mindoro, Cebu and Bohol constitute the area now disturbed by any embodied force of insurgents. He says that to the physical character of the country, to the nature of the warfare of the rebels, who are amigo and foe in the self-same hour, to the humanity of the troops, which is taken advantage of by the rebels and the inhabitants who sympathize with them and to the fears of assassination on the part of the friendly disposed if they give information to the American forces, is due the prolongation of the guerrila warfare.

He recommends that there be no further material reduction of troops before January, 1903. The civil governments which are being organized—provincial and municipal—Gen. Chaffee says are both new and untried and there is but one certain and reliable method of ascertaining the progress of the Filipinos in self-government, namely, observation by the army. On the subject of the military government of the city of Manila, Gen. Chaffee says:

"In the government of Manila for three years, if the military have done nothing more it is everywhere apparent that an excellent foundation has been laid and a turbulent and a hostile community brought to observe the laws and individually be orderly; this has been done without undue harshness or severity of treatment of the inhabitants."

In anticipation of a partial concentration of the troops in the Philippines next year Gen. Chaffee submits estimates of cost for the construction of quarters and barracks. He recommends that a permanent post be constructed at once in the vicinity of Manila for a garrison of two squadrons of cavalry, two batteries of artillery and two full regiments of infantry, together with a hospital and store house, the whole to be under the command of a brigadier general. He gives $500,000 as a rough estimate of cost for this project, and says that $200,000 should be available immediately in order to take full advantage of the dry season. For the construction of permanent quarters at other points which may be determined upon during the fiscal year ended June, 1903, he estimates $2,000,000 is required.

American soldiers, he says, fail to discriminate between real and assumed friendship on the part of the Filipinos. A table is submitted showing that since June 10 last, the date of the last table submitted by Gen. MacArthur, up to September 15, 361 Filipino officers and 3,628 men surrendered to the American military and 26 officers and 494 men were captured.

McKINLEY NATIONAL PARK.

A Bill Introduced to Set Aside 4,000,000 Acres of Land in the Southern Apalachian Mountains.

Washington, Dec. 7.—Representative Brownlow reintroduced in the house a bill of the last congress for the creation of a park in the Southern Apalachian mountains. The bill provides that the park shall be called the McKinley National park and shall contain 4,000,000 acres.

"President McKinley was an ardent admirer of this park," said Mr. Brownlow in discussing his bill. "The south reveres and loves his memory because he did more than any other man to unite this country. That is why they want me to introduce this bill, creating the McKinley park in grateful remembrance of the man."

George M. Pullman's Will.

Redwood City, Cal., Dec. 7.—The will of the late George M. Pullman, who died November 28, has been filed for probate. The petition sets forth that the estate does not exceed $500,000, and that the known heirs-at-law are the mother, Mrs. Hattie Sanger Pullman, of Chicago, and the wife, Sarah Lander Pullman, of Menlo Park. The latter asks for letters of administration.

Eulogized Abraham Lincoln.

Ann Arbor, Mich., Dec. 7.—Col. Henry Watterson, of Louisville, Ky., gave a lecture before the Students' Lecture association on Abraham Lincoln, eulogizing him as the best friend the south ever had. After the lecture the Southern club of the university tendered Mr. Watterson a banquet.

Business Failures.

New York, Dec. 7.—Business failures in the United States for week number 237 as against 189 last week, 224 in this week last year, 220 in 1899, 257 in 1898 and 292 in 1897. Canadian failures number 23 against 26 last week and 27 a year ago.

Rioting in Prague.

London, Dec. 7.—"Thousands of the starving unemployed are rioting daily at Prague," telegraphs the Vienna correspondent of the Daily Mail, "and strong forces of police are preserving order there."

THE WEATHER BUREAU.

Great Progress Has Been Made In Wireless Telegraphy, Says Prof. Willis L. Moore.

Washington, Dec. 9.—The annual report of Prof. Willis L. Moore, chief of the United States weather bureau, says that substantial improvements have been made during the past year in the weather bureau. Such progress has been made by the government experimentors in wireless telegraphy that with no interference by private systems, stations can be successfully operated over at least 150 miles of coast line, and are now in operation along the Virginia and North Carolina coasts and soon will be instituted between the Farralone islands and the mainland and Tatoosh island and the mainland on the Pacific coast.

The system of selective telegraphy he regards as well demonstrated theoretically but has not been fully tested in practice.

An important extension of the forecast work of the bureau was made during the year whereby meteorogical reports from certain points in the British isles, the continent of Europe and from the Azores are transmitted to Washington and with observations from Nassau, Bermuda and Turks island are regularly published on the weather maps, together with forecasts of the wind and the state of the weather for the first three days for steamers bound eastward.

In a number of instances, when storms of marked strength were passing eastward off the American coast, forecasts of the weather which probably would be experienced by steamers leaving European ports westward bound were cabled to England. Fog predictions also were issued. Reports from steamers show that these forecasts and other special warnings have been verified.

The lines of work pursued in previous years by the climate and crop service of the weather bureau were continued, and extensions and improvements made wherever possible. The cotton region service has been extended into Oklahoma and the Indian territory and arrangements have been made for beginning a similar work in California, to be known as the fruit and wheat service. Prof. Moore points with pride to the complete system the weather bureau has for the accurate and complete collection and dissemination of crop information, having a large number of paid employes and volunteer observers and 14,000 persons reporting weekly to central points on the effect of the weather upon the crops in their respective localities.

THE MINT SERVICE.

Coinage During the Fiscal Year Has Amounted to 176,999,132 Pieces, Value of $136,340,781.

Washington, Dec. 9.—The report of George E. Roberts, director of the mint, upon the operations of the mint service during the fiscal year ended June 30, 1901, has been completed. The coinage of the mints during the fiscal year amounted to 176,999,132 pieces, of the value of $136,340,781. Of this $99,065,715 was in gold, $24,298,850 was in silver dollars, $10,966,648 was in fractional silver, and $2,089,568 was in minor coins. There also were coined at the Philadelphia mint 225,000 gold pieces of the value of $349,014, for the government of Costa Rica.

The coinage of silver dollars during the year was wholly from the stock of bullion accumulated under the act of July 14, 1890. The amount of this bullion on hand at the beginning of the fiscal year was 83,268,054 standard ounces and at the end of the year 52,562,927 standard ounces.

The original deposits of gold at the mints and assay offices amounted to $155,101,580, an increase of $19,181,561 over the preceding year. Of this $27,906,489 was in foreign coin, $17,600,463 that of Great Britain, nearly all being Australian, and $5,425,500 that of Japan.

The estimated production of gold in the United States during the calender year 1900 was of the value of $79,171,000, and notwithstanding the fact that this country led the world in productions, its imports exceeded its exports by $12,866,010. The production of North America, practically all of which comes to the United States, was $116,051,500.

The world's coinage of gold in the calendar year 1900 was $354,936,497, and of silver $177,011,902.

The industrial consumption of gold in the United States during the calendar year 1900 is estimated at $18,667,500, and of the world approximately $75,000,000.

The stock of subsidiary coin in the country is limited by law to $100,000,000, and on November 1, 1901, the existing stock was $80,613,512. By the act of March 4, 1900, authority was given to use silver bullion purchased under the act of July 14, 1890, for this coinage, but it is necessary that the limit set upon the stock in the country be removed or raised. November 1, 1901, the stock of bullion acquired, under the act of July 14, 1890, was 51,763,642 standard ounces.

Will Eject Cattlemen.

Ardmore, I. T., Dec. 9.—Prominent cattlemen of the Choctaw nation will be ejected from the domain, being regarded as intruders by the Choctaw tribal government, and the Indians. It is asserted, have the backing of interior department.

Will Fight McGovern Next July.

New York, Dec. 9.—Yielding to the personal request of Terry McGovern, Young Corbett Sunday night, it is said, agreed to fight Terry next July. It is understood that the two would post forfeits Monday morning.

STATE ITEMS OF INTEREST.

NEAR BULLETSVILLE.

Traces of Oil Was Discovered in Boone County While Excavating—Company Organized.

Petersburg, Ky., Dec. 6.—It is thought that oil has been discovered in paying quantities on the farm of O. M. Gaines, of Bulletsville, about six miles south of here. So convinced of this fact are Mr. Gaines and his neighbors that they have organized a stock company and have made arrangements to drill two wells on Mr. Gaine's farm and one on an adjoining farm, owned by W. C. Watts. Mr. Gaines, while excavating for a foundation, found that more than six feet under the surface was wet. This fact, considering that the summer and fall have been exceedingly dry, got Mr. Gaines to thinking. Further investigation by him and neighbors convinced them that there was oil in paying quantities on their farms. A stock company was immediately organized, and it was decided to commence the work of drilling for the oil. Mr. Watts was made president of the company.

KENTUCKY INSURANCE MEN.

They Want a Fire Marshal and All Foreign Agents Kept Out of the State.

Frankfort, Ky., Dec. 5.—A committee of the resident insurance agents of Kentucky called on Gov. Beckham Wednesday and requested him to recommend in his message to the general assembly, which meets January 7 next, the adoption of new legislation which it will offer.

It will present two measures, one being an act to prevent fire, marine or liability companies not incorporated in Kentucky from writing policies on property in the state except through a resident agent. The other is an act to provide for the investigation of incendiary fires and to provide for the punishment of persons guilty of incendiarism.

HUNTER'S NARROW ESCAPE.

The Force of His Gun When It Was Discharged Kicked Him into the Kentucky River.

Burgin, Ky., Dec. 7.—James Green, aged 14, came near drowning in the Kentucky river a few miles east of here in a most peculiar manner. He was out duck hunting in a canoe and was leaning back in the boat at such an angle that when he fired at the ducks flying overhead the gun kicked him into the river, his feet at the same time becoming entangled in some trappings in the boat, rendering him helpless, his head being submerged in the water. A man on the shore cut the moorings of a boat nearby and rowed to the drowning boy just in time to save his life.

OVERHEARD THE PLOT.

The Knowledge of An Alleged Murder Is Said to Have Caused a Barkeeper to Commit Suicide.

Louisville, Ky., Dec. 6.—J. O. Lyons, of this city, is in Paducah to investigate a rumor with regard to the death of his cousin, Stanley Lyons, aged 22, of this city, who was found dead in the New Richmond hotel at Paducah three years ago. Lyons had committed suicide, but according to a story Mr. Lyons had heard he was murdered for some money he had won at gambling, and his body and the pistol were arranged to make it seem suicide.

The story has it that Charley Sexton, a barkeeper, overheard the plot, and that his knowledge so weighed on him after the young man's death that he killed himself a short time ago.

Judge Cantrill Is Indisposed.

Paris, Ky., Dec. 5.—Circuit Judge Cantrill being temporarily indisposed at his home, in Georgetown, the bar Wednesday morning elected Russell Mann pro tem. judge to try the case of Buck Freeman for the murder of William Richardson. Freeman killed Richardson in a quarrel in the former's saloon. He will claim self-defense.

To Jewish Hospitals.

Louisville, Ky., Dec. 7.—The will of Bettie Kern, probated Friday, bequeaths small sums to local charities and then provides that the estate he divided between the Jewish hospital at Denver and the Jewish orphan asylum at Cleveland. The value of the property is about $10,000.

The Oldest Kentuckian.

Middlesburg, Ky., Dec. 5.—Casey county bears the distinction of having the oldest living person in the state. Mrs. Elizabeth Bell, who lives near Dunnville, this county, is hale and hearty at the ripe old age of 105 years.

Gave Away Her Children.

Louisville, Ky., Dec. 7.—Mrs. Mary Weinbreener has given away two of her children, but does not know where they are or to whom she gave them. The woman was in the city court Friday morning on a charge of drunkenness.

Public Schools Closed.

Newport, Ky., Dec. 7.—The public schools of Newport were closed Friday morning on account of a threatened epidemic of contagious diseases. The schools will, in all probability, remain closed until after the holidays.

A BIG DEAL IN WHISKY.

Seven Thousand Barrels of the Spring of '93 and Fall of '94 to Be Shipped to Hamburg and Bremen.

Louisville, Ky., Dec. 7.—A deal has just been completed between the Kentucky Distilleries and Warehouse Co. —the whisky combine—and a Louisville warehouse company for the exportation of 7,000 barrels of the spring '93 and fall '94 whisky to the foreign warehouses of the warehouse company at Hamburg and Bremen, Germany. The shipment is made in order to avoid the payment of taxes on these goods, which would soon be forced out of bond, the eight year period having nearly expired.

This is the largest single exportation of Kentucky whisky ever made. It approximates 250,000 gallons and it will take two large trains to carry it to the seaboard.

INTO THE STATE TREASURY.

Over Half a Million Dollars Handed Over By Sheriffs—The Largest Ever Paid in One Day.

Frankfort, Ky., Dec. 6.—Over $500,000 was paid into the state treasury Thursday by sheriffs. This is the largest amount ever paid in one day so far as known.

Sheriff Bell, of Louisville, paid in over $300,000 of the above amount. Auditor Coulter sent out checks Thursday amounting to $132,000, to be paid to the various city school teachers, including Louisville, Covington, Newport and Lexington. Louisvine teachers receive nearly half of that amount, which is the first 40 per cent. of the school fund due the cities.

A LYNCHING FEARED.

Ten Armed Men Are Guarding Luther Thornton, Colored, in Jail at Paris, Ky.

Paris Ky., Dec. 7.—Luther Thornton, colored, was brought here secretly from Lexington Friday, and ten armed men are guarding his cell in the county jail.

He is charged with having stopped a rig driven by Mrs. Joe Kenney, the wife of the overseer of Clay's Cane Ridge stock farm, demanding that she hand over money she had drawn from a bank with which to pay off the hands. Mrs. Kenney escaped with the money by whipping up her horse. The feeling against the Negro is such as to justify the guard.

THE MOONSHINERS ESCAPED.

Found the Blind Tiger and Illicit Liquor Was Destroyed In Jackson County By Raiders.

London, Ky., Dec. 7.—United States Collector Short, Deputies Thompson, Lemon and Curry returned from a moonshine raid on Pond creek, Jackson county, Friday.

They destroyed a quantity of beer and whisky and a large still, but the shiners escaped, though nearly 100 shots were fired to bring them to a halt. The fixtures of the still were so arranged that they could be transferred on short notice, and the operators were preparing to move when raided.

School Boy Stabbed to Death.

Newport, Ky., Dec. 5.—"Baby" Creelman, an 8-year-old boy, was stabbed so badly while on his way home from school at noon Wednesday that he died within 15 minutes. Another schoolboy of about the same age is charged with having inflicted the wound which led to Creelman's death.

Louisville Policemen Dismissed.

Louisville, Ky., Dec. 6.—Policemen Routeiller and Collins were dismissed from the police force Thursday. They were charged with having accepted $3 from William Ray, colored, in return for not serving a disorder conduct warrant.

Convicts Paroled.

Frankfort, Ky., Dec. 6.—The prison commission, sitting as a parole board, paroled Jim Cruce, sent up from Pulaski county for manslaughter, and Tom Tatum, of Mercer county, who was sent up for stealing a horse from Col. Jack Chinn.

Mrs. Ferguson Sued.

Lexington, Ky., Dec. 6.—C. M. Corbin, formerly manager at James B. Ferguson's Kingston stud, has sued Mrs. Ferguson for $1,637 claimed to be due as interest in five yearlings sold in 1900. He claims he made demand for a settlement and can't get it.

Five Years For Highway Robbery.

Paris, Ky., Dec. 7.—Will Cunningham, for highway robbery, Friday got five years in the penitentiary, and Lyda Warfield, for attempted arson, five years.

Found Not Guilty.

Louisville, Ky., Dec. 7.—Joe Kast, saloonkeeper and politician, was found not guilty of the charge of assaulting J. T. Taylor. The case attracted unusual attention because the police had been blamed with invoritism for their alleged delay in making an arrest.

Guilty of Manslaughter.

Newport, Ky., Dec. 7.—Martin Dehnert, charged with the killing of his cousin, John Brann, was found guilty by a jury in Judge Hodge's court, and sentenced to 15 years in the penitentiary.

NEIGHBORHOOD NEWS.

BULLITTSVILLE.—Mrs. Garr and little son, and Mrs. Blankenbeker have returned to their home in Louisville, after a visit to their parents, Mr. and Mrs. Wash Watts.

Miss Zayda Gaines is visiting friends in Covington.

Miss Mate Riley, of Uneeda, is visiting E. L. Riley and wife, this week.

There will be no more complaint of a scarcity of water in this part of the county this winter.

A man from Ohio was looking for a route for a traction road from Petersburg to Covington through North Bend bottoms, last week. It would be a great benefit to the northern part of the county.

Another telephone company is building lines in this county. It will soon have a line up from Ludlow to Bullittsville. They have a different system to that of the Boone County Co. Each box has a dial with numbers, and you turn the hand to the number you want and only that number hears the ring.

Miss Mary Gaines entertained Miss Bessie and Faunie Stephens, Miss Beulah Gaines, Charlie and Jonas Stephens, Herbert Gaines and Will and Bernard Berkshire, Saturday evening, as a preliminary to the large crowd invited Sunday. After listening to a very fine sermon delivered at Bullittsville Christian Church by Rev. Jones, about 35 young people drove to the home of Miss Mary, where a dinner had been prepared that could not have been surpassed. Col. Wm. Watts the affable merchant, of Bullittsville, was much in demand with the fair sex, but as his best girl was with him, his time was mostly engaged. Every one enjoyed themselves to the limit.

WALTON—The Walton brass band has been practicing diligently for several months past, and proposes to give an exhibition of their proficiency during the holidays. Information from well known amateurs is to the effect that a great surprise is in store for. Not only from a Walton audience, but also for the citizens of Burlington, which will be the scene of their second effort. The program, a most excellent one, will afford a splendid opportunity to our young men for a display of their musical talents. The program and list of the performers will appear in the next issue of the RECORDER. Let all get ready and go, for it will be one of the most laughable and joyous musical treats that has ever been produced in this part of the country.

One evening last week about seven o'clock, the family of Mr. Kirtley Roberts had an experience which they do not care to have repeated. Mrs. Roberts, her sister, Miss Kate Hume, and the children had gone to bed, leaving the door unlocked. They had not gone to sleep before a stealthy footstep broke on their ears. Screaming they jumped from their beds and put out for Mr. Wesley Dixon's, their next door neighbor. Mr. Roberts was not at home. A. M. Edwards heard the noise at his home, and learning what caused the commotion, came down town and told Mr. Roberts what was going on at his home. When they reached the house, Wesley Dixon had reached the premises, but the would-be thief had decamped, leaving, however, a bit of paper on the floor, which proved to be a bill for $2.50 from a merchant of the town. Kirtley wont tell whom it is the bill is made out agaiust.

UNION.—B. S. Houston, of Verona, was calling in our neighborhood, Sunday.

Mrs. C. Bristow had a severe attack of croup, Friday morning.

Miss Edna Knaley is quit sick, and is missed very much at school.

We saw Prof. Voshell strolling over the "Knoll," Sunday morning.

Miss Fennie Cleek spent Sunday with her aunt, Mrs. L. H. Voshell.

Miss Nida Dickey spent Friday and Saturday with Mr. and Mrs. Brodnax.

Hubert Rogers and wife spent Saturday and Sunday with the Misses Riley.

Mrs. Rachel Rice spent several days last week with her daughter, Mrs. N. S. Bristow.

Madams L. H. Voshell and Elizabeth Huey, spent Thursday with Mrs B. L. Norman.

James Bristow will move his shop to the lot known as the Brown property, which he purchased recently.

Mrs. Ben Terrill, of Covington, spent several days, last week, with her parents, Mr. and Mrs. L. B. Dickerson.

Joe Huey and friend, Mr. Stowe, returned to Georgetown, after spending several days with Mr. and Mrs. J. A Huey.

Sam Hicks has just completed a splendid ice house and cistern at his home, White Haven. He is improving the place very much.

Mrs. W. S Taylor, of Erlanger, and her friend, Mrs. McDaniel, of Cynthiana, were guests of Mrs. J. W. Kennedy, one day last week.

Misses Nannie Bristow, Lillian Corbin and Mae Norman were delightfully entertained by Mr. and Mrs. Fielding Dickey, Jr., Saturday night.

Quite an interesting society meeting was held at Mrs. Fielding Dickey's, Saturday. Several of the members of the Richwood society were present. Miss Hattie Bedinger read two very interesting missionary letters, one from Miss Sudie Bedinger, of Mexico; the other, from Mrs. Wilkinson, of Soochoo, China.

GUNPOWDER.—Husking corn and killing hogs are the order of the day.

Elbert Vaughn is on the sick list, threatened with typhoid fever.

Tickets for the oyster supper at Florence Christmas are on sale at W. N Surface's store.

There has been no tobacco stripped as there has been no time this fall that it has been in case for handling.

Spencer Rouse has bought about 3 acres of timber of J. C. Hankins, which he will cut into lumber.

Robert O. Rouse bought the Mason and Hamlin organ that Hopeful church offered for sale some time ago.

Rouse Bros. Milling Co. has blasted in their mill pond and succeeded in finding water sufficient to run their mill.

L. L. Tanner requests me to say that in advertising his property for sale next set Saturday, he omitted his mowing machine, which will be sold with his other property.

J. C. Hankins has three cows that are making 27 lbs of butter a week. He is feeding sorghum cane. He is getting such good results he says he will raise cane next year.

B. C. Tanner is now ready for rain. He has a cistern in a field where once stood a barn and the barn is now torn away and he has just completed ashed over a portion of the field, so that he can run the water in the cistern. The shed is about 6 feet square.

J. A. Huey, while coming from the city one evening last week, met with an accident. His wagon was heavily loaded with various articles, which he had purchased, and the front axle broke, but his team was perfectly gentle and there was no other damage done. R. C. Surface came to his rescue and furnished him a wagon to take his goods home.

RICHWOOD—The rain saves many from a long drive with their stock. Our sick are all progressing nicely.

Will Glacken is able to be around in his room.

Services at Mt. Zion M. E. church next Sunday.

Mr. Mill has held a very successful revival at Hughes' Chapel.

A great many of our citizens will visit Burlington, this week.

Mr. Fielding Dickey, sr., had a car load of coal delivered here last week.

Theo. Carpenter and family spent Sunday with William Woodward and wife.

J. W. Dixon, of Crescent, reports quails and rabbits all killed in his vicinity.

Bro. Wolcott inquired, at the last Grange meeting, what our bucket of water cost.

Miss Ida Grubbs spent the day with Miss Clara Senior, of Lexington Pike, last Saturday.

There is said to be a haunted house in this neighborhood, but this is "nigger news," we suppose.

Samuel Taylor and D. B. Bedinger had a car load of cows from Kinkaid, Scott county, delivered here.

John B. Carpenter received pay, last week, for stock killed by the Southern Railway nearly a year ago

State Master Wolcott and State Overseer Noah Tanner, met with Excelsior Grange, last Saturday.

Covie Carpenter is more seriously injured than was at first thought, and Dr. Dulaney is attending him.

E. L. Glacken returned, Saturday night, from a pleasant visit to his sister, Mrs. Ira Taylor, at Payne's depot.

Some "rough riders" pulled a break up Harry Tanner's entertainment at Frogtown school house, we were told.

O F. Glacken, Ben Cleek, William Dixon and D. B. Dobbins shipped hogs and cattle to the Cincinnati market, last week.

Maurice Haley, a former resident of this place, now of Covington, has applied for a divorce from his wife, Mary Haley, charging abandonment.

There will be a called meeting of Excelsior Grange, Thursday, the 12th inst., at 1 p. m. Important business. Bros. Wolcott and Noah Tanner will meet with us.

Cove Carpenter's team that was killed by the train was appraised at $300. the wagon at $50 and the harness at $25. The team were matched blacks, and very valuable.

Letters from Lafayette Grubbs, of Boone county, Missouri, and James Woodward, of Texas, many years ago residents of this county, promise early visits to their Old Kentucky Homes.

Mrs. Laura Rice, wife of the late Charles Rice, died at Lakeland, Friday. Funeral services at the residence of her sister, Mrs. Mary Fields, at 1 p. m., Monday. Interment at the Carpenter cemetery. Mrs Rice leaves two sons and a daughter to mourn her loss.

The crossing where G. Carpenter and team were struck by the train, is one of the most dangerous in the county. On the south is a 20 foot cut for over 500 yards. There should be a law passed requiring railways to maintain safety gates or danger signals at each public crossing in the country.

Cove Carpenter was struck by the north bound accommodation train, at Mt. Zion crossing of the Q. & C. at 1 p. m., Thursday, the 3d inst. Both the horses attached to the wagon were instantly killed, and Covie was badly shaken up, and it is feared that he is hurt internally. The wagon and harness were demolished.

As fish stories are out of season, here is one in reason; Will Woodward had the misfortune to lose both hammers of his gun. One day last week his setter found a covey of quail. Will took his hammerless gun, and Mr. Youell, familiarly called Dad, took a monkey-wrench. The quails were flushed, after which the dog stood six single birds, and Will held and sighted the gun, which was discharged by Dad striking the plungers with the wrench. They killed six straights, missed the seventh but hit the eighth. The seventh bird was killed flying, the others were killed on the ground. See!

Marcee Riddell has a lot of fine Plymouthrock hens and pullets for sale.

Elder H. M. Currey will preach in the Presbyterian church on the night of the fourth Sunday in this month.

Mr. and Mrs. John Hogan were guests of J. L. Riley and wife, of the Hebron neighborhood, Sunday.

If you are doubtful about our prices, we are willing to convince you.

BEN STEPHENS, Jr.
Sale to begin at 9 a. m.

HOUSEWORK
Too much housework wrecks women's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A haggard face tells the story of the overworked housewife and mother. Deranged menses, leucorrhœa and falling of the womb result from overwork. Every housewife needs a remedy to regulate her menses and to keep her sensitive female organs in perfect condition.
WINE OF CARDUI
is doing this for thousands of American women to-day. It cured Mrs. Jones and that is why she writes this frank letter:
Glendeane, Ky., Feb. 10, 1901.
I am so glad that your Wine of Cardui is helping me. I am feeling better than I have felt for years. I am doing my own work without any help, and washed last week and was not one bit tired. That shows that the Wine is doing me good. I am getting rosbier than I ever was before, and sleep good and eat hearty. Before I began taking Wine of Cardui, I used to have to lay down five or six times every day, but now I do not think of lying down through the day. Mrs. RICHARD JONES.
$1.00 AT DRUGGISTS.

BOONE COUNTY RECORDER.

VOL. XXVII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 18, 1901. NO. 9.

MR. YERKES has not given his opinion of Gov. Bradley yet.

THE moon will probably not be alone in its fullness during the Christmas holidays.

BANK robbers had a picnic with country banks in Ohio, last week, although their efforts were foiled in several instances.

THE new Governor of Oklahoma says he didn't feel at liberty to decline the office after the President had offered it to him.

IN the recent city election in Boston, the Democrats made a genuine scoop, electing their candidate for Mayor by 18,000 majority.

ANOTHER Democratic daily is to be started at Lexington. The last one started there has been swallowed up by the Herald, which is not orthodox by any means.

THE Democratic politicians are beginning to turn their eyes toward Frankfort, at which place will be fought out a very pretty Senatorial contest early in the new year.

COLLECTOR, Sam J. Roberts, of Lexington, has returned from Washington, and says he is satisfied with the result of his trip, and his friends believe he will be reappointed.

IF some of last summer's surplus warmth could have been stored for use on such occasions as that brought upon this section last Saturday night, it would not have been wasted.

THERE are several good Republicans on the anxious seat in this county, and now that Mr. Leiberth has been confirmed by the senate, it is hoped he will relieve the boys without delay.

THE Adjutant General says more money is needed for the proper support of Kentucky's army, and the next Legislature will be asked to make more liberal provisions for that department.

THE Beverage and Fairbanks presidential booms cannot find room enough at one and the same time in Indiana, and it is evident one of them will have to be permanently sidetracked, and that before long.

GOV. BRADLEY protests that he is not in politics, but some of those whom he is pursuing are at a loss to know what the Governor calls the game at which he has been playing so earnestly for the last few weeks.

THE Owen-Grant county gold mind is creating considerable excitement in the neighborhood in which it is claimed the yellow metal is being found in paying quantities. Several considerable shafts have been sunk.

SEVERAL Democrats have announced their candidacy for State offices, nominations for which will not be made until 1903. They are poceeding on the early bird theory, which apparently holds good in politics as well as elsewhere.

THE appointment of Mrs. W. H. McClure as postmaster at Williamstown created a terrible commotion among Grant county Republicans. Her husband is a Democrat, and the Demmies are enjoying the Republicans wrath very much.

AUDITOR COULTER is kept busy these days rejecting witness claims from Circuit Courts, on the ground that they are illegal. One day last week he refused payment of a batch that amounted to $3,000. They were sent up from a feud district.

THE Democrats in Kentucky are installed in power again for a long time, if they will proceed in a conservative manner; but it is said of them that they can be depended upon to do the wrong thing at the right time for the advantage of their opponents.

EVERY blue diamond known to history will hang from a branch of an American Christmas tree if current gossip among jewelers is true. The three largest above ground are now in New York and sold to wealthy Americans as ornaments for their holiday displays of generosity.

P. E. CASON county judge-elect executed his bond and took the oath of office, last Friday, and will enter upon the discharge of the duties of that office with the coming of the new year. It is predicted that his administration of the office will be a credit to the county and an honor to himself.

PROBABLY the navy click thinks it has succeeded in degrading Admiral Schley, but public opinion is decidedly in his favor, and what Dewey says of him is accepted as the proper verdict, and the country will continue to ascribe to him all the honor and credit for the destruction of the spanish fleet at Santiago.

HON. JOHN FEELAND, of Christian county, is a fearless politician, or he would not think of contesting the election of his Democratic opponent when the State Senate is so overwhelmingly Democratic; but then it must be remembered that he will be made a considerable allowance with which to pay the cost of his contest.

FOR the first time in many years Kentucky plays an unimportant and insignificant part in constructing legislation in Congress. With the exception of "Dave" Smith all her sons are tied on the tail end of trifling committees. "The Grand Old Commonwealth" seems to have lost her grip.

THE marriage of Senator J. C. S. Blackburn to Mrs. Mary Blackburn, widow of the Senator's nephew, occurred on the 11th inst., at Washington, D. C., in the presence of a few close friends. Mrs. Blackburn had been in the employ of the Government as a clerk until a few months ago, when she resigned to become a bride.

EX-GOV. BRADLEY went away back and took a seat during the McKinley administration, but he has come away up front early in the Roosevelt era, and has a considerable list of federal officeholders, who he will make a hard fight to have retired. It remains to be seen how well he will succeed collecting the desired scalps.

SOME of the intelligent negroes in the South are protesting against the proposition to reduce the number of representatives in Congress from the Southern States. They regard an act of that kind on the part of the Republican Congress as exceedingly detrimental to the negroes' interest, and intimate that they desire to be let alone by the national lawmakers.

THE present aspect of the copper market is anything but encouraging. The present low prices are said to be due the manipulations on the part of some of the insiders, and better prices are expected to prevail in a near future, but the prices will attain nothing like the altitude from which it descended. The metal is said to be accumulating both at home and abroad.

A number of farmers in Pulaski county, Indiana, have been swindled out of amounts of money aggregating several thousand dollars by a couple of men who represented themselves to be hunters. The plan was to introduce themselves as wealthy men from Chicago, and offer $5 for the privilege of hunting on the farmer's premises. Consent being given, they paid the $5, and then wrote out a receipt for the farmer to sign. This receipt later turned up as a promissory note for $500, and as it was in the hands of a third party payment had to be made. It is said that not less than ten land owners have been victimized.

THE committee appointed at the recent state meeting of United Confederate Veterans, have begun their work of raising $25,000 for building a Confederate Home. The first subscription of $25 was sent by a Federal soldier who lost an arm in the battle of Franklin, Tenn. The Legislature of the State will be asked to sustain it, and a Republican member has asked the privilege of introducing the bill. The necessity for the work is great. Most of the veterans are over sixty years of age and many of them are poor. They get no pensions, and for the old and worn out veterans there is no proper home. The movement will doubtless be successful.

OLLIE JAMES, of Crittenden county, is an announced candidate for Congress in his district. James is a young man with a very bald head and a long, genuine Democratic record. Boone is for him.

CONGRESS will adjourn to-morrow to convene again on the sixth day of next month, when it will be ready to commence business in earnest. So far nothing in the way of legislation has been accomplished.

ONCE in twenty-five years is often enough for the appearance of such excessive cold in the middle of December. Who ever knew of as cold weather this early in December, as that ushered in last Saturday night?

THE Hamilton county delegation to the next General Assembly in Ohio, passed a resolution in which the members are pledged to obey the orders of Geo. B. Cox, to whom everything political in Hamilton county belongs.

FOR the first time in history has a country, through its officials, criticised a soldier for winning a battle for it. The finding of the Court of Inquiry is against Admiral Schley, but the sentiment of the people is with him.

PRESIDENT ROOSEVELT continues to advance his standard of public service, by broadening his rules governing patronage to the great dismay of politicians, some of whom begin to wonder if any politician will be permitted to remain in office.

IT has been proposed in Washington to invite ex-President Cleveland to address Congress on the occasion of the memorial services for President McKinley. The committee in charge of the arrangements will be asked to consider the suggestion.

THE mercury was as low as 40 degrees below zero at some places in the northwest last Saturday, and the suffering among men and beast was intense. Many persons and a great deal of stock perished. The cold wave swept down on the country rather unexpectedly.

THE State Board of Assessment had valued whisky at $10 per barrel for taxation, but the whisky men induced the board to put the value back to $8 per barrel. It is said the Kentucky Distilleries and Warehouse Company will immediately let contracts for several new distilleries. Whisky men are jubilant.

THE Cincinnati chemist who analyzed the contents of Mrs. Dr. Tilley's stomach, will likely sue Boone county for his fee. There are some who think the town of Petersburg should pay that bill, as it was the citizens there who had the analysis made. That is true, but still they are citizens of Boone county, and the county may be responsible for the bills they incur for services such as the chemist rendered.

AND Collecter Samuel Roberts, of Lexington, visited President Roosevelt, last week, and came home wearing a broad smile, feeling sure of his reappointment as Collector. A certain other Collector in this State, whose name is Comingore, called on the President a few months since, and came home believing he had assurance of reappointment, but, lo, and behold, his official pins were knocked from under him easily, and he never has ascertained why he was so badly mislead by the President. It is not necessary for the President to kick an officeseeker out of the White House, that he shall not return to his home sanguine of receiving that for which he asked.

EX-GOV. BRADLEY has got mad over Kentucky politics, and it looks very much like there will be a fight or a foot race.

A Good Cough Medicine.

(From the Gazette, Toowoomba, Austra lia.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockener. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefitted, as was Mr. Wockner. This remedy is sold by all druggists.

IF you are in the least scarry, you would better not read the following, which is a prediction taken from the Blue-Grass Clipper:

"The month of December is to be most interesting for astronomers. There will be for the first time in centuries a gathering of planets in certain possitions in the sky—a condition which historians say has always been followed by earthly disaster. In a few days, Saturn, Mercury, Mars and Jupiter will all be ranged together in the sign Capricorn, in exactly the same position they assumed when Noah's deluge overwhelmed the earth and the inhabitants thereof, and if there is any virture in predictions, something tirrible ought to happen. However predictions have been made and have failed."

THE Schley Court of Inquiry found Rear Admiral Schley culpable in eleven of the charges contained in the precept. Admiral Dewey, however, dissents and finds in favor of Schley. The court finds Schley negligent, disobedient, vacillating, dilatory, lacking in enterprise, and while at one point saying he was courageous in battle, says in another: "The turn of the Brooklyn was made to avoid getting her into dangerous proximity to the Spanish vessels." In short, Schley's entire course, from the departure from Key West to the Hodgson newspaper controversy, is condemned. Dewey, on the other hand, says his movements were made with all possible dispatch considering the importance of keeping bunkers well filled and the squadron as a unit, that the blockades both of Santiago and Cienfuegos were effective, and finally: "Commodore Schley was the senior officer of our squadron off Santiago when the Spanish squadron escaped on the morning of July 3, 1898. He was in absolute command and is entitled to the credit due such commanding officer for the glorious victory which resulted in the total destruction of the Spanish ships."

"It will take but 50 votes to nominate Gov. McCreary for U. S. Senate on first ballot. Thats' dead easy. The Madison county statesman just as well be packing his trunk to go to Washington,"—Interior Journal.

"Why such haste, young man? Unfortunately Gov. McCreary won't take his seat till March, 1903, and if he keeps his present clothes packed till that time he will have to go minus or make liberal investments."—Harrodsburg Democrat.

Why all this worry, Gentlemen? Dave Smith has his trunk packed and has already gone to Washington City, awaiting the formal action of the Kentucky Legislature. When Kentucky says. "Well done, faithful servant, walk up higher," he will simply and respectfully obey the command by leaving his seat in the Lower House on the fourth of March and take his seat in the Senate. Don't worry; don't build aircastles; don't fret over little things like packing trunks before the trip is planned.—Elizabethtown News.

All you fellows go away back and sit down. Judge Cantrill has Smith and McCreary on the run, and all should be quiet while their speed is being tested.—Western Argus.

You are all guessing.

Next Wednesday is Christmas, and all communications for the RECORDER must reach this office not later than noon next Monday to insure publication on Wednesday following. The force desires to celebrate some.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt, of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50c. Guaranteed. For sale by W. F. McKim, Burlington, Union Drug Store, Union; J. G. Oelsner, Florence; H. L. Eskew, Walton; O. N. Grrut, Bellevue.

LOCAL NEWS.

Go to Riddell's grocery for your Xmas oysters.

Everything new and fresh at Riddell's grocery.

The supply of daylight will begin to increase shortly.

The colored school at this place is advertising to inaugurate the holidays with a snow house.

Judge Menifee, of Crittenden, was in attendance upon court all last week, and was styled the associate justice.

The saw mill resumed business, last Thursday, after having been idle for several months for the want of water.

So far there appears to be no effort on the part of the whites of the town to indulge in any kind of holiday festivities.

Last week, in one day there were 400 turkeys driven through town and the following day 888. Thanksgiving day was not such a hard day on turkeys after all.—Owen News.

Geo. Blyth now claims two of the best teams in this part of the county. George is one who knows a good farm horse when he sees it, and understands how to give it proper care.

There are not the usual number of local turkey merchants this winter, and that crop of fowls is very short in this county, not being over half as many as are generally produced here.

Uncle Absalom Aylor, up in the eighties, came in last press day, and astonished the boys in the office by picking up a freshly printed paper and reading with ease the smallest print without the assistance of glasses.

The weather last week was decidedly favorable to the young wheat, which had been struggling for life all fall. The warm weather that came along after the rain was exactly what the wheat had to have, and the result is plainly visible in the fields.

O. P. Conner, one of the local tobacco firm, was out a few days last week looking at tobacco, and offering low prices. The country dealers in tobacco all agree that the 1901 crop is of very inferior quality, and that prices will be low throughout the season.

Hon. J. W. Kennedy, of Union, was in town last Friday. He has handled tobacco extensively for years, and considers the 1901 crop of the most inferior quality of any that he has seen. He has purchased only two or three small crops, not having paid higher than 3½ cts. a pound.

The Shelbyville, Kentucky man, who has kept a record of the weather since 1852, says that on November 19. 1880, the mercury was 11 degrees bellow zero, and 12 below on December 30, and 14 below on December 31 the same year. So you see this is not the coldest weather this part of the country ever experienced thus early.

James A. Huey, of Union, was in town last Friday, and startled a crowd on the street by the statement that he had men planting his garden the day before. His splendid record for veracity compelled the crowd to accept the statement as true, and he let his hearers down easily by informing them that the men were planting potato onions.

A Bad Accident.

A little colored girl who was working at the Boone Hotel, was badly scalded, during the supper hour, one evening last week. She was standing near the stove in the kitchen, when one of the waiters upset a large coffee boiler, the contents of which struck the little girl about the knee, and scalded her badly down to the foot. Dr. Smith was called and dressed the limb from which the skin had slipped, making a very ugly and painful wound. She is getting along very nicely.

Another Mad Dog.

A supposed mad dog passed through town on Wednesday night of last week. It had a fight with G. G. Hughes' dogs which have since been killed. Willie Hughes saw the dog and shot at it twice but missed. From Mr. Hughes' the dog went to Frank Scales,' colored, where it had a fight with his dog. It then went to William Houston's and bit his dog, which he killed. The rabid animal was a fise, and was followed some distance by Mr. Houston as it passed on out the Florence pike.

Grant County's Rabbit Crop.

The rabbit crop is a source of considerable revenue to many Grant county people, and as evidence of the correctness of the above statement the following from the Courier of last week is reproduced:

"The number of rabbits shipped from Grant county each year to the markets of Cincinnati and Covington is truly remarkable. During the last month M. L. Piner, of Holbrook, has hauled to Cincinnati on his huckster wagon more than 2,500 rabbits. His profits on rabbits alone last month was more than $100. When it is remembered that he is one of more than 50 hucksters who do business in Grant county it can well be seen how many rabbits are shipped from this county in a single season."

An Octogenarian.

Dr. S. S. Scott, of Erlanger, reached the 85th mile-post in his journey through life, last Friday, and the event was properly observed by him and several of his friends, at the home of his son, R. J. Scott, whose kindness to his father in his declining years is unlimited. Until within the last few years Dr. Scott lead a very active life both professionally and politically, and few men were better acquainted throughout Kentucky among both politicians and the medical fraternity than he, and he was especially prominent in public affairs in this part of the State. Several months since the Doctor's eyesight had about failed him when he submitted to an operation that proved successful, and now he is enjoying as good vision as most anyone of his age, and delights in entertaining his friends in true Kentucky style. May he live to celebrate many more of his birthdays.

Gold in Grant County.

The following despatch from Williamstown to the Cincinnati Enquirer under date of the 11th inst., is given for what it is worth:

"Parties who have been prospecting on Stephens Creek, in this county, for gold have received a report from the Government expert at Charlotte, S. C., whither they sent samples of ore taken from their prospect hole, which fills them with wild enthusiasm. The expert says the ore will pan out $21 free gold to the ton and $38 silver. He further says that should there be a great amount of the ore in that section it will prove to be one of the greatest mines in the United States.

"J. N. Renaker, who has backed the movement from the start, declares that he believes enough gold will be found to make a dozen millionaires. Other wealthy citizens have been trying to buy stock, but Mr. Renaker refuses to sell.

"There are four different parties prospecting for gold within a radius of 10 miles of Jonesville. They are all on a line running from the Stephens Creek mine to Big Bone Springs, in Boone County. All of them are finding the same mineral in about the same proportion as Renaker's mine on Stephens Creek."

Says He Was Tortured.

"I suffered such pain from corns I could hardly walk," writes H. Robinson, Hillsborough, Ills., "but Bucklen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by W. F. McKim, Burlington; Union Drug Store, Union; J. G. Oelsner, Florence; H. L. Eskew, Walton; O. N. Grant, Bellevue. 25c.

IN MEMORIAM.

Mrs. Rebecca B. Fulton died at the home of her daughter, Mrs. Emily Souard, in Mason county, Ky., Nov. 23d, 1901, aged 82 years. She was born in Cincinnati, Ohio, in 1819, and was the daughter of John Andrews, a pioneer of that city; she was married quite young to Lee M. Fulton; she was the mother of ten children, and being of more than ordinary mind, she felt the responsibility of raising her children up in the right way, but having remarkable energy and industry she gave the best years of her life to the raising of her children, making sacrifices for them. She became a member of the Methodist Church at the age of 16 years and was the oldest member of the Florence Methodist Church. The funeral services were conducted by Rev. Chinn at the Methodist Church in Florence, after which she was laid to rest by the side of her husband in the Florence cemetery. She had been almost blind for several years, and had seen much of life's sorrow, yet her faith never faltered, but she always trusted in the precious promise of the blessed Savior Who has now given her an abundant entrance into the everlasting kingdom. Asleep in Jesus, blessed sleep.

A FRIEND.

Hear that S. K. Dennery has been quite sick at Acklin Riggs', in Kenton county.

THE RECORDER

W. L. RIDDELL, Publisher.

BURLINGTON, : KENTUCKY.

CURRENT TOPICS.

Jules Verne, the author, has become blind.

Parisian cabmen are prevented from smoking when driving.

The Glasgow exposition has closed with a profit of $400,000.

Thirty-seven thousand girls attend cooking schools in London.

The date for the coronation of King Edward has been set for June 25.

A penitent has just sent $18,699 to the government "conscience fund."

Greenland is one of the very few countries where infectious diseases are unknown.

In Arkansas vast belts of forest lands still lie untouched by the ax of the woodman.

France's annual consumption of wheat (including seed wheat) is 346,228,000 bushels.

About 173,000 persons are employed in the postal department of Great Britain and Ireland.

Charleston will let the colored folks attend her exposition on the same terms as the whites.

A Philadelphia bank teller contracted smallpox by handling money that passed over the counter.

Vienna has a school for waiters with a three years' course. Among the subjects taught is French.

About 600,000 trees are planted each year by the school children of Sweden, under the guidance of their teachers.

At Salta in Argentina, a list of boys and girls who have failed to attend school is published in the newspapers.

The annual report of the controller of the currency shows a big increase in the authorized capital of national banks.

Scotch whisky is now being manufactured in New York and exported in large quantities to South and Central America.

The total sales at the art galleries of the Pan-American exposition at Buffalo amounted to less than $15,000, for 27 pictures.

Since 1871 Japan has built nearly 30,000 elementary schools, providing room for 4,000,000 pupils, one-fourth of whom are girls.

The checks which pass through the London clearing house in six weeks are more than equal in amount to all the coin of the world.

Dr. Daniel Freeman, of Beatrice, Neb., owns and occupies the first farm given away by the United States government under the homestead act.

The camel path which for centuries has formed the only connection between Jerusalem and Nablus (Sychem) has at last been made into a carriage road nearly 20 feet wide.

Among the pets of the sultan of Morocco are seven lions. These he permits to range the courtyards of the palace at night, to act as guards to the royal harem.

The Charlestonians are calling their exposition grounds and buildings the Ivory City on the banks of the Ashley. The work of preparation is rapidly nearing completion.

An automobile is being built in New York that will make 70 miles an hour on a level road. The next and most difficult task will be to find a level road 70 miles in length.

Indian caste rules necessitate the employment of extensive retinues. During the recent official tour of the viceroy, Lord Curzon, he had to carry with him a train of 150 native servants.

Abraham Slimmer, of Waverly, Ia., has given his handsome home and surrounding grounds of ten acres to the Sisters of Mercy of Dubuque, to be used for the establishment of a hospital.

Rev. Dr. Daniel J. Hauer, who died in Hanover, Pa., recently, was believed to be the oldest clergyman in the United States. He was 96 years old, and had been a Lutheran minister for 75 years.

So valuable is coal in the Ponchamp coal fields of France that it pays to mine coal at a depth of 3,313 feet. A steel cable, weighing seven tons and nearly a mile long is used. The coal is brought up in trains of six cars.

It takes 5,000 unloaded bees to make a pound, that is, when the bee leaves its hive in search of honey it weighs only the 5,000th part of a pound. When it returns, however from the fields and flowers, it is three times that heavy.

Dr. Labordi has communicated to the French academy information about a new writing instrument for the blind, which will enable them to read correctly what is written and will probably supersede the Braille system altogether.

A Boston woman will agitate for a law prohibiting the boiling or roasting of chestnuts, on the ground that it involves painful death of worms "whose right to life, liberty and the pursuit of happiness is no less than that of the most highly dowered man."

One of the most curious plants in the world is the toothbrush plant, a species of creeper which grows in Jamaica. By cutting a piece of the stem and fraying the ends the natives make a toothbrush, and a dentifrice to use with it is prepared by pulverizing the dead stems.

During the past summer Galveston has been disinfecting with a sprinkling cart. To the alleys, the low streets, the fronts of market houses and the refuse of fish and oyster shops the cart has paid almost daily visits, and it is generally admitted that the practice has done much to preserve health.

TERRIBLE RAILWAY WRECK.

Six Killed, Two Missing and 11 Hurt on the Illinois Central.

Rockford, Ill., Dec. 16.—Failure on the part of a conductor to obey orders is supposed to have been the cause of a head-end collision on the Illinois Central, between Irene and Perryville, early Sunday morning, which resulted in six dead, two missing and 11 hurt. The two trains were the eastbound passenger train No. 4 and a through freight from Chicago, going west.

The trains met in a slight bend in the track, both running at full speed. The smoker, express and baggage cars were piled on the locomotives, pening in the occupants of the smoker, which took fire. Only three of the half dozen in that car escaped. The others, if not instantly killed, were roasted to death and their bodies, along with those of the engine crews, were consumed.

All efforts of the survivors to reach the victims were unavailing. The flames drove them back at every point.

The temperature was 20 degrees below zero and an icy wind was blowing across the prairie, two point where he wreck occurred being in a shallow cut, affording no protection.

Two hours elapsed before any relief was at hand. Then an engine arrived and pulled tho way car to Irene, three miles distant.

A relief train was started from Rockford at 1:30 a. m., having on board Drs. S. R. Catlin, Henry Richings, W. B. Helm and Agent E. W. Brown. It arrived at the wreck 20 minutes later. In the meantime the injured had been brought back from Irene and were transferred to the relief train and brought to Rockford. All the injured are doing well, except H. G. Wellman and Conductor Quinlan, who are in critical conditions.

RAILWAY WRECK IN MONTANA.

One Person Killed, Two Fatally and 14 More or Less Seriously Hurt.

Kalispell, Mont., Dec. 16.—A wreck occurred on the Great Northern railroad near Essex in the Rocky mountains early Sunday. The engine, mail car and smoker remained on the track, but all the others were derailed. Some cars were overturned and all were more or less wrecked. The accident was due to rails spreading. Only one was killed, Otto Frickson, en route from Sweden to California. Seven others were hurt, but their names have not been learned. They were three old women, a young girl and three men. Two other old ladies are hurt internally, and neither is expected to survive. Fourteen others were more or less seriously hurt. Among the injured was Advance Agent Sycle, of the McPhee company. The train was going at a rate of 25 miles an hour when it broke in two and the air brakes set immediately, preventing a more serious accident. The day coach caught fire but the flames were extinguished by the passengers.

WENT THROUGH A BRIDGE.

Three Trainmen Killed on a Division of the Pennsylvania Road.

Williamsport, Pa., Dec. 16.—A train on the Philadelphia & Erie division of the Pennsylvania railroad went through the bridge spanning Lycoming creek, between this city and Newberry, at 6 o'clock Sunday morning. Three lives were lost.

The dead: John Martz, engineer; Frederick Glass, fireman; George Harley, brakeman. All resided at Sunbury.

The train was known as Fast Freight No. 83, and was running three hours late owing to the disarrangement of schedule in consequence of the storm. The bridge spanning the creek was a two-span iron structure, the first span of which gave way beneath the train. The engine and nine cars were engulfed in the icy waters. The creek was greatly swollen as a result of the heavy rains, and it is presumed the middle pier had been weakened. No efforts could be made to reach the bodies on account of the heighth of the water.

FIRE AT SALEM, W. VA.

Fifteen Residences and 65 Business Houses Burned—Loss $500,000.

Salem, W. Va., Dec. 16.—Fire broke out in the Express office, a weekly newspaper of this town, which has caused a loss of $500,000 and destroyed the business district of the place. Sixty-five business houses and 15 residences were burned. Many people lived over the business houses and it is reliably estimated that at least 250 people are left homeless. It is believed no lives were lost. An appeal for aid will be sent out. Different stories are in circulation as to how the fire started, but its origin is still a mystery. At daylight Sunday a "Speak Easy" was erected in the burned district and by noon many drunks and fights resulted. The authorities were unable to keep order until late in the evening.

Death of John Swinton.

New York, Dec. 16.—John Swinton, for years a leader with labor organizations and a writer on such topics, died Sunday at his home in Brooklyn, aged 70 years. He has been ill for ten days. Mr. Swinton was a native of Warsaw, Ill.

The World's Cotton.

New Orleans, Dec. 16.—Secretary Hester's statement of the world's visible supply of cotton shows a total visible of 3,771,947 bales, against 3,769,816 bales last year. Of this the total of American cotton is 3,251,947.

BY WIND AND WATER.

Much Damage to Property All Over New York State.

The Water is About Two Feet Deep in Most of the Houses in the Little Village of Painted Post, N. Y.

New York, Dec. 16.—Warm weather and rain followed by high winds have resulted in fearful damage all over New York state. On Saturday the snows in the northern sections thawed rapidly, causing the rivers and creeks to rise and the valleys were inundated. Heavy rain followed during the night, accompanied by winds of great velocity. Trains were blocked for many hours, landslides were frequent and in the lowlands and valleys hundreds of dwellings were flooded, while the damage to farm lands and buildings is very great. Few lives so far have been reported as lost.

Corning reports that the Chemung and Canisteo valleys have had the biggest flood since June, 1889, Sunday. The Chemung and Canisteo rivers overflowed their banks, and for miles east and west the lowlands are flooded and great damage has been done.

The village of Painted Post has been under water all day and the water is two feet deep in most of the dwellings. At Ithaca the damage is estimate at $200,000. A dwelling house was swept away and no trace of it could be found. The power and lighting plant was washed out and two trolley cars swallowed up in the flood.

Reports of destruction of bridges and bursting of dams along all streams in this vicinity continue to come in.

At Binghamton the rainstorm sent the Chenango river over its banks and caused a flood which has not been equaled for 22 years. Cellars are flooded and much damage has been done to business houses on the river front. The county farm buildings are surrounded by water several feet deep.

At Middletown large landslides occurred on the Erie railroad. In a collision between two trains one man was killed and several injured. The bridge over the Neversink river settled several inches.

At Rome the rapid rise of the Mohawk river caused heavy loss and great distress. The city and suburbs are under water for miles. People were taken from their houses in boats and others are entirely without fuel. Logs valued at $75,000 were swept away on East Canada creek, north of Kerkimer.

Twenty bridges on the Lehigh Valley railroad south of Auburn were washed away. Besides this the track was undermined in many places and blockaded by landslides. At Moravia, 20 miles south of Auburn, the entire village was under three feet of water when the rain ceased.

STORM IN PENNSYLVANIA.

Four Lives Lost and Unprecedented Damage to Property.

Philadelphia, Dec. 16.—A storm which for severity and destructiveness has not been equaled in this section for 25 years visited Eastern and Central Pennsylvania, causing almost unprecedented damage and resulting in the loss of at least four human lives. The havoc in the coal regions is enormous and the loss to railroad and mining companies will amount to millions of dollars. The Schuylkill, Lehigh, Susquehanna and Juniata rivers have risen as high as 15 feet above their levels and all of their tributaries have overflowed, inundating the surrounding country in more than a dozen counties.

The force of water weakened the supports of a bridge spanning a creek near Williamsport and as a result a freight train was wrecked and three men killed. At Oneida, near Hazleton, a miner was swept from a bridge and drowned.

In the Schuylkill valley 48 mines were flooded and in the Lehigh and Lackawanna regions the destruction is equally great. Hundreds of mules were drowned in the collieries and it will be weeks before many of the mines can resume operations.

In some sections the water reached the second stories of dwellings and the town of Westmore, near Wilkesbarre, is submerged. Many of the residents have left their homes in boats. Similar conditions exist along the Juniata river, farmers being compelled by the steadily rising waters to abandon their homes.

The flood was rendered more disastrous by the melting of the snow on the mountain sides. The storm broke with great severity Saturday afternoon after the rain had been falling incessantly for several days. At Pottsville and other places in Schuylkill county 10 inches of rain fell in 24 hours.

The high wind accompanying the rain unroofed many houses and the individual losses will be considerable.

Sues the Bishop.

Rome, Dec. 16.—The Messagero says that Father Cushing, the American priest who had difficulty here with Rt. Rev. Nicholas C. Matz, bishop of Denver, Col., has commenced legal proceedings against Bishop Matz for illegal arrest.

Shot By Robbers.

Omaha, Neb., Dec. 16.—Three masked robbers entered the saloon of Henry Hakenhold, in South Omaha, and when Hakenhold reached for his revolver one of the robbers shot him through the lungs.

PITTSBURG'S THREE RIVERS.

They Have Passed the Danger Line and Are Still Rising.

Pittsburg, Pa., Dec. 16.—Pittsburg's three rivers at 9 o'clock Sunday night had passed the danger line and were still rising, with reports from the headwaters of the Monongahela and Allegheny rivers stating that both streams were still rising. The weather bureau announces that the cold wave will prevent the streams from reaching 30 feet, but that considerable damage will result from the unexpected rise and inability of shippers and river men to tie craft securely before the crest of the rise arrived. In the Allegheny river at 9 o'clock the water indicator showed 25 feet 7 inches and the river rising. In the Monongahela the reading on the gauge was 26 feet 7 inches, while at Davis Island dam, 21 feet and 6 inches and rising seven inches an hour was reported.

One of the incidents of the flood occurred at 9 o'clock Sunday night, when 75 coal barges of the Monongahela River Consolidated Coal and Coke Co., which were tied up at Brown's Landing, between Pittsburg and Davis Island dam, broke loose and were whirled away by the swift current. As quickly as possible towboats were sent after the craft. According to the operator at Davis Island dam the pieces passed there shortly after 9 o'clock. There is considerable alarm in river circles over the accident. If the boats are not rounded up by the towboats and towed ashore they will go to pieces and block the channel, which will result in a big loss to the river coal combine.

Later.—Several of the barges were rounded up by boats tied up below, but the majority of them are still racing along with the current.

At Duquesne a fleet of 25 barges, moored at the docks of the Carnegie steel works, broke away and went plunging down the Monongahela river. Nineteen of the barges were heavily laden with coal and when they struck the pier of the Pennsylvania railroad bridge just below Port Perry all but three or four were smashed and sunk, completely blockading the channel at that point.

THE SCHLEY CASE.

The Matter May Be Taken to the Courts Instead of to Congress.

Baltimore, Dec. 16.—Rr. Adm. W. S. Schley has notified Attorney General Isidor Rayner that he is ready to take any action with reference to his case that Mr. Rayner may advise. Mr. Rayner expects to meet the admiral in Washington Monday or Tuesday.

When asked whether he favored a congressional investigation Mr. Rayner said:

"I doubt whether a proceeding of this sort is the proper one. It generally assumes a political aspect. At this time I am of the opinion that the matter should be prosecuted in the courts. There are plenty of ways in which this can be done and this week we will begin to consult and determine upon our course of action."

Among the telegrams Mr. Raynor has received since the publication of the findings of the court of inquiry was one from a gentleman in another state, who asked that his identity be kept secret, with an offer of $10,000 for the necessary expenses attending a further prosecution of the case. The offer was declined.

THREE MEN FROZEN TO DEATH.

The Heaviest Snowfall Ever Known in Eastern Montana.

Billings, Mont., Dec. 16.—Eastern Montana has been enveloped in one of the heaviest snowfalls ever known. The snow averages from two to six feet on the level and railroad travel will be interrupted for the next few days. The thermometer is 20 degrees below zero here. All stock on the open prairie is suffering frightfully. J. A. Phillips, a well-known sheepman, left here Friday for Flat Willow, 45 miles from here, accompanied by two herders, and a report reached Billings Sunday that all three were frozen to death en route.

ACROSS THE ATLANTIC.

Marconi Receives Signals From Penzance By Wireless Telegraph.

London, Dec. 16.—Maj. Flood-Page, of the Marconi Wireless Telegraph Co., in an interview, confirms the report that Mr. Marconi, at St. Johns, N. F., had received signals from the experimental station at Poldhu, Penzance. Maj. Flood-Page said that the severe weather made continuous tests very difficult, but that there was no doubt that the wireless signals had been successfully transmitted across the Atlantic.

All Hands Were Lost.

London, Dec. 16.—Among the minor coast casualties during the recent gale is the loss of the Scandanavian schooner Ebenezer, which was blown on the rocks at Flamborough head and went to pieces. All hands were lost.

Seventeen Firemen Burned.

New York, Dec. 16.—Fire destroyed the large factory of the Brooklyn Cooperage Co., in Williamsburg. Seventeen firemen were burned, some of them seriously. The plant is the most extensive of its kind in the country and furnishes the American Sugar Refining Co. with all its barrels.

Succumbed to the Cold.

Olive, Tex., Dec. 16.—Ira Hillard, aged 40, was found dead near here Sunday, having succumbed to the cold during the night while trying to walk home from Kountze.

CURED BY ST. JACOBS OIL.

Unable to Stand For Months Because of Sprained Ankles.

(From the Cardiff Times.)

Among the thousands of voluntary endorsements of the great value of St. Jacobs Oil for sprains, stiffness, and soreness, is that of Mrs. G. Thomas, 4 Alexandra Road, Gelli, Ystrad, near Pontypridd, South Wales, who says:—

"It is with great pleasure that I add my willing testimony to the invaluable excellence of your celebrated St. Jacobs Oil, as experienced in my own case. I sprained both my ankles in walking down some steps so severely that I was unable to stand for several months. The pain I suffered was most severe, and nothing that I used helped me until I applied St. Jacobs Oil, when they immediately became better daily, and in a short time I was able to go about, and soon after I was quite cured. I am now determined to advise all persons suffering from pains to use this wonderful remedy, which did so much for me."

Mrs. Thomas does not enlighten us as to what treatment she pursued during the months she was unable to stand, and during which time she was suffering so much, but we venture to suggest that had she called in any well known medical man he would have at once have prescribed St. Jacobs Oil, for it has conquered pain upwards of fifty years, and doctors know there is nothing so good. The proprietors of St. Jacobs Oil have been awarded twelve gold medals by different international exhibitions as the premium pain-killing remedy of the world. The committees who made the awards were in each instance composed largely of the most eminent medical men obtainable. Mrs. Thomas evidently did not know the high opinion in which St. Jacobs Oil is held by almost every progressive medical man.

He Needed the Bath.

A certain congressman has instructed his butler to say to all undesirable callers that he is in the bath and cannot be seen. One day lately a constituent with a grievance to exploit called every day at the house, but no matter at what hour he presented himself he was invariably informed that the honorable M. C. was bathing. His last visit he timed late in the afternoon, but was again chagrined to learn that Mr. X— was in the bath. Whereupon the disappointed constituent wrote upon his card: "You may succeed, if you persevere, in getting your body clean one of these days; but if you should spend the rest of your life in a bathtub it would not purify your conscience or your political record."—N. Y. Tribune.

Largest in the World.

Walter Baker & Co., Limited, Dorchester, Mass., are the largest manufacturers of cocoa and chocolate in the world.

They received a gold medal from the Paris exposition of last year.

This year they have received three gold medals from the Pan-American exposition at Buffalo.

Their goods are the standard for purity and excellence.

Flattery.

Miss Bragg—I met that wealthy Mr. Westrum at the Cadleys' last night.

Miss Nagg—Did you, indeed?

"Yes. He sat next to me at dinner, and was pleased to remark upon my birdlike appetite."

"Ah! Well, he's a good judge. He owns an ostrich farm, you know."—Philadelphia Press.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal tubes, every tablet has C. C. C. stamped on it. Beware of imitations.

Protection.

"An indefinable sense of danger or of something dreadful about to happen is pursuing me," said young Mr. Dudley.

"O, you're all right," replied Spatts. "Laws for the protection of lobsters will be enacted this winter. Cheer up."—Detroit Free Press.

The Handsomest Calendar

of the season (in ten colors) six beautiful heads (on six sheets, 10x12 inches), reproductions of paintings by Moran, issued by General Passenger Department, Chicago, Milwaukee & St. Paul Railway, will be sent on receipt of twenty-five cents. Address F. A. Miller, General Passenger Agent, Chicago.

Bill—"Old Skinflint says his first dollar was the hardest to get." Jill—"Yes; and the last is the hardest to give up."—Yonkers Statesman.

Failure is often caused by too long story telling.—Washington (Ia.) Democrat.

SASKATCHEWAN, WESTERN CANADA, IS CALLED THE "GARDEN OF EDEN."

By a Former Resident of Reed City, Michigan.

In a letter to the Reed City, Michigan, Clarion, Mr. James C. Armstrong, of Meltford, Saskatchewan, says, writing on 27th May, 1901:

"This is a fine country for a poor man, as he can go out on the hay slews and cut all the hay he needs. He turns his cattle out on the prairie, and when he is not using his horses, he turns them out also. There is such an abundance of food, they never wander away.

"A lady, who has lived here eight years, told me that this was the original 'Garden of Eden.' I certainly would believe it, if we could only find the apple trees. But as it is, we have many varieties of fruit—strawberries, cranberries, saskatoons, huckleberries, red and black currants, dewberries, plums, red and black cherries, and red raspberries. All of these fruits grow wild. Then the flowers that dot the prairies, making them look like a real garden. We have eaten of the wild red currants, and they are equal if not superior to those grown in Michigan. We have sweet corn 7½ inches high. As the western farmers are all done seeding, branding cattle and sheep shearing are now progressing. Wool is only five cents a pound, and many ranchers have on hand last year's clip. I inclose you a potato blossom, slice of new potato, which measured 6½ inches when cut. This is no fairy tale, if we are so much farther than Reed City. It is all facts. Come up and see. This has been truly called the 'Garden of the West.' With fruits and flowers, lakes and streams, fish and fowl, beautiful rivers, tracts of timber and mountains, what more does a man want?"

Information concerning Western Canada will be cheerfully given by communicating with the agent of the Government of Canada, whose advertisement appears elsewhere.

False Hope.

Tess—I heard him say he felt rather encouraged because you left the gas turned low in the parlor when he called.

Jess—How foolish of him! One needs a dark room to develop a negative.—Albany Journal.

Persons contemplating a journey East or West should be careful that the rates paid for their transportation do not exceed those charged by the Nickel Plate Road.

This company always offers lowest rates and the service is efficient. Careful attention is given to the wants of all first and second class passengers by uniformed colored attendants. The dining car service of the Nickel Plate Road is above criticism and enables the traveler to obtain meals at from thirty-five (35) cents to $1.00 but no higher.

The Pullman service is the usual high grade standard. Semi-weekly transcontinental tourist cars ply between Atlantic and Pacific Coasts. Confer with nearest agent of the Nickel Plate Road.

Newspapers that print love stories are not so good for pantry shelves; the girl putting them on always stops to read them.—Atchison Globe.

Piso's Cure is the best medicine we ever used for all affections of the throat and lungs.—Wm. O. Endsley, Vanburen, Ind., Feb. 10, 1900.

The more reasons there are why a man should save money the less likely he is to save it.—Atchison Globe.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c

The way to destroy courage is not to pluck it up.—Chicago Daily News.

PUTNAM FADELESS DYES are the brightest, fastest and easiest to use.

Every man takes off his hat to a banker.—Atchison Globe.

How Truly the Great Fame of Lydia E. Pinkham's Vegetable Compound Justifies Her Original Signature.

Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the **Change of Life.**

It has cured more cases of **Backache** and **Leucorrhœa** than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors.

Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility quickly yields to it.

Womb troubles, causing pain, weight, and backache, instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water.

It quickly removes that **Bearing-down Feeling,** extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, Dizziness, **Faintness,** sleeplessness, flatulency, melancholy or the "blues," and backache. These are sure indications of Female Weakness, or some derangement of the Uterus, which this medicine always cures.

Kidney Complaints and Backache of **either sex** the Vegetable Compound always cures.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

THE HOLIDAY RECESS.

Congress Will Adjourn December 19 Until January 6.

Bill Introduced Authorizing the State Department to Expend Money For Miss Stone's Ransom—Other Measures Introduced.

Washington, Dec. 10.—Senate—Among the bills introduced Monday were the following: To enable naval courts martial and naval courts of inquiry to compel the attendance of civilian witnesses; to equalize the pay of officers of the navy with those of corresponding ranks in the army and marine corps; to authorize an increase in the enlisted force of the marine corps; giving the United states jurisdiction in cases of lynchings and making the crime of participation in lynchings punishable by death; to establish mining experiment stations in aid of the development of the mineral resources of the United States; granting 160 acres of land each for the use of the plants of industrial institutions located on the public domain; authorizing the use of $100,000 of the unclaimed funds of the freedmen's bureau for the establishment of a home for aged and infirm colored people; appropriating $15,000 annually from the sale of public lands for the support of an institution for the industrial education of women; to prohibit Chinese immigration; providing for a code of land laws for the territory of Hawaii; classifying the salaries of post office clerks and fixing an eight-hour day for post office employes.

Washington, Dec. 11.—Senate—The open session Tuesday was devoted to routine business, such as the presentation of petitions, memorials and bills. The senate then went into exoccutive session on motion of Senator Lodge, who has charge of the Hay-Pauncefote treaty, and adjourned at 1:45 o'clock. A bill was introduced by Mr. Clay providing for the repeal of the bankruntcy law. Senator Morgan introduced a bill providing for the construction of a Nicaraguan canal. The bill provides for an aggregate appropriation of $150,000,000.

House—A concurrent resolution providing for a holiday recess from December 19 to January 6 was passed. About 1,500 bills and resolutions were introduced Tuesday, most of them reprints of measures proposed at former sessions. Among the new bills were those of Mr. Shattuc (O.) for the exclusion and deportation of alien anarchists, and of Mr. Wilcox, the delegate from Hawaii, for the retirement of Hawaiian silver coinage. Representative Ryan (N. Y.), authorizing the state department to expend such amount as is necessary to secure the release of Miss Stoue, the missionary held by Turkish brigands. House adjourned until Friday.

Washington, Dec. 12.—Senate—When the senate met Wednesday prayer was offered by Rev. Herrick Johnston, of Chicago, Chaplain Milburn being absent. The house concurrent resolution providing for a holiday adjournment from December 19 to January 6, 1902, was referred to the committee on appropriations. Then, at 12:22 p. m., on motion of Mr. Lodge, went into executive session to further consider the Hay-Pauncefote treaty, and at 2:55 p.m. adjourned until Thursday.

Washington, Dec. 13—Senate—The senate agreed to take a vote before adjournment on Monday on the new Hay-Pauncefote treaty for the abrogation of the Clayton-Bulwer treaty and opening the way for the construction of a canal across the Isthmus of Panama by the United States. This agreement was reached after four hours debate, sufficiently interesting to insure the constant attendance of most of the senators. Mr. Clapp (Minn.) offered a resolution providing for the consideration of the Hay-Pauncefote treaty in open session. It went over until the new legislative day. The senate committee on isthmian canals authorized a favorable report upon Senator Morgan's bill providing for the acquisition from Nicaragua and Costa Rica of the right of way via the Nicaragua route. Adjourned until Monday.

Washington, Dec. 14.—House—The house, after less than an hour's session Friday, adjourned until Tuesday. The bill to temporarily provide revenue for the Philippine islands was reported by Mr. Payne, and by unanimous consent an order for the consideration of this bill on Tuesday and Wednesday next was adopted, general debate to close at 4 o'clock Wednesday, when the bill would be placed upon its passage. The official announcement of the death of the late Representative Brosius, of Pennsylvania, which occurred last summer, was made by Mr. Cassell, his successor. Representative Mercer (Neb.) introduced a bill for a building in Washington for the United States supreme court, the department of justice and international tribunals, to cost not to exceed $7,000,000 for site and building. Representative Jackson (Kan.) introduced a bill providing that the United States government purchase the Western Union and the Postal Telegraph Cos. and thereafter operate them in connection with the post office department. Provision is made for appraisal of the property of the companies and for the payment of its appraised value when the amount is reported to congress.

Hay to Be the Orator.

Washington, Dec. 14.—The joint committee of the two houses, appointed to make the necessary arrangements for a memorial service in honor of the late President McKinley, decided to invite Secretary of State Hay to be the orator.

The President Refused.

Washington, Dec. 14.—President Roosevelt declined to give a reception to the Delta Kappa Epsilon college fraternity, which is holding its annual convention here, with delegates from all parts of the country.

SPALDING ELECTED.

The Deadlock Over the Election of the President of the National League Broken.

New York, Dec. 14.—The deadlock over the election of a president to succeed N. E. Young has continued. All sorts of statements have been given out, but Albert G. Spalding threw down the gauntlet. He announced positively that he would not withdraw his name as a candidate for the presidency, but that he would force the magnates to vote on it. And the vote must be taken before the magnates adjourned. Furthermore, Mr. Spalding announced his position in the following words:

"When the vote has been taken, when my election shall be made unanimous and when they shall come to me and ask me to be their president, if I accept the honor, my one condition will be that Andrew Freedman must get out of the baschall business absolutely and entirely. He must be wiped off the baseball map. On his record in baseball, and I speak only of his baschall record I openly and publicly charge Andrew Freedman with being a traitor and a marplot. He has done more to ruin baschall than any other four forces that ever existed in the history of the game.

"I will meet Mr. Freedman on any position he may make. My only stipulation is that matter must be fought out in the meeting room of the National league. The man that loses must stipulate to get out of the business forever."

At the night session the election of officers was taken up. Mr. Spalding and N. E. Young were the nominees and the first ballot stood 4 to 4. The name of A. G. Mills was added to the list of nominees on the third ballot. The vote was Spalding 4, Young 4, Mills 0. The Brooklyn, Pittsburg, Philadelphia and Chicago clubs voted for Spalding. New York, Cincinnati, St. Louis and Boston voted for Young.

Just before 1 o'clock Saturday morning the Brush-Freedman faction walked out of the meeting room in a body.

A. G. Spalding was elected president on the 26th ballot, which was taken after the Brush-Freedman faction had left the meeting. Those who remained declared that the others had "bolted" the meeting and that they had a right to elect.

TO PREVENT LABOR TROUBLES.

The Steel Corporation Adopts a Civil Service System For Its Employes on Steamers.

Chicago, Dec. 14.—The United States steel corporation has just adopted a civil service reform system for the 2,000 employes on its lake steamers, which is destined to have a far-reaching effect in preventing labor troubles in the future. Every man employed on ships will be entered on the lists and a careful record of his work will be kept. Promotions, it is stated, will be solely on merit as indicated in this record. Every boat is to have its place, and promotions will be from one to the other, with wages to correspond. The steel corporation, it is said, goes farther than this, and at the outset of the new system will at an early date announce handsome sums which will go to the captains and chief engineers, making them to that extent stockholders in the company. Promotions will be from ship to ship as indicated in the classified list.

ROOSEVELT'S WINDFALL.

The President Will Inherit a Fortune of Between $100,000 and $150,000 By His Uncle's Will.

New York, Dec. 14.—According to a decision handed down by Justice Lawrence, in a suit brought for the purpose of obtaining a construction of the will of Cornelius Van Shaick Roosevelt, who died in New York in 1887, President Roosevelt, who is a nephew of the testator, will inherit a fortune of between $100,000 and $150,000. Cornelius Van Shaick Roosevelt, who lived in New Jersey, left an estate valued at between $1,000,000 and $2,000,000. The testator bequeathed to his wife, the aunt of President Roosevelt, and who died last year, all of his property in trust.

DECLINED THEM ALL.

Rr. Adm. Schley Has Received a Number of Offers to Go on the Lecture Platform.

Washington, Dec. 14.—Adm. Schley's mail has been steadily growing lately, since it became known that the report of the court of inquiry was approaching completion. He has received a number of offers to go on the lecture platform. One proposition was a fixed price of $500 a night for lectures for 40 nights. Adm. Schley politely declined this and all other offers.

Broke the Engagement.

Washington, Dec. 14.—The engagement of Mrs. Lucillo Blackburn Lane, daughter of Senator J. C. S. Blackburn, to Chevalier Trentenove, is now off. Mrs. Lane broke the engagement.

The German Labor Situation.

Berlin, Dec. 14.—The most recent investigation into German labor conditions show the labor situation to be growing worse. The Arbeits Markt, a newspaper, says there were 224 applicants for 100 vacancies in November, as against 200 applicants for the same number of vacancies in October.

Failures For the Week.

New York, Dec. 13.—Canadian failures for the week number 28, or the same number as last week, and comparing with 18 in this week a year ago, 28 in 1899 and 22 in 1898.

THE COURT OF INQUIRY

Adm. Schley Condemned by the Majority Report.

Adm. Dewey, in a Minority Report, Says Adm. Schley Is Entitled to Credit Due For the Glorious Victory.

Washington, Dec. 14.—The most prolonged, interesting and important naval tribunal ever held in this country came to a close after having in open and secret session lasted three months, short of one week, when Secretary Long was handed the findings of the court of inquiry which inquired into the conduct of Rr. Adm. Schley during the Santiago campaign. For seven weeks the court heard testimony, and for fully a month it deliberated upon that mass of evidence, finally reaching the conclusions announced. The result was a complete surprise, and it is probable that no prophesy has approached the truth. Instead of one report there are two. Both are signed by George Dewey, the president of the court, and by Sam C. Lemly, the judge advocate. This is a form said to be recognized in all courts of inquiry, the signatures of the other members not being necessary. But it is explained that Adm. Dewey signed the second report, a minority report, to express his qualification of or dissent from the views expressed by the court comprising himself, Adms. Benham and Ramsey, in the first report.

It is said at the navy department that there will be no further proceedings in this celebrated case on the department's initiative. Secretary Long and Judge Advocate Lemly positively declined to discuss the findings in any phase. The secretary received the reports at 5 o'clock Friday evening and he has not yet acted upon them. It is probable that he will simply append his signature with the word "Approved" to the whole record. The court itself recommends no further proceedings owing to the lapse of time.

The majority report condemns Adm. Schley on 11 points, while Adm. Dewey sustains him in most places. The majority opinion finds in brief that Adm. Schley should have proceeded with the utmost dispatch to Cienfuegos and maintained a close blockade; that he should have endeavored to have obtained information of the Spanish squadron there; that he should have proceeded to Santiago with dispatch; that he should not have made the retrograde movement; that he should have obeyed the department's orders; that he should have endeavored to capture the Spanish vessels in Santiago; that he did not do his utmost to destroy the Colon; that he caused the squadron to loso distance in the loss of the Brooklyn; that he thereby caused the Texas to back; that he did injustice to Hodgson; that his conduct in the campaign was characterized by vacillation dilatoriness and lack of enterprise; that his official reports on the coal supply were misleading and inaccurate; that his conduct during the battle was self-possessed and that he encouraged in his own person his subordinate officers and men.

Adm. Dewey in his report says that the passage to Cienfuegos was made with all dispatch; that in view of his coal supply the blockade of Cienfuegos was effective, that he allowed the Adula to enter Cienfuegos to get information; that his passage to Santiago was with as much dispatch as possible, keeping the squadron together; that the blockade of Santiago was effective, and, finally, that he was the senior officer off Santiago, in absolute command, and entitled to the credit due for the glorious victory which resulted in the total destruction of the Spanish ships.

ADM. GEORGE BROWN.

The Veteran Naval Officer Expresses His Opinion of the Verdict in the Schley Inquiry Case.

Indianapolis, Ind., Dec. 14.—Rr. Adm. George Brown, retired, when asked for his opinion of the verdict in the Schley case, said:

"I read the original charges against Adm. Schley, of course, and made up my mind that no court would ever convict him of cowardice. They could not do that. The whole country knows he is not a coward. There's not a drop of cowardly blood in his veins. If there were he would never have become a commodore and admiral in the navy.

"I did think, moreover, that the court would possibly censor him for his retrograde movement and his tardiness in getting to Santiago. Cervera had time before the arrival of Schley to coal and get away. But he did not and Schley got there in time and did the work. He destroyed the fleet of Cervera. The results were exactly what were being aimed at. He did what he started out to do. Every one knows that. Cervera did not get away and his fleet was destroyed at Santiago."

Developed Tuberculosis.

New York, Dec. 14.—Dr. George D. Barney, of Brooklyn, asserted Friday that Miss Emma H. King, who, he says, was inoculated by him on November 22 with tuberculosis germs from an infected cow, has developed tuberculosis.

Whitney-Hay Nuptials.

Washington, Dec. 14.—The marriage of Miss Helen Hay, daughter of the secretary of state, and Mr. Payne Whitney, of New York, will occur Thursday, February 8, at the church of the Covenant, in this city.

MRS. BONINE NOT GUILTY.

The Jury Acquits Her of the Charge of Murdering James Seymour Ayres, Jr.

Washington, Dec. 14.—The jury in the case of Mrs. Lola Ida Henry Bonine, charged with the murder of Jas. Seymour Ayres, jr., in the Kenmore hotel in this city on the night of May 13, returned a verdict of not guilty and the defendant was set at liberty. Such a conclusion of the trial was generally expected, the popular impression here being that from the evidence submitted the prosecution had failed to prove its case against Mrs. Bonine. Extraordinary interest was caused at the time young Ayres was shot, because of the mystery surrounding the case, until the statement made by Mrs. Bonine of her part in the tragedy while the coroner's inquest was in session. She said she was the only person in the room when young Ayres was shot, and that he was killed in a struggle with her over the possession of a revolver with which he was trying to frighten her into compliance with his demands. Mrs. Bonine has been in jail since the tragedy. She did not go on the witness stand during the trial to give her testimony.

THE PHILIPPINE TARIFF.

A Substitute For the Original Payne Bill Reported to the House of Representatives.

Washington, Dec. 14.—The Philippine tariff as finally reported to the house is a substitute for the original Payne bill, which, however, it follows throughout except in a few minor places, and the addition of a proviso to section 6 that all articles subject under the laws of the United States to internal revenue tax, or on which the internal revenue tax has been paid and which may under existing laws and regulations be exported to a foreign country without the payment of such tax, or with bonefit of drawback as the case may be, may also be shipped to the Philippine islands, with like privileges. Where imported materials on duties have been paid are used in the manufacture of articles manufactured or produced in the United States there shall ho allowed on the shipment of said articles to the Philippine archipelago a drawback equal in amount to the duties paid on the materials used, less one per cent. of such duties.

THREATENED COAL FAMINE.

Many of the Large Textile Plants in the Carolinas May Be Compelled to Shut Down.

Knoxville, Tenn., Dec. 14.—Local coal men who supply textile industries in the Carolinas can offer little encouragement of relief from a threatened coal famine. The Southern railway's order confiscating coal for its own use materially reduces the supply and the prevailing car famine only adds to the trouble. Representatives of two of the largest companies, with offices here, stated that they were powerless to furnish more than one-fourth the coal needed by their Carolina customers. If the Pocahontas field can not make up the deficiency there must be a partial if not a complete shutdown of many of the large plants.

MAN AND MONEY MISSING.

Robert Shamblin Left the People's Bank, Mobile, to Take a Package to the Express Office.

Mobile, Ala., Dec. 14.—Thursday afternoon Robert Shamblin, a runner employed by the People's bank, left the bank to take a package containing $6,000 to the local express office to be shipped to a Mississippi bank, and has since been missing. He did not appear when the bank opened Friday morning, but not until Friday night was it discovered that he left town early Friday morning on the train for New Orleans. The police have been notified along his possible route. Shamblin is 22 years old and had been in the bank's employ several years.

Fired the Palace.

London, Dec. 14.—A dispatch from Shanghai, published Saturday morning in the Standard, says that on the occasion of the birthday of the dowager empress of China, November 20, some members of a secret society fired the palace at Kai Feng Fu. Two buildings were gutted before the fire was extinguished. It is believed, says the dispatch, that this attempt is the real explanation of the desire of Yung Lu, generalissimo of the Chinese army, that the court hatsen to Peking as a matter of precaution.

The Extradition Case.

Washington, Dec. 14.—A determined effort will be made to bring before congress the Taylor-Finley extradition case, which has been agitating the Indiana and Kentucky officials ever since ex-Gov. Taylor, of Kentucky, crossed the Ohio river and sought refuge in Indiana after the murder of Gov. Gobel.

Murder and Suicide.

Atlanta, Ga., Dec. 14.—A special from Greenville, S. C., says: Edward Hollis, a drummer residing at Lima, 11 miles from this place, shot and killed his wife and sister-in-law, fired at his mother-in-law and son, which missed them, and then shot himself.

His Long Sleep Ended.

Peoria, Ill., Dec. 14.—James A. Harris, aged 67 years, who went to sleep on the morning of November 7 and had been unconscious almost continually since, died Friday.

STATE NEWS ITEMS.

USED NITRO-GLYCERINE.

The Bank of Sturgis Robbed of Between $3,500 and $4,000—The Robbers Escaped.

Sturgis, Ky., Dec. 14.—The bank of Sturgis was robbed early Friday morning of between $3,500 and $4,000 by robbers who blew open the safe with nitro-glycerine. The robbers are thought to have escaped on horses and to have followed the railroad track. Bloodhounds followed the trail for several miles, but lost it then on account of the rain. The posse traced the robbers further than the dogs by finding occasionally pennies that had been dropped and which are supposed to have been part of the booty. Sledge hammers were stolen hy the robbers from a blacksmith shop.

The bank of Sturgis was recently warned by a detective that it might be robbed and therefore kept only a small amount of cash on hand, frequent shipments of money being made to Evansville, Ind., for safe keeping.

GOLD ORE FOUND.

Four Kentucky Prospectors Are Filled With Enthusiasm Over An Expert's Glowing Report.

Williamstown, Ky., Dec. 12.—Parties who have been prospecting on Stephens creek, in this county, for gold have received a report from the government expert at Charlotte, S. C., whither they sent samples of ore taken from their prospect hole, which fills them with wild enthusiasm. The expert says the ore will pan out $21 free gold to the ton and $38 silver. He further says that should there be a great amount of the ore in that section it will prove to be one of the greatest mines in the United States.

J. N. Renaker, who has backed the movement from the start, declares that he believes enough gold will be found to make a dozen millionaires. Other wealthy citizens have been trying to buy stock, but Mr. Renaker refuses to sell.

THINK VALUATION TOO HIGH.

Kentucky Distillers Ask The Board of Valuation and Assessments to Reduce It.

Frankfort, Ky., Dec. 14.—A committee composed of W. O. Bonnie, J. B. Wathen and John L. Dunlap, of Louisville, representing the leading distillers of the state, Friday presented to the state board of valuation and assessment the affidavits of the distillers that they believe $8 per barrel to be the proper valuation of Kentucky whisky for assessment for taxation. The state board originally fixed the value at $10 per barrel by the votes of Treasurer Hager and Secretary of State Hill.

The distillers are confident of securing a reduction to $8 per barrel.

UPHELD THE COURTS.

The Attorney General Can Not Employ Attorneys to File Suits For Taxes.

Frankfort, Ky., Dec. 12.—When W. S. Taylor was attorney general of Kentucky he employed George Denny, of Lexington, to file suit for taxes in Boyle county. After the suit was ended and $1,800 in taxes recovered for the state, Denny asked Auditor Coulter to pay him a fee of $750. Coulter declined to pay because the law not give the attorney general power to employ attorneys in such suits, so Denny sued Coulter to compel him to pay the fee. The court of appeals Wednesday upheld Coulter and says the attorney general can not employ attorneys in such tax cases.

LIEUT. YOUNG'S REMOVAL.

The Affair Causes Surprise at His Former Home in Louisville—Talked Too Much.

Louisville, Ky., Dec. 13.—The removal of Lieut. Lucien Young as captain of the port of Havana caused the greatest surprise among his friends here. Lieut. Young visited his parents in Louisville Thanksgiving day, and while here made the remarks that are given as the occasion of his removal. He was quoted as saying: "The affairs of Cuba are in the hands of a lot of political and professional revolutionists who have nothing to lose and everything to gain."

Had Better Accepted the Offer.

Lawrenceburg, Ky., Dec. 13.—The jury in the case of Threlkeld's administrator vs. the Southern railway in Kentucky, in which judgment for $20,000 was sought for the killing of the intestate, returned a verdict for $1,200. The company had offered to settle for $3,000 before the trial.

Hanged Himself in His Barn.

Middleburg, Ky., Dec. 13.—W. V. Hatter, aged 42, a prominent farmer of this county, committed suicide by hanging himself in his barn. Despondency over ill health is thought to have been the cause of his committing the rash act.

A Stranger Killed.

Williamstown, Ky., Dec. 13.—Joseph W. Dunn was killed at Mason Thursday night by a freight train. He missed his footing. No one seems to know him, but papers on his person indicate that Dunn is his name.

LOOKING FOR A SITE.

One of the Proposed New Army Posts Will Be Established at Louisville, Ky.

Louisville, Ky., Dec. 12.—After hearing a report Wednesday from a committee that has just returned from Washington, where it urged upon Secretary of War Root that one of the four proposed new army posts be established near Louisville, the board of trade, appointed a bureau to find a suitable site. The committee had in mind a site of 500 acres, but were astonished by Secretary Root, who said the war department would not consider a site of less than 20,000 acres. The bureau appointed Wednesday will endeavor to find an available tract of land fulfilling the requirements of the war department, and if such a tract is found, Secretary Root will send army officers to examine it.

RECORD OF KENTUCKY SOLDIERS

The Bi-Ennial Report of Adjt. Gen. of State David R. Murray to Gov. Beckham.

Frankfort, Ky., Dec. 13.—In his bi-ennial report to the governor, Adjt. Gen. of State David R. Murray urges him to recommend the general assembly that it pass at the coming session an appropriation measure to provide for gathering under state supervision the records of Kentucky soldiers of the confederacy in the war between the states. The governor will, it is believed, make the recommendation, and if so, it will be adopted.

He also recommends the increase of the annual appropriation of the state for maintainig a state guard from $7,000 to about $30,000. He shows that Kentucky expends less for this purpose than almost any other state in the union.

OIL, LEAD AND GAS.

A Stock Company Will Be Formed to Prospect at Ducker's Station, Near Versailles, Ky.

Versailles, Ky., Dec. 14.—The discovery of lead and natural gas on the farm of James Scott, a Philadelphian, near Ducker's Station, this county, will result in the formation of a stock company to prospect in that vicinity. Percy Crutcher, who is at the head of the enterprise, has obtained leases on several hundred acres of land adjoining the Scott place.

Mr. Hite, an expert from Cincinnati, expresses the belief that oil and gas both exist in this county in paying quantities.

MATCH TROTTING RACE.

L. V. Harkness Accepts the Challenge of Ross & Dickerson, of Madison, Ind.

Lexington, Ky., Dec. 14.—L. V. Harkness has accepted the challenge of Ross & Dickerson, of Madison, Ind., for a match trotting race between Gravatta and any candidate to be four years old next spring. It is understood that Walnut Hall is to be Mr. Harkness' entry. A representative of Harkness has posted $2,500 as a forfeit and it is understood that he is willing to make the prize $50,000 a side.

A Curious Find.

Williamstown, Ky., Dec. 12.—J. D. Toon, of Jonesville, found imbedded in a tree a bottle of peculiar formation and made of clay. The bottle was several inches under the bark, and had evidently been in the tree for generations. Curiosity seekers have offered Mr. Toon considerable sums for the bottle, but he refuses to sell. The design of the bottle is antique.

The Cases Were Continued.

Madisonville, Ky., Dec. 12.—The examining trials of Vice President Barnaby, Executive Board Member Blackman, Camp Leader Artie Oakes and other union miners, charged with conspiring to intimidate non-union miners, were called in the county court Wednesday, but were continued until next Monday.

Colored Schoolhouse Burned.

Pineville, Ky., Dec. 13.—The colored schoolhouse burned. It was valued at about $2,000. The colored masons and odd fellows, who used the hall over it, had their entire regalia destroyed. Their loss will be several hundred dollars. The house was built in the seventies.

Fooled the Doctors.

Hopkinsville, Ky., Dec. 13.—After four physicians had pronounced him dead and left the house and the announcement had been made public, Dick Trainum, who had swallowed an ounce of carbolic acid, revived and is now almost out of danger.

Bridegroom 74, Bride 20.

Middleburg, Ky., Dec. 14.—Mr. John Bartels, an old German citizen and widower of 74 years, and Miss Mary Catherine Denny, the 20-year-old daughter of A. C. Denny, were married at the home of the bride near Highland.

Bound, Gagged and Robbed.

Paducah, Ky., Dec. 14.—Thos. Burrett, a butcher, awoke Friday morning to find that his wife had been bound and gagged by a thief during Friday night. Jewelry and money were taken.

Neighborhood News.

FLORENCE.—John Vest, of Independence, spent one night last week with friends here.

Mrs. M. E. Latham arrived home Friday, from a visit with her brother, W. A. Kenyon, of Cincinnati.

Miss Helen Brough, of Burlington, left Wednesday for Cincinnati, where she has gone to be a trained nurse.

Mrs. S. F. Powers and charming daughter, Miss Kate, of Verona, are pleasant guests of Mrs. Clara Tanner.

Clarence Reed, who has just returned from China, is visiting his sister, Mrs. G. N. Buffington. He will leave shortly for Europe.

There will be an entertainment given by the Florence public school, Monday evening Dec. 23rd, at the Town Hall. Admission, 10 cents. All are cordially invited.

CONSTANCE.—Mrs. H. Kottmeyer is on the sick list again.

Tom Anderson, of St. Louis, is visiting his parents at this place.

Wm. Zurelia buried his child last Friday. It died of pneumonia.

The Christian Sunday-school will give its Christmas treat Dec. 22.

Mr. Coppage, of Covington, preached at the Christian church, Sunday evening.

Mrs. Davis and daughter, of Lawrenceburg, are visiting A. L. Loder and family.

Jacob Stahl's horse, which was shot by an unknown party, came near bleeding to death before he discovered it.

Mrs. Grimsley, wife of Chris Grimsley, who died at the Anchorage Asylum, was buried here, last Thursday.

The Mission Sunday-school will give their entertainment on Christmas eve night. Songs and recitations by the children. Everybody invited.

Rev. O. J. Hayes, of Ohio, commenced a revival meeting here, Tuesday night. He gave a series of stereoscopical views of scriptural pictures for the benefit of the children.

CRESCENT.— J. F. Powers and family, of Richwood, were visiting Mr. and Mrs. Effie Hogrifle, Sunday.

Effie Hogrifle has purchased five tons of hay from Wm. Yager, at $10 a ton.

Mrs. Celia Darby, who is staying with her daughter, Mrs. Sarah Rector, is seriously ill.

Ben Stephens, jr., of this place, intends to move to Kansas City, Mo., in the near future.

Clarence Rector and wife were the guests of Mr. and Mrs. John Tanner, of Richwood, Sunday.

Cove Carpenter, who was struck by a Q. & C. train, a few days since, is still in a critical condition.

Thos. Northcutt, of Lexington, is spending several days with his parents, Mr. and Mrs. Robt. Northcutt.

Mrs. Robert Northcutt is spending several days with her daughter, Mrs. Riddle Brown, of Cincinnati.

Wm. Respass, of Richwood, and son, J. B. Respass, of Newport, intend to spend the winter at Hot Springs, Ark.

Mrs. Mary Carpenter and niece, Miss Emma Glacken, of Richwood, were visiting Mrs. Carrie Carpenter, Tuesday last.

Louis Saffelder, who has been with Will Ficke, of this place, for several months, has accepted a position in Cincinnati.

Henry Ellis, of Independence, gave an entertainment with his graphophone at the home of Otis Richards, of Gunpowder, last Tuesday evening.

Mrs. Hattie Groger, Mr. and Mrs. Carey Carpenter, of Richwood, James Carpenter, of Florence, and your correspondent spent a delightful afternoon with Mr. and Mrs. Cove Carpenter, last Sunday.

MOUND FIELD FARM.—William Anderson and George Heist, each had a child to die with tonsilitis, last week.

Patrick Shannon, whose age is somewhere in the 90's is lying at the point of death.

Lizzie Clore, daughter of Chas. Clore, is convalescing from a serious attack of pneumonia.

John Mannin had one of his cows to fall through a hatchway in his father's barn, injuring it considerable.

There will be Christmas exercises at the Hebron church on Christmas day. We failed to secure a program.

Don't forget the Pomona Grange meeting on the 20th, and don't forget to bring your baskets well filled.

George Hafer was taken violently ill, last Friday night, with something like flux. He was better at last accounts.

Elzie Harper was in Hebron, Saturday night, extending invitations to all his friends who are out of water, to go and help themselves from his new lakes, which he said are full.

Friday, the 13th, our thermometer registered 68 degrees above zero; Saturday morning, the 15th, 14 below—a difference of 82 degrees in a little over 48 hours time.

Ed Steel and Ed Gibbons, from College Hill, Ohio, spent four days with us last week hunting quails. Notwithstanding we had the best guides the country affords, Dick Tanner and Billy Clore, they knowing exactly where to go to catch them on their roost, we only succeeded in bagging 3, and two of them were rabbits.

Ex-Sheriff Beall, while filing and gumming a saw, the other day, knocked the skin off of the only finger on his left hand, he having lost the others in a sawmill several years ago. It bled profusely for a time, but not thinking much about it, he kept on at his work. It was not long, however, before it began to swell and turn black, and since has been paining him very much.

Charlie Regenbogen is in the poultry business quite extensively, and to improve his stock he purchased two Indian Game roosters, which he put in his roost one night. The next morning when it became light enough for his other chickens to see what he had put among them, they flew down and out and off they went, completely disgusted, and ashamed of the roosters. He has since pursuaded his chickens back home, but they roost in separate place.

S Q has cut the Price on Patent Medicines
30 to 40 Per Cent.
Walton, Kentucky.

UNION.—Miss Kate Baker, the teacher from Big Bone Springs, was in town Saturday.

Mr. and Mrs. Rowland Rouse are entertaining a small daughter at their home.

Mrs. Marshall Hedges spent part of last week the guest of her sister, Mrs. Ben Terrill, in Covington.

Mrs. Nelson Quizenberry, of Hamilton, Ohio, has arrived and will spend the holidays with Mrs. J. A. Huey.

Mrs. Ben Terrill came out from Covington, Saturday, and will spend a few days with her mother, Mrs. L. B. Dickerson.

Charles Cleek is suffering considerably with rheumatism and will go to Hot Springs, Ark., unless he improves in a short time.

The Friday afternoon exercises at the Union school were unusually good. A number of the compositions showed no small amount of literary taleut.

Miss Nannie Rouse [illegible] will be glad to hear that she is improving rapidly, and please don't forget that her stock of goods is selling at cost.

There will be an all day meeting of Golden Grange, Saturday, Dec. 28th. All members are requested to be present as an election of officers for the ensuing year will be held.

Mrs. J. W. Kennedy entertained, Sunday at dinner, Mesdames John Satchwell, Add Huey, Misses Sallie B Hicks, Sara Willis, Messrs. John Satchwell, Elza Garrison, Tom and Jim Huey.

Miss Marietta Riley's school at Pleasant Ridge will give an entertainment Friday night, Dec. 20th. It is for the benefit of the school library and should be patronized by the community. Admission 10c.

Rev. Joseph Rennie, of the Madison Ave. Presbyterian church, Covington, will hold preparatory services for the 4th Sunday communion. Preaching will begin Thursday night and continue till Friday night.

VERONA.—Walter Craven is visiting his mother, Mrs. Julia Craven.

The measle patients are all better, but a few new cases are reported.

Miss Ellie Craven is visiting her brother, Charles Craven, at Springfield, Ohio.

Mr. and Mrs. Leavy, of Louisville, have returned home after a visit to Mrs. Leavy's parents, Mr. and Mrs. L. Bran.

One of Verona's young ladies will leave, soon, to make her home in Grant county. We will report a wedding next week.

Many of the little folks are very uneasy, fearing that Santa Claus may take the measles, and not be able to make his rounds.

Dr. B. K. Menifee, of Crittenden, was in our midst, Sunday. The Doctor is a clever gentleman and a fine physician, and we are glad to see him around.

Mrs. P. E. Carlisle has returned from Cynthiana, after a visit with her aunt, Mrs. Rankin, who has been very low with heart trouble. She reports her aunt very much improved.

Friday the 13th inst, people commented on as summer weather, and everybody was on the stir, but Saturday morning coal houses felt a shock, and so did the people, and now we are in the midst of a first-class winter.

RICHWOOD.—Saturday, Dec. 21, at 2 p. m. is regular meeting of Excelsior Grange.

Mrs. Anna Hearne is much better.

Four car loads of coal delivered here last week.

Cove Carpenter is able to be about his room on crutches.

Sam Hicks returned from a business trip to Louisville, Friday.

Mrs. Effie Rankaer has not fully recovered from her late illness.

Robt. Hughes says he hopes to buy tobacco again this season.

Benj. Bedinger has sold over five car loads of coal in the last month.

Mrs. M. Grubbs and Miss Ida spent Friday with Mrs. M. L. Tanner.

Saturday was a typical March day, and a most disagreeable one, at that.

Wm. Glacken is able to be out doors some after his long illness of typhoid.

The infant grand-child of Mrs. Frank Barnum, of Bank Lick, died of measles, last week.

The extremely cold weather prevented a very large attendance at Mt. Zion church, Sunday.

Mrs. Kate Knesly spent Thursday with her father, Mr. Audy Collins, sr., who is much improved.

Several from this vicinity attended L. L. Tanner's sale, Saturday, and report a very disagreeable day.

As a town, we are advertising and oysters are shipped here direct from Baltimore, and bread, from St. Louis.

The pike was very heavy Saturday. Hartmanu's oil wagon horses tired out here and refused to go farther.

Our schools will be closed nearly two weeks during the holidays and our boys and girls are rejoicing accordingly.

A young physician asked if there was an opening for a good doctor at this place? Dr. Menefee, the last one here, had a fine practice.

Charles Clark's oldest child is home from Covington where she is employed, having just recovered from an attack of the measles.

Mrs. Johanna Harvey requests the Recorder to thank her many friends for their donations and kind attention during her long illness.

L. D. Jackson, our genial merchant, has become quite an expert "chef." He makes oyster soup a specialty, and makes it while you wait.

The breakdown of the crusher at Gunpowder, last Friday, caused some of our citizens to sojourn in that village until late candle light.

A rabbit was seen recently, going through the fields near here, with ten men and eighteen dogs in close pursuit. It was the only one in this vicinity, and we hope it eluded its pursuers.

The Claim agent of the Q & C. Railway has been to see Cove Carpenter in regard to settling the damages sustained by being struck by the commuter, but as yet there has been no settlement made.

The many applicants for a portion of the "House estate" had hoped to receive their slice as a huge Christmas present, but it seems that they must wait until—"it comes to them" not them to it.

The Powers will case decision was a disappointment, here, as John is a favorite, and we thought he would get his "earthly portion" of the estate. If hard work and good qualities go for anything, he certainly deserves more than a paltry dollar.

Well! the snow has arrived a few days ahead of Christmas, but from indications now, will stay to greet old St. Nick. Boys, now is a good time to have a "spat" with your best girl as it will dispense with a present, and on New Year's day you can swear off and make it up.

Excelsior Grange had a called meeting, last Thursday. Worthy Master Wolcott, met with them. It was decided to remodel and repair their hall, and bids will be opened Monday by the building committee. Work will be pushed and it will be finished just after the holidays, when an entertainment, managed by the ladies, will be held, the date of which will be decided on later.

Mrs. Laura Rice, who was buried, last Monday, committed suicide by hanging herself with a sheet suspended from a hook in an unused room at Lakeview Sanitarium. Mrs. Rice became [illegible] through grief caused by the death of her husband, Mr. Charles Rice, two years ago, at this place. She had made several attempts to destroy herself, but was prevented. She was a daughter of the late Senator Reuben Conner.

Fickle fortune has certainly smiled on the Respass boys, formerly of this place. Rouse owns as fine a string of horses as any one in the State, and it would take 5 figures to tell his wealth, while Frank has a few good horses and a fine position, and Charley is on "easy street" with a fine salary drawn weekly. Mr. Wm. Respass, or as we know (Uncle Billy) is proud of his boys and they are certainly proud of their father, who raised them from small tots that they were, when their mother died.

Dr. W. T. Orr, 67, who practiced his profession at Bellevue, several years ago, and was well acquainted at Big Bone, was frozen to death near his home back of Newport, last Saturday night. He was not found until late Sunday morning. He was intoxicated and fell by the wayside that very cold night.

Mr. B. F. McGlasson hands us the following list of prices copied from a bill for merchandise, purchased by Thomas Whitaker, July 26th, 1806: Per pound—Indigo, 27 cents, madder 36 cents, pepper 63 cents, rice 15 cents, alum 18 cents, 1 nutmeg 12 cents, 4 yards muslin $2 88, 4 yards calico $2 52, 1 leghorn bonnet $3 25, 1 paper pins 18 cents.

The members of Golden Grange No. 364, are requested to be at the hall in Union at 10 o'clock, (sun time) Saturday, Dec. 28, 1901. The annual election of officers will be held in the morning and degrees will be conferred in the afternoon. Do not forget to bring dinner. Neighboring Granges are invited to meet with us.

N. C. TANNER, Master.
Nanule D Bristow, Sec'y.

Capt. M. T. Garnett and Col. James E. Duncan, of Burlington, Ky., are recent arrivals at the Commercial House. Capt. Garnett has been clerk of Boone county, Ky., for 20 years while Col. Duncan is one of Boone's wealthy land owners and farmers. Both gentlemen are well pleased with Bartow. They are old friends of Col. L. N. Crigler which guarantees that they will see the country and meet the folks.—Bartow, (Fla.) Courier-Informant.

Food Changed to Poison.

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Billousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles. Only 25c at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oelsner's, Florence; H. L. Eskew's, Walton; O. N Grant's, Bellevue.

Having moved my Drug Store into the building lately occupied by W. H. Clark—one door above the National Bank, I cordially extend an invitation to all my old patrons and the public in general of Boone to call and see me at my New Place of business, here assuring you of my appreciation of your patronage in the past, and hoping for a continuance of the same.

I am yours respectfully,
J. P. HEMPHILL,
Rising Sun, Indiana.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said, Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by all druggists.

Entertainment at Grange Hall, Bullittsville, Tuesday evening, Dec. 24th. Come one, come all and spend a pleasant evening. A laughable farce, "My Lord in Livery," will be given; also an Ethiopian Sketch, "Hemmed in." Music by the choir. Vocal solos by Mr. Pericles Grubbs, Mrs. Pickelheimer, Miss Zayda Gaines and others. Instrumental music by Mr. Lyman Gaines, Miss Marie Riley and Master Duncan Riley. Recitation by Miss Bernice Duncan, etc. Admission, 20c. Performance will begin at 7 p. m. sharp.

COUGHS AND COLDS IN CHILDREN.

Recommendation of a Well Known Chicago Physician.

I used and prescribed Chamberlain's Cough Remedy for all obstinate, constricted coughs, with direct results. I prescribe it to children of all ages. Am glad to recommend it to all in need and seeking relief from colds and bronchial afflictions. It is non-narcotic and safe in the hands of the most unprofessional. A universal panacea for all mankind.—Mrs. Mary R Melendy, M. D., Ph. D., Chicago, Ill. This remedy is for sale by all druggists.

Local News.

Our Cook Book is progressing slowly but surely.

If you need a new stove or stove repairs call on M. Riddell.

Sleds and skates came to the front with the cold weather.

A wagon made music like unto a brass band, Monday morning.

There was not enough water in the creeks and ponds to make any ice.

Geo. Blyth sold his 2 big bay horses to Hebert and Lon Beemon, yesterday.

The cold weather caused considerable lucrease of inmates at the county infirmary.

Last Saturday was a genuine mix-up of weather—it rained, hailed, snowed and blowed.

Ten degrees below zero here Sunday and Monday morning. A pretty good starter for winter.

B. B. Allphin executed his four bonds as Sheriff, Monday, with the Baltimore, Md., Bonding Company as his surity.

Correspondents will please not forget to have their communications in this office next week not later than by Monday noon.

Foxes are numerous this winter, and those owning packs of hounds anticipate a great deal of fun with reynard in the next few months.

Don't you know that the RECORDER will make a new year's present that will be highly appreciated by a friend who has moved from this county?

The pupils of the Pleasant Ridge school will give an entertainment at the school house, Friday night, Dec. 20th, 1901. Everybody is cordially invited. Admission, 10c.

Our local exporter of furs, Herbert Kirkpatrick, was delighted with the winter weather that came in last Saturday. It gives the fur market tone and increases the number of pieces he handles.

The ladies of Honeful church will give an Oyster Supper at Odd-Fellow's Hall, Florence, on the evening of the 26th inst. All are cordially invited. Admission.— Aduits, 25 cents; children, 15 cents.

Mr. Harry Tanner failed to give his graphophone entertainment Saturday night on account of the bad weather. He will give it next Friday night at the time and place advertised for last Saturday night.

The RECORDER, this week, is in receipt of a good communication from Berkshire, but the writer neglected to sign his or her name, consequently it goes in the waste basket Write again, please, and sign your name.

Our friend, Atty. J. C. Clore, of Cincinnati, pulled down a $10,000 judgment against a railroad for one of his clients, a few days ago. A railroad official had caused the man's arrest on a charge of attempting to pass counterfeit money while riding on his train. The money proved to be good, and the passenger sued the railroad company for $25,000 damages.

They have a cow over in Rising Sun, that has a cork screw tongue, and when she finds that a gate she desires to pass through is locked, she proceeds to take the hinges off. Her depredations are about to create a war in that heretofore peaceful little city, and Gov. Durbin is expecting a call from the Ohio county authorities for a company of militia to maintain order.

A Christian Endeavor Society was organized at the Presbyterian church, Sunday afternoon, and officered as follows: Mrs. Dr. Rouse, President; Mrs F. A. Hall, Vice President; Mrs. W. L. Riddell, Secretary; Mrs. Dudley Rouse, Treasurer. There are now 10 members. The Society will hold a meeting next Sunday at 2:30 p. m. at the Presbyterian church. All are invited to attend, especially the young people of the community.

Holiday Goods.

On and after Saturday, December 14, I will display my line of Holiday Goods at my new store—the building lately occupied by W. H. Clark as a Dry Goods Store, one door above the National Bank. I will have the finest line of goods that I have ever carried. Call and see me; my room is large and you are invited to make it your headquarters when in Rising Sun. I extend a hearty welcome to the people of Boone.

Respectfully, J. P. HEMPHILL,
Rising Sun, Ind.

Kirb Crisler from across Gunpowder creek, cannot join his neighbors in complaint because of a failure of his crop of corn this year. He had a field of 20 acres which he planted in corn early in the spring. The cut worms worked on it so that he had to furrow it out and replant it, which he began on June 6th, and that field yielded 120 barrels of corn. He says it is a yellow corn with red cob and matures in 90 days. On a portion of this corn he fattened a lot of hogs which he sold on the Cincinnati market, several days since for $6 20 per hundred.

We have before us several old legal documents that belonged to William Cloud. Among them are the following: One is a letter from Joel Dicken, of Newport, dated Nov. 9, 1835, and says, "Respecting the sale of the negroes, you can act with them as you see fit and we will be satisfied." This letter was transmitted without envelope and the postage marked thereon was 18¾ cents. Another is dated 1797, and is a receipt for sixteen pounds ten shillings. Another is a patent, on parchment for a lot of land in Ohio, and is signed by President James Monroe, and dated 1817. William Cloud was the father of James D. Cloud, of this neighborhood.

Mrs. Shirley Johns-Hopkins, of Rabbit Hash, Boone county, Ky., spent a couple of days the first of the week here the guest of her old schoolmate, Miss Gertrude Egelston, they having attended school at Midway together. Mrs. Hopkins' husband, Dr. Frank Hopkins, of Pendleton county, located at Rabbit Hash last August and is enjoying a fine practice.—David Orr made the first purchase of new tobacco this week, a crop raised by Henry Hughes, colored, on the Robt. Payne farm above town, about 4,000 pounds, at six cents all around. It is a nice crop, of good body.—Warsaw Independent.

Personal Mentions.

R. J. Huey, of Rising Sun, Ind., was in town, Monday.

Atty. Gosphol, of Covington, attended court here, one day last week.

Atty. John Vest, of Independence, attended court here one day last week.

Miss Mary Thompson left yesterday for Old Point Comfort and other eastern cities.

D. C. Hughes came up from Petersburg, Saturday, and remained until Monday morning.

Circuit Clerk J. W. Duncan was not able to appear at his desk at any time during Circuit Court.

Congressman Gooch has our thanks for a bound copy of President Roosevelt's message to Congress.

Mrs. W. F. Ashburn returned to her home at Mt. Adams, O., after a week's visit with relatives in Burlington.

O. P. Conner spent several days the last week with his son-in-law, J. E. Rouse, at Payne's Depot, Scott county.

C. A. Slater, of Walton, was in town Friday. He says he has not moved to that city to become a permanent citizen.

Mrs. Dr. Smith arrived home, last Thursday evening, after a visit of a few weeks in St. Louis, with Frank Smith and wife.

William Lucas, who has been operating a blacksmith shop here for some time, moved to Dry Ridge, Grant Co., last week.

Judge Cyrus Riddell made his appearance on the street again, last week, after being confined to his room for some time.

Chas. P. Baker, of Union neighborhood, has been appointed administrator of the estate of his father, the late John Baker.

Mr. and Mrs. J. P. Tanner entertained a large number of young people with an old time cotillion party, last Friday night.

John Neal, of Grant county, came down last week to close out some unsettled business he left behind when he moved away.

Our clever friend, B. L. Norman, of Union, was in town last Friday, looking as happy as it is possible for man to be in this vale of tears.

J. W. Cleek, of the Beaver neighborhood, made us a pleasant call, one day last week. It is seldom that Mr. Cleek is seen at the county seat.

T. E. Garrison and daughter, Miss Grace, of Union neighborhood, were the guests of Mesdames Roy and Homer Clutterbuck, last Friday.

Coronor Murat, of Constance, was in town, last Friday. The doctor has had several cases of typhoid fever this fall, each of which he handled successfully.

H. C. Botts, a Lexington insurance man and Boone county boy, was in town Friday, showing some signs of having been abroad in this moral vineyard for quite a time.

Col. Richard Madden, from the breezy heights of Mudlick, was detained in town nearly all last week, and the Burlington climate seemed to agree with him in every particular.

Lewis Clegg, 18, son of Edward Clegg and Miss Martha E. Utz, daughter of O. C. Utz, all of Gunpowder neighborhood, will be married by Rev. Slater at his residence near Florence, tomorrow.

Only in the last few years has the Commonwealth discovered what a faithful servant it has in the person of J. L. Frazier, of Union, and it now calls on him frequently to render jury service.

J. W. Rouse, of Gunpowder, was among the RECORDER'S callers last Wednesday. Mr. Rouse brought the name of one of his neighbors, as a new subscriber to the paper, and they both have our thanks.

G. E. Carroll, of Beaver, was one of the jurors who lived too far from the scene of action to go to and return from home every day, last week, and he seemed to enjoy his several days sojourn at the capital.

R. L. Howlett, of Big Bone, sojourned in Burlington several days last week, being one of the regular jurors for the Circuit Court. Mr. Howlett is one of the substantial citizens of the southern part of the county, and a most excellent gentleman.

J. B. Dixon, of Crescent neighborhood, was in command of the grand jury during its five days session, last week, and he seemed reluctant to leave the old town after his command was mustered out of service by Judge Lassing Friday afternoon.

Our friend, A. W. Smith, of the Verona neighborhood, informs us by telephone that measles is epidemic up there, thirty families, each having one or more patients. There have been no deaths, although pneumonia has followed the measles in several instances.

O. C. Utz, of Union, was in town Monday, and he said the only difference he noticed between the cold spell that arrived last Saturday night, and that known as "the cold new year," in 1894, was that he had plenty of rabbits to eat during the '94 period and none this time.

Dr. Baker, of Louisville, is tendered the congratulations of his native county, Boone, upon his reappointment as postmaster of that city. The Democrats here were for him to a man, and if there was a Republican who did not want to hear of his reappointment, he feared to make himself known.

The ladies of hopeful church are making big preparations for the oyster supper to be given on the evening of the 26th inst. in the store house next door to the postoffice in Florence instead of the I. O. O. F. Hall as announced last week. All cordially invited. Proceeds for benefit of church.

[Western Tobacco Journal, Dec. 14.]

The highest price of the week was $18, for a Brown county hogshead at the Bodmann warehouse. Thursday's market was one of fair proportions, the prices being perhaps a shade better than the day before. Wednesday the Globe House sold three hogsheads of new from Brown county. They averaged $5 30. One sold for $8 90. The Red Tips that have appeared on the brakes lately have been of a much rougher grade than those of two weeks ago, and as a result the prices on these kinds are lower. Next week is the last of this year's business. Adjournment for the holiday season will follow Friday's sale.

ALONG NEW PATHS.

We Are Making Our Earthly Pilgrimage for the First Time.

Sermon of Dr. Talmage in Which He Pleads for Merciful Interpretation of Human Endeavor—Crossing the Jordan.

[Copyright, 1901, by Louis Klopsch, N. Y.]

This discourse is a most unusual presentation of things that take place in many lives, and Dr. Talmage pleads for merciful interpretation of human behavior. The text is Joshua 3, 4: "Ye have not passed this way heretofore."

In December, 1889, I waded the River Jordan, and, although the current was strong, I was able to bear up against it, but in the time of spring freshet, when the snows on Mount Lebanon melt, nothing but a miracle would enable anyone to cross the river. It was at the dangerous springtime that Joshua and the officers of his army uttered the words of my text to the people who were in a few hours to cross the Jordan. About that crossing we say but little, because on a previous occasion we discoursed concerning that piling up of the waters into crystal barricade. We only speak of the march to the brink of the river. No stranger thing has ever occurred in all history.

The ark of the covenant was a brilliant chest of acacia wood, overlaid with gold, on the top of which were two winged figures facing each other. It was five feet long and three feet wide. Poles were thrust through the rings at the side, and by these poles the ark was lifted. This splendid box was to be carried three-quarters of a mile ahead of the hosts of Israel on the way to the crossing. That distance between the box and the advancing thousands must be kept because of reverence. There was a sanctity in that divine symbol that they must observe by keeping three-quarters of a mile away. They must watch that glittering box and follow, otherwise they would lose their way and not arrive at the right place for crossing. They had never been there before, and they must be guided. For that reason Joshua utters the words of my text: "Ye have not passed this way heretofore," and the subordinate officers at the head of the regiment repeated it: "Ye have not passed this way heretofore."

What was truthfully said of the ancient Israelites may be truthfully said of us. We are making our first and last journey through this world. It is possible, as some of my good friends believe, that this world will be corrected and improved and purified and floralized and emparadised as to climate and soil and character until it shall become a heaven for the ransomed, but I do not think it. I have an idea that Heaven is already built somewhere. Our departed friends could not wait until this world is fixed up for saintly and angelic residence. Having once gone out of the world, I do not think we will come back, except as ministering spirits to help those who remain in the earthly struggle or perhaps to look at the wondrous spectacle of a burning planet.

But, leaving that theory aside, we are very sure that we are for the first time walking the earthly pilgrimage. "Ye have not passed this way before." Every minute is a new minute, every hour a new hour, every century a new century. Other folks have gone over the same road we are traveling, but it is our first trip. New appearances, new temptations, new sorrows, new joys. That is the reason so many lose their way. They meet some one on the road of life and ask for direction, and wrong direction is given. We have all been perplexed by misdirection after asking the way to some place we wished to visit. Some one said to us: "Take the first road to the right and, having gone a mile on that road, take the first road to the left, and you will soon reach your destination." We took the advice, but our informer forgot a turn in the road or forgot one of the roads leading to the left, and we took the wrong road and were lost in the woods, and night came on, and we were put to great irritation and trouble.

The fact is I blame no one for making lifetime mistakes. I pity them instead of blaming them. There are so many wrong roads, but only one right one. You cannot in midlife draw upon your youthful experiences for wisdom, for midlife is so entirely different from youth. You cannot in old age draw upon midlife experiences, for the two stages of existence are so diverse. What is wisdom for one man to do would be folly for another to undertake. A man of nerve and pluck is not qualified to advise a man timid and shrinking. An achievement that would be easy for you might be impossible for me. Human advice is ordinarily of little value. People review their own successes or failures and then tell us what is best for us to do, not realizing that our circumstances are different, our temperament is different, our physical and mental and moral capacities different. Most of the great mistakes that have been made have been made under human advisement.

So, also, it may be said to every nation: "Ye have not passed this way before." Our own republic is going through novel experiences. Could wisest statesmen 20 years ago have prophesied present conditions? Every president, every congress, has new crises to meet and new questions to settle. So prophecies made about conditions in this country 50 years from now may turn out as far untrue as the prophecies made 50 years ago by the greatest of American statesmen when he declared on yonder Capitol hill that it was unwise to think of civilization or prosperity the other side of the Rocky mountains, and according to his belief the Pacific coast would be the perpetual abode of barbarians and mountain lions, and we must not think of annexing those forbiddlag regions.

Many prophecies in regard to our nation failed and many prophecies concerning its future will fail because it is traveling a new road. Every step it takes on that road is a novelty. The opinion of a Monroe or a Jefferson in the far past is not of as much value as the opinion of our wisest men now. How could men know in 1833 what it would be best for this nation to do in 1901? It is belittling as well as unwise for our statesmen, who are quite equal to the statesmen of the past and who have, in addition to the natural talents of their predecessors, attainments in knowledge that were impossible in any decade but our own, to depend on advice of men who have been dead three-quarters of a century. In all other things the world has advanced. Can it be that in statesmanship it has gone back and that this opening of the twentieth century must consult the opening of the nineteenth century? "Ye have not passed this way before."

Yea, our entire world is on a new pathway. It may be swinging in the same old orbit as when by the hand of the Almighty immensity was sprinkled with worlds, but it has been rocked with earthquakes and scorched with volcanic fires and whelmed with tidal waves and wrought upon by climatic changes—cities sunk, and islands lifted, and mountains avalanched into valleys. So it is another world than that which was first started in the solar system. Yet it is all the time chaaging and will keep changing until the hour of its demolition. Of this beautiful world, this lustrous world, this glorious world, it may be said: "Ye have not passed this way before."

What is the practical use of this subject? Instead of putting so much stress upon human advice and instead of asking of the past what we ought to do, follow the divine leading as the men of Joshua followed the golden lidded chest of acacia, which was the symbol of the divine presence. Not human, but divine, leadership, Joshua not consulting with his colonels and lieutenants, but consulting with God—the God of individuals, the God of nations, the God of worlds.

That three-quarters of a mile distance between the ark or sacred box and the front column of Joshua's troops mightily impresses me. It was a forceful way of teaching reverence for the Almighty. They needed to learn that lesson of reverence, as we all need to learn it. Irreverence has cursed all nations, and none more than our own. Irreverence in the use of God's name. Hear you it not on the streets and in social groups, and is not a profane word sometimes thought necessary to point jocosity? Irreverence for the Scriptures, the phraseology of the Bible often introduced into the most frivolous conversation and made mirth provoking. Irreverence for the oath in courtroom or custom house or legislative hall by the conventional and mechanical mode of its administration. Irreverence for the holy Sabbath by the way it is broken in pleasurable excursion and carousal. Irreverence on the part of children for their parents, insolence being substituted for obedience. Irreverence for rulers, which induces vile cartoons and assassination. Irreverence in church during prayer, measuring off song and sermon by cold, artistic or literary criticism, and in prayer time neither bowing the head nor bending the knee nor standing as one does in the presence of earthly ruler, thus showing more respect for a man than to the King of Kings. We ask not for genuflexions or circumflexions or prostrations, but when prayer is offered let us either bow the head or bend the knee or let us in some way prove that we are not indifferent. In how many places have presumption and foolhardiness taken the place of reverence. That three-quarters of a mile between the chest of acacia covered with gold and mounted with wings—a symbol of the divine presence—and the marching regiments of Joshua suggests a reverence that is woefully lacking in social life, in legislative hall and religious assemblage. A farmer went to the wheatfield, taking his son with him. The child said: "These stalks that stand straight up must have the best grain. Those stalks that bend over cannot be worth anything." Then the father broke off two of the tops of the stalks and said: "Child, that one that bends clear over has the grain." It is the soul that bows in deepest reverence which is the best soul.

But though Joshua's host observed the three-quarters of a mile command, they followed the ark, and you will do well to follow the divine leading, as the path you tread now has not yet been trodden. "Ye have not passed this way before." Many of you are suffering from just such annoyances as have not occurred in all your history. There have been meannesses practiced upon you or you have received slights or you are the subject of misinterpretations or you are in the midst of sore disappointments or there are demands made upon your strength and time more than you can meet, or some physical ailment is laying siege to your castle of health or you are under embarrassments that you cannot mention even to nearest friends. You say: "Well, I never saw anything like this. I never expected such treatment as this. I never thought it possible to be placed in such circumstances." And when you say all that you are only translating the words of my text into your own phraseology. If you had suffered something like this before, you would have known what to do, but here is a flank movement for which you are not ready.

As our sorrows are new, our joys are new and all our experiences are new. Our life is one long discovery of things that we did not know and could not know, because we have not passed this way before. We have found, for instance, that gratitude is the rarest of virtues. You used to suppose that if you do a kindness it will be fully appreciated and reciprocated. You have found out by experience, as you could have found out in no other way, that gratitude is apt to be only another ax to grind. While there is a possibility that you may return still more service you are thanked, but when you can return no more advantage you are dropped. Here is a man whom you have helped in political elevation. When the time comes for the compliment to be returned, you are not only refused help, but you receive positive opposition. You have found out that you should do the right thing not with respect to reward or gratitude, but because it is the right thing to do. Many are miserable because they are all the way looking for gratitude which they cannot find. You might as well go down Pennsylvania avenue, Washington, or Broadway, New York, or Tremont street, Boston, your eyes scrutinizing the pavements looking for turquoises and emeralds and rubies. Perhaps you might find them, but there is not much probability that in 50 years you would find one of them.

We talk about the great discoveries of the age, the electric power, the telescopic and microscopic power, but do not say anything about the discoveries we all make year by year and day by day. There are surprises all the time. It is a new road we are traveling. "Ye have not passed this way before."

But closely allied is the other fact which we hinted at in the opening—that we will not pass this way again. This is our only opportunity for doing certain things that ought to be done. On all sides there are griefs we ought to solace, hunger we might feed, cold that we ought to warm, kind words that we ought to speak, generous deeds we ought to perform. All that you and I do toward making this world better and happier we must do very soon or never do at all. Joshua and his troops never came back over the way they were marching toward the crossing of the Jordan. The impress of the sandal or the bare feet of each soldier showed in what direction he was going, but never did the impress of the sandal of any one of them show that he returned. We are all facing eternity to come. There is no retreat. Alertness and fidelity would not be so important if we could truthfully say: "I will be back here again. The things I neglect now I will do the next time. I will be reincarnated, and I will resume my earthly obligations. Having then more knowledge than I have now, I will discharge my earthly duties better than I can now discharge them. I do not give solemn farewell to these obligations and opportunities, but a smiling and cheery good-by until I see them again." No, we cannot say that. There will be no new and corrected edition of the volume of our earthly life. After we make exit from the stage at the close of the fifth act we cannot reenter. How many millions of people have lived and died I know not, but of all the human race who have gone only seven persons that I now think of have returned, the son of the widow at Zarephath, the young man of Nain, the ruler's daughter, Tabitha, Eutychus, Lazarus and Christ. Among all the ages to come I do not suppose there will be one more to return to this life, having once left it.

Lord Bacon said that he who shall discover the way to make myrrh soluble by human blood will discover immortal life on earth, but no such discovery will ever be made. With what suggestive solemnity does this thought charge every hour of our earthly existence! It is said that it is possible to know which way the wind blew at the time of the deluge by the mark of the waves still to be found in the sand, and the direction of our influence, however slight, will leave a mark that will last forever.

O hearer, stop bothering about your exit from sublunary scenes! By the grace of God get your heart right and then go ahead. If the Lord takes care of you clear on to the bank on this side of the river, I think you can trust Him to take you from bank to bank, from the willows on this side the stream to the palms on the other side, from the last kiss of sorrowing ones on this side to the welcome, saintly, cherubic seraphic, dear ones on the other side. Keep your eye on the ark, and whatever betides you will go through all right.

One Easter morning Massena, the marshal of France, appeared with 18,000 armed men on the heights above the town of Feldkirch. There was no arms to defend the town, and the inhabitants were wild with terror. Then the old dean of the church cried out: "My brothers, this is Easter day! We have been depending on our own strength and that fails. Let us turn to God. Ring the bells and have service as usual." Then the bells rang out sweetly and mightily from the church towers of Feldkirch, and the people thronged to the houses of prayer for worship. The sound of the bells made the enemy think that the Austrian army had come to save the place, and Massena and his 18,000 soldiers retreated. By the time the bells had stopped ringing there was not one soldier in sight. So put your trust in God, and when hosts of troubles and temptations march for your overthrow ring all the bells of hope and faith and Christian triumph, and the threatening perils of your life will fall back, and your deliverance will be celebrated all up and down the skies. The God who led you through the way you never passed before will be with you at all the crossings.

A LITTLE JEWELED BAG.

It Is Built to Match a Woman's Brooch and Rings and in It Carry Things.

Not back in the 1830 days was the hand bag of more prominence in woman's dress than now. Then, in that budding Victorian era, dress skirts were so skimpy that there was no room for a pocket; now they are scant again, and the tiebacks of winter absolutely forbid the excrescence of a pocket anywhere, says a dress exchange.

To reach a pocket in the back breadths is such an ungraceful act that women hesitate to perform it in public; to carry a pocket in the side is not always possible and never pretty, as it gives her a lopsided look. The pocket in the petticoat is absurd and the little jacket pocket is useless. So to the hand bag she is driven.

The new bags are some of them gorgeous in color and exquisite in texture—and in price. You can really pay anything you wish for a hand bag. A jeweler just completd one for one of the Vanderbilt ladies. It was in Louisine silk of a blue green color. The shape was oblong, about a foot by five inches in width. Around the lower edge of the bag there was an applique of cloth of gold of the kind which Louis XI. loved so well. The remainder of the bag was gemmed with the jewels put on so that they formed an immense rose with leaves and stem. The price was so discouraging to the woman of average purse that it is best not to tell it.

Neat little hand bags can be made at home. If there is a gold clasp in the family it can be attached to a little silken bag made in any shape desired. The work of fastening on the clasp should be done carefully to give a neat appearance. The inside can be in a contrasting color. A bag of violet satin to match or contrast with a tailored suit is very pretty. Let the outside be studded with steel nail heads or with silvered ones or nail heads of gold. The lining should be a gorgeous orange satin and the initial is worked inside the bag, not outside.

Very long chains can be wound twice around the arm or the chain can be worn around the waist to sort of dress up the belt. The wardrobe of winter—if one would be very becomingly attired always—should include not one bag alone, but a dozen. Let them be of all shapes and in all sizes and of every color that will go well with the costume. The lining may be very gay, indeed, and should show a vivid contrast to the comparatively sober outside.

FEMININE FANCIES.

Some of the Pretty Trifles That Go to Finish Off the Up to Date Costume.

Heavy lace boleros with sleeves are worn with untrimmed silk waists and can be bought in the shops all ready for use.

Brochee mousseline is one of the fashionable fabrics for evening gowns.

Long chains of every kind and description are still very much worn, and they have various uses. One of the novelties is a gun metal and gold chain in alternating links, and to this is suspended one of the little gun metal mirrors which reflect the entire head in miniature. It is a useful little trinket now that women are obliged to remove their hats at the theater, says the New York Sun.

The new chinchilla muffs are made with the strips running crosswise, which gives them the effect of a muskmelon.

A delicate perfume for the gown is made by dropping a little lavender into boiling water and holding the garment over the steam.

Fancy buttons are seen on some of the new gloves, and if you would have the modish thing, wear gun metal colored suede gloves with rhinestone buttons, with your black gown.

Old-fashioned cameos set in gold make a stylish belt pin, a brooch for the neck, or a scarf clasp, one or all. Cameo bracelets are transformed in this way, producing three useful articles.

The fashionable woman seems to find use for any number of uncut gems. It is one of the season's fads to have a buckle, brooch, cuff buttons, pendant and umbrella handle to match, and for these turquoises, sapphires, amethysts and moonstones are employed.

Italian Tomato Soup.

This is one of the most delicious soups I have ever eaten, and I have never seen this receipt in print. It is very economical and good emergency soup, as it can be prepared in half an hour. One onion fried in butter (do not let brown), two cans of tomatoes and one quart of water. Add the onion to the tomatoes and let boil 20 minutes. Strain through a colander, set back on stove, and add one heaping tablespoonful of cornstarch dissolved in water, one dozen cloves, salt and sugar to taste. Let boil five minutes, then add one tablespoonful of Worcestershire sauce.—Good Housekeeping.

Sweetbreads with Peas.

Lard five sweetbreads with strips of salt pork, pour over them half a pint of water and stew gently for an hour; take out and put into a small baking-pan, sprinkle over with bits of butter and flour; brown slightly; add half a gill of milk and water mixed, and season with pepper. After the sweetbreads are taken up, add half a pint of hot cream to the gravy. Arrange the sweetbreads in the center of a platter, pour over the gravy, and surround with stewed peas.—Ladies' World, New York.

IT SHOULD BE DROPPED.

The Ship Subsidy Scheme Should Not Be Permitted to Offend Again.

While in no position to positively assert that the ship subsidy scheme will not be urged upon the next congress we stand by the position taken ever since the attempt at legalized robbery was entered upon and insist that its abandonment is the only honorable course open to its promoters. Reliance cannot be placed upon their dropping it because its adoption would inflict a great wrong upon the people, says the Detroit Free Press.

They apprehended the moral status of their case as clearly when they initiated it as they do now. It was conceived in selfishness and pushed with the single idea of benefiting certain preferred interests that were exposed during the long discussion of last winter. The men behind the undertaking have known from the outset that they were merely planning a great financial coup that, if executed sucessfully, would mulct the country in the sum of at least $30,000,000, that it would receive literally nothing by way of compensation and that the sole beneficiaries would be those working the colossal confidence game.

Yet, while conscience has worked no change of heart on the part of the men who started out to enrich themselves by the method which has grown as familiar as it is obnoxious to the people, popular opinion has checked, if it has not halted them. It will be surprising if their shrewdness has not detected the handwriting upon the wall. The masses who provide the revenue of the government are in no mood to make an enforced contribution at such dictation or for any such purpose as it has been sought to conceal under the cloak of building up our merchant marine, keeping pace with our expanding commerce, "getting into the game" with our foreign competitors and rising to the dignity of a world power. These are winning slogans in the abstract and liable to ignite inflammable patriotism, but the promoters are now in the position of a man who has shown his hand when nothing but a "bluff" could have made it a negotiable possession. The country, through the debates in congress and exhaustive discussion in the newspapers, knows the true inwardness of the subsidy scheme and realizes that it is without a material feature deserving commendation or support.

In addition to being exposed as a ring that is out for the money when we now have a greater tonnage in foreign trade than can find employment, when private capital is giving the shipyards all that they can do and stands ready to meet every demand that commerce makes, there is a grave political consideration. The schemers are republicans and include such party luminaries as Hanna, the head and front of the party management; Senatora Frye, Aldrich, Lodge and many other republican leaders in their respective sections of the country. They have been forced to understand that their subsidy plan is unpopular and that to give it the force of congressional sanction would imperil the future of the party.

The president himself, although he has been quoted as an original supporter of the movement, sees how impolitic it would be to urge the scheme in his message and will probably pass it over. The rural congressmen have been hearing things at home and we are inclined to believe that the measure will not figure in the records of the next session. Political policy, it impresses us, blocks the grabbers.

COMMENTS OF THE PRESS.

—An unjust tariff makes an overflowing treasury.—Washington Post.

—The demand that the tariff shall be revised by the friends of the system seems to mean that, while nobody else is to have anything to do with its revision, its friends are too good friends to touch it.—Milwaukee Free Press.

—The surplus in the treasury since July is over $30,000,000, the greatest that has ever accumulated in that space of time. Such a condition is a great encourager of extravagance and a positive aid in promoting schemes like the subsidy bill. — Indianapolis News (Ind.).

—An urgent question in politics now is, how long will a leader of Mr. Hanna's ability and dominant qualities "grin and bear it" under President Roosevelt's management of the appointments? The senator has already gulped violently several times.—Cincinnati Enquirer.

—If there is no tariff revision at the coming session of congress, no recognition of reciprocity, and no reduction in the revenues such as will prevent a surplus, the elections of 1900 and 1902 will be duplicated in 1902 and 1904 and the republican party be swept from power. The deluge will come.—Chicago Journal (Rep.).

—At a recent meeting of the Indiana democratic committee the members agreed in the belief that the money question would have no place in the state campaign, and that the fight should be made along the lines of tariff reform and opposition to trusts. In the congressional districts this is to be the only issue, and free silver will have no place in the campaign.—N. Y. Post.

—Protectionists are afraid that any trade concessions to Cuba will make a breach in the walls. Perhaps it would, as the supporters of the "infant industries" adversely affected would be disposed to throw the weight of their influence toward the reduction of other duties. It would be a blessing if the new relationship of Cuba could be used to force lower duties all around. — Indianapolis News (Ind.).

WHO HOLDS THE WHIP?

Signs of a Breach Between Roosevelt and Hanna. Are Not Wanting.

Washington advices tell us that leading republican senators are now satisfied that President Roosevelt is proceeding, with a clear and concerted purpose, to tear down the Hanna machine, and to build up his own fortunes by the use of the federal offices.

In no other way can they interpret his policy, as recently developed. National committeeman after national committeeman has been ignored and overriden, in direct contravention of the policy of President McKinley. Two well-known senators, personal friends of President Roosevelt, are said to have called his attention to the fact that he has ignored National Committeemen Addicks, of Delaware; Yerkes, of Kentucky; Hawley, of Texas; Gibbs, of New York; Kerens, of Missouri, and in addition has allowed Secretary Hitchcock to go over the head of that old republican war horse, Thomas H. Carter, in Montana, and has refused to make an appointment desired by Senator Foster, of Washington.

These men, says the Albany Argus, are furthermore said to have told the president that the national committeemen are in a condition of panic, and that the senators generally believe that Mr. Roosevelt has set up in business for himself. These two friends are reported to have added:

"If you are bent on tearing down the present organization, what are you building in its place? Where is the Roosevelt organization coming from? Do you think you can be president and run the republican party from the white house as actual leader?

"It is easy enough to destroy, but it is hard to build up. This magnificent machine, explained by Senator Hanna, is rapidly becoming demoralized under these continued attacks on your part. We want to see you nominated in 1904, and you want to be nominated. Now, if you are going to turn your back on the old men, you must get some new ones or you will never win in the next convention."

In other words, who is to be the Hanna of the Roosevelt administration? Who is to manage the Roosevelt machine, which the president is building up? A man capable of taking Mr. Hanna's place as a practical man of affairs, in the detail work of running campaigns, conventions and committees, is not always to be found at a moment's notice. Whom has the president in mind? Who is to take Mr. Hanna's place?

DELAY NOT RECIPROCITY.

The Programme of the Republicans Will Favor the Protected Interests.

Representatives of the Cleveland chamber of commerce and of the commercial organizations of New York, Boston, Pittsburg, Buffalo, Cincinnati and Indianapolis called upon President Roosevelt a few days ago to urge the importance of reciprocity with Canada. The president was non-committal on the immediate matter presented to his attention, but said the whole subject of reciprocity was being canvassed and he hoped something would be done at the approaching session of congress.

The managers of the political party in control of both branches of congress went into conference with the president and indicated the policy to be pursued. There is to be no reciprocity and no tariff revision. The programme is to "let well enough alone," states the Cleveland Plain Dealer. If the commercial and manufacturers' organizations think present conditions are not "well enough," and that unless something is done to better them they will assuredly become worse, they must be fooled with promises to "do something when it is discovered what is the right thing to do." A commission to make a thorough investigation of the entire subject of reciprocity and tariff revision is to be proposed and congress will then dismiss the matter from its attention until the report of the commission is made at some distant day.

A commission is a convenient way of disposing of an embarrassing subject. It takes its own time to investigate reports at the last minute, and either presents conflicting reports and therefore accomplishes nothing, or its recommendations are utterly disregarded by congress. The industrial commission authorized by the last congress in order to evade legislative action on a burning question, is hopelessly divided on its conclusions and nothing practical is therefore expected as a result of its prolonged investigation. The tariff commission appointed under the Arthur administration, nearly a score of years ago, made a voluminous report, including a complete tariff, and congress proceeded at once to enact a tariff utterly at variance with the commission's report.

The reciprocity policy marked out for this session of congress is procrastination.

—Under the conditions now developed, the action of congress in the matter of Philippine legislation in the near future will be studied with intelligent interest by the American people. There is a strong trust opposition to "free trade" with the Philippines. Yet, if the Philippines are held as at present there can be no moral right to tax Philippine exports to this country. Just how the will of the trusts is to be carried out in this matter—the Philippines retained as domestic territory and yet taxed as foreign territory—is difficult to comprehend. The Fifty-seventh congress, however, will doubtless do its best to solve the problem to the satisfaction of the trusts.—St. Louis Republic.

AGRICULTURAL HINTS.

BRACING WIRE FENCE.

Everything Depends on the Scientific and Durable Anchoring of the Various End Posts.

Ever since wire fences came into use, farmers have been devising and putting into use many different plans for bracing or anchoring the end or corner posts. Some of the means adopted are satisfactory in a way, while others which at first sight appear to be strong and substantial, are, when we give the matter a little thought, only clumsy, inconvenient affairs, which do not have the least mechanical reason for their being applied to

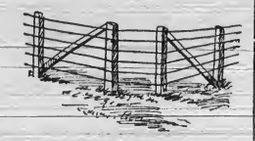

Fig 1.

ANGLE BRACES.

use. Of all the ways for anchoring an end post that have been observed or described, the one providing for its having an anchor block firmly established against undisturbed earth, is the best—as it gives unlimited power of resistance as regards the part which is in the ground.

To brace or anchor the post at a corner of a field, which has to resist the pulling effect of two lines of fence at direct angles to each other, nothing is better than to use two cables or rods anchored at right angles, or in conformity to the two lines of fence. As it is not always possible to run a straight fence from corner to corner, slight angles will sometimes occur which require the posts to be braced at these points as well as at the ends or corners. The method in com-

ANOTHER FORM OF BRACE.

mon use for this purpose is shown in the illustration, Fig. 1. Either a brace post is put on the inside of the angle or an anchor rod or cable on the outside. Both these methods have the disadvantage of being inconvenient because in the way, and the first is, to say the least, very unsatisfactory as regards rendering the fence more stable.

Where a slight angle of this kind is unfortunately met with, it is a better plan to set two large and durable posts at each angle, about three or four feet apart. Brace each of these posts on its lower line of resistance by putting a heavy brace from its top to the foot of the next post, which should also be a large and firmly imbedded one. Between the two posts which are thus braced and set nearest to each other, let the fence wires be left slack so as to allow these posts to be independent of each other in respect to line of resistance, as shown in Fig. 2. While a fence in which an angle of this nature occurs cannot be made as stable as a perfectly straight one, it will be much more satisfactory than if braced in the manner first shown.—J. G. Allshouse, in Ohio Farmer.

IRRIGATING CLAY SOIL.

A Problem That Is Puzzling the Scientists of Various State Experiment Stations.

The problems that confront the irrigator in the humid states differ from the problems that confront the irrigator in the arid states. The farmer in the arid states must depend on irrigation water alone for his crops, and he can sit down and figure out how much water he needs and when best to apply it. But the man in the state where rains are abundant, or even frequent, must figure also on the possibility of getting too much water. There is also the question of soil to be taken into consideration, for, on whether the soil be sandy or clayey will depend the whole result in some cases. Thus, if the land be sandy, a surplus of water will do no harm, even if heavy rains come just after irrigating. But if the land be a heavy clay and receive copious rains after irrigation, the results are likely to be disastrous. Such is illustrated by the experience at the Wisconsin agricultural college. A potato field was placed under irrigation tests, part being irrigated and part not. As it happened one section of the field was composed of sandy soil and the other of heavy clay soil. It was irrigated twice, and the last irrigation was followed by heavy rains. Mark the result. On the sandy portion the increase of yield of potatoes due to irrigation was at the rate of 81 bushels per acre. On the heavy clay portion the decrease of the yield of potatoes due to irrigation was at the rate of 56 bushels per acre. It is believed that had it not been for the rains coming after the second irrigation the yield on the irrigated clayey portion would have shown a large increase over the unirrigated portion. It will thus be seen that the problem of irrigating clay soils is much greater than the problem of irrigating sandy soils.—Farmers' Review.

TREATMENT OF COLTS.

Systematic Training and Careful Feeding Are Matters That Should Never Be Neglected.

I like to have a colt go some in harness when a yearling, and then if it is not worked in harness again for a couple of years when it is harnessed again its past associations with the harness all seem to come back to it again, and it is ready to begin where it left off. The summer the colt is a yearling is the hardest time to keep it in good flesh, and even with an extra chance it will get thin. When the colt is a two-year-old it will do some work or some driving, but I never intend to use them much at that age. My colts are stabled nights for five months during the cold weather—that is, they are tied with a halter. I do not like the way of letting them run loose, for they will move about too much of the time. But if they are tied up, with some bedding under them, they will lie down most of the night. This takes the weight off their joints and rests their legs, and seems to me the better way for them.

Even if I intend the colt to get its living in the fields during the winter it is put in the barn at night, given a little grain in the morning, curried, watered and turned out. Its stomach is empty; it will go out to the fields and eat most of the day. Toward night it will be back for some water and its place in the stable. If I have a three-year-old I want two of them; then work them a half day each—that is make them do one horse's work. This is good for them, and will go a long way toward paying for their keeping; and then a colt treated thus will, if properly fed and handled, make a better growth and develop into a more desirable horse than if turned out in the best pasture to care for itself as a four-year-old.

For the same reason that a boy gets more from the time he is eight years old till he is 20 than afterward, the colt needs more feed than the mature horse. If I kept a horse till it was old and decreased in value I would not part with it, for those that deal in that class of horses are not always the best to them, and when a faithful animal has been kept in good shape till it has passed its usefulness as painless a death as possible and a decent burial would be a fitting tribute to the noble animal—the horse.—T. S. Green, in Farm, Field and Fireside.

CATTLE FENCE OPENING.

A Person Can Step Through It Readily But Cattle and Horses Cannot Force Passage.

A gate in a pasture fence is often a source of much bother. A permanent passageway through such a fence is

OPENING IN A FENCE.

shown in the cut. A person can step through it readily, and it is always open, but cattle cannot pass, and, unlike a gate, they cannot force it open. Such an opening in a fence can be made in a few minutes.—Orange Judd Farmer.

Hints on Marketing Turkeys.

If turkeys are well fattened and are sent to market in a dirty, shabby, cramped-up coop they are apt to be left until late in the day, and nine times out of ten if the market is well supplied they will not sell at all, just because their appearance knocked them out. Again, if turkeys are placed in a close coop so that they are compelled to sit or stand in a cramped condition, when dressed the breast and thighs will be very black and not fit for sale at any price. The people who buy turkeys for holidays are people who understand all these things and will not buy them at any price, even if they are well fattened. Turkeys should not be fed for 24 hours or at least 12 hours before shipping, as when not fed they will not drift nearly as much and will be in better condition for dressing.—Rural World.

A Pasture Lot for Hogs.

My hogs have a lot to themselves. It is seeded to white clover. I prefer the red, but have failed to raise it so far. I prefer an extended range for brood sows and pigs and a limited range for hogs that are to be fattened. I consider pastures necessary to successful hog raising. Trees are a good thing for shade, but I prefer temporary shade. Hogs should always have plenty of good water. I have never been troubled with disease among my hogs during grass season. I like to have a pasture provided with a vat sufficiently large for the hogs to wallow in it. The sides should be curbed and the floor should be of cement, rock or oak plank to keep the water as clean as possible.—E. A. Haines, in Farmers' Review.

Top-Dressing Wheat Fields.

Wheat may be top-dressed in the fall or early winter, if the manure is fine and free from coarse litter. It is an excellent way to use the manure, so as to preserve it from loss. As wheat land is plowed in the fall, it is consequently loose, and the rains carry the soluble portions down to the roots of the plants. The roots also follow the plant food that may be carried below the top-soil. By top-dressing wheat with manure the plants are also, to a certain extent, protected in winter, while the spreading of the manure at this season saves labor in the spring.

SLOT MACHINE CHARMED HER.

She Had Been Bitterly Opposed to Gambling Until Her Husband Won a Dollar.

"One of the most decided and quickest changes from a pronounced stand that ever came to my attention I noted in the case of my wife while we were on a vacation trip recently," remarked a well-known local official. "Ever since we have been married Mrs. G—— has been unalterably opposed to gambling in any form. The mere mention of the word caused her to shudder. While strolling about a summer resort a few weeks ago we passed one of those machines that bear a sign inviting all who pass to drop a nickel in the slot. The inducement is the possibility of the coin dropped striking a channel that will result in the dropper receiving an amount varying from one dollar to $2.50 in nickels as a return from the investment. But the dropped coin follows a winning passage about once in a lifetime.

"More for the sake of witnessing my wife experience a momentary chill than for any other reason I suddenly halted in front of the machine I spoke of and parted with a five-cent piece. Vastly to my surprise, 20 nickels slipped from the machine. The event of a lifetime had actually come to pass. But more remarkable was the transformation of Mrs. G——. Without a word she took possession of my winnings, deposited them, and when they were gone borrowed a dollar more in small change from me and placed all of it in the slot. She next called for more. Thereupon I protested.

"But I'll surely win $2.50 if I keep on trying," she expostulated.

"'You won't try with my money though,' I declared. Since this little occurrence, says the Washington Star, Mrs. G—— has not discoursed on the evils of gambling.

CELTICISMS ON THE STAND.

Funny Sayings of Irish Witnesses While Undergoing the Customary Examinations.

Lawyers with an appreciative sense of humor enjoy nothing so much as to get a quick-witted, ready-tongued son of the Emerald Isle on the stand to relieve the monotony of the legal technicalities of a case. A gentle man who has been collecting samples of Irish wit and repartee for some time relates the following anecdotes says the Baltimore Sun. Some of them are doubtless mellow with age but in any case they will bear repetition:

"Are you guilty or not guilty?" asked the court clerk of a prisoner charged with some trivial offense.

"What are yees there for but to foind out?" was the quick rejoinder.

A henpecked husband had his better half arrested for assaulting him. The plaintiff was on the stand.

"And now, Mr. O'Toole," said his counsel, "will you kindly tell the jury whether your wife was in the habit of striking you with impunity?"

"Wid what, sor?"

"With impunity."

"She wuz, sor, now an' then; but she ginerly used th' potaty masher."

A witness testifying in a murder case was asked to describe to the jury the exact location of a flight of stairs.

"Explain to the jury," said the prosecuting attorney, "exactly how the steps run."

"Shure, sir, if ye shtand at th' bottom they run up, an' if ye shtand at th' top they run down."

KITCHEN WALLS.

Should Be Covered with Tile Paper to Be Kept Constantly in Good Order.

I want to speak a word for the desirability of enameled or tile paper for bathrooms and kitchen walls, says Anne Warner, in Good Housekeeping. The friend who recommended it to me is still enjoying her kitchen paper in its ninth year of service, and mine is in its fourth and has been washed twice every year. The secret is this: When it is first put on have a coat of good varnish laid over it. This will render it impervious to water along the edges and the line where the paper is matched and where I soon shows wear without this bit of "know how." In washing, use warm water and soap, or a little soda, if the walls are badly smoked, and a soft flannel. Clean a spot at a time quickly and lightly and wipe dry before proceeding. Do not wet a large surface and leave soaking and expect good results. The original expense and the outlay of strength and patience in care are considerably less than an oil paint finish exacts. I prefer not to have the ceiling papered, but calsomined when necessary, until some one invents and applies to humanity the facilities enjoyed by flies for keeping a comfortable working position upon it.

A Helpful Hint.

If your woolen dresses look dreadfully creased and wrinkled after packing, try the following plan, and don't, however, if you are tempted, try to iron the creases out. Instead dip a clean piece of stuff of the same material as the dress, if you have it, in hot water. Wring it slightly and sponge the creased places with it. Then hang the dress in the open air, but not in the sun, and the creases will disappear as it dries.—Washington Star.

A Gentle Hint.

He—I love you more than words can tell!

She (shyly)—Well—there are other ways.—Summerville Journal.

ABROAD.

Bolivia has the world's greatest silver mines.

The Cape exports the feathers of 40,000 ostriches yearly.

Next to Great Britain, Nippon, part of Japan, has the largest population of any island in the world.

Japan has no laws for the protection of labor, or restricting the employment of women and children.

A farm on Tara's hill is offered for sale, which has on it the ruined banqueting hall of the Ard Righ of Tara, the king's chair on which the kings of Erin were crowned, the Croppies' Grove and the Lia Fail, the stone of destiny.

Whenever any Dane makes his mark in the world, no matter what his station in life may be or what his views, King Christian always sends for him at the first opportunity that he may know what he is like and have a talk with him.

The population of Argentina is composed of mixed nationalities. There are colonies of Germans French, Italians, Portuguese, the English colony being a very large one, numbering upward of 60,000. The working classes are largely recruited from Italy. There are also a good many Portuguese.

A square foot of the best Persian rug is worth about ten dollars, and it takes a single weaver 23 days to complete this portion. This allows the weaver about 44 cents a day for her wool and her labor; but as three-fourths of this amount goes to pay for the wool, only 11 cents a day is left for the weaver.

MISCELLANY.

A 90-candle-power oil lamp burns 3,050 grains of oil an hour.

Quebec dreams that it will be the greatest wheat exporting port.

Horses, giraffes and ostriches have the largest eyes of land creatures, cuttlefish of sea beasts.

The biggest grant ever made to a railway company was 34,000 square miles given by the United States government to the Union Pacific railway, which was opened in 1869.

A costly marble monument stands in a fashionable cemetery at Seattle, Wash., sacred to the memory of a faithful horse. The animal's owner was himself buried beside the horse recently.

Klondike miners believe they have struck the long-sought-for "mother lode" on the Dome, 19 miles from Dawson, the highest part of the "divide," lying above the headwaters of the richest Klondike creeks.

The greatest sociological factor of the present age is the shifting of population, now getting in by reason of the opening up of countries by railroads and the increase of ships. In the United States there are 21 persons to the square mile; in Russia, 15; China, 95; and Belgium, 572. The transfer of population has set in, and it will be the distinguishing feature of the twentieth century.

GLEANINGS.

Greenwich observatory was founded in 1675, Paris in 1677. Leyden observatory is the oldest in Europe.

The Rothschilds have just purchased the greatest copper mine in Mexico for $2,000,000. They now employ 27,000 men in their various copper mines.

A California oil combine, $75,000,000 capital, is formed to operate along Standard Oil company lines. The Kern river district, which produced 8,000,000 barrels last year, goes in at $30,000,000.

SISTERS OF CHARITY

Use Pe-ru-na for Coughs, Colds, Grip and Catarrh—a Congressman's Letter.

Dr. Hartman receives many letters from Catholic Sisters all over the United States. A recommend recently received from a Catholic institution in Detroit, Mich., reads as follows:

Detroit, Mich., Oct. 8, 1901.

Dr. S. B. Hartman, Columbus, Ohio:

Dear Sir—"The young girl who used the Peruna was suffering from laryngitis, and loss of voice. The result of the treatment was most satisfactory. She found great relief, and after farther use of the medicine we hope to be able to say she is entirely cured." SISTERS OF CHARITY.

This young girl was under the care of the Sisters of Charity and used Peruna for catarrh of the throat, with good results as the above letter testifies.

SISTERS OF CHARITY

All Over United States Use Pe-ru-na for Catarrh.

From a Catholic Institution in Ohio comes the following recommend from the Sister Superior:

"Some years ago a friend of our institution recommended to us Dr. Hartman's Peruna as an excellent remedy for the influenza of which we then had several cases which threatened to be of a serious character.

"We began to use it and experienced such wonderful results that since then Peruna has become our favorite medicine for influenza, catarrh, cold, cough and bronchitis."

SISTER SUPERIOR.

Dr. Hartman, one of the best known physicians and surgeons in the United States, was the first to formulate Peruna. It was through his genius and perseverance that it was introduced to the medical profession of this country.

The following letter is from Congressman Meekison, of Napoleon, Ohio:

The Peruna Medicine Co., Columbus, O.

Gentlemen: — "I have used several bottles of Peruna and feel greatly benefited thereby from my catarrh of the head, and feel encouraged to believe that its continued use will fully eradicate my disease of thirty years' standing."

Congressman David Meekison.

DAVID MEEKISON.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

CIRCUIT COURT.

Indictments against the following parties were filed away: Fred Sutton; Nace Connelly; Joseph Satchwell; Barney Peters.

Indictments against the following persons were continued, and alias bench warrants were ordered to issue for their arrests: John Sayres, Wm. West, Wm. Hall, Claud Beall, Tom Miller, Dr. M. E. Ramsey, W. H. Prather, Chas. Donovan, Albert Riley.

Judgments were entered on indictments as follows: Wm. Howard, $50; Olive Eldridge, $25; Wm Hume, $20; Bert Allphin, $20.

The following persons were tried by jury and acquitted: Mrs. Jane Smith; Luther Kirtley; Ed Norman.

Commonwealth vs. Frazier Miscal, continued.

Edgar Cropper, of Burlington; James A. Huey, of Union, and Larry Farrell, of Verona, were appointed jury commissioners for this year, and proceeded to select the names of 250 competent jurors and placed their names in the wheel, from which they drew grand and petit jurors for the next term of the court.

The petit jurors were finally discharged Friday at noon, having tried only three small cases during the term.

Deficits in the jury fund is a very great inconvenience to the jurors at the December term. At the other two terms the Sheriff always has money in his hand belonging to the State, on which the court can draw for the jury fund.

Commonwealth's Attorney Gray was very sick last Thursday night, and went home on Friday morning, not awaiting the grand jury's final report.

In the suit of Bristow against Huey seeking to sell some land belonging to Mrs. Bristow and to reinvest the same, the court adjudged that the land be sold and the proceeds of sale be reinvested.

The prosecution of Craddock for the shooting of Fullilove at Walton several months ago, was set for trial Monday, but on account of the illness of Commonwealth's Attorney Gray, it was continued until the next term.

In the case of William Goodridge against Veranda Goodridge for divorce, the court adjudged that the plaintiff William Goodridge be divorced from Veranda Goodridge, and that plaintiff pay defendant's attorneys a fee of $250. The question as to who is to have the children will be decided at the next term of the court. In the meantime the plaintiff is to pay the defendant $16 per month for their maintenance.

Besides the Goodridge divorce, the following other divorces were granted: J. J. Huey from Lucy Huey; Matilda Lane from Moses Lane.

The grand jury adjourned immediately afternoon, Friday, having returned five indictments, and the following written report which the court ordered copied and certified to the fiscal court:

To the Hon. John M. Lassing, Judge of the Circuit Court:

We, your grand jury, met on the first day of the December term of court and have been in session five consecutive days. We have examined 21 witnesses and returned five indictments. Several important cases has engaged our attention, but for want of proper information we reluctantly let them pass.

The Court-house and jail need repairing—the Court-house particularly, plainly shows the effects of neglect. We recommend that the fiscal court have them both put in first-class condition regardless of cost.

The County Infirmary we find is being painted and whitened on the inside; this we think is money well spent, and we heartily indorse anything that gives cheerfulness, cleanliness and comfort to the unfortunates of our county. We think the bedding and furniture are insufficient for the comfort of the inmates and we would like to see this institution furnished in a manner that will be a credit to our county.

Furthermore, the roof leaks badly in a number of places, and in order to preserve the ceiling and walls must be repaired, even at the cost of a new roof.

The Superintendent should be well paid for his time and labor and be compelled to give to this cause his undivided attention. We find the Superintendent and his family are not living in the house, and we think some one should have charge of the inmates at all times.

These are the results of our efforts, all of which we respectfully submit and ask that we be dismissed. J. B. DIXON, Foreman.

The docket for the Boone Circuit Court is nearer cleaned up than it has been in years.

Court will adjourn to-day.

For Sale or Rent.

Farm of 46 acres, good frame house of 6 rooms, new cellar barn that will stable 14 head of stock. Farm is well watered, and has 3 wells and 1 cistern. Buildings all in good repair. After the first of January, 1902, call on or address me at Lulow, Ky. B. S. CLORE.

If you are doubtful about our prices, we are willing to convince you.
ESKEW'S, Walton, Ky.

NEIGHBORHOOD NEWS.

LIMABURG.—Prof. Summers had his school photographed by Jack Sutt.

Several around here are laid up with bad colds.

W. T. Davis had a yearling steer to break through the ice on his pond and drown.

Bert Rouse has a 2-horse wagon which he desires to trade for a 1-horse spring wagon.

The mercury was 8 below zero on the 15th; 10 below on the 16th, and 6 below on the 17th.

Geo. Baker was overrun with horses to shoe, Monday. He shod 13 all round and turned off 13 others. George is a splendid shoer and the people know it and patronize him.

‡—‡

FLICKERTOWN.—Ben Passons is working in the cooper shops at Aurora.

Less Sebree killed eight quails at one shot one day last week.

Jack Walton is hauling rye from Lawrenceburg to feed his cattle this winter.

The rain Friday night made Woolper run out muddy, the first time for over six months.

A crowd of young folks engaged in the mazy dance until a late hour, at the home of your humble servant, last Thursday night.

Anyone wanting to buy or trade for a good second hand road wagon or spring wagon will do well to call on Bert Smith, at this place.

‡—‡

GASBURG.—Mercury 8 degrees be low zero Sunday morning.

Fat Hogs have about all been butchered or marketed.

Eunis Nixon and Chas. Klopp have each lost a good horse lately.

Stock Hogs are in demaud to be fed on Distillery slops, at Lawrenceburg, principally.

Robert Hartman is visiting his parents here, after an absence of two years in the employ of the Western Union Telegraph Co.

Mrs. Chas. Dinkle, of Cincinnati, accompanied by a lady friend, was visiting Mrs. Dinkle's parents here, Mr. and Mrs. Frank Hartman, last week.

‡—‡

GUNPOWDER.—Jno. Swim is engaged in the trapping business. He has captured several skunks.

Jno. H. Tanner shipped some fine porkers to the Union Stockyards.

E. H. Snyder reports his corn crop as being as good as it was last year.

Thos. Dinn and wife spent several days in this neighborhood, last week.

C. E. Tanner has been doing some carpenter's work in Covington recently.

J. B. Vaughn, of Covington, is visiting his many friends in this neighborhood.

The drought is broken and those that have been hauling water can set their barrels away for the present.

D. L. Tanner and wife, of Hebron, were guests of her parents, Levi Tanner and wife, last Saturday and Sunday.

George Barlow shipped a fine bunch of lambs to Cincinnati last week. He says that is his last consignment for this year.

Elbert Vaughn, who has been sick for some time, is improving slowly, but it will be several days before he will be able to get out of the house.

B. C. Tanner, Perry and Lute Aylor, each received a box of nice oranges from Florida, last week. They were presented to them by Lulie Tanner.

Pleasant Ridge school will give an entertainment next Friday night. The program is extensive and the teacher Miss Riley is putting forth a greateffort to make it a perfect success.

On account of inclement weather there was rather a small crowd at Levi Tanner's sale last Saturday. Everything brought fair prices. The horse sold for $40 and the cow, $35.

‡—‡

PETERSBURG—The river is rising very fast and lots of coal coming.

Mrs. L. N. Early has her mother as her guest.

John Black is visiting his uncles at Glencoe and Worthville.

Robt. Hartman, of Illinois, is visiting his father near here.

Friday's Louisville Times carried a good picture of Dr. Tilley and wife.

The thermometer stood 12° below zero at James Loder's, Sunday morning.

Ben R. Smith will keep books for a big distillery company in Milwaukee.

Mrs. D. C. Alcorn is busy making the treasure for a number of Xmas brides.

Malcomb Chambers, who has been threatened with typhoid fever, is improving.

Harry Herd is second engineer on the Virginia, a Cincinnati and Pittsburg packet.

Bro. T. B. Cook came in from East Bend Saturday morning, almost numb from the cold.

Price Gibbs had four acres of corn on the Ferris place that made seventy bushels to the acre.

J. B. Berkshire ran a nail through his foot last Saturday, from which he has suffered very much.

Harry Goss, reporter on the Enquirer, was here Saturday morning to get the verdict in the Tilley case.

A. M. Johnson, of Illinois, is visiting his sister, Mrs. A. E. Hensley, and other relatives in this county.

Misses Effie Hensley and Anna Weindel visited Dr. J. W. Weindel and wife at Patriot, Ind., last week.

Mrs. Perry Aylor, of Gunpowder, who was with her sister, Mrs. Randall, for several days, has returned home.

Everett Helms, our hello man, is entertaining several of Job's comforters, soon as one gets well another comes.

The Baptist meeting begins in Gordon's Hall the second Sunday night in January and not the first, as reported.

Marvin H. Lewis, reporter for the Louisville Evening Times, was here, last Thursday. He is a fine gentleman.

The oyster supper at Mrs. Mathews' was well attended, and a good sum was realized for the benefit of the M. E. church.

The S. S. children, of the Christian church, will give their entertainment Sunday morning after Christmas in the church.

Miss Lizzie Parker has closed her school at the Parker school house on account of measles and chicken pox among the children.

Rev. Edgar Jones will occupy the pulpit in the Christian church at this place, on the fifth Sunday morning and night in this month.

Capt. William Bryan, of Lawrenceburg, and one of the oldest business men in that city, was calling on Geo. R. Berkshire, last Saturday.

We heard that there was a wedding in town Sunday. Too cold for your reporter to get out and investigate as to the truthfulness of the report.

Saturday morning's was the roughest winter weather we have experienced here in years—wind, rain, hail, sleet and snow all within a few hours.

The J. F. C. Club will give a watch party in Gordon's Hall on the night of the 31st inst. Only those who receive invitations will be expected to attend. Dancing.

M. F. Wingate, Cliff Armacost and Wallace Grant gave a ball in Gordon's Hall, Wednesday night. Owing to the inclement weather there were but few in from the country.

It is to be hoped that the new collector will retain Elihu Alden, the present stamp deputy at this place. He is a good official and one of the cleverest men in the county.

Geo. W. Terrill has built a nice little frame residence on his farm near Lawrenceburg ferry. George should get a life partner to keep him company, this a long winter nights.

Miss Birdie Holton has returned home from Owenton. It is reported that she will become the bride of Lafe McChord, clerk on the Str. City of Cincinnati. He hails from Trimble co.

Our town is in the throes of excitement again over the reported marriage of Dr. Tilley and Anna Belle Dorrel, of Indiana. The ceremony took place at East Enterprise, last week.

Dr. J. D Terrill, who went from here to Mobile, Alabama, several years ago, and bought real estate on the outskirts of that city, sold it at a profit of $250,000 not long since, and has returned here to spend the remainder of his days.

Mr. Andrew Lay, who carried the mail between here and Lawrenceburg, last year, was found dead just opposite here on the river shore, Friday morning. He had been ill for some time and wandered away from home and died.

Two of Clay Hensley's children died of membraneous croup, last week—one died Wednesday night and the other Friday night, one 2½ years and the other 5 years of age. They were buried in the same grave at 2 p. m., Sunday. Clay and his family have the sympathy of all in their sad bereavement.

The Indiana tried to make a head-in landing at our wharf, last Friday, and the high wind blew her stern around and struck the little gasoline boat, Allie Riggs, that was coming up the river. The Indiana sounded her distress whistle, and the Riggs began backing down stream, avoiding a disaster. The occurrence caused considerable excitement for a short time.

This year will teach the farmers how to get along with less corn than they have been in the habit of using. They will find their stock will come out of the winter in better condition when they have been given a moderate ration of corn and plenty of rough food, than when they have been stuffed with corn all the winter.

Commissioner's Sale,

Boone Circuit Court, Ky.

J. W. Conner, &c. Plfs.
against Equity.
Jane F. Conner, &c., Defts.

By virtue of a judgment and order of sale of the Boone Circuit Court, rendered at the Aug. term thereof, 1901, in the above cause, I shall proceed to offer for sale at the court-house door in Burlington, Boone County, Ky., to the highest bidder at public auction, on

Monday, January 6th, 1902,

at 1 o'clock p. m., or thereabout, being county court day, upon a credit of 6, 12, 18 and 24 months, the following described property, to-wit:

Lying and being in Boone county, Ky., on the Covington and Lexington Turnpike and the Cincinnati, New Orleans and Texas Pacific Railroad near Richwood Station, and bounded as follows, to-wit: Beginning at a stone at the northeast corner of a garden on the west side of said pike in a line of the right of way of said railroad; thence with the line of said right of way s 25½ e 5.54 chains to a stone; thence s 76 e 3.18 chains to a stone; thence with the line of the remainder of the home tract s 51½ w 8.47 chains to a stone thence; n 41 w.97 chains to a stone; thence n 51½ e 8.45 chaines to the beginning containing 7.85 acres.

This property will be sold subject to the annual payment of One Hundred and Twenty-five ($125) dollars to Jane F. Conner, the 1st of January of each and every year, during her natural life. The first payment to be made January 1st,—1903. Possession will be given March 1st, 1902.

For the purchase price the purchaser, with approved security or securities, must execute bond, bearing legal interest from the day of sale until paid, and having the force and effect of a judgment, with a lien retained therein until all the purchase money is paid. Bidders will be prepared to comply promptly with these terms Amount to be raised by sale,

J. W. DUNCAN, M. C. B. C C.

Soft Harness

You can make your harness as soft as a glove and as tough as wire by using EUREKA Harness Oil. You can lengthen its life—make it last twice as long as it ordinarily would.

EUREKA Harness Oil

makes a poor looking harness like new. Made of pure, heavy bodied oil, especially prepared to withstand the weather.

Sold everywhere in cans—all sizes.

BOONE COUNTY RECORDER.

VOL. XXVII. BURLINGTON, KENTUCKY, WEDNESDAY, DECEMBER 25, 1901. NO. 10.

SAMPSON'S legal advisors will file a protest against Admiral Dewey's finding in the Schley Court of Inquiry.

THERE are already bills before this Congress asking appropriations in exess of $80,000,000, and the session is very young.

IT is believed that American pork is to be barred from Germany after January 3, as microscopic examinations are to be discontinued.

CONGRESSMAN KEHOE wants $1,080,000 appropriated for the improvement of the rivers in his district. For this appropriation he will make a strong appeal.

THE Standard Oil Co. has just declared a dividend of 8 per cent, making a total of 49 per cent for this year. It has earned 271 per cent, in the past ten years.

GROUND for the World's Fair was broken at St. Louis, last Friday. The occasion was of great interest to that city, which is liable to outdo itself in its great undertaking.

THERE are fewer contested seats in the present Fifty-seventh Congress than in any previous house of representatives for 30 years. There are no serious contests for seats in the senate.

EVEN Dr. W. Godfrey Hunter has to make a fight for reappointment as minister to Guatemala. Verily it seems that the President is finding enough of his own friends out in the cold to occupy all the offices.

THE "curs" about which Ex-Gov. Bradley had something to say a few days ago, have struck his track again, and the Gov. may discover that they are fast enough to "warm the wax in his ears," yet, before he gets clear of them.

THE next term of the Fiscal Court will be of considerable interest, and mayhap, spring some surprises. That court is a cross between a judicial and a legislative body, and its first session each year is one of great importance to the county.

JOHN LAWRENCE one of the most noted fox hunters in England, has just died at the age of ninety-four. Until ten years ago he was out twice a week with the hounds all through the season. You should be a fox-hunter young man.

MR. BRADLEY is making headway very slowly inducing people to believe that he is not in politics, but he is making rapid strides stiring up the "garl darndest" row among Republicans ever indulged in in Kentucky by any political party.

During the past year 12,000 shade trees have been planted in Kansas City, mostly at public expense. At its latest meeting the public improvements committee of the city council authorized the planting of 3,820 trees along the various streets.

IT is said to be definitely decided that President Roosevelt will not accept the offer of Mr. Andrew Carnegie of $10,000,000 of bonds of the United States Steel Corporation for the purpose of founding an institution for higher education in Washington.

A FLOOD of private pension bills struck Congress, last week. The Pension Department is unable to take care of the pension claims as fast as they are presented, and Congress does a considerable business along that line, and the claims that are defeated being few.

IF Mr. McCreary has his Senatorial fences in the condition that his managers claim them to be, Smith, Cantrill and Wheeler have never been in the fight a little bit. But, in politics, as in other things, no number of birds in the bush is equal in value to one in the hand.

ON every baby born in Chicago and Cook county, Illinois after the first of Next January, there will be a bounty of twenty-five cents paid to the father if he reports the birth to the proper authority before the attending physician does. Go to Chicago young, man, and marry.

THE Monroe City, Missouri, Democrat came in last week, 20 pages strong, and each page handsomely printed. Bro. Rouse is one who does not do things by the halves, and last week's edition of his paper is a strong testimony of his enterprise, which the business men of his town certainly appreciated, and were liberal patrons with their advertisements.

No one outside of naval circles cares about the details of naval movements leading up to the battle and the brilliant victory won by the American fleet. The central point of interest is the victory itself. Who won it? The entire Court commends Schley's conduct during the battle, and Admiral Dewey gives him such credit for it as falls to the man in actual and absolute command.–Philadelphia Ledger.

IN his report Gen. Chaffee, Military Governor of the Philippines, says: "I recommend that no further material reduction of troops be made before January 1, 1903." The Philippines are proving a very costly piece of property in both money and lives, and the worst of it is there is no way of estimating what they will cost this country before they are subjugated.

THE Louisiana Purchase Exposition at St. Louis will be a world's fair. It will open May 1, 1903. The minimum cost will be $15,000,000, of which Congress has appropriated $5,000,000. The site of the fair is in Forest Park, the second largest park in America. It will contain eleven main exposition buildings, of which the largest will be the agricultural—700x2,000 feet.

THERE are only four states in the country which have more than a million voters each, New York, Pennsylvania, Ohio and Illinois. At last year's presidential election the total vote of Illinois was only 40,000 less than that of Pennsylvania, though by the federal census of last year Pennsylvania had a total population of 6,300,000 and Illinois a total population of 4,800,000 only.

THOSE who advocate the advantage of hogs with less fat and more lean are correct, so far as market prices are concerned; but where a farmer has plenty of corn it will pay him to sell fat hogs, for the reason that fat can be produced at less cost than muscle and also because a fat hog removes less fertility from the farm than a lean one. Much depends upon the corn crop, however, as well as the market price of corn.

THE grand jury has repeatedly recommended the repairing of the metal roof on the county infirmary, and it is probable that the fiscal court will, at last, heed the recommendation, and have a new roof put on or the present roof repaired so as to protect the building. The infirmary is too good a structure to be allowed to go to rack because of a defective roof. A stitch in time will save nine, and in this instance the stitch should have been taken long since.

THE Republicans in this county have been having lots of fun (?) over the distribution of the pie which is at the disposal of the new Collector of Internal revenue. It will all be over in a few days, and the back seats will all be occupied again. There has been all kinds of switching and re-switching among prominent members of the party during the last few weeks, and it is now hard for some of them to tell "where they are at," in regard to certain matters pertaining to the revenue service.

THE war in South Africa has already cost Great Britain more than $732,000,000, what is considered an enormous amount, but it is not a drop in the bucket as compared with the civil war in this country. That war cost the northern States a total of $6,200,000,000 while the south spent more than $2,000,000,000 in addition. And this does not consider the enormous expense of the pensions which have been paid for the last thirty-five years, and will be in process of payment until the end of this century, at least.

CONGRESSMAN GOOCH has introduced a bill to repeal the stamp tax on domestic bills of lading. He has conferred with members of the Ways and Means Committee on the subject, and they have assured him of their support of the bill.

IN its current issue the Electrical Review of New York contains a study of the present telephone situation in which it is shown that the amount invested in the telephone industry in the United States is nearly $500,000,000.

A FEW years ago the cost of firing the largest gun made was not more than a few dollars. Now it costs $827 to fire a single shot from a 16-inch rifle, or more than enough to pay the wages of a private soldier in the regular army for five long years.

THE daily average number of prisoners at the Frankfort Penitentiary during the past year was 1,235. Jefferson led all other counties in the number sent up during the year, having 260 to her credit Fayette came next with 119 while Madison is third with 35.

HOW many people have noticed that no portrait of a man has ever appeared on a United States coin or the picture of a woman on the postage stamp? An observing editor remarks on these facts that they constitute the reason why we lick the stamps and squeeze the coin.

THE President is quoted as saying, "I have settled Kentucky and Missouri." If he thinks matters pertaining to his party are settled in Kentucky, he is very dull of perception. They were never before in as badly tangled condition, and appear to be getting worse day by day.

CLERK STONE of the local penitentiary at Frankfort, has turned over to the prison Commissioners his report for the year. It shows the daily average number of prisoners during the year to have been 1235. Thirty-seven pardons and 88 paroles were recorded during the twelve months.

ASIA has the highest mountains in the world, but the highest waterfall is in the state of Durango, Mexico. It was discovered by a company of mine prospectors about ten years ago, whose attention was directed to the locality by the roar of the waters. The fall has a height of at least 3,000 feet.

THE cabinet shake-up is at hand, and notwithstanding President Roosevelt's declaration that he would carry out President McKinley's policies, departures are perceptible all along the line. Roosevelt is a man who entertains ideas of his own, hence it is impossible for him to follow the McKinley program without deviations.

SINCE the almost total destruction of Galveston, Texas, little over a year ago, by the flood, over $5,500,000 has been invested in repairing the damages, and the work is going on at a rapid rate. This shows that property owners there have faith in the city's future, notwithstanding the damaging reports that are being constantly circulated.

IN his annual report to the Governor Superintendent C. C. Owens, of the State Feeble-Minded Institute, pronounces that institution a failure from a medico-pedagogic standpoint and suggests that it be converted into an asylum for pauper idiots. It is understood that Gov. Beckham, in his message to the Legislature, will urge that Dr. Owens' recommendation be carried out.

THE Kentucky Society of St. Louis is planning to make its annual banquet in January the most unique that has ever been given by any local state society. At its annual meeting plans were discussed for entertaining the Kentucky State Legislature in St. Louis and for carrying the society to Frankfort, and holding the annual banquet there with the legislators as the guests of the society. Strong efforts will be made by the society to induce the Legislature to make a large appropriation for the St. Louis World's Fair.

AN important deal has been consummated whereby British capitalists have acquired a substantial interest in the Texas oil fields and will ship large quantities to the European markets. The capitalists referred to are represented by the Roche-Stuart syndicate. London. This syndicate has purchased the Hogg-Swayne property, on which about three-eights of the producing wells at Beaumont are located. The purchase price is said to have been in the neighborhood of $6,000,000.

THE bill providing for a temporary tariff against the Philippines passed the House by a vote of 163 to 128. Five Republicans opposed the bill. Three Democrats voted for it and two Democrats paired. The bill imposes the Dingley tariff and also a tonnage tax. A motion to recommit and reduce the revenue and customs laws of the United States to a revenue basis and extend them to the Philippines was defeated by the full Republican vote and the votes of three Louisiana Democrats.

REAR ADMIRAL Schley has filed objections to the majority opinion of the Court of Inquiry with Secretary Long. He asks that the findings be not approved and that the opinion be recomunitted to the court. He also asks that his counsel be permitted to make oral argument to the Secretary against the protest to be filed by Rear Admiral Sampson's attorneys against the clause in the dissenting opinion of Admiral Dewey in which the Admiral says the glory of the Santiago sea battle belonged to Schley and the men under him.

IT is a generally accepted belief that on the date that we call Christmas day Christ was born. This is questioned by some chronicles, but the doubt does little harm, says the Brooklyn Eagle. Every one is satisfied to take this date as the nativity of Christ, and it matters little whether it is historically correct or not; one day in the year, it is believed by all good Christians, should be set aside for the celebration of the birth of Jesus of Nazareth, and the 25th of December is as good a day as any on the calendar.

DURING the middle ages the whole Christmas season was given up to revels and jollity, in which eating and drinking had a prominent part. The Saxon instinct of our English ancestors led them to make of every holiday an occasion for feasting. Plenty to eat and to drink was their idea of a festival, no matter how sacred might be its associations. On Christmas they not only lined their stomachs with good capon, as did Shakespeare's justice, but stuffed themselves with all sorts of rich, nourishing food and strongly compounded puddings and pies.

The following articles will be discussed at the meeting of the Kentucky Educational Association in Louisville, December 28, at 10 o'clock, with a view of framing a bill to be presented at the next session of the Legislature:

First—That the third class certificate should be abolished.

Second—That the County be made the unit of taxation.

Third—That the School District be given the authority to vote on the question of levying a tax to build school houses.

Fourth—That the Trustee System should be remedied as follows:

1. That all the schools in the county be under the control of a County Superintendent and one member elected from each Magisterial district, by the voters thereof, the members of the Board after the first election, to be elected at the same time that county officers are elected, and their term of office to be four years.

2. Each member shall give bond for faithful performance of his duties, and shall receive $3.00 per diem for his services while the Board is in session, the number of days to be limited; said services to be paid for out of county funds.

3. Said Board to have authority to let all contracts for building and repairing, to purchase all material for same, to purchase all furniture, apparatus, and supplies and to employ all teachers.

4. That this Board have one local Director in each school district for the signing of reports, and attending to incidental matters while school is in session.

Fifth—That the State Superintendent be required to pay but 20 per cent of the tuition fund on the first of October.

Sixth—That the County Superintendent's annual report should reach the state office not later than the first day of August.

Seventh—That the date of the June examination for common school graduates be the second Friday and Saturday in May.

Eight—That the sum of $500, be placed at the disposal of the State Superintendent with which to defray his expenses in visiting county institutes, and other educational meetings, and that a sworn statement of his expenses be published in his biennial report.

THE Internal Revenue Bureau has had considerable difficulty recently with Collectors over the salaries of storekeepers and gaugers. An order issued by Commissioner Yerkes calls attention to the fact that the compensation of such officers must not exceed $3 a day or $500 for any fiscal year. Therefore, in all cases where an officer of this class has reached the compensation limit of $500 his assignments should be revoked, and he should not be again assigned until the beginning of the next fiscal year. As Collectors are responsible for money improperly disbursed, it is incumbent upon them to see that the limit of salary is not exceeded. The enforcement of the law above referred to by Commissioner Yerkes will create consternation among the storekeepers and guagers, whose earnings have been largely in excess of $500 per year, where they have had anything like regular employment. It is strange that that law should have remained a dead letter so long,

GEN. MURRAY has addressed a circular letter to the officers of the three Kentucky regiments which were mustered into the United States service at the breaking out of the Spanish American War, notifying them that under a recent ruling the War Department will pay all members and noncommissioned officers of the regiments at the regular State Guard rate of $1 50 per day from the time they left home until they were mustered out of State and into Government service. The men have been paid for this time at the regular Government rate of $13 a month, and as about ten or fifteen days elapsed between leaving home and the mustering into Government service each private is entitled to $1 for each day. There were about 500 men in each of the three regiments, and there will be from $18,000 to $25,000 distributed by the Government in Kentucky. The Fourth regiment does not come in for any of this money, as it was never a State Guard regiment.

GEN. MILES has got into trouble with the Navy Department. He indorses Admiral Dewey's finding in the Schley Court of Inquiry, which, of course angers the navy click that has it in for Schley and is determined, if possibie, to rob him of the honor of the victory over the Spanish fleet at Santiago. Miles has been in bad favor at Washington ever since the canned beef scandal.

IT is said that Collector Leiberth's advisors in Boone county will be few and far between, because of the hasty defection in the ranks of his professed friends here when his appointment was hung up. He thinks if they had really been for him they would not have hastened to endorse another applicant for the Collectorship when he was in apparent joapardy.

The question of weather or not the Legislature has the power to elect two Prison Commissioners to fill vacancies which occur in January has been much discussed since the reversal of the Pratt-Breckinridge Attorney Generalship case, and some lawyers contend that the power rests with the Governor alone.

THAT fellow who was struck by the President, the other evening, still believes that he was in collision with a pile-drive.

EGGNOGS are riper this morning.

Items of Interest.

The latest census bulletin gives the number of males of voting age in the United States in 1900 at 21,329,819. Of this number 2,326,255 are illiterate and 5,102,534 foreign born.

o o o

The most valuable quarter section of land in the whole world is probably that of Beaumont, Texas, upon which are located the great oil wells. Two years ago this tract would have been dear at $30 per acre, while to-day it is valued at $400,000,000.

o o o

The most remarkable family discovered by the census enumerators was at a little village named Mary's Home, in Miller county, Mo.. about thirty miles from Jefferson City. The enumerator in that district reports that he found a Mrs. Henry Smith, wife of a storekeeper, 32 years old, who during a brief marriage of seven years had presented her devoted husband with sixteen children. Only one of them was a "solitaire." There were two pairs of twins, two sets of triplets and one quintet, five sturdy boys at a birth, averaging six pounds in weight. They are all alive and hearty, their mother is as active and strong as any woman in the state.

o o o

It is to be noted that Admiral Dewey, a minority of the Court, indeed, but its presiding officer and in a position which enables him to judge the facts far better than the other members of the court, sustains Admiral Schley in all important points, finding that he did his full duty throughout the Santiago campaign and is entitled to the credit of the superb naval victory there. This is the verdict of common sense and will command general support. The victor of Manila, being in a position to judge impartially, honors the victor of Santiago, while the other members of the court, with no such qualification, undertake to reverse the facts of history.—Baltimore Sun.

IN a few weeks the farmers will be pushing along preparing for another crop.

HISTORIAN MCCLAY defies the President nnt to have him fired. The President will show him a trick or two.

Admiral Schley would better let the finding of the Court of Inquiry go for what it is worth—which is very little outside of the navy click and its influence. The people are with him, and their verdict is the only one at last.

IF members of the next General Assembly are as diligent in their efforts to enact wholesome laws as they are to elect their favorite to the U. S. Senate, Kentucky will surely profit by the 1902 session of its law makers.

IT is now claimed that ex-Governor Bradley and Senator Deboe have kissed and made up. They met in Louisville, one day last week, and buried the hatchet. The breach between Bradley and Yerkes, though, is growing wider and deeper.

FOLLOWING the acceptance of Secretary Gage's resignation by the President, it is predicted there will be a big shake-up in the Treasury Department. It is said that the President contemplates almost a complete reorganization of that department.

MEMBERS of the Boone county Republican Committee have been dispensing politics very rapidly for the last month. They have been almost exhausted in their efforts to keep step with the rapidly changing music to which they have been invited to dance.

AND the first upper-cut from the President's good right hand, sent an intruder down and out. One evening, last week, the President and Senator Lodge were taking an evening stroll, when a stranger walked up and laid his hand on Teddy's shoulder, which he no sooner did than he was sent to grass. Teddy is a person it will not do to fool with. If the man who was knocked down was one of the army of officeseekes infesting Washington, it will teach that class to be on their guard when in the presence of the President.

THE RECORDER

W. L. RIDDELL, Publisher.

BURLINGTON, : : KENTUCKY.

CURRENT TOPICS.

Kansas banks have $87,000,000 of deposit.

Maine is suffering from a plague of skunks.

The black plague is again raging in Honolulu.

The sultan of Morocco has seven lions as pets.

London has 690 acres of docks, Liverpool 543 acres.

There are prospects of a big Russian steel and iron trust.

The first of the states to hold an election in 1902 will be Oregon.

The total length of the military tunnels in the rock of Gibraltar is 6½ miles.

Tower, Minn., with a population of 5,000, has erected a $21,000 McKinley memorial shaft.

Three hundred thousand dollars' worth of so-called old violins are exported from Germany yearly.

French steamers now make the trip from Marseilles to Sydney in 34 days. A century ago it took seven months.

At the census of 1790 New York was outranked in population by Virginia, Pennsylvania, North Carolina and Massachusetts.

The prefect of police of Paris has ordered a general round-up of beggars and vagrants, who are to be arrested wherever found.

The oldest newspaper in the world is said to be the Kin-Pau, of Peking, which has been published continually for over 1,000 years.

It is estimated that the projected railway from southern to western Australia will cost $22,000,000 and take five years to build.

With a capital of $500 Mrs. Bertha Harriet Purdy went to Dawson City, Alaska, from Seattle four years ago and is now worth, it is said, $500,000.

Andrew Carnegie's new office of lord rector of St. Andrew's university carries with it no emoluments and does not involve any renunciation of American citizenship.

Bicycles are generally considered very modern inventions, but some of the Egyptian obelisks bear figures mounted on two-wheeled vehicles, resembling the old velocipedes.

San Francisco leads the American cities in the matter of telephones, there being an instrument to every 16 persons. In Greater New York there is one to every 48 persons.

The strongest known wood is said to be lancewood. Its tensile strength per square inch is 23,000 pounds; that is to say, that weight is required to tear asunder a piece of it in one-inch square

Colombia, with only 4,000,000 inhabitants, is twice the size of Germany. It has only 605 kilometers of railway, and, apart from the rivers, all communication with the interior is carried on with mules.

India was in possession of a steel secret once, which is lost now. This was the in-laying with gold of steel blades in such a manner that the strength of the blade was not impaired nor its temper spoiled.

A popular form of punishment in Afghanistan under the late ameer was to tie an offender to a post in the cold air of the Afghan mountain winter, pour water over him and then leave him to freeze to death.

There are about $30,000,000 worth of craft in our Atlantic and gulf ports any day in the year. The weather bureau can reach every vessel master in every port of material size within an hour, in case of danger.

Experiments have been made in the Swiss army on the effect of smoking on the march. The results were in favor of the troops, who were allowed to have their pipes, and, moreover their discipline was better.

In fifty years the words and phrases of the English language lexiconized under the letter "A" have increased from 7,000 in number to nearly 60,0 Science and invention requiring new terms are largely responsible.

Mountain lions are assisting the stockmen of southern Utah in reducing the herds of wild horses which roam the ranges. It is reported that the lions have considerably diminished the herds by devouring the colts.

There are now in operation 1,30(light stations, others are in process of construction and recommendations have been made to Congress by the lighthouse board that authorization be granted for the building of others.

During 1881 and 1882 the European immigration to the United States reached its maximum and amounted to 730,000 persons. The number in 1885 was 332,000; in 1891, 595,000; in 1897-98, 230,000; in 1898-99, 311,000.

From 1883 to 1888 the temperature in Manila ranged from 77 degrees in December and January and 78 degrees in February to 83 degrees in April and May. The rainfall in July, August and September averaged about 14 inches

An unnamed American adventurer has made an offer to the state department to find Miss Stone and return her safe and in good health to the United States legation in Constantinople for the sum of $10,000, thereby effecting a saving of $50,000 in ransom.

Since 1895 Antwerp has held the first place in the world as a market for the importation and sale of ivory. It sold in the three months ending October 30 last 180,000 pounds of ivory, of which 146,000 pounds came from the Congo basin, now the largest source of this commodity.

An Appropriate Holiday Sermon by Dr. Talmage.

Christmas Scene at the Manger in the Rude Barn—Brute Creation Honored—God's Honored Science.

[Copyright, 1901, by Louis Klopsch, N. Y.]

This discourse of Dr. Talmage is full of the nativity and appropriate for the holidays; text, Luke 2:16: "And they came with haste and found Mary and Joseph, and the Babe lying in a manger."

The black window shutters of a December night were thrown open and some of the best singers of a world where they all sing stood there, and putting back the drapery of cloud chanted a peace anthem until all the chorus of hill and valley applauded and encored the halleluiah chorus. Come, let us go into that Christmas scene as though we had never before worshiped at the manger. Here is a Madonna worth looking at. I wonder not that the most frequent name in all lands and in all Christian centuries is Mary. And there are Marys in palaces and Marys in cabins, and, though German and French and Italian and Spanish and English pronounce it differently, they are all namesakes of the one whom we find on a bed of straw, with her pale face against the soft cheek of Christ in the night of the nativity. All the great painters have tried, on canvas, to present Mary and her Child and the incidents of that most famous night of the world's history. Raphael, in three different masterpieces, celebrated them. Tintoretto and Ghirlandajo surpassed themselves in the adoration of the magi. Correggio needed to do no more than his Madonna to become immortal. The "Madonna of the Lily," by Leonardo da Vinci, will kindle the admiration of all ages. But all the galeries of Dresden are forgotten when I think of the small room of that gallery containing the "Sistine Madonna." Yet all of them were copies of St. Matthew's Madonna and Luke's Madonna, the inspired Madonna of the old Book, which we had put into our hands when we were infants and that we hope to have under our heads when we die.

Behold, in the first place, that on the night of Christ's life God honored the brute creation. You cannot get into that Bethlehem barn without going past the camels, the mules, the dogs, the oxen. The brutes of that stable heard the first cry of the infant Lord. Some of the old painters represent the oxen and camels kneeling that night before the newborn Babe. And well might they kneel! Have you ever thought that Christ came among other things, to alleviate the sufferings of the brute creation? Was it not appropriate that He should, during the first few days and nights of His life on earth, be surrounded by the dumb beasts, whose moans and plaint and bellowing have for ages been a prayer to God for the arresting of their tortures and the righting of their wrongs? Not a kennel in all the centuries, not a bird's nest, not a worn-out horse on towpath, not a herd freezing in the poorly built cowpen, not a freight car in summer time bringing the beeves to market without water through a thousand miles of agony, not a surgeon's room witnessing the struggles of fox or rabbit or pigeon or dog in the horrors of vivisection, but has an interest in the fact that Christ was born in a stable surrounded by brutes.

Standing then, as I imagine now I do, in that Bethlehem night with an infant Christ on one side and the speechless creatures of God on the other, I cry: Look out how you strike the rowel into that horse's side; take off that curbed bit from that bleeding mouth; remove that saddle from that raw back; shoot not for fun that bird that is too small for food; forget not to put water into the cage of that canary; throw out some crumbs to those birds caught too far north in the winter's inclemency; arrest that man who is making that one horse draw a load heavy enough for three; rush in upon that scene where boys are torturing a cat or transfixing butterfly and grasshopper; drive not off that old robin, for her nest is a mother's cradle and under her wing there may be three or four musicians of the sky in training. In your families and in your schools teach the coming generation more mercy than the present generation has ever shown and in this marvelous Bible picture of the nativity, while you point out to them the angel, show them also the camel, and while they hear the celestial chant let them also hear the cow's moan.

Behold also in this Bible scene how on that Christmas night God honored childhood. Childhood was to be honored by that advent. He must have a child's light limbs and a child's dimpled hand and a child's beaming eye and a child's flaxen hair, and babyhood was to be honored for all time to come, and a cradle was to mean more than a grave. Mighty God, may the reflection of that one Child's face be seen in all infantile faces!

Enough have all those fathers and mothers on hand if they have a child in the house. A throne, a crown, a scepter, a kingdom under charge. Be careful how you strike him across the head, jarring the brain. What you say to him will be centennial and millennial, and a hundred years and a thousand years will not stop the echo and reecho. Do not say: "It is only a child." Rather say: "It is only an immortal." It is only a masterpiece of Jehovah. It is only a being that shall outlive sun and moon and star and ages quadriennial. God has infinite resources, and He can give presents of great value, but when He wants to give the richest possible gift to a household, He looks around all the worlds and all the universe and then gives a child. Yes, in all ages God has honored childhood. He makes almost every picture a failure unless there be a child either playing on the floor or looking through the window or seated on the lap gazing into the face of the mother.

It was a child in Naaman's kitchen that told the great Syrian warrior where he might go and get cured of the leprosy, which at his seventh plunge in the Jordan was left at the bottom of the river. It was to the cradle of leaves in which a child was laid, rocked by the Nile, that God called the attention of history. It was a sick child that evoked Christ's curative sympathies. It was a child that Christ set in the midst of the squabbling disciples to teach the lesson of humility. A child decided Waterloo, showing the army of Blucher how they could take a short cut through the fields when if the old road had been followed the Prussian general would have come up too late to save the destinies of Europe. It was a child that decided Gettysburg, he having overheard two confederate generals in a conversation in which they decided to march for Gettysburg instead of Harrisburg, and, this reported to Gov. Curtin, the federal forces started to meet their opponents at Gettysburg. And to-day the child is to decide all the great battles, make all the laws, settle all the destinies and usher in the world's salvation or destruction. Men, women, nations, all earth and all Heaven, behold the child!

Notice also that in this Bible night scene God honored science. Who are the three wise men kneeling before the Divine Infant? Not boor, not ignoramuses, but Caspar, Balthaser and Melchoir, men who knew all that was to be known. They were the Isaac Newtons and Herschels and Faradays of their time. Their alchemy was the forerunner of our sublime chemistry, their astrology the mother of our magnificent astronomy. And when I see these scientists bowing before the beautiful Babe I see the prophecy of the time when all the telescopes and microscopes and all the Leyden jars and all the electric batteries and all the observatories and all the universities shall bow to Jesus. It is much this way already. Where in the college that does not have morning prayers, thus bowing at the manger? Who have been the greatest physicians? Omitting the names of the living lest we should be invidious, have we not had among them Christian men like James Y. Simpson and Rush and Valentine Mott and Abercrombie and Abernethy? Who have been our greatest scientists? Joseph Henry, who lived and died in the faith of the Gospels, and Agassiz, who, standing with his students among the hills, took off his hat and said: "Young gentlemen, before we study these rocks let us pray for wisdom to the God who made the rocks." All geology will yet bow before the Rock of Ages. All botany will yet worship the Rose of Sharon. All astronomy will yet recognize the Star of Bethlehem.

Behold also in that first Christmas night that God honored the fields. Come in, shepherd boys, to Bethlehem and see the Child. "No," they say; "we are not dressed good enough to come in." "Yes, you are. Come in." Sure enough, the storms and the night dew and the brambles have made rough work with their apparel, but none has a better right to come in. They were the first to hear the music of that Christmas night. The first announcement of a Saviour's birth was made to those men in the fields. There were wisecres that night in Bethlehem and Jerusalem snoring in deed sleep, and there were salaried officers of government who, hearing of it afterward, may have thought that they ought to have had the first news of such a great event, some one dismounting from a swift camel at their door and knocking till at some sentinel's question: "Who comes there?" the great ones of the palace might have been told of the Celestial arrival. No; the shepherds heard the first two bars of the music, the first in the major key and the last in the subdued minor: "Glory to God in the highest and on earth peace, good will to men." Ah, yes, the fields were honored.

The old shepherds, with plaid and crook, have for the most part vanished, but we have grazing on our United States pasture fields and prairie about 42,000,000 sheep, and all their keepers ought to follow the shepherds of my text and all those who toil in fields—all vine dressers, all orchidists, all husbandmen. Not only that Christmas night, but all up and down the world's history, God has been honoring the fields. Nearly all the messiahs of reform and literature and eloquence and law and benevolence have come from the fields. Washington from the fields, Jefferson from the fields. The presidential martyrs, Garfield and Lincoln and McKinley, from the fields. Henry Clay from the fields. Daniel Webster from the fields. Martin Luther from the fields. Before this world is right the overflowing populations of our crowded cities will have to take to the fields. Instead of ten merchants in rivalry as to who shall sell that one apple we want at least eight of them to go out and raise apples. Instead of ten merchants desiring to sell that one bushel of wheat, we want at least eight of them to go out and raise wheat. The world wants now more hard hands, more bronzed cheeks, more muscular arms. To the fields! God honored them when he woke up the shepherds by the midnight anthem, and He will while the world lasts continue to honor the fields. When the shepherd's crook was that famous night stood against the wall of the Bethlehem khan, it was a prophesy of the time when thrasher's flail and farmer's plow and woodman's ax and ox's yoke and sheaf binder's rake shall surrender to the God who made the country as man made the town.

Behold also that on that Christmas night God honored motherhood. Two angels on their wings might have brought an infant Saviour to Bethlehem without Mary's being there at all. When the villagers on the morning of December 26 awoke, by Divine arrangement and in some unexplained way the child Jesus might have been found in some comfortable cradle of the village. But no, no! Motherhood for all time was to be consecrated, and one of the tenderest relations was to be the maternal relation and one of the sweetest words "mother." In all ages God has honored good motherhood. St. Bernard had a good mother. Samuel Budgett a good mother. Doddridge a good mother. Walter Scott a good mother. Benjamin West a good mother. In a great audience, most of whom were Christians, I asked that all those who had been blessed of Christian mothers arise, and almost the entire assembly stood up. Do you not see how important it is that all motherhood be consecrated? Why did Titian, the Italian artist, when he sketched the Madonna, make it an Italian face? Why did Rubens, the German artist, in his Madonna, make it a German face? Why did Joshua Reynolds, the English artist, in his Madonna, make it an English face? Why did Murillo, the Spanish artist, in his Madonna, make it a Spanish face? I never heard, but I think they took their own mothers as the type of Mary, the mother of Christ. When you hear some one in sermon or oration speak in the abstract of a good, faithful, honest mother, your eyes fill up with tears, while you say to yourself: "That was my mother."

The first word a child utters is apt to be "Mother!" and the old man in his dying dream, calls: "Mother, mother!" It matters not whether she was brought up in the surroundings of a city and in affluent home and was dressed appropriately with reference to the demands of modern life or whether she wore the old time cap and great round spectacles and apron of her own make, and knit your socks with her own needles seated by the broad fireplace, with great backlog ablaze, on a winter's night; it matters not how many wrinkles crossed and recrossed her face or how much her shoulders stooped with the burdens of a long life, if you painted a Madonna hers would be the face. What a gentle hand she had when we were sick and what a voice to soothe pain, and was there anyone who could so fill up a room with peace and purity and light? And what a sad day that was when we came home and she could greet us not, for her lips were forever still. Come back, mother, in these Christian times and take your old place, and as ten or 20 or 50 years ago come and open the old Bible as you used to, read and kneel in the same place where you used to pray and look upon us as of old when you wished us a merry Christmas or a happy New Year. But no! That would not be fair to call you back. You had troubles enough and aches enough and bereavements enough while you were here. Tarry by the throne, mother, till we join you there, your prayers all answered, and in the eternal homestead of our God we shall again keep Christmas jubilee together. But speak from your thrones, all you glorified mothers, and say to all these, your sons and daughters, words of love, words of warning, words of cheer. They need your voice, for they have traveled far and with many a heartbreak since you left them, and you do well to call from the heights of Heaven to the valleys of earth Hail, enthroned ancestry! We are coming. Keep a place right beside you at the banquet.

Slow footed years. More swiftly run
Into the gold of that unsetting sun,
Homesick we are for thee.
Calm land beyond the sea.

Proof Positive But Awkward.

A convict at a French penal settlement, who was undergoing a life sentence, desired to marry a female convict, such marriages being of common occurrence. The governor of the colony offered no objection, but the priest proceeded to cross-examine the prisoner.

"Did you marry in France?" he asked.

"Yes."

"And your wife is dead?"

"She is."

"Have you any document to show that she is dead?"

"No."

"Then I must decline to marry you. You must produce some proof to show that your wife is dead."

There was a pause and the bride prospective looked at the would-be groom.

Finally he said: "I can prove that my former wife is dead."

"How will you do so?"

"I was sent here for killing her."

The bride accepted him notwithstanding.—Edinburgh Scotsman.

Too Much for the Flies.

A young man in Philadelphia, who has plenty of time to devote to scientific questions, has discovered that music has great terror for flies. He learned the fact from observing at a park concert that while the audience was greatly annoyed by the insects, the musicians in the shell were free from all inconvenience.

His conclusion is that the sound-waves from the shell kept back the flies, and that although hundreds of them struggled to reach the shell, they might as well have attempted to fly in the face of a tornado, and thus, he declares, "enclosed by a magic curtain made of their own music, the musicians played Wagner, unannoyed by the sticky and pestering flies."

Imperial Wagner, dead and turned to clay,
Composed a tune to keep the flies away.
—Youth's Companion.

Law-Abiding Commonwealths.

Massachusetts is one of only five states in the union in which no lynchings have occurred during the last 16 years. The other four are Delaware, New Hampshire, Rhode Island and Utah.

PROMINENT PHYSICIANS USE AND ENDORSE PE-RU-NA.

C. B. CHAMBERLIN, M. D.
OF WASHINGTON, D. C.

C. B. Chamberlin, M. D., writes from 14th and P. Sts., Washington, D. C.

"Many cases have come under my observation, where Peruna has benefited and cured. Therefore, I cheerfully recommend it for catarrh and a general tonic."—C. B. CHAMBERLIN, M. D.

Medical Examiner U. S. Treasury.

Dr. Llewellyn Jordan, Medical Examiner of U. S. Treasury Department, graduate of Columbia College, and who served three years at West Point, has the following to say of Peruna:

Dr. L. Jordan.

"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now consider myself a well man after months of suffering. Fellow sufferers, Peruna will cure you."

DR. LLEWELLYN JORDAN.

Geo. C. Havener, M. D., of Anacostia, D. C., writes:

The Peruna Medicine Co., Columbus, O.:

Gentlemen—"In my practice I have had occasion to frequently prescribe your valuable medicine and have found its use beneficial, especially in cases of catarrh."

GEORGE C. HAVENER, M. D.

Dr. L. S. Smith, of Williston, Fla., writes:

"I have found Peruna a most valuable remedy for chronic catarrh of the head, throat, lungs and bronchial tubes, in fact, no matter where located.

"Few people realize that most sicknesses start from colds which develop into different affections and finally become chronic, settling often on the lungs and frequently causing serious trouble in the pelvic organs, while in women it develops into diseases peculiar to the sex.

"From my experience with Peruna I have found it very efficacious to cure these diseases, and I recommend it."

L. S. SMITH, M. D.

Dr. Mary Smith, Winfield, Ind., writes:

"A weak and sick woman must not expect to bear well children. For over 31 years my efforts have been spent among sick women especially, and among all the remedies I have used, none excel Peruna, and I believe that it is the best and safest medicine to give a woman suffering from ovarian trouble, inflammation, and profuse menstruation.

"I would not be doing my duty as a physician did I not advise its use. I know by experience that Peruna cures sick women, and I therefore gladly indorse it."

DR. MARY SMITH.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Transporting Gentlewomen.

The subject of emigration for gentlewomen is attracting an increasing amount of attention throughout the British empire, both in the motherland, where the surplus and unemployed woman is a serious problem, and in the colonies, where these same women are sorely needed, says the New York Tribune. It is said this is partly the result of the Boer war. The intense patriotism of the Boers and their faith in their cause is generally attributed to the lessons learned at home from the women. A life in the wilderness might not be regarded as alluring, but there are compensations, for while the average woman in the older countries is an unappreciable unit, even if not actually "surplus," the woman in pioneer society is an acknowledged power.

English-Irish Dialect.

An expression which English writers frequently put into the mouths of their Irish peasants is "By jabers!" says the Academy. I have lived the greater part of my life in Ireland, both in the north and south, but I have never heard it. "Bedad!" and Begor!" are quite common, but not "By jabers!" It would be advisable for English writers to leave the Irish dialect severely alone, for they are sure to come to grief when they try to represent it. They generally produce an impossible jargon, built after the conventional stage pattern.

Americanizing Porto Rico.

One of the American innovations in the city of Ponce, Porto Rico, is a Society for the Prevention of Cruelty to Animals, which relentlessly prosecutes all violators of the law.

Surgical Sewing Machine.

In France they have invented a surgical sewing machine which will mend rents in the human skin at a rapid rate.

AT A DUNKER MEETING.

Picturesque Services of an Ascetic Sect Described by an Eye-witness.

At one side, at the long tables, all the sisters, their white prayer coverings showing full against the general gloom, their mild, serious faces turned toward the preachers, and on every hand hung their black bonnets—somber draperies added to the somber scene. At the other side are the brethren, long-bearded, long-haired men with solemn faces, and along every low-lying beam stretch row on row of great hats, their crowns rising like a series of monuments to the doctrine of humility. On the platform are the preachers—a line of them—most of them old and white, says an exchange.

The few flickering lights throw strange shadows everywhere, and now and then bring into relief the black forms of the unregenerate in the half-filled mows at either end. From the stables below come the sound of cattle stirring restlessly in their straw bedding, the half-suppressed bleat of a lamb, the cluck of a nervous hen. Back of it all, a pushing, vulgar mass, crowding at the wide doors, stares in at the company—the sightseers from the neighboring villages, arrayed in bonnets gay with paper flowers of every hue, bright dresses, or the terrible productions of the "fashionable tailor" or the "gents' furnisher" of the country town.

New Kind of Tipple.

Farmers about Cortland, N. Y., a prohibition district, were puzzled to find that their hands got drunk without any visible liquor supply. They finally discovered that the employees had tapped the silo for the juice of the green cornstalks, which, fermented, makes a liquor that is pleasant, but most terrible.

TERRIBLE DEATHS.

Ten Workmen Killed by a Gas Explosion in a Furnace Top.

The Bodies Dropped to the Roof of the Mill Below an Unrecognizable Mass of Human Flesh.

Pittsburg, Pa., Dec. 20.—Ten men were burned to death and four injured by an explosion of gas at the Soho furnace of Jones & Laughlin, Limited, in Second avenue, near Brady street. The explosion was caused by a slip in the furnace, the gas and flames bulging upward through the bell. The men were on the furnace platform 85 feet above the ground.

There were 19 men on the furnace when the explosion occurred. Fifteen of them were caught in the flames. Two of them escaped with slight injuries. The other four were the regular men employed as top fillers and escaped without injury.

The explosion was caused by the gas becoming encased in a crust of cinder, forming at the bottom of the furnace. A wheelbarrow containing ore had been sent up to the men and when they went to dump it into the bell of the furnace they pushed it over too far and it rolled into the hopper. The barrow weighed 900 pounds and was too heavy for the four men to raise. The 15 laborers, all Hungarians, were then sent up to assist them. Had it not been for the barrow accident no one would have been hurt, as the regular men knew how to protect themselves at such times, as similar explosions are of frequent occurrence.

Tons of molten metal, cinders and slag were thrown over the unfortunate men at the top of the structure. When the gas let go a panic ensued on the small platform about the top. The men made a rush for the elevator, but it had gone down and there was no escape. To jump meant death, and to remain on the platform was just as certain doom. The tons of molten metal and flames fell upon them. Their bodies dropped to the roof of the mill below, every bone broken and an unrecognizable mass of human flesh. Hurry calls were sent to the police and morgue.

The most distressing feature of the disaster was the burning of Joseph Frankowicz. He was seen by the thousands of people who were on their way to work to run to the platform railing and leap into the air. He was a mass of flames as he whirled through the air. He fell on the stock yard shed and literally burned to death before the eyes of the crowd, 50 feet below, who had no way to reach him.

When the explosion occurred burning heaps of cinders settled around the men almost knee deep. Their shrieks were terrible and their frantic efforts to save themselves were pitiful.

FELL ON THE ICE.

United States Senator Berry Badly Injured at Newburg, Mo.

Lebanon, Mo., Dec. 20.—United States Senator J. H. Berry, of Arkansas, while en route to his home at Bentonville, was badly injured at New burg Thursday by a fall on the ice Senator Berry took dinner at New burg, and as he re-entered the Pullman coach his crutch slipped on the ice on the platform, causing the senator to fall forward into the coach. He struck the stump of his leg on an iron weather strip, injuring his hip joint His son telegraphed for medical attendance, and the senator was carried to a room in the LaClede hotel here upon the arrival of the train. The surgeons think the hip joint is not dislocated, but there may be a fracture which would prove serious at his age.

HEADLESS BODY FOUND.

By a Watch it Was Identified as Prof. Chandler, a School Teacher.

Carrollton, Ga., Dec. 20.—The headless body of a man, identified by a gold watch as that of Prof. Chandler, a school teacher, was found Thursday beneath a mass of rock at Oak Level, Cleburne county, Ala. Prof. Chandler lived in Lime Branch, Polk county, Ga., and taught school just over the Alabama line in Cleburne county. He was seen one day last October with $125 in money and the next day disappeared. The country was searched, but no clew to the missing man's whereabouts could be found until Thursday. A farmer named Knighton has been arrested on suspicion and committed to jail.

Rathbun on Trial For Murder.

Jeffersonville, Ind., Dec. 20.—In the criminal court Thursday morning a jury was summoned to try the case of Newell C. Rathbun, indicted on the charge of murder in the first degree by administering laudanum to Chas. Goodman at the Falls City hotel, in this city, on the night of November 7, in order to defraud an insurance company.

Church Property Sold.

New York, Dec. 20.—The Broadway tabernacle church property, Sixth avenue and 34th street, was sold Thursday for $1,300,000 by Trustees Cornelius N. Bliss and William Ives Washburn. Adjoining property was sold for $200,000.

Abolished Hazing.

Detroit, Mich., Dec. 20.—The cadets of the Michigan military academy at Orchard Lake, Thursday voluntarily and unanimously adopted resolutions abolishing hazing and fagging in all forms.

ADM. SAMPSON'S OBJECTIONS.

Reasons Why Adm. Dewey's Minority Report Should Not Be Approved.

Washington, Dec. 21.—The objections of Adm. W. T. Sampson to that portion of Adm. Dewey's report of the Schley court of inquiry in which he says Adm. Schley was in command at the battle off Santiago and entitled to the credit for the victory, was filed with Secretary Long. The document was brought to the navy department by E. S. Theall, of counsel for Adm. Sampson, and handed to the secretary. The report says:

As counsel for Rr. Adm. Sampson we have the honor to request that the department, for the reasons below stated, strike out or specifically disapprove that portion of Adm. Dewey's opinion filed in connection with the proceedings of the Schley court of inquiry, in which he states his view to be that Commodore Schley was in absolute command at the naval battle of Santiago.

First—Commodore Schley was not in command at that battle.

Second—The president of the United States and the navy department had decided that Adm. Sampson was in command at the battle and Commodore Schley second in command.

Third—The question as to who commanded at Santiago was not referred to the court for consideration, and evidence bearing on the point was excluded.

INQUIRY COURT'S FINDING.

Judge Advocate Lemly and Solicitor Hanna Wants it Approved.

Washington, Dec. 21.—Judge Advocate Lemly and Solicitor Hanna Friday afternoon submitted to Secretary Long their report upon the bill of objections filed by Adm. Schley, through his counsel, to the findings of the Schley court of inquiry. The report is an argument supplementary to the argument made by the writers before the court of inquiry. The principal points are an insistence upon their contention that the first report is the unanimous report of the court of inquiry; that the court was justified in rejecting Adm. Schley's evidence by the number of witnesses who took issue with him, and that there is no sufficient reason for a reopening of the case as requested by Adm. Schley.

THE M'KINLEY MEMORIAL.

The Association is Receiving Encouraging Reports From All Over.

Cleveland, O., Dec. 21.—The McKinley Memorial association is receiving encouraging reports from all over the country. Half a million dollars is the sum fixed to be raised. An apportionment of the total has been divided among the states of the union, the population and location being given due credit. The largest sum is from New York, $150,000; Ohio's apportionment is $100,000 and the other states proportionately less. North Carolina will be asked to raise the lowest amount, $1,000.

AN AGREEMENT REACHED.

Germany Can Choose Her Own Means of Enforcing Venezuelan Claim.

London, Dec. 21.—The Berlin correspondent of the Standard claims to have the best authority for saying that Germany and the United States have arrived at an agreement on the question of Venezuela's indebtedness to Germany. Excepting the permanent occupation of Venezuelan territory, says the correspondent, Germany may choose her own means of enforcing the payment of the claim of the discount company against the Northern railroad.

Dis De Bar Found Guilty.

London, Dec. 21.—Mme. Dis De Bar, who, with her husband, Theodore Jackson, on trial in the Old Bailey for swindling and for immoral practises, were found guilty. Mme. Dis De Bar, who had posed as "Swami" to her victims, was sentenced to prison for seven years. Jackson was sentenced to 15 years imprisonment.

Battleship Iowa at Callao.

Washington, Dec. 21.—The navy department has been informed by Capt. Perry, of the battleship Iowa, of that vessel's arrival at Callao, Peru. The sailors will be given shore holiday for several days and the vessel then proceed down the Chilian coast to dock at Talcahuano.

The Philadelphia Goes to Panama.

Washington, Dec. 21.—It is stated at the navy department that the cruiser Philadelphia has left San Francisco for Panama, where she is to relieve the gunboat Concord, the latter vessel coming north to go out of commission.

The Marietta Goes to Nombre De Dios.

Colon, Colombia, Dec. 21.—(Via Galveston.)—The United States gunboat Marietta received unexpected orders to proceed to Nombre de Dios, doubtless to protect the property there of the Manganese Mining Co., an American concern. She has already sailed.

Treasury Statement.

Washington, Dec. 21. — Friday's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption, shows: Available cash balances $172,796,951; gold $115,489,108.

Knocked Out in the 13th Round.

Savannah, Ga., Dec. 21.—Eddie Lenny, of Chester, Pa., knocked out Joe Fairburn, of Philadelphia, in the 13th round of what was to have been a 20-round light weight contest before the Savannah athletic club.

THE ST. LOUIS FAIR.

Ceremonies Attending the Breaking of the Ground.

The Day's Celebration Closed With a Banquet at the Southern Hotel in the Evening—A Silent Toast to McKinley.

St. Louis, Dec. 21.—The governors of four Louisiana purchase states—Minnesota, Nebraska, Arkansas and Missouri—several members of congress and World's fair natural commissioners and other invited guests, among them Gen. John C. Bates, commanding the department of the Missouri, and Col. John D. Oglesby, representing Illinois, participated in the ceremonies attending the breaking of ground on the site of the World's fair in Forest park. The exercises at the site where the thermometer registered around zero consisted of an invocation by Rev. Dr. S. J. Niccolls, addresses by the chairman of the committee on ceremonies, Corwin H. Spencer, and President David B. Francis, and the breaking of ground on the site of the education building by the officials of the exposition company, municipal authorities and invited guests.

Three historic shovels were used in the ground-breaking. The first was one of iron and oak, lent by the Massachusetts state arsenal, Boston, where it had been placed in 1805 as a relic of early American workmanship. An ex act reproduction of that shovel, a manufacture of the Louisiana purchase, made of ebony and steel, silver plated was next put into use. A veritable relic, an old wooden shovel, thought to have been one of the tools employed by the 200 white miners from France and 500 African slaves from San Domingo, brought over by Francis Renault in 1718 to work in the St. Geneveive (Mo.) mines, was the third used. It was originally found in St. Francois county, this state, by F. J. Monell while sinking a shaft in the famous Flat river lead district, and is now the property of the Peacedale museum, Rhode Island, to which it was presented by a Mr. Hazard.

Speaking by Gov. Francis, Congressman James A. Tawney, of Minnesota, and Gov. Jefferson Davis, of Arkansas, and music by Seymour's Famous Sixty was the programme at the coliseum, where several thousand persons were present.

The day's celebration was concluded Friday evening at the Southern hotel where 200 officers and directors of the Louisiana Purchase Exposition Co. and their guests, sat down to an elaborate banquet.

At the request of President Francis, who acted as toastmaster, those present drank in silence a toast to "Our Departed and Beloved President—William McKinley."

Secretary Stevens read letters of regret from a number of prominent persons throughout the country who were unable to be present.

DESPERATE DEFENSE.

An 18-Year-Old Boy Shoots and Kills Three Drunken Colored Men.

Welch, W. Va., Dec. 21.—Wayne Demon, an 18-year-old boy, shot three Negroes to death in a saloon at the mining town of Davy, this county. It was pay day at the Davy mines and the Negroes had begun their holiday celebration. Drunkenness was visible on every hand, and when about a dozen of the big blacks entered Eugene Dye's saloon, on the leading street, revolvers in hand, and demanded that all the whites within retire, the trouble began. The bartender stepped into an adjoining room for his pistol and all the other whites save Demon made a run to get away. Demon pulled his revolver and shot three of the Negroes to death. The others fairly fell over one another in getting away.

In the excitement Demon, whose home is in Catlettsburg, Ky., left the saloon by a rear door, and up to a late hour had not been captured. In fact, but very little effort is being made to apprehend him. He is an assistant bookkeeper for Cole, Crane & Co., Cincinnati, who are engaged extensively in timbering in this county. Demon was awaiting the arrival of a train to go to his home to spend the holidays.

The Negroes continued their outlawry and more trouble is feared.

Three Men Killed in a Fight.

Lawton, Okla., Dec. 21.—Three men were shot in a dispute near here. It is said the shooting was done by a man named Roberts, and that all three of the wounded men have died. Roberts is fortified in a house, defying arrest. The sheriff and two marshals have gone to the scene.

Will Manage the Chattanooga Team.

Chattanooga, Tenn., Dec. 21.—N. F. Kreig, who was captain and manager of the champion Terre Haute team of the Three I league last year, has been selected as captain and manager of the Chattanooga team of the Southern league next year.

Two Shuffeled Off.

Birmingham, Ala., Dec. 21.—Will Redding and Jim Winton, alias Wintons, Negroes, were hanged here Friday morning in the jail yard. Winton cut the throat of his wife and Redding murdered his sweetheart, Annie Green.

Ten Eyck To Coach Middies.

Worcester, Mass., Dec. 21.—James A. Ten Eyck has been engaged to coach the crew of the naval academy at Annapolis next year. He will enter upon his new duties shortly after the Christmas holidays

BADE HIM FAREWELL.

Over 4,000 Members of the Federal Party Called on Gov. Wm. Taft.

Manila, Dec. 21.—Over 4,000 members of the federal party called on Gov. Taft to bid him farewell and to wish him a safe return. The governor, reclining on a lounge, addressed 150 of the most prominent of his visitors, saying that he was touched and honored by their presence. The organization, he added, had done so much toward bringing about peace and giving the country a stable party that it argued that for the success of American labors than anything else during the recent critical times.

The reports circulated in the United States, founded on incidents connected with the war in Batangas province and the island of Samar, the governor said, tend to convey a wrong impression of the situation, which is really hopeful. Through its officers, the constabulary and the provincial governments, besides 850 teachers, the commission had excellent means of acquiring information in the organized provinces and it considers that there never was a time when there has been so much real ground for hopefulness and encouragement in regard to the attitude of the Filipino people towards the civil government. The military disaster in Samar had created an unfounded feeling of uneasiness concerning the condition of the people of the rest of the archipelago. The war in Batangas and in Samar, kept up by misguided men, furnished the only obstacle to obtaining liberal legislation on the part of congress.

In continuing, the governor said he would return here. He liked the Filipinos and regretted leaving at this particular time. But it was a comfort to know that the duties of the office were in the hands of Vice Gov. Wright an able lawyer, who sympathized deeply with the best hopes of the people.

In conclusion, the governor said he expected to be back before May and he hoped to have the pleasure of presenting the federal party's memorial to the president.

Civil government will be restored in the Island of Cebu on January 1 of the coming year.

THE BOILER EXPLODED.

A Terrible Accident at a Pittsburg Steel Works.

Pittsburg, Pa., Dec. 21.—Three dead, one missing and 12 injured is the result of a terrific boiler explosion at the Black Diamond steel works of Park Bros., on 30th street.

The injured at the hospital are all doing well except one, whose injuries may yet prove fatal.

Reuben Miller, jr., superintendent of the plant, states that the boilers were examined last week and pronounced in excellent condition. No known cause can be given for the explosion. A thorough investigation is now in progress.

It was about 4:15 o'clock, as the night crew was about to turn over the mill to the day force, that four boilers in the ten-inch bar mill, No. 3, exploded with terrific force, scattering death and destruction in all directions. The mill was completely wrecked and the debris is piled from 50 to 75 feet high. The boiler works of James McNeil, adjoining the Black Diamond mill, were also destroyed. A force of men went to work as quickly as possible after the explosion, searching in the debris for bodies.

Pittsburg, Pa., Dec. 21.—By the explosion of a boiler at the plant of the American Steel and Wire Co., on Neville island, one man, whose name is yet unknown, was killed, but so far as known no other workmen were hurt. The plant was damaged considerably, but not enough to cripple it to any great extent.

Indians Suffering From Cold.

Guthrie, Okla., Dec. 21.—The full-blood Creek Indians have suffered from the cold, and reports from Tulsa say very many are sick with pneumonia, a disease that proves fatal among Indians. Among some of the tribes, too, the cold weather has produced smallpox. Tulsa reports say the wheat crop has been greatly damaged.

Hoge Were Eating Him Alive.

Oakland, Neb., Dec. 21.—J. Sandbloom, a farmer 88 years old living near here, was found by his son near the hog pens unconscious from cold. The hogs were eating him alive and it was with difficulty they were driven off. Sandbloom died of his injuries.

Satisfactory Settlement.

Washington, Dec. 21.—It is stated by those familiar with the progress of the controversy between Argentine and Chili that the affair has passed its serious aspect, and that the present negotiations assure a satisfactory settlement, only the details of the approachment remaining to be arranged.

Prof. Spillman's New Position.

Washington, Dec. 21.—W. J. Spillman, of Pullman, Wash., has been selected to succeed Prof. F. Latson Scribner as the agrostologist of the department of agriculture. Mr. Scribner will take charge of the agricultural work in the Philippine islands.

Mme. Talika Is Dead.

London, Dec. 21. — "Semi-official news received here from Constantinople," the Rome correspondent of the Daily Telegraph cables, "asserts that Mme. Talika is dead and that Miss Stone, the American captive, will be released almost immediately."

Relief Work Among Unemployed.

Berlin, Dec. 21.—The rigorous winter is increasing the number of unemployed and it has compelled the authorities to institute relief works, not unlike those in operation in the Indian famine districts.

STATE ODDS AND ENDS.

JEAN COUCH GUILTY.

Is Received a Sentence of 20 Years in the Penitentiary.

Madisonville, Ky., Dec. 19.—The jury at Dixon, Ky., in the case of Jean Couch, a Negro union miner, charged with shooting into a wagonload of non-union Negroes en route to the Providence mines, returned a verdict of guilty and sentenced Couch to 20 years in the penitentiary.

President Wood, of the District United Mine Workers' Union, who is now in Central City, claims that two attempts were made by unknown persons to assassinate him Tuesday night.

The Webster county grand jury, in session at Dixon, returned indictments Wednesday against James D. Wood, president U. M. W. of A., 23d district, Kit Barnaby, vice president, and W. B. Kissinger, a member of the official board, who has been actively engaged in unionizing Hopkins, Webster and Christian counties, charging them as accessories before the fact for willful murder.

The indictments are the result of an investigation into the facts connected with the attack made on the Providence mines by the union men five weeks ago. One of the union men named Givens, who was killed in the battle, had papers on his person which were introduced as evidence against the union leaders.

A list of the guns, their numbers and the names of the men to whom the guns had been given, were found, together with other evidence. Wood, Barnaby and Kissinger, the indicted, will be refused bond. Barnaby was in Madisonville Wednesday when the news came. Wood is said to be in Central City, though he may be in Halifax before morning. Two union men were tried at Dixon in circuit court Wednesday and sentenced to two years in the penitentiary. The other cases against union men were continued.

Madisonville, Ky., Dec. 20.—Vice President C. Barnaby, of the United Mine Workers' of America, 23d district, was arrested by Deputy Sheriff James Thomas just as he was in the act of boarding the noon train for Henderson. Barnaby, Wood, Rissonger and other union men were indicted by the Webster county grand jury at Dixon on Wednesday for being accessories before the fact of murder.

GOEBEL ESTATE SUED.

Lawyers Claim $10,000 For Helping to Win the Contest Case.

Frankfort, Ky., Dec. 20.—Attorney W. S. Pryor Thursday mailed to W. H. Mackoy at Covington three suits to be filed in the Kenton county circuit court against Arthur Goebel, as administrator of the estate of the late William Goebel. The plaintiffs are the law firms of Kohn & Phelps, of Louisville, and Bradburn & McQuown, of Bowling Green, and Dr. A. M. Vance, of Louisville.

The attorneys ask judgment for $5,000 in each case for services rendered William Goebel in the gubernatorial contest of 1900 before a committee of the general assembly of that year, and Dr. Vance sues to recover $500 for services rendered in attendance at his bedside after he was shot down by an assassin. The suits have been in contemplation for some time.

The attorneys and physician presented accounts Arthur Goebel some months after the death of his brother, but so far as the public knows, no attention was paid to them. Some close friends of the late Gov. Goebel say that the only attorney having legal claim against the estate is Mr. McQuown. He was the only one called to Frankfort by Mr. Goebel, they say, the only one who has a contract, all the others being volunteers.

YOUTSEY'S CAPTORS.

The Reward May Be Denied By the Goebel Reward Commission.

Frankfort, Ky., Dec. 20.—The Goebel reward commission was called to meet here to consider a claim of Detectives Harding and Armstrong, of Louisville, for the $5,000 reward offered by it for the conviction of Henry E. Youtsey, but took no action because of the absence of a quorum, adjourning until January 8.

It developed at the meeting that when these detectives were brought to Frankfort to work on the case they came on a contract to be paid by the day, and were so paid out of the reward fund. Chairman Lewis, of the commission, says that they have no claim whatever on the reward offered for Youtsey.

Postmaster at Covington.

Covington, Ky., Dec. 20.—News was received here Thursday night announcing the reappointment of O. A. Reynolds as postmaster. Col. Reynolds is a veteran of the civil war.

Lost $10,000 Worth of Logs.

Whitesburg, Ky., Dec. 19.—Watson Cundell, of this place, lost over 1,000 large poplar logs, valued at $10,000, in the recent rise of the Kentucky river. Other logging men also lost heavily. According to reports from eastern Pike county two men were drowned on a raft.

Fatal Fall Down Stairs.

Owensboro, Ky., Dec. 21.—Mrs. Frank Nally slipped and fell down the stairs at her home. The accident brought on a premature birth and she died.

THE SPRING MEETING.

New Louisville Jockey Club Has Announced Its List of Stakes.

Louisville, Ky., Dec. 21.—The new Louisville jockey club has announced its list of stakes, which close on Monday, February 8, 1902, to be run at the spring meeting of 1902, and the Derby, Oaks and Nursery stakes for 1903. There will be 21 days' racing in the spring and nine stakes are to be run, including the Derby, Clark and Oaks, besides the Nursery, a new $6,000 event for 2-year-olds. The stakes are as follows:

The Clark handicap for 3-year-olds and upwards, $1,500 added.

The Debutante for 2-year-old fillies, $1,000 added; 4 furlongs.

The Bashford Manor stakes for 2-year-old colts and geldings, $1,000 added; 4½ furlongs.

The Juvenile stakes for 2-year-olds, $500 added; 5 furlongs.

The Blue Grass stakes for 3-year olds, $800 added; 6½ furlongs.

The Frank Fehr stakes, selling, for 3-year-olds and upward, $1,000 added; 1 mile.

The Kentucky Derby for 1903, $6,000; mile and a quarter.

The Kentucky Oaks for 1903, $3,000, one mile and a sixteenth.

The Nursery stakes for 1903, $6,000; 4½ furlongs.

ARMED MEN AT THE DOOR.

Farmers at Cold Springs Resented the Sheriff and His Posse.

Newport, Ky., Dec. 21.—The board of health of Campbell county and also of Newport began to remove patients Friday to the branch hospital, which has been formerly known as the county infirmary at Cold Springs. When they arrived at the institution they found it surrounded by a force of armed men, who denied them admittance.

The armed force were farmers who lived near by, and their weapons were shotguns, rifles, revolvers, clubs and rocks.

Sheriff Miller was finally appealed to, and in the afternoon he took a number of deputies out to the place and drove every one off the place, but not until several serious clashes were narrowly averted. When the sheriff arrived at the front gate he found it nailed and 12 men against it. As the sheriff's party got out of their rigs, they were all placed under arrest by a man named Arnold, whom County Judge Brown had appointed county patrolman. The sheriff laughed and then placed all of them under arrest.

WAR OFFICE RULING.

The Kentucky Guards Are to Be Paid $1.50 Per Day.

Frankfort, Ky., Dec. 20.—Adjt. Gen. Murray has received information from the war department that the government will pay members of the regiment of the Kentucky guard mustered into its service at the breaking out of the Spanish-American war at the guard rate of $1.50 per day from the time they left home until received into the volunteer army. The soldiers have already received pay for their time and the regular army rate of $13 a month, and this ruling entities each soldier to about $15.

The total amount to be distributed in this manner in Kentucky exceeds $25,000.

AWKWARD PREDICAMENT.

Officials Refused to Accept Prisoners From a Quarantined County.

Frankfort, Ky., Dec. 21.—Sheriff Terry, of Breathitt county, who brought three prisoners here to enter the penitentiary, found himself confronted by awkward circumstances on his arrival. The prison officials refused to admit the prisoners because of a quarantine against Breathitt county, where smallpox is prevalent. The county jail was also closed to them, and Chief of Police Williams, hearing of the matter, compelled the sheriff to take his men to the depot, where they remained till Friday night, when they were taken back to Jackson.

Gen. W. F. Perry Expires.

Bowling Green, Ky., Dec. 19.—Gen. W. F. Perry, one of the few remaining confederate generals, died at his home in this city at an early hour Wednesday morning. He had been ill for more than a year, but for the past week was some better, and was out on the streets. Gen. Perry was a brigadier general, and served with distinction in the confederate army.

Children Roasted in the Flames.

Winchester, Ky., Dec. 21.—Fire destroyed a small house at Ford, occupied by a colored family, and two children, a boy aged 3, and a girl aged 4, were roasted in the flames.

Mother and Babe Free.

Frankfort, Ky., Dec. 21.—The prison commissioners Friday paroled Eliza Gable, of Floyd county, who was sent to the penitentiary two years for manslaughter. When she came to the Frankfort prison she had a babe in her arms, only 4 months old.

Temporary Injunction Granted.

Louisville, Ky., Dec. 21.—In the federal court Judge Evans granted a temporary injunction against James D. Wood and other United Mine Workers of Hopkins county, Ky., at the instance of the St. Bernard Coal Co.

Neighborhood News.

BULLITTSVILLE.—Dr. A. A. Rankshaw, of Covington, will be the guest of Dr. Hays during the holidays.

Mrs. W. T. Snyder slipped and fell Monday morning and broke one of her lower limbs. She is about 65 years of age.

Thornton Snyder came home from Cincinnati, a few days since, with a well developed case of typhoid fever. He is getting along very well.

Our old friend and neighbor, John Sephens, has a fine 'possum which he has been fattening for four weeks, and during the holidays he will invite several of his friends to partake of this juicy animal at dinner. The writer, unfortunately is not one of the elect.

JACOB'S WELL.—Misses May and Annie Miller spent last Friday night with Misses Neille and Agnes Scott.

W. P. Utz is complaining of a lame back.

Ask Lonnie Tanner how to catch a Belgian hare to keep it from scratching you.

Mr. and Mrs. George Rouse celebrated their tenth wedding anniversary last Monday.

Miss Rosa Garnett mashed her finger badly while grinding sausage, one day last week.

Misses Rosa and Julia Garnett entertained several of their friends, last Saturday and Sunday.

Perry Utz, Sumner Houston, and Lonnie Tanner were in the Beaver neighborhood, buying turkeys last week.

Miss Pearl Philipps gave the young folks a party last Saturday night. Every one present reported having a pleasant time.

GUNPOWDER.—William Busby, while coming from Ed Clegg's last Thursday night, had one of his ears badly frozen.

Billy Vest was in our burg, last Friday.

W. N. Surface has a nice assortment of Christmas goods at his store, which he will exchange for cash.

Rob Houston is the only person that had courage enough to venture out in the cold to take a sleighride.

We received intelligence a few days since that A. J. Utz, of Hathaway neighborhood, is seriously sick.

Sumner Houston, one of our local buxters is in the turkey business pretty extensively, and will have a nice lot in market for the holidays.

Lee Busby has had quite a rush at his place of business the past week. He shod about 40 horses in four days. Wm. Woods, of Union, is assisting him.

Last week was a good beginner for winter, the thermometer registering as low as 8 below zero several mornings, and on Saturday morning it went down to 16 below.

The entertainment given by the Pleasant Ridge school, last Friday night, was a perfect success and the teachers and pupils deserve great credit for the manner in which they acquitted themselves. The program consisted of recitations, dialogues and music interspersed with an occasional tableau. The music was directed by Miss Lelia Floyd. The house was well filled and the proceeds amounted to about $10, which will be appropriated for the benefit of the library.

CRESCENT.—Mrs. Chas. Respass, of Newport, is spending several weeks with B. F. Bristow and wife.

Charles Tanner made a flying trip to Erlanger, Tuesday.

The pile driver is at work on the railroad fill south of Dixon.

Fred Stephens, of Independence, was with us, one day last week.

Bud Groger, of Covington, was visiting friends here, last Sunday.

Cliff Wayman, of Independence, passed through town, Thursday.

Mrs. Louis Ficke is spending several days with relatives in Cincinnati.

Mrs. Joe Stone, who has been sick for several weeks, is reported no better.

O. S. Brown and J. Taylor, both of Cincinnati, spent Sunday with Henry Groger.

James Glass, of Banklick, who had a stroke of paralysis, a few weeks ago, is no better.

Henry Groger was visiting friends and relatives near Morningview, last Wednesday.

Mr. Weber, of Cincinnati, spent last Wednesday with his son, Wm. Weber, at this place.

Ed Homes, formerly of this place, but now of Cincinnati, was visiting friends here, Sunday.

Mrs. Capt. Northcutt has returned from a visit to her daughter, Mrs. Brown, of Cincinnati.

Charley Cahill is very low with typhoid fever. Dr. Chambers, of Independence, is attending him.

Mrs. Calla Darby, who has been seriously ill, at the home of her daughter, Mrs. Rector, is reported better.

Several schools near Independence have been compelled to suspend on account of an epidemic of measles.

Cy Doty, the operator at Dixon, will spend Christmas with his parents, Mr. and Mrs. C. J. Doty, of Lexington.

John Mayberry and family have moved from their country home at this place to their residence in Covington.

Chas. Tanner, who is living on the Wm. Stephens farm, intends moving to Covington in the near future, where he hopes to secure a position.

Quite a large crowd attended Ben Stephens' sale last Wednesday. Bidding was lively, especially on the corn and live stock. Corn sold for 83 cents.

J. Z. Bristow, of Richwood, intends to show his fine Plymouth Rocks at the coming Cincinnati Poultry exhibition. Julius captured first prize on his birds at the show, last season.

J. Mayberry has bought and shipped three tons of clover hay to this place. Mr. Mayberry says that clover hay is an article that can scarcely be had at any price in this vicinity.

Frank Williams lost a valuable horse, Saturday. The animal in some way became fastened under the manger and in struggling to extricate itself, it was injured to such an extent that it died.

How is that, Mr. Editor? Do we drink? Oh yes, occasionally! You say this is ten years old? Well, here's to you, a Merry Christmas and a happy New Year.

There is talk among the powers that be, of building a double track on the Southern railway, from Ludlow to Dixon and putting a night operator at the telegraph office. This will be quite a boom to our flourishing little town.

LIMABURG.—A merry Christmas to the Recorder force.

The mercury was 18 below zero here on the 21st.

Samuel Conrad has been selling ducks at 7 cents a pound.

Harry Tanner sold a 680 pound Chesterwhite hog at 5 cents a pound.

About all the tobacco in this neighborhood is in the bulk. The quality is good.

Geo. Baker and son shod 82 horses all around last week, an average of nearly 14 per day.

Robert Brown entertained a large crowd with a cotillion party on the night of the 20th.

Prof. Summers treated his school to candy, last Friday, and the pupils presented him a gold ring as a token of their esteem for him.

About 225 turkeys were handled here, last Saturday, at 7½ cents a pound. The largest turkey weighed 38 pounds, and was raised by John Bachelor.

FRANCISVILLE.—Mrs. Holland Goodridge is convalescing from a severe case of tonsilitis.

Mrs. Nellie Markland and son are visiting her aunt in Dayton, Ohio.

We hear that Add Batterson, of Colorado, is visiting his parents at Hebron.

School closed last Friday for the holidays. Mr. Souther treated the children to candy.

Mrs. Bruce Henry's sister, Mrs. Ruth Reahearn, paid her a visit some two weeks ago.

W. B. Graves, who is now a resident of Hebron, was calling on friends here last Friday.

Mrs. Wm. Brown, who has had a long siege of typhoid pneumonia, is recovering.

Temp Gaines, who sustained a severe injury in his leg, some weeks ago, is able to be out again.

Mr. Editor, we wish you and yours a pleasant Christmas and a Happy New Year—every day of it.

Two of our young men were calling on their friends near Burlington, last Saturday evening a week.

Walter Poston, of Home City, Ohio, moved into Mrs. Matilda Goodridge's house, recently occupied by Mrs. Markland.

Owing to the inclemency of the weather there were very few out to hear Bro. W. S. Taylor, who preached a complimentary sermon at Sand Run, last Sunday. He will preach there the ensuing year every third Saturday and Sunday.

RABBIT HASH.—There is a scarcity of Christmas turkeys in this neck of the woods this year.

Some ice and lots of drift in the river.

The infant child of Mrs. Bert Staley died on the 20 inst.

W. B. Ryle made a business trip to Cincinnati Thursday night.

The club of guessers here in the Enquirer contest got a prize of $15.

Solon B. Ryle, of Hamilton, Ohio, will spend Xmas with homefolks here.

Edward Parsons and George Hillis are talking of going to Florida. Is it any wonder?

Charlie Leathers, of London, England, is visiting his uncle, W. K. Leathers, of East Bend.

There was another run of sawlogs in the river Tuesday. About 500 were tied up here by the boys.

Lewis Calvert, of Kansas City Kan., is here for a visit with friends and relatives. He will stay all winter.

J. M. Hodges went to Cincinnati Tuesday night with a hogshead of his new tobacco, the first that has been shipped from here this season.

A crowd of young folks met at the home of Mr. and Mrs. Dickey Stephens and enjoyed themselves by dancing. They also had a great deal of sport with a pet monkey which called in unexpectedly and at an early hour.

The nine months old child of Mrs. Will Craig died Sunday morning, the 15th inst., and was buried the next day at the Methodist church cemetery. The sorrowing parents have the sympathy of all in the loss of their only child.

What they want in their stockings; —Colon Kelley, a new Katy hat; Geo. Hillis, a ticket to Florida; Elijah Hodges, a new skiff; Vail Hillis, another log run; Alf Wingate, a chew of tobacco; Charlie Dolph, a ticket to Cincinnati; Gene Wingate, a letter from Mc-Ville; Ben R. Stephens, a roll of bank notes; Joe Van Ness, a horseless buggy; Marion Scott, a few dates; Rusty Stephens, his lost health.

HATHAWAY.—A Merry Christmas to the Recorder.

The little ones are looking for Santa Claus now.

C. B. Moore was in Rising Sun, last Thursday.

Several in this vicinity finished up the butchering act, last week.

The thermometer registered 8 below zero here one morning last week.

Earnest McNeely, who got hurt recently while at school, is better.

Miss Sue McWethy was visiting Miss Katie Green, of Beaver, recently.

W. S. White and family spent last Friday with the writer and family.

Gunpowder creek is frozen over and has afforded some excellent sport for the skaters.

John Green and family will attend Green Bros'. family reunion in Rising Sun, one day this week.

Last week had the resemblance of mid-winter to some extent, with a 8-inch snow on the ground.

Joe Green was visiting his cousins, Johnnie and Presley Adams, of Walton, Saturday and Sunday.

Thos. Rieb and wife, of Cincinnati, were guests of Oatha Hubbard and wife, last Sunday a week.

Several chickens and other fowls were frozen to death during the cold snap, last week, in this vicinity.

Henry McKenzie, of Lyons, Indiana, has been visiting friends and relatives in this neighborhood, the past week.

The rains before the cold spell gave the farmers a chance to get their tobacco in order to bulk so they can strip it.

Some of the subscribers here want to know if the Courier-Journal goes with the Recorder as it did last year. [The C.-J. has increased its price to $1.—Ed.]

Those desiring to commence the New Year by subscribing for the Recorder, or renewing their subscription, may call on your correspondent and be receipted for same.

PETERSBURG.—Measles, like Gooch's syrup, is taken by everybody down this way.

L. R. Terrill has a fine lot of all kinds of young fruit trees for sale.

Big ball at Gordon's Hall, Christmas night. The best music on earth.

Daniel Kittle and Miss Artie Acra, will be married on the 24th inst.

J. M. Lassing, Edwin Gaines, sr. and T. G. Willis were among the visitors here, Saturday.

J. E. Hensley and Joe Snelling are feeding cattle at the distillery at Tiptonville, Tennessee.

It is reported that the Fleschmans, of Cincinnati, will build a large yeast factory at this place.

Frank Berkshire and wife, of Chicago, are spending the holidays with Frank's parents here.

Albert Hitchfield, who has been in Nebraska, for the last nine months, is at home to spend the holidays.

Will Grant and his uncle, Ed Grant, are up from Louisville to spend the holidays with their relatives here.

Leonard Ruth and Miss Blanch Evans, daughter of W. T. Evans, were married in Lawrenceburg, Sunday.

Prof. Nelson gave his pupils a treat, last Friday afternoon, and then dismissed them until after the holidays.

Sidney Pease, mate on the Workum, and Miss Myrtle Dean, of Lynchburg, Ohio, will be married on the 29th inst.

Hubert Walton and Wallace Grant will attend medical lectures in Louisville, beginning immediately after the holidays.

Henry Wilkins, General Superintendent of the Whisky Trust in the west, was registered at Hotel Crisler, Saturday and Sunday.

Mrs. Dr. J. M. Grant returned home, last Friday, after a visit of several months with her daughter, Mrs. Dunlap, at Peoria, Ill.

Clifford Terrill has returned home from an extended visit in the South, having taken in many of the principal cities in that section.

Chicken thieves got eight of Capt. Hyatt's fine Plymouth Rock hens, the other night. A few nights before they got all of J. E. Hensley's hens.

Claude Sleet, a prominent young man of Gallatin county, and Miss Mattie Gordon, a prominent young lady of this place will be married this week.

Dr. Tilley and Miss Anna Borrel, were married at East Enterprise, Indiana, on Nov. 29th. They returned to Petersburg, last week, and began housekeeping.

Walton, Holton and Terrill shipped a lot of nicely fatted cattle to the eastern cattle market, last Sunday night. They will make holiday meat for the Goulds and Vanderbilts.

RICHWOOD.—Jno. Harvey is working for O. F. Giacken.

Cora Carpenter is still improving.

Jno. B. Carpenter killed 14 hogs last Friday.

Mr. Andy Collins is still confined to his room.

Jessie Donnely killed eight quails at one shot recently.

Several are ready to put up ice, when it becomes thicker.

Gaines Robinson spent Sunday with Mr. and Mrs. Wm. Giacken.

Mrs. Sarah Robinson is confined to her room with a severe cold.

Mr. Harvey Hicks received a carload of clover hay here this week.

Another grandchild of Barnum's, of Banklick, died of the measles.

John T. Powers was kept busy for a few days rough shoeing horses.

Mrs. Kate Rice, of Walton, was visiting friends here, last Tuesday.

Chas. Wolfe was busy shoeing horses Monday, Tuesday and Wednesday.

Miss Ida Grubbs attended a card party at Erlanger, Tuesday night.

The blizzard struck us with a small coal pile and the woods a mile off.

John Clarkson, of Frogtown, took over 100 rabbits to town, Saturday.

Mrs. Wm. E. Giacken, who was taken suddenly ill last Saturday, is some better.

We wish the Recorder and all its recorded a merry Christmas and a happy new year.

Mr. and Mrs. M. Grubbs will hold their annual reunion at their home on Christmas day.

Miss Jean Chambers' school closed last Thursday, with an entertainment, for the holidays.

The customs of "ye olden times" are fast passing away—no parties or other holiday amusements to report.

Turkeys and eggs are high and scarce. The former are 15 cents a pound, and the latter, 30 cents a dozen.

Rigler & Schneider, of Erlanger, were the successful bidders on repairing and remodeling Excelsior Grange Hall.

Joseph Lail, who fell and injured his arm so severely, about a month ago in Covington, is still unable to use it.

Work on the Grange Hall will be begun as soon as the weather will permit, and will be pushed rapidly until finished.

Jasper Carpenter lost a horse a few days ago, at Thos. Dixon's. It got down in a stall and hurt itself internally and died a few days later.

Many attended the Stephens sale last Wednesday and report high prices and men in high spirits. Several wind jammings but no blood shed.

The cold snap bluffed the town hunters, but our rural sports are getting in their deadly work, and bunny with no head dangles from many a belt.

The extreme cold weather was hard on stock, as it came so suddenly that feed and shelter could not be prepared for them on such short notice.

Corn brought 82c a bushel; hay $14 a ton; brood sows, $18; sow and pigs, $17; Ollie Rouse's jack, "Honest Pat," was bid in at $455, at Ben Stephens' sale last Wednesday.

Two young men escaped an indictment by the grand jury on the good standing of their parents, but, they had better beware, for the next time they will not escape so easily.

We are to lose two of our best known young men in March. John Rice will go to Iowa to engage in business with his uncle, John Harvey; Claud will secure a position in town.

There is talk of a gun club being organized here to engage in some team shoots. The boys may be all right on quails and rabbits, but they had better practice on clay birds and pigeons at a distance of 27 to 30 yards, at unknown angles and then challenge.

The residence of the late Senator Conner will be sold at the Court House door, Jan. 6th, to settle the estate. It is an 11 room brick, with garden, orchard and lot comprising 7 acres in all. Its location on the pike and near the depot makes it a desirable piece of property.

John Robinson, of Covington, formerly of this place, has had a serious time with his hand. In a friendly scuffle with his brother he cut his hand and later he ran a rusty nail in the cut, which caused blood poison, and at one time it was thought that his hand would have to be amputated, but he is now some better.

Ten Belgian Hares were sold at Ben Stephens' sale. Mr. Thos. Flemming says that in California, where he has a sister living, that these hares are becoming a nuisance, and are over running the country. There is a law compelling people to keep them in an enclosure, and one woman has 300 that she cannot give away and is compelled to feed and keep them in a pen.

COUGHS AND COLDS IN CHILDREN.

Recommendation of a Well Known Chicago Physician.

I used and prescribed Chamberlain's Cough Remedy for all obstinate, constricted coughs, with direct results. I prescribe it to children of all ages. Am glad to recommend it to all in need and seeking relief from colds and bronchial afflictions. It is non-narcotic and safe in the hands of the most unprofessional. A universal panacea for all mankind.—Mrs. Mary R Melendy, M. D., Ph. D., Chicago, Ill. This remedy is for sale by all druggists.

For Sale or Rent.

Farm of 46 acres, good frame house of 6 rooms, new cellar barn that will stable 14 head of stock. Farm is well watered, and has 3 wells and 1 cistern. Buildings all in good repair. After the first of January, 1902, call on or address me at Lulow, Ky. B. S. CLORE.

Local News.

Yes, Christmas gift.

Plenty of zero weather this month.

Eleven below zero Saturday morning.

The snow was the savior of the wheat.

Conner & Hogan were receiving tobacco, Monday.

The weather melted the coal piles rapidly last week.

The schools closed Friday afternoon for the holiday vacation.

Wheu, O. when, did December put up such a supply of zero weather?

The turkey merchants struck bad weather with their Christmas stock.

The turkey merchants began to get a hustle on the latter part of last week.

Many birds were frozen to death during the severe weather of last week.

The world's best, the Garland at the Hunter-Harris Co., Rising Sun, Ind.

When in Rising Sun call and see the Garland Stoves at Hunter-Harris Co.

Chas. A. Gaines, the Idlewild turkey merchant had over 200 turkeys engaged for the holiday market.

The first prize was awarded the Garland Stoves at Paris Exposition. Hunter-Harris Co., agents, Rising Sun, Ind.

Each of the schools had appropriate holiday exercises on a limited scale, last Friday, before dismissing for the holidays.

Hubert Bachelor has purchased of W. T. Davis about 5 acres of land on Gunpowder creek, the Gus Weaver mill seat.

Rev. Sproles will preach for his congregation here next Sunday morning and evening at the usual hours, being a fifth Sunday.

Had there been plenty of water in ponds and creeks, the ice houses would now all be filled with a fine quality of congealed water.

The coal haulers had to put in some zero weather replenishing coal bins about town. Those short on coal you always have with you.

Blacksmiths had a harvest last week. The freeze-up caught all the horses in the county either without shoes or with very slick ones on their feet.

A change of about 50 degrees in the temperature from Saturday noon until Monday morning. This climate is becoming entirely too sudden.

Some of the skaters have been having considerable fun down on the creek. Large fires were kept going to keep the skaters from freezing.

In Lincoln County Jack Morrison, a schoolteacher, was convicted of kissing one of his young lady pupils. He was fined $10 and the trustees of the school immediately discharged him.

A meeting of tobacco growers was held in the Sheriff's office, Monday, and during the session O. P. Conner was called to the rostrum, when he explained to the audience the meaning of the phrase, "pluhooking."

Elmer Beall with shot gun and Charlie Westbay with fishing pole, make a team that the rabbits do not fear. They put in several days hunting last week, but their efforts along that line did not amount to much.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said, Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by all druggists.

Boone county guessers fared pretty well in the Enquirer's guessing contest. In looking over the list we find the following lucky guessers: Thos. Kennedy, Walton, $50; C. L. Griffith, Verona, $25; C. G. Riddell, Rabbit Hash, $15; R. A. Conley, Beaver Lick, $10. The following get $5 each, Jas. A. Smith, Gunpowder; O. S. Watts, Bullittsville; Malchus Souther, Constance; Wm. D. Cropper, Idlewild; H. Fisher and H. C. Holder, Walton; J. R. Clutterbuck and F. A. Hall, Burlington; C. A. Berkshire, Grant; J. F. McCormac, Verona.

What They Want in Their Sox.

O. J. Ryle, a new beef wagon.

Jack Sandford, a barrel of kraut.

Bert Rouse, anything good to eat.

Herbert Kirk, a lot of any kind of furs.

Clutterbuck Bros., a big holiday trade.

Chas. Fowler, a new stock of good stories.

Charles Westbay, a remedy that will thin his hair.

O. P. Conner, a set of each, checkers and chess men.

Col. Graddy, office of stamp deputy at Petersburg.

Jailer Adams, three or four special terms of Circuit Court.

W. E. Vest, several farms to sell on a 2 per cent commission.

Judge Roberts, a cistern that will hold water in dry weather.

Robert Wilson, a couple of tons of ice with which to keep oysters.

Elmer Beall, a dozen toy rabbits to practice on with his new gun.

B. W. Adams, a dish of cold, boiled cabbage and plenty of red pepper.

James A. Duncan, a lamb market in which there will be some profit next year.

Saw Death Near.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthama and all Throat and Lung diseases. 50c and $1 at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oelsner's, Florence; H. L. Eskew's, Walton; O. N. Grant's, Bellevue. Trial bottles free.

Personal Mentions.

Mr. J. W. Duncan is quite ill yet.

M. S. Rice, of Covington, was in town one day last week.

County Atty. Castleman was on the sick list a day or two last week.

Esq. J. C. Byland, of Walton, was among the visitors in town Monday.

Wm. Goodridge and J. R. Whitson, of Florence, were in town, Thursday.

Mr. Thos. Lasley, of Middlesboro, is a guest of his brother-in-law, O. P. Conner.

Everett Jones, of Idlewild, united with the Burlington Baptist church, last Sunday.

Judge Roberts and family eat Christmas turkey with relatives in Verona neighborhood.

Mrs Anna Bell Kirkpatrick spent Monday with her daughter, Mrs. H W. Ryle, of Erlanger.

Miss Artie Hughes will spend the holidays with her cousin, Mrs. Acklin Riggs, of Kenton county.

Mrs W. F. McKim and two sons came home from the city, last Saturday, to spend the holidays.

The Recorder wishes its patrons and friends, wherescever dispursed around the earth, a merry Christmas.

Misses Sadie and Lacy Kirtley, arrived home from Carrollton, last Saturday, to spend the holidays.

David Beall, of Hebron, was in town Monday, and reported considerable sickness in that neighborhood.

B. C. Graddy and wife are now at home to their friends in their commodious residence near Idlewild.

Mrs. Dudley Rouse spent two or three days, last week, with her sister, Mrs. F. P. Walton, in Cincinnati.

Mrs. F. A. Hall was visiting her sister, Mrs. W. F. Ashburn, at Mt. Adam, Ohio, two or three days, last week.

W. F. Grant, of the Gunpowder neighborhood, says the mercury stood at 14 degrees below zero at his house at 8 a. m., last Saturday.

Ira Pope, of East Bend neighborhood was in town Monday. It was plainly written in his countenance that he antic ipated lots of sport during the holidays.

It may rain, hail, snow, blow or get colder than zero, but Ed Corbin, the Florence butcher never misses his regular appointments at this end of his route

B. B. Hume, of Beaver, was attending to business in Burlington, Monday. It is understood that he will be a deputy sheriff under his uncle, B. B. Aliphin.

Our friend, John Moody, Jr., of Bellevue, was in town Monday, and from his maneuvers it is surmised he intends spending the holidays in a pleasant manner.

Many of the Burlington ladies went to the city last Friday and Saturday. The weather was most delightful for traveling, and they needed neither furs nor parasols.

James Jones, from down on Gunpowder, came to town, one day last week, with something in his eye that was causing him considerable pain. He called on Dr. Rouse, who gave him the desired relief in a few minutes.

Stephen Gaines, of Woolper Heights, was in town Monday, assisting his young friend, Richard Kittle, to secure the credeutials necessary to become a benedict. The ceremony was performed yesterday by Rev. J. A. Kirtley.

A. B. Rouse, Private Secretary to Congressman Gooch, arrived home from Washington, D. C., last Friday evening to spend the holidays. He is well pleased with the position he holds, and says Washington is as handsome a city as one should wish to see.

Some people say you would soon get use to zero weather, if continued for several weeks, and people wou'd soon be robed in summer apparel. The temperature coutinued at 100 and above for quite a period, last summer, and no one was heard of who became so use to it as to begin wearing winter clothing.

CLEGG-UTZ.

One of the most brilliant social events of the season occurred one day last week at the residence of E. F. Clegg, near Union, in honor of his son, Lewis Clegg, and bride, Miss Martha B. Utz. Their attendants were Miss Ella Tanner and Mr. Lewis Weaver.

The bride looked beautiful in a costume of dark blue with trimmings of pearl passementarie, while the groom was handsome in the conventional black. After congratulations were offered the guests retired to the dining-room where a bountiful supper awaited them. The table fairly groaned under the load of all the delicacies of the season.

Those present were, Rev. Slater, Mr. and Mrs. W. P. Utz, Mr. and Mrs. O. B. Utz, Mr. Mrs. R. O. Smith, Mr. and Mrs. H. F. Utz, Mr. and Mrs. W. N. Surface and Edward Beemon; Misses Ella Tanner, Addie Beemon, Lizzie Rouse, Elva Utz, Flora Rouse, Delle Utz, Edna Barlow, Eva Smith, Mary Barlow and Rachel Wilson; Messrs. Lewis Weaver, Herbert Rouse, Leslie Barlow, Eli Borders, Will Busby, J. E. Weaver, Harry Wilson, Harvey Rouse, Frank Smith, jr., Kirby Smith and Eugene Long.

The following presents were received: Parlor lamp, W. P. Utz and wife; Tea set, Eugene Long; Towels, Harry Wilson, Salad dish, Ella Tanner; Pillow cases, Mrs. Geo. Barlow; Towels, Lewis Weaver; Berry dish, Frank Smith; Vinegar set, Mrs. Stuntebeck; Towels, Herbert Rouse; Glasses, Mr. and Mrs. R. O. Smith; Rocking chair, Mr. and Mrs. E. F. Clegg; Towels, Geo. Barlow; Lemonade set, J. E. Weaver; Bed spread, Mr. and Mrs. J. M. Utz; Water pitcher, Eva Smith; Sofa pillow, Elva Utz; Table cloth, Mr. and Mrs. O. B. Utz; Parlor lamp, W. N. Surface and wife.

O. B. Utz and wife entertained the young couple handsomely the following day.

Food Changed to Poison.

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles. Only 25c at W. F. McKim's, Burlington; Union Drug Store, Union; J. G. Oelsner's, Florence; H. L. Eskew's, Walton; O. N. Grant's, Bellevue.

NEIGHBORHOOD NEWS.

VERONA.—We had some severe winter past week. Mercury stood 10 below zero Friday and Friday night.

There will be no entertainment of any kind here during the holidays.

Butler Myers has accepted a position at Cincinnati as steel spring grinder.

There is none reported seriously ill in the many cases of measles in our vicinity.

Mrs. Bettie Hamilton, who, after having the measles was attached with pneumonia, is reported improving.

We wish the Editor, correspoudents and readers of the Recorder, a merry Christmas and a profitable new year.

The remains of Mrs. Mary McPherson, of Grant county, were brought here and buried in New Bethel cemetery, last Thursday.

GRANDMA'S CHRISTMAS

I'VE scarcely done a stitch of work
The whole delightful day;
I'm just too proud to settle down
Into the old time way.

'Tis grandma's Christmas from the boys;
It makes me young again,
With all the little ones at play,
And ne'er an ache or pain.

First came Dan's Nell, with precious gifts
From all the neighbors near;
Each sent a note with wishes sweet,
'Twould ♥ you good to hear.
This easy-chair's from Brother Tom;
Jack sent this fur-lined hood;
And here's Bob's check from Michigan,
For winter's coal and wood.

And let me see—gold spectacles!
From Dorothy, Dick's lass;
They say she's famous as a belle—
To think it's come to pass
That Dick, my boy, my youngest one,
Forever swapping things,
Should be a magnate in the land,
One o' them railroad kings.

This box is labeled "from the kids"—
They live in Idaho—
A pair of silver candlesticks!
I wonder if they know
How often by the hickory fire
I've spun both wool and thread,
And only lighted candles when
We went upstairs to bed.

They never in their modern home
Worked as their grandpa did,
Who wore the sheep's rough skin and wool,
And dined upon the kid;
They want me, too, but bless their hearts,
I couldn't live their way;
I'm used to this old fireplace,
And here I mean to stay.

I'm used to every homely thing
Hallowed by smile and tear;
I couldn't leave to stranger hands
What love has made so dear;
I'm fond of my old rocking-chair,
Though brother's gift is fine,
For there'one laid the silver hair,
That changed as fast as mine.

And down the road a little way,
Then up the hillside steep,
I almost see the granite cross
Where "father" lies asleep.
So here I rest and haply, when
Old Santa comes this way,
He brings a whole year's happiness,
Wrapped in a single day.

—Mary A. Denison, in Ladies' World, New York.

A Belated Christmas.

By Arthur Lewis Tubby.

"NO, I AIN'T going to make any Christmas," said Mrs. Bennett, decisively, as she poured out her husband's second cup of tea. "The Lord ain't good to us, and I don't feel called upon to act as if I thought He was."

"Why, Hannah, how you talk," and Samuel Bennett set his cup down so suddenly that some of the tea spilled over upon the table. "It sounds kind o' sacrilegious."

"I can't help it if it does. There! you've slopped your tea on the tablecloth. Why ain't you careful?"

"You kind o' s'prised me, sayin' that, and—"

"Surprised you, did I?" and Mrs. Bennett wiped up the spilled tea with a cloth taken from the sink near at hand. "I don't know's I said anything so very terrible. I guess it ain't no worse than actin' out a lie, tryin' to have a Christmas when you don't feel it."

"But the Lord is good to us, Hannah. They's a lot of folks worse off'n we be."

"Then I'm sorry for 'em, Sam Bennett. Look at us. We ain't had nothing but bad luck this whole year Don't talk to me. It's settled."

Samuel Bennett knew his wife too well to argue the question, so he left her and went out to do the "chores," while she went glumly about the task of washing the supper dishes. But in the old man's heart, as he went out to feed the cow and fix the mare's stall for the night, was the lonely feeling of a disappointed child. He liked Christmas. He had always looked forward to it with pleasurable anticipation, although for many years the day had not meant so very much to him. But he had taken delight in trimming up the plain rooms of the little farmhouse with evergreens, and he always had managed to give Hannah a little present, while she had never failed to remember him with some useful product of her own hardiwork. But these humble gifts were real treasures to him, for he measured them in love's own balance, and their brightness was a reflection of the effulgent Christmas glory. He and Hannah were alone in the world, their only child having died in infancy. But they had been happy together and fairly prosperous, until within the past year.

During this time, Samuel, as he expressed it, had "lost his holt." One thing after another had happened to discourage him and set him back. First, his horse died, leaving only the rather decrepit old mare to help him in his field work; then crops had failed. Never before had his few acres of ground yielded so sparingly, and the fruit trees were never so barren. Along about harvest time, as if to complete his misfortune, he was taken ill and for weeks was unable to work, while a doctor's bill accumulated. He was obliged to hire a man to do the work, and the farm produced hardly enough to pay for those services. This had all put him behind, and now, in the latter part of December, he seemed to have every reason to be discouraged. But it was Hannah who had given up. He would still have been hopeful and looked on the bright side, but for her. She grumbled.

"I feel awful kind o' bad not to have any Christmas," confided Samuel to the mare, as he laid the straw for her bed. "I know things ain't so bright, but Hannah hadn't ought to feel so. It might be worse. I guess we can pull through. But then, it'll have to be as Hannah says. If she won't have no Christmas, I can't." He felt like crying in his disappointment. Samuel Bennett was old enough to be getting a bit childish.

In the house, Mrs. Bennett was putting away the supper dishes in no amiable frame of mind. "I don't care," she muttered, "what he thinks. I ain't said a word but the truth. How we'll ever get along this winter, I don't know. Starve, mebby. The idea o' making a fuss about Christmas when you ain't got a thing cheerful to look ahead to! No, I ain't a-going to do it. Sam can make the best of it. I mean what I say."

JUST LIKE SANTA CLAUS.

That evening there was nothing further said about Christmas between the farmer and his wife. By nine o'clock they were in bed. It was Tuesday night and Thursday would be the holiday. As he lay there, Mr. Bennett wondered what he should do with the 50 cents which he had saved up to buy his wife a present. With no Christmas, of course there could be no present. He fell asleep, saddened by the thought.

The day before Christmas was bright and clear. There had been a generous fall of snow during the night and everything out of doors was covered with the pure white mantle. Samuel Benuett was out shoveling paths when the expressman drove along, with a well-filled sleigh.

"Hello, there!" shouted the driver, cheerily. "Merry Christmas, Sam! It's a little ahead of time, I know, but I may not see you again."

"Thanks. The same to you," answered Samuel, leaning on his snow shovel. "Got lots of bundles, ain't you?"

"Yes; everybody's got something."

"That so? Ain't come to ours yet, have you?" The poor old man chuckled at his own pitiable little attempt at a joke.

"No, not yet," was the merry answer from the sleigh. "I'll bring that around to-morrow, most likely. Well, good-by. G'lang!" and on sped the sleigh with its jingling bells.

"I guess he won't, though," mused the other, as he fell to work shoveling again. "Taint likely we'll get anything. There ain't nobody to send it to us, that I know of."

And Hannah, looking out of the window, echoed his thought with one still more doleful.

"Everybody'll get scmething but us," she mused. "I guess Christmas was intended for rich folks. Nobody gets that ain't got."

That afternoon about three o'clock, a muffled-up little form trudged through the snow and up the road to the Bennetts' farmhouse.

"Why, Amy Darrow, what you doing here in all this snow?" exclaimed Mrs. Bennett, as she opened the door and saw the little girl standing on the steps. "Come right in before you freeze."

"Oh, Mis' Bennett," said the shivering child, in a voice choked with tears, "won't you come right over to our house? Ma's awful sick."

"Is that so? What's the matter? Yes, I'll go right over."

"It's one of her bad spells, only worse," wailed Amy. "She says she don't know but she'll die."

"Oh, I guess it ain't as bad as that," said Mrs. Bennett, kindly. "Don't you be scart, Sam!" She was at the woodshed door now. "Hitch up the mare right off. I've got to go over to Mis' Darrow's. She's sick."

Samuel dropped an armful of wood and hastened toward the barn. In less than 15 minutes the old-fashioned cutter was at the door, Amy was tucked in between the farmer and his wife, and they were off as fast as the wheezy mare could conveniently carry them. Mrs. Bennett had her medicine bottles under her shawl. She was said by her neighbors to be "about as good as a doctor."

The Darrows lived half a mile or more from the Bennetts, farther on away from the village, which was nearly two miles from the Bennett farm. Mrs. Darrow was suffering from a chill when her neighbor entered, and there was no fire in the house. Two children, smaller than ten-year-old Amy, were shivering on the bed with their mother.

"Ain't there no fire?" exclaimed Mrs. Bennett. "My sakes! This weather, too."

"I couldn't cut the wood," said Amy. "It's all big sticks!"

Mrs. Bennett lost no time in giving the sick woman some of her home-made cordial, and Samuel soon had a fire blazing in the kitchen stove. The heat gradually crept into the adjoining bedroom.

"You're so good," sighed the poor woman on the bed. "I felt so bad I had to do something, and there wasn't a thing but to send for you, Mis' Bennett. It was so far to go for the doctor, and—"

"Which wasn't necessary," interrupted Mrs. Bennett. "I guess you feel some better now, don't you?"

"Yes; that medicine seemed to start my heart again. I thought it would just stop beating, one spell."

"I guess you'll be all right now," said Mrs. Bennett, comfortingly. Her naturally kind heart had been touched by the sight of some one else in distress, and she forgot herself in ministering to another.

"It was good of you to come over," continued Mrs. Darrow. "I'm afraid it will spoil your Christmas. You must have been getting ready for it, seeing it's Christmas eve."

"Don't you worry. It ain't bothering me a bit," responded Mrs. Bennett.

But something was bothering her. It was something in her heart that almost sent a moisture to her eyes. But she choked it down.

"You need something to eat," she said, "some tea and toast. And these children must be half starved."

"I'm afraid there ain't much to get," said Mrs. Darrow, feebly. "I don't know as there's anything but a little bread."

"Well, that'll make toast."

Mrs. Bennett knew that Widow Darrow was poor, but she never had known that the family were so destitute as she found them to be, this day before Christmas. "It's dreadful," she thought, as she searched the bare cupboard. "They're jest starvin'." A moment later she was saying privately to her husband: "Sam, you go home and get a loaf of bread and some of that tea. Then you get a pat of hutter and a little ham and hurry right back with it. They're all starvin', sure's I'm born. I guess that's what ails Mis' Darrow. Now you hurry."

"Yes, Hannah."

The old mare seemed to realize that she was on an errand of mercy, and actually quickened her pace.

It was not long before Mrs. Darrow had her toast and tea, and the children were enjoying what to them was a bountiful feast. It was dark when Mr. and Mrs. Bennett left for home. As they were riding along, Mrs. Bennett said:

"Sam!"

"Yes, Hannah."

"Them children have hung up their stockin's."

"Have they? Poor little things!"

"But, Sam, there won't be anything in 'em. They think there's a Santy Claus."

"I wish there was," sighed her husband.

"But there ain't," answered practical Mrs. Bennett, "and there won't be one thing in them stockin's, unless it's holes. Mis' Darrow cried about it. It's too bad."

There was silence for a moment, then Mrs. Bennett continued:

"Sam, there must be something put in 'em."

"How can they, Hannah?"

"Well, I guess there can. You go down to the store and get something. I guess we can spare a little."

"I've got—" Samuel interrupted, and then he paused, almost afraid to tell the rest. He had always been a bit afraid of his wife.

"Well, what have you got?"

"Fifty cents, Hannah. I kind o' saved it up, along, to buy you a—a Christmas present, but—"

"I don't want no present. That'll buy some candy and a few trinkets for them children. Then, while you're gone to the store, I'll pop some corn, and there's some red apples. You can go over and fill them stockings."

"Jest like Santy Claus," said the old man, delighted. The thought warmed his kind old heart anew, and the Christmas spirit within him began to revive. That evening, tremulous with joy, he filled the little stockings that hung in a row in the bare kitchen of the Darrow house; left a whole pumpkin pie in the cupboard, and went home, leaving a promise to come again in the morning and see how the mother and children were getting along. Mrs. Darrow was much better. She said she thought she would be able to get up in the morning.

Christmas morning, as soon as they had had their breakfast, Mr. and Mrs. Bennett again drove over to the Darrows'. They found the mother sitting up, happy with her children over their humble gifts. They had been sure that Santa Claus would bring them something, and he had not betrayed their childish confidence.

"I declare," said Samuel Bennett, when he and his wife were again in the cutter, on their way home, "it seems kind o' Christmasy, after all."

"I don't know but it does," admitted Hannah. "I've kind o' made up my mind we ain't the worst off ever was, after all."

She was learning the true lesson of Christmas time—that it is doing for "the least of these" that gives the deepest joy. But she was still to find the fuller happiness of that Christmas day.

"Land!" she exclaimed, as they neared the house. "There's the expressman in front of our gate. What can he want?"

"I don't know," replied Samuel. "It can't be anything for us."

But it was.

"I brought your package," called the expressman, "only it's a box."

The mysterious box was soon carried into the house and opened. It was generous in size, and as the cover came off it was found to be well filled.

"Here's a letter, Sam. Open it."

Samuel Bennett opened the letter, which bore his name, and read it wonderingly. It said: "Dear Uncle: I guess you have forgotten me, but I am still alive and prosperous. As Christmas approached, I thought of you and Aunt Hannah, as the only living relatives I have, and I send you something to make you think of me." There was further explanation, and then the letter ended with: "Now, Uncle Samael, if you need any assistance, let me know. I shall be glad to help you. I have plenty and to spare, and if I can do anything for you it will be a blessing to me. Write to me soon. Your affectionate nephew, John Bennett."

"My brother Henry's boy," said Samuel. "I never knew what had become of him. Ain't it queer?"

"Queer?" said Hannah, feelingly. "I call it a Godsend. And to think I grumbled and found fault with the Lord. Wasn't I wicked?"

And then she sat down and began to weep.

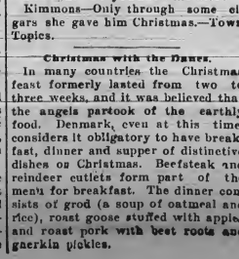
"Don't, Hanna! 'Tain't nothin' to cry over. You didn't mean it, and the Lord'll forgive you. Let's take the things out of the box."

There were many beautiful gifts for both of them, John Bennett had shown his liberality when he packed the Christmas box.

"Sam," remarked Mrs. Bennett, when they had examined and wondered at the last article, and the box had been removed to the woodshed, "I wonder if you couldn't go and get a few evergreens. We might trim up a little."

"Of course, I could," answered Samuel, radiantly. "It ain't far to the woods, and the snow ain't deep there. I could get some in no time."

"Then you get some. And while you're gone, I'll go to work and get the best dinner I can. We'll have a Christmas, if it is a kind of a late one."



"Oh, Hannah," cried the delighted old man, with a suspicious shake in his voice, "you make me so happy."

"I feel that way myself, Sam," she replied.

Then she did something which she had not done before in many years. She went up to her husband and kissed him. He, surprised into silent ecstacy, blushed like a boy, as he went out after the evergreens.

That kiss was the sweetest Christmas gift he had ever received.—N. Y. Observer.

NOT FAVORABLY IMPRESSED.

Simmons—Do you know his wife?
Kimmons—Only through some cigars she gave him Christmas.—Town Topics.

Christmas with the Danes.

In many countries the Christmas feast formerly lasted from two to three weeks, and it was believed that the angels partook of the earthly food. Denmark, even at this time, considers it obligatory to have breakfast, dinner and supper of distinctive dishes on Christmas. Beefsteak and reindeer cutlets form part of the menu for breakfast. The dinner consists of grod (a soup of oatmeal and rice), roast goose stuffed with apple, and roast pork with beet roots and gaerkin pickles.

THE BEET-SUGAR INDUSTRY.

Messrs. Oxnard's and Cutting's Views on the Subject.

The following editorial appeared in the New York Evening Post of December 12 last, and as every household, in fact, every man, woman and child is interested in sugar, it being one of the most important articles of daily food, our readers will thank us for reproducing this highly-interesting editorial:

The Evening Post bids the heartiest welcome to every American industry that can stand on its own bottom and make its way without leaning on the poor rates. Among these self-supporting industries, we are glad to know, is the production of beet-sugar. At all events, it was such two years ago. We publish elsewhere a letter written in 1899, and signed by Mr. Oxnard and Mr. Cutting, the chiefs of this industry on the eastern side of the Rocky mountains, showing that this was the happy condition of the trade at that time. If parties masquerading as beet-sugar producers are besieging the president and congress at this moment, and pretending that they will be ruined if Cuban sugar is admitted for six months at half the present rates of duty, their false pretenses ought to be exposed.

The letter of Messrs. Oxnard and Cutting was probably written for the purpose of inducing the farmers of the Mississippi valley to go more largely into the cultivation of beets for the sugar factories. This was a laudable motive for telling the truth and showing the large profits which awaited both the beet-grower and the manufacturer if the industry were perseveringly and intelligently prosecuted. To this end it was pointed out that farmers could clear $65 per acre by cultivating beets, and might even make $100. But in order to assure the cultivator that he would not be exposed to reverses by possible changes in the tariff, they proceeded to show that the industry stood in no need of protection.

The beet-sugar industry, these gentlemen say, "stands on as firm a basis as any business in the country." They point out the fact—a very important one—that their product comes out as a finished article, refined and granulated. It is not, like cane-sugar grown in the West India islands, a black and offensive paste, which must be carried in wagons to the seaboard and thence by ships to the United States, where, after another handling, it is put through a costly refinery, and then shipped by rail to the consumer, who may possibly be in Nebraska, alongside a beet-sugar factory which turns out the refined and granulated article at one fell swoop. Indeed, the advantages of the producer of beet-sugar for supplying the domestic consumption are very great. We have no doubt that Messrs. Oxnard and Cutting are within bounds when they say that "sugar can be produced here cheaper than it can be in Europe." The reasons for this are that—

"The sugar industry is, after all, merely an agricultural one. We can undersell Europe in all other crops, and sugar is no exception."

It follows as naturally as the making of flour from wheat. If we can produce wheat cheaper than Europe, then naturally we can produce flour cheaper, as we do.

But the writers of the letter do not depend upon *a priori* reasoning to prove that they can make sugar at a profit without tariff protection. They point to the fact that under the McKinley tariff of 1890, when sugar was free of duty, the price of the article was 4 cents per pound. Yet a net profit of $3 per ton was made by the beet-sugar factories under those conditions, not counting any bounty on the home production of sugar. They boast that they made this profit while working under absolute free trade, and they have a right to be proud of this result of their skill and industry. Many beet-sugar factories had been started in bygone years, back in the sixties and seventies of the nineteenth century, and had failed, because the projectors did not understand the business. Since then great progress has been made, both here and abroad, in the cultivation and manipulation of the beet. What was impossible thirty years ago is now entirely feasible. The industry is already on a solid and enduring basis. There are factories in the United States, these gentlemen tell us in their letter, capable of using 350,000 tons of beets per annum at a profit of $3 per ton, and this would make a profit of $1,050,000 as an income to be earned under absolute free trade.

It must be plain to readers of this letter, signed by the captains of the beet-sugar industry, that the people in Washington who are declaiming against the temporary measure which the president of the United States urges for the relief of the Cuban people are either grossly ignorant of the subject, or are practising gross deception. The terrible ground for them is to say: "Other people are having protection that they do not need, and therefore we ought to have more than we need." This would be consistent with the letters of Messrs. Oxnard and Cutting, but nothing else is so

Kid gloves will not mold if packed away carefully in a dry place.

ALL SORTS.

To restore color to silk when it has been taken out by acid, apply to the spot a little hartshorn or sal volatile.

Last year's production of gold was $68,000,000 less than that of the preceding year.

The five shillings has become rare.

Amos Rusie, who stopped making baskets at $12 per week to become a professional baseball pitcher at $150 a week during the season, is now earning $1.50 a day by digging trenches for waterworks in Muncie, Ind.

CONGRESS ADJOURNED

Will Reconvene Again After the Holiday Season.

Bill to Revive the Grade of Vice Admiral and Appointing Adms. Schley, Sampson and Clark to That Rank.

Washington, Dec. 18.—Senate—Senator Frye Tuesday introduced a joint resolution authorizing the president to invite the king of Siam to visit the United States. An appropriation for his majesty's suitable entertainment is provided, but the sum is left blank for the present.

House—The bill to provide temporary revenues for the Philippine Islands was debated in the house Tuesday. The following bills and resolutions were introduced: Authorizing the payment of per diem pensions to all officers and enlisted men of the United States army who served in the civil war; applying the principle of the oleomargarine law to shoddy woolen goods. It provides that all manufacturers of shoddy goods shall tag them in plain letters and figures showing the percentages of wool and of shoddy. Tailors and clothiers are required to tag all garments so as to show the percentages of wool and shoddy; making the birthday of William McKinley, January 29, a national holiday; providing for the retirement of Hawaiian coinage and currency.

Washington, Dec. 19.—Senate—Among the bills introduced Wednesday were two by Senator Nelson providing for industrial schools. The first of these authorizes the appropriation of money for the establishment of schools for the industrial education of the youth of the country in every county of over 5,000 population in each state of the union. The second provides a system of education for the territories, including the recently acquired islands. For this system of schools $1,000,000 is suggested for the District of Columbia and $15,000,000 for Porto Rico and the Philippines and the territories. Among the other bills introduced was one by Senator Penrose levying a duty of 25 per cent. ad valorem on all importations of unmanufactured silver. A preamble to the bill declares it to be the purpose of the measure to protect the silver mining industry of the United States.

House—The bill to provide revenue temporarily for the Philippine islands passed the house by a vote of 163 to 128. Five republicans—Messrs. McCall (Mass.), Littlefield (Me.), Heatwole, Eddy and Stevens (Minn.)—voted with the democrats against the bill, and three democrats—Messrs. Robertson, Davey and Broussard (La.)—voted with the republicans for it. Representative Wood (Cal.) introduced a bill to establish a department of mines and mining.

Washington, Dec. 20.—Senate—Senator Penrose (Pa.) Thursday introduced a bill providing that the grade of vice admiral in the navy be revived and authorizing the president to appoint William T. Sampson, Winfield S. Schley and Charles E. Clark vice admirals, in recognition of special gallantry in war. A bill to pension Mrs. McKinley, widow of President McKinley, was introduced. It provides that she shall receive an annual pension of $5,000, and that this pension shall date from the 14th of September, 1901. A bill was introduced by Mr. Mitchell fixing $2 as the minimum rate of wages to be paid to women in the employ of the government. Adjourned until January 6, 1902.

House—Before the house adjourned over the holiday recess a special order was made for the consideration of the Nicaragua canal bill, beginning on Tuesday, January 7, and to continue until the bill is disposed of, the order not, however, to interfere with revenue or appropriation bills. The session of the house was brief, the major portion of the time being occupied by Mr. Dearmond (Mo.) in making a personal explanation regarding reports circulated in his district concerning his course in the rural free delivery. Adjourned until January 6, 1902.

REMOVED FROM OFFICE.

Geo. W. Whitehead Will Succeed Appraiser of Merchandise Wakeman.

New York, Dec. 21.—W. F. Wakeman, appraiser of merchandise of the port of New York, has been removed from office by order of President Roosevelt. Alfred W. Brown, the appraiser of merchandise at the port of Boston, has been ordered to New York to take charge of the appraisers there, pending the nomination of Mr. George W. Whitehead to succeed Mr. Wakeman.

Slot Machines in Omaha.

Omaha, Neb., Dec. 20.—The grand jury Thursday voted true bills against 148 business men and others for keeping and maintaining gambling devices. The indictments are based on slot machines, and include prominent hotels, two political clubs, a score of druggists, and over a hundred cigar stores and saloons.

Philippines Customs Revenue.

Washington, Dec. 20.—The division of insular affairs of the war department has issued a statement showing that the customs revenues in the Philippines for the nine months ended September 30, 1901, were $6,275,295, as compared with $5,484,920 for the same period of 1900, and $3,462,128 for 1899.

Hay Will Remain in the Cabinet.

Washington, Dec. 21.—Secretary Hay will not resign from the cabinet, President Roosevelt has emphatically told him his services were absolutely necessary to the administration, and that his resignation would not be considered or even listened to.

William McKinley Fellowship.

Montreal, Dec. 21.—The American residents of Montreal have subscribed a fund of $9,000 for the foundation of a fellowship on political economy at McGill university to be known as the William McKinley fellowship.

BETHLEHEM A CHRISTMAS CAROL

Words by FRANK B. WELCH, Author of "An Easter Anthem," Etc.

Music by PAUL P. ARMSTRONG, Composer of "Salvation," "Light of My Life," Etc.

Some Memorable Christmas Seasons in American History

CHRISTMAS, the birthday of the Prince of Peace, has, in many ways, been a remarkable day in American history. Not that it has been a day remarkable for its history-making events, for almost any other holiday of the year would probably show a greater number of important happenings to take them throughout the historical period of the American colonies and the American nation, but the historical events of Christmas have helped to make the peace history rather than the war history of our country.

In our hundred and a quarter years of existence as a nation we have had our full share of war, but throughout all of our wars we have fought scarcely one battle, that might be called an important engagement, upon Christmas day. Of the few Christmas-day battles the most important one was the bombardment of Wilmington, S. C., by the combined forces of Admiral Porter and Gen. Butler, on December 24 and 25, 1864. In that battle the attacking force was repulsed.

Beginning away back in the early colonial days and following the history of the day down to recent years we find many incidents that mark Christmas as a day of peace, a day celebrated by the American people in keeping with the life and work of Him for whom it is kept, and whose birth it commemorates.

The Pilgrims at Plymouth did not land on Christmas day, but four days before Christmas, in order that they might better keep the holy festival and give thanks upon that appropriate occasion for their arrival in the new land to which they had come. They were a peace-seeking people; they had crossed the ocean in quest of peace, and it was at the Christmas season that they first found it in the new land.

Another memorable Christmas season in American history that proclaimed "peace on earth, good will to men," was that of 1783, when on December 23 Gen. Washington reported to congress at Annapolis the completion of the task assigned him, and surrendered his commission as general in chief of the American armies. It was the final act in that long struggle for our independence, and it came at an appropriate time, at a time when the thoughts of the world turn naturally to peace. Significant and impressive as was the simple ceremony in which the great soldier and patriot figured as the central figure, it was made the more so because of the time of the year at which it was enacted. Peace came as a blessing to the nation, and it came virtually upon the birthday of the Prince of Peace.

In the following year, in the same state of Maryland, but at Baltimore instead of Annapolis, came another incident in the peace history of America when on Christmas day was formed the Methodist Episcopal church in the United States. Previous to that time the church had been represented by ministers of the Gospel scattered throughout the different colonies, but they had no central organization. It was this organization, an organization that has since carried the message of "peace and good will" to nearly all the nations of the world, which was perfected December 23, 1814. It was an appropriate day for such an event, and it was an appropriate event for the day.

As the surrender by Washington of his commission was practically the last incident of the revolutionary war, so did the signing of the peace treaty at Ghent, Belgium, mark the close of our second war with England. The second, like the first, came at an appropriate time, December 24, 1814. Thus two of our great wars closed just as the Christmas bells were proclaiming to the world.

Practically the final act of our great civil war was the announcement of amnesty to all those who had waged war against the government. President Lincoln had issued two proclamations of amnesty that restored but certain portions of the members of the southern armies and the southern governments to citizenship, and the final and general one, came from the hand of President Johnson on December 25, 1868. It was an appropriate observation of the day, and an epoch marking event in American history.

And so it is that Christmas has been to us as a nation a day of peace as it should be for all time, and to all the world.

WRIGHT A. PATTERSON.

THE NEW PRINCE OF WALES.

His Attempt at Oratory in His Guild Hall Speech Calls Forth Favorable Comment.

The evolution of the prince of Wales from a sailor into an orator causes more comment and satisfaction than any event of the week. His Guild Hall speech was perfectly free from that platitudinous element usually noticeable in royal utterances in England. His declaration that the old country must wake up if it wanted to hold its own almost took his hearers' breath away, but it has produced in all sections of the press praise quite untainted by servility. It is probable that the prince was not entirely responsible for the construction of the speech, as he used copious notes. Yet his delivery, earnestness and willingness to commit himself to such sentiments have raised him higher in the estimation of the people than any previous action. Indeed, several of the papers declared that the elocution of Lord Salisbury, Lord Rosebery and Mr. Chamberlain fell quite flat after the prince of Wales' effort. "Unquestionably the best speech delivered at the breakfast," is the Spectator's comment.

"He used his opportunity by saying things of distinct political import, constitutional propriety being none the less punctiliously saved."

HAS MOTHER-IN-LAW STORY.

Rockefeller, Jr., Thus Early in His Married Career, Gets Off a Popular Witticism.

John D. Rockefeller, Jr., was the principal speaker at the annual dinner of the Young Men's Bible Class. Mr. Rockefeller, who has only been married a few weeks, made so bold as to talk of women and mothers-in-law. He was the last speaker, but he was loudly applauded. Mr. Rockefeller told this mother-in-law story:

"A young man and his wife had lived for years, and not always pleasantly, with the wife's mother. At last the old lady died—or, at least, they thought she had died. The pallbearers carried her coffin down the front steps and one of them slipped. The coffin struck a tree, the lid came off, and then it was found that the mother-in-law had not died at all, but was only in a trance.

"Well, she lived for some years after that, and then she died again—this time permanently. And as the pallbearers approached that same tree at the foot of the steps the young man stopped weeping, turned to the man who had slipped, and whispered: 'Be careful, Sam; don't slip this time.'"

Lord's Prayer Forbidden.

Attorney General Douglas has upheld a ruling of former Attorney General H. W. Childs in an opinion given to State Superintendent Olson that under the state constitution the Lord's Prayer cannot be used in the public schools. This ruling is because of section 16, article 1, of the state constitution, which says: "Nor shall any man be compelled to attend, erect or support any place of worship." The question came to Superintendent Olson, of the department of public instruction, from a school director of Pierz, Morrison county, Minn.

Trials of Christmas Turkey.

Corn is becoming so valuable, says the Chicago Record-Herald, that the Christmas turkey may as well prepare to be fattened on something else.

The "White House" Now.

It may have struck you also, says the Chicago Tribune, that he didn't call it "executive mansion," but "white house."

SYRUP OF FIGS

Acts Gently;
Acts Pleasantly;
Acts Beneficially;
Acts truly as a Laxative.

Syrup of Figs appeals to the cultured and the well-informed and to the healthy, because its component parts are simple and wholesome and because it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance. In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially.

To get its beneficial effects—buy the genuine—manufactured by the

CALIFORNIA FIG SYRUP CO.

San Francisco, Cal.

For sale by all druggists. Price fifty cents per bottle.

LADIES GO FROG HUNTING.

It Is a Favorite Amusement of French Women at Constantinople.

One of the favorite amusements of French ladies at Constantinople is frog hunting, says the London Telegraph. A large party is organized, the ladies all appear in dainty Parisian toilettes, with very high heels to their boots, and each carries a long bamboo rod. The gentlemen are got up in proper costume for "la chasse" and bear sticks. Then they all adjourn to some marshy spot where frogs abound and begin fishing. The bait is a piece of raw meat tied to a string at the end of the bamboo.

The ladies do the fishing, and as soon as one sees that a frog has swallowed the bait she gives a violent jerk to the rod, which brings the frog out onto the land. The attendant sportsmen then fall upon the ferocious animal and slay it with their sticks. The ladies sometimes also join in the last fatal act, but the men always try to dissuade them, as in their excitement they frequently mistake a man's head or foot for the frog and the sport becomes too dangerous.

Look at the Labels!

Every package of cocoa or chocolate put out by Walter Baker & Co. bears the well-known trade-mark of the chocolate girl, and the place of manufacture, "Dorchester, Mass."

Housekeepers are advised to examine their purchases, and make sure that other goods have not been substituted.

They received three gold medals from the Pan-American exposition.

Inconsistency.

Brown—It's curious about people's beliefs. They will give entire credence to the most absurd things, and put no faith whatever in the most obvious truths.

Black—Yes, I've noticed it. There's Green, now. He hasn't the least confidence in hash, but he'll eat all the croquettes and mince pie you can set before him.—Boston Transcript.

Best for the Bowels.

No matter what ails you, headache to a cancer, you will never get well until your bowels are put right. Cascarets help nature, cure you without a gripe or pain, produce easy, natural movements, cost you just 10 cents to start getting your health back. Cascarets Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

Advancing.

Tourist—Are the Indians around here making any progress?

Westerner—Sure! Their medicine man is a patent-medicine man.—Puck.

Stops the Cough and Works Off the Cold,

Laxative Bromo Quinine Tablets. Price 25c.

We all know how unselfish we are when it is a question of our telling people things for their good or of keeping still for our own.—N. Y. Sun.

What is the use in employing some one to do your dyeing for you. If you use PUTNAM FADELESS DYES you can do it just as well as a professional.

The C., H. & D. Ry. Co., will sell tickets at greatly reduced rates, account of the Holidays, on December 24th, 25th, 31st and January 1st. All tickets will be good returning, to and including, January 2, 1902.

Sarcasm—Mrs. Fuss—"I have kept my last hired girl a month!" Mrs. Flip—"Dear me! Do you keep her locked up?"—Ohio State Journal.

Love is not necessarily a plant of slow growth, but many a mushroom of this kind has turned out to be a toadstool.—Puck.

JUST THINK OF IT!

FARMS IN WESTERN CANADA FREE

Every farmer his own landlord, so enormous are the increases, his best account increasing year by year, land also increasing, stock increasing, splendid climate, excellent schools and churches, low taxation, high prices for cattle and grain, low railway rates, and every possible comfort. This is the condition of the farmers in Western Canada—Province of Manitoba and districts of Assiniboia, Saskatchewan and Alberta. Thousands of Americans are now settled there. Reduced rates on all railways for homeseekers and settlers. New districts are being opened up this year. The new forty-page ATLAS OF WESTERN CANADA and all other information sent free to all applicants. J. PEDLEY, Superintendent of Immigration, Ottawa, Canada, or to JOSEPH YOUNG, 315 State St., East, Columbus, Ohio; E. T. Holmes, Room 4, Big Four Bldg., Indianapolis, Ind.; Canadian Government Agents.

WHEN WRITING TO ADVERTISERS please state that you saw the Advertisement in this paper.

HAZARD GUN POWDER

BOTH

BLACK AND SMOKELESS

When ordering BLACK or SMOKELESS, loose or in cartridges, from your local or distant merchant, or paper or metallic shot or rifle cartridges from any of the loading companies, specify and insist on having Hazard powder, declining to accept any other brand as a substitute; then if they have none in stock, they will obtain it, and with it you will do better shooting than ever before.

"THE CLEANER AND QUICKER THE POWDER, THE GREATER NEED FOR HEAVY WADDING BEHIND THE SHOT. THE HAZARD WADDING, THEN OF COURSE, TURNING FROM A RUN YOU WILL HAVE EARN INSTEAD OF LOSING TO OTHER YOUR FRIENDS."

"ONE REASON WHY BOYS BRING HOME SO LITTLE GAME IN PROPORTION TO THE LOAD THEY CARRY, IS THAT THEY USE TOO MUCH POWDER AND TOO LITTLE SHOT. THE HAZARD WADDING KEEPS THE SHOT TOGETHER AND DRIVES IT HARD."

LOCAL NEWS.

Mud and slush are plentiful.

It is about time for another mad-dog to appear.

The Christmas weather arrived a week ahead of time.

Miss Edith Rouse, of Hebron, is very ill of pneumonia.

There will not be much doing in Burlington during the holidays.

This is fine pneumonia weather, and people should be careful not to expose themselves unnecessarily.

A splendid and perfect baker, the Aluminum Lined Garland Cook, sold by Hunter-Harris Co., Rising Sun, Indiana.

Measles is epidemic in several neigborhoods in the county, and in many instances the pneumonia has followed.

If the stove is a Garland it is all you need to know. Call and see them at Hunter-Harris Co., Rising Sun, Indiana.

Orin Phipps passed through town, last Friday, with a double deck load of live turkeys, which he was taking to the city.

Burlington Lodge 264 F. & A. M. will hold its annual election at 9:30 a. m., next Friday. A full attendance of members is desired.

The bank did a good business at the paying teller's window yesterday and day before. The depositors were drawing holiday funds.

A Genuine Singer Sewing Machine will delight the good wife for Christmas—Sold on easy and very reasonable terms by the Hunter-Harris Co., Rising Sun, Indiana.

A number of prominent men of Shelby county interested in the building of good roads will make a strong effort to have the Legislature enact a bill creating a department of road building and engineering in the State College at Lexington.

Bought Another Farm.

Judge Lassing bought of Mrs. Daniel Barlow, last week, 50 acres of land adjoining the farm of Geo. E. Rouse, in the Limaburg neighborhood, being Mrs. Barlow's interest in the land of her father, the late Jordon Beemon. Consideration, $1,300.

A Mad Hog.

Chas. Clore, who lives about three miles out on the East Bend road, killed one of his brood sows, a few days ago, believing she had hydrophobia. She went mad in about the proper time after a rabid dog, which had made a circuit in the country, was killed here in town.

A Defective Flue.

Shortly afternoon, last Thursday, the house belonging to Dr. J. G. Furnish and occupied by Mrs. Lucas, was discovered to be on fire. A portion of the bucket brigade responded to the alarm and put out the fire with a few buckets of water. A defective flue caused the fire.

Ears Badly Frozen.

Jesse Eddins got both of his ears frozen as hard as a rock on the 15th inst. When they were thawed out they began to swell and finally burst. They have been giving him considerable pain, and some of his friends are consoling him with the prediction that they will come off smooth with his head.

Robert Lipscomb, about 24 years old, of the Verona neighborhood, met with a distressing accident, last Thursday afternoon. He and his brother and some friends from the city were out hunting, and coming to a fence Robert climbed over, and then attempted to pull his shot gun muzzle foremost, through a crack in the fence, when one of the hammers was struck by a rail, causing a discharge of the gun, the load of shot taking effect in Libscomb's left arm. His comrades carried him home, when a doctor was called and found him almost exhausted from the loss of blood. It may yet be necessary to amputate the arm.

A Narrow Escape.

Miss Emma, daughter of Jailer T. J. Adams, had a narrow escape from a horrible accident, last Thursday morning. By some means her clothing crught fire from the cook stove, and her screams were heard by her father, who was sitting in the the adjoining room. He hastened to her rescue, and in tearing off her burning garments he got both of his hands burnt considerably. Miss Emma was not burnt, so rapidly did her father do his work, nor did she lose her presence of mind, but her mother was terribly frightened. A thickened milk poultice was applied to Uncle Tommie's hands shortly after they were burnt, and he suffered no pain nor inconvenience from the numerous blisters, although some of the burns extended into the flesh a considerable depth.

If you are doubtful about our prices, we are willing to convince you.
ESKEW'S, Walton, Ky.

A Good Cough Medicine.

(From the Gazette, Toowoomba, Austra la.)

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. Wockener. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefitted, as was Mr. Wockner. This remedy is sold by all druggists.

Owen Co. Lead Mine.

[Owen News.]

The Lockport Lead Mining Company received last Thursday the vast amount of machinery necessary to operate the mine. A towboat was chartered for the purpose. The cost of the machinery, transportation and adjusting is estimated at $15,000. This looks like the company means business. It is backed by home capital and begins its work with flattering prospects for success. The lead belonging to this company is said to be by far the richest yet discovered and certainly gives evidence of large returns to those interested in the enterprise.

Black Leg Among Cattle.

[Williamstown Courier.]

A report from Holbrook, in the extreme western part of the county, says that a strange disease, which is supposed to be black-leg is killing large numbers of cattle throughout that section of the county. What the symptoms are we have been unable to learn up to the present time, but the disease seems to be peculiarly fatal. The cattle take sick and a few hours later die from the attack. Black Leg has afflicted the cattle in many parts of the State within the past few years and it is not unlikely that it has fastened itself upon the cattle of that section.

Glad to go to Penitentiary.

"Negroes as a rule would rather stay in jail than go to the penitentiary," said Judge John Lassing, of the Owen-Boone-Carroll Circuit Court district, "but I sentenced one a few days ago at Owenton who seemed to be delighted to get an opportunity to go. He had been confined in the Owenton jail and a jury gave him eighteen months in the penitentiary. I called him up to sentence him, and asked him if there was any reason why sentence should not be passed. He looked at me for a second or so and said: 'Boss, I don't know what you's going to do with me, but any place am better dan dis jail.' When sentence was pronounced he turned and remarked to another negro prisoner: 'Dat aint long 'nuff fer me to learn de way to de meat house.'"—Courier Journal.

Preparing the Seed Beds.

[The Weed.]

To be successful with this crop all admit that without proper care in preparing the tobacco beds, in which to germinate the seed, the crop will be a failure. Therefore in the fall or early spring the ground that is to be used for these beds should be very carefully prepared. The most successful tobacco growlers claim that if you will break or fallow this ground in the fall and cover thickly with tobacco stalks, removing them in the month of February; then, or any time thereafter, when the soil is sufficiently dry (never when too moist) lightly burning the top or surface so as to destroy all weed and grass seed; then fallow thoroughly and sow one quarter of an ordinary teaspoonful of seed to ten square feet of bed; canvass well and see to it that all side draft is cut off, then there should be no failure in plants, if you allow twenty square feet for each acre of tobacco desired.

The importance of early plants has been most generally recognized by farmers for the reason that we no longer have fresh, virgin soil, upon which to grow tobacco. My motto is, "Be ready."

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt, of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50c. Guaranteed. For sale by W. F. McKim, Burlington, Union Drug Store, Union; J. G. Oelsner, Florence; H. L. Eskew, Walton; O. N. Grrnt, Bellevue.

Santa Claus distributed the usual amount of happiness among the juvenile population, last night.

Says He Was Tortured.

"I suffered such pain from corns I could hardly walk," writes H. Robinson, Hillsborough, Ills., "but Bucklen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by W. F. McKim, Burlington; Union Drug Store, Union; J. G. Oelsner, Florence; H. L. Eskew, Walton; O. N. Grant, Bellevue. 25c.

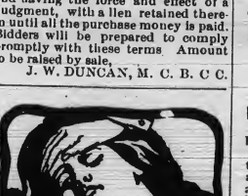
Commissioner's Sale.

Boone Circuit Court, Ky.
J. W. Conner, &c. Plffs.
against Equity.
Jane F. Conner, &c., Defts.

By virtue of a judgment and order of sale of the Boone Circuit Court, rendered at the Aug. term thereof, 1901, in the above cause, I shall proceed to offer for sale at the court-douse door in Burlington, Boone County, Ky., to the highest bidder at public auction, on

Monday, January 6th, 1902,



at 1 o'clock p. m., or thereabout, being county court day, upon a credit of 6, 12, 18 and 24 months, the following described property, to-wit:

Lying and being in Boone county, Ky., on the Covington and Lexington Turnpike and the Cincinnati, New Orleans and Texas Pacific Railroad near Richwood Station, and bounded as follows, to-wit: Beginning at a stone at the northeast corner of a garden on the west side of said pike in a line of the right of way of said railroad; thence with the line of said right of way s 25¼ e 5.44 chains to a stone; thence s 76 e 3.18 chains to a stone; thence with the line of the remainder of the home tract s 51¾ w 8.47 chains to a stone thence; n 41 w.97 chains to a stone; thence n 51¾ e 8.45 chalnes to the beglnulng containing 7.85 acres.

This property will be sold subject to the annual payment of One Hundred and Twenty five ($125) dollars to Jane F. Conner, the 1st of January of each and every year, during her natural life. The first payment to be made January 1st, 1903. Possession will be given March 1st, 1902.

For the purchase price the purchaser, with approved security or securities, must execute bond, bearing legal interest from the day of sale until paid, and having the force and effect of a Judgment, with a lien retained therein until all the purchase money is paid. Bidders will be prepared to comply promptly with these terms. Amount to be raised by sale.

J. W. DUNCAN, M. C. B. C. C.

A really healthy woman has little pain or discomfort at the menstrual period. No woman needs to have any. Wine of Cardui will quickly relieve those smarting menstrual pains and the dragging head, back and side aches caused by falling of the womb and irregular menses.

WINE OF CARDUI

has brought permanent relief to 1,000,000 women who suffered every month. It makes the menstrual organs strong and healthy. It is the provision made by Nature to give women relief from the terrible aches and pains which blight so many homes.

GARENWOOD, L., Oct. 14, 1900.
I have been very sick for some time. I was taken with a severe pain in my side and could not get any relief until I tried a bottle of Wine of Cardui. Before I had taken all of it I was relieved. I feel it my duty to say that you have a wonderful medicine.
MRS. M. A. YOUNT.
